§ 592.605–50 *Instructions for use.* (a) Purchases with this form will be accomplished by an Ordering Officer. The Ordering Officer may be a Contracting Officer or any other person designated by the commanding officer of the installation. For example, representatives of the post repair shop, post supply offices, organizational units, and other offices may be appointed as ordering officers to facilitate the accomplishment of such purchases for the user. The appointment of such Ordering Officers should define the scope and limitations of their authority, such as the supplies or services that may be purchased.

(b) The Ordering Officer will be responsible for assuring that funds have been made available in the estimated amount of the purchase contemplated, and for entering in the appropriate space, on Standard Form 44, the proper accounting classification to be charged. The signature of the Ordering Officer on Standard Form 44 will constitute the certification that funds are available under the appropriation and allotment cited. Where purchases occur frequently, the Ordering Officer may obtain a lump-sum certification of funds from the Fiscal Officer under each applicable allotment account for a specified period of time. The Ordering Officer will advise the Fiscal Officer before the close of each accounting month of the amount of all purchases made on Standard Form 44 which have not been submitted to him for recording the obligation (§ 592.605–51 (l)).

(c) The citation of Section 2 (c) (3), PL 413, 80th Congress on Standard Form 44 is not necessary.

(d) Standard Form 44 may be used for the purchase of supplies or services under the following conditions:

(1) As a purchase order when no special contract form or clauses are necessary.

(2) To order items from the Federal Supply Schedules, or from General Services Administration Stores Depots.

(3) To place delivery orders against open end or call type contracts.

§ 592.605–51 *Preparation.* Ordering Officers will execute Standard Form 44 at the time of purchase. All copies of the form must be legible. Entries will be printed with indelible pencil or ballpoint pen or typed in the spaces, as outlined below:

(a) Enter purchase order number and date of order.

(b) Enter business or trade name and address of the seller.

(c) Enter the name and address of the organization that is to receive the supplies or services.

(d) The columns headed "Quantity" and "Item" will be filled in by the Ordering Officer. The columns headed "Unit Price" and "Totals" and the block designated "Discount Terms" are to be filled in either by the seller or by the Ordering Officer prior to the form being signed by the Ordering Officer.

(e) In the block headed "Agency" enter "Department of the Army", and the name and address of the issuing office or organization:

Example:
Department of the Army
Ordnance Maintenance Shop
Fort Hood, Texas

(f) In the block headed "Appropriation, Limitation, Project or Other Accounting Classification" enter the complete accounting classification against which the purchase is to be charged.

(g) The block headed "Order by" will be signed by and include the title of the Ordering Officer.

(h) The block headed "Purpose" may be left blank.

(i) The signature of the seller must be obtained in the space for certification of the bill or in lieu thereof certified vendor's invoice attached to the original Standard Form 44 (Copy No. 1).

(j) Receipt of the items will be accomplished by the individual authorized to accept the supplies by signing in the block "Received By" on the face of Copy No. 3 and executing a similar receipt on the reverse side of Copies No. 1 and 4.

(k) Receipt of non-personal services will be accomplished by the individual authorized to accept the services by signing in the block "Received By" on the face of Copy No. 3 and executing a certificate of satisfactory performance on the reverse side of Copy No. 1.

(l) For the obligation of funds appropriate vouchers will be transmitted through the Fiscal Officer to the Disbursing Officer, as indicated by flow chart (figure 1).

(m) After the supplies or services have been received, the receiving section executed, and all other entries made, the authorized Certifying Officer will sign the approximate block on the face of Copy No. 1.

(n) The Disbursing Officer will place the order number(s) of Standard Form 44 on the check so that the vendor may identify the transaction.

§ 592.605–52 *When Standard Form 1034 (Public Voucher for Purchases and Services Other Than Personal) is used in conjunction with Standard Form 44.* (a) Standard Form 1034 should be prepared as a voucher by the Fiscal Office or the Fiscal and Accounting Office with Standard Form 44 attached as a subvoucher when:

(1) The name and address of the vendor on Standard Form 44 are not clearly legible.

(2) The amount to be paid the vendor is less than the invoiced amount, apart from the discount deduction. The purchase (or delivery) order number will be indicated thereon so that information with respect to the differences may be forwarded to the vendor with the check.

(3) More than one seller's invoice from the same seller are ready for payment. All such invoices should be consolidated and vouchered on a single Standard Form 1034, indicating thereon the purchase (or delivery) order number of each of the seller's invoices, and paid by a single check.

(b) The signature of the authorized Certifying Officer on Standard Form 1034 will be sufficient in lieu of such signature on each Standard Form 44 that is attached as a subvoucher.

(c) When Standard Form 1034 is used as a voucher, distribution of copies of Standard Form 1034 and 44 will be made as indicated by flow chart (figure 2).

(d) When Ordering Officers anticipate making more than one purchase from the same vendor during a month, the accomplished copies of Standard Form 44 (Copies Nos. 1, 3, and 5) may be held until the end of the month for consolidating the invoices and preparing one voucher, Standard Form 1034, for payment to the vendor. However, action should be taken by the Ordering Officer to see that such a practice is satisfactory to the vendor in order to avoid complaints on delayed payments. When "time payment" discounts are stated on Standard Form 44, appropriate copies will be processed for payment without delay in order to take advantage of the discount.

§ 592.650 *Order and voucher for purchase of supplies or services (DD Form 738 and 738–1).*

§ 592.650–1 *General.* (a) DD Form 738 and 738–1, are printed as carbon interleaved forms (eight sheets per set) and provides in one document a purchase (or delivery) order, a receiving and inspection report, a property voucher, and when supported by a vendor's invoice, a payment voucher.

§ 592.650–2 *Use as a purchase order or delivery order.* (a) DD Form 738 and 738–1, may be used for:

(1) Small purchases in an amount not exceeding $1,000 (§ 3.203 of this title and § 592.203).

(2) Purchases in an amount not exceeding $5,000 in those cases where authority otherwise exists to make procurement by negotiation (§§ 3.201 (for nonperishable subsistence); 3.202 and 3.204 through 3.217 of this title).

(b) DD Form 738 is designed for use where only one payment is contemplated. Although it may be used where not to exceed five payments are ultimately involved in a single transaction, it is not an entirely satisfactory form under such circumstances. Likewise where more than one destination is involved it is necessary to provide additional documents for each additional delivery.

(c) In view of the limitations of DD Form 738 where multiple destinations or payments are known or believed to be probable, DD Form 702 (Order for Purchase of Supplies or Services) used in conjunction with DD Form 250 (Material Inspection and Receiving Report (Domestic)), and Standard Form 1034 (Public Voucher for Purchases and Services Other Than Personal) should be utilized.

§ 592.650–3 *Use in conjunction with monthly charge accounts*—(a) *Definition.* A monthly charge account is a simplified procurement procedure similar to the charge account afforded by a business concern to its customers. It permits the obtaining of supplies and services from vendors without the necessity of preparing individual purchase orders or contracts each time they are ordered. The submission of invoices and processing of payments for supplies and services acquired under a charge account are accomplished periodically as agreed to by the Contracting Officer and the vendor. This charge account procedure differs from the Blanket Purchase Order Method set forth in § 3.606 of this title in the following respects:

(1) A purchase order is not required to be prepared each month to reestablish the charge account. A charge account may be established for any period of time agreed to by the Contracting Officer and the vendor. Normally the billing period does not exceed a one month period.

(2) A purchase order is prepared at the end of a billing period only when purchases have been made against the charge account during the billing period. All items received during the billing period are listed on the purchase order.

(3) The amount to be charged may be $5,000 for any one billing period.

(b) *Establishment.* Contracting Officers may establish monthly charge accounts, provided the vendor consents to the establishment of the account.

(c) *Limitations.* Total orders (dollar value) to be placed against a charge account during an agreed billing period will be limited to $5,000 or less. Individual orders to be placed against charge accounts will be limited to $1,000 or less except for perishable subsistence. This is not meant to limit the use of other authorized purchase order forms if the amount charged in any month exceeds $5,000.

(d) *Commitment of funds.* In order to avoid obligation of funds without the knowledge of the Fiscal Officer, the Contracting Officer will coordinate with the Fiscal Officer to effect, in advance of each billing period, a commitment of funds for the estimated purchases to be made during the billing period.

(e) *Orders placed against charge accounts.* The following procedures will govern:

(1) Individual orders will not be placed against charge accounts until appropriate negotiations have been conducted except, where the order is for $100 or less and the price is known to be reasonably competitive.

(2) Each order placed against a charge account will be identified by a purchase order number. The purchase order number assigned to the initial order may be used on subsequent orders during the same billing period.

(3) Each delivery of supplies and services will be supported by a sales slip (delivery ticket) prepared in triplicate on which acknowledgment of acceptance by the Army is indicated. The following information will be shown on the sales slip:

(i) Name of Contractor.

(ii) Purchase order number.

(iii) Description of supplies or services including stock number, part number, etc., necessary for proper identification.

(iv) Quantity and price of supplies or services.

(4) In the event that the vendor does not furnish a sales slip (delivery ticket) the individual who receives the supplies will prepare DD Form 227 (Receiving Report).

(5) The quantity listed on the sales slip will be verified, exceptions noted, and all copies will be dated and signed by the individual authorized to accept the items. Copies will be distributed as follows:

(i) The original to the Accountable Property Officer. The Accountable Property Officer will voucher and post pertinent information from this copy to the stock record account.

(ii) One copy to the Contracting Officer. The Contracting Officer will retain this copy for use in accomplishing DD Form 738 at the end of the billing period.

(iii) One copy to the vendor.

(f) *Preparation of purchase order (DD Form 738).* At the end of each agreed billing period or when the total amount approaches $5,000, the Contracting Officer will prepare one purchase order (DD Form 738) for the supplies or services furnished during the billing period. The signed copies of the sales slips or receiving reports will be the basis for preparing one purchase order. The receiving report (i. e., inspection and acceptance certification on the reverse of the form) is executed by the Contracting Officer on the basis of the delivery tickets furnished by the Accountable Property Officer. This certificate may be accomplished on Copy No. 1 or Copy No. 8, when the original receiving report is to be forwarded to the General Accounting Office. The Finance and Accounting Officer will sign the administrative certificate on the face of the form. The vendor will be instructed to submit one invoice (3 copies) for the period concerned.

§ 592.650–4 *Use for consolidation of deliveries into one order.* DD Form 738 may be used in a manner similar to that set forth in § 592.650–3 to consolidate deliveries under open-end and call type contracts at the end of a month or more often to effect payment to the vendor. The use of such procedure is subject to the following conditions:

(a) Such action is more practical and economical than processing separate orders, and

(b) The procedure is acceptable to the vendor.

§ 592.650–5 *Use as a receiving and inspection report.* (a) When inspection and/or acceptance is to be other than at destination, the place of such inspection and/or acceptance will be shown in the "Supplies or Services" column on the form. (See clause 1 on reverse of DD Form 738.)

(b) Upon receipt of the items provided for in the order, the Accountable Property Officer or his authorized representative will complete the following:

(1) Quantity accepted (face of form).

(2) Date received (reverse of form).

(3) Delivery by (reverse of form).

(4) Stock record account voucher number (reverse of form).

(5) Signature, grade and designation (reverse of form).

(6) Account serial number (reverse of form), and

(7) Date signed (reverse of form).

(c) The Accountable Property Officer will request disposition instructions from the Contracting Officer for nonacceptable items and overages. Errors such as nomenclature stock number, etc., may be corrected manually.

(d) If inspection is made other than at destination, appropriate copies of Form 738 will be furnished to the inspection office. Accomplished inspection reports will be transmitted to the consignee unless otherwise indicated in each specific case by the Contracting Officer.

(e) Receiving reports will be accomplished within the time specified in SR 715–55–6 (Special Regulations concerning processing of receiving reports).

§ 592.650–6 *Use as a vendor's invoice.* (a) Special care will be exercised to have each vendor follow the instructions on DD Form 738 regarding preparation of vendor's invoice.

(b) When it is desired to utilize DD Form 738 as vendor's invoice, the following certificate will be typed or stamped in the "Supplies or Services" column on the original copy for the General Accounting Office, the copy for the Disbursing Officer, and the copy for the Fiscal Officer: "I certify that the above bill is correct and just and that payment has not been received." Only the original will be signed by the vendor.

§ 592.650–7 *Use as a voucher*—(a) *One payment.* DD Form 738 will be completed and processed as any other

payment voucher. See chart (figure 3) for illustration of the flow of documents.

(b) *More than one payment.* (1) Where more than one payment becomes necessary, original DD Form 738 will be completed for those supplies or services accepted and will be processed for payment in the normal manner.

(2) Subsequent payments not to exceed four may be made, using one of the following methods:

(i) Prepare additional DD Forms 738 citing same order number as the original and indicating in the "Order No." block of the DD Form 738 the number of the partial payment (i. e., 1st partial, 2nd partial, and 3rd and final). Prior to or at the time of processing original DD Form 738 (mentioned in subparagraph (1) of this paragraph) for payment, an additional DD Form 738 will be prepared, setting forth the balance of the undelivered supplies and distributed in the normal manner, except that no copy will be distributed to the vendor. The above procedure will be repeated until final delivery is received. A citation to the name of the Disbursing Officer, period of account, and Disbursing Officer's voucher number will be made on the original and subsequent vouchers. For example, first subsequent voucher will cite original voucher, second subsequent voucher will cite original voucher and first subsequent voucher, etc. Each voucher will be a complete transaction within itself and the cross reference will allow the General Accounting Office to reconcile the entire purchase.

(ii) Prepare Standard Form 1034 (Public Voucher for Purchases and Services other Than Personal) with copies of Receiving Report (DD Form 227), covering partial deliveries, attached thereto. The Standard Form 1034 will cite the same order number as the DD Form 738 and the number of the partial payment (i. e. 1st partial, 2nd partial, and 3rd, and final). The above procedure will be repeated until final delivery is received. A citation to the name of the Disbursing Officer, period of account, and Disbursing Officer's voucher number will be made on the original and subsequent vouchers. For example, first subsequent voucher will cite original voucher, second subsequent voucher will cite original voucher and first subsequent voucher, etc. Each voucher will be a complete transaction within itself and the cross reference will allow the General Accounting Office to reconcile the entire purchase.

(3) See chart (figure 4) for the illustration of the flow of documents.

§ 592.650–8 *Limitations.* (a) DD Form 738 will not be given a contract number under any circumstances. The "order number" space provided is for the purchase order number (i. e., local identification).

(b) Where additional contract clauses or deviations are required for specific purposes, prior approval for their use will be obtained from the Chief, Purchases Branch, Office of the Deputy Chief of Staff for Logistics, Department of the Army. Authority is granted to attach the clauses required by § 12.403–2 of this title to DD Form 738 for use in connection with negotiated contracts for construction where the amount involved does not exceed $1,000. The attaching of vendor's invoices which are required for payment, specifications, drawings, packaging, and marking instructions, and other similar data which are considered an adjunct or a part of the description of the supplies listed on the face of DD Form 738 is authorized.

(c) DD Form 738 will not be utilized for the acceptance of bids after formal advertising.

(d) DD Form 738 will not be used in making purchases when shipment of supplies are to be consigned to a water or aerial port of embarkation for transshipment to an overseas destination. In such instances, purchases will be accomplished by use of other appropriate purchase forms in conjunction with the Materiel Inspection and Receiving Report (Oversea) (DD Form 250–4).

§ 592.650–9 *General Instructions.* The following general instructions are applicable whether the form is issued as a purchase order or as a delivery order:

(a) Supplemental operating procedures as may be necessary in connection with routing of copies of DD Form 738 by a purchasing office may be issued by that purchasing office if deemed essential.

(b) Supplemental agreements and change orders, other than notice of termination for default, may be issued in connection with a purchase made on DD Form 738.

(c) If the purchase is made under § 592.203 and is based on a written quotation, the original quotation may be retained in the contract file (31 Comp. Gen. 124) (§606.201 (b) of this subchapter).

(d) Overages and shortages in the quantities called for on an order may be accepted provided the aggregate amount of the order (including any accepted overages and shortages) does not exceed $5,000. When any such overages or shortages are accepted, an adjustment of the total dollar amount for payment will be made in the "Differences" section of DD Forms 738 and 738–1 after the "Quantity Accepted" column has been completed.

(e) The Contracting Officer is responsible for obtaining from the Fiscal Officer a citation of the proper funds to be charged and for assuring that funds have been made available in the estimated amount of the purchase contemplated. The signature of the Contracting Officer on Copy No. 1 of DD Form 738 (Order and Voucher for Purchase of Supplies or Services) will constitute the certification that funds are available under the appropriation and allotment cited in the accounting classification.

(f) The Certifying Officer will accomplish the administrative certificate on Copy No. 1.

§ 592.650–10 *Termination for default.* (a) If all of the supplies or services ordered on DD Form 738 are terminated for default, notice of termination for default to the vendor will be by letter and a copy of the letter will be filed with the original (white) copy in the Contracting Officer's file and a copy will be furnished each addressee on the original distribution list.

(b) If any or a part of the supplies or services ordered by use of DD Form 738 are terminated for default, notice of termination for default will be by letter, and a copy will be furnished to each addressee on the original distribution list.

(c) When the second attempt is made to procure the supplies, one of the following procedures will apply:

(1) If the price paid is not in excess of the price which was to have been paid under the contract which was terminated, the DD Form 738 covering the second procurement will be processed in the normal manner, and it is not necessary to refer to the terminated procurement document.

(2) If the price exceeds that which would have been paid under the defaulted contract, the Contracting Officer will comply with the provisions of § 596.103–11 of this subchapter.

§ 596.650–11 *Use in postal channels—APO shipments.* (a) DD Form 738 (Order and Voucher for Purchase of Supplies and Services) is authorized for use for parcel post or mail shipments to an APO number as a method of accomplishing small purchases where a purchase order is required.

(b) When making such shipments, external distribution of copies of DD Form 738 is required as follows:

(1) One advance copy mailed to the appropriate oversea supply agency.

(2) Three copies inside the package (none on the outside).

(c) The advance copy forwarded to the oversea supply agency will be annotated with the date of shipment and the quantity shipped as follows:

(1) The date of shipment will be entered in the "Memorandum" block.

(2) Where the quantities shipped represent the total quantities ordered, a statement to that effect will be included in the "Memorandum" block.

(3) Where there is a difference between the quantity ordered and the quantity shipped, the quantity shipped will be entered under the quantity ordered, in the column headed "Quantity (No. of Units)," and an appropriate statement to that effect will be included in the "Memorandum" block.

(d) The Contracting Officer is responsible for assuring that the advance copy is properly annotated and promptly forwarded to the oversea supply agency. The advance copy may be furnished to the oversea supply agency by the Contractor or by the Contracting Officer.

(e) The Contracting Officer will furnish instructions to the Contractor regarding the annotation and distribution required on DD Form 738.

(f) Inspection will be performed at origin only when the dollar value, quantity, nature, or geographical location of the item warrants such action. When origin inspection is not practicable, or is waived by the Contracting Officer, the order will provide for delivery of the shipment to a United States Post Office, postage prepaid and properly addressed to the specified consignee. Acceptance will be accomplished by the Contracting Officer on the basis indicated below:

(1) The Contracting Officer may, at his discretion, require the Contractor to submit a certificate of mailing (Forms 3817 or 3877A obtainable at United States Post Offices) as evidence of dispatch. To assure that prompt payment may be made of the invoice, the purchase order number must be inserted by the Contractor on the certificate of mailing.

(2) Where the Contractor fails to furnish a certificate of mailing, or where the Contracting Officer deems it uneconomical to require the use of the certificate of mailing, acceptance may be accomplished by the Contracting Officer on the basis of a certificate of shipment executed by the vendor as follows:

I certify that the articles in the quantities listed herein have been shipped as indicated.

§ 592.650–12 *Use for shipment to Army attachés.* (a) Certain small purchases made for Army attachés may be shipped direct from Contractors to the Assistant Chief of Staff, Intelligence, for transmittal by surface pouch to the Army attaché concerned.

(b) This method of shipment is subject to the following limitations:

(1) Maximum weight of individual parcels: 41 pounds.

(2) Maximum dimensions:

(i) Boxes—12 by 16 by 18 inches.

(ii) Flat packages—4 by 18 by 18 inches.

(iii) Cylindrical packages—5 inches in diameter, 24 inches long.

(3) Parcels cannot contain:

(i) Perishable, fragile, liquid, explosive, or inflammable articles.

(ii) Firearms.

(iii) Glass containers.

(c) Shipments will be addressed as follows:

U. S. Army Attaché.
City—Country.
c/o Assistant Chief of Staff, Intelligence
Department of the Army
Washington 25, D. C.

Shipments will be further identified by requisition and purchase order number if available.

(d) Copies No. 7 and 8 will be mailed by the Contracting Officer at the time the order is placed to:

Assistant Chief of Staff, Intelligence
Attn: Property Officer
Department of the Army
Washington 25, D. C.

(1) The addressees to which the copies will be returned will be clearly indicated thereon and distributed in accordance with the flow charts figures 3 and 4).

(2) Payment will be made on the basis of the signed acceptance certificate of the Assistant Chief of Staff, Intelligence, Property Officer (Copy No. 8).

§ 592.650–13 *Use of reproducible masters.* Subject to the provisions of § 605.1506–3 of this subchapter, Heads of Procuring Activities may authorize use of reproducible masters.

§ 592.650–14 *Additional instructions.* See § 16.303 of this title and § 605.008 of this subchapter.

§ 592.651 *Applicability to oversea commands.* Since these small purchase procedures were designed primarily to meet conditions existing within the continental United States, they may have limited application in oversea commands. In view of this, major oversea commanders are authorized to make such deviations in these procedures as may be deemed necessary to accomplish their procurement missions provided that such deviations do not result in violation of existing laws, Executive Order, decisions of the Comptroller General, or such other rules or regulations which would render the contract illegal.

5. Section 594.000 is revised, and §§ 594.204 and 594.204–1 are revoked, as follows:

§ 594.000 *Scope of part.* This part sets forth the policy with respect to (a) procurement under Federal Supply Schedule Contracts, and (b) procurement of printing and related supplies.

§ 594.204 *Procurement from Federal supply service stores and depots.* [Revoked.]

§ 594.204–1 *Common administrative supplies.* [Revoked.]

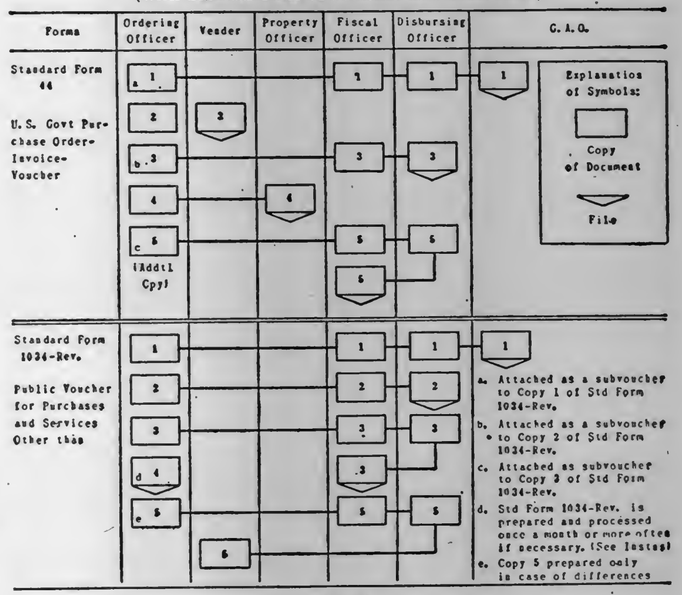

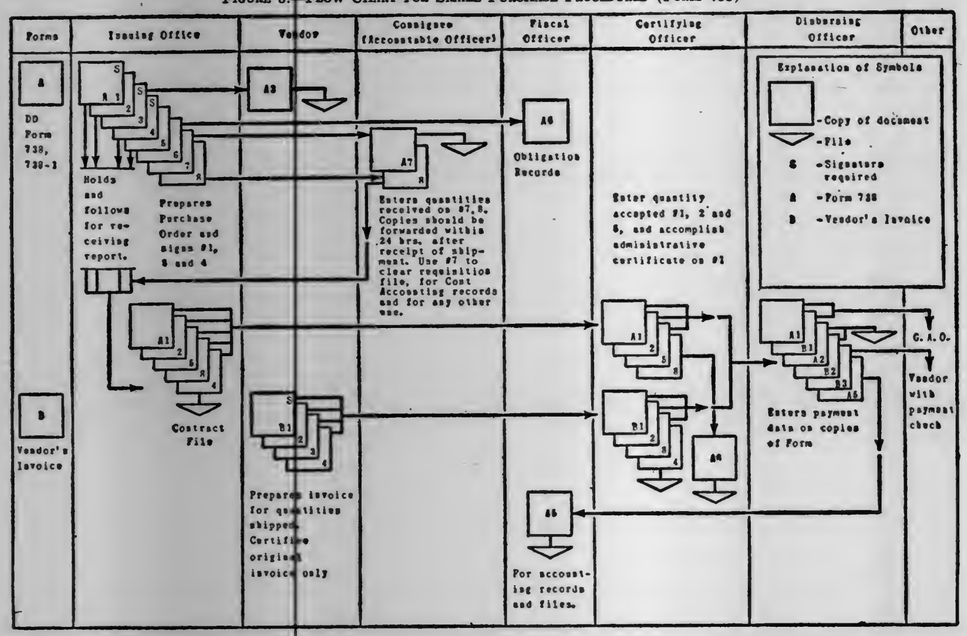

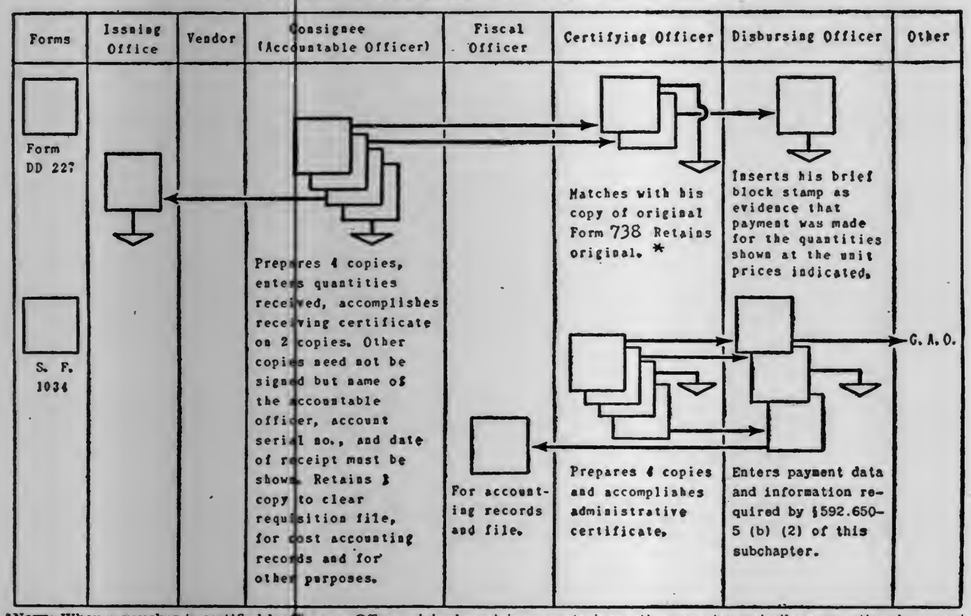

FIGURE 2.

FIGURE 3.—FLOW CHART FOR SMALL PURCHASE PROCEDURES (FORM 738)

NOTE: Where vouchers are certified in the Finance Office, copy #8 will be attached to original Form and forwarded to General Accounting Office.

FIGURE 4.—FLOW CHART FOR PARTIAL DELIVERIES AND PARTIAL PAYMENTS

*NOTE: When a voucher is certified by Finance Office, original receiving reports, inspection reports, or similar supporting documents will be attached to the original voucher.

6. Section 596.051 is added, and § 598.102–1 is revised, as follows:

§ 596.051 *Change orders and supplemental agreements.* Change orders and supplemental agreements are types of contract modifications. A change order is the proper medium for effecting changes under the Changes Clause in § 7.103–2 of this title. If the contract authorizes such changes to be made (including, under certain circumstances, an equitable adjustment in price), change orders may be issued without the consent of the Contractor. A supplemental agreement is the proper medium for effecting all other changes to a contract (i. e., changes not covered by the Changes Clause or other clause of the contract) and which accordingly cannot be made without the consent of the Contractor. A supplemental agreement is in effect a new contract with the same Contractor and is added as a supplement to an existing contract. Regardless of the form of contract employed, the distinction as to whether a supplemental agreement or a change order is required rests upon whether the Contractor is bound by existing contract to perform the proposed change or whether such change cannot be required of him without his consent and acceptance. In connection with change orders and supplemental agreements, it is a requirement that contracts can be modified only in the interests of the Government.

§ 598.102–1 *Authorization and consent in contracts for supplies.* Authorization and Consent for Supplies. The clause set forth in § 9.102–1 of this title shall be included in all contracts for supplies (including construction work) except as otherwise authorized by § 9.102–2 of this title as limited by § 598.102–2.

7. In § 598.105–51, revise paragraph (b), and in § 602.450, revise paragraph (f), as follows:

§ 598.105–51 *Authority.* • • •

(b) *Claims under Mutual Security Acts.* The chiefs of the technical services and others have been delegated authority to enter into agreements in settlement of claims asserted under section 517 of the Mutual Security Act of 1951, and section 506 of the Mutual Security Act of 1954.

§ 602.450 *Contractor operated motor vehicles.* • • •

(f) Whenever license plates are required for Government-owned Contractor-operated vehicles, arrangements will be made through channels to procure United States Government license plates. The requests will be directed to the Commanding General, Transportation Supply and Maintenance Command, St. Louis, Missouri. Information to be forwarded with the request will include the name of the technical service administering the contract, name and location of project, and/or name and address of the Contractor, proper nomenclature of vehicle(s), and U. S. A. registration number(s) if previously assigned and known.

• • • • •

8. Part 603 is revised to read as follows:

**Subpart A—Inspection**

Sec.
603.101 General.
603.102 Responsibility for inspection.
603.102–1 Inspection interchange agreements.
603.103 Inspection requirements.
603.103–2 Inspection at source.
603.150 Marking and shipping.
603.151 Joint procedures.

**Subpart B—Acceptance**

603.200 General.
603.204 Supplies or services not conforming with contract requirements.
603.250 Rejections.

AUTHORITY: §§ 603.000 to 603.250 issued under 62 Stat. 21; 41 U. S. C. 151–162.

§ 603.000 *Scope of part.* This part deals with requirements for the inspection and acceptance of supplies and services procured by the Army Establishment.

**SUBPART A—INSPECTION**

§ 603.101 *General.* All supplies and services procured by the Army Establishment (including those manufactured in the plants owned and operated by it) shall be inspected by or under the supervision of an inspector representing the Government unless otherwise expressly provided in the contract. All military procurement inspection at a plant shall be conducted by a single military inspection activity except as authorized in AR 715–20 (Army Regulations Governing Procurement Inspection).

§ 603.102 *Responsibility for inspection.* (a) Procuring Activities are responsible for determining that Contractors have complied with requirements of the contract or order. Government inspectors determine the degree of compliance with the requirements of specifications and other contract requirements in accordance with procedures primarily established in specifications and contracts. Inspectors are assigned by the inspecting activity to perform inspection services under a given contract. The inspector will be guided by provisions of the contract and instructions issued by the procuring activity.

(b) Inspectors in Government-owned or operated manufacturing installations will not be assigned the dual functions of process inspection for the purpose of controlling production and final inspection for the purpose of accepting the product for military use.

(c) In instances where inspection is to be performed at destination, arrangements normally will be made to have the receiving activity perform the necessary inspection.

(d) Ports of embarkation will not be required to perform procurement inspection of a technical nature for other activities on supplies received in transit for oversea shipment.

(e) Perishable subsistence destined for oversea shipment will be inspected for condition and quantity at ports of embarkation. The Transportation Corps will call on the Quartermaster Corps to make such arrangements as may be necessary to provide the technical inspection required. Branch name items purchased for authorized resale normally will be inspected and accepted at destination.

(f) Inspection at Army terminals of supplies destined for oversea shipment will be accomplished by Contracting Officers or their designated representatives on the basis of tally sheets evidencing receipt of shipment signed by port transportation officers or other designated officials at transshipment points.

§ 603.102–1 *Inspection interchange agreements.* The originating activity will state the requirements for necessary Government inspection equipment and will provide sufficient equipment and service as requested by the inspecting activity. The inspecting activity shall be responsible for such gages or inspection equipment for the duration of the contract. Accountability will remain with the originating activity. The originating activity is responsible normally for maintenance of gages so provided. Upon completion of the contract, the gages or inspection equipment will be returned to the originating activity.

§ 603.103 *Inspection requirements.* (a) Inspection shall be conducted in accordance with (1) provisions of the contract, (2) Subchapter A, Chapter I of this title, (3) this subchapter, (4) AR 715–20 (Army Regulations Governing Procurement Inspection) and (5) instructions issued by the Procuring Activity. The requirements for inspection (including testing) contained in the aforementioned documents are not waived because the item is included on a Qualified Products List.

(b) The amount of inspection will depend upon the importance of items, the importance of individual characteristics, and the past quality performance of Contracts.

(c) Sampling procedures will be used to the maximum extent consistent with required protection of the interests of the Government.

§ 603.103–2 *Inspection at source.* When the contract provides for inspection at source and it is subsequently determined to be in the best interest of the Government to ship prior to inspection, such shipment may be made if the Contractor agrees to bear the costs which may be incurred as a result of a rejection upon completion of the required inspection.

§ 603.150 *Marking and shipping.* Each Procuring Activity will prepare and distribute to their inspection organizations detailed instructions covering proper handling of shipments at Government expense, Government bills-of-lading, parcel post shipments, shipment by Government-owned transportation, emergency shipments, guarding of shipments containing classified supplies and services, shipments at Contractor's expense, and all other necessary instructions. Marking to indicate inspection status shall be accomplished with Department of Defense inspection stamps in accordance with procedures established in AR 715–20.

§ 603.151 *Joint procedures.* All inspection of supplies and services by Army

Procuring Activities will be consistent with Federal and Military Standards.

SUBPART B—ACCEPTANCE

§ 603.200 *General.* Acceptance will be made as promptly as practicable after delivery; however, interests of the Government shall be given primarily consideration, in this connection. All supplies and services procured by the Army Establishment (including those manufactured in the plants owned and operated by it) shall be accepted in accordance with the procedures set forth in Subpart B, Part 14 of this title and this part.

§ 603.204 *Supplies or services not conforming with contract requirements.* Each Procuring Activity will clearly define the extent to which its subdivisions are authorized to approve deviations from contract requirements. Such approval should be made at levels which will provide the utmost rapidity of decision consistent with the best interests of the Government. Where desirable, for reasons of urgency, practicality, or economy, supplies or services which fail to meet all contract requirements may be accepted under special circumstances, subject to equitable adjustments price-wise or otherwise provided for by the contract and which are in the best interests of the Government.

§ 603.250 *Rejections.* (a) Notification of rejections will be given the Contractor and will include the reasons for rejection, and if deemed advisable, any suggestions that might help him in correcting the cause of rejection.

(b) Suitable methods of properly identifying rejected material will be established by the Procuring Activity and will be employed by inspectors in order to eliminate any possibility of the Contractor's resubmitting rejected supplies on which the deficiencies have not been corrected. Such methods also will include provisions for tagging, marking, or isolating provisionally rejected supplies until accepted or finally rejected.

(c) Each Procuring Activity will clearly define the extent to which its subdivisions are authorized to order Contractors to suspend work on contracts involving the use of Government-furnished property when it is evident that considerable spoilage will result. In each case, the Contractor shall be notified in writing to stop the faulty operation responsible for the defect until it has been corrected.

9. In § 605.1506–3, revoke paragraph (e) (2); revise paragraph (b) of § 606.201; and revise paragraph (a) of § 606.202, as follows:

§ 605.1506–3 *Reproducible masters.*

* * *

(e) *Approval of requests.* * * *

(2) [Revoked.]

* * * * *

§ 606.201 *Documentary evidence of purchases.* * * *

(b) Negotiated purchases not in excess of $1,000 which are based on an oral quotation or a written quotation not solicited by formal advertising will be effected by a purchase order signed by the Contracting Officer. If the purchase is made under the authority of § 592.203 of this subchapter the original of any written quotation supporting the transaction need not be forwarded to the General Accounting Office, but if not it will be retained in the contract file (31 Comp. Gen. 124). This exemption does not apply to purchases under the imprest fund procedure. Imprest fund transactions will be accomplished under § 592.604 of this subchapter.

§ 606.202 *Execution of contracts; requirements*—(a) *Availability of funds.* Contracting Officers will, prior to the incurrence of an obligation, obtain from the Fiscal Officer a certificate which will contain a citation of the proper funds to be charged and a statement that sufficient funds are available for payment of the contractual obligation to be incurred. The certificate shall be retained in the contract file. The Fiscal Officer who is accounting for the funds will be responsible for determining the proper funds to be charged and the sufficiency thereof and for reserving in the fiscal accounts an amount sufficient to pay the obligation to be incurred. The appropriation and allotment chargeable will be cited on all contracts, purchase orders, and delivery orders. The signature of a Contracting Officer on a contract, purchase order, or delivery order constitutes a certification of the availability and sufficiency of the funds cited. The Contracting Officer will be responsible for assuring that final delivery, acceptance and payment, under the terms of the contract, are completed prior to expiration of the period in which the funds cited in the contract are authorized for expenditure.

PART 609—GRATUITY CLAUSE BOARD

ESTABLISHMENT OF GRATUITIES CLAUSE BOARD

A new Part 609 is added to Subchapter G, to read as follows:

Sec.
609.1 Establishment and authority.
609.2 Composition.
609.3 Procedure.
609.4 Representation before the Board.
609.5 Action required.
609.6 Implementation.

AUTHORITY: §§ 609.1 to 609.6 issued under R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21; 41 U. S. C. 151–162.

SOURCE: AR 15–75, June 11, 1956.

§ 609.1 *Establishment and authority.* There is hereby established in the Department of the Army under the administration of the Deputy Chief of Staff for Logistics, the Department of the Army Gratuities Clause Board for the purpose of giving notice of hearings, conducting hearings, and making findings of fact and recommendations provided for in § 30.4 of this title. The Board has all the authority conferred on the Secretary of the Army by applicable statute and by the contract clause on Gratuities (see § 7.104–16 of this title), subject, however, to the provisions of § 30.4 of this title and this part.

§ 609.2 *Composition* The Board consists of the following:

(a) Voting member, who shall be the presiding officer. This member who shall be trained in the law and have power to administer oaths for Board purposes, shall be furnished by The Judge Advocate General.

(b) Voting member, who shall be furnished by the Deputy Chief of Staff for Logistics.

(c) Voting member, who shall be furnished by the Head of the Procuring Activity having jurisdiction of the contract involved.

(d) Clerk of the Board, without vote, who should be furnished on a permanent basis by the Chief, Purchases Branch, Procurement Division, Office of the Deputy Chief of Staff for Logistics, and who shall maintain and preserve the official files and records of the Board; furnish a copy of the Secretary's decision to the contractor or the public and furnish copies of transcripts to contractors concerned upon payment of reasonable costs as determined by the Department of the Army; and whose office will, in general, serve as the office of record for the Board.

(e) Reporter, without vote, who shall be furnished by the Head of the Procuring Activity concerned on a case-by-case basis, and who shall make a verbatim record of the proceedings and have such record transcribed in the number of copies required. The reporter shall turn over to the Clerk of the Board all transcripts when completed and certified to by the reporter as to their accuracy and completeness. Any additional secretarial or notarial assistance required by the Board shall be furnished by the Head of the Procuring Activity concerned.

§ 609.3 *Procedure.* If for any reason a member becomes incapacitated so as to preclude his further participation in a hearing, the Office of the Deputy Chief of Staff for Logistics shall be promptly advised, and will cause a new member to be furnished from the appropriate source. Before the proceedings resume, following incapacitation of a member, the hearing shall be suspended until the substitute member shall have had an opportunity to read and study the transcript of the evidence presented up to date the hearings were suspended, unless the contractor agrees otherwise. All voting members shall be disinterested parties and in a position to make a fair, unbiased assessment of the evidence. Any member who discovers that he is disqualified for any reason recognized in law as precluding a fair assessment of the evidence shall make known his disqualifications to the Deputy Chief of Staff for Logistics, who will cause a new member to be furnished from the appropriate source. Hearings shall not be conducted by less than three members, unless otherwise agreed to by the contractor. A dissenting member may submit his opinion together with that of the Board majority for consideration by the Secretary. The Board may reduce to writing and file with the Clerk of the Board for approval of the Deputy Chief of Staff for Logistics such internal rules for the conduct of hearings, not inconsistent with § 30.4 of this title and this part as may be necessary for the expeditious and orderly disposition of cases, and such approved rules shall be available to the contractor upon request.

§ 609.4 *Representation before the Board.* Each party may be represented before the Board by counsel, who shall be representative of record for the party concerned. The Government representative of record shall be furnished by The Judge Advocate General.

§ 609.5 *Action required.* Any information received by military or civilian personnel of the Department of the Army which indicates that action under the Gratuities clause may be appropriate shall be reported for evaluation and appropriate action through proper channels to the military commander having jurisdiction over the contract. If evaluation indicates that a hearing under the Gratuities clause may be appropriate, the military commander shall report the facts promptly and directly to the Head of the Procuring Activity concerned, who, in turn, shall report the information to the Deputy Chief of Staff for Logistics, Attn: Chief, Purchases Branch. A complete report of investigation, if required, shall be submitted as soon thereafter as practicable. Information initially reported to the Head of the Procuring Activity shall include:

(a) Name and address of the Contractor together with full information as to form of organization, including names and addresses of principals;

(b) Complete contract data including number, date, estimated date of completion of performance, general description of supplies or services procured, amount, status of performance, and urgency of requirements and availability from other sources;

(c) Summary of the facts concerning the suspected fraud, complete with names and addresses, dates and references to documentary evidence available; and

(d) Status of the investigation, if any, with an estimated date on which it will be submitted. In connection with the investigation, care will be taken to preserve the admissibility of documentary evidence and exhibits, bearing in mind that action adverse to a contractor under the Gratuities clause is subject to review by a competent court. Copies or descriptions will be utilized in the report where necessary or desirable to preserve the chain of custody. The Deputy Chief of Staff for Logistics shall determine whether the matter will be referred for a hearing. Pending this determination the Head of the Procuring Activity shall submit to the Deputy Chief of Staff for Logistics for approval any termination, set-off or withholding action proposed to be taken.

§ 609.6 *Implementation.* When the Deputy Chief of Staff for Logistics determines that a matter should be referred to the Board for hearing, information will be given to the Clerk of the Board, who will notify The Judge Advocate General (Attn: Chief, Procurement Law Division), and the Head of the Procuring Activity concerned, identifying the matter in question. The Judge Advocate General, and the Head of the Procuring Activity, respectively, shall promptly advise the Clerk of the names and office addresses of members, counsel, reporter and secretary which they are furnishing, and the Clerk shall inform all concerned. Every effort consistent with a fair hearing will be taken to expedite the disposition of cases. The presiding officer of the Board is responsible that notices are promptly given and that the case is disposed of in an orderly and expeditious fashion. He will report to the Deputy Chief of Staff for Logistics, through the Clerk of the Board, within 20 days after reference of the case for hearing, the estimated date of completion of the proceedings, and thereafter report as the Deputy Chief of Staff for Logistics may require. Advice concerning the action of the Secretary taken pursuant to paragraph 14, § 30.4 of this title, shall be forwarded by the Deputy Chief of Staff for Logistics to the Head of the Procuring Activity, who shall, without delay, notify the contracting officer thereof and instruct him as required. The Clerk of the Board shall promptly furnish the contractor with a copy of the Secretary's decision, and on request shall make available to the public all final, unclassified decisions of the Secretary. With approval of the Deputy Chief of Staff for Logistics the Clerk may make available to persons properly and directly concerned matters of official record pertaining to the Board.

[SEAL] JOHN A. KLEIN,
*Major General, U. S. Army,*
*The Adjutant General.*

## Chapter VII—Department of the Air Force

Subchapter A—Aid of Civil Authorities and Public Relations

PART 804—RELATIONS WITH AGENCIES OF PUBLIC CONTRACT

RELEASING INFORMATION FOR LITIGATION

In Part 804, new §§ 804.401 to 804.410 are added as follows:

Sec.
804.401 Purpose.
804.402 Policy.
804.403 Responsibility.
804.404 Limitations.
804.405 Requests for interviews or statements.
804.406 Authentication of documents.
804.407 Release to Government contractors.
804.408 Compliance with subpoena.
804.409 Witnesses in private litigation.
804.410 Depositions.

AUTHORITY: §§ 804.401 to 804.410 issued under R. S. 161, sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 22, 171a.

DERIVATION: AFR 110–5, April 6, 1956.

§ 804.401 *Purpose.* Sections 804.401 to 804.410 set forth Department of the Air Force policy concerning what types of official information may be released from Air Force files for use in prospective or pending lawsuits, controversies, hearings, investigations or other civil administrative proceedings in civilian courts, commissions, boards, or other tribunals, hereinafter referred to as "litigation." Sections 804.401 to 804.410 also establish policies and procedures for guidance of military personnel and civilian employees of the Air Force who are requested to appear as witnesses and testify in such matters. The term "official information" includes all documents, files, records or papers within the possession of the Department of the Air Force, its officers, agents or employees, and all matters within the knowledge of such officers, agents or employees obtained by them as a result of or in connection with the performance of their official duties.

§ 804.402 *Policy.* It is the policy of the Department of the Air Force to make official information available for use in litigation and to permit military and civilian personnel to testify concerning such information in its files if material and relevant to the litigation, unless the information in classified defense information, is privileged by law or regulation, or other valid reason for its non-release, exists.

§ 804.403 *Responsibility.* (a) The Judge Advocate General, USAF, is responsible for authorizing the release of Air Force information for use in prospective or pending litigation; he is responsible for prescribing the type of information which is releaseable, and the circumstances under which it may be released by custodians of the information or by persons appearing as witnesses before civilian courts or tribunals.

(b) Each person in the Air Force who has custody of written information desired for use in litigation, or who is requested to appear as a witness and testify, is primarily responsible for compliance with §§ 804.401 to 804.410.

(c) The provisions of §§ 804.401 to 804.410 are not applicable where no Air Force documents or records are involved, and/or the desired testimony of the Air Force witness has no connection with his Air Force duties and the subject matter does not concern Air Force matters. In those cases the witness is governed by the usual rules of law applicable to witnesses in the jurisdiction concerned. Section 804.409 sets forth the circumstances under which these persons can testify.

§ 804.404 *Limitations.* (a) Where the United States is a party to the litigation in question, no information will be released without the concurrence of The Judge Advocate General, USAF, the Attorney General of the United States, or one of their representatives, i. e., a staff judge advocate or a United States Attorney.

(b) Where disclosure of the requested information would aid in the prosecution of a claim against the United States, custodians of records and prospective witnesses are encouraged to seek advice

from their staff judge advocate to obviate any question that the release of the requested information is made "in the proper discharge of his official duties," and, therefore, not in violation of the Federal criminal statute (18 U. S. C. 283).

(c) Where litigation is not pending, custodians of Air Force records should satisfy themselves that the request for information is not frivolous or unreasonable, that litigation is actually contemplated, and that the person requesting the information has a need and the right to know it. If these three tests are not met the custodian should decline to divulge the information, pending institution of the litigation.

(d) Information of a personal nature in Air Force files is treated "confidentially" and will not be released unless a subpoena duces tecum is issued by a court or other body having such powers in whose jurisdiction the custodian is located and the subpoena is properly served on the custodian, or the release of the information is authorized by the staff judge advocate of the command exercising general court-martial jurisdiction or The Judge Advocate General, USAF.

(e) Release of medical information from Air Force files is governed by current pertinent regulations, and will not otherwise be released unless a subpoena duces tecum is issued by a court or other body in whose jurisdiction the custodian is located and the subpoena is properly served on the custodian, or the release of the information is authorized by the staff judge advocate of the command exercising general court-martial jurisdiction, or The Judge Advocate General, USAF.

(f) Classified defense information cannot be released to unauthorized persons or courts under any circumstances, unless the classification is removed. If classified information is properly subpoenaed and it cannot be declassified, the documents, records or files in question will be forwarded to The Judge Advocate General, USAF, for review of the decision as to its declassification and releaseability by Headquarters USAF. Pending this decision, the custodian on whom the subpoena duces tecum has been served will answer the subpoena, tell the court what action he has taken, and inform the court of the contents of §§ 804.401 to 804.410.

§ 804.405 *Requests for interviews or statements.* Requests by parties to private controversies, preliminary to actual litigation, for permission to interview or to obtain statements from Air Force personnel concerning matters related to their official duties or concerning information obtained in their official capacity, may be granted by commanders at appropriate times and places, and under such circumstances as will insure that the provisions of §§ 804.401 to 804.410 are not violated. Identical rules are applicable for the taking of depositions of Air Force personnel.

§ 804.406 *Authentication of documents.* Most State courts and other tribunals will admit into evidence properly authenticated copies of Air Force records, papers, or documents without further identification by the custodian or other witness. In appropriate cases, custodians of records, files or documents are encouraged to release the requested information with a proper certificate; in many instances, this will be satisfactory to the person requesting the information and avoid the necessary court appearance by the custodian. The law provides that in Federal courts copies of Government records, papers or documents are admissible in evidence, if properly authenticated. See 28 U. S. C. 1733. The method of authentication is set out in Rule 44 of the Federal Rules of Civil Procedure (28 U. S. C. 2072).

§ 804.407 *Release to Government contractors.* Contracting officers receiving requests for information from Government contractors for use in contractor litigation should comply with those requests, provided that the provisions of §§ 804.401 to 804.410 are not violated.

§ 804.408 *Compliance with subpoena.* (a) Any person who receives a subpoena requiring him to appear and testify concerning information obtained by him as a result of or in connection with official activities as a member or civilian employee of the Air Force, or produce any Air Force record, file, or documents, will report to his staff judge advocate for advice and instructions. Subpoenas properly served on the prospective witness by a representative of the court or tribunal which has jurisdiction over the witness and the requested record, file, or document, will be complied with, if not otherwise prohibited by §§ 804.401 to 804.410. If §§ 804.401 to 804.410 prevent the witness from testifying or producing the subpoenaed documents, the witness will appear at the time and place stated in the subpoena, and respectfully advise the court or tribunal that Air Force regulations prevent him from testifying on the subject matter in question and/or producing the documents in question; if this does not satisfy the court or tribunal, the witness will furnish them a copy of §§ 804.401 to 804.410 and respectfully request leave of the court for time to submit the problem to The Judge Advocate General, USAF, for decision.

(b) If a subpoena has not been properly issued and served by a court or tribunal having the requisite jurisdiction over the prospective witness, it will be treated as a request for release of information and processed under the provisions of §§ 804.401 to 804.410.

(c) Where §§ 804.401 to 804.410 prohibit release of documents or other information properly subpoenaed, the appropriate custodian or staff judge advocate should consider the appropriateness of informally contacting legal counsel who caused the subpoena to issue. All aspects of the matter should be fully explained to him and releaseable information offered to him, in authenticated form if appropriate.

§ 804.409 *Witnesses in private litigation.* Air Force personnel who are requested to appear and testify in any litigation in which the Federal Government has no interest may be authorized to do so: *Provided,* That §§ 804.401 to 804.410 do not prohibit the release of the information desired and no expense to the Government is involved. If there is any travel, subsistence or other expense involved, it should be paid and arranged for in advance between the prospective witness and the person requesting him to testify.

§ 804.410 *Depositions.* All provisions of §§ 804.401 to 804.410 also apply to testimony given by military and civilian personnel in deposition form.

[SEAL] E. E. TORO,
*Colonel, U. S. Air Force,*
*Air Adjutant General.*

[F. R. Doc. 56-4795; Filed, June 18, 1956; 8:51 a. m.]

## TITLE 36—PARKS, FORESTS, AND MEMORIALS

### Chapter I—National Park Service, Department of the Interior

PART 20—SPECIAL REGULATIONS

ROCKY MOUNTAIN NATIONAL PARK; EATING AND DRINKING ESTABLISHMENTS ON PRIVATELY OWNED LANDS

MAY 21, 1956.

By notice of proposed rule making published in the FEDERAL REGISTER on April 18 (21 F. R. 2527), the public was invited to submit written data, views, or arguments in connection with regulations proposed to be adopted by the Superintendent of Rocky Mountain National Park governing eating and drinking establishments on privately-owned lands within the Park. Such written views were required to be filed with the Superintendent of Rocky Mountain National Park, National Park Service, Department of the Interior, Post Office Box 1086, Estes Park, Colorado, within thirty days from the publication of the notice in the FEDERAL REGISTER.

No data, views, or arguments having been received in response to the said notice, the following regulations, to become effective thirty days after publication in the FEDERAL REGISTER, are adopted.

Section 20.7 is amended by adding a new paragraph (i), reading as follows:

(i) *Regulations governing eating and drinking establishments on privately-owned lands*—(1) *Definitions.* The following definitions shall apply in the interpretation and enforcement of this part:

(i) *Restaurant.* The term "restaurant" shall mean restaurant, coffee shop, cafeteria, short order cafe, luncheonette, tavern, sandwich stand, soda fountain, and all other eating or drinking establishments, as well as kitchens or other places in which food or drink is prepared for sale elsewhere.

(ii) *Employee.* The term "employee" shall mean any person who handles food or drink during preparation or serving, or who comes in contact with any eating or cooking utensils, or who is employed in a room in which food or drink is prepared or served.

(iii) *Utensils.* "Utensils" shall include any kitchenware, tableware, glassware, cutlery, utensils, containers, or other equipment with which food or drink comes in contact during storage, preparation, or serving.

(iv) *Superintendent.* The term "Superintendent" shall mean the Superintendent of Rocky Mountain National Park or his authorized representative.

(v) *Person.* The word "person" shall mean person, firm, corporation, or association.

(2) *Examination and condemnation of unwholesome or adulterated food or drink.* Samples of food, drink, and other substances may be taken and examined by the Superintendent as often as may be necessary for the detection of unwholesomeness or adulteration. The Superintendent may condemn and forbid the sale of, or cause to be removed or destroyed, any food or drink which is unwholesome or adulterated.

(3) *Sanitation requirements for restaurants.* All restaurants shall comply with all of the following items of sanitation:

(i) *Floors.* The floors of all rooms in which food or drink is stored, prepared, or served, or in which utensils are washed, shall be of such construction as to be easily cleaned, shall be smooth, and shall be kept clean and in good repair.

(ii) *Walls and ceilings.* Walls and ceilings of all rooms shall be kept clean and in good repair. All walls and ceilings of rooms in which food or drink is stored or prepared shall be finished in light color. The walls of all rooms in which food or drink is prepared or utensils are washed shall have a smooth, washable surface up to the level reached by splash or spray.

(iii) *Doors and windows.* When flies are prevalent, all openings into the outer air shall be effectively screened and doors shall be self-closing, unless other effective means are provided to prevent the entrance of flies.

(iv) *Lighting.* All rooms in which food or drink is stored or prepared or in which utensils are washed shall be well lighted.

(v) *Ventilation.* All rooms in which food or drink is stored, prepared, or served, or in which utensils are washed, shall be well ventilated.

(vi) *Toilet facilities.* Every restaurant shall be provided with adequate and conveniently located sanitary toilet facilities for its employees, conforming to the requirements of the Superintendent. The doors of all toilet rooms shall be self-closing. Toilet rooms shall be kept in a clean condition, in good repair, and well lighted and ventilated. Hand-washing signs shall be posted in each toilet room used by employees. In case privies or earth closets are permitted and used, they shall be of a sanitary type, separate from the restaurant building, and shall be fly and rodent proof.

(vii) *Water supply.* Running water under pressure shall be easily accessible to all rooms in which food is prepared or utensils are washed, and the water supply shall be adequate, and of a safe, sanitary quality.

(viii) *Lavatory facilities.* Adequate and convenient hand-washing facilities shall be provided, including hot and cold running water, soap, and approved sanitary towels. The use of a common towel is prohibited. No employee shall resume work after using the toilet room without first washing his hands.

(ix) *Construction of utensils and equipment.* All multi-use utensils and all show and display cases or windows, counters, shelves, tables, refrigerating equipment, sinks, and other equipment or utensils used in connection with the operation of a restaurant shall be so constructed as to be easily cleaned and shall be kept in good repair. Utensils containing or plated with cadmium or lead shall not be used: *Provided,* That solder containing lead may be used for jointing.

(x) *Cleaning and bactericidal treatment of utensils and equipment.* (*a*) All equipment, including display cases or windows, counters, shelves, tables, refrigerators, stoves, hoods, and sinks, shall be kept clean and free from dust, dirt, insects, and other contaminating material. All cloths used by waiters, chefs, and other employees shall be clean. Single-service containers shall be used only once.

(*b*) All multi-use eating and drinking utensils shall be thoroughly cleaned and effectively subjected to an approved bactericidal process after each usage. All multi-use utensils used in the preparation or serving of food and drink shall be thoroughly cleaned and effectively subjected to an approved bactericidal process immediately following the day's operation. Drying cloths, if used, shall be clean and shall be used for no other purpose.

(*c*) No article, polish, or other substance containing any cyanide preparation or other poisonous material shall be used for the cleansing or polishing of utensils.

(xi) *Storage and handling of utensils and equipment.* After bactericidal treatment, utensils shall be stored in a clean, dry place protected from flies, dust, and other contamination, and shall be handled in such a manner as to prevent contamination as far as practicable. Single-service utensils shall be purchased only in sanitary containers, shall be stored therein in a clean, dry place until used, and shall be handled in a sanitary manner.

(xii) *Disposal of wastes.* All wastes shall be properly disposed of, and all garbage and trash shall be kept in suitable receptacles, in such manner as not to become a nuisance.

(xiii) *Refrigeration.* All readily perishable food and drink shall be kept at or below 50° F. except when being prepared or served. Waste water from refrigeration equipment shall be properly disposed of.

(xiv) *Wholesomeness of food and drink.* All food and drink shall be clean, wholesome, free from spoilage, and so prepared as to be safe for human consumption. All milk, fluid milk products, ice cream, and other frozen desserts served shall be from approved sources. Milk and fluid milk products shall be served in the individual original containers in which they were received from the distributor or from a bulk container equipped with an approved dispensing device: *Provided,* That this requirement shall not apply to cream, which may be served from the original bottle or from a dispenser approved for such service. All oysters, clams, and mussels shall be from approved sources, and if shucked shall be kept until used in the containers in which they were placed at the shucking plant.

(xv) *Storage, display, and serving of food and drink.* All food and drink shall be so stored, displayed, and served as to be protected from dust, flies, vermin, depredation and pollution by rodents, unnecessary handling, droplet infection, overhead leakage, and other contamination. No animals or fowls shall be kept or allowed in any room in which food or drink is prepared or stored. All means necessary for the elimination of flies, roaches, and rodents shall be used.

(xvi) *Cleanliness of employees.* All employees shall wear clean outer garments and shall keep their hands clean at all times while engaged in handling food, drink, utensils, or equipment. Employees shall not expectorate or use tobacco in any form in rooms in which food is prepared.

(xvii) *Miscellaneous.* The premises of all restaurants shall be kept clean and free of litter or rubbish. None of the operations connected with a restaurant shall be conducted in any room used as living or sleeping quarters. Adequate lockers or dressing rooms shall be provided for employees' clothing and shall be kept clean. Soiled linens, coats, and aprons shall be kept in containers provided for this purpose.

(4) *Disease control.* No person who is affected with any disease in a communicable form or is a carrier of such disease shall work in any restaurant, and no restaurant shall employ any such person or any person suspected of being affected with any disease in a communicable form or of being a carrier of such disease. If the restaurant manager suspects that any employee has contracted any disease in a communicable form or has become a carrier of such disease he shall notify the Superintendent immediately. A placard containing this section shall be posted in all toilet rooms.

(5) *Procedure when infection suspected.* When suspicion arises as to the possibility of transmission of infection from any restaurant employee the Superintendent may require any or all of the following measures:

(i) The immediate exclusion of the employee from all restaurants.

(ii) The immediate closing of the restaurant concerned until no further danger of disease outbreak exists, in the opinion of the Superintendent.

(iii) Adequate medical examinations of the employee and of his associates, with such laboratory examinations as may be indicated.

(Sec. 3, 39 Stat. 535, as amended; 16 U. S. C. 3)

Issued at Rocky Mountain National Park, Colorado, this 21st day of May 1956.

JAMES V. LLOYD,
*Superintendent.*

## TITLE 43—PUBLIC LANDS: INTERIOR

### Chapter I—Bureau of Land Management, Department of the Interior

PART 161—THE FEDERAL RANGE CODE FOR GRAZING DISTRICTS

SPECIAL RULE TO ESTABLISH PRIORITY PERIOD FOR DETERMINING DEPENDENCY BY USE OF BASE PROPERTIES UTILIZING CERTAIN FEDERAL RANGE IN MALTA GRAZING DISTRICT (MONTANA NO. 1)

JUNE 12, 1956.

Pursuant to the delegation of authority from the Secretary of the Interior conveyed by Departmental Order No. 2583, of August 16, 1950, and in accordance with the provision of 43 CFR 161.16, notice is hereby given as follows:

Upon recommendation of the advisory board of the Malta Grazing District (Montana No. 1), and a factual showing of its necessity having been made by the State Supervisor, concurred in by the Area Administrator, a special rule is hereby prescribed for the purpose of classifying and determining the dependency by use of base properties utilizing certain Federal range in Montana Grazing District No. 1. These Federal range lands were formerly administered by Montana Cooperative State Grazing Districts under an agreement with the Bureau of Land Management, and are now being administered directly by the Bureau.

As applied to the lands described below, the provisions of § 161.2 (k) of the Federal Range Code (43 CFR 161.2 (k)), are modified to read as follows:

§ 161.2 *Definitions.* • • •

(k) (1) (i) "Land dependent by use" means forage land other than Federal range of such character that the conduct of an economic livestock operation requires the use of some part of the Federal range described below in connection with it and which in the "priority period" was used as a part of an established, permanent, and continuing livestock operation during each year of such priority period in connection with such Federal range.

(ii) The priority period shall be the five-year period immediately preceding January 1, 1953.

(2) (i) Base lands shall be considered as "dependent by use" (class 1) only where and to the extent that during each year of such priority period licenses for use of the Federal range in connection therewith were issued under the rules and regulations of the Montana Cooperative State Grazing Districts.

(ii) No lands shall be considered as "dependent by use" unless offered as base property in an application to the Bureau of Land Management for a grazing license or permit within one year from the effective date of this notice.

(3) The extent to which grazing licenses or permits will be granted on the basis of dependency by use of land shall be governed by the following:

(i) It shall not exceed the average annual amount of forage customarily and properly utilized by the livestock operation, computed on the basis of the full five years of the priority period, on that part of the public land which at the time of the issuance of the license or permit is Federal range.

(ii) It shall not exceed the amount of forage needed for the proper support of the number of livestock creating such dependency by use which is available on the base property during the minimum period established under § 161.4.

The grazing privileges which may be granted hereunder shall not exceed the amounts determined under subdivision (i) or (ii) of this subparagraph, whichever is the lesser. Where the base property provides forage in excess of that necessary for the proper support of the number of livestock used in creating the dependency by use (class 1) the base property, to the extent of such excess forage capacity, may be treated as dependent by location (class 2) if so qualified.

(iii) Whenever the dependency by use of two or more base properties was created by the use of all or part of the same Federal range, during the same or at different seasons of the year, by two or more livestock operations, the relative dependency by use of each of the base properties shall be proportionate to the average annual use actually and properly made of the Federal range during the priority period by each of the livestock operations.

NOTE: The provisions of this special rule shall apply to the Federal range located within the following-described areas:

Tps. 24, 25, 26 N., R. 40 E., that part north and west of Fort Peck Lake;
T. 27 N., R. 40 E., all;
Tps. 23, 24, 25, N., R. 39 E., that part north and west of Fort Peck Lake;
Tps. 26, 27 N., R. 39 E., all;
Tps. 28, 29 N., R. 39 E., that part south and west of Milk River;
T. 23 N., R. 38 E., that part north and west of Fort Peck Lake;
Tps. 24 to 28 N., incl., R. 38 E., all;
T. 29 N., R. 38 E., that part south and west of Milk River;
Tps. 22, 23 N., R. 37 E., that part north and west of Fork Peck Lake;
Tps. 24 to 29 N., incl., R. 37 E., all;
T. 30 N., R. 37 E., that part south and west of Milk River;
Tps. 26, 27 N., R. 36½ E., all;
T. 22 N., R. 36 E., that part north of Fort Peck Lake;
Tps. 23 to 29 N., incl., R. 36 E., all;
T. 30 N., R. 36 E., that part south and west of Milk River;
T. 22 N., R. 35 E., that part north of Fort Peck Lake;
Tps. 23 to 30 N., incl., R. 35 E., all;
Tps. 31, 32 N., R. 35 E., that part south and west of Milk River;
T. 22 N., R. 34 E., that part north of Fort Peck Lake;
Tps. 23 to 29 N., incl., R. 34 E., all;
T. 30 N., R. 34 E., all of secs. 1, 12, 13, 24, 25 and 36;
T. 31 N., R. 34 E., all of secs. 1, 2, 3, 10 to 15, incl., 22 to 27, incl., 34 and 35.
T. 22., R. 33 E., that part north of Fort Peck Lake;
T. 23 N., R. 33 E., all;
T. 24 N., R. 33 E., secs. 25 to 36, incl.;
T. 22 N., R. 32 E., that part north of Fort Peck Lake;
T. 23 N., R. 32 E., all;
T. 24 N., R. 32 E., S½ sec. 21, S½ sec. 22, S½ sec. 29; S½ sec. 30, and all of secs. 25, 26, 27, 28, 31, 32, 33, 34, 35 and 36;
Tps. 21, 22 N., R. 31 E., all north of Fort Peck Lake;
T. 23 N., R. 31 E., all;
T. 24 N., R. 31 E., all of sec. 31;
Tps. 20, 21 N., R. 30 E., that part north of Fort Peck Lake;
Tps. 22, 23 N., R. 30 E., all;
T. 24 N., R. 30 E., secs. 28 to 36, incl.;
T. 21 N., R. 29 E., that part north of Fort Peck Lake;
T. 22 N., R. 29 E., all;
T. 23 N., R. 29 E., all of secs. 1, 3 to 35, incl.;
T. 24 N., R. 29 E., all of secs. 31 to 34, incl.;
T. 21 N., R. 28 E., that part north of Missouri River;
Tps. 22, 23 N., R. 28 E., all;
T. 24 N., R. 28 E., all of secs. 6, 7, 8, 10, 11, 13, 17, 18, 19, 20, 27 to 35, incl.;
T. 21 N., R. 27 E., that part north of Missouri River;
Tps. 22, 23, 24 N., R. 27 E., all;
T. 24 N., R. 26½ E., all;
T. 25 N., R. 27 E., secs. 7, 8, 17, 20, 21, 25 to 36, incl.;
T. 26 N., R. 27 E., secs. 7, 15, 17, 18, 19, 20, 21, 28, 29, 30;
T. 21 N., R. 26 E., that part north of Missouri River;
Tps. 22, 23, 24 N., R. 26 E., all;
Tps. 25, 26 N., R. 26 E., that part east of Fort Belknap Indian Reservation;
T. 21 N., R. 25 E., that part north of Missouri River;
Tps. 22, 23, 24 N., R. 25 E., all;
T. 25 N., R. 25 E., that part south of Fort Belknap Indian Reservation;
Tps. 21, 22 N., R. 24 E., that part north of Missouri River;
Tps. 23, 24 N., R. 24 E., all;
T. 25 N., R. 24 E., that part south of Fort Belknap Indian Reservation;
T. 22 N., R. 23 E., that part north of Missouri River;
Tps. 23, 24 N., R. 23 E., all;
T. 25 N., R. 23 E., that part south of Fort Belknap Indian Reservation;
T. 23 N., R. 22 E., that part north of Missouri River;
T. 24 N., R. 22 E., all;
Tps. 25, 26 N., R. 22 E., that part south and west of Fort Belknap Indian Reservation;
Tps. 23, 24 N., R. 21 E., that part north of Missouri River;
Tps. 25, 26 N., R. 21 E., all;
T. 23 N., R. 20 E., that part north of Missouri River;
Tps. 24, 25, 26 N., R. 20 E., all;
T. 23 N., R. 19 E., all north of Missouri River;
Tps. 24, 25, 26 N., R. 19 E., all;
T. 23 N., R. 18 E., that part north of Missouri River;
Tps. 24, 25, 26 N., R. 18 E., all;
T. 23 N., R. 17 E., all of secs. 1, 2, 3, 10, 11, 12, 13, 14, 15 and 24; that part of secs. 22, 23, 25 north of Missouri River;
T. 24 N., R. 17 E., all of secs. 7 to 27, incl.; and secs. 34, 35, 36;
T. 25 N., R. 17 E., all of secs. 1, 2, 3, 7 to 36, incl.;
T. 26 N., R. 17 E., all of secs. 1, 2, 3, 10, 11, 12, 13, 14, 15, 22, 23, 24, 25, 26, 27, 34, 35, 36;
T. 25 N., R. 16 E., all of secs. 11, 12, 13, 14, 23, 24, 25, 26, 35, 36.

## TITLE 49—TRANSPORTATION

### Chapter I—Interstate Commerce Commission

[S. O. 910]

PART 95—CAR SERVICE

RAILROAD OPERATING REGULATIONS FOR MOVEMENT OF LOADED FREIGHT CARS

JUNE 13, 1956.

Pursuant to notice of April 13, 1956, that in view of the temporary restraining order issued by the United States District Court for the District of Oregon, Civil Action No. 8541, dated April 7, 1956, no action would be taken to enforce Service Order No. 910 (21 F. R. 1798) until further order of the Commission, and said temporary restraining order having been dissolved.

It is ordered hereby that on and after this date the provisions of said Service Order No. 910 (21 F. R. 1798) will be enforced by the Commission.

Notice hereof will be given to the general public by depositing a copy of this notice in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission.

[SEAL] HAROLD D. MCCOY,
*Secretary.*

# PROPOSED RULE MAKING

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### [ 7 CFR Part 28 ]

COTTON STANDARDS

PROPOSED REVISION OF OFFICIAL STAPLE STANDARDS FOR UNITED STATES COTTON LINTERS

Notice is hereby given that the United States Department of Agriculture is considering a revision of the official staple standards for United States cotton linters (7 CFR 28.209, as amended), pursuant to authority contained in the United States Cotton Standards Act, as amended (42 Stat. 1517; 7 U. S. C. 51 et seq.).

Under the official staple standards for linters, effective July 1, 1956, the staple normal for each grade as illustrated in the official standards for linters grades 1 through 7 is designated as staples 1, 2, 3, 4, 5, 6, and 7 respectively. The Department will make available for the 1956–57 season official staple guides for staples 1 through 7. These official staple guides were approved by the cotton linters industry at a linters standards meeting held by the Department in Washington on June 4, 1956, and will be used in the practical determination of staple classification of cotton linters in the 1956–57 season. Effective July 1, 1956, in linters classification the grade and staple shall be determined and designated separately.

The Department proposes to establish, effective July 1, 1957, official staple standards for staples 1 through 7 based on the representative portions of linters approved by the Department and the cotton linters industry for the official staple guides. The United States Cotton Standards Act requires one year's notice before the effective date of new standards.

The proposed amendment of the regulations governing cotton linters standards to be effective July 1, 1957, would be as follows:

1. Change the undesignated center head immediately preceding § 28.201 (as amended 20 F. R. 4615) to read "Official Cotton Linters Standards Of The United States For Grade."

2. Delete § 28.209 (as amended 20 F. R. 4617) and substitute the following:

OFFICIAL COTTON LINTERS STANDARDS OF THE UNITED STATES FOR STAPLE

§ 28.215 *Staple 1.* Staple 1 shall be United States cotton linters which in staple is within the range represented by a quantity of cotton linters in the custody of the United States Department of Agriculture marked "Original Official Cotton Linters Standard of the United States, Staple 1, effective July 1, 1957."

3. Add new §§ 28.216 through 28.221, and define in each section in ascending numerical order staples 2 through 7, respectively, in identical language to that contained in § 28.215 except for the substitution of the appropriate staple designation.

4. Add new § 28.222 to read as follows:

§ 28.222 *Below 7 staple.* Cotton Linters which in staple is below Staple 7 shall be designated as "Below 7" staple.

Any interested person who wishes to submit written data, views, or arguments concerning the proposed revision may do so by filing them with the Director, Cotton Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 7 days after publication of this notice in the FEDERAL REGISTER.

Dated: June 15, 1956.

[SEAL] FRANK E. BLOOD,
*Acting Deputy Administrator, Agricultural Marketing Service.*

### [ 9 CFR Part 131 ]

HANDLING OF ANTI-HOG-CHOLERA SERUM AND HOG-CHOLERA VIRUS

APPROVAL OF BUDGET AND FIXING OF RATE OF ASSESSMENT FOR CALENDAR YEAR 1956

Consideration is being given to the approval of a budget of expenses of the Control Agency established under the marketing agreement and the marketing order (9 CFR 131.1 et seq.), regulating the handling of anti-hog-cholera serum and hog-cholera virus, and the fixing of the rate of assessment to be paid by handlers, for the calendar year 1956, as follows:

§ 131.156 *Budget of expenses and rates of assessment for the calendar year 1956*—(a) *Budget of expenses.* The expenses which will necessarily be incurred by the Control Agency, established pursuant to the provisions of the marketing agreement and of the marketing order, for the maintenance and functioning of said Agency during the calendar year 1956, will amount to $40,090.00 under the recommendation of the Control Agency.

(b) *Rates of assessment.* Of the amount of $40,090.00 to be collected during the calendar year 1956, the sum of $30,789.12 shall be assessed against handlers who are manufacturers, and $9,300.88 shall be assessed against handlers who are wholesalers. The pro rata share of the expenses of the Control Agency to be paid for the calendar year 1956 by each handler who is a manufacturer shall be $18.84 for each ten thousand dollars or fraction thereof of serum and virus sold by such handler during the calendar year 1955 and the pro rata share of such expenses to be paid for the calendar year 1956 by each handler who is a wholesaler shall be $25.00 for the first ten thousand dollars or fraction thereof and $7.95 for each additional ten thousand dollars or fraction thereof of serum and virus sold by such handler. Such assessments shall be paid by each respective handler in accordance with the applicable provisions of the marketing agreement and order.

(c) *Terms.* As used in this section, the terms "handler", "manufacturer", "wholesaler", "virus", and "serum" shall have the same meaning as is given to each such term in said marketing agreement and marketing order.

Interested parties may obtain copies of the budget mentioned herein from the Executive Secretary of the Control Agency, 512 Veterans of Foreign Wars Building, Kansas City 11, Missouri.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid consideration shall file the same with the Hearing Clerk, Room 112, Building A, United State Department of Agriculture, Washington 25, D. C., not later than the close of business on the twentieth (20th) day after the publication of this notice in the FEDERAL REGISTER. All documents shall be filed in quadruplicate.

(49 Stat. 781; 7 U. S. C. 851 et seq.).

Issued this 13th day of June 1956.

[SEAL] M. R. CLARKSON,
*Acting Administrator, Agricultural Research Service.*

### [ 21 CFR Part 120 ]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

NOTICE OF FILING OF PETITION FOR ESTABLISHMENT OF TOLERANCES FOR RESIDUES OF 3-(*p*-CHLOROPHENYL)-1,1-DIMETHYLUREA

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (1), 68 Stat. 512; 21 U. S. C. 346a (d) (1)), the following notice is issued:

A petition has been filed by E. I. du Pont de Nemours and Company, Wilmington, Delaware, proposing the establishment of tolerances of 1 part per million for residues of 3-(*p*-chlorophenyl)-1,1-dimethylurea in or on the following raw agricultural commodities: Citrus citron, grapefruit, kumquats, lemons, limes, oranges, tangelos, tangerines.

The analytical method proposed in the petition for determining residues of the pesticide chemical is the method described in the notice of filing of the petition for establishing tolerances for residues of 3-(*p*-chlorophenyl)-1,1-dimethylurea in or on several raw agricultural commodities in the FEDERAL REGISTER of July 8, 1955 (20 F. R. 4872).

Dated: June 13, 1956.

## CIVIL AERONAUTICS BOARD

### [ 14 CFR Parts 40, 41, 42 ]

[Draft Release No. 56-16]

TRAINING PROGRAMS AND PROFICIENCY CHECKS (USE OF AIRCRAFT SIMULATORS)

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority vested in the Civil Aeronautics Board, notice is hereby given that the Board proposes to amend Parts 40, 41, and 42 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rule, communications must be received by August 17, 1956. Copies of such communications will be available after August 21, 1956, for examination by interested persons in the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

Parts 40, 41, and 42 of the Civil Air Regulations currently require certain pilot proficiency checks to be accomplished twice a year by each pilot serving as pilot in command in air carrier service. The objective of these checks is to insure that the pilot maintains a high standard of proficiency in the piloting and navigation of the airplane types to be flown by him. The proficiency checks must be given by an authorized representative of the Administrator of Civil Aeronautics or a check pilot of the carrier concerned. In addition to the normal airplane maneuvers, these checks include certain critical maneuvers which are encountered from time to time in air carrier service such as take-offs and landings with inoperative engines, missed approaches, instrument letdowns, and various emergency procedures.

The Administrator, with the approval of the Board, has for several years approved many maneuvers required in the proficiency checks to be accomplished in synthetic trainers which accurately simulate the flight characteristics and the performance of the aircraft, to which a pilot is assigned, through all ranges of normal and emergency operations. This approval has been based in part upon an air carrier's using the approved synthetic trainer in its pilot training program, and the pilot's demonstrating satisfactorily in actual flight his ability to perform at least 4 basic maneuvers, as follows: Flight at minimum speeds, approach to lowest approved minimums, landing under circling approach conditions, and simulated engine failure(s) during take-off.

It must be remembered that these checks are not an end in themselves; they are a measure of the sufficiency of the training program, which an air carrier is required by the Civil Air Regulations to establish, to insure that each pilot is adequately trained to perform the duties to which he is assigned, and that the individual pilot maintains a satisfactory level of proficiency. In other words, they serve as the essential link between the carrier's training program and its goal: safe and efficient flight operations.

The air carrier training programs consist of ground and flight training, conducted by qualified instructors, utilizing adequate ground and flight facilities. These programs are costly to operate, and the carriers are constantly seeking means to improve them and to reduce cost. The Board encourages this objective. One of the means to achieve this end has been the use of the synthetic trainer, simple models of which, restricted almost exclusively to instruction in navigational and instrument approach procedure problems, have been in use for many years. During and after World War II, however, more useful and, correspondingly, more complex trainers were developed and produced, the first one actually being utilized by a large scheduled international air carrier early in 1949. The introduction into service of synthetic trainers, which accurately simulate the flight characteristics and cockpit layouts of particular aircraft types, has paralleled the introduction of costlier, larger, faster, and more expensive to operate transport aircraft. In fact, the intensive developmental work with such aircraft simulators has been due principally to these factors.

The increasing complexity of aircraft, with concomitant need for devices to simulate the flight characteristics of these aircraft, will be further accentuated as turbo-prop and turbo-jet aircraft are procured. More intensive training of pilots and crews will be necessary to insure that they are proficient in the operation of these larger and faster aircraft with their corresponding new operating problems, and this training can only be accomplished at considerably increased costs. In anticipation of this problem, certain carriers are preparing to acquire aircraft simulators before the parent aircraft is put into service. This action is predicated on the assumption that essential training can be conducted in part in aircraft simulators more effectively, safely, and economically than in an aircraft, and with considerable saving in time.

The fundamental characteristics of these aircraft simulators in use and under consideration should be made clear in order that interested persons will clearly understand the nature of the device the Board is discussing in this proposed rule making. The Board has in mind that the aircraft simulator shall be approved by the Administrator as a full scale mock-up of the cockpit interior of a particular type aircraft with normal crew stations, plus accommodations for necessary additional persons such as check airmen, instructors, or observers. It shall also include suitable course and altitude recorders. It shall be capable of accurately reproducing the engine and flight performance, control loading, instrument indication, and control movements of the specific model aircraft during the execution of all normal and anticipated emergency maneuvers. Of great importance is the requirement that the device shall be designed to permit presentation of malfunction of aircraft, aircraft engines, propellers, appliances, systems, and other components, and appropriate procedures to cope with such emergencies. Capabilities, as outlined above, will permit intensive training and checking in normal and abnormal flight conditions, various flight procedures, navigational problems, and essential crew coordination.

It is apparent, therefore, that pilots and crews can obtain training in aircraft simulators which will contribute substantially to a complete familiarity with the aircraft equipment and associated flight procedures in which they are required to be proficient.

The fact that the aircraft simulator is immobile has a distinct psychological training advantage. Training is unhurried and free from the pressures and distractions which are present when training is conducted in actual flight. Greater concentration upon flight and equipment problems is possible. Great economies in time are gained with the result that a great deal more training can be accomplished in a given period of time than is possible in an aircraft. When it is desirable for a particular maneuver or procedure to be repeated, it can be repeated several times, or interrupted if necessary for discussion with the instructor or check airman, or special emphasis may be given some particular point. This can be accomplished with economy of time since it will not be necessary to re-orient the airplane to repeat the problem. Accordingly, in a given time, the aircraft simulator could be, hour for hour, more efficient than the airplane itself in training and checking certain phases of pilot proficiency.

Furthermore, the quality and effectiveness of flight crew training depends very largely upon the opportunities afforded flight personnel to experience realistically the critical situations that they may possibly experience in an airplane, and as members of an integrated and coordinated cockpit team, to take such immediate action as each situation requires. Properly designed and operated simulators afford such opportunities. Additionally, a simulator is available for training practically all of the time. The training is not subject to being cancelled or delayed because of weather or traffic conditions, or because of mechanical irregularities which frequently hold training airplanes on the ground. Over a period of 22 months, the one domestic carrier using aircraft simulators extensively lost less than one percent of the total scheduled training time on account of service and maintenance difficulties. A simulator can be made available for training 24 hours a day, for, unlike an airplane, a simulator is rarely unavailable for training in its entirety. Some particular part or unit of the simulator may be inoperative while being serviced, and at the same time all other features of the machine are available for training.

In addition to the obvious merits of aircraft simulators as training devices, the Board believes that the following reasons for special regulatory treatment of aircraft simulators are compelling. First, it is the Board's opinion that proper use of simulators will enhance the safety of training and proficiency flights. Training may be accomplished in simulators without hazard to the participating crews, other aircraft, or persons or property on the ground. With training devices, it is possible to re-enact emergency situations too hazardous to simulate exactly in an actual airplane in flight, or those which it is impossible to perform in an airplane. For example, simulated engine failures must presently be accomplished in flight at the authorized maximum take-off weight and power, or with a suitable combination of lower weights and power; air carriers, pilots, and CAA have objected to this requirements as being unnecessarily hazardous and burdensome. (The Board is considering deletion of this requirement in a separate rule-making procedure.) Also, such emergency situations as fuel dumping, icing, fire in flight, loss of control, accidental reversing of propellers in flight, and others which cannot reasonably be accomplished in flight, can be simulated realistically, and crewmen can become proficient in taking appropriate corrective action through all degrees of the emergency situation including the "crash" condition.

Second, the chances of mid-air collisions will be reduced. One of the most acute problems facing aviation today is that of collision avoidance. Industry and government alike are devoting considerable effort to its solution. Any procedure that will serve to reduce the probability of collision must be carefully considered. One effective means to do this is to reduce traffic in already congested areas. A type of traffic which can be reduced by utilizing the simulator under proper supervisory control is that traffic created by training operations. Air carrier flight training for the most part must be conducted in the vicinity of large air terminals since these are the areas in which crews normally reside; however, they are also the centers of the most critical traffic congestion. Training flights, which in most cases are partially hooded, require a far greater degree of concentration within the cockpit. By reducing the number of these training flights, the collision hazard would be materially reduced. In addition, the participants in training "flights" conducted in aircraft simulators on the ground are relieved of the anxiety of collision avoidance, and thus a climate conducive to undisturbed instruction is created.

Third, any compromise in the safety of flight which may follow from conducting training with partially hooded cockpits, feathered propellers, and other abnormal aircraft configurations and maneuvers, creates a potential hazard to persons and property on the ground. Since much training flight activity is necessarily conducted at relatively low altitudes in the vicinity of major airports, any reduction in the level of performance of the aircraft must involve some compromise in the safety of the operation. These training operations have not been considered to introduce an intolerable level of safety; however, when training in aircraft simulators can be used to replace training in actual flight in densely populated areas, such a possibility must be explored fully.

Fourth, an important associated aspect of reduced training flights in the congested areas is the resulting reduction in the noise of aircraft activity, which can be annoying to airport neighbors. In fact, noises emanating from training flights can be greater than from normal flight operations due to the necessary sudden surges of power at low altitudes associated with engine inoperative conditions, pullouts, and missed approaches.

Finally, justification for increased use of simulators can also be based on economic considerations. From information available, it appears that the average hourly cost of operating current aircraft simultors is approximately one-third that of operating the parent aircraft. In addition, the use of aircraft simulators reduces the necessity for withdrawal of aircraft from scheduled service—one of the most expensive aspects of pilot training—and reduces the physical abuse to which line aircraft (especially engines) are necessarily subjected during training flights.

The Board has recently received a petition from a large scheduled domestic carrier for relief from certain sections of the Civil Air Regulations which, in the carrier's opinion, prevent full and complete use of aircraft simulators. This petition requested, in part, permission to utilize "electronic-mechanical flight simulators, representative of specific types of aircraft, in lieu of the actual aircraft for the proficiency checks given to pilots serving the air carrier as pilots in command." In justification of its request, the air carrier submitted comprehensive documentation which included, among other data, reference to the facts, conditions, and circumstances outlined in the foregoing explanatory paragraphs. In addition, it submitted two very significant items of information peculiar to its own operations. Over a period of nearly four years, this carrier has accomplished nearly 17,000 hours of training in aircraft simulators, as a supplement to flight training as presently required by the Civil Air Regulations. The petitioner and the pilots of this air carrier both endorse the use of aircraft simulators and recommend that they replace the semiannual proficiency check as presently required. This joint endorsement has been advanced as a strong reason for considering the potentialities of the simulator. It is particularly persuasive since it is based on many thousands of hours of experience and the expenditure of several millions of dollars.

During the same period that the aforementioned air carrier has been using flight simulators, other air carriers and the Administrator have also been studying methods of integrating aircraft simulators into the training programs of air carriers, particularly with reference to the recurrent training and proficiency checks required of pilots in command. In conjunction with this, they have under consideration criteria for the approval of the design of simulators. The Board has been especially impressed by the careful planning evident in the carriers' approach to the use of aircraft simulators and their recognition that they do not provide a magic short cut to flight training or to mastery of a new type aircraft. It is generally agreed that the aircraft simulators are invaluable supplementary training aids which give promise of improving the quality of pilot proficiency in normal and emergency operations, while making possible a substantial reduction in the number of check flights requiring the accomplishment of potentially hazardous maneuvers and complicated emergency procedures. It was significant to the Board that the pilots who had had considerable experience in the trainers endorsed their use. The Board is of the opinion that the advantages of the trainers are so apparent that their controlled introduction into air carrier training procedures on a wider basis is in the public interest and should be encouraged.

In summary, the Board has found, as follows:

Aircraft simulators have been proven as valuable aids in improving the effectiveness of pilot training for instrument and equipment proficiency. The promise of further improvement in training is, in fact, so great that it appears desirable to reduce the number of proficiency checks that pilots are required to take. Simulators are especially adapted to instruction in and practice of numerous emergency procedures which cannot

satisfactorily be accomplished in flight, and permit special emphasis on the coordination of crew duties; they offer a laboratory for experimentation in techniques and procedures which might be time-consuming or hazardous in flight; they will permit training to be conducted with more safety as a result of the reduction of frequency of aircraft operations under simulated emergency conditions; their use will result in the reduction of traffic congestion and noise in large terminal areas; and they will reduce substantially the total cost of pilot training programs.

In determining the most appropriate method to realize the full possibilities of aircraft simulators, the Board cannot lose cognizance of its responsibility to assure the highest degree of safety in air transportation even while taking this opportunity to encourage sound technical and economic development of air carrier operations. It is the Board's opinion, therefore, that use of aircraft simulators in air carrier training programs should be broadened in accordance with these basic principles:

A. The use of simulators will be permissive with the air carriers.

B. Aircraft simulators must simulate the flight characteristics and performance of the corresponding aircraft through virtually all ranges of normal and emergency operations and the Administrator of Civil Aeronautics must so find.

C. In lieu of one of the two proficiency checks required of pilots in command each 12 months, an air carrier may establish within its training programs an aircraft simulator curriculum approved by the Administrator. It is anticipated that the simulator curriculum will consist of at least several hours of training time covering all items currently contained in the flight proficiency checks. This training will be in addition to any other training the carrier chooses to make available to its pilots.

D. Supervisory personnel used in that portion of the training program established in lieu of a proficiency check will be qualified in accordance with requirements approved by the Administrator.

E. The Board will review the experience gained under these regulations to determine the effectiveness of the procedures permitted thereby.

The Civil Aeronautics Administration is in accord with the objectives and the means of attaining them as proposed herein. In addition, however, the Board has received a recommendation from the Administrator of Civil Aeronautics that the Civil Air Regulations include certain specific standards for aircraft simulator equipment which will be used as a basis for approval by the Administrator. In consideration of the significance of this specific proposal, the Administrator's recommendations are included in this notice of proposed rule making as Appendix A for separate industry comment.

In view of the foregoing, notice is hereby given that it is proposed to promulgate amendments to Parts 40, 41, and 42 of the Civil Air Regulations substantially as follows:

1. By amending § 40.302 (b) (1) by adding at the end of the second sentence: "*Provided*, That where an aircraft simulator curriculum approved by the Administrator is included in the air carrier recurrent training program, each such pilot need accomplish only one proficiency check each 12 months: *And provided further*, That when such aircraft simulator curriculum has been approved, the other proficiency check shall be accomplished as otherwise prescribed in this paragraph."

2. By amending § 41.53 by adding at the end of the second sentence: "*Provided*, That where an aircraft simulator curriculum approved by the Administrator is included in the air carrier recurrent training program, each such pilot need accomplish only one proficiency check each 12 months: *And provided further*, That when such aircraft simulator curriculum has been approved, the other proficiency check shall be accomplished as otherwise prescribed in this section."

3. By amending § 42.44 (a) by adding a new subparagraph (4) to read as follows:

(4) Where an aircraft simulator curriculum approved by the Administrator is included in the air carrier recurrent training program, each pilot in command need accomplish in a 12-month period, only one of the equipment checks and only one of the instrument checks required by subparagraphs (2) and (3), respectively, of this paragraph: *Provided*, That when such aircraft simulator curriculum has been approved, the remaining checks shall be accomplished as otherwise prescribed in this paragraph.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposal may be changed in light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601–610, 52 Stat. 1007–1012, as amended; 49 U. S. C. 551–560)

Dated at Washington, D. C., June 13, 1956.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
*Secretary.*

APPENDIX A

The following standards are recommended by the Administrator to be included in the amendments to the Civil Air Regulations pertinent to aircraft flight simulators:

The flight simulator shall be acceptable to the Administrator and shall accurately simulate the flight characteristics, performance, cockpit arrangements and instrument reactions of the applicable aircraft through all ranges of normal and emergency operations. The basic requirements for such devices are as follows:

(1) The simulator shall be a full scale mock-up of the cockpit interior with the normal crew stations plus provisions for three additional persons, such as observers, instructors and/or check airmen.

(2) The engine, flight and radio performance of this equipment shall be simulated on the ground and in flight as hereinafter specified. The effect of changes on the basic forces and moments shall be introduced for all combinations of drag and thrust, normally encountered in flight. The effect of gross weight and center of gravity shall be included. It shall also include suitable course and altitude records.

(3) The simulated engine and flight performance and control loading of this equipment shall conform to those characteristics that are peculiar to the specific airplane under similar conditions of aircraft attitude, power, drag, altitude, temperature, gross weight, center of gravity location and configuration.

(4) Through the medium of instrument indication, it shall be possible to use this equipment in the training and checking of personnel in the operational use of controls and instruments on the model specified during the execution of ground operation, take-off, landing, normal flight, various maneuvers, radio problems and instrument approach procedures, all of which shall be simulated. The simulator shall be designed to permit presentation of malfunction of aircraft engines, propellers, systems, and other components operable by the crew and appropriate emergency duties and procedures to cope with such emergencies.

(5) In response to control movement by any crew member, all instrument indications involved in the simulation of the specific airplane shall be entirely automatic in character unless otherwise specified. The rate of change of simulator instrument readings and of control pressures shall correspond to the rate of change which would occur on the airplane under actual flight conditions, for any given change in the applied load on the controls, in the applied power or in aircraft configuration. Control forces and degree of actuating control travel shall correspond to that which would occur in the airplane under actual flight conditions.

(6) From the normal cockpit interior, the system or condition being simulated, and the degree of simulation, shall be as follows:

| | |
|---|---|
| Noise | All normal cockpit noises with adjustable volume permissible. |
| Surface controls | Full simulation. |
| Gust locks | Full simulation. |
| Trim tabs | Full simulation. |
| Auto pilot | Mock-up. |
| Landing gear operation | Full simulation. |
| Brakes | Full simulation. |
| Steering | Full simulation. |
| Wing flaps | Full simulation. |
| Power plants | Full simulation. |
| Propellers | Full simulation. |
| Fuel and oil system | Full simulation (constant rate of depletion acceptable). |
| Electrical | Full simulation of cockpit and circuit breaker station. |
| Hydraulic system | Full simulation. |
| Lights exterior | Cockpit controls and indication only. |
| Cockpit lights interior | Full simulation. |
| Fire detection and extinguishing | Full simulation. |
| Heating and cooling | Mock-up. |
| Pressurization | Mock-up (for airplanes intended for normal operation below 25,000 feet—instruments and indication above 25,000 feet). |
| Flight instruments | Full simulation. |
| Oxygen system | Partial simulation (masks and cockpit area supply). |
| Outside air temperature vs. altitude. | Full simulation. |
| Static systems | Full simulation. |
| Radio | Full simulation including wind effect in navigation problems. |

## DEPARTMENT OF AGRICULTURE

### Office of the Secretary

KANSAS

DISASTER ASSISTANCE; DELINEATION OF DROUGHT AREA

Pursuant to Public Law 875, 81st Congress, the President determined on August 26, 1954, that a major disaster occasioned by drought existed in the State of Kansas.

Pursuant to the authority delegated to me by the Administrator, Federal Civil Defense Administration (18 F. R. 4609; 19 F. R. 2148, 5364; 20 F. R. 4664), and for the purposes of section 2 (d) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, and section 301 of Public Law 480, 83d Congress, Hodgeman County, Kansas, was determined on June 7, 1956, to be affected by the above-mentioned major disaster.

Done at Washington, D. C., this 13th day of June 1956.

[SEAL] TRUE D. MORSE,
*Acting Secretary.*

[F. R. Doc. 56-4762; Filed, June 18, 1956; 8:45 a. m.]

## DEPARTMENT OF THE TREASURY

### Foreign Assets Control

NATURAL (UNDYED) HOG BRISTLE OF JAPANESE ORIGIN

AVAILABILITY OF LICENSES FOR IMPORTATION

Notice is hereby given that the Treasury Department is now prepared to consider applications for licenses under the Foreign Assets Control Regulations, 31 CFR 500.101–500.808, for the purchase and importation from Japan of Japanese natural (undyed) non-black, hog bristle. Licenses issued pursuant to such applications will authorize the importation of Japanese natural bristle for entry into warehouse. The release from warehouse of bristle imported pursuant to such licenses will be authorized only after the Foreign Assets Control is satisfied by physical inspection of the merchandise, and such other measures as may be appropriate, that the merchandise consists solely of Japanese natural hog bristle.

Applicants are advised that the fact that a licensee has paid for bristle under a license will not be considered a factor warranting release of the bristle from warehouse unless the bristle is found by Foreign Assets Control to consist entirely of natural (undyed) Japanese bristle.

[SEAL] ELTING ARNOLD,
*Acting Director, Foreign Assets Control.*

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

COLORADO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

JUNE 12, 1956.

The United States Forest Service of the Department of Agriculture has filed an application, Serial No. Colorado 014053, for withdrawal of the lands described below, from all forms of appropriation under the public land laws, including the general mining laws but not the mineral leasing laws, subject to existing valid claims.

The applicant desires the land for use as an integral part of the Manitou Experimental Forest in connection with studies concerning the integration of cattle grazing on reseeded and native pasture lands, Pike National Forest.

For a period of thirty (30) days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, 357 New Custom House, P. O. Box 1018, Denver 1, Colorado.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

SIXTH PRINCIPAL MERIDIAN, COLORADO

T. 11 S., R. 69 W.,
Sec. 23: NE¼NE¼.

Total area, 40 acres.

J. ELLIOTT HALL,
*Acting State Supervisor.*

[F. R. Doc. 56-4770; Filed, June 18, 1956; 8:46 a. m.]

[Order 615]

ASSISTANT DIRECTOR IN CHARGE OF OPERATIONS ET AL.

DELEGATION OF AUTHORITY TO ENTER INTO CONTRACTS AND LEASES

JUNE 12, 1956.

SECTION 1. *Authority of certain offices to enter into contracts and leases.* (a) Pursuant to the authority contained in sections 50 and 52 of Order No. 2509, and Amendment 21, November 9, 1954, of the Secretary of the Interior, the following classes of employees are authorized to enter into contracts for construction, supplies (including the rental of equipment) or services, irrespective of amount,[1] and leases of space in real estate as provided in those sections.

Assistant Director in Charge of Operations.
Area Administrators.
Chief, Branch of Administrative Services.

(b) The Managers of the local offices of the Bureau located at Russellville, Arkansas and New Orleans, Louisiana are authorized to enter into such contracts when the amount in any such contract does not exceed $2,000.

(c) The Area Administrators may, in writing, redelegate to any qualified employees of their Area the authority granted in this section. Each redelegation shall be published in the FEDERAL REGISTER.

(d) Contracts and leases entered into under this authority must conform with applicable regulations and statutory requirements and are subject to the availability of appropriations.

SEC. 2. *Negotiation of contracts with educational institutions.* (a) Pursuant to the authority contained in Order No. 2713, of January 13, 1953, the Area Administrators are authorized to negotiate, without advertising, pursuant to section 302 (c) (5) of the Federal Property and Administrative Services Act of 1949, as amended (41 U. S. C., 1946 ed., supp. V, sec. 252), contracts for services to be rendered by any university, college, or other educational institution, in connection with programs and activities of the area.

(b) This authority shall be exercised in accordance with the applicable limitations in the Federal Property and Administrative Services Act of 1949, as amended and in accordance with applicable policies, procedures and controls

[1] Where the amount involved is in excess of $10,000, five working days advance notice to the Office of the Secretary is required in accordance with the Secretary's memorandum of March 2, 1954 and October 17, 1955.

prescribed by the General Services Administration.

SEC. 3. *Revocation.* Bureau Order No. 498 and Amendment 1 thereof are revoked.

EDWARD WOOZLEY,
*Director.*

[F. R. Doc. 56-4772; Filed, June 18, 1956; 8:47 a. m.]

---

[Order 614]

ASSISTANT DIRECTOR IN CHARGE OF OPERATIONS ET AL.

DELEGATION OF AUTHORITY TO TRANSFER, DONATE, OR DISPOSE OF EXCESS OR SURPLUS REAL PROPERTY

JUNE 12, 1956.

SECTION 1. *Authority of certain officers to dispose of excess real property.* Pursuant to the authority contained in section 4 (b) of Order No. 2696 of July 17, 1952, and Amendment 2, January 19, 1954, of the Secretary of the Interior, the following classes of employees are authorized to transfer, donate or dispose of real property and related personal property excess to the needs of the Bureau of Land Management, as provided in that order and in accordance with the Federal Property and Administrative Services Act of 1949 (63 Stat. 377; 40 U. S. C. secs. 471–475) as amended and the regulations issued thereunder contained in 44 CFR 1951 Supp., Part 101:

Assistant Director in Charge of Operations.
Area Administrators.
Chief, Branch of Administrative Services.

(b) The Area Administrators may, in writing, redelegate to any qualified employees of their Area the authority granted in this section. Each redelegation shall be published in the FEDERAL REGISTER.

SEC. 2. *Revocation.* This order revokes Order No. 488, dated October 20, 1952.

EDWARD WOOZLEY,
*Director.*

[F. R. Doc. 56-4773; Filed, June 18, 1956; 8:47 a. m.]

## Bureau of Reclamation

POWELL TOWNSITE, WYOMING

SALE OF LOT

1. *Statutory authority.* One additional lot of the townsite of Powell, Wyoming, will be disposed of in accordance with the Acts of April 16 and June 27, 1906 (34 Stat. 116, 519, 43 U. S. C. 561, 568).

2. *Area and price.*

T. 55 N., R. 99 W., 6th P. M., Powell Townsite, Wyoming; Lot 24 of Block 54; $2,500.00.

3. *Public sale.* On July 9, 1956, at 10 a. m., at the office of the Bureau of Reclamation, Powell, Wyoming, said lot will be sold at public auction to the highest bidder at not less than the appraised value. Purchasers must be citizens of the United States. Robert M. Fagerberg, Chief, Shoshone Field Division, Yellowstone-Bighorn Projects, Bureau of Reclamation, has been designated as superintendent of the sale, and Buford A. Riley, Administrative Services Branch, Shoshone Field Division, Yellowstone-Bighorn Projects, Bureau of Reclamation, as auctioneer.

4. *Terms of sale.* Full payment for the lot must be made in cash on the date of the sale.

5. *Authority of the superintendent.* The superintendent conducting the sale is authorized to refuse any and all bids for the lot and to suspend, adjourn, or postpone the sale of the lot to such time and place as he may deem proper. After the lot has been offered, the superintendent will close the sale. Should the lot remain unsold, it will be subject to private sale by the Manager, Land Office, Cheyenne, Wyoming.

6. *Warning.* All persons are warned against forming any combination or agreement which will prevent any lot or tract from selling advantageously or which will in any way hinder or embarrass the sale. Any persons so offending will be prosecuted under 18 U. S. C. 1860.

Approved: June 5, 1956.

F. M. CLINTON,
*Regional Director.*

[F. R. Doc. 56-4777; Filed, June 18, 1956; 8:48 a. m.]

## National Park Service

[Rocky Mountain National Park Order 3]

SUPPLY OFFICER

DELEGATION OF AUTHORITY TO EXECUTE AND APPROVE CERTAIN CONTRACTS

MAY 14, 1956.

SECTION 1. *Contracts.* The Supply Officer may enter into contracts not in excess of $10,000 for supplies, equipment, or services in conformity with applicable regulations and statutory authority and subject to availability of appropriations. This authority may be exercised by the Supply Officer in behalf of any office or area under the supervision of the Superintendent of Rocky Mountain National Park.

(National Park Service Order No. 14 (21 F. R. 1467); 39 Stat. 535; 16 U. S. C., 1952 ed., sec. 2; Region Two, Order No. 3 (21 F. R. 1494))

JAMES V. LLOYD,
*Superintendent, Rocky Mountain National Park and Shadow Mountain National Recreation Area.*

[F. R. Doc. 56-4774; Filed, June 18, 1956; 8:47 a. m.]

---

[Zion and Bryce Canyon National Parks Order 1]

ASSISTANT SUPERINTENDENT AND ADMINISTRATIVE OFFICER

DELEGATION OF AUTHORITY TO EXECUTE AND APPROVE CONTRACTS

SECTION 1. *Assistant Superintendent.* The Assistant Superintendent may execute and approve contracts not in excess of $50,000 for supplies, equipment, or services in conformity with applicable regulations and statutory authority and subject to availability of appropriations. This authority may be exercised on behalf of any coordinated area.

SEC. 2. *Administrative Officer.* The Administrative Officer may execute and approve contracts not in excess of $25,000 for supplies, equipment, or services in conformity with applicable regulations and statutory authority and subject to availability of appropriations. This authority may be exercised on behalf of any coordinated areas.

(National Park Service Order No. 14; 39 Stat. 535, 16 U. S. C., 1952 ed., sec. 2; Region Three, Order No. 3 (21 F. R. 1494))

Issued this 11th day of May 1956.

PAUL R. FRANKE,
*Superintendent, Zion and Bryce Canyon National Parks.*

[F. R. Doc. 56-4775; Filed, June 18, 1956; 8:47 a. m.]

# DEPARTMENT OF LABOR

## Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners and learning periods for certificates issued under general learner regulations (§§ 522.1 to 522.12) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.20 to 522.24, as amended March 1, 1956, 21 F. R. 1349).

The following learner certificates were issued for normal labor turnover purposes. The number of learners authorized is indicated:

Apparel Manufacturing Corp., Mebane, N. C.; effective 5–25–56 to 5–24–57; 7 learners (children's dresses).

Better Maid Apparel Co., 707 River Street, Peckville, Pa.; effective 5–28–56 to 5–27–57; 5 learners (dresses).

Cameron & Co., Inc., 2321 Oak Street, Napa, Calif.; effective 5–28–56 to 5–27–57; 10 learners (corduroy pants).

Eileen Dress Co., 117 Main Street, Dalton, Pa.; effective 5–25–56 to 5–24–57; 4 learners (dresses).

Excelsior Frocks, Inc., 396 Academy Street, Archbald, Pa.; effective 5–30–56 to 5–29–57; 10 percent of factory production workers (dresses).

Fuhrman-Levitt, Inc., 39 Woodland Avenue, Pitman, N. J.; effective 5–24–56 to 5–23–57; 5 learners (children's dresses).

Green Bay Specialty Co., 129 South Washington Street, Green Bay, Wis.; effective 5–26–56 to 5–25–57; 5 learners (women's outerwear).

H–F Manufacturing Co., 217 South Fifth Street, Perkasie, Pa.; effective 5–24–56 to 5–23–57; 5 learners (girl's outerwear).

Herron's of Colorado, 20 Court Street, Colorado Springs, Colo.; effective 5–28–56 to 5–27–57; 2 learners (capes, suede leather garments).

Highland Manufacturers, Inc., 215 Coxe Avenue, Asheville, N. C.; effective 5–28–56 to 5–27–57; 10 learners (dresses).

Joy Togs, Inc., 950 Highland Avenue, Greensburg, Pa.; effective 6–6–56 to 6–5–57; 10 percent of factory production workers (children's snowsuits).

Lehigh Dress Co., 1401 Broadway, Bethlehem, Pa.; effective 5–29–56 to 5–28–57; 10 percent of factory production workers (dresses).

Loomcraft Frocks, Inc., Third and Penn Streets, Pottstown, Pa.; effective 5–25–56 to 5–24–57; 10 percent of factory production workers (girls' dresses).

Paulsboro Dress Co., Inc., Delaware and Lodge Streets, Paulsboro, N. J.; effective 5–28–56 to 5–27–57; 10 percent of factory production workers (dresses).

Phillips-Jones Factory, Patton, Pa.; effective 6–2–56 to 6–1–57; 10 percent of factory production workers (dress shirts).

Phillips-Jones Corp., York Terrace Plant, Eighteenth and Mount Hope Avenue, Pottsville, Pa.; effective 6–9–56 to 6–8–57; 10 percent of factory production workers (sport shirts).

The Puritan Sportswear Corp., 813 Twenty-fifth Street, Altoona, Pa.; effective 5–26–56 to 5–25–57; 10 percent of factory production workers engaged in the production of sportswear (men's sportswear).

Rita Manufacturing Co., 114 South Second Street, Allentown, Pa.; effective 5–25–56 to 5–24–57; 3 learners (polo shirts).

Saxon Trouser Manufacturing Co., Aberdeen, Miss.; effective 6–5–56 to 6–5–57; ten percent of factory production workers (single pants).

Jules L. Simon & Co., 600 Kyger Street, Frankfort, Ind.; effective 5–28–56 to 5–27–57; 10 percent of factory production workers (men's outerwear).

Standard Shirt Co., McClure, Pa.; effective 5–28–56 to 5–27–57; 10 percent of factory production workers (pajamas).

Sylvania Manufacturing Co., Bank Avenue, Jersey Shore, Pa.; effective 5–26–56 to 5–25–57; 10 learners (ladies' blouses, outerwear).

Violet Dress Co., 77 South Main Street, Pittston, Pa.; effective 5–21–56 to 5–20–57; 10 learners (dresses).

Zero King Sportswear, Lake City, Minn.; effective 5–26–56 to 5–25–57; 5 learners (stormcoats and jackets).

The following learner certificates were issued for plant expansion purposes. The number of learners authorized is indicated:

Bellcraft Manufacturing Co., Mount Olivet Road, Hartwell, Ga.; effective 5–28–56 to 11–27–56; 25 learners (sport shirts).

Carbon Hill Manufacturing Co., Inc., Carbon Hill, Ala.; effective 5–23–56 to 11–14–56; 35 learners (boys' slacks) (supplemental certificate).

Detroit Slacks, Inc., Detroit, Ala.; effective 5–29–56 to 11–28–56; 25 learners (men's slacks).

Sport-Kraft Manufacturing Co., Inc., 419 West Third Street, Lewes, Del.; effective 5–24–56 to 11–23–56; 20 learners (ladies' blouses).

Stitchcraft, Inc., 393 Oconee Street, Athens, Ga.; effective 5–28–56 to 11–27–56; 20 learners (children's dresses).

Glove Industry Learner Regulations (29 CFR 522.60 to 522.65, as amended March 1, 1956, 21 F. R. 581).

Nation-Wide Glove Co., Inc., 601 East Prairie Street, Pontiac, Ill.; effective 5–25–56 to 5–24–57; 5 learners for normal labor turnover purposes (work gloves).

Wells Lamont Corp., Plant No. 2, Philadelphia, Miss.; effective 5–23–56 to 11–22–56; 25 learners for plant expansion purposes (work gloves).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.43, as amended March 1, 1956, 21 F. R. 629).

Bland Hosiery Mills, Inc., Bland, Va.; effective 5–24–56 to 5–23–57; 5 learners for normal labor turnover purposes (full-fashioned).

Greensboro Hosiery Mills, Inc., Greensboro, N. C.; effective 5–21–56 to 2–28–57; five percent of factory production workers for normal labor turnover purposes (full-fashioned) (replacement certificate).

Knitted Wear Industry Learner Regulations (29 CFR 522.30 to 522.35, as amended March 1, 1956, 21 F. R. 581).

The following learner certificates were issued for normal labor turnover purposes:

Carlisle Co., Jefferson, S. C.; effective 5–23–56 to 5–22–57; 5 learners (knitted cotton cloth).

Ohio Knitting Mills, Inc., 7500 Stanton Avenue, Cleveland, Ohio; effective 5–28–56 to 2–28–57; five percent of factory production workers (sweaters) (Replacement certificate).

The Puritan Sportswear Corp., 813 Twenty-fifth Street, Altoona, Pa.; effective 5–26–56 to 5–25–57; five percent of factory production workers engaged in the production of knitted outerwear (men's knitted outerwear).

Val Mode Lingerie, Inc., 100 Eighth Street, Passaic, N. J.; effective 5–28–56 to 5–27–57; five percent of factory production workers (nylon tricot slips).

Shoe Industry Learner Regulations (29 CFR 522.50 to 522.55, as amended March 1, 1956, 21 F. R. 1195).

Heavenly Shoes, 30 Courtright Avenue, Wilkes-Barre, Pa.; effective 5–23–56 to 11–22–56; 30 learners for plant expansion purposes.

Tex Tan of Yoakum, Hickey Street, Yoakum, Tex., effective 5–24–56 to 11–23–56; 10 percent of factory production workers engaged in the manufacture of moccasins for normal labor turnover purposes (moccasins).

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.12, as amended February 28, 1955, 20 F. R. 645).

The following learner certificates were issued for normal labor turnover purposes to the companies listed below manufacturing miscellaneous products. The effective and expiration dates, learner rates, occupations, learning periods, and the number or proportion of learners authorized to be employed, are as follows:

Clarolite, Inc., 1626 Cedar Avenue, Scranton, Pa.; effective 5–25–56 to 11–24–56; not less than 80 cents per hour for the first 160 hours and 85 cents per hour for the remaining 160 hours of the 320-hour learning period, for the occupation of sewing machine operator; not less than 80 cents per hour for a maximum of 160 hours, for the occupations of lampshade assembler and electric scaling machine operator; authorizing the employment of 10 percent of factory production workers (bed lights, lampshades, etc.).

Duro Apparel Corp., Pottsville Street, Wisconisco, Pa.; effective 5–26–56 to 11–25–56; not less than 85 cents per hour for the first 160 hours and 90 cents per hour for the remaining 160 hours of the 320-hour learning period, for the occupation of sewing machine operator; authorizing the employment of 5 learners (belts, shoulder pads).

William B. Kessler, Inc., Pleasant and Tilton Streets, Hammonton, N. J.; effective 5–25–56 to 11–24–56; not less than 85 cents per hour for the first 280 hours and 90 cents per hour for the remaining 200 hours of the 430–hour learning period, for the occupations of sewing machine operator, hand sewers, finishing operations involving hand sewing, and final pressing; authorizing the employment of 5 percent of factpry production workers (men's suits, sportcoats, slacks).

Kohout Cap Co., Le Mars, Iowa; effective 5–25–56 to 11–24–56; not less than 85 cents per hour for a maximum of 240 hours, for the occupation of sewing machine operator; authorizing the employment of 5 learners (shop and summer caps).

Layton Creations, 012 SW. Montgomery Street, Portland, Oreg.; effective 5–23–56 to 11–22–56; not less than 85 cents per hour for a maximum of 320 hours, for the occupation of sewing machine operator; authorizing the employment of 5 learners (decorative pillows, slipcovers).

Charles Navasky & Co., Inc., Osceola Mills, Pa.; effective 5–21–56 to 11–20–56; not less than 85 cents per hour for the first 280 hours and 90 cents per hour for the remaining 200 hours of the 480-hour learning period, for the occupations of sewing machine operator and final pressing; authorizing the employment of five percent of factory production workers (trousers).

Charles Navasky & Co., Inc., Philipsburg, Pa.; effective 5–21–56 to 11–20–56; not less than 85 cents per hour for the first 280 hours and 90 cents per hour for the remain-

ing 200 hours of the 480-hour learning period, for the occupations of sewing machine operating and final pressing (men's coats, sportcoats).

Pyramid Electric Co., 101 North Yates Street, Gastonia, N. C.; effective 5–28–56 to 11–27–56; not less than 87 cents per hour for a maximum of 320 hours, for the occupations of basic hand and machine production operations; authorizing the employment of ten percent of factory production workers (paper capacitors, etc.)

Scales Furniture Co., Inc., Claremont, N. C.; effective 5–25–56 to 11–24–56; not less than 80 cents per hour for the first 320 hours and 85 cents per hour for the remaining 160 hours of the 480-hour learning period, for the occupation of sewing machine operator; authorizing the employment of ten percent of factory production workers (upholstered furniture).

Tex Tan of Yoakum, Hickey Street, Yoakum, Tex.; effective 5–24–56 to 11–23–56; not less than 85 cent per hour for the first 160 hours and 90 cents per hour for the remaining 160 hours of the 320-hour learning period, for the occupations of stitching machine operator, hand cutter, assembler, and finisher; not less than 85 cents per hour for a maximum of 160 hours, for the occupation of die and clicker machine operator; authorizing the employment of ten percent of factory production workers engaged in the manufacture of belts and personal leather goods (leather belts, billfolds, etc.).

H. Treiber Clothing Co., 5 First Avenue, Raritan, N. J.; effective 5–24–56 to 11–23–56; not less than 85 cents per hour for the first 280 hours and 90 cents per hour for the remaining 200 hours of the 480–hour learning period, for the occupations of sewing machine operator, final pressing, hand sewing, and finishing operations involving hand sewing; authorizing the employment of 5 learners (men's sportcoats and outerwear).

The following special learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, learner rates, occupations, learning periods, and the number or proportion of learners authorized to be employed are as indicated:

Consolidated Cigar Corp. of Puerto Rico, Villa Turabo, Caguas, P. R.; effective 5–10–56 to 5–9–57; not less than 40 cents per hour for a maximum of 320 hours, for the occupations of cigar making and packing; not less than 40 cents per hour for a maximum of 160 hours, for the occupation of machine stripping; authorizing the employment of 16 learners for normal labor turnover purposes (cigars).

Youthful Corp., 161 Ponce de Leon Avenue, Hato Rey, P. R.; effective 5–15–56 to 11–14–56; not less than 55 cents per hour for the first 320 hours and 62½ cents per hour for the remaining 160 hours of the 480-hour learning period, for the occupation of sewing machine operator; authorizing the employment of 16 learners for plant expansion purposes (girdles).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 5th day of June 1956.

MILTON BROOKE,
*Authorized Representative of the Administrator.*

## GENERAL SERVICES ADMINISTRATION

[Project 3–DC–01]

FEDERAL OFFICE BUILDINGS

PROSPECTUS FOR PROPOSED BUILDINGS IN SOUTHWEST REDEVELOPMENT AREA OF DISTRICT OF COLUMBIA

EDITORIAL NOTE: This prospectus of proposed Project Number 3–DC–01 is published pursuant to section 412 (f) of the Public Buildings Purchase Contract Act of 1954 as amended by Public Law 150, 84th Congress, which requires publication in the FEDERAL REGISTER, for a period of ten consecutive days from date of submission to the Committees on Public Works of the Senate and House of Representatives.

Project Number 3–DC–01 (Revised)

MARCH 14, 1956.

FORMAL PROSPECTUS FOR PROPOSED BUILDING UNDER TITLE I PUBLIC LAW 519, 83D CONGRESS, 2D SESSION

FEDERAL OFFICE BUILDING, WASHINGTON, D. C.

1. *Brief description of proposed building.* The project contemplates the erection of a group of three Federal Office Buildings on a site to be acquired by the Government facing on the proposed Tenth Street Mall in the southwest redevelopment area of Washington, D. C. Each building will be multi-storied. An aggregate of approximately 643,000 square feet of net assignable space will be provided.

2. *Estimated maximum cost and financing.*
a. Maximum cost of site and buildings, $25,250,000.

b. Proposed contract term, 30 years.

c. Maximum rate of interest on purchase contract, 4 percent.

3. *Certificates of need.* As the project is intended to provide relocation of numerous Federal agencies now in temporary buildings, no specific allocation of space can be made at this time. Upon completion of the facility, assignment and reassignment will be made in accordance with existing law. Therefore, requirement for Certificate of Need otherwise required by section 411 (e) of the Public Buildings Purchase Contract Act of 1954 was waived in Public Law 150, 84th Congress. Certification is hereby made as to the need for service and garage space.

4. *Non-availability of existing space.* Suitable space owned by the Government is not available; and suitable rental space is not available at a price commensurate with that to be afforded through the contract proposed.

5. *Estimated annual managerial, custodial, heat, and utility costs.* (Services to be supplied by Government), $675,000.

6. *Estimated annual tax liability, upkeep and maintenance.* a. Taxes, post construction (contract period), $321,625.

b. Upkeep and maintenance (to be provided by Government), $96,000.

7. *Current annual housing costs.* Rents and other housing costs currently paid by the Government for agencies to be housed in the building to be erected, $509,000 p. a.

*Determination of need.* It has been determined that (1) the needs for space for the permanent activities of the Federal Government in this particular area cannot be satisfied by utilization of any existing suitable property now owned by the Government, and (2) the best interests of the United States will be served by taking action hereunder.

Submitted at Washington, D. C., on June 1, 1956.

Approved:

FRANKLIN G. FLOETE,
*Administrator of General Services.*

8. *Statement of Director, Bureau of the Budget.* Reflected in letter (copy attached).

EXECUTIVE OFFICE OF THE PRESIDENT

BUREAU OF THE BUDGET

WASHINGTON 25, D. C.

JUNE 13, 1956.

Project 3–DC–01 (Revised 3–14–56).
3 Multi-storied Federal Office Buildings.
Southwest Redevelopment Area, Washington, D. C.

MY DEAR MR. FLOETE: Pursuant to section 411 (e) (8) of the Public Buildings Purchase Contract Act of 1954 (Public Law 519), the (Revised March 14, 1956) proposal for a group of three Federal Office Buildings, transmitted with your letter of June 1, 1956, has been examined and in my opinion "is necessary and in conformity with the policy of the President." This approval is given with the following understanding:

1. Revision reflects the application of more definite plans for integration of the facility with the proposed Tenth Street Mall developed subsequent to approval of the project last July. Effective integration requires construction of three building units in lieu of one, as originally proposed. Garage space of 134,250 square feet not contemplated in original project is provided. Number of employees, utilization of space and cost factors are relatively the same.

2. That the stated project cost of $25,250,000 (including $2,500,000 for a site to be acquired) is a maximum figure.

3. That the reported annual operating cost of existing Tempos 4, 5, and T; i. e., $1.00 per square foot, represents minimum maintenance in anticipation of demolition, and that temporary Government buildings actually cost more to maintain than the proposed new buildings.

4. That the proposed buildings will house approximately 10% of Federal employees presently housed in temporary buildings, and that the specific allocation of agencies in the proposed buildings is to be determined later by General Services Administration.

5. That every effort will be made to design and construct space conducive to maximum efficient utilization of both site and buildings and to take advantage of any revision of cost downward which may be found possible as the plans develop and negotiations are advanced.

6. That this approval supersedes Mr. Hughes' letter of July 22, 1955.

You appreciate, of course, that this project will receive a more detailed review as to cost and space utilization prior to the approval of the lease-purchase agreement.

Sincerely yours,
(Signed) PERCIVAL BRUNDAGE,
*Director.*

Hon. FRANKLIN G. FLOETE,
*Administrator,*
*General Services Administration,*
*Washington 25, D. C.*

## SECURITIES AND EXCHANGE COMMISSION

[File No. 24A–1027]

CALUMET HILLS MINING CO.

ORDER TEMPORARILY DENYING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

JUNE 13, 1956.

I. Calumet Hills Mining Company, 1 South 55th Place, Birmingham, Alabama (hereinafter referred to as the "issuer"), having filed with the Commission on May 10, 1956, a notification on Form 1–A and an offering circular relating to a proposed public offering of 5,750,000 shares of common stock, par value 5¢, at a price of 5¢ per share, for an aggregate offering of $287,500, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) of said act and Regulation A promulgated thereunder; and

II A. Paul Rowland Jones, a promoter of the issuer, was convicted on March 19, 1956 in the Circuit Court of Jefferson County, Birmingham, Alabama, of an offense of attempting to sell unregistered securities in violation of the laws of the State of Alabama. By virtue of Rule 216 (b) (5), no exemption under Regulation A is available for said securities; and

B. The Commission having reasonable cause to believe:

1. That the terms and conditions of the Regulation have not been complied with in that:

(a) The issuer failed to disclose in Item 5 of Form 1–A and the offering circular that Jones was a promoter of the issuer, and failed to disclose in Item 6 the conviction mentioned in paragraph A, above.

2. That the offering circular filed as a part of the notification contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made in the light of the circumstances under which they were made not misleading, particularly, with respect to:

(a) The failure to disclose that the "Hennessee" properties in Yancy County, North Carolina, which are the subject of an option to purchase by the issuer for $75,000, from Tasha, Inc. were acquired by Jones at a cost to him of $35,000 and were conveyed by Jones to Tasha, Inc., a North Carolina corporation in which Jones is the principal stockholder, and that Jones and Tasha would realize a profit of $40,000 upon the purchase of such properties by the issuer;

(b) The statement that the administratrix of the estate of Ella Clapp Thompson had orally committed the "Thompson" property in Mitchell County, North Carolina, proposed to be purchased by the issuer, to Jones and considered herself bound and would not have entered into a lease agreement with anyone else without Jones' consent, whereas, it appears the administratrix had made no such oral commitment and did not consider herself bound until the purported lease between her and the issuer was signed;

(c) The statement that the issuer has leased and been granted an exclusive option to purchase 714 acres from the administratrix of the estate of Ella Clapp Thompson, whereas, it appears that said administratrix does not have the power under the will to execute a lease and option on said land and that the issuer could not obtain specific performance of the purported lease and option;

(d) The failure to disclose the source and nature of alleged oral assurances of a market for the ore proposed to be produced by the issuer.

3. That the use of the offering circular in connection with the offering of shares to which the notification relates would operate as a fraud and deceit upon the purchasers thereof.

III. *It is ordered,* Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily denied.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within twenty days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of denial should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place of said hearing will be promptly given by the Commission.

*It is further ordered,* That this order and notice shall be served upon Calumet Hills Mining Company, 1 South 55th Place, Birmingham, Alabama, personally or by registered mail or by confirmed telegraphic notice and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[F. R. Doc. 56–4783; Filed, June 18, 1956; 8:49 a. m.]

[File No. 24A–837]

MI-AME CANNED BEVERAGE CO.

ORDER TEMPORARILY SUSPENDING EXEMPTIONS, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

JUNE 13, 1956.

I. Mi-Ame Canned Beverage Co., a Florida corporation with its principal office located at 2051 West 9th Avenue, Hialeah, Florida, having filed with the Commission on October 28, 1954, a notification on Form 1–A and an offering circular, and subsequently having filed amendments thereto relating to an offering of 200,000 shares of $1.00 par value common stock, at $1.00 per share, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable cause to believe that the terms and conditions of Regulation A have not been complied with in that the company has failed to file on Form 2–A reports of sales as required by Rule 224 of Regulation A, and has ignored requests by the Commission's staff for such reports.

III. *It is ordered,* Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given, that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within twenty days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place of said hearing will be promptly given by the Commission.

*It is further ordered,* That this order and notice shall be served upon Mi-Ame Canned Beverage Co., 2051 West Ninth Avenue, Hialeah, Florida, and upon George C. Hoover, President, 6150 Johnson Drive, Miami, Florida, personally or by registered mail or confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

## UNITED STATES TARIFF COMMISSION

PARA-AMINOSALICYLIC ACID AND SALTS THEREOF

ESCAPE-CLAUSE INVESTIGATION

JUNE 14, 1956.

The Tariff Commission today submitted a report to the President with respect to its "escape-clause" investigation regarding imports of para-aminosalicylic acid and salts thereof in bulk (not in dosage) form. The Tariff Act of 1930 originally provided for a duty of 7 cents per pound plus 45 percent ad valorem on imports of these products. The rate of duty, however, has been reduced through trade-agreement action and since June 6, 1951, has been 3½ cents per pound plus 25 percent ad valorem.

The investigation to which the present report relates was instituted on September 16, 1955, upon application of the Sumner Chemical Company, New York, N. Y. The purpose of the investigation was to determine whether para-aminosalicylic acid and salts thereof in bulk (not in dosage) form are, as a result in whole or in part of the duty or other customs treatment reflecting the concession granted thereon under the General Agreement on Tariffs and Trade, being imported into the United States in such increased quantities, either actual or relative, as to cause or threaten serious injury to the domestic industry producing like or directly competitive products.

The six members of the Tariff Commission divided three to three in their findings in the investigation.

Commissioners Brossard, Schreiber, and Sutton find that para-aminosalicylic acid and salts thereof in bulk (not in dosage) form are being imported in such increased quantities as to cause serious injury to the domestic industry. They recommend that the trade-agreement concession relating to the reduced duty be modified. If the President takes the recommended action, the duty on imports of such products will be increased to 5 cents per pound plus 35 percent ad valorem.

Commissioners Talbot, Jones, and Dowling find that the domestic industry is not being seriously injured or threatened with serious injury, and, therefore, make no recommendation for modification or withdrawal of the trade-agreement concession involved.

The report sets forth the aforementioned findings and analyses of the facts bearing thereon.

Copies of the Commission's report are available upon request as long as the limited supply lasts. Requests for copies should be addressed to the United States Tariff Commission, Eighth and E Streets NW., Washington 25, D. C.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 6 to Agent Raasch's I. C. C. 855.

FSA No. 32212: *Sand—Illinois and Wisconsin to North Carolina and Mississippi.* Filed by R. G. Raasch, Agent, for interested rail carriers. Rates on sand, ground or pulverized, carloads from Ottawa, Wedron, Sheridan, Millington, Oregon and Utica, Ill., and Browntown and Klevenville, Wis., to Canton, N. C., and Ocean Springs, Miss.

Grounds for relief: Short-line distance formula and circuity.

Tariffs: Supplement 6 to Agent Raasch's I. C. C. 855; Supplement 76 to Agent Raasch's I. C. C. 776.

FSA No. 32213: *Fertilizer compounds—Missouri to South.* Filed by R. G. Raasch, Agent, for interested rail carriers. Rates on fertilizer compounds and solutions, carloads from Cosgrove and Louisiana, Mo., to points in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee.

Grounds for relief: Circuitous routes.

Tariffs: Supplement 6 to Agent Raasch's I. C. C. 855; Supplement 76 to Agent Raasch's I. C. C. 776.

FSA No. 32214: *Coffee—Louisiana to Beaumont, Tex.* Filed by J. F. Brown, Agent, for interested rail carriers. Rates on green coffee, carloads, from Baton Rouge and New Orleans, La., to Beaumont, Tex.

Grounds for relief: Circuitous routes.

Tariff: Supplement 18 to Agent Brown's I. C. C. 843.

FSA No. 32215: *Bituminous fine coal—Indiana to Argo, Ill.* Filed by The Chicago, Milwaukee, St. Paul and Pacific Railroad Company, for itself and interested rail carriers. Rates on bituminous fine coal, carloads, from specified mines in Indiana on the Milwaukee to Argo, Ill.

Grounds for relief: Maintenance of destination rate relations to points on the Milwaukee, intermediate to Argo.

Tariff: Supplement 64 to Chicago, Milwaukee, St. Paul and Pacific Railroad Company's I. C. C. B-7717.

FSA No. 32216: *Coke, coke breeze, etc.—East St. Louis, Ill., to Keokuk, Iowa.* Filed by R. G. Raasch, Agent, for interested rail carriers. Rates on coke, coke breeze, coke dust, and coke screenings (the direct products of coal), straight or mixed carloads from East St. Louis, Ill., to Keokuk, Iowa.

Grounds for relief: Circuitous route.

Tariff: Supplement 47 to Agent Raasch's I. C. C. 767.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

ORGANIZATION AND ASSIGNMENT OF WORK HOURS

JUNE 13, 1956.

The Interstate Commerce Commission's order of September 9, 1946 (11 F. R. 10305), setting forth its organization as required by section 3 (a) of the Administrative Procedure Act (5 U. S. C. 1002) in section 0.1 (c) stated the hours of the business day of the Commission. The provisions of that section have been amended to read as follows:

(c) *Hours.* Offices in Washington, D. C., are open on each business day from 8:30 a. m. to 5:00 p. m., U. S. Standard Time. When the Board of Commissioners of the District of Columbia advances the time applicable to the District one hour, the offices of the Commission in Washington, D. C., will open and close one hour earlier by U. S. Standard Time.

[SEAL] HAROLD D. McCOY, *Secretary.*

[F. R. Doc. 56-4786; Filed, June 18, 1956; 8:50 a. m.]

## DEPARTMENT OF JUSTICE

### Office of Alien Property

[Vesting Order 15592, Amdt.]

GOTHAER LEBENSVERSICHERUNG A. G.

In re: Bonds owned by Gothaer Lebensversicherung A. G., F-28-31025.

Vesting Order 15592, dated November 9, 1950, is hereby amended to read as follows:

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Excutive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Gothaer Lebensversicherung A. G., the last known address of which is Gottingen, Germany, is a corporation, partnership, association or other business organization, organized under the laws of Germany, and which has, or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Gottingen, Germany, and is a national of a designated enemy country (Germany):

2. That the property described as follows:

a. Those certain debts or other obligations, matured or unmatured, evidenced by six (6) The Chesapeake and Ohio Railway Company 4½ percent general bonds, due 1992, of $1,000 face value each, bearing the numbers 3199, 3724, 6541, 13195, 18776 and 33380 and evidenced by coupons attached to or detached from said bonds and due on or after September 1, 1940, and any and all rights to demand, enforce and collect the aforesaid debts or other obligations, together with all rights in, to and under the said bonds and coupons,

b. Those certain debts or other obligations, matured or unmatured, evidenced by three (3) Liggett and Myers Tobacco Company, Inc. 5 percent debenture gold bonds, due August 1, 1951, of $1,000 face value each, bearing the numbers 950, 3721 and 7774 and evidenced by coupons attached to or detached from said bonds and due on or after August 1, 1946, and any and all rights to demand, enforce and collect the aforesaid debts or other obligations, together with all rights in, to and under the said bonds and coupons,

c. Those certain debts or other obligations, matured or unmatured, evidenced by seven (7) Consolidated Edison Company of New York, Inc. 3½ percent Debenture Bonds, due April 1, 1956, of $1,000 face value each, bearing the numbers M3448, M7561, M7562, M7563, M9477, M9478, and M9479 and evidenced by coupons attached to or detached from said bonds and due on or after October 1, 1940, and any and all rights to demand, enforce and collect the aforesaid debts or other obligations, together with all rights in, to and under the said bonds and coupons, and

d. Those certain debts or other obligations, matured or unmatured, evidenced by seven (7) The Detroit Edison Company, 4½ percent General and Refunding Mortgage Series "D" Gold Bonds, due 1961, of $1,000 face value each, bearing the numbers DM1737, 9912, 9913, 38909, 38910, 46446 and 46447 and evidenced by coupons attached to or detached from said bonds and due on or after August 1, 1940, and any and all rights to demand, enforce and collect the aforesaid debts or other obligations, together with all rights in, to and under the said bonds and coupons,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not

within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" was used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on June 14, 1956.

For the Attorney General.

[SEAL] PAUL V. MYRON,,
*Deputy Director,*
*Office of Alien Property.*

## TITLE 3—THE PRESIDENT

### PROCLAMATION 3141

CITIZENSHIP DAY, 1956

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS, by joint resolution approved February 29, 1952 (66 Stat. 9), the Congress of the United States has designated the 17th day of September of each year as Citizenship Day in commemoration of the signing of the Constitution of the United States on September 17, 1787, and in recognition of all our citizens who have come of age and all who have been naturalized during the year; and

WHEREAS with the passing of the years the basic soundness and the durability of the principles embodied in our Constitution become increasingly evident; and

WHEREAS the test of time has served to strengthen our pride and belief in the greatness of our country and has inspired us to an ever firmer determination that the carrying out of the responsibilities of citizenship, as well as the exercise of its rights and privileges, shall play an important role in our daily lives; and

WHEREAS the aforesaid resolution authorizes the President to issue annually a proclamation calling for the observance of Citizenship Day with appropriate ceremonies:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do call upon the appropriate officials of the Government to display the flag of the United States on all Government buildings on Monday, September 17, 1956, and urge the people of the Nation to display the flag on that day at their homes and other suitable places.

I also urge Federal, State, and local officials, as well as religious, civic, patriotic, educational, and other organizations, to arrange for appropriate ceremonies on Citizenship Day through which all our people may gain a deeper appreciation of the great heritage secured to us by the Constitution and come to have a better understanding of our rights and responsibilities as citizens of the United States.

And I also call upon all our citizens to renew and reaffirm their fealty on that day to the principles embodied in the Constitution—the foundation of our free and independent Republic.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 18th day of June in the year of our Lord nineteen hundred and fifty-six,

[SEAL] and of the Independence of the United States of America the one hundred and eightieth.

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
*Secretary of State.*

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

**CFR SUPPLEMENTS**

**(As of January 1, 1956)**

The following Supplements are now available:

**Title 6 ($1.75)**

**Title 7: Parts 210–899 (Rev., 1955) with Supplement ($4.50)**

**Title 26 (1954) Parts 1–220 (Rev., 1955) ($2.00)**

**Titles 47 and 48 ($2.25)**

Previously announced: Title 3, 1955 Supp. ($2.00); Titles 4 and 5 ($1.00); Title 7: Parts 1–209 ($1.25), Parts 900–959 (Rev., 1955) ($6.00), Part 960 to end (Rev., 1955) with Supplement ($5.85); Title 8 ($0.50); Title 9 ($0.70); Titles 10–13 ($0.70); Title 14: Parts 1–399 ($2.50), Part 400 to end ($1.00); Title 15 ($1.00); Title 16 ($1.25); Title 17 ($0.60); Title 18 ($0.50); Title 19 ($0.50); Title 20 ($1.00); Title 21 (Rev., 1955) ($5.50); Titles 22 and 23 ($1.00); Title 24 ($0.75); Title 25 ($0.50); Title 26: Parts 1–79 ($0.35), Parts 80–169 ($0.50), Parts 170–182 ($0.30), Parts 183–299 ($0.35), Part 300 to end, Ch. I, and Title 27 ($1.00); Titles 28 and 29 ($1.25); Titles 30 and 31 ($1.25); Title 32: Parts 1–399 ($0.60), Parts 400–699 ($0.65), Parts 700–799 ($0.35), Parts 800–1099 ($0.40), Part 1100 to end ($0.35); Title 32A (Rev., 1955) ($1.25); Title 33 ($1.50); Titles 35–37 ($1.00); Title 39 (Rev., 1955) ($4.25); Titles 40–42 ($0.65); Title 43 ($0.50); Title 46: Parts 1–145 ($0.60), Part 146 to end ($1.25); Title 49: Parts 1–70 ($0.60), Parts 71–90 ($1.00), Parts 91–164 ($0.50), Part 165 to end ($0.65)

AUTHORITY: §§ 13.0 to 13.257 issued under sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 52 Stat. 1007, as amended, 1009, as amended; 49 U. S. C. 551, 553.

### SUBPART A—GENERAL

APPLICABILITY AND DEFINITIONS

§ 13.0 *Applicability of this part.* This part establishes standards with which compliance shall be demonstrated for the issuance of and changes to type certificates for engines used on aircraft. This part, until superseded or rescinded, shall apply to all engines for which applications for type certification are made after the effective date of this part (August 20, 1938).

§ 13.1 *Definitions.* As used in this part terms are defined as follows:

(a) *Administration*—(1) *Administrator.* The Administrator is the Administrator of Civil Aeronautics.

(2) *Applicant.* An applicant is a person or persons applying for approval of an engine or any part thereof.

(3) *Approved.* Approved, when used alone or as modifying terms such as means, devices, specifications, etc., shall mean approved by the Administrator. (See § 13.18.)

(b) *General design*—(1) *Standard atmosphere.* The standard atmosphere is an atmosphere defined as follows:

(i) The air is a dry, perfect gas,

(ii) The temperature at sea level is 59° F.,

(iii) The pressure at sea level is 29.92 inches Hg,

(iv) The temperature gradient from sea level to the altitude at which the temperature equals −67° F. is −0.003566° F./ft. and zero thereabove.

(v) The density $\rho_0$ at sea level under the above conditions is 0.002378 lbs. sec.$^2$/ft.$^4$

(2) *Brake horsepower.* Brake horsepower is the power delivered at the propeller shaft of the engine.

(3) *Take-off power.* Take-off power is the brake horsepower developed under standard sea level conditions, under the maximum conditions of crankshaft rotational speed and engine manifold pressure approved for use in the normal take-off, and limited in use to a maximum continuous period as indicated in the approved engine specification.

(4) *Maximum continuous power.* Maximum continuous power is the brake horsepower developed in standard atmosphere at a specified altitude under the maximum conditions of crankshaft rotational speed and engine manifold pressure approved for use during periods of unrestricted duration.

(5) *Manifold pressure.* Manifold pressure is the absolute pressure measured at the appropriate point in the induction system, usually in inches of mercury.

(6) *Critical altitude.*[1] The critical altitude is the maximum altitude at which in standard atmosphere it is possible to maintain without ram, at a specified rotational speed, a specified power or a specified manifold pressure. Unless otherwise stated, the critical altitude is the maximum altitude at which it is possible to maintain, at the maximum continuous rotational speed, one of the following:

(i) The maximum continuous power, in the case of engines for which this power rating is the same at sea level and at the rated altitude,

(ii) The maximum continuous rated manifold pressure, in the case of engines the maximum continuous power of which is governed by a constant manifold pressure.

CERTIFICATION

§ 13.10 *Eligibility for type certificates.* An engine shall be eligible for type certification under the provisions of this part if it complies with the airworthiness provisions hereinafter established or if the Administrator finds that the provision or provisions not complied with are compensated for by factors which provide an equivalent level of safety: *Provided,* That the Administrator finds no feature or characteristic of the engine which renders it unsafe for use on aircraft.

§ 13.11 *Designation of applicable regulations.* The provisions of this section shall apply to all engine types certificated under this part irrespective of the date of application for type certificate.

(a) Unless otherwise established by the Board, the engine shall comply with the provisions of this part together with all amendments thereto effective on the date of application for type certificate, except that compliance with later effective amendments may be elected or required pursuant to paragraphs (c), (d), and (e) of this section.

(b) If the interval between the date of application for type certificate and the issuance of the corresponding type certificate exceeds three years, a new application for type certificate shall be required, except that for applications pending on May 1, 1954, such three-year period shall commence on that date. At the option of the applicant, a new application may be filed prior to the expiration of the three-year period. In either instance the applicable regulations shall be those effective on the date of the new application in accordance with paragraph (a) of this section.

(c) During the interval between filing the application and the issuance of a type certificate, the applicant may elect to show compliance with any amendment of this part which becomes effective during that interval, in which case all other amendments found by the Administrator to be directly related shall be complied with.

(d) Except as otherwise provided by the Board, or by the Administrator, pursuant to § 1.24 of this subchapter, a change to the type certificate (see § 13.13 (b)) may be accomplished, at the option of the holder of the type certificate, either in accordance with the regulations incorporated by reference in the type certificate pursuant to § 13.13 (c), or in accordance with subsequent amendments

[1] These definitions may not apply in the case of less conventional engines such as compound, variable discharge turbine, etc.

to such regulations in effect on the date of application for approval of the change, subject to the following provisions:

(1) When the applicant elects to show compliance with an amendment to the regulations in effect on the date of application for approval of a change, he shall show compliance with all amendments which the Administrator finds are directly related to the particular amendment selected by the applicant.

(2) When the change consists of a new design or a substantially complete redesign of a major component of the engine, and the Administrator finds that the regulations incorporated by reference in the type certificate pursuant to § 13.13 (c) do not provide complete standards with respect to such change, he shall require compliance with such provisions of the regulations in effect on the date of application for approval of the change as he finds will provide a level of safety equal to that established by the regulations incorporated by reference at the time of issuance of the type certificate.

(e) If changes listed in subparagraphs (1) and (2) of this paragraph are made, the engine shall be considered as a new type, in which case a new application for type certificate shall be required and the regulations together with all amendments thereto effective on the date of the new application shall be made applicable in accordance with paragraphs (a), (b), (c), and (d) of this section.

(1) A change in the principle of operation;

(2) A change in design, configuration, power limitations, or speed limitations, which the Administrator finds is so extensive as to require a substantially complete investigation of compliance with the regulations.

§ 13.12 *Recording of applicable regulations.* The Administrator, upon the issuance of a type certificate, shall record the applicable regulations with which compliance was demonstrated. Thereafter, the Administrator shall record the applicable regulations for each change in the type certificate which is accomplished in accordance with regulations other than those recorded at the time of issuance of the type certificate. (See § 13.11.)

§ 13.13 *Type certificate.* (a) An applicant shall be issued a type certificate when he demonstrates the eligibility of the engine by complying with the requirements of this part in addition to the applicable requirements in Part 1 of this subchapter.[2]

(b) The type certificate shall be deemed to include the type design (see § 13.14 (b)), the operating limitations for the engine (see § 13.16), and any other conditions or limitations prescribed by the regulations in this subchapter.

[2] Prior to approval for use of a type certificated engine on a certificated aircraft, the engine will be required to comply with pertinent provisions of the applicable aircraft airworthiness parts of the regulations in this subchapter.

(c) The applicable provisions of this part recorded by the Administrator in accordance with § 13.12 shall be considered as incorporated in the type certificate as though set forth in full.

§ 13.14 *Data required.* (a) The applicant for a type certificate shall submit to the Administrator such descriptive data, test reports, and computations as are necessary to demonstrate that the engine complies with the requirements of this part.

(b) The descriptive data required in paragraph (a) of this section shall be known as the type design and shall consist of such drawings and specifications as are necessary to disclose the configuration of the engine and all the design features covered in the requirements of this part, such information on dimensions, materials, and processes as is necessary to define the structural strength of the engine, and such other data as are necessary to permit by comparison the determination of the airworthiness of subsequent engines of the same type.

§ 13.15 *Inspections and tests.* Inspections and tests shall include all those found necessary by the Administrator to insure that the engine complies with the applicable airworthiness requirements and conforms to the following:

(a) All materials and products are in accordance with the specifications in the type design,

(b) All parts of the engine are constructed in accordance with the drawings in the type design,

(c) All manufacturing processes, construction, and assembly are as specified in the type design.

§ 13.16 *Required tests.* The block tests prescribed in this part shall be conducted to establish the engine operating limitations, as chosen by the applicant, and the reliability of the engine to operate within those limitations. The provisions of paragraphs (a) through (d) of this section shall be applicable.

(a) The applicant shall furnish all testing facilities, including equipment and competent personnel, to conduct the prescribed block tests.

(b) An authorized representative of the Administrator shall witness such of the block tests as are necessary to verify the test report.

(c) The Administrator shall establish engine operating limitations determined on the basis of the engine operating conditions demonstrated during the block tests. Such operating limitations shall include those items relating to power, speeds, temperatures, pressures, fuels, and oils which he finds necessary for safe operation of the engine.

(d) It shall be permissible to use separate engines of identical design and construction in the vibration, calibration, detonation (if applicable), endurance, and operation tests prescribed in subparts B and C of this part, except that if a separate engine is used for the endurance test it shall be subjected to a calibration check before starting the endurance test.

§ 13.17 *Production certificates.* (For requirements with regard to production certificates see Part 1 of this subchapter.)

§ 13.18 *Approval of materials, parts, processes, and appliances.* (a) Materials, parts, processes, and appliances shall be approved upon a basis and in a manner found necessary by the Administrator to implement the pertinent provisions of the regulations in this subchapter. The Administrator may adopt and publish such specifications as he finds necessary to administer this regulation, and shall incorporate therein such portions of the aviation industry, Federal, and military specifications respecting such materials, parts, processes, and appliances as he finds appropriate.

NOTE: The provisions of this paragraph are intended to allow approval of materials, parts, processes, and appliances under the system of Technical Standard Orders, or in conjunction with type certification procedures for an engine, or by any other form of approval by the Administrator.

(b) Any material, part, process, or appliance shall be deemed to have met the requirements for approval when it meets the pertinent specifications adopted by the Administrator and the manufacturer so certifies in a manner prescribed by the Administrator.

§ 13.19 *Changes in type design.* (For requirements with regard to changes in type design and the designation of applicable regulations therefor, see § 13.11 (d) and (e), and Part 1 of this subchapter.)

IDENTIFICATION AND INSTRUCTION MANUAL

§ 13.20 *Identification plate.* A fireproof identification plate shall be securely attached to the engine in a location which will be readily accessible when the engine is installed on an aircraft. The identification plate shall contain the identification data required by § 1.50 of this chapter.

§ 13.21 *Instruction manual.* The applicant shall prepare and make available an approved manual containing instructions for the installation, operation, servicing, maintenance, repair, and overhaul of the engine.

NOTE: It is not intended to limit the form of the manual to a single document.

## SUBPART B—RECIPROCATING ENGINES

### DESIGN AND CONSTRUCTION

§ 13.100 *Scope.* The provisions of this subpart shall apply to reciprocating engines.

(a) The engine shall not incorporate design features or details which experience has shown to be hazardous or unreliable. The suitability of all questionable design details or parts shall be established by tests.

(b) The design and construction provisions of this subpart shall be applicable to the engine when it is installed, operated, and maintained in accordance with the instruction manual prescribed in § 13.21 and when fitted with an appropriate propeller.

§ 13.101 *Materials.* The suitability and durability of all materials used in the engine shall be established on a basis of experience or tests. All materials used in the engine shall conform to approved specifications which will insure their having the strength and other properties assumed in the design data.

§ 13.102 *Fire prevention.* The design and construction of the engine and the materials used shall be such as to minimize the possibility of occurrence and spread of fire because of structural failure, overheating, or other causes.

§ 13.103 *Vibration.* The engine shall be designed and constructed to function throughout its normal operating range of crankshaft rotational speeds and engine powers without inducing excessive stress in any of the engine parts because of vibration and without imparting excessive vibration forces to the aircraft structure.

§ 13.104 *Durability.* All parts of the engine shall be designed and constructed to minimize the development of an unsafe condition of the engine between overhaul periods.

§ 13.110 *Fuel and induction system.* (a) The fuel system of the engine shall be designed and constructed to supply an appropriate mixture of fuel to the cylinders throughout the complete operating range of the engine under all flight and atmospheric conditions.

(b) The intake passages of the engine through which air or fuel in combination with air passes for combustion purposes shall be designed and constructed to minimize the danger of ice accretion in such passages. The engine shall be designed and constructed to permit the use of a means for ice prevention.

§ 13.111 *Ignition system.* All spark ignition engines shall be equipped with either a dual ignition system having at least two spark plugs per cylinder and two separate electrical circuits with separate sources of electrical energy, or with an ignition system which will function with equal reliability in flight.

§ 13.112 *Lubrication system.* (a) The lubrication system of the engine shall be designed and constructed so that it will function properly in all flight attitudes and atmospheric conditions in which the airplane is expected to operate.

(b) In wet sump engines the provision of paragraph (a) of this section shall be complied with when only one-half of the maximum lubricant supply is in the engine.

(c) The lubrication system of the engine shall be designed and constructed to permit the installation of a means for cooling of the lubricant.

§ 13.113 *Engine cooling.* The engine shall be designed and constructed to provide the necessary cooling under conditions in which the airplane is expected to operate.

§ 13.114 *Engine mounting attachments.* The mounting attachments and structure of the engine shall have sufficient strength, when the engine is mounted on an aircraft, to withstand the loads arising from the loading conditions prescribed in the airworthiness parts of the regulations in this subchapter applicable to the aircraft involved.

§ 13.115 *Accessory attachments.* Accessory drives and mounting attachments shall be designed and constructed so that the engine will operate properly with the accessories attached. The design of the engine shall incorporate provisions for the examination, adjustment, or removal of all essential engine accessories.

BLOCK TESTS

§ 13.150 *General.* The engine, including all essential accessories, shall be subjected to the block tests and inspections prescribed in §§ 13.151 through 13.157.

§ 13.151 *Vibration test.* A vibration survey shall be conducted to investigate crankshaft torsional and bending vibration characteristics over the operational range of crankshaft rotational speed and engine power normally used in flight (including low-power operation), from idling speed to either 110 percent of the desired maximum continuous speed rating, or 103 percent of the desired take-off speed rating, whichever is higher. The survey shall be conducted with a representative propeller. If a critical speed or speeds are found to be present in the operating range of the engine, changes in design of the engine shall be made for their elimination prior to the conduct of the endurance test specified in § 13.154, or the endurance test shall include operation under the most adverse vibration condition for a period sufficient to establish the ability of the engine to operate without fatigue failure.

§ 13.152 *Calibration tests.* The engine shall be subjected to such calibration tests as are necessary to establish its power characteristics and the conditions for the endurance test specified in § 13.154. The results of the power characteristics calibration tests shall constitute the basis for establishing the characteristics of the engine over its entire operating range of crankshaft rotational speeds, manifold pressures, fuel/air mixture settings, and altitudes. Power ratings shall be based upon standard atmospheric conditions. (See also § 13.16 (d).)

§ 13.153 *Detonation test.* A test shall be conducted to establish that the engine can function without detonation throughout its range of intended conditions of operation.

§ 13.154 *Endurance test.* The endurance test of an engine with a representative propeller shall include a total of 150 hours of operation and, depending upon the type and contemplated use of the engine, shall consist of one of the series of runs specified in paragraphs (a) through (c) of this section, whichever series is applicable. The runs shall be performed in such periods and order as are found appropriate by the Administrator for the specific engine. During the endurance test the engine power and the crankshaft rotational speed shall be controlled within ±3 percent of the specified values.

(a) *Single-speed engines.* For engines not incorporating a supercharger and for those incorporating a single-speed supercharger, the following series of runs shall apply:

(1) A 30-hour run shall be conducted consisting of alternate periods of 5 minutes at take-off power and speed, and 5 minutes at maximum best economy cruising power or at maximum recommended cruising power.

(2) A 20-hour run shall be conducted consisting of alternate periods of 1½ hours at maximum continuous power and speed, and ½ hour at 75 percent maximum continuous power and 91 percent maximum continuous speed.

(3) A 20-hour run shall be conducted consisting of alternate periods of 1½ hours at maximum continuous power and speed, and ½ hour at 70 percent maximum continuous power and 89 percent maximum continuous speed.

(4) A 20-hour run shall be conducted consisting of alternate periods of 1½ hours at maximum continuous power and speed, and ½ hour at 65 percent maximum continuous power and 87 percent maximum continuous speed.

(5) A 20-hour run shall be conducted consisting of alternate periods of 1½ hours at maximum continuous power and speed, and ½ hour at 60 percent maximum continuous power and 84.5 percent maximum continuous speed.

(6) A 20-hour run shall be conducted consisting of alternate periods of 1½ hours at maximum continuous power and speed, and ½ hour at 50 percent maximum continuous power and 79.5 percent maximum continuous speed.

(7) A 20-hour run shall be conducted consisting of alternate periods of 2½ hours at maximum continuous power and speed, and 2½ hours at maximum best economy cruising power or at maximum recommended cruising power.

(b) *Two-speed engines.* For engines incorporating a two-speed supercharger, the following series of runs shall apply:

(1) A 30-hour run shall be conducted consisting of alternate periods in the lower gear ratio of 5 minutes at take-off power and speed, and 5 minutes at maximum best economy cruising power or at maximum recommended cruising power. If a take-off rating is desired in the higher gear ratio, 15 hours of the 30-hour run shall be conducted in the higher gear ratio in alternate periods of 5 minutes at the observed horsepower obtainable with the take-off critical altitude manifold pressure and take-off speed, and 5 minutes at 70 percent high ratio maximum continuous power and 89 percent high ratio maximum continuous speed.

(2) A 15-hour run shall be conducted consisting of alternate periods in the lower gear ratio of 1 hour at maximum continuous power and speed, and ½ hour at 75 percent maximum continuous power and 91 percent maximum continuous speed.

(3) A 15-hour run shall be conducted consisting of alternate periods in the lower gear ratio of 1 hour at maximum continuous power and speed, and ½ hour at 70 percent maximum continuous power and 89 percent maximum continuous speed.

(4) A 30-hour run shall be conducted in the higher gear ratio at maximum continuous power and speed.

(5) A 5-hour run shall be conducted consisting of alternate periods of 5 minutes in each of the supercharger gear ratios. The first 5 minutes of the test shall be conducted at normal rated speed in the higher gear ratio and the observed horsepower obtainable with 90 percent of the normal rated manifold pressure in the higher gear ratio under sea level conditions. The condition for operation for the alternate 5 minutes in the lower gear ratio shall be that obtained by shifting to the lower gear ratio at constant speed.

(6) A 10-hour run shall be conducted consisting of alternate periods in the lower gear ratio of 1 hour at maximum continuous power and speed, and 1 hour at 65 percent maximum continuous power and 87 percent maximum continuous speed.

(7) A 10-hour run shall be conducted consisting of alternate periods in the lower gear ratio of 1 hour at maximum continuous power and speed, and 1 hour at 60 percent maximum continuous power and 84.5 percent maximum continuous speed.

(8) A 10-hour run shall be conducted consisting of alternate periods in the lower gear ratio of 1 hour at maximum continuous power and speed, and 1 hour at 50 percent maximum continuous power and 79.5 percent maximum continuous speed.

(9) A 20-hour run shall be conducted consisting of alternate periods in the lower gear ratio of 2 hours at maximum continuous power and speed, and 2 hours at maximum best economy cruising power and speed or at maximum recommended cruising power.

(10) A 5-hour run shall be conducted in the lower gear ratio at maximum best economy cruising power and speed or at maximum recommended cruising power and speed.

NOTE: Where simulated altitude test equipment is not available and when operating in the higher gear ratio, the runs may be conducted at the observed horsepower obtained with the critical altitude manifold pressure or specified percentages thereof, and the fuel-air mixtures may be adjusted rich enough to suppress detonation.

(c) *Helicopter engines.* For engines to be eligible for use on helicopters, the following series of runs shall apply:

(1) A 35-hour run shall be conducted consisting of alternate periods of 30 minutes each at take-off power and speed, and at maximum continuous power and speed.

(2) A 25-hour run shall be conducted consisting of alternate periods of 2½ hours each at maximum continuous power and speed, and at 70 percent maximum continuous power at maximum continuous speed.

(3) A 25-hour run shall be conducted consisting of alternate periods of 2½ hours each at maximum continuous power and speed, and at 70 percent maximum continuous power at 80 to 90 percent maximum continuous speed.

(4) A 25-hour run shall be conducted consisting of alternate periods of 2½ hours each at 80 percent maximum continuous power at take-off speed, and at 80 percent maximum continuous power at 80 to 90 percent maximum continuous speed.

(5) A 25-hour run shall be conducted consisting of alternate periods of 2½ hours each at 80 percent maximum continuous power at take-off speed, and at either maximum continuous power at 110 percent maximum continuous speed or at take-off power at 103 percent take-off speed, whichever condition results in the greater speed.

(6) A 15-hour run shall be conducted at 105 percent maximum continuous power and 105 percent maximum continuous speed or at full throttle and corresponding speed at standard sea level carburetor entrance pressure, provided that 105 percent of the maximum continuous power is not exceeded.

§ 13.155 *Operation test.* The operation test shall include all testing found by the Administrator to be necessary to demonstrate backfire characteristics, starting, idling, acceleration, overspeeding, functioning of propeller and ignition, and any other operational characteristic of the engine.

§ 13.156 *Teardown inspection.* After completion of the endurance test the engine shall be completely disassembled and a detailed inspection shall be made of the engine parts to check for fatigue and wear.

§ 13.157 *Engine adjustments and parts replacements.* During the block tests servicing and minor repairs of the engine shall be permissible. If major repairs or replacement of parts are found necessary during the tests or in the teardown inspection, the parts in question shall be subjected to such additional tests as are found by the Administrator to be necessary.

## SUBPART C—TURBINE ENGINES

### DESIGN AND CONSTRUCTION

§ 13.200 *Scope.* The provisions of this subpart shall apply to turbine engines.

(a) The engine shall not incorporate design features or details which experience has shown to be hazardous or unreliable. The suitability of all questionable design details or parts shall be established by tests.

(b) The design and construction provisions of this subpart shall be applicable to the engine when it is installed, operated, and maintained in accordance with the instruction manual prescribed in § 13.21 and when fitted with an appropriate propeller (if used).

§ 13.201 *Materials.* The suitability and durability of all materials used in the engine shall be established on a basis of experience or tests. All materials used in the engine shall conform to approved specifications which will insure their having the strength and other properties assumed in the design data.

§ 13.202 *Fire prevention.* The design and construction of the engine and the materials used shall be such as to minimize the possibility of occurrence and spread of fire because of structural failure, overheating, or other causes.

§ 13.203 *Vibration.* The engine shall be designed and constructed to function throughout its normal operating range of rotational speeds and engine powers without inducing excessive stress in any of the engine parts because of vibration and without imparting excessive vibration forces to the aircraft structure.

§ 13.204 *Durability.* All parts of the engine shall be designed and constructed to minimize the development of an unsafe condition of the engine between overhaul periods.

§ 13.205 *Surge characteristics.* The engine shall be free of detrimental surge throughout its operating range in the minimum ambient air temperature in which it is to be operated.

§ 13.210 *Fuel and induction system.* (a) The fuel system of the engine shall be designed and constructed to supply an appropriate mixture of fuel to the combustion chamber(s) throughout the complete operating range of the engine under all flight and atmospheric conditions.

(b) The intake passages of the engine through which air or fuel in combination with air passes for combustion purposes shall be designed and constructed to minimize the danger of ice accretion in such passages. The engine shall be designed and constructed to permit the use of a means for ice prevention.

§ 13.211 *Ignition system.* All engines shall be equipped with an ignition system for starting the engine on the ground and in flight.

§ 13.212 *Lubrication system.* The lubrication system of the engine shall be designed and constructed so that it will function properly in all flight attitudes and atmospheric conditions in which the airplane is expected to operate.

§ 13.213 *Engine cooling.* The engine shall be designed and constructed to provide the necessary cooling under conditions in which the airplane is expected to operate.

§ 13.214 *Engine mounting attachments.* The mounting attachments and structure of the engine shall have sufficient strength, when the engine is mounted on an aircraft, to withstand the loads arising from the loading conditions prescribed in the airworthiness parts of the regulations in this subchapter applicable to the aircraft involved.

§ 13.215 *Accessory attachments.* Accessory drives and mounting attachments shall be designed and constructed so that the engine will operate properly with the accessories attached. The design of the engine shall incorporate provisions for the examination, adjustment, or removal of all essential engine accessories.

### BLOCK TESTS

§ 13.250 *General.* The engine, including all essential accessories, shall be subjected to the block tests and inspections prescribed in §§ 13.251 through 13.257. In addition, throughout the tests, unless otherwise chosen by the applicant, the controlled air extraction shall be zero.

§ 13.251 *Vibration test.* A vibration survey shall be conducted to investigate the vibration characteristics of the engine over the operational range of rotational speed and engine power. If critical vibration is found to be present in the operating range of the engine, changes in design of the engine shall be made for its elimination prior to the conduct of the endurance test specified in § 13.254, or the endurance test shall include operation under the most adverse vibration condition for a period sufficient to establish the ability of the engine to operate without fatigue failure.

NOTE: The vibration survey usually need consist of external measurements only, unless the Administrator finds that internal measurements are necessary in a particular case.

§ 13.252 *Calibration tests.* (a) The engine shall be subjected to such calibration tests as are necessary to establish its power characteristics and the conditions for the endurance test specified in § 13.254. The results of the power characteristics calibration tests shall constitute the basis for establishing the characteristics of the engine over its entire operating range of speeds, pressures, temperatures, and altitudes. Power ratings shall be based upon standard atmospheric conditions. (See also § 13.16 (d).)

(b) Prior to the endurance test the power control(s) shall be adjusted to produce the maximum allowable gas temperatures and rotor speeds at take-off operating conditions. Such adjustment shall not be changed during the relevant calibration tests and the relevant runs of the endurance test.

§ 13.254 *Endurance test.* The endurance test of an engine with a representative propeller (if applicable) shall include a total of 150 hours of operation, consisting of 30 periods of 5 hours each as specified in this section. It shall be permissible to conduct each run of the endurance test, except the runs prescribed in paragraphs (a) and (f) of this section, with one predetermined engine variable (i. e., speed or gas temperature) held constant and with the position of the power lever(s) recorded. The runs shall be performed in such order as is found appropriate by the Administrator for the specific engine. Each period of the 150-hour endurance test shall be conducted as follows:

(a) *Take-off and idling.* One hour of alternate 5-minute periods shall be conducted at maximum take-off power and/or thrust and at idling power and/or thrust. In changing the power setting after each period, the power-control lever shall be moved in the manner prescribed in paragraph (f) of this section. The developed powers and/or thrusts at take-off and idling conditions and their corresponding rotor speed and gas temperature conditions shall be as established by the power control(s) in accordance with the schedule established by the manufacturer. It shall be permissible to control manually during any one period the speed and power and/or thrust while taking data to check performance.

(b) *91 percent take-off power and/or thrust.* Thirty minutes shall be conducted at the power lever position corresponding with either 91 percent take-off power and/or thrust or maximum continuous power and/or thrust, whichever is the greater.

(c) *Maximum continuous power and/or thrust.* One hour and 30 minutes shall be conducted at the power lever position corresponding with maximum continuous power and/or thrust.

(d) *90 percent maximum continuous power and/or thrust.* One hour shall be conducted at the power lever position corresponding with 90 percent maximum continuous power and/or thrust.

(e) *75 percent maximum continuous power and/or thrust.* Thirty minutes shall be conducted at the power lever position corresponding with 75 percent maximum continuous power and/or thrust.

(f) *Acceleration and deceleration runs.* Thirty minutes shall be conducted of accelerations and decelerations consisting of five cycles from idling power and/or thrust to take-off power and/or thrust and maintained at the take-off power and/or thrust for approximately 30 seconds and at the idling power and/or thrust for approximately 5 minutes. In complying with the provisions of this paragraph the power-control lever shall be moved from one extreme position to the other in not more than 1 second, except where different regimes of control operations are incorporated necessitating scheduling of the power-control lever motion in going from one extreme position to the other, a longer period of time shall be acceptable but in no case shall this time exceed 2 seconds.

(g) *Starts.* Seventy-five starts shall be made of which 30 starts shall be preceded by a 2-hour shutdown. It shall be acceptable to make the remaining starts after the completion of the 150 hours of endurance testing.

§ 13.255 *Operation test.* The operation test shall include all testing found by the Administrator to be necessary to demonstrate starting, idling, acceleration, overspeeding, functioning of propeller (if applicable) and ignition, and any other operational characteristic of the engine.

§ 13.256 *Teardown inspection.* After completion of the endurance test the engine shall be completely disassembled and a detailed inspection shall be made of the engine parts to check for fatigue and wear.

§ 13.257 *Engine adjustments and parts replacements.* During the block tests servicing and minor repairs of the engine shall be permissible. If major repairs or replacement of parts are found necessary during the tests or in the teardown inspection, the parts in question shall be subjected to such additional tests as are found by the Administrator to be necessary.

[Supp. 23]

## PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

### MISCELLANEOUS AMENDMENTS

The following amendments to Part 40 of this subchapter are adopted (1) to make an editorial correction to the title of § 40.170–2 made necessary by an amendment to the regulation; (2) to permit an operator to meet the requirements of § 40.170 (b) with respect to the Airplane Flight Manual by the insertion therein of a table for converting statute miles per hour to knots and the placing of cautionary notes on pages or charts on which statute-miles-per-hour airspeeds are shown (§ 40.170–3); and (3) to standardize, in the interest of safety, the color of warning lights used to indicate propeller reversal (§ 40.172–1).

1. The title of § 40.170–2 is revised to read *"Determination of operable condition of radio equipment (CAA interpretations which apply to § 40.170 (c))."*

2. Section 40.170–3 is added to read as follows:

§ 40.170–3 *Airspeed limitations and related information contained in the Airplane Flight Manual (CAA policies which apply to § 40.170 (b)).* The airspeeds shown in the Performance Information Section only, of an Airplane Flight Manual approved prior to April 1, 1956, may continue to be expressed in statute miles per hour: *Provided,* That a table converting statute miles to knots is incorporated therein, and a cautionary note is placed on each page and chart where airspeeds are denoted indicating that the statute miles shown must be converted to knots when determining performance information. A similar note should be placed in the Operations Limitations Section, indicating that airspeeds shown in the Performance Information Section are in statute miles and must be converted to knots when determining performance information.

3. Section 40.172–1 is added to read as follows:

§ 40.172–1 *Warning lights for reversible propellers (CAA policies which apply to § 40.172 (1)).* In the interest of cockpit uniformity, when warning lights are used to indicate to the pilot that a reversible propeller is in reverse pitch, such warning lights should be amber in color.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

This supplement shall become effective July 1, 1956.

[SEAL] JAMES T. PYLE,
*Acting Administrator of Civil Aeronautics.*

[F. R. Doc. 56-4811; Filed, June 19, 1956; 8:45 a. m.]

[Supp. 26]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

MISCELLANEOUS AMENDMENTS

The following amendments to Part 41 of this subchapter are adopted (1) to standardize, in the interest of safety, the color of warning lights used to indicate propeller reversal (§ 41.25–1); and (2) to permit an operator to meet the requirements of § 41.45 (d) with respect to the Airplane Flight Manual by the insertion therein of a table for converting statute miles per hour to knots and the placing of cautionary notes on pages or charts on which statute-miles-per-hour airspeeds are shown (§ 41.45–1).

1. Section 41.25–1 is added to read as follows:

§ 41.25–1 *Warning lights for reversible propellers (CAA policies which apply to § 41.25 (s)).* In the interest of cockpit uniformity, when warning lights are used to indicate to the pilot that a reversible propeller is in reverse pitch, such warning lights should be amber in color.

2. Section 41.45–1 is added to read as follows:

§ 41.45–1 *Airspeed limitations and related information contained in the Airplane Flight Manual (CAA policies which apply to § 41.45 (d)).* The airspeeds shown in the Performance Information Section only, of an Airplane Flight Manual approved prior to April 1, 1956, may continue to be expressed in statute miles per hour: *Provided,* That a table converting statute miles to knots is incorporated therein, and a cautionary note is placed on each page and chart where airspeeds are denoted indicating that the statute miles shown must be converted to knots when determining performance information. A similar note should be placed in the Operations Limitations Section, indicating that airspeeds shown in the Performance Information Section are in statute miles and must be converted to knots when determining performance information.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

This supplement shall become effective July 1, 1956.

[SEAL] JAMES T. PYLE,
*Acting Administrator of Civil Aeronautics.*

[F. R. Doc. 56–4812; Filed, June 19, 1956; 8:45 a. m.]

[Supp. 39]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

MISCELLANEOUS AMENDMENTS

The following amendments to Part 42 of this subchapter are adopted (1) to standardize, in the interest of safety, the color of warning lights used to indicate propeller reversal (§ 42.21–4); (2) to permit an operator to meet the requirements of § 42.22a with respect to the Airplane Flight Manual by the insertion therein of a table for converting statute miles per hour to knots and the placing of cautionary notes on pages or charts on which statute-miles-per-hour airspeeds are shown (§ 42.22a–1); (3) to allow operators conducting scheduled type operations more flexibility in the scheduling of flight crews (§ 42.48–2); and (4) to eliminate § 42.58–1 (b) which is contrary to present procedures for authorizing off-airways instrument operations within the United States.

1. Section 42.21–4 is added to read as follows:

§ 42.21–4 *Warning lights for reversible propellers (CAA policies which apply to § 42.21 (a) (15)).* In the interest of cockpit uniformity, when warning lights are used to indicate to the pilot that a reversible propeller is in reverse pitch, such warning lights should be amber in color.

2. Section 42.22a–1 is added to read as follows:

§ 42.22a–1 *Airspeed limitations and related information contained in the Airplane Flight Manual (CAA policies which apply to § 42.22a (d)).* The airspeeds shown in the Performance Information Section only, of an Airplane Flight Manual approved prior to April 1, 1956, may continue to be expressed in statute miles per hour: *Provided,* That a taxable converting statute miles to knots is incorporated therein, and a cautionary note is placed on each page and chart where airspeeds are denoted indicating that the statute miles shown must be converted to knots when determining performance information. A similar note should be placed in the Operations Limitations Section, indicating that airspeeds shown in the Performance Information Section are in statute miles and must be converted to knots when determining performance information.

3. Section 42.48–2 is added to read as follows:

§ 42.48–2 *Scheduled type operations (CAA policies which apply to § 42.48).* An operator conducting a scheduled type operation (e. g., scheduled cargo-only service, regular flights between points pursuant to a military contract, etc.) may establish flight operations schedules for a particular route or route segment in order to determine compliance with the scheduling provisions of the flight time limitations.

4. Section 42.58–1 (b) is deleted.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

This supplement shall become effective July 1, 1956.

[SEAL] JAMES T. PYLE,
*Acting Administrator of Civil Aeronautics.*

### Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

[1956 C. C. C. Flaxseed Bulletin 1, Amdt 1]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1956 TEXAS FLAXSEED PURCHASE PROGRAM

BASIC PURCHASE PRICES

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 21 F. R. 2137, and containing the specific requirements for the 1956-Crop Texas Flaxseed Purchase Program are amended as follows:

1. Section 421.2129 (a) is amended to set forth the Texas counties authorized under the program and the basic purchase rates so that the amended paragraph reads as follows:

§ 421.2129 *Basic purchase prices.* (a) The basic purchase price per bushel of flaxseed, grading No. 1, delivered under this program for the account of CCC will be at the rate established for the county where the flaxseed is delivered. Texas counties authorized under this program and basic purchase rates are as follows:

TEXAS

| County | No. 1 flaxseed | County | No. 1 flaxseed |
|---|---|---|---|
| Aransas | $2.94 | Forio | $2.82 |
| Atascosa | 2.87 | Galveston | 2.94 |
| Bastrop | 2.84 | Goliad | 2.90 |
| Bee | 2.93 | Gonzales | 2.85 |
| Bell | 2.82 | Guadalupe | 2.84 |
| Bexar | 2.85 | Hamilton | 2.76 |
| Blanco | 2.82 | Hays | 2.84 |
| Bowie | 2.74 | Hidalgo | 2.81 |
| Brooks | 2.86 | Jackson | 2.84 |
| Brown | 2.78 | Jim Hogg | 2.85 |
| Burnet | 2.78 | Jim Wells | 2.93 |
| Caldwell | 2.84 | Karnes | 2.89 |
| Calhoun | 2.84 | Kimble | 2.77 |
| Cameron | 2.81 | Kleberg | 2.92 |
| Coleman | 2.76 | La Salle | 2.79 |
| Collin | 2.78 | Lavaca | 2.84 |
| Colorado | 2.90 | Lee | 2.87 |
| Comal | 2.84 | Live Oak | 2.91 |
| Concho | 2.76 | McCulloch | 2.78 |
| De Witt | 2.85 | McMullen | 2.89 |
| Dimmit | 2.77 | Mason | 2.78 |
| Duval | 2.89 | Matagorda | 2.87 |

TEXAS—Continued

| County | No. 1 flaxseed | County | No. 1 flaxseed |
|---|---|---|---|
| Haverick | $2.73 | Travis | $2.84 |
| Medina | 2.83 | Uvalde | 2.78 |
| Milam | 2.84 | Victoria | 2.84 |
| Nueces | 2.95 | Webb | 2.81 |
| Real | 2.78 | Wharton | 2.92 |
| Red River | 2.74 | Willacy | 2.83 |
| Refugio | 2.89 | Williamson | 2.84 |
| Runnels | 2.74 | Wilson | 2.87 |
| San Patricio | 3.96 | Zapata | 2.77 |
| San Saba | 2.78 | Zavala | 2.75 |
| Taylor | 2.73 | | |

2. Section 421.2129 (b) (1) is amended to set forth the basic purchase price for flaxseed delivered to authorized dealers at the Corpus Christi and Houston terminal markets so that the amended subparagraph reads as follows:

§ 421.2129 *Basic purchase prices.* • • •

(b) (1) The basic purchase price shall be $3.14 per bushel for No. 1 flaxseed delivered to authorized dealers at the Corpus Christi and Houston terminal markets in carload lots which have been shipped by rail on a domestic interstate freight rate basis from a country shipping point to the said terminal markets as evidenced by paid freight bills duly registered for transit privileges and other documents as required in this subpart: *Provided,* That, in the event the amount of paid-in freight is insufficient to guarantee the minimum proportional freight rate from the aforesaid terminal markets, there shall be deducted from the applicable terminal purchase price the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee outbound movement at the minimum proportional freight rate. The terminal warehouse receipt must be accompanied by a registered freight bill, or by a supplemental certificate signed by the warehousemen, containing data like that on such freight bills, in the form prescribed by the CSS Commodity Office, Dallas, Texas.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072 secs. 301, 401, 63 Stat. 1053, 1054, as amended; 15 U. S. C. 714c, 7 U. S. C. 1447, 1421)

Issued this 14th day of June 1956.

[SEAL] WALTER C. BERGER,
*Acting Executive Vice President, Commodity Credit Corporation.*

[F. R. Doc. 56–4829; Filed, June 19, 1956; 8:49 a. m.]

Subchapter C—International Wheat Agreement

PART 481—COMMODITY CREDIT CORPORATION WHEAT AND WHEAT-FLOUR EXPORT PAYMENT PROGRAM (IWA)

SUBPART—TERMS AND CONDITIONS OF 1955–56 PROGRAM

PROGRAM PERIOD

The Terms and Conditions of 1955–56 Commodity Credit Corporation Wheat and Wheat-Flour Export Payment Program (IWA) (20 F. R. 4564) are amended as follows:

Section 481.631 is amended by changing the final date for sales from June 30, 1956, to July 31, 1956, and by eliminating the reference, no longer applicable, to 1954–55 Wheat Agreement year quotas, so that the amended section reads as follows:

§ 481.631 *Program period.* Sales entered into after the effective date of this offer and not later than July 31, 1956, for recording against the 1955–56 Wheat Agreement year quotas, are eligible for payment under this offer. Sales must be entered into during periods in which an announced rate is in effect, and in reliance thereon, in order to be eligible for payment.

(Sec. 2, 63 Stat. 945, sec. 104, 64 Stat. 198, 67 Stat. 358; 7 U. S. C. 1641, 1642)

Dated this 14th day of June 1956.

[SEAL] WALTER C. BERGER,
*Acting Executive Vice President, Commodity Credit Corporation.*

[F. R. Doc. 56–4828; Filed, June 19, 1956; 8:49 a. m.]

## TITLE 7—AGRICULTURE

### Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 966—MILK IN SHREVEPORT, LA., MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 966.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Shreveport, Louisiana marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity

of pure and wholesome milk and be in the public interest;

(3) The said order, as hereby amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held; and

(4) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler as his pro rata share of such expense, 5 cents per hundredweight, or such amount not exceeding 5 cents per hundredweight, as the Secretary may prescribe, with respect to all receipts within the month of (i) producer milk, including such handler's own production, (ii) other source milk at a fluid milk plant which is allocated to Class I milk, and (iii) Class I milk distributed during the month on routes (including routes operated by vendors) to retail or wholesale outlets located in the marketing area from a nonfluid milk plant.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, as amended, effective not later than July 1, 1956. The provisions of the said order are known to handlers. The decision of the Assistant Secretary containing all amendment provisions of this order was issued June 5, 1956. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order, as amended, effective July 1, 1956 and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (See section 4 (c) Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended, which is marketed within the Shreveport, Louisiana marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of the order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (March 1956), were engaged in the production of milk for sale in the said marketing area.

*Order relative to handling.* It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Shreveport, Louisiana, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

1. In § 966.8, delete paragraph "(a)" and substitute therefor:

(a) In any of the months of April through June; and

2. At the end of § 966.12 change the period to a colon and add the following proviso: "*And provided further*, That this definition shall not include any such person with respect to milk produced by him which is subject to the pricing and payment provisions of another marketing order issued pursuant to the act."

3. In § 966.27 (j) (2), delete "12th" and substitute therefor "10th".

4. At the end of § 966.41 (b) (2), substitute a comma for the semicolon and add the following: "or skim milk dumped during April, May and June which is not in excess of an amount equal to a daily average quantity of 1,500 pounds or five percent of receipts of skim milk in producer milk whichever is greater: *Provided*, That in the case of skim milk dumped, the market administrator is given at least 24 hours' notice of the handler's intention to make such disposition and the amount involved;".

5. In § 966.41 (b) (4), delete the phrase "(five percent with respect to skim milk during the months of April, May and June)".

6. At the end of § 966.51 (a), change the period to a comma and add the following: "except that plus $2.40 shall apply to the months of July 1956 through February 1957."

7. In § 966.90 (d), delete "13th" and "26th" and substitute, respectively therefor "11th" and "25th".

8. In § 966.94, delete the phrase "four cents per hundredweight, or such amount not exceeding four cents per hundredweight" and insert in lieu thereof the following: "five cents per hundredweight, or such amount not exceeding five cents per hundredweight".

(Sec. 5, 49 Stat. 753, as amended, 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 15th day of June 1956, to be effective on and after July 1, 1956.

[SEAL] EARL L. BUTZ,
*Assistant Secretary.*

[F. R. Doc. 56-4949; Filed, June 19, 1956; 8:54 a. m.]

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, International Association of Photographers et al., Hollywood, Calif., Docket 6165, June 1, 1956]

*In the Matter of International Association of Photographers, a Corporation, and Ray M. Mitchell, Frank Grzesiek, Raymond C. Ries, John Mason and Betty C. Mitchell, Individually*

This proceeding was heard by a hearing examiner on the complaint of the Commission, charging a corporation and its officers, engaged in the sale and distribution from their place of business in Hollywood, Calif., of photograph albums, together with certificates for photographs to be taken at independent affiliated studios, securing names of prospects largely from birth announcements in newspapers, with falsely representing in advertising, on the certificates sold to customers, and by their salesmen, that the person solicited had been specially selected, was to receive an album free, and that the charge made was for the photograph; that the prices were promotional and reduced, and that the photographs were of natural gold-tone finish; with obtaining signatures on order blanks on the pretense that they were receipts for free albums; and with implying, by their corporate name, that they were an association of photographers.

Following answer and hearings in due course, the hearing examiner made his initial decision, including findings and order to cease and desist, from which respondents appealed. The Commission, after hearing the matter on briefs and oral argument, in an opinion by Chairman Gwynne dated June 1, 1956, rendered its decision modifying the findings in the initial decision, denying the appeal in all other respects, and adopting as its own the initial decision as so modified.

The order to cease and desist is as follows:

*It is ordered*, That respondents International Association of Photographers, a corporation, and its officers, and Ray M. Mitchell, Frank Grzesiek, Raymond C. Ries, John Mason and Betty C. Mitchell, individually, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of photograph albums or certificates for photographs, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication—

a. That they sell only to selected persons;

b. That their albums are given free or without cost;

c. That the prices at which they regularly or customarily sell their products are reduced or promotional prices;

d. That the photographs provided by respondents' certificates are of natural gold tone finish;

2. Misrepresenting the number and availability of photographers who will honor certificates issued by respondents;

3. Obtaining signatures on order blanks upon the pretense that they are receipts for free albums, or attempting to collect from the persons who may have signed such blanks;

4. Using the corporate name "International Association of Photographers," or any other name of similar import to designate, describe or refer to respondents' business, or otherwise representing that their business is an association, international or otherwise, of photographers.

By "Final Order", report of compliance was required as follows:

*It is ordered*, That to the extent noted in the accompanying opinion the respondents' appeal be, and it hereby is, granted. In all other respects, said appeal is hereby denied.

*It is further ordered*, That the respondents, International Association of Photographers, a corporation, and Ray M. Mitchell, Frank Grzesiek, Raymond C. Ries, John Mason, and Betty C. Mitchell, individuals, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order contained in the aforesaid initial decision.

Issued: June 1, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH,
*Secretary.*

[F. R. Doc. 56-4819; Filed, June 19, 1956; 8:47 a. m.]

## TITLE 33—NAVIGATION AND NAVIGABLE WATERS

### Chapter II—Corps of Engineers, Department of the Army

PART 208—FLOOD CONTROL REGULATIONS

FOLSOM DAM AND RESERVOIR; AMERICAN RIVER, CALIFORNIA

Pursuant to the provisions of section 7 of the act of Congress approved December 22, 1944 (58 Stat. 890, 33 U. S. C. 709), and of the act of Congress approved October 14, 1949 (63 Stat. 852), § 208.87 is hereby prescribed to govern the use and operation of Folsom Dam and Reservoir, on American River, California, for flood control purposes;

§ 208.87 *Folsom Dam and Reservoir.* The Bureau of Reclamation shall operate Folsom Dam and Reservoir in the interest of Flood control as follows:

(a) Except when greater releases are required as prescribed in paragraph (c) of this section, releases from Folsom Reservoir shall be restricted to rates specified on the Flood Control Storage Reservation Diagram currently in force. The Flood Control Storage Reservation Diagram in force as of the promulgation of this section is that dated May 24, 1956. File No. AM-1-26-584, and is on file in the Office of the Chief of Engineers, Department of the Army, Washington 25, D. C., and in the office of the Commissioner of Reclamation, Washington, D. C. Revisions of the Flood Control Storage Reservation Diagram may be developed from time to time as necessary by the Corps of Engineers and the Bureau of Reclamation. Each such revision shall be effective upon the date specified in the approval thereof by the Chief of Engineers and the Commissioner of Reclamation and from that date until replaced shall be the Flood Control Storage Reservation Diagram currently in force for purposes of this section. Copies of the Flood Control Storage Reservation Diagram currently in force shall be kept on file in and may be obtained from the office of the District Engineer, Corps of Engineers, and the Regional Director, Bureau of Reclamation, in charge of the locality.

(b) Storage space in Folsom Reservoir shall be kept available for control purposes in accordance with the Flood Control Storage Reservation Diagram currently in force, except when storage of flood-water is necessary as prescribed in paragraph (a) of this section. Any water temporarily stored in the flood control space indicated by the Flood Control Storage Reservation Diagram currently in force shall be released as rapidly as can be safely accomplished without causing downstream flows to exceed the criteria.

(c) In the event that the reservoir level approaches or exceeds elevation 466 at the dam (gross pool elevation) subsequent operation of the dam shall be, insofar as possible, in accordance with the Emergency Release Diagram currently in force, or the Flood Control Storage Reservation Diagram currently in force, whichever requires the greater release. The Emergency Release Diagram in force as of the promulgation of this section is that dated May 24, 1956, File No. AM-1-26-585, and is on file in the Office of the Chief of Engineers, Department of the Army, Washington, D. C., and in the office of the Commission of Reclamation, Washington, D. C. Revisions of the Emergency Release Diagram may be developed from time to time as necessary by the Corps of Engineers and the Bureau of Reclamation. Each such revision shall be effective upon the date specified in the approval thereof by the Chief of Engineers and the Commissioner of Reclamation and from that date until replaced shall be the Emergency Release Diagram currently in force for purposes of this section. Copies of the Emergency Release Diagram currently in force shall be kept on file in and may be obtained from the offices of the District Engineer, Corps of Engineers, and the Regional Director, Bureau of Reclamation, in charge of the locality.

(d) Except as necessary in order to comply with provisions of the emergency release diagram under paragraph (c) of this section, the regulations of this section shall not be construed to require dangerously rapid changes in magnitudes of release. The regulations of this section shall not be construed to require that releases be made in a manner that would be inconsistent with requirements for protecting the dam and reservoir from major damage.

(e) The Bureau of Reclamation shall procure such current basic hydrologic data and make such current determinations of required flood control storage reservation and release as are required to accomplish the flood control objectives prescribed in this section.

(f) The Bureau of Reclamation shall keep the District Engineer, Corps of Engineers, Department of the Army, in charge of the locality, currently advised of reservoir release, reservoir storage, and such other operating data as the District Engineer may request, and also of those basic operating criteria which affect the schedule of operation. Also the Bureau of Reclamation shall keep the State Engineer, acting for the Department of Public Works of the State of California, currently advised of reservoir releases.

(g) The Flood Control regulations of this section are subject to temporary modification by the District Engineer, Corps of Engineers, if found necessary in time of emergency. Requests for and action on such modifications may be made by any available means of communication and the action taken by the District Engineer shall be confirmed in writing under date of same day to the Office of the Regional Director of the Bureau of Reclamation in charge of the operations.

(h) Nothing in this section shall be construed as modifying the Schedule of Operation for Sacramento Weir, adopted by the California Debris Commission, November 25, 1940.

[Regs., 24 May 1956, ENGWE] (Sec. 7, 58 Stat. 890, 63 Stat. 852; 33 U. S. C. 709)

[SEAL] JOHN A. KLEIN,
*Major General, U. S. Army,*
*The Adjutant General.*

[F. R. Doc. 56-4810; Filed, June 19, 1956; 8:45 a. m.]

## TITLE 36—PARKS, FORESTS, AND MEMORIALS

### Chapter I—National Park Service, Department of the Interior

PART 20—SPECIAL REGULATIONS

MOUNT MCKINLEY NATIONAL PARK, ALASKA

Section 20.44, entitled *Mount McKinley National Park* is amended by adding a new paragraph designated (d), reading as follows:

(d) *Special wildlife protection area.* The area within one mile of the Park road (Denali Highway) between milepost 37 and milepost 42 (Sable Pass area) is closed to photographers, hikers, and other Park visitors except as may be specifically authorized by the Superintendent. Observations and photography of wildlife and other features are permitted from the road shoulders and designated turnouts.

(Sec. 3, 39 Stat. 535, as amended; 16 U. S. C. 3)

Issued this 1st day of June 1956.

[SEAL] GRANT H. PEARSON,
*Superintendent,*
*Mount McKinley National Park.*

[F. R. Doc. 56-4814; Filed, June 19, 1956; 8:46 a. m.]

## TITLE 42—PUBLIC HEALTH

### Chapter I—Public Health Service, Department of Health, Education, and Welfare

PART 71—FOREIGN QUARANTINE

CATS AND DOGS FROM CANADA

Notice of proposed rule making, public rule making procedures and postponement of effective date have been found to be contrary to the public interest in the issuance of this amendment of § 71.154 of this part since a substantial number of rabies cases have been reported in Canada, and, in order to assure against the importation and transmission of such disease, it is necessary to require that cats and dogs brought to the United States from Canada be subject immediately to the requirements of § 71.154 (a) and (b) of these regulations.

1. Paragraphs (a) and (b) of § 71.154 are hereby amended by deleting the word "Canada" wherever it appears so that those paragraphs will read as follows:

(a) *Cats: Physical inspection.* No cat shall be brought into a port under the control of the United States from any foreign country other than Bermuda, Denmark, Eire, Norway, Sweden, or the United Kingdom of Great Britain and Northern Ireland unless:

(1) The owner submits a sworn statement that the animal was physically inspected within ten days prior to departure for the United States and was found apparently free of demonstrable diseases involving emaciation, lesions of the skin, nervous system disturbances, jaundice, or diarrhea, or

(2) The animal is examined by a quarantine officer following arrival at a port under control of the United States and found apparently free of demonstrable diseases involving emaciation, lesions of the skin, nervous system disturbances, jaundice, or diarrhea.

(b) *Dogs: Physical inspection; rabies immunization; importation for scientific purposes.* (1) No dog shall be brought into a port under the control of the United States from any foreign country other than Bermuda, Denmark, Eire, Norway, Sweden, or the United Kingdom of Great Britain and Northern Ireland unless:

(i) The owner submits a sworn statement that the animal was physically inspected within ten days prior to departure for the United States and was found apparently free of demonstrable diseases involving emaciation, lesions of the skin, nervous system disturbances, jaundice, or diarrhea, or

(ii) The animal is examined by a quarantine officer following arrival at a port under control of the United States and found apparently free of demonstrable diseases involving emaciation, lesions of the skin, nervous system disturbances, jaundice, or diarrhea.

(2) No dog shall be brought into a port under the control of the United States from any foreign port other than Australia, Bermuda, Denmark, Eire, New Zealand, Norway, Sweden, or the United Kingdom of Great Britain and Northern Ireland unless:

(i) The owner submits a sworn statement that the animal has been immunized with an approved rabies vaccine not more than six months prior to the date of entry, or

(ii) The animal is immunized with an approved rabies vaccine following arrival at a port under control of the United States and prior to release from quarantine, or

(iii) The owner submits a sworn statement to the effect that the animal is destined for a research institution, that it is intended by such institution to be used for scientific purposes, and that immunization will seriously interfere with its use for such purposes.

(Sec. 215, 58 Stat. 690, as amended, 42 U. S. C. 216. Interprets or applies secs. 361-369, 58 Stat. 703-706; 42 U. S. C. 264-272)

*Effective date.* This amendment shall become effective on the date of publication in the FEDERAL REGISTER.

Dated: May 31, 1956.

[SEAL] DAVID E. PRICE,
*Acting Surgeon General.*

Approved: June 14, 1956.

## TITLE 47—TELECOMMUNICATION

### Chapter I—Federal Communications Commission

[Amdt. 3-15; FCC 56-552]

PART 3—RADIO BROADCAST SERVICES

SUBSIDIARY COMMUNICATIONS AUTHORIZATIONS OF FM BROADCAST STATIONS

In the matter of amendment of § 3.293 of the Commission's rules and regulations relating to Subsidiary Communications Authorizations of FM Broadcast Stations; Rules Amdt. 3-15.

1. The Commission has before it for consideration the petitions of 22 FM broadcast stations requesting amendment of § 3.293 of its rules and regulations to extend for a one-year period the time during which FM broadcast stations may conduct functional music operations on a simplex basis.

2. The Commission amended its rules effective July 1, 1955, to specify conditions under which FM broadcast stations would be permitted to provide functional music service such as background music, storecasting, transitcasting, etc. (Report and Order (FCC 55-340) in Docket No. 10832, issued March 22, 1955). In taking this action the Commission concluded that although functional music operations were "predominantly non-broadcast in nature", they would be allowed as "an adjunct to the FM broadcast operation in order that the latter might draw financial sustenance from them". It was emphasized that functional music was a subsidiary service, allowed for the primary purpose of aiding the main undertaking—the broadcast service to the public. FM broadcasters desiring to furnish a functional music service must obtain a Subsidiary Communications Authorization (SCA).

3. In authorizing functional music operations by FM broadcasters, the Commission contemplated that as soon as feasible all such operations should be conducted on a multiplex basis under which the functional music programs would be transmitted on a sub-channel simultaneously with the regular broadcast programs on the main channel. However, in light of the unavailability of multiplex equipment at that time, it was provided that functional music could be conducted on a simplex basis for the first year following the effective date of the new rules—or until July 1, 1956. After July 1 all functional music operations must be multiplexed.

4. The following FM broadcast stations holding SCA's for simplex operation have filed petitions with the Commission requesting that the date when all functional music operations must be multiplexed be postponed for at least one year:

Robert P. Adams (KUTE-FM), Glendale, Calif.; Progress Broadcasting Corp. (WHOM-FM), New York, N. Y.; North Shore Broadcasting Co. (WEAW-FM), Evanston, Ill.; Silver City Crystal Co. (WMMW-FM), Meriden, Conn.; Functional Music, Inc. (WFMF), Chicago, Ill.; Michigan Music Co. (WMUZ), Detroit, Mich.; The Capital Broadcasting Co. (WNAV-FM), Annapolis, Md.; Radio KITE, Inc. (KITE-FM), San Antonio, Tex.; Music Unlimited (KSON-FM), San Diego, Calif.; Santa Clara Broadcasting (KSJO-FM), San Jose, Calif.; King Broadcasting Co. (KING-FM), Seattle, Washington; Sundial Broadcasting Corp. (KDFC), San Francisco, Calif.; WHBL, Inc. (WHBL-FM), Sheboygan, Wis.; Wm. Penn Broadcasting Co., Inc. (WPEN-FM), Philadelphia, Pa.; WWDC, Inc. (WWDC-FM), Washington, D. C.; Musicast, Inc., Los Angeles, Calif.; WBFM, Inc. (WBFM-FM), New York, N. Y.; Lincoln Broadcasting Co. (WLDM-FM), Detroit, Mich.; Mount Mitchell Broadcasters, Inc. (WMIT), Clingmans Peak, N. C.; Agnes J. Reeves Greer (WKJF-FM), Pittsburgh, Pa.; KLEF Broadcasters (KQXR), Bakersfield, Calif.; Seaboard Radio Broadcasting Corp. (WIBG-FM), Philadelphia, Pa.

5. The FM broadcast stations submit that satisfactory multiplex equipment has not become generally available and that, consequently, unless they are permitted to continue to provide functional music service on a simplex basis after July 1st, they will be required to terminate their service. Detailed affidavits by engineers and equipment manufacturers have been furnished indicating the present status in the development of multiplex equipment. The FM broadcasters represent that they will convert to multiplexing as soon as satisfactory equipment can be obtained and state that they expect that sufficient progress will have been made in the development and production of equipment to enable them to convert within 12 to 18 months.

6. In permiting functional music operations to be conducted on a simplex basis for a one-year period, we believed that this would permit the immediate undertaking of functional music operations; allow those licensees who had invested in special equipment to realize some return; and insure an adequate period for development and manufacture of multiplex equipment at reasonable prices. The petitioners have indicated their desire and intention to convert to multiplexing as soon as such equipment does become generally available. It appears, however, that multiplex equipment is not yet generally available. We believe, therefore, that the public interest would be served by extending for a one-year period the time during which functional music operations may be conducted on a simplex basis.

7. In light of the foregoing, we are amending § 3.293 of the rules to postpone the date for conversion to multiplexing to July 1, 1957. At the same time, we are extending all outstanding Subsidiary Communications Authorizations for simplexing to that date, but in no event beyond the expiration date of the outstanding license of the FM broadcast station holding the SCA.

8. Authority for the adoption of the amendment herein is contained in sections 4 (i), 301, 303 (b), (g) and (r) of the Communications Act of 1934, as amended. Since the amendment represents a relaxation of a rule, no prior notice of rule making is necessary.

9. *It is ordered,* That, effective June 29, 1956, § 3.293 of the Commission's rules and regulations is amended by changing the last parenthetical expression thereof to read as follows: "Subsidiary Communications Authorizations on a simplex basis will be issued to expire July 1, 1957."

10. *It is further ordered,* That, effective July 1, 1956, all Subsidiary Communications Authorizations for simplex functional music operations are extended to July 1, 1957, or to the expiration date of the outstanding license of the FM broadcast stations holding the SCA, whichever is sooner.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies sec. 301, 48 Stat. 1081, 47 U. S. C. 301; sec. 303, 48 Stat. 1082, 47 U. S. C. 303)

Adopted: June 13, 1956.

Released: June 15, 1956.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] MARY JANE MORRIS,
*Secretary.*

## TITLE 49—TRANSPORTATION

### Chapter I—Interstate Commerce Commission

[Service Order 914]

PART 95—CAR SERVICE

FREE TIME ON UNLOADING EXPORT FREIGHT FROM CARS AT GREAT LAKES PORTS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 14th day of June A. D. 1956.

It appearing that there is a critical shortage of freight cars, that such cars are being delayed unduly in unloading at ports, and that free time published in tariffs for unloading such cars aggravates the shortage; impeding the use, control, supply, movement, distribution, exchange, interchange, and return of such cars; in the opinion of the Commission, an emergency exists at all ports of the country requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

*It is ordered,* That:

§ 95.914 *Free time on unloading export freight from cars at Great Lakes ports.* (a) No common carrier or carriers by railroad subject to the Interstate Commerce Act shall allow, grant, or permit more than two (2) days' free time on any car loaded with freight for export (except coal, coke, bulk grain, flaxseed, and soybean shipments) held for unloading at any Great Lakes port for transfer from car to vessel or storage or when held short of such transfer point. The provisions of this paragraph shall not be construed to require or permit the increase of any free time published in tariffs lawfully on file with this Commission, and in effect on the effective date of this section.

(b) Computation of free time: (1) All Saturdays, Sundays, and the holidays listed in Item 25 of Agent Hinsch's Demurrage Tariff 4-C, I. C. C. No. 4677 and subsequent issues thereof shall be excluded in computing the free time provided in paragraph (a) of this section.

(2) The free time provided in paragraph (a) of this section shall be computed from the first 7:00 a. m., after notice of arrival of constructive placement is sent or given to the party entitled to receive same until final release of the car, less time required to move a constructively placed car from hold point to point of unloading.

(c) Application: The provisions of this section shall apply to intrastate, interstate, and foreign commerce, including commerce with insular possessions and the territories of Alaska and Hawaii.

(d) Effective date: This section shall become effective at 5:00 p. m., June 14, 1956.

(e) Expiration date: This section shall expire at 11:59 p. m., December 31, 1956, unless otherwise modified, changed, suspended, or annulled by order of this Commission.

(f) This section shall not change Demurrage Rule 8 of Tariff I. C. C. No. 4677 as amended or as reissued, or similar rules in other tariffs adjusting, cancelling, or refunding demurrage charges arising from the unusual conditions or circumstances described in said Rule 8 or similar rules in other tariffs.

*It is further ordered,* That a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] HAROLD D. MCCOY,
*Secretary.*

[F. R. Doc. 56-4846; Filed, June 19, 1956; 8:53 a. m.]

# PROPOSED RULE MAKING

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

[ 7 CFR Part 927 ]

[Docket No. AO-71-A-31]

HANDLING OF MILK IN NEW YORK METROPOLITAN MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENT OF TENTATIVE AGREEMENT AND ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at New York City during the period May 21-June 5, 1956, pursuant to notice thereof issued on May 10, 1956, and published in the FEDERAL REGISTER on May 15, 1956 (21 F. R. 3178).

The material issues of record are concerned with:

1. The pricing of Class I-A milk for the period July-September 1956;
2. The pricing of Class III milk;
3. The fluid skim differential; and
4. The need for prompt action necessitating omission of a recommended de-

cision and opportunity for exceptions with respect to these issues.

*Findings and conclusions.* The following findings and conclusions are based upon evidence in the record of the hearing:

*Issue No. 1.* Consideration was given at this hearing to proposals for fixing Class I–A prices only for the months of July, August, and September 1956. Two specific proposals made were (1) for $6.00 per hundredweight seasonally adjusted ($5.70 for July, $6.00 for August, and $6.24 for September), and (2) for $5.50 in each of the three months.

These proposals were made as a means of providing an immediate increase in the returns to producers. Proponents contended that producers are experiencing severe economic difficulty resulting from failure of the uniform price paid to producers to adequately compensate producers for the costs of milk production. It was further indicated that the economic difficulties being experienced are sufficiently intense to have created unrest among producers to a degree threatening the maintenance of orderly marketing of milk in the market.

In considering these proposals for increasing the Class I–A price, it is necessary, of course, to do so with reference to the purposes or objectives properly sought to be accomplished in the fixing of Class I–A prices under the order. The Agricultural Marketing Agreement Act of 1937, as amended, pursuant to which minimum prices are established under the order, authorizes the Secretary of Agriculture to fix such prices as he finds will reflect the price of feeds, the available supply of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, insure a sufficient quantity of pure and wholesome milk and be in the public interest. Prices established under the order must conform to these standards.

Monthly Class I–A prices for the year 1955 averaged $5.20 per hundredweight. This was 7 cents higher than in 1954, 3 cents lower than in 1953, and 30 cents below the average for 1952. During the first 6 months of 1956 the Class I–A price averaged $5.06, 2 cents higher than during the same period in 1955.

At the request of producer representatives action was taken recently by the Department resulting in the maintenance of Class I–A prices for the month of May and June at the April level of $4.78. In response to similar requests by producers in other markets, action also was taken by the Department resulting in the establishment of higher prices for Class I milk than otherwise would have prevailed during the months of May, June, and July in a substantial number of other markets under Federal regulation. No such action, however, was taken in the Federally regulated markets nearest to New York (New England markets and Philadelphia).

The New York Class I–A price appears to be reasonably in line with Class I prices in other markets, and is not abnormally low relative to manufacturing milk prices. For the year 1955 the New York Class I–A price in relation to Class I prices in Boston was somewhat lower than in other recent years, but in recent months the relationship has shifted so that the Class I–A price in New York currently is higher than usual in relation to Boston. In relation to the Philadelphia Class I price, the New York Class I–A price was higher during 1955 than during the preceding three years. For the year 1955 the New York Class I–A price exceeded the Chicago Class I price by $1.46 per hundredweight compared with the average of $1.15 for the years 1947–1955. The New York Class I–A price averaged $2.24 above the Midwestern condensery price for the year 1955 compared with an average of $1.96 higher during the period 1947–1955. Class I–A prices currently in effect, and in prospect for the next few months, are at substantially the same level as in 1955.

The supply of pool milk in relation to fluid milk sales continues to run relatively high. In terms of annual averages, the precentages of pool milk utilized in Class I (A, B, and C) for the years 1951 through 1955 were 52.3, 51.4, 48.6, 47.3, and 46.9, respectively. During the month of smallest supply, usually in November, milk utilized in fluid form together with milk used for fluid cream in the marketing area (required by health authorities to come from approved sources) accounted for declining proportions of the total volume of pool milk during each of the past four years. The percentages so utilized in the years of 1951 through 1955 were 80.7, 74.1, 72.7, 70.1, and 65.6, respectively.

There is no basis for finding that the proposed increase in the Class I–A price would not be reflected in higher consumer prices for milk. While the record provides no basis for determining the precise impact of an increase of 1 or 2 cents per quart on consumer prices on the sales of Class I–A milk, it is a reasonable conclusion that the effect would be unfavorable in some degree. From the standpoint of return to producers, any reduction in Class I–A sales, accompanied by an equivalent increase in the volume of milk going into the lowest prices used, would tend to offset higher returns resulting from a higher Class I–A price.

It is concluded that the order should be amended to fix a price for Class I–A milk of $5.22 for the month of July 1956, and that the minimum prices established for the months of August and September 1956 should be those prices resulting from operation of existing provisions of the order for the pricing of Class I–A milk.

*Issue No. 2.* Proposals relating to the pricing of Class III milk on which evidence was presented at the hearing include those (1) to increase the level of the Class III price, (2) to provide more seasonal variation in the price, and (3) for changing the price of milk used for butter and cheese relative to the price of milk for other Class III uses. It was also proposed that a lower price for Class III milk be established for the months of February through June and that there be eliminated from the order the provision under which the butter-cheese adjustment is reduced whenever the market price of cheese in relation to the market prices of butter and nonfat dry milk is higher than the relationship historically prevailing.

On the basis of the evidence presented relating to these proposals, it is concluded that provisions of the order for the pricing of Class III milk should be amended as follows:

(1) By increasing the Class III price 13 cents per hundredweight for the months of July through November, 10 cents for the months of December, January and February, 8 cents for the months of March and April, and 5 cents for the months of May and June.

(2) By reducing the amount of the butter-cheese adjustment from 4 cents to 3 cents per pound of butterfat during the months of July through February, thus increasing by 3.5 cents per hundredweight for those months the price of milk used for butter and cheese; and

(3) Eliminating provisions for reducing the butter-cheese adjustment whenever the market price for cheese is abnormally high in relation to the market price for butter and nonfat dry milk.

The first of these amendments will provide an additional 8 cents seasonal variation in the Class III price, a simple average annual increase of 10 cents in Class III prices, and on the basis of the monthly volumes of Class III milk during 1955 would result in a weighted average annual increase in the level of the price of about 9.1 cents per hundredweight. The second listed amendment will add an additional 3.5 cents per hundredweight to the price of milk used for butter and cheese except during the months of March, April, May, and June, and, on the basis of 1955 volumes, would result in a weighted average increase on an annual basis of 1.5 cents per hundredweight of milk used for butter and cheese, and about 0.4 cents per hundredweight of all Class III milk. During 1955 both amendments would have increased the average annual level of the Class III price by about 9.5 cents per hundredweight. The third listed amendment would have had no effect during 1955 but will eliminate the possibility of any further reduction in the amount of the butter-cheese adjustment.

There are indications that the present Class III pricing provisions result in a price which does not fully reflect the value of Class III milk for manufacturing purposes. During 1955 and the first four months of 1956 the level of the Class III price declined in relation to the support price of milk for manufacturing purposes, and in relation to the United States average prices paid for milk for manufacturing and the prices paid at selected Midwestern condenseries. With no change in the support level, the weighted average price for all Class III milk was 5 cents lower in 1955 than in 1954. During the 12 months ending with April 1956 the weighed average price for all Class III milk was 6 cents lower than in 1954. Compared with the United States average price for milk for manufacturing the average price for all Class III milk was higher by 3 cents in 1954 but lower by 1 cent in 1955, and lower by 4 cents during the 12 months ending with April 1956. The Midwestern condensery price exceeded the annual average price for all Class III milk by 6 cents in 1953, 11 cents in 1954, 18 cents in 1955, and 20 cents for the 12 months ending with April 1956. The Midwestern condensery price exceeded the Class III price by an average of 15 cents per hundredweight during the 6-year period of 1950–1956. An increase in the Class III price is needed to bring it more nearly in line with the United States average price for milk for manufacturing and with the Midwestern condensery price. An increase of approximately 9 cents per hundredweight during the 12 months ending April 1956 would have restored the relationship which existed during 1954.

The addition of fixed amounts to the monthly Class III prices as calculated under the present formula, rather than reversing the 30–70 weighting of spray and roller nonfat dry milk prices as proposed at the hearing, is chosen as a means of increasing the level of the Class III price at this time. The method chosen is in the interest of simplicity and in recognition of the prospect of again considering Class III pricing provisions at an early date. The proposed reversal of the present 30–70 weighting appears to be more realistic from the standpoint of industry practice, but involves month to month changes in prices concerning which further exploration is desirable.

An increase in the Class III price at this time is supported also by evidence of increased gross margins available to handlers on milk for manufacturing uses and of the existence of adequate outlets for the disposition of Class III milk at higher than average handling charges. During the year 1955 and for the 12 months ending with April 1956, handling charges obtained in the spot market for fluid milk in the marketing area were substantially higher than during the preceding 3 years and about the same as in 1950. Handling charges negotiated earlier this year under annual contracts for fluid milk supplies for the marketing area during 1956 are also reported to be somewhat higher than in 1954 and considerably higher than in 1953. The attractiveness of outlets for milk for various manufacturing uses is recognized as constituting an important factor influencing the rates of handling charges negotiated under contracts between buyers and sellers for supplies of milk for fluid distribution in the marketing area. There is no evidence of reluctance on the part of operators of manufacturing milk facilities generally to accept milk for manufacturing purposes on reasonable terms.

A further consideration of importance under circumstances shown at this hearing to prevail is the effect of the level of the Class III price on returns to producers. For the year 1955 there were 3,708 million pounds of pool milk utilized in Class III, representing 45.6 percent of all pool milk compared with 3,221 million pounds, constituting 39.6 percent of the pool milk, utilized in Class I–A. The volume of Class III milk thus exceeded the volume in Class I–A by about 15 percent. Utilization in all fluid classes, however (Classes I–A, I–B and I–C), brought the total fluid use up to about 47 percent of pool receipts.

For reasons more fully set forth in prior decisions and for the additional reason that the question of pricing Class III milk is scheduled for further consideration at a hearing to begin on June 18, 1956, it is concluded that the price for Class III milk should not be tied directly to prices paid at Midwestern condensaries. It is again determined, however, on the basis of evidence in this record that prices paid for milk for manufacturing uses, including prices paid at Midwestern condensaries, constitute a useful and reliable guide for determining the proper average level of the Class III price over extended periods.

The seasonal variation in the Class III price herein determined to be appropriate is based on evidence to the effect that the most favorable outlets for Class III milk are available during the months of July through November and that during the months of February through June relatively large proportions of the Class III milk go into lower valued uses, and that it is during this period that Class III handlers experience more intensive competition with milk from nonpool sources for the available outlets for Class III milk.

The volume of Class III milk was 329 million pounds greater in 1955 than in 1953. Nearly 70 percent of this additional volume went into various Class III uses other than butter and cheese. However, the volume of milk used for butter and cheese was about 100 million pounds greater in 1955 than in 1953. With an increase in the level of the Class III price a reduction of 1-cent per pound of butterfat in the amount of the butter-cheese adjustment appears desirable in order to provide assurance that the utilization of milk for butter and cheese becomes no more favorable than at the present relative to other uses, and to bring the price established for milk used for butter and cheese more nearly in line, although still substantially below, competitive prices paid for milk for these uses. However, maintenance of the present 4-cent rate during the months of March, April, May, and June will preserve the present relationship during months when the volume of milk utilized for butter and cheese is the greatest. In 1955 approximately 56 percent of the total volume of milk utilized for butter and cheese was in the months of March, April, May, and June. For the year 1955 the Class III price for milk used for butter and cheese was lower than the United States average price paid for milk for butter and nonfat dry milk by about 16 cents and lower than the United States average price paid at cheese factories by about 9 cents. Compared with prices paid at creameries and cheese factories in Wisconsin the butter-cheese price under the order was lower by 18 to 20 cents.

Evidence presented in connection with the proposal to delete that portion of the butter-cheese adjustment provision under which the amount of the adjustment is reduced depending upon the current ratio of the price of cheese to the price of butter and nonfat dry milk indicates that the provision may not now be serving a desirable purpose. It was shown that recent changes in the respective purchase prices under the support program have resulted in price relationships not properly reflected in the provision. The record, however, does not provide adequate basis for revision of the 2.5 ratio as may be necessary. For these reasons, and in view of the decision herein to reduce the butter-cheese adjustment, the provision should be deleted.

*Issue No. 3.* It is concluded that the fluid skim differential should be so modified (1) that it is not applied to skim milk which is utilized in cultured milk drinks containing less than 3.0 percent or more than 5.0 percent of butterfat; and (2) that condensed skim milk is included in the list of forms in which skim milk may enter the marketing area and be subject to the fluid skim differential.

The order presently provides a fluid skim differential which is an additional charge for certain skim milk. It is applied primarily to skim milk derived from Class II or Class III milk which enters the marketing area in one of a number of specified forms, and is there utilized in any one of a number of specified products. The differential is so computed that if a hundredweight of Class II milk containing 3.5 percent butterfat is separated into 40 percent cream, and the skim milk resulting from such separation is subject to the fluid skim differential, the total value at the Class II price plus the fluid skim differential will be equal to the Class I–A price per hundredweight.

Several proposals were made to amend the provision with respect to the fluid skim differential. They were as follows:

(1) To increase the rates;

(2) To apply it to skim derived from Class I milk;

(3) To add flavored drinks to the list of utilizations which would require the fluid skim differential;

(4) To eliminate cultured drinks both from the list of specified forms in which skim milk may enter the marketing area and be subject to the differential, and from the list of uses of skim milk to which the differential would apply; and

(5) To add condensed skim milk to the list of the forms in which skim milk may enter the marketing area and be subject to the fluid skim differential.

Proposals 1 and 2 would result in many cases in the combined value of milk when separated into cream and skim milk being considerably higher than the Class I–A value. The record provided no adequate basis for a determination that the sum of the values of the component parts of milk should be greater than the highest class price provided in the order. Therefore, proposals 1 and 2 listed above are denied.

Proposal No. 3 was withdrawn by proponent and no other witnesses supported it. It is, therefore, denied.

Proposals 4 and 5 are of an emergency nature and arise because of problems caused by changes in the Sanitary Code of the City of New York and in the New York State law with respect to dairy products. The Sanitary Code recently was amended in such a manner as to permit the manufacture of cultured

milk drinks, such as buttermilk and yogurt, from milk solids and water. Previously, such cultured milk drinks were required to be made from milk, uncondensed skim milk and cream. Therefore, such products previously could be made only from fresh fluid products obtained from sources meeting the health requirements for fluid milk. The amendment to the Sanitary Code permits them to be made from products obtained from sources not subject to local health inspection. This means that solids for use in buttermilk and yogurt can be obtained from manufactured skim milk sources. Under such circumstances, the persons using fresh fluid products under the current order are at a competitive disadvantage compared with those making the products from nonfat dry milk solids.

Competitive equality could be obtained either by applying the fluid skim differential to all cultured drinks, regardless of the source of solids, or by eliminating the fluid skim differential from fresh skim milk used in such products. The notice contains no specific proposal for the first solution and the record does not justify such action at this time.

Cultured milk drinks between 3.0 and 5.0 percent butterfat are defined as Class I products. The elimination of the fluid skim differential from skim milk used in cultured milk drinks between 3.0 and 5.0 percent butterfat would give persons making such products in the marketing area from skim milk and cream a distinct competitive advantage over those making them from whole milk, or making such drinks outside the marketing area. Amendment of the Class I–A definition is not within the scope of the hearing notice and, therefore, competitive equality for the cultured milk drinks between 3.0 and 5.0 percent butterfat will be better maintained by continuing to apply the fluid skim differential to any skim milk used in cultured milk drinks between 3.0 and 5.0 percent butterfat.

In its recent session, the New York State Legislature enacted a law which permits the sale of a product known as "modified skim milk." This product is made of skim milk with added nonfat milk solids. If the solids are added in the form of nonfat dry milk solids, there is no increase in the volume of the product over the volume of the fluid skim milk used in the manufacture. The fluid skim differential applied to the volume of such modified skim milk would therefore be the same as if it were applied to the natural skim milk used in its manufacture. If the modified skim milk were made by the addition of condensed skim milk to the natural skim milk, the total volume of the modified skim milk would be greater than the total volume of the natural skim milk used in its production. Under the present fluid skim milk provision, there would be a lesser fluid skim differential paid on such modified skim milk than on a volume of natural skim milk equal to the volume of modified skim milk. If the fluid skim differential were applied to the volume of both the natural skim milk and the condensed skim milk used in the modified skim milk, the differential paid would be the same as for an equivalent volume of natural fluid skim milk.

*Issue No. 4.* The due and timely execution of the function of the Secretary under the act imperatively and unavoidably requires the omission of a recommended decision by the Deputy Administrator, Agricultural Marketing Service, and the opportunity for exceptions, thereto on the above listed issues.

The nature of these issues is such that the conclusions thereon should be effectuated as soon as possible. Delay beyond the minimum time required to make the attached order effective would defeat its purpose. The time necessarily involved in the preparation, filing and publication of a recommended decision together with time for filing exceptions thereto would preclude timely action.

It is therefore found that good cause exists for the omission of the recommended decision in order to inform interested parties promptly of the conclusions reached. It is important that interested parties be informed of the action decided upon as promptly as possible in order that appropriate adjustments may be made promptly in their operations in accordance with the decision.

*Rulings on proposed findings and conclusions.* Briefs which were filed on behalf of interested parties contained statements of fact, proposed findings and conclusions, and arguments with respect to the provisions of the proposed amendment. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in this decision.

Rulings of the presiding officer to which specific objections were taken are affirmed. Requests were made for an extension of time for filing briefs and for issuance of a recommended decision for exceptions in the event of any change in Class III pricing provisions which are not limited in time by a definite expiration date. Even though no provision is made herein for a definite expiration date on the Class III price amendments, the amended provisions are subject to reconsideration at a public hearing already scheduled to begin on June 18, 1956. This affords ample protection for interested parties. Accordingly, such requests are denied.

*General findings.* (a) The tentative marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The tentative marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

*Determination of representative period.* The month of April 1956 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order amending the order, now in effect, regulating the handling of milk in the New York metropolitan milk marketing area, in the manner set forth in the attached amending order is approved or favored by producers who, during such period were engaged in the production of milk for sale in the marketing area specified in such marketing area.

*Marketing agreement and order, as amended.* Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the New York Metropolitan Milk Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the New York Metropolitan Milk Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered that all of this decision, except the marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended and proposed to be hereby further amended.

This decision filed at Washington, D. C., this 15th day of June 1956.

[SEAL] EARL L. BUTZ,
*Assistant Secretary.*

*Order[1] Amending the Order, as Amended, Regulating Handling of Milk in New York Metropolitan Milk Marketing Area*

§ 927.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

*Order relative to handling.* It is therefore ordered, that on and after the effective date hereof the handling of milk in the New York metropolitan milk marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

1. Amend paragraph (a) of § 927.40 by adding a proviso as follows: "*Provided further,* That the Class I–A price for July 1956 shall be $5.22."

2. Amend paragraph (f) of § 927.40 as follows:

a. Amend the opening sentence to read as follows: "For Class III milk, the price shall be the sum of the amounts computed or determined pursuant to subparagraphs (1), (2), and (3) of this paragraph, minus 80 cents.

b. Add a new subparagraph (3) as follows:

(3) Determine the appropriate seasonal adjustment in accordance with the following table:

| Month to which the price is applicable: | Amount |
|---|---|
| July through November | $0.13 |
| December through February | .10 |
| March and April | .08 |
| May and June | .05 |

3. Amend § 927.43 as follows:

a. Change the words just prior to the first proviso from "four cents per pound of butterfat in such milk" to "four cents per pound of butterfat in such milk in the months of March through June and three cents per pound of butterfat in such milk in the months of July through February:".

b. Delete the first proviso.

c. Amend the second proviso to read: "*Provided,* That for milk received from producers during any of the months of March through July which is classified on the basis of one of the types of cheese named in this section, the amount so credited shall be increased one-cent per pound of butterfat for each full five-hundredths by which the ratio of 2.5 is lower than a ratio computed as follows: Add to the New York 92-score butter price for the month announced pursuant to § 927.46 (b) (5) the amount obtained by multiplying by 1.83 the weighted nonfat dry milk solids price for the period ending with the 25th day of the month as announced pursuant to § 927.46 (b) (7); divide this sum by the price of Cheddar cheese for the month as announced pursuant to § 927.46 (b) (8) and round the result to the nearest hundredth."

4. Amend § 927.44 prior to the first colon to read as follows:

§ 927.44 *Fluid skim differential.* For skim milk derived from Class II or Class III milk which skim milk enters the marketing area in the form of milk, fluid skim milk, condensed skim milk, half and half, cream, or cultured milk drinks and there utilized or disposed of in the form of milk, fluid skim milk, half and half, or cultured milk drinks containing 3.0 percent or more but not more than 5.0 percent of butterfat, and for all other skim milk derived from Class II or Class III milk which is not established to have been otherwise utilized or disposed of, the handler shall pay a fluid skim differential per hundredweight computed as follows: • • •

[F. R. Doc. 56-4848; Filed, June 19, 1956; 8:53 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

### Bureau of Reclamation

SUBLETTE PROJECT, WYOMING

ORDER OF REVOCATION

APRIL 3, 1956.

Pursuant to authority delegated by Departmental Order No. 2765 of July 30, 1954 (19 F. R. 5004), I hereby revoke Departmental Order of March 7, 1932; insofar as said order affects the following described land: *Provided, however,* That such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the land hereinafter described:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 34 N., R. 109 W.,
Sec. 25, NW¼;
Sec. 26, NE¼.

The above areas aggregate 320 acres.

E. G. NIELSEN,
*Assistant Commissioner.*

No. 119——3

[71546]

JUNE 14, 1956.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The NE¼NE¼, sec. 26, is included in Power Site Reserve No. 190, and shall be opened to mining location pursuant to the act of August 11, 1955 (69 Stat. 683; 30 U. S. C. 621) at 10:00 a. m. on July 20, 1956.

The land is located in Sublette County near Pinedale, Wyoming, and is within Wyoming Grazing District No. 5.

No application for the lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any valid existing rights and the requirements of applicable law, the lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small

Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on July 20, 1956, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on October 19, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on October 19, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

b. All the lands have been open to applications and offers under the mineral-leasing laws. The NW¼, sec. 25 and W½NE¼, SE¼NE¼, sec. 26 will be open to location under the United States mining laws beginning at 10:00 a. m. on October 19, 1956.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Cheyenne, Wyoming.

EDWARD WOOZLEY,
*Director,*
*Bureau of Land Management.*

## DEPARTMENT OF COMMERCE

### Bureau of Foreign Commerce

[Case No. 203]

UNION EUROPEENNE DE PRODUITS CHIMIQUES AND JEAN RICHARD

ORDER AMENDING AND ENLARGING ORDER REVOKING EXPORT LICENSES AND DENYING EXPORT PRIVILEGES

In the matter of Union Europeenne de Produits Chimiques and Jean Richard, its director, 27, rue des Petites-Ecuries, Paris, France; respondents.

An order having heretofore been entered herein on the 13th day of December 1955 (20 F. R. 9469), denying export privileges to the respondents for a period of one year from the date thereof and providing for a contingent restoration of said privileges upon the expiration of six months from the date of such order; and the Investigation Staff having applied for a reopening of this case and a redetermination thereof based upon statements submitted in support of said application; and said application having been duly served on the respondents with an opportunity to appear in opposition thereto; and said respondents having failed to appear or offer any opposition thereto; and the evidence in support of said application having been submitted to the Compliance Commissioner, who, upon respondents' default, reopened this proceeding; and the Compliance Commissioner having duly filed his report and recommendation together with the evidence submitted in support of said application; and he having recommended that the order heretofore entered herein be amended by providing that the respondents be denied export privileges so long as export controls are in effect;

Now, after consideration of all the evidence submitted in support of said application as well as the report and recommendation of the Compliance Commissioner and, having concluded that the basis upon which the order heretofore entered herein was entered no longer exists and that these respondents, by their conduct, are not deserving of the leniency heretofore extended to them but, on the contrary, indicate that if given the opportunity they will obtain United States commodities by any means possible for the purpose of transshipping the same to Soviet Bloc destinations in violation of U. S. export control regulations, it is therefore, in order to achieve effective enforcement of the law, ordered as follows:

Paragraphs II, IV, and V of the order dated December 13, 1955 (20 F. R. 9469), be and the same hereby are deleted therefrom and the decretal provisions of said order be and the same hereby are amended and resettled to read as follows:

I. All outstanding validated export licenses in which Union Europeenne de Produits Chimiques and Jean Richard appear or participate as purchaser, intermediate or ultimate consignee, or otherwise, are hereby revoked and shall be returned forthwith to the Bureau of Foreign Commerce for cancellation.

II. Henceforth, and so long as export controls shall remain in effect, each of the said respondents be, and he or it hereby is suspended from and denied all privileges of participating, directly or indirectly in any manner or capacity, in an exportation of any commodity or technical data from the United States to any foreign destination, including Canada, whether such exportation has heretofore or hereafter been completed. Without limitation of the generality of the foregoing denial of export privileges, participation in an exportation is deemed to include and prohibit participation by any of the respondents, directly or indirectly in any manner or capacity, (a) as a party or as a representative of a party to any validated export license application, (b) in the obtaining or using of any validated or general export license or other export control documents, (c) in the receiving, ordering, buying, selling, using, or disposing in any foreign country of any commodities in whole or in part exported or to be exported from the United States, and (d) in storing, financing, forwarding, transporting, or other servicing of such exports from the United States.

III. Such denial of export privileges shall extend not only to each of the respondents, but also to any person, firm, corporation, or business organization with which any of them may be now or hereafter related by ownership, control, position of responsibility, or other connection in the conduct of trade in which may be involved exports from the United States or services connected therewith.

IV. No person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere, during any time when any respondent is prohibited under the terms hereof from engaging in any activity within the scope of Part II hereof, shall, without prior disclosure to, and specific authorization from the Bureau of Foreign Commerce, directly or indirectly in any manner or capacity (a) apply for, obtain, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any such prohibited activity, (b) order, receive, buy, use, dispose of, finance, transport or forward, any commodity on behalf of or in any association with such respondent, or (c) do any of the foregoing acts with respect to any commodity or exportation in which such respondent may have an interest of any kind or nature, direct or indirect.

Dated: June 13, 1956.

JOHN C. BORTON,
*Director,*
*Office of Export Supply.*

## GENERAL SERVICES ADMINISTRATION

[Project 3–DC–01]

FEDERAL OFFICE BUILDINGS

PROSPECTUS FOR PROPOSED BUILDINGS IN SOUTHWEST REDEVELOPMENT AREA OF DISTRICT OF COLUMBIA

EDITORIAL NOTE: This prospectus of proposed Project Number 3–DC–01 is published pursuant to section 412 (f) of the Public Buildings Purchase Contract Act of 1954 as amended by Public Law 150, 84th Congress, which requires publication in the FEDERAL REGISTER, for a period of ten consecutive days from date of submission to the Committees on Public Works of the Senate and House of Representatives.

Project Number 3–DC–01 (Revised)

MARCH 14, 1956.

FORMAL PROSPECTUS FOR PROPOSED BUILDING UNDER TITLE I PUBLIC LAW 519, 83D CONGRESS, 2D SESSION

FEDERAL OFFICE BUILDING, WASHINGTON, D. C.

1. *Brief description of proposed building.* The project contemplates the erection of a group of three Federal Office Buildings on a site to be acquired by the Government facing on the proposed Tenth Street Mall in the southwest redevelopment area of Washington, D. C. Each building will be multi-storied. An aggregate of approximately 643,000 square feet of net assignable space will be provided.

2. *Estimated maximum cost and financing.* a. Maximum cost of site and buildings, $25,250,000.

b. Proposed contract term, 30 years.

c. Maximum rate of interest on purchase contract, 4 percent.

3. *Certificates of need.* As the project is intended to provide relocation of numerous Federal agencies now in temporary buildings, no specific allocation of space can be made at this time. Upon completion of the facility, assignment and reassignment will be made in accordance with existing law. Therefore, requirement for Certificate of Need otherwise required by section 411 (e) of the Public Buildings Purchase Contract Act of 1954 was waived in Public Law 150, 84th Congress. Certification is hereby made as to the need for service and garage space.

4. *Non-availability of existing space.* Suitable space owned by the Government is not available; and suitable rental space is not available at a price commensurate with that to be afforded through the contract proposed.

5. *Estimated annual managerial, custodial, heat, and utility costs.* (Services to be supplied by Government), $675,000.

6. *Estimated annual tax liability, upkeep and maintenance.* a. Taxes, post construction (contract period), $321,625.

b. Upkeep and maintenance (to be provided by Government), $96,000.

7. *Current annual housing costs.* Rents and other housing costs currently paid by the Government for agencies to be housed in the building to be erected, $509,000 p. a.

*Determination of need.* It has been determined that (1) the needs for space for the permanent activities of the Federal Government in this particular area cannot be satisfied by utilization of any existing suitable property now owned by the Government, and (2) the best interests of the United States will be served by taking action hereunder.

Submitted at Washington, D. C., on June 1, 1956.

Approved:

FRANKLIN G. FLOETE,
*Administrator of General Services.*

8. *Statement of Director, Bureau of the Budget.* Reflected in letter (copy attached).

EXECUTIVE OFFICE OF THE PRESIDENT
BUREAU OF THE BUDGET
WASHINGTON 25, D. C.

JUNE 13, 1956.

Project 3–DC–01 (Revised 3–14–56).
3 Multi-storied Federal Office Buildings.
Southwest Redevelopment Area, Washington, D. C.

MY DEAR MR. FLOETE: Pursuant to section 411 (e) (8) of the Public Buildings Purchase Contract Act of 1954 (Public Law 519), the (Revised March 14, 1956) proposal for a group of three Federal Office Buildings, transmitted with your letter of June 1, 1956, has been examined and in my opinion "is necessary and in conformity with the policy of the President." This approval is given with the following understanding:

1. Revision reflects the application of more definite plans for integration of the facility with the proposed Tenth Street Mall developed subsequent to approval of the project last July. Effective integration requires construction of three building units in lieu of one, as originally proposed. Garage space of 134,250 square feet not contemplated in original project is provided. Number of employees, utilization of space and cost factors are relatively the same.

2. That the stated project cost of $25,250,000 (including $2,500,000 for a site to be acquired) is a maximum figure.

3. That the reported annual operating cost of existing Tempos 4, 5, and T; i. e., $1.00 per square foot, represents minimum maintenance in anticipation of demolition, and that temporary Government buildings actually cost more to maintain than the proposed new buildings.

4. That the proposed buildings will house approximately 10% of Federal employees presently housed in temporary buildings, and that the specific allocation of agencies in the proposed buildings is to be determined later by General Services Administration.

5. That every effort will be made to design and construct space conducive to maximum efficient utilization of both site and buildings and to take advantage of any revision of cost downward which may be found possible as the plans develop and negotiations are advanced.

6. That this approval supersedes Mr. Hughes' letter of July 22, 1955.

You appreciate, of course, that this project will receive a more detailed review as to cost and space utilization prior to the approval of the lease-purchase agreement.

Sincerely yours,

(Signed) PERCIVAL BRUNDAGE,
*Director.*

Hon. FRANKLIN G. FLOETE,
*Administrator,*
*General Services Administration,*
*Washington 25, D. C.*

## FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 11256 etc.; FCC 56M–586]

GREAT SOUTH BAY BROADCASTING CO., INC., ET AL.

ORDER SCHEDULING HEARING

In re applications of Great South Bay Broadcasting Company, Inc., Islip, New York, Docket No. 11256, File No. BP–9200; S. Richard Stern and Jimmey S. Stern, d/b as Stern Broadcasting Company, Ridgewood, New Jersey, Docket No. 11731, File No. BP–9713; G. Russell Chambers, tr/as The Eastern Shore Broadcasting Company (WDVM), Pocomoke City, Maryland, Docket No. 11732, File No. BP–10114; American Family Broadcasting Company, Ridgewood, New Jersey, Docket No. 11733, File No. BP–10214; for construction permits.

*It is ordered,* This 11th day of June 1956, that H. Gifford Irion will preside at the hearing in the above-entitled proceeding which is hereby scheduled to commence on September 14, 1956, in Washington, D. C.

Released: June 12, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56–4837; Filed, June 19, 1956; 8:51 a. m.]

[Docket Nos. 11542, 11543; FCC 56–534]

COURIER-TIMES, INC., AND DON H. MARTIN (WSLM)

ORDER RULING ON ISSUES

In re applications of Courier-Times, Inc., New Castle, Indiana, Docket No. 11542, File No. BP–8886; Don H. Martin (WSLM), Salem, Indiana, Docket No. 11543, File No. BP–9392; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of June 1956;

The Commission having under consideration an "Appeal from Hearing Conference Order" filed by Don H. Martin on January 31, 1956, and a "Statement Re Appeal from Hearing Conference Or-

der" filed by the Chief of the Commission's Broadcast Bureau on February 10, 1956;

It appearing that the application of Courier-Times, Inc., for a construction permit for a new standard broadcast station at New Castle, Indiana, and the request of Don H. Martin for an increase in power of station WSLM in Salem, Indiana, were designated for hearing by Commission Order released November 14, 1955, upon certain issues; [1] and

It further appearing that Don H. Martin seeks review of the following rulings of the Examiner made on January 13, 1956: [2] (1) The issues as now designated do not contemplate showings on programming, background and experience of principals, and proposals for management and operation; (2) The issues as now designated do not contemplate showings on need of the areas proposed to be served other than showings on (a) areas to be served, (b) the populations and communities in those areas, and (c) the services available to those populations, communities and areas; and (3) The term "service" as used in the issues applies solely to "standard broadcast service" and does not encompass FM and TV service; and

It further appearing that Don H. Martin contends, in substance, that although the primary duty of the Commission in a case in which section 307 (b) of the Communications Act of 1934, as amended, is at issue, as set forth in Federal Communications Commission v. Allentown Broadcasting Corporation, 75 S. Ct. 855, 12 RR 2019, is to determine the greater community need for the service proposed, nevertheless evidence on the comparative qualifications of the applicants apart from community need is necessary in case it is not possible to make a choice based on relative community need; that evidence on the need of the areas proposed to be served should not be restricted to available services and the populations and communities which are presently served, but should include a showing of the interests in the communities and the programs presently supplied to said communities as evidence of their needs; and that consideration of the availability of FM service to New Castle, Indiana is required by the Allentown case, supra; and

It further appearing that the Broadcast Bureau maintains that the Commission is not required, under the Allentown case, supra, to receive evidence on the comparative qualifications of the applicants in every case in which section 307 (b) of the Communications Act is at issue since it is a rare situation when a determination as to the community of greater need cannot be reached; that the term "service" properly does not include a consideration of FM stations under the circumstances of this case, even though the Allentown case, supra, states that a consideration of FM stations is important in certain instances, in view of the fact that Courier-Times, Inc.'s holdings as a licensee of an FM station in New Castle, Indiana, can be shown under the section 307 (b) issue; and that the Examiner erred in restricting the showing on community need to areas, populations and communities, and services in view of the fact that evidence respecting the agricultural or industrial character of the communities involved, the educational, cultural and other institutions and organizations in said communities, and similar matters relating to the character of the communities conceivably would be helpful in determining what would provide "a fair, efficient, and equitable distribution of radio service" under section 307 (b) of the Communications Act; and

It further appearing that after careful consideration of the pleadings filed in this connection, the issues as designated for hearing by the Commission and the scope thereof as evidenced by past Commission practices, the Commission concludes that the Examiner properly ruled that evidence relating to programming, background and experience of the principals and proposals for management and operation of the competing applicants is not admissible under the issues as designated for hearing in this proceeding and that the term "service" as used in the issues as designated does not include a showing of FM and TV service; and

It further appearing that under Issue 6 as designated for hearing, evidence is admissible to show the Courier-Times, Inc.'s holdings as licensee of an FM station in New Castle, Indiana; and

It further appearing that the Commission believes the Examiner unduly restricted the showings on need of the areas to be served and that under certain circumstances and relating to a particular need a showing as to the character of the areas to be served as evidenced by the organizations and institutions and major occupations in the areas would assist in a determination under § 3.24 of the Commission's rules whether the need for the proposed service outweighs the need for the service which will be lost by interference;

*It is ordered*, That the appeal from "Hearing Conference Order" filed January 31, 1956, by Don H. Martin is granted with respect to the Examiner's ruling that the issues as drawn do not contemplate showings on need of the areas proposed to be served for the facilities sought other than showings on areas to be served, the populations and communities in those areas, and the services available to those populations, communities and areas, and denied in all other respects.

Released: June 15, 1956.

KNORR BROADCASTING CORP. (WKMF)

ORDER CONTINUING HEARING

In re application of Knorr Broadcasting Corporation (WKMF), Flint, Michigan, Docket No. 11676, File No. BP-10170; for construction permit.

The Hearing Examiner having under consideration a petition filed on June 12, 1956, on behalf of Knorr Broadcasting Corporation, requesting that the date for the presentation and exchange among the parties of the applicant's written affirmative evidence in the above-entitled proceeding be continued from June 18, 1956, to June 28, 1956, and that the hearing thereon be continued from June 25, 1956 to July 2, 1956; and

It appearing that sufficient good cause has been set forth to warrant a grant of the relief requested therein and that the other parties to the proceeding do not object to the immediate consideration of the said petition and to a grant thereof:

*It is ordered*, This 13th day of June 1956, that the above petition be, and it is hereby, granted.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

JOSEPH THOMAS COLLINS

ORDER CONTINUING HEARING

In the matter of Joseph Thomas Collins, Thiensville, Wisconsin, Docket No. 11681; suspension of amateur radio operator license.

*It is ordered*, This 11th day of June 1956, on the Chief Hearing Examiner's own motion, that hearing in the above-entitled proceeding, which is scheduled to commence July 17, 1956, in Milwaukee, Wisconsin, is continued to a date and place to be specified by subsequent order.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4840; Filed, June 19, 1956; 8:51 a. m.]

[1] The issues with which the instant pleadings are concerned read as follows:

1. To determine the areas and populations which would receive primary service from the proposed operation of Courier-Times, Inc. and the availability of other service to such areas and populations.

2. To determine the areas and populations which would gain or lose primary service from station WSLM operating as proposed and the availability of other primary service to such areas and populations.

6. To determine in the light of section 307 (b) of the Communications Act of 1934, as amended, which of the operations proposed in the above-entitled applications would better provide a fair, efficient and equitable distribution of radio service.

[2] This pleading was filed by appellant Martin within two days of his receipt of a copy of the Examiner's Order encompassing said rulings and good cause is shown for its acceptance.

[Docket No. 11699; FCC 56M-597]

SOUTHERN OREGON BROADCASTING CO. (KUIN)

FIRST STATEMENT CONCERNING PRE-HEARING CONFERENCES AND ORDER CONTINUING HEARING

In re application of Southern Oregon Broadcasting Company (KUIN), Grants Pass, Oregon, Docket No. 11699, File No. BP-10099; for construction permit.

1. The first pre-hearing conference was held herein on June 5, 1956. All parties were represented by counsel. Agreements were reached among the parties and stated on the record, as reflected in the transcript which is incorporated herein by reference. Such agreements are found to be acceptable and approved by the Hearing Examiner. They include the following:

1. Parties will attempt through informal conferences and exchanges of material to reach agreement on engineering matters.

2. The direct case, in written form, shall be exchanged on or before July 24, 1956.

3. Further pre-hearing conference herein is waived unless requested by one of the parties.

4. All parties who desire any witnesses in connection with applicant's direct case to be produced for cross-examination will notify the applicant on or before July 30, 1956, which witnesses they desire, if any, to be produced.

5. The hearing is continued from July 3, 1956, to July 31, 1956.

*It is ordered*, This 13th day of June 1956, that the foregoing agreements and requirements shall govern the course of the proceeding to the extent indicated, unless modified by the Hearing Examiner for cause or by the Commission upon review of the Hearing Examiner's ruling.

*It is further ordered*, That the hearing herein, now scheduled for July 3, 1956, is continued to July 31, 1956, at 10:00 a. m.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,

[Docket No. 11734]

1360 BROADCASTING CO. INC. (WEBB)

APPLICATION FOR CONSTRUCTION PERMIT; ERRATA

In re application of 1360 Broadcasting Company, Inc. (WEBB), Baltimore, Maryland, Docket No. 11734, File No. BP-10275; for construction permit.

1. In the Commission's Memorandum Opinion and Order, FCC 56-525, in the above-captioned application, adopted on June 6, 1956, and released on June 8, 1956, the following corrections are made:

(a) The caption is corrected to read Baltimore, Maryland instead of Dundalk, Maryland.

(b) The first paragraph is corrected to read as follows:

The Commission has before it for consideration a "Petition For Reconsideration and Protest" filed on May 10, 1956, pursuant to sections 309 (c) and 405 of the Communications Act of 1934, as amended, by the Southern Maryland Broadcasters Incorporated, licensee of Station WKIK, Leonardtown, Maryland (1370 kc, 1 kw, D) and directed to the Commission's action of April 11, 1956, in granting without a hearing the above-captioned application of the 1360 Broadcasting Company for a construction permit to increase the daytime power of Station WEBB from 1 to 5 kilowatts, to change the directional antenna system, and to change the station location from Dundalk to Baltimore, Maryland; and an "Opposition To Petition For Reconsideration And Protest" filed on May 21, 1956, by 1360 Broadcasting Company, Inc. (hereinafter referred to as WEBB).

Released: June 12, 1956.

[Docket No. 11735; FCC 56-545]

NEVADA TELECASTING CORP. (KAKJ)

ORDER TO SHOW CAUSE; HEARING

In the matter of revocation of television construction permit of Nevada Telecasting Corporation (KAKJ), Reno, Nevada, Docket No. 11735.

The Commission having under consideration certain matters of alleged misrepresentation and concealment relating to (1) an application (BPCT-1952) for a construction permit for a new television station to operate on Channel 4, in Reno, Nevada, which application was filed on February 16, 1955, by Nevada Telecasting Corporation and granted by the Commission on April 19, 1955; (2) an ownership report—FCC Form 323—which was filed by Nevada Telecasting Corporation on June 20, 1955, pursuant to §§ 1.343 and 1.344 of the Commission's rules and regulations; and (3) a pending application (BMPCT-3454) filed by Nevada Telecasting Corporation on October 3, 1955, requesting additional time to construct the proposed television station on Channel 4; at Reno, and

It appearing:

(1) That in the above application for a construction permit (BPCT-1952), for Channel 4 at Reno signed by Robert C. Fish, president of Nevada Telecasting Corporation, it was stated that Robert C. Fish, president and director, owned 100 shares of capital stock and had subscribed to an additional 249,900 shares; that said Robert C. Fish was to be the sole stockholder of the applicant; that Nevada Telecasting Corporation gave a negative response to a question which sought to determine whether there were any documents, instruments, contracts or understandings relating to ownership, management, use or control of the station or facilities, or any right or interest therein; that said Robert C. Fish stated that his net worth was $484,603, and that all construction costs of the proposed station, which aggregated $195,040, would be met from funds supplied by him and, if necessary, by converting certain properties into liquid assets;

(2) That in the June 20, 1955 ownership report—FCC Form 323—which was signed by Eldon E. Cory, Secretary-Treasurer, of Nevada Telecasting Corporation, gave a negative response to a question which sought to determine the name of any corporation or other entity having a direct or indirect ownership interest in the permittee; and that said report indicated that Robert C. Fish was the owner of 100 shares, or 100 percent of the outstanding stock, that no change in the ownership of Nevada Telecasting Corporation had occurred, and that Eldon E. Cory was a paid Secretary-Treasurer but not a stockholder; and

(3) That in its application (BMPCT-3454) requesting additional time to construct the proposed television station on Channel 4 at Reno, Nevada, Telecasting Corporation stated that equipment had been ordered on September 15, 1955; that architects had completed a study of the building roof where complicated installation was necessary; that construction could be completed by April 19, 1956; and that no changes had occurred in information previously submitted to the Commission; and

It further appearing that, subsequent to the grant of the above construction permit, and the filing of the above ownership report and application requesting additional time to construct the station, the Commission obtained information which disclosed

(1) That in the early spring of 1954, through the suggestions and inducements of one, George H. Bowles, a group of individuals became interested in forming a syndicate for the purpose of acquiring or applying for television and standard broadcast station construction permits and constructing and operating such stations in California and Nevada; that initially said syndicate included Eldon E. Cory, Raymond D. Vargas, George H. Bowles and Gordon E. Morris; that subsequently, James R. Bird, Irvin V. Willat, Robert C. Fish and A. Lawrence Tuma were induced by Bowles to join the syndicate; that thereafter, Evan Lougheed became associated with said syndicate; that said George H. Bowles originator of, and principal figure in said syndicate was its general manager, called meetings of the members, represented himself as speaking for other members, and acted for the syndicate in business matters; that it was agreed among the members of the syndicate that, with the exception of George H. Bowles and A. Lawrence Tuma, the other members of the syndicate were to advance money to a syndicate fund; that Messrs. Cory, Vargas, Morris, Willat and Lougheed did advance such sums of money; that Bowles' experience in promotional work, his knowledge of the radio and television industry, and his claimed contacts were accepted by the members in lieu of monetary contributions; that Bird, as an engineer and Tuma, as a stock salesman, were to contribute their efforts in lieu of advances of money; that there was an understanding on the part of all members that the syndicate was to have a stock interest in any successfully prosecuted application for a construction permit; and that to accomplish the above

objectives, the syndicate would form corporations in which each syndicate member would have stock; and

(2) That the above-mentioned application (BPCT–1952) for a construction permit for a new television station in Reno, Nevada, was filed by Nevada Telecasting Corporation pursuant to the above described plans of said syndicate and on its behalf; that following the grant of said application by the Commission, the above-mentioned ownership report was filed by Nevada Telecasting Corporation; that Robert C. Fish, President, Raymond D. Vargas, Vice President, and Eldon E. Cory, Secretary-Treasurer of Nevada Telecasting Corporation, are now and have been members of said syndicate;

(3) That the members of the above described syndicate were also responsible for the filing of an application (BPCT–1878) for a construction permit for a new television station in Visalia, California, which was granted by the Commission on October 6, 1954, and which permit was, on May 1, 1956, offered to the Commission for cancellation; and

It further appearing that in the above described applications (BPCT–1952) (BMPCT–3454) and in the ownership report relating to television station KAKJ, Channel 4, Reno, Nevada, Robert C. Fish, Eldon E. Cory and Nevada Telecasting Corporation did wilfully and knowingly, in violation of section 312 of the Communications Act of 1934, as amended, and of § 1.305 of the Commission's rules and regulations, and in order to deceive the Commission, make misrepresentations and false statements concerning the ownership, financing and construction of the proposed station at Reno, Nevada, upon which misrepresentations and statements the Commission relied in granting the construction permit (BPCT–1952) on April 19, 1955, and in accepting for filing the ownership report submitted to it on June 20, 1955;

*It is ordered*, This 13th day of June 1956, pursuant to the provisions of sections 312 (a) and (c) of the Communications Act of 1934, as amended, that the said permittee, Nevada Telecasting Corporation, is directed to show cause why an order revoking the aforementioned construction permit for television station KAKJ, Channel 4, Reno, Nevada, should not be issued, and to appear and give evidence with respect thereto at a hearing[1] to be held at the offices of the Commission in Washington, D. C., commencing at 10:00 a. m. on the 13th day of July 1956.

*It is further ordered*, That the Secretary of the Commission send a copy of this order by Registered Mail—Return Receipt Requested to the said Nevada Telecasting Corporation.

Released: June 15, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56–4843; Filed, June 19, 1956; 8:52 a. m.]

[1] Section 1.402 of the Commission's rules provides that in order to have the opportunity to appear before the Commission at the time and place specified in the order to show cause, the licensee shall within thirty (30) days from the date of the receipt of this order submit a written statement informing the Commission whether said licensee will appear at this hearing and present evidence upon the matter specified, or whether the right to such a hearing are waived. Waiver of the hearing may be accompanied by a statement setting forth the reasons why the licensee believes that an order of revocation should not be issued. A waiver unaccompanied by such a statement will be deemed to be an admission of the allegations specified in the order to show cause. Failure to respond to this order within the above-mentioned thirty (30) day period or failure to appear at the hearing will be deemed to be a waiver of the right to a hearing and an admission of the allegations specified in the order to show cause.

## ATOMIC ENERGY COMMISSION

### Patent Compensation Board

[Docket No. 21]

MATHESON PNEUMATIC MACHINERY, INC.

NOTICE OF APPLICATION WITH PATENT COMPENSATION BOARD FOR JUST COMPENSATION

Notice is hereby given that Andrew A. Matheson, President, Matheson Pneumatic Machinery, Inc., 1900 Grant Street, Denver 3, Colorado, has filed an application before the Patent Compensation Board, United States Atomic Energy Commission, for just compensation. The application is based on Patent No. 2,304,839 issued December 15, 1942, entitled, "Air Control Valve" and Patent No. 2,620,779 issued December 9, 1952, entitled "Air Accelerating Engine and Compressor."

The application of Matheson Pneumatic Machinery, Inc., is on file with the Patent Compensation Board. Any person other than the applicant desiring to be heard with reference to the application should file with the Patent Compensation Board, United States Atomic Energy Commission, Washington 25, D. C., within thirty days from the date of publication of this notice, a statement of facts concerning the nature of his interest.

MARGARET H. MELIN,
*Acting Clerk,*

## FEDERAL POWER COMMISSION

[Docket No. G–10564]

N. B. HUNT

ORDER SUSPENDING PROPOSED CHANGES IN RATES

N. B. Hunt (Applicant), on May 14, 1956, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges are contained in the following designated filings which are proposed to become effective on the date shown:

| Description | Purchaser | Rate schedule designation | Effective date[1] |
|---|---|---|---|
| Contract dated Mar. 6, 1956; supplemental agreements dated Aug. 1, 1952, Jan. 26, 1954, Apr. 15, 1955. Notice of change, dated May 14, 1956. | Texas-Illinois Natural Gas Pipeline Co. | Applicant's FPC Gas Rate Schedule No. 8 and Supplements 1, 2, 3, and 4. | June 14, 1956 |

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The increased rates and charges proposed in the aforesaid filings, all of which supersede applicant's FPC Gas Rate Schedule No. 6, have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated rate schedule and supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated rate schedule and supplements be and the same hereby are suspended and the use thereof deferred until November 14, 1956, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the Rate Schedule nor the Supplements hereby suspended, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Issued: June 13, 1956.

By the Commission.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 56–4817; Filed, June 19, 1956; 8:47 a. m.]

[Order 188]

OCCUPATION TAX OF TEXAS

ORDER MODIFYING RULES AND REGULATIONS WITH RESPECT TO SUPPLEMENTS REFLECTING REDUCTION

In the matter of the occupation tax of the State of Texas (Article 7074 (b) of Vernon's Civil Statutes of the State of Texas).

Pursuant to article 7074 (b) of Vernon's Civil Statutes of the State of Texas, an occupation tax is levied on the business or occupation of producing gas within the State of Texas, computed as follows:

(a) Until September 1, 1956, the tax is to be paid by each producer on the amount of gas produced and saved within the State equivalent to eight percent (8%) of the market value thereof as and when produced;

(b) From and after September 1, 1956, the rate of said tax shall be seven percent (7%) of the market value of the gas as and when produced.

The Commission has permitted such tax, computed on the basis of the foregoing rate of eight percent (8%), to be charged and collected by each independent producer, subject to the Commission's jurisdiction, without suspension, upon the filing of an appropriate rate schedule or schedules by each producer. A similar rate filing is required to effect the tax reduction from eight percent (8%) to seven percent (7%) as of September 1, 1956.

To simplify the required change, the Commission deems it expedient and in the public interest to waive the 30 days' notice requirement under section 154.98 of the Commission's rules and regulations and to eliminate, to the extent feasible, the data and information to be submitted in support of the change, to be effective September 1, 1956, in the same manner as provided by Commission Order No. 180 issued June 30, 1955.

Accordingly, a producer in submitting a supplement to any of its rate schedules on file with the Commission, to reflect the statutory reduction in the rate of the above-described tax from eight percent (8%) to seven percent (7%) as of September 1, 1956, may, notwithstanding other provisions of the Commission's rules, make such filings as hereinafter provided. Early filing will be of assistance in orderly processing.

The Commission finds: It is appropriate and in the public interest in the administration of the Natural Gas Act (a) to waive the 30-days' notice requirement set forth in section 4 (d) of the Natural Gas Act and section 154.98 of the Commission's rules and regulations (Order No. 174–B), with respect to the filing of any appropriate supplement reflecting a reduction in the Texas occupation tax from eight percent (8%) to seven percent (7%) as of September 1, 1956, provided such filing is made on or before October 1, 1956, and (b) with respect to the filing of any appropriate supplement reflecting the reduction in the Texas occupation tax from eight percent (8%) to seven percent (7%), to submit only the data in the form set forth below, in lieu of the data required by paragraph 154.94 (e) of the Commission's rules and regulations (Order No. 174–B):

COMPARISON OF RATES

| Date | Price per Mcf | Tax reimbursement per Mcf | Total cost per Mcf |
|---|---|---|---|
| Aug. 31, 1956 | | | |
| Sept. 1, 1956 | | | |

Sales for 12 months ending May 31, 1956, ——— Mcf.

The Commission orders: Rate schedules reflecting the reduction from eight percent (8%) to seven percent (7%) in the occupation tax of the State of Texas as of September 1, 1956, if filed on or before October 1, 1956, may be filed on less than the 30 days' notice requirement of section 4 (d) of the Natural Gas Act and in accordance with the findings of this order.

Issued: June 14, 1956.

By the Commission.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 56–4816; Filed, June 19, 1956; 8:46 a. m.]

[Docket No. G–10565]

C. W. ALEXANDER ET AL.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

C. W. Alexander, et al. (Applicant), on May 21, 1956, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

| Description | Purchaser | Rate schedule designation | Effective date[1] |
|---|---|---|---|
| Statement, undated | United Gas Pipe Line Co. | Supplement No. 1 to Applicants FPC Gas Rate Schedule No. 1. | June 21, 1956 |

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be suspended and the use thereof deferred until November 21, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Issued: June 13, 1956.

By the Commission.

## SECURITIES AND EXCHANGE COMMISSION

[File No. 7–3478]

COLUMBIA GAS SYSTEM, INC., ET AL.

ORDER AUTHORIZING OPEN-ACCOUNT ADVANCES BY PARENT COMPANY TO FIVE OF ITS SUBSIDIARIES, SALE OF INSTALLMENT NOTES AND COMMON STOCK BY THREE SUBSIDIARIES AND ACQUISITION THEREOF BY PARENT

JUNE 13, 1956.

In the matter of The Columbia Gas System, Inc., The Ohio Fuel Gas Comany, Atlantic Seaboard Corporation, Central

Kentucky Natural Gas Company, The Manufacturers Light and Heat Company, Home Gas Company, et al.; File No. 70-3478.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and certain of its wholly owned subsidiaries, including The Ohio Fuel Gas Company ("Ohio Fuel"), Atlantic Seaboard Corporation ("Seaboard"), Central Kentucky Natural Gas Company ("Central Kentucky"), The Manufacturers Light and Heat Company ("Manufacturers") and Home Gas Company ("Home") have filed a joint application-declaration and an amendment thereto pursuant to sections 6 (b), 9, 10, 12 (b) and 12 (f) of the Public Utility Holding Company Act of 1935 ("act") and Rules U-43 and U-45 thereunder, including therein, inter alia, the following proposed transactions:

*Financing construction requirements.* Said subsidiary companies are engaged in construction programs which will require expenditures and the raising of new money in 1956 as follows:

| Company | Estimated construction expenditures | New money requirements [1] |
|---|---|---|
| Ohio Fuel | $21,356,608 | $16,000,000 |
| Seaboard | 9,327,000 | 5,900,000 |
| Central Kentucky | 1,146,100 | 800,000 |
| Total | 31,829,708 | 22,700,000 |

[1] The additional capital necessary to complete the construction programs will be obtained from internal sources of the respective companies.

It is proposed that the new money required by the respective subsidiary companies will be obtained by their issuance and sale to Columbia of either shares of their common stock or installment promissory notes or both, in amounts as follows:

| Company | Common stock | | | Installment notes—aggregate amount not to exceed— |
|---|---|---|---|---|
| | Number of common shares | Par value | Aggregate amount | |
| Ohio Fuel | 140,000 | $45 | $6,300,000 | $9,700,000 |
| Seaboard | 100,000 | 25 | 2,500,000 | 3,400,000 |
| Central Kentucky | | | | 800,000 |
| Total | | | 8,800,000 | 13,900,000 |

The Installment Notes will be unsecured and will be dated when issued. The principal amounts will be due in 25 equal annual installments on February 15 of each of the years 1958 to 1982 inclusive. Interest will be payable semi-annually at the rate of 3.9 percent per annum, which is the approximate cost of money to Columbia on its last sale of debentures.

The securities will be issued and sold periodically when and to the extent that funds are required for the purposes stated. With respect to each of the companies issuing Common Stock, Columbia will first purchase Common stock up to the amounts above set forth and thereafter will purchase Installment Notes; but none of the Common Stock or Installment Notes will be purchased after March 31, 1957.

Of approximately $40,000,000 realized by Columbia from its sale of Series F debentures in April 1956, $25,000,000 was applied in discharging an outstanding bank loan, leaving approximately $15,000,000 available to meet the New Money Requirements of $22,700,000 aforesaid. In a prior filing (File No. 70-3454) Columbia stated that the remaining New Money Requirements of approximately $7,700,000, plus other system requirements estimated at $25,300,000, will be provided by means of future bank loans, the sale of additional debentures, or some combination thereof.

*Financing gas inventory requirements.* The aforesaid subsidiary companies operate facilities for the underground storage of natural gas, which is purchased during the off-peak seasonal periods. Columbia proposes to advance to these subsidiaries, on open account, such amounts as they may require during 1956 for the purchase of current inventory gas, not to exceed the following aggregate amounts:

| | |
|---|---|
| Manufacturers | $6,600,000 |
| Ohio Fuel | 16,000,000 |
| Seaboard | 600,000 |
| Central Kentucky | 300,000 |
| Home | 1,500,000 |
| Total | 25,000,000 |

Such advances will be repayable in three equal installments on February 25, March 25, and April 25, 1957, with interest at the rate of 3½ percent per annum, which rate is the same as that which Columbia has agreed to pay on bank loans to be consummated for the procurement of the required funds. The borrowing by Columbia is the subject of a separate declaration (File No. 70-3479).

The aggregate fees and expenses to be paid by the aforesaid companies in connection with the proposed thransactions are estimated at $11,130 including Federal original issue taxes $9,680, services of Columbia Gas System Service Corporation $600 (or $100 for each company involved), and miscellaneous expenses $850 (including legal fees of $200 to be paid by Manufacturers).

Authorization for the issuance and sale of the securities as proposed was obtained by two of the five subsidiary companies from the regulatory commissions of the States in which such companies are organized and doing business, as follows:

*Company and State Commission*

Ohio Fuel; Public Utilities Commission of Ohio.

Central Kentucky; Kentucky Public Service Commission.

Other transactions proposed in said joint application-declaration involving certain additional open-account advances and the issuance and sale of securities by various Columbia subsidiaries require approvals of State commissions, which have not yet been secured.

Due notice having been given of the filing of said joint application-declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding, with respect to the transactions specifically described herein, that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that the joint application-declaration, as amended, be granted and permitted to become effective, forthwith, to the extent of such above described proposed transactions.

*It is ordered,* Pursuant to Rule U-23 and the applicable provisions of the act, that said application-declaration as amended, be, and hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

*It is further ordered,* That jurisdiction be, and hereby is, reserved with respect to the remaining transactions proposed in said joint application-declaration and not specifically described herein.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3482]

STANDARD SHARES, INC.

NOTICE OF FILING OF DECLARATION REGARDING PROPOSED CASH DISTRIBUTION OUT OF CAPITAL SURPLUS

JUNE 13, 1956.

Notice is hereby given that Standard Shares, Inc. ("Standard Shares"), a registered holding company, has filed a declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"). Declarant has stated that section 12 of the act and Rule U-46 promulgated thereunder are applicable to the proposed transaction. All persons are referred to the declaration for a statement of the transaction therein proposed which may be summarized as follows:

Standard Shares proposes to make a cash distribution of $0.40 per share, in part out of earned surplus to the full extent thereof which at May 31, 1956, amounted to $178,857 and the balance out of capital surplus which as of the same date was $22,046,157, to each holder of record on June 29, 1956, of its outstanding 1,430,000 shares of common stock. The only outstanding obligation of Standard Shares senior to the common stock is a promissory note in the amount of $1,500,000 which matures on July 30, 1956. The Hanover Bank, the holder of the note has consented to the proposed distribution. Standard Shares states it has sufficient marketable securities to enable it to raise any balance of cash required to pay the note when it becomes due.

The declaration further states that no State commission or Federal commission, other than this Commission, has jurisdiction over the proposed cash distribution. The fees and expenses to be incurred in connection with said distribution are estimated not to exceed $1,500, including counsel fees, not in excess of $500.

Notice is further given that any interested person may, not later than June 28, 1956, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission orders a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may take such action as it may deem appropriate under the circumstances.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3479]

COLUMBIA GAS SYSTEM, INC.

ORDER AUTHORIZING SHORT-TERM BANK LOANS

JUNE 13, 1956.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, has filed with this Commission a declaration and an amendment thereto pursuant to sections 6 and 7 of the Public Utility Holding Company Act of 1935 ("act") regarding the following proposed transaction:

Columbia proposes to borrow $35,000,000 in aggregate amount from eighteen commercial banks, as follows:

| *Bank* | *Amount* |
|---|---|
| Guaranty Trust Co. of New York | $10,910,000 |
| Chemical Corn Exchange Bank | 4,200,000 |
| Mellon National Bank & Trust Co | 4,200,000 |
| Bankers Trust Co | 2,500,000 |
| The First National City Bank of New York | 2,500,000 |
| Irving Trust Co | 2,000,000 |
| The Hanover Bank | 2,000,000 |
| J. P. Morgan & Co., Inc | 1,500,000 |
| Manufacturers Trust Co | 1,500,000 |
| Peoples First National Bank & Trust Co | 900,000 |
| Brown Brothers, Harriman & Co | 750,000 |
| Fidelity Trust Co | 600,000 |
| The Ohio National Bank of Columbus | 450,000 |
| The Union National Bank of Pittsburgh | 300,000 |
| The Charleston National Bank | 240,000 |
| The Kanawha Valley Bank | 240,000 |
| The First Huntington National Bank | 120,000 |
| First-City National Bank of Binghamton | 90,000 |
| Total | 35,000,000 |

Loans will be made and mature in accordance with this schedule:

| To be borrowed on or before— | To mature | Amount |
|---|---|---|
| July 13, 1956 | Feb. 28, 1957 | $10,000,000 |
| Aug. 15, 1956 | Mar. 29, 1957 | 15,000,000 |
| Sept. 14, 1956 | Apr. 30, 1957 | 10,000,000 |

Each borrowing will be apportioned ratably among the participating banks. The loans will be evidenced by unsecured notes bearing interest at the rate of 3½ percent per annum (the prime rate at the time the loans were negotiated), payable three months after the date of each respective note and at maturity or at earlier payment. Notes may be prepaid in whole or in part, in order of maturity, without penalty on ten days notice, except that prepayments may not be made with funds borrowed from banks at a lower interest rate.

Pursuant to a separate filing (70-3478), Columbia will advance the borrowed funds to six of its subsidiaries which operate facilities for the underground storage of natural gas, in order to finance their purchases of inventory gas. Funds for repayment of the bank loans will become available to Columbia as said subsidiaries repay the advances with proceeds of the sale of gas withdrawn from storage.

It is requested that the Commission's order herein be made effective upon issuance.

Due notice having been given of the filing of said declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied and that no adverse findings are necessary and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration as amended be permitted to become effective forthwith:

*It is ordered,* Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration as amended, be, and hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3486]

NORTHAMPTON GAS LIGHT CO. AND NEW ENGLAND ELECTRIC SYSTEM

NOTICE OF PROPOSED ISSUANCE AND SALE OF COMMON STOCK BY SUBSIDIARY AND ACQUISITION THEREOF BY PARENT

JUNE 14, 1956.

Notice is hereby given that New England Electric System ("NEES"), a registered holding company, and its public-utility subsidiary, Northampton Gas Light Company ("Northampton"), have filed a joint application pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating sections 6 (b), 9 (a) and 10 of the act as applicable to the proposed transactions, which are summarized as follows:

Northampton, which now has outstanding 12,778 shares of capital stock (par value $25 per share), proposes to issue and sell for cash 6,000 additional shares at the price of $55 a share, as fixed by its directors, or a total cash consideration of $330,000. NEES, the sole stockholder of Northampton, proposes to acquire the additional shares, and in payment therefor to use available treasury funds. The proceeds from the sale of the additional shares will be applied by Northampton to the payment of a like amount of notes payable to NEES.

Northampton and NEES desire to consummate the transactions in order to finance permanently a portion of the capitalizable additions to Northampton's plant through the issuance of equity securities.

The Department of Public Utilities of Massachusetts, in which State Northampton is organized and doing business, has authorized the issuance and sale of the additional shares.

Total expenses of Northampton are estimated at $1,740 and of NEES at $300.

Notice is further given that any interested person may, not later than July 5, 1956, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3473]

CONSOLIDATED NATURAL GAS CO. ET AL.

NOTICE OF FILING REGARDING PROPOSED BANK BORROWINGS AND ISSUANCE AND SALE BY PARENT OF DEBENTURES AT COMPETITIVE BIDDING; ISSUANCE BY SUBSIDIARIES OF SHORT-TERM AND LONG-TERM NOTES AND ACQUISITION THEREOF BY PARENT

JUNE 14, 1956.

In the matter of Consolidated Natural Gas Company, The East Ohio Gas Company, Hope Natural Gas Company, The Peoples Natural Gas Company, New York State Natural Gas Corporation, The River Gas Company; File No. 70-3473.

Notice is hereby given that Consolidated Natural Gas Company ("Consolidated"), a registered holding company, and its wholly owned subsidiaries, The East Ohio Gas Company ("East Ohio"), Hope Natural Gas Company ("Hope"), The Peoples Natural Gas Company ("Peoples"), New York State Natural Gas Corporation ("New York State") and The River Gas Company ("River"), have filed a joint application-declaration and amendments thereto pursuant to the provisions of the Public Utility Holding Company Act of 1935 ("act") and rules thereunder. The companies have designated sections 6 (a), 6 (b), 7, 9 (a), 10, 12 (b) and 12 (f) of the act and Rules U-45 and U-50 thereunder as applicable to the proposed transactions which are summarized as follows:

Consolidated proposes to provide funds to meet the construction requirements of its subsidiaries for 1956 by means of a debenture issue and loans from banks as indicated below.

Consolidated will issue promptly after this declaration becomes effective, a public invitation for sealed written bids for the purchase of $30,000,000 principal amount of its __ percent Debentures due 1981. Consolidated contemplates receiving bids on July 25, 1956, and if a bid is accepted the debentures will be dated August 1, 1956, and mature on August 1, 1981. A sinking fund of $1,000,000 will start at the beginning of the 6th year of the issue and increase to $1,500,000 at the beginning of the 21st year, thus leaving $7,500,000 of the debentures payable at maturity.

Following the issuance of the debentures, Consolidated will loan to its subsidiaries an aggregate of $29,600,000 in connection with which the subsidiaries will issue long-term non-negotiable notes bearing interest rates predicated upon and substantially equal to the cost of money to Consolidated through the issuance of the debentures. The loans are to be made from time to time up to December 31, 1956, as funds are required and are to be evidenced by notes with serial maturities, in varying amounts, on or prior to July 31, 1981, as follows:

| | |
|---|---|
| East Ohio | $10,000,000 |
| Hope | 4,000,000 |
| Peoples | 4,500,000 |
| New York State | 11,000,000 |
| River | 100,000 |
| Total | 29,600,000 |

East Ohio and New York State will issue $2,500,000 and $1,500,000, respectively, of the above long-term notes in repayment of short-term loans for construction made by Consolidated in 1955.

As a standby arrangement and pending completion of the above financing Consolidated proposes to borrow, as required, up to $30,000,000 from banks before the debenture financing takes place. This borrowing would be made on a promissory note or notes having a maturity of one year or less from July 1, 1956, without collateral at the prime interest rate and with a repayment privilege upon five days' notice. Consolidated presently plans to borrow $10,000,000 on July 1, 1956, under this arrangement and to repay such amount on August 15, 1956, out of the proceeds of the sale of the debenture issue on August 1, 1956.

If Consolidated should postpone the issue and sale of the debentures beyond August 1, 1956, Consolidated would obtain additional amounts from the banks as required on various dates to September 30, 1956, up to the total of $30,000,000. The total amount borrowed on such bank loans would be repaid from the proceeds of the debenture issue when sold.

Consolidated proposes to use the funds obtained from these bank loans to make short-term standby loans to its subsidiaries up to the same amounts as is indicated above on notes of one year maturity or less from the date the first note is issued by each company, with interest at the prime interest rate obtained by Consolidated on its related bank loan, said notes to be issued from time to time as funds are needed, up to December 31, 1956. The amounts borrowed by the subsidiaries on the short-term standby loans will be repaid through the issuance of their long-term notes upon completion of Consolidated's proposed sale of debentures.

Consolidated also proposes to provide funds to finance seasonal storage gas purchases by its subsidiaries through borrowing $25,000,000 from banks on various dates between the period September 15, 1956, and December 31, 1956. These funds will be obtained through the issuance of an unsecured promissory note or notes, at the prime interest rate, maturing one year from the date of the first borrowing with a repayment privilege upon five days' notice.

The funds thus obtained together with treasury funds will be loaned to Consolidated's subsidiaries on notes of one year or less from the date of the first note issued by each subsidiary with interest at the prime rate obtained by Consolidated and in the following amounts:

| | |
|---|---|
| East Ohio | $6,000,000 |
| Hope | 5,500,000 |
| New York Natural | 14,000,000 |
| Peoples | 1,000,000 |
| Total | 26,500,000 |

The banks from which Consolidated proposes to borrow and the amounts to be borrowed from each bank are as follows:

| Banks | $30,000,000 standby loan | $25,000,000 gas storage loan | Total |
|---|---|---|---|
| The Chase Manhattan Bank (New York) | $10,000,000 | $8,200,000 | $18,200,000 |
| The National City Bank of Cleveland (Ohio) | 2,000,000 | 2,000,000 | 4,000,000 |
| Bankers Trust Co. (New York) | 1,600,000 | 1,200,000 | 2,800,000 |
| Guaranty Trust Co. of New York | 1,600,000 | 1,200,000 | 2,800,000 |
| J. P. Morgan & Co., Inc. (New York) | 1,600,000 | 1,200,000 | 2,800,000 |
| Chemical Corn Exchange Bank (New York) | 1,600,000 | 1,200,000 | 2,800,000 |
| The First National City Bank of New York | 1,600,000 | 1,200,000 | 2,800,000 |
| The Hanover Bank (New York) | 1,600,000 | 1,200,000 | 2,800,000 |
| Irving Trust Co. (New York) | 1,600,000 | 1,200,000 | 2,800,000 |
| Manufacturers Trust Co. (New York) | 1,350,000 | 1,250,000 | 2,600,000 |
| Mellon National Bank & Trust Co. (Pittsburgh, Pa.) | 1,050,000 | 1,250,000 | 2,300,000 |
| Union Bank of Commerce (Cleveland, Ohio) | 1,100,000 | 1,100,000 | 2,200,000 |
| Peoples First National Bank & Trust Co. (Pittsburgh, Pa.) | 400,000 | 400,000 | 800,000 |
| The Union National Bank of Pittsburgh (Pennsylvania) | 200,000 | 150,000 | 350,000 |
| First National Bank, Akron (Ohio) | 200,000 | 100,000 | 300,000 |
| The Dime Bank (Akron, Ohio) | 150,000 | 100,000 | 250,000 |
| The Firestone Bank (Akron, Ohio) | 100,000 | 100,000 | 200,000 |
| First National Bank of Canton (Ohio) | 100,000 | 100,000 | 200,000 |
| The Harter Bank & Trust Co. (Canton, Ohio) | 100,000 | 100,000 | 200,000 |
| The Mahoning National Bank (Youngstown, Ohio) | 100,000 | 100,000 | 200,000 |
| Union National Bank (Youngstown, Ohio) | 100,000 | 100,000 | 200,000 |
| The Dollar Savings & Trust Co. (Youngstown, Ohio) | 75,000 | 75,000 | 150,000 |
| The Empire National Bank of Clarksburg (West Virginia) | 75,000 | 75,000 | 150,000 |
| The Union National Bank of Clarksburg (West Virginia) | 50,000 | 50,000 | 100,000 |
| The Canton National Bank (Ohio) | 50,000 | 50,000 | 100,000 |
| United States National Bank in Johnstown (Pennsylvania) | | 50,000 | 50,000 |
| Johnstown Bank & Trust Co. (Pennsylvania) | | 50,000 | 50,000 |
| Central Trust Co. (Altoona, Pa.) | | | |
| Total | 30,000,000 | 25,000,000 | 55,000,000 |

The State Commissions of West Virginia, Pennsylvania and Ohio have issued orders authorizing certain of the proposed transactions by Hope, Peoples, East Ohio and River.

The fees and expenses to be incurred in connection with the above transactions are to be supplied by amendment.

Applicants-declarants request that the Commission's order or orders to be entered herein become effective upon issuance, and not later than July 2, 1956, as to the several transactions proposed by Consolidated and its subsidiaries.

Notice is further given that any interested person may, not later than June 29, 1956 at 5:30 p. m., request the Commission in writing that a hearing be held on such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said joint application-declaration which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date said joint applicant-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

## SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Area 105]

WASHINGTON

DECLARATION OF DISASTER AREA

Whereas it has been reported that on or about June 2, 1956, because of the disastrous effects of floods and high winds, damage resulted to residences and business property located in certain areas in the State of Washington:

Whereas the Small Business Administration has investigated and has received other reports of investigations of conditions in the areas affected; and

Whereas after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act of 1953, as amended:

Now, therefore, as Adminstrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 207 (b) (1) of the Small Business Act of 1953, as amended, may be received and considered by the Offices below indicated from persons or firms whose property situated in the following counties (including any areas adjacent to the counties below named) suffered damage or other destruction as a result of the catastrophe above referred to:

Counties of: Pacific, Wahkiakum, Cowlitz, Skamania, Clark, Klickitat, Benton, Franklin, Walla Walla.

Small Business Administration Regional Office, Burke Building, 905 Second Avenue, Seattle, Washington.

Small Business Administration Branch Office, Old U. S. Courthouse, 520 SW Morrison Street, Portland 4, Oregon.

2. No special field office will be established at this time.

3. Applications for disaster loans under the authority of this Declaration will not be accepted subsequent to December 31, 1956.

Dated: June 5, 1956.

## INTERSTATE COMMERCE COMMISSION

[Notice 117]

MOTOR CARRIER APPLICATIONS

JUNE 15, 1956.

Protests consisting of an original and two copies to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (39 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in forms of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, pre-hearing conference, taking of depositions, or other proceeding shall notify the Commission by letter or telegram within 30 days of publication of this notice in the FEDERAL REGISTER. Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operations of Motor Carrier properties sought to be acquired in an application under section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS FOR MOTOR CARRIERS OF PROPERTY

No. MC 239 Sub 16, filed May 25, 1956, ECKLAR-MOORE EXPRESS, INC., 109 North Poplar Street, Cynthiana, Ky. Applicant's Attorney: Robert M. Pearce, 711 McClure Building, Frankfort, Ky. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Lexington, Ky., and Winchester, Ky., from Lexington over U. S. Highway 60 to Winchester, and return over the same route, serving no intermediate points, as an alternate route, for operating convenience only, in connection with carrier's regular route operations between (1) Cynthiana and Lexington, Ky., (2) from Paris to Owingsville, Ky., (3) between Georgetown and Lexington, Ky., and (4) between Lexington and junction U. S. Highway 60 and U. S. Highway 421 at a point approximately three miles east of Frankfort, Ky. Applicant is authorized to conduct operations in Kentucky and Ohio.

No. MC 504 Sub 23, filed June 6, 1956, LOUIS PATZ, doing business as HARPER MOTOR LINES, 220 North McIntosh Street, Elberton, Ga. Applicant's attorney: Reuben G. Crimm, 805 Peachtree Street Building, Atlanta 5, Ga. For authority to operate as a *common carrier*, over i r r e g u l a r routes, transporting: *Granite*, from Elberton, Ga., and points within 15 miles of Elberton, to points in Iowa and Wisconsin. Applicant is authorized to conduct operations in Delaware, Indiana, Kentucky, Maryland, Michigan, New Jersey, New York, Ohio, Pennsylvania, Tennessee, Virginia, West Virginia, District of Columbia, Georgia, Illinois, North Carolina, South Carolina, and Missouri.

No. MC 514 Sub 3, (REVISION) CLIFFORD SKIPWORTH, doing business as UNITED WAREHOUSE AND TRANSFER, published page 3091, issue of May 9, 1956. Letter dated June 5, 1956, advises that Joe W. Worley, Attorney at Law, 309 Commerce Street, Kingsport, Tenn., has been retained as counsel for applicant.

No. MC 730 Sub 72, filed June 4, 1956, PACIFIC INTERMOUNTAIN EXPRESS CO., 299 Adeline Street, Oakland, Calif. Applicant's attorney: William B. Adams, Pacific Building, Portland 4, Oreg. For authority to operate as a *common carrier*, over irregular routes, transporting: *Cherries*, in brine, in tank vehicles, from Pleasant Grove and Provo, Utah, and points within 20 miles of each, to Hayward, Calif., and points within 7 miles thereof.

No. MC 1077 Sub 2, filed June 6, 1956, ARTHUR O. HECKERMAN, doing business as HECKERMAN TRUCKING CO., Watervale Road, R. D. 2, Manlius, N. Y. Applicant's attorney: Norman M. Pinsky, Fifth Floor Weiler Building, 407 South Warren Street, Syracuse 2, N. Y. For authority to operate as a *contract carrier*, over irregular routes, transporting: (1) *Metal partitions and component parts thereof*, used in and incidental to building construction, from Syracuse, N. Y., to points in Massachusetts, Rhode Island, Connecticut, New Jersey, Pennsylvania, New York, Maryland, Virginia, and the District of Columbia. (2) *Laundry machinery, and supplies*, from Syracuse, N. Y. to points in Virginia, except Richmond, Fort Myer, and Salem. (3) *Laundry machinery*, used and damaged, from points in Virginia, except Richmond, Fort Myer, and Salem, to Syracuse, N. Y. Applicant is authorized to conduct operations in New York, Virginia, Massachusetts, Connecticut, Rhode Island, New Jersey, Pennsylvania, Maryland, and the District of Columbia.

No. MC 3261 Sub 21, filed June 4, 1956, KRAMER BROS. FREIGHT LINES, INC., 4195 Central Avenue, Detroit 10, Mich. Applicant's attorney: Walter N. Bieneman, Guardian Building, Detroit 26, Mich. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, and commodities requiring special equipment, serving the site of the plant of the Chevrolet Division of General Motors Corporation, located approximately 6 miles southwest of Warren (Lordstown Township, Trumbull County), Ohio, as an off-route point in connection with applicant's regular route operations between Warren, Ohio, and Youngstown, Ohio, via U. S. Highway 422 and, between Akron, Ohio, and Youngstown, Ohio, via Ohio Highway 18. Applicant is authorized to conduct operations in Illinois, Ohio, Maryland, District of Columbia, New Jersey, Indiana, Michigan, Pennsylvania, New York, and Newark, Del.

No. MC 4312 Sub 1, filed June 4, 1956, EVERETT G. MILLER AND BERNEICE J. MILLER, doing business as COTTAGE GROVE EUGENE FREIGHT COMPANY, Pacific Highway North, Cottage Grove, Oreg. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Cottage Grove, Oreg., and Disston, Oreg., from Cottage Grove over Lane County Road to Disston, and return over the same route, serving the intermediate points of Culp Creek and Dorena, Oreg. Applicant is authorized to conduct operations in Oregon.

No. MC 24379 Sub 20, filed June 6, 1956, LONG TRANSPORTATION COMPANY, a corporation, 3755 Central Avenue, Detroit, Mich. Applicant's attorney: Rex Eames, 2606 Guardian Building, Detroit 26, Mich. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, serving the plant of the Chrysler Corporation on Ohio Highway 82 (near Macedonia, Ohio), in Twinsburg Township, Summit County, Ohio, as an off-route point in connection with applicant's regular route operations to and from Cleveland, Ohio, and the Commercial zone thereof. Applicant is authorized to conduct operations in Illinois, Indiana, Michigan, Pennsylvania, New York, Maryland, New Jersey, and the District of Columbia.

No. MC 28536 Sub 7 (amended), filed May 21, 1956, published June 6, 1956, page 3885, FOX & GINN, INC., 12 Howard Lane, Bangor, Maine. Applicant's attorney: Mary E. Kelley, 84 State Street, Boston 9, Mass. For authority to operate as a *common carrier*, over irregular routes, transporting: *New furniture, store counters* and *show cases* (uncrated), between points in Maine, on the one hand, and, on the other, points in New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, and Pennsylvania. Applicant is authorized to conduct operations in Massachusetts, Maine, and New Hampshire.

No. MC 30378 Sub 44 (amended), filed April 2, 1956, published April 11, 1956, page 2352, ASSOCIATED TRANSPORTS, INC., P. O. Box 85, Robertson, Mo. Applicant's attorney: T. D. Drury, 506 Olive Street, St. Louis 1, Mo. For authority to operate as a *common carrier* over irregular routes, transporting: *New automboiles, new trucks, new chassis* and *automobile parts and accessories* incidental to equipment of vehicles being transported, in initial movements, in driveaway and truckaway service, from Kansas City, Mo., to points in Missouri, and *damaged shipments* of the commodities specified on return movements. *RESTRICTION:* Applied-for authority to be restricted against tacking with any presently existing authority, either initial or secondary. Applicant is authorized to conduct operations in all States in the United States except Arizona, California, Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, Washington, West Virginia, Wisconsin, and the District of Columbia.

No. MC 30980 Sub 3, filed June 4, 1956, CHARLES A. TARANTOLA, doing business as SOUTHAMPTON HAULING COMPANY, 4999 Fayler Avenue, St. Louis, Mo. Applicant's attorney: Joseph R. Nacy, 117 West High Street, Jefferson City, Mo. For authority to operate as a *common carrier*, over irregular routes, transporting: *Heavy machinery*, between points in Missouri, on the one hand, and, on the other, points in Iowa, Illinois, Kansas and Arkansas. Applicant is authorized to conduct operations in Arkansas, Illinois, Iowa, Kansas, and Missouri.

No. MC 41635 Sub 31, filed June 11, 1956, DEALERS TRANSPORT COMPANY, 1368 Riverside Boulevard, P. O. Box 2482, DeSoto Station, Memphis, Tenn. Applicant's attorney: Charles H. Hudson, Jr., 407 Broadway Bank Building, Nashville, Tenn. For authority to operate as a *common carrier*, over irregular routes, transporting: *Automobiles, trucks, tractors, bodies, cabs and chassis*, and *automobile show paraphernalia, equipment and supplies*, and *parts and accessories* at the same time and with the vehicle of which they are a part and on which they are to be installed, in initial movements, in truckaway and driveaway service, from points in Jefferson County, Ky. (including but not limited to Louisville), to points in New York and Pennsylvania. Applicant is authorized to conduct operations in Missouri, Tennessee, Arkansas, Mississippi, Kentucky, Louisiana, Alabama, Oklahoma, Texas, Virginia, West Virginia, Ohio, Indiana, Georgia, Florida, North Carolina, South Carolina, and Illinois.

No. MC 43468 Sub 6, filed June 4, 1956, VICTORY MOTOR FREIGHT, INC., U. S. Route 6, P. O. Box 1156, Huntington, W. Va. Applicant's attorney: Chas. T. Dodrill, West Virginia Building, Huntington, W. Va. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Compressed gases*, in cylinders, *calcium carbide, solidified carbon dioxide* (dry ice), *empty cylinders*, and *welding equipment*, between Huntington, W. Va., and points in West Virginia within 10 miles of Huntington, on the one hand, and, on the other, McClure, Va., and points within 5 miles of McClure. Applicant is authorized to conduct operations in Ohio, West Virginia and Kentucky.

No. MC 50307 Sub 18, filed June 5, 1956, INTERSTATE DRESS CARRIERS, INC., a corporation, 247 West 35th Street, New York, N. Y. Applicant's attorney: Herman B. J. Weckstein, 1060 Broad Street, Newark 2, N. J. For authority to operate as a *common carrier*, over irregular routes, transporting: *General commodities*, excluding those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment; restricted to shipments not exceeding 100 pounds in weight, between New York, N. Y., and points in New York and New Jersey within 20 miles of New York, on the one hand, and, on the other, points in Pennsylvania. Applicant is authorized to conduct operations in New York, New Jersey, Maryland, and Pennsylvania.

No. MC 54804 Sub 5, filed May 31, 1956, JOHN V. KUHN, doing business as KUHN TRUCK LINE, 146 West Fourth Street, P. O. Box 690, Dickinson, N. Dak. For authority to operate as a *common carrier*, over irregular routes, transporting: (1) *Lumber, poultry feeds and livestock feeds, fertilizers*, dry and liquid, packaged and in bulk, between points in Montana, North Dakota, South Dakota, and Minnesota, (2) *building blocks*, slag and portland cement, concrete or gypsum, with lead insulation or enforcement, glass, cinder, cement, pumice or other light-weight aggregates, between points in South Dakota, North Dakota, and Montana, (3) *uranium bearing ores*, between points in Montana, Wyoming, South Dakota, and North Dakota, (4) *briquets*, coal or lignite, from Dickinson, N. Dak., and points within 10 miles thereof, to points in South Dakota and Montana, and (5) *agricultural machinery, implements and parts*, between points in North Dakota and Montana.

No. MC 64932 Sub 212, filed June 7, 1956, ROGERS CARTAGE CO., a corporation, 1934 South Wentworth Avenue, Chicago, Ill. Applicant's attorney: Carl L. Steiner, 39 South La Salle Street, Chicago 3, Ill. For authority to operate as a *common carrier*, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, as defined by the Commission, from North Aurora, Ill., to points in Illinois, Indiana, Michigan, and Ohio. Applicant is authorized to conduct operations in Alabama, Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, New Jersey, New York, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, West Virginia, and Wisconsin.

No. MC 65451 Sub 13, (CORRECTION) published on page 4061, issue of June 13, 1956. Name of applicant shown as ALABRAM FREIGHT LINES, was in error. Correct name of applicant is: ALABAM FREIGHT LINES.

No. MC 66562 Sub 1288, filed May 15, 1956, published in the May 30, 1956 issue, page 3708, (amended) RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N. Y. Applicant's attorney: William H. Marx, 219 East 42d Street, New York 17, N. Y. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities, including Class A and B explosives*, moving in express service and having an immediately prior or an immediately subsequent movement by rail or air, restricted to shipments moving on a through bill of lading or express receipt, between Paris, Ky., and Flemingsburg, Ky., from Paris over U. S. Highway 68 to junction Kentucky Highway 36, thence over Kentucky Highway 35 to junction Kentucky Highway 32, and thence over Kentucky Highway 32 to Flemingsburg, and return over the same routes, serving the intermediate point of Carlisle, Ky. Applicant is authorized to conduct operations throughout the United States.

No. MC 70451 Sub 183, filed June 7, 1956, WATSON BROS. TRANSPORTATION CO., INC., 802 South 14th Street, Omaha, Nebr. For authority to operate as a *common carrier*, over irregular routes, transporting: *Meats, meat products, and meat by-products, dairy products, articles distributed by meat packing houses, such commodities as are used by meat packers in the conduct of their business* when destined to and for use by meat packers, as defined by the Commission, and *empty containers or other such incidental facilities* (not specified) used in transporting the above-specified commodities, between Arkansas City, Kans., on the one hand, and, on the other, points in Minnesota, Nebraska, Iowa, Colorado, and Illinois.

No. MC 103993 Sub 72 (amended), filed June 1, 1956, published in the June 13, 1956 issue, on Page 4062, MORGAN DRIVE-AWAY, INC., 509 Equity Building, Elkhart, Ind. Applicant's attorney: John E. Lesow, 632 Illinois Building, 17 North Market Street, Indianapolis 4, Ind. For authority to operate as a *common carrier*, over irregular routes, transporting: (1) *Trailers*, designed to be drawn by passenger automobiles, by the truckaway method, in initial movements, from Tulare, Calif., to all points in the United States, (2) *special purpose trailers*, in initial movements, in truckaway service, from Santa Clara, Calif. to all points in the United States, and (3) *Special purpose trailers*, in secondary movements, in truckaway service, between all points in the United States. Applicant is authorized to conduct operations throughout the United States.

No. MC 107103 Sub 3, filed May 31, 1956, ROBINSON CARTAGE COMPANY, a Michigan Corporation, 2713 Chicago Drive SW. (mailing address Roosevelt Square, Box 12), Grand Rapids, Mich. Applicant's attorney: Walter N. Bieneman, Guardian Building, Detroit 26, Mich. For authority to operate as a *common carrier*, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment and of *related machinery parts* and *related contractors' materials and supplies* when their transportation is incidental to the transportation by applicant of commodities which, by reason of size or weight, require the use of special equipment, between points in the lower peninsula of Michigan on and west of U. S. Highway 27, and on and north of the southern boundary lines of Allegan, Barry, and Eaton Counties, on the one hand, and, on the other, points in Illinois and Wisconsin. Applicant is authorized to conduct operations in Indiana, Michigan, and Ohio.

No. MC 107496 Sub 77, filed May 21, 1956, RUAN TRANSPORT CORPORATION, 408 SE. 30th Street, Des Moines, Iowa. Applicant's attorney: Homer E. Bradshaw, Suite 510 Central National Building, Des Moines 9, Iowa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum and petroleum products*, in bulk, in tank vehicles, *fertilizers, anhydrous ammonia, aqua ammonia, urea and urea feed mixture, fertilizer ingredients* and *fertilizer ammoniating solutions*, in bulk, in tank or hopper vehicles, between points in Wisconsin, on the one hand, and, on the other, points in Michigan. Applicant is authorized to conduct operations in Iowa, Illinois, Wisconsin, Minnesota, Missouri, and Nebraska.

No. MC 107515 Sub 227, filed May 21, 1956 (Amended), published on page 3888, issue of June 6, 1956, REFRIGERATED TRANSPORT CO., INC., 290 University Avenue SW., Atlanta 10, Ga. Applicant's attorney: Allan Watkins, Grant Building, Atlanta 3, Ga. For authority to operate as a *common carrier*, over irregular routes, transporting: *Meats, packing house products, and articles distributed by packing houses*, as defined by the Commission, from Green Bay, Wis., to points in Alabama, Georgia, Florida, and Mississippi. H. and return over the same route serving all intermediate points. Applicant now operates under authority No. MC 96007 between Lawrence, Mass. and Salem, N. H. on Highway 28 and desires to extend this operation to Manchester, N. H. over said Highway 28, as indicated.

No. MC 116002, filed May 17, 1956. THOMAS M. GRIFFIN, 13 Broad Street, Valley Falls, R. I. For authority to operate as a *common carrier*, over irregular routes, transporting: *Passengers and their baggage* in the same vehicle with passengers, in round-trip, charter operations, beginning and ending at Central Falls, Pawtucket, Providence, Cumberland, East Providence and Lincoln, R. I. and extending to points in that part of Massachusetts bounded by a line beginning on Massachusetts Highway 12 at the Massachusetts-Connecticut State Line south of Webster, Mass., extending along Massachusetts Highway 12 to junction with Massachusetts Highway 2 near Leominster, Mass., thence along Massachusetts Highway 2 to Boston, Mass., thence along the Atlantic Coast to Cape Cod Canal at Sagamore and Bourne, Mass., and thence along the Atlantic Coast to the Massachusetts-Rhode Island State Line.

No. MC 116017 Sub 1, filed June 4, 1956. C. F. DAWKINS and BERNITA M. DAWKINS, doing business as KANSAS CITY-ATCHISON BUS LINE, 5628 Wolcott Drive, Wolcott, Kans. (Mail address Bethel, Kans.) Applicant's attorney: Erle W. Francis, Veterans of Foreign Wars Building, 214 West Sixth Street, Topeka, Kans. For authority to operate as a *common carrier*, over regular routes, transporting: *Passengers and their baggage*, and *express*, in the same vehicle with passengers, between Kansas City, Mo., and Atchison, Kans., from Kansas City, Mo., over city streets to Kansas City, Kans., thence over city streets to Parallel Road (formerly U. S. Highway 40), thence over Parallel Road to junction Parallel Road and U. S. Highway 73, thence over U. S. Highway 73 to junction of U. S. Highways 73, 24 and 40, and return over U. S. Highway 73 to Victory Junction, thence over U. S. Highway 73 to Atchison, and return over the same route to Kansas City, Mo., serving all intermediate points on the above-described highways.

APPLICATIONS FOR BROKERAGE LICENSES

No. MC 12648, filed June 4, 1956, WIDE WORLD TRAVEL SERVICE, INC., 216–218 Franklin Avenue, Gastonia, N. C. For a license (BMG 5) authorizing operations as a *broker* at Gastonia, N. C., in arranging for transportation in interstate or foreign commerce, by motor vehicle, of *Passengers and their baggage*, in the same vehicle with passengers, in round-trip special and charter all-expense tours, beginning and ending at points in Gaston County, N. C., and extending to points in the United States.

NOTE: By this application, applicant proposes to arrange and conduct religious, education, and vacation tours to all points in the United States and Canada and that emphasis will center on Church and school groups.

APPLICATIONS UNDER SECTION 5 (a) AND 210 (a) (b)

CORRECTION

No. MC–F 6295, published in the June 6, 1956, issue of the FEDERAL REGISTER on page 3893. The operating rights to be leased should read, in part, "* * * between Livingston, Tenn., and Cookeville, Tenn., * * *" in lieu of "* * * between Livingston, Tenn., and Crossville, Tenn. * * *".

No. MC–F 6300. Authority sought for merger by COLUMBIA TERMINALS COMPANY, 120 Washington Avenue, St. Louis, Mo., of the operating rights and property of SOUTHERN PLAZA EXPRESS, 1209 Washington Avenue, St. Louis 3, Mo., and CENTRAL EXPRESS, INC., 1901 Irving Boulevard, Dallas, Tex., and for acquisition by FIELDING CHILDRESS, also of St. Louis, of control of the operating rights and property through the transaction. Applicants' attorney: Clarence D. Todd, Todd & Dillon, 944 Washington Bldg., Washington 5, D. C. Operating rights sought to be merged: (SOUTHERN PLAZA EXPRESS) *General commodities*, without exception, as a *common carrier*, between Denison, Tex., and the site of the Denison Dam, and between Hulbert, Okla., and the Denison Dam, serving all intermediate points; *general commodities*, with certain exceptions including household goods, over regular routes, including routes between St. Louis, Mo., and Chicago, Ill., between St. Louis, Mo., and Kansas City, Mo., between Dallas, Tex., and San Antonio, Tex., between Belton, Tex., and Camp Hood, Tex., between Houston, Tex., and Tulsa, Okla., and between Oklahoma City, Okla., and Coalgate, Okla., serving certain intermediate and off-route points; numerous routes for operating convenience only; *metal signs, painting materials, asbestos shingles and roofing, matches, storage batteries, wall paper*, and *iron castings*, over irregular routes, from, to, and between certain points, varying with the commodity transported, in Missouri and Illinois. (CENTRAL EXPRESS, INC.) *General commodities*, with certain exceptions including household goods, as a *common carrier*, between McAlester, Okla., and Fort Smith, Ark., and between Fort Smith, Ark., and junction U. S. Highways 270 and 271, between Miami, Okla., and Colbert, Okla., and between Muskogee, Okla., and Braggs, Okla., serving certain intermediate and off-route points. COLUMBIA TERMINALS COMPANY owns no authority from the Interstate Commerce Commission. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6302. Authority sought for control by H. M. O'NEILL, F. J. O'NEILL, and W. J. O'NEILL, all of 11700 Shaker Boulevard, Cleveland, Ohio, of the operating rights and property of THE DELIVERY COMPANY, 1701 Wicomico Street, Baltimore, Md., WASHINGTON DELIVERIES, INC., 1714 Second Street SW., Washington, D. C., and QUICK DELIVERIES, INC., 110 Olean Street, Rochester, N. Y. Applicant's attorney: Roland Rice, 618 Perpetual Building, 1111 E Street NW., Washington 4, D. C. Operating rights sought to be controlled: (The Delivery Company) *such commodities* as are dealt in by mail order houses and retail department stores, as a *contract carrier* over irregular routes from Baltimore, Md., to all points located in the counties of Baltimore, Carroll, Montgomery, Howard, Anne Arundel, Harford, Prince Georges, Frederick, Kent, Queen Anne and Cecil in the State of Maryland; (Washington Deliveries, Inc.) *such commodities* as are dealt in by mail order houses and retail department stores, as a *contract carrier* over irregular routes, from Washington, D. C., to all points located in the counties of Montgomery, Queen Anne, Prince Georges, Frederick, Charles and Calvert in the State of Maryland, and Fairfax, Prince William, Loudon and Arlington in the State of Virginia; (Quick Deliveries, Inc.) *iron and steel tanks*, as a *contract carrier*, over irregular routes, from points in Onondaga County, N. Y., to points in New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland and Virginia. Applicants hold no authority from the Commission but own controlling stock interest in ANCHOR MOTOR FREIGHT, INC., OF DELAWARE, ANCHOR MOTOR FREIGHT, INC., OF MICHIGAN, ANCHOR MOTOR FREIGHT, N. Y. CORP., RELAY TRANSPORT, INC., SIGNAL DELIVERY SERVICE, INC., and WAREHOUSE TRANSPORTATION CO., which are authorized to operate in Connecticut, Delaware, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin and the District of Columbia. Application has not been filed for temporary authority under section 210a (b).

NOTE: This application will be processed concurrently with Nos. MC 116030 and MC 116031.

No. MC–F 6303. Authority sought by CONSOLIDATED FREIGHTWAYS, INC., 2029 NW. Quimby Street, Portland, Oreg., to merge the operating rights and property of FOSTER FREIGHT LINES, INC., 1240 South Holt Road, Indianapolis, Ind. Applicants' attorney: Donald A. Schafer, 803 Public Service Bldg, Portland, Oreg. Operating rights sought to be merged: *General commodities*, with certain exceptions including household goods, as a *common carrier* over regular routes including routes between Indianapolis, Ind., and St. Louis, Mo., between Chicago, Ill., and Cincinnati, Ohio, between Chicago, Ill., and Indianapolis, Ind., and between Chicago, Ill., and Louisville, Ky., serving certain intermediate and off-route points; *general commodities* as specified above, in truckload lots from Chicago, Ill., to points in four Ohio Counties; *general commodities*, with certain exceptions not including household goods, between Indianapolis, Ind., and Cincinnati, Ohio, serving certain intermediate and off-route points; *metal shelving and fixtures therefor*, between Indianapolis, Ind., and Aurora, Ill., serving certain intermediate and off-route points; *wall paper*, between Indianapolis, Ind., and Joliet, Ill., serving certain intermediate and off-route points; *roofing and roofing materials*, from Joliet, Ill., to Cincinnati, Ohio, and Louisville, Ky., serving the intermediate point of Indianapolis, Ind.; *batteries and battery parts*, from Chicago Heights, Ill., to Cincinnati, Ohio, and Louisville, Ky., serving certain intermediate and off-route points; several routes for operating convenience only. CONSOLIDATED FREIGHTWAYS, INC., is authorized to operate as a *common carrier* in Oregon, Washington, Idaho, Nevada, Minnesota, North Dakota, Montana, Utah, California, Wisconsin, Illinois and Iowa. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6304. Authority sought for control and merger by HEMINGWAY BROTHERS INTERSTATE TRUCKING COMPANY, 438 Dartmouth Street, New Bedford, Mass., of the operating rights and property of FERREIRA'S TRANSPORTATION, INC., and KEOGH STORAGE COMPANY, both of 601 Brayton Avenue, Fall River, Mass., and for acquisition by PHILIP HEMINGWAY, also of New Bedford, of control of such rights and property through the transaction. Applicants' attorney: Kenneth B. Williams, 89 State Street, Boston 9, Mass. Operating rights sought to be controlled and merged: (Ferreira's Transportation, Inc.): *General commodities*, with certain exceptions including household goods, as a *common carrier* over regular routes between Boston, Mass., and Newport, R. I., and between New Bedford, Mass., and Providence, R. I., serving all intermediate and certain off-route points; *general commodities*, with exceptions as specified above, in nonscheduled service, between Providence, R. I., and New York, N. Y., serving no intermediate points; *general commodities*, with certain exceptions including household goods, over irregular routes, between New York, N. Y., on the one hand, and, on the other, certain points in New Jersey; *household goods* as defined by the Commission between Fall River, Mass., on the one hand, and, on the other, points in Connecticut, New Jersey, New York and Rhode Island; *paper on rolls* and *paper bags*, from New Bedford and Boston, Mass., to Fall River, Mass.; *skins* and *furs*, from New York, N. Y., to Fall River, Mass.; *trunks* containing wearing apparel, from Fall River and New Bedford, Mass., to Boston, Mass. (Keogh Storage Company): *General commodities*, with certain exceptions including household goods, as a *common carrier* over regular routes between New Bedford, Mass., and Providence, R. I., between Boston, Mass., and Newport, R. I., between Boston, Mass., and New Bedford, Mass., and between Boston, Mass., and Providence, R. I., serving certain intermediate and off-route points; *general commodities*, with certain exceptions including household goods, over irregular routes between Boston, Mass., East Greenwich, South Kingstown, Coventry, and Westerly, R. I., and between Fall River and New Bedford, Mass., on the one hand, and, on the other, points in Massachusetts on and east of U. S. Highway 5; *cotton waste, textile chemicals, textile, textile products*, and *material, equipment* and *supplies* used in the operation and maintenance of textile mills and in the manufacture and distribution of textile products, from, to and between points and areas, varying with the commodity transported, in Massachusetts, Rhode Island, Connecticut and New York. HEMINGWAY BROTHERS INTERSTATE TRUCKING COMPANY is authorized to operate as a *common carrier* in Connecticut, Rhode Island, Massachusetts, New Hampshire, New York, New Jersey, Maine, Pennsylvania, Delaware, Maryland, Virginia, and the District of Columbia. Application has been filed for temporary authority under section 210a (b).

By the Commission.

## TITLE 5—ADMINISTRATIVE PERSONNEL

### Chapter I—Civil Service Commission

PART 6—EXCEPTIONS FROM COMPETITIVE SERVICE

FEDERAL CIVIL DEFENSE ADMINISTRATION

Effective upon publication in the FEDERAL REGISTER, paragraph (f) of § 6.323 is revoked and paragraph (m) is added as set out below.

§ 6.323 *Federal Civil Defense Administration.* * * *

(m) One Deputy Executive Assistant Administrator.

(R. S. 1753, sec. 2, 22 Stat. 403; 5 U. S. C. 631, 633)

UNITED STATES CIVIL SERVICE COMMISSION,

[SEAL] WM. C. HULL, *Executive Assistant.*

[F. R. Doc. 56-4893; Filed, June 20, 1956; 8:53 a. m.]

## TITLE 9—ANIMALS AND ANIMAL PRODUCTS

### Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 383, Rev., Amdt. 80]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—VESICULAR EXANTHEMA

CHANGES IN AREAS QUARANTINED

Pursuant to the provisions of sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123, 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111–113, 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 76.27, as amended, Subpart B, Part 76, Title 9, Code of Federal Regulations (21 F. R. 3, 417, 786, 1165, 1461, 1743, 2230, 2611, 3005, 3923), which quarantines certain areas because of vesicular exanthema, a contagious, infectious, and communicable disease of swine, is hereby further amended in the following respects:

1. Subdivisions (i) and (iv) of subparagraph (8) of paragraph (c), relating to Worcester County in Massachusetts, are deleted.

2. A new subdivision (ix) is added to subparagraph (1) of paragraph (d), relating to Atlantic County in New Jersey, to read:

(ix) Lots 1A and 1B, Block 760, in Hamilton Township, owned and operated by Charles Michael.

3. New subdivisions (xxiii) and (xxiv) are added to subparagraph (9) of paragraph (d), relating to Monmouth County in New Jersey, to read:

(xxiii) That part of Manalapan Township lying west of the Oakland Mills-Millhurst Road, north of the Carrs Corner-Oakland Mill Road, and southeast of County Road No. 527; and

(xxiv) That part of Marlboro Township lying south of Harbor Road, east of County Road No. 3, north of County Road No. 520, and west of State Road No. 79.

*Effective date.* The foregoing amendment shall become effective upon issuance.

The amendment excludes certain areas in Massachusetts and New Jersey from the areas heretofore quarantined because of vesicular exanthema. Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR 1955 Supp., Part 76, Subpart B, as amended, will not apply to such areas. However, the restrictions pertaining to such movement from non-quarantined areas, contained in said Subpart B, as amended, will apply thereto.

The amendment relieves certain restrictions presently imposed, and must be made effective immediately to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

**CFR SUPPLEMENTS**

**(As of January 1, 1956)**

The following Supplements are now available:

**Title 6 ($1.75)**

**Title 7: Parts 210–899 (Rev., 1955) with Supplement ($4.50)**

**Title 26 (1954) Parts 1–220 (Rev., 1955) ($2.00)**

**Titles 47 and 48 ($2.25)**

Previously announced: Title 3, 1955 Supp. ($2.00); Titles 4 and 5 ($1.00); Title 7: Parts 1–209 ($1.25); Parts 900–959 (Rev., 1955) ($6.00), Part 960 to end (Rev., 1955) with Supplement ($5.85); Title 8 ($0.50); Title 9 ($0.70); Titles 10–13 ($0.70); Title 14: Parts 1–399 ($2.50), Part 400 to end ($1.00); Title 15 ($1.00); Title 16 ($1.25); Title 17 ($0.60); Title 18 ($0.50); Title 19 ($0.50); Title 20 ($1.00); Title 21 (Rev., 1955) ($5.50); Titles 22 and 23 ($1.00); Title 24 ($0.75); Title 25 ($0.50); Title 26: Parts 1–79 ($0.35), Parts 80–169 ($0.50), Parts 170–182 ($0.30), Parts 183–299 ($0.35), Part 300 to end, Ch. I, and Title 27 ($1.00); Titles 28 and 29 ($1.25); Titles 30 and 31 ($1.25); Title 32: Parts 1–399 ($0.60), Parts 400–699 ($0.65), Parts 700–799 ($0.35), Parts 800–1099 ($0.40), Part 1100 to end ($0.35); Title 32A (Rev., 1955) ($1.25); Title 33 ($1.50); Titles 35–37 ($1.00); Title 39 (Rev., 1955) ($4.25); Titles 40–42 ($0.65); Title 43 ($0.50); Title 46: Parts 1–145 ($0.60), Part 146 to end ($1.25); Title 49: Parts 1–70 ($0.60), Parts 71–90 ($1.00), Parts 91–164 ($0.50), Part 165 to end ($0.65)

Order from Superintendent of Documents, Government Printing Office, Washington 25, D. C.

# TITLE 16—COMMERCIAL PRACTICES

## Chapter I—Federal Trade Commission

[Docket 6228]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

REDDI-SPRED CORP.

Subpart—*Advertising falsely or misleadingly:* § 13.135 *Nature:* Product or service: *Oleomargarine amendment to FTC Act.*[1]

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 12, 52 Stat. 114; sec. 15, 64 Stat. 20–21; 15 U. S. C., secs. 45, 52, 55) [Order modifying cease and desist order, Reddi-Spred Corporation, Philadelphia, Pa., Docket 6228, June 5, 1956]

Order modifying prior cease and desist order issued May 5, 1955, 20 F. R. 4367, to conform to the order of the Court of Appeals for the Third Circuit, of January 18, 1956, by striking from the proviso under paragraph "1" the following language: "or of a truthful statement that said product contains butter or any other dairy product provided the percentage thereof contained is clearly and conspicuously set forth." The proviso as modified reads: *"Provided, however,* That nothing contained in this order shall prevent the use in advertisements of a truthful, accurate and full statement of all of the ingredients contained in said product."

Issued: June 5, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH,
*Secretary.*

[F. R. Doc. 56-4874; Filed, June 20, 1956; 8:48 a. m.]

# TITLE 21—FOOD AND DRUGS

## Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

### Subchapter C—Drugs

PART 130—DRUGS EXEMPTED FROM PRESCRIPTION - DISPENSING REQUIREMENTS OF SECTION 503 (b) (C) OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

EXEMPTION OF CERTAIN DIAMTHAZOLE DIHYDROCHLORIDE PREPARATIONS AND DEXTROMETHORPHAN HYDROBROMIDE PREPARATIONS FROM PRESCRIPTION-DISPENSING REQUIREMENTS

There was published in the FEDERAL REGISTER of May 11, 1956 (21 F. R. 3149) a notice and text of proposed amendments to § 130.1 *Exemption for certain drugs limited by new-drug applications to prescription sale.* No comments nor objections were filed with respect to the proposed amendments within the 30-day period stipulated in the above-referenced notice, and the amendments set out below are hereby ordered, effective 30 days from the date of publication of this order in the FEDERAL REGISTER.

[1] New.

1. Section 130.1 *Exemption for certain drugs limited by new-drug applications to prescription sale* is amended by changing paragraph (a) (7) to read as follows:

(7) Diamthazole dihydrochloride (2-dimethylamino - 6 - (β - diethylamino ethoxy) - benzothiazole dihydrochloride) preparations meeting all the following conditions:

(i) The diamthazole dihydrochloride is prepared with or without other drugs, in a dosage form suitable for use in self-medication by external application to the skin, and containing no drug limited to prescription sale under the provisions of section 503 (b) (1) of the act.

(ii) The diamthazole dihydrochloride and all other components of the preparation meet their professed standards of identity, strength, quality, and purity.

(iii) If the preparation is a new drug, an application pursuant to section 505 (b) of the act is effective for it.

(iv) The preparation contains not more than 5 percent of diamthazole dihydrochloride.

(v) The preparation is labeled with adequate directions for use only for adults and children 12 years of age and over in those conditions for which it may be safely used without medical supervision.

(vi) The label bears a conspicuous warning to keep out of the reach of children, and the labeling bears, in juxtaposition with the directions for use, clear warning statements against:

(*a*) Application to infants or children under 6 years of age, because serious reactions may occur.

(*b*) Application to children 6 to 12 years of age, except as directed by a physician.

(*c*) Contact with mucous membranes.

(*d*) Use in the event of irritation or failure to obtain prompt relief.

2. Section 130.1 (a) is further amended by adding the following new subparagraph:

(15) Dextromethorphan hydrobromide (dextro-3-methoxy-*N*-methylmorphinan hydrobromide) preparations meeting all the following conditions:

(i) The dextromethorphan hydrobromide is prepared with or without other drugs, in tablet or other dosage form suitable for oral use in self-medication, and containing no drug limited to prescription sale under the provisions of section 503 (b) (1) of the act.

(ii) The dextromethorphan hydrobromide and all other components of the preparation meet their professed standards of identity, strength, quality, and purity.

(iii) If the preparation is a new drug, an application pursuant to section 505 (b) of the act is effective for it.

(iv) The preparation contains not more than 15 milligrams of dextromethorphan hydrobromide per dosage unit, or if it is in liquid form not more than 3 milligrams of dextromethorphan hydrobromide per milliliter.

(v) The preparation is labeled with adequate directions for use in the temporary relief of cough due to minor conditions in which it is indicated.

(vi) The dosages recommended or suggested in the labeling do not exceed: For adults, 30 milligrams of dextromethorphan hydrobromide per dose or 120 milligrams of dextromethorphan hydrobromide per 24-hour period; for children 4 to 12 years of age, 15 milligrams per dose or 60 milligrams per 24-hour period; for children 2 to 4 years of age, 7.5 milligrams per dose or 30 milligrams per 24-hour period.

(vii) The label bears a conspicuous warning to keep the drug out of the reach of children and the labeling bears, in juxtaposition with the dosage recommendations:

(*a*) A clear warning statement against administration of the drug to children under 2 years of age, except as directed by a physician.

(*b*) Clear warning statements against use of the drug in the presence of high fever or if cough persists, since persistent cough as well as high fever may indicate the presence of a serious condition.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies secs. 503, 505, 52 Stat. 1052, 65 Stat. 649; 21 U. S. C. 353, 355)

Dated: June 18, 1956.

GEO. P. LARRICK,
*Commissioner of Food and Drugs.*

[F. R. Doc. 56-4891; Filed, June 20, 1956; 8:52 a. m.]

PART 141a—PENICILLIN AND PENICILLIN-CONTAINING DRUGS—TESTS AND METHODS OF ASSAY

PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

CRYSTALLINE PENICILLIN-STREPTOMYCIN-(OR DIHYDROSTREPTOMYCIN-) POLYMYXIN-OXYTETRACYCLINE-CARBOMYCIN POWDER VETERINARY

By virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, 61 Stat. 11; 21 U. S. C. 357) and delegated to the Commissioner of Food and Drugs by the Secretary (20 F. R. 1996), the regulations for tests and methods of assay and certification of penicillin and penicillin-containing drugs (21 CFR Parts 141a, 146a) are amended by adding the following new sections:

§ 141a.90 *Crystalline penicillin-streptomycin-polymixin-oxytetracycline - carbomycin powder veterinary; crystalline penicillin - dihydrostreptomycin - polymyxin-oxytetracycline-carbomycin powder veterinary*—(a) *Potency*—(1) *Penicillin content.* Wash the contents of one immediate container of the sample into a 100-milliliter volumetric flask with approximately 70 milliliters of absolute methanol. Shake the mixture for 1 minute, dilute to 100 milliliters with absolute methanol, and mix thoroughly. Centrifuge a portion of this mixture to obtain a clear methanol solution. Dilute an aliquot of the clear solution with sufficient 1.0-percent phosphate buffer, pH 6.0, to obtain a concentration of 1.0 unit per milliliter (estimated) and proceed as directed in § 141a.1. Its content of peni-

cillin is satisfactory if it contains not less than 85 percent of the number of units that it is represented to contain.

(2) *Oxytetracycline content.* To an aliquot of the clear methanol solution prepared as directed in subparagraph (1) of this paragraph, add sufficient penicillinase to completely inactivate the penicillin and then dilute with sufficient 0.1 *M* monopotassium phosphate buffer, pH 4.5, to obtain a concentration of 0.24 microgram per milliliter (estimated) and proceed as directed in § 141c.218 (a) of this chapter, except use the oxytetracyline working standard as the standard of comparison. Its content of oxytetracycline is satisfactory if it contains not less than 85 percent of the number of milligrams that it is represented to contain.

(3) *Carbomycin content.* To an aliquot of the clear methanol solution prepared as directed in subparagraph (1) of this paragraph, add sufficient penicillinase to completely inactivate the penicillin and then dilute with sufficient 0.1 *M* potassium phosphate buffer, pH 8.0, to obtain a concentration of 1.0 microgram per milligram (estimated) and proceed as directed in paragraph (d) (1) of this section. Its content of carbomycin is satisfactory if it contains not less than 85 percent of the number of milligrams that it is represented to contain.

(4) *Streptomycin content.* Using 10 milliliters of a freshly prepared 2-percent solution of anhydrous trichloroacetic acid in acetone, wash the contents of an immediate container of the sample into an extraction funnel prepared by fusing a ground-glass joint to the top of a medium porosity sintered-glass funnel (30 millimeters diameter). Shake the mixture for 1 minute and draw off the liquid under vacuum. Repeat the extraction with four 10-milliliter portions of a 2-percent solution of trichloroacetic acid in acetone and discard the filtrates. Wash the residue in the funnel with five 10-milliliter portions of 0.1 *M* potassium phosphate buffer (pH 8.0), withdrawing the washings with vacuum. Collect and combine the washings and dilute them to 50 milliliters with 0.1 *M* potassium phosphate buffer, pH 8.0. Proceed as directed in § 141b.101 (a) to (i) of this chapter. Its content of streptomycin is satisfactory if it contains not less than 85 percent of the number of milligrams that it is represented to contain.

(5) *Dihydrostreptomycin content.* Using the dihydrostreptomycin working standard as the standard of comparison, proceed as directed in subparagraph (4) of this paragraph. Its content of dihydrostreptomycin is satisfactory if it contains not less than 85 percent of the number of milligrams that it is represented to contain.

(6) *Polymyxin content.* Dilute an aliquot of the buffer washings prepared as directed in subparagraph (4) of this paragraph with sufficient 10-percent potassium phosphate buffer, pH 6.0, to obtain a concentration of 10 units per milliliter (estimated). Proceed as directed in § 141b.112 (b) (1) of this chapter, except that the standard curve is prepared in the following concentrations: 6, 7, 8, 9, 10, 11, 12, 13, 14, and 15 units per milliliter in 10-percent potassium phosphate buffer, pH 6.0, the 10 units per milliliter concentration being used as the reference point. Its content of polymyxin is satisfactory if it contains not less than 85 percent of the number of units that it is represented to contain.

(b) *Moisture.* Proceed as directed in § 141a.5 (a) of this chapter.

(c) *Oxytetracycline used in making the powder*—(1) *Potency.* Dilute the sample to be tested with sufficient 0.1 *N* HCl to give an appropriate stock solution. Further dilute with sufficient 0.1 *M* monopotassium phosphate buffer, pH 4.5, to obtain a concentration of 0.24 microgram per milliliter, and proceed as directed in § 141c.201 (a) (8) of this chapter, using the oxytetracycline working standard as the standard of comparison, except:

(i) Prepare the standard stock solution by dissolving an appropriate amount of the working standard in sufficient 0.1 *N* HCl to give a concentration of 1,000 micrograms per millliter. This solution may be kept in the refrigerator for 1 week. Do not freeze.

(ii) To prepare solutions for the standard curve, make further dilution of the stock solution with 0.1 *M* monopotassium phosphate buffer, pH 4.5, to obtain concentrations of 0.08, 0.12, 0.16, 0.20, 0.24, 0.28, 0.32, 0.36, and 0.40 microgram per milliliter.

(2) *Moisture.* Proceed as directed in § 141a.5 (a).

(3) *Toxicity.* Proceed as directed in § 141a.4, using as a test dose 0.5 milliliter of an aqueous solution containing 2.0 milligrams per milliliter, prepared by dissolving 40 milligrams (as the anhydrous compound) in 2.0 milliliters of 0.1 *N* HCl (if it is the base) and diluting with the required amount of water.

(4) *pH.* Proceed as directed in § 141a.5 (b), using an aqueous solution containing 10 milligrams per milliliter.

(5) *Crystallinity.* Proceed as directed in § 141a.5 (c).

(d) *Carbomycin used in making the powder*—(1) *Potency*—(i) *Plate assay*—(*a*) *Cylinders (cups).* Use cylinders described under § 141a.1 (a)

(*b*) *Culture media.* Prepare the culture media for the base and seed layers and for carrying the test organism as directed in § 141a.1 (b) (1), except for the base and seed layers adjust the media to pH 8.0 after sterilization. Make the nutrient broth for preparing an inoculum of the test organism as directed in § 141a.1 (b) (3).

(*c*) *Working standard.* Keep the working standard at refrigeration in tightly stoppered vials, which in turn are kept in larger stoppered vials containing a suitable desiccant. Dry approximately 50 milligrams of the standard as described in § 141a.5 (a). Dissolve the weight of dry working standard in sufficient methyl alcohol to give a concentration of 10,000 micrograms per milliliter. Further dilute with sterile distilled water to give a stock solution of 100 micrograms per milliliter. This stock solution may be kept under refrigeration for 1 week. Make daily dilutions to a concentration of 1 microgram per milliliter using 0.1 *M* potassium phosphate buffer, pH 8.0.

(*d*) *Preparation of sample.* Prepare the sample to be tested by dissolving in a small amount of methyl alcohol and then further dilute in 0.1 *M* phosphate buffer, pH 8.0, to make an appropriate stock solution.

(*e*) *Preparation of suspension.* Proceed as directed in § 141d.301 (a) (5) of this chapter, except add 0.2 milliliter of the adjusted bulk suspension to 100 milliliters of agar that has been melted and cooled to 48° C.

(*f*) *Preparation of plates.* Proceed as directed in § 141d.301 (a) (6) of this chapter.

(*g*) *Assay.* Place six cylinders on the inoculated agar surface so that they are at approximately 60° intervals on a 2.8-centimeter radius. Use three plates for each sample. Fill three cylinders on each plate with the 1.0 microgram per milliliter standard and three cylinders with the sample diluted to 1.0 microgram per milliliter (estimated) in 0.1 *M* potassium phosphate buffer, pH 8.0, alternating standard and sample. At the same time, prepare a standard curve, using concentrations of the standard of 0.6, 0.7, 0.8, 0.9, 1.0, 1.1, 1.2, 1.3, 1.4, and 1.5 micrograms per milliliter. Use three plates for the determination of each concentration on the curve except the 1.0 microgram per milliliter concentration, a total of 27 plates. The 1.0 microgram per milliliter concentration is the reference point of the curve. On each of three plates fill three cylinders with the 1.0 microgram per millliliter standard and the other three cylinders with the concentration of the standard under test. Thus there will be 81 of the 1.0 microgram determinations and nine determinations for each of the other points on the curve. Incubate the plates for 16 to 18 hours at 32° C. to 35° C. and measure the diameters of the circles of inhibition. Average the readings of the 1.0 microgram per milliliter concentrations and the readings of the concentration tested for each set of three plates and average also all 81 readings of the 1.0 microgram per milliliter concentration. The average of the 81 readings of the 1.0 microgram per milliliter concentration is the correction point for the curve. Correct the average value obtained for each concentration to the figure it would be if the average 1.0 microgram per milliliter reading for that set of three plates were the same as the correction point. Thus, if in correction of the 0.8 microgram concentration the average of the 81 readings of the 1.0 microgram concentration is 20.0 millimeters and the average of the 1.0 microgram concentration of this set of three plates is 19.8 millimeters, the correction is +0.2 millimeter.

If the average reading of the 0.8 microgram concentration of these same three plates is 19.0 millimeters, the corrected value is 19.2 millimeters. Plot these corrected values, including the average of the 1.0 microgram per millliter concentration, on two-cycle semilogarithmic paper using the concentration in micrograms per milliliter as the ordinate (the logarithmic scale) and the diameter of the zone of inhibition as the abscissa. Draw the standard curve through these points. To estimate the potency of the sample, average the zone readings of the standard and the zone readings of the sample on the three plates used. If the sample gives a larger zone size than the average of the standard, add the difference between them to the 1.0 microgram per milliliter unit zone on the standard curve. If the average value is lower than the standard value, subtract the difference between them from the 1.0 microgram per milliliter unit value on the curve. From the curves read the potencies corresponding to these corrected values of zone sizes.

(2) *Moisture.* Proceed as directed in § 141a.5 (a).

(3) *Toxicity.* Proceed as directed in § 141a.4, using as a test dose 0.5 milliliter of a solution containing 2 milligrams per milliliter.

(4) *pH.* Using an aqueous solution containing 10 milligrams per milliliter, proceed as directed in § 141a.5 (b).

(5) *Crystallinity.* Proceed as directed in § 141a.5 (c).

§ 146a.112 *Crystalline penicillin-streptomycin - polymyxin - oxytetracycline-carbomycin powder veterinary; crystalline penicillin-dihydrotreptomycin - polymyxin - oxytetracycline - carbomycin powder veterinary*—(a) *Standards of identity, strength, quality, and purity.* Crystalline penicillin-streptomycin - polymyxin - oxytetracycline-carbomycin powder veterinary and crystalline penicillin - dihydrostreptomycin - polymyxin-oxytetracycline-carbomycin powder veterinary are a mixture of crystalline penicillin, streptomycin or dihydrostreptomycin, polymyxin, crystalline oxytetracycline or crystalline oxytetracycline hydrochloride or a combination of these drugs, and crystalline carbomycin, with one or more suitable and harmless diluents. Each immediate container of powder contains not less than 200,000 units of penicillin, not less than 200 milligrams of streptomycin or dihydrostreptomycin, not less than 150,000 units of polymyxin, not less than 425 milligrams of oxytetracycline or oxytetracycline hydrochloride or a combination of these drugs, and not less than 100 milligrams of carbomycin. Its moisture content is not more than 6.0 percent. The crystalline penicillin used conforms to the standards prescribed therefor by § 146a.24 (a) except § 146a.24 (a) (2) and (4). The streptomycin used conforms to the standards prescribed therefor by § 146b.101 (a) of this chapter, except § 146b.101 (a) (2), (4), and (5). The dihydrostreptomycin used conforms to the standards prescribed therefor by § 146b.103 of this chapter, except the standards for sterility, pyrogens, and histamine. The polymyxin B used conforms to the standards prescribed therefor by § 146b.107 (a) of this chapter. The oxytetracycline used is produced by the growth of Streptomyces remosus. The crystalline oxytetracycline base has a potency of not less than 900 micrograms per milligram on the anhydrous basis, is nontoxic, has a moisture content of not more than 7.5 percent, and has a pH of from 5.5 to 7.5. The crystalline oxytetracycline hydrochloride has a potency of not less than 835 micrograms per milligram, is nontoxic, has a moisture content of not more than 1.5 percent, and has a pH of from 2.3 to 2.9. The crystalline carbomycin used is produced by the growth of Streptomyces halstedii, has a potency of not less than 750 micrograms per milligram, has a moisture content of not more than 5.0 percent, has a pH of from 5.0 to 8.0, and is nontoxic. Each other ingredient used, if its name is recognized in the U. S. P. or N. F., conforms to the standards prescribed therefor by such official compendium.

(b) *Packaging.* In all cases the immediate containers shall be tight containers as defined by the U. S. P. The composition of the immediate containers shall be such as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused that are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded.

(c) *Labeling.* Each package shall bear on its label or labeling, as hereinafter indicated, the following:

(1) On the outside wrapper or container and the immediate container:

(i) The batch mark.

(ii) The number of units of penicillin; the number of milligrams of streptomycin or dihydrostreptomycin; the number of units of polymyxin; the number of milligrams of oxytetracycline, oxytetracycline hydrochloride, or the number of milligrams of each such drug where a combination of these two drugs is used; and the number of milligrams of carbomycin, in each gram of the batch.

(iii) The statement "For udder instillation of cattle only."

(iv) The statement "Expiration date ----------," the blank being filled in with the date that is 24 months after the month during which the batch was certified: *Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container.

(v) On the circular or other labeling within or attached to the package, adequate directions and warnings for the veterinary use of such drug by the laity. Such circular or other labeling may also bear a statement that a brochure or other printed matter containing information for other veterinary uses of such drug by a veterinarian licensed by law to administer it will be sent to such veterinarian on request.

(d) *Request for certification; samples.* (1) In addition to complying with the requirements of § 146.2 of this chapter, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, the number of packages of each size in such batch, the batch mark and (unless they were previously submitted) the dates of the latest tests and assays of the penicillin, streptomycin or dihydrostreptomycin, polymyxin, oxytetracycline, oxytetracycline hydrochloride, and carbomycin used in making the batch.

(2) Except as otherwise provided by subparagraph (4) of this paragraph, such person shall submit in connection with his request results of the tests and assays listed after each of the following, made by him on an accurately representative sample of:

(i) The batch: Potency and moisture.

(ii) The penicillin used in making the batch: Potency, toxicity, moisture, pH, crystallinity, and heat stability.

(iii) The streptomycin or dihydrostreptomycin used in making the batch: Potency, toxicity, moisture, pH, streptomycin content if it is dihydrostreptomycin, and crystallinity if it is crystalline dihydrostreptomycin sulfate.

(iv) The polymyxin used in making the batch: Potency and toxicity.

(v) The oxytetracycline and oxytetracycline hydrochloride used in making the batch: Potency, moisture, toxicity, pH, and crystallinity.

(vi) The carbomycin used in making the batch: Potency, moisture, toxicity, pH, and crystallinity.

(3) Except as otherwise provided by subparagraph (4) of this paragraph, such person shall submit in connection with his request, in the quantities hereinafter indicated, accurately representative samples of the following:

(i) The batch: 1 package for each 5,000 packages in the batch, but in no case less than 6 packages or more than 12 packages.

(ii) The penicillin used in making the batch: 10 packages each containing equal portions of not less than 60 milligrams.

(iii) The streptomycin or dihydrostreptomycin used in making the batch: 5 packages each containing approximately equal portions of not less than 0.5 gram.

(iv) The polymyxin used in making the batch: 5 packages each containing approximately equal portions of not less than 0.5 gram.

(v) The oxytetracycline used in making the batch: 5 packages of each salt used, each containing approximately equal portions of not less than 0.5 gram.

(vi) The carbomycin used in making the batch; 5 packages each containing approximately equal portions of not less than 0.5 gram.

(vii) In case of an initial request for certification, each other ingredient used in making the batch: 1 package of each containing approximately 5 grams.

(4) No result referred to in subparagraph (2) (ii), (iii), (iv), (v), and (vi) of this paragraph, and no samples referred to in subparagraph (3) (ii), (iii), (iv), (v), and (vi) of this paragraph, is required if such result or samples have been previously submitted.

(e) *Fees.* The fee for the services rendered with respect to each batch under the regulations in this part shall be:

(1) $4.00 for each package in the samples submitted in accordance with paragraph (d) (3) of this section.

(2) If the Commissioner considers that investigations other than examination of such packages are necessary to determine whether or not such batch complies with the requirements of § 146.3 of this chapter for the issuance of a certificate, the cost of such investigations.

The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d) of this chapter.

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371)

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

*Effective date.* This order shall be effective on the date of publication of this order in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Dated: June 15, 1956.

[SEAL] GEO. P. LARRICK,
*Commissioner of Food and Drugs.*

## TITLE 45—PUBLIC WELFARE

### Chapter I—Office of Education, Department of Health, Education and Welfare

PART 110—FEDERAL ASSISTANCE IN THE CONSTRUCTION OF MINIMUM SCHOOL FACILITIES UNDER TITLE III IN AREAS AFFECTED BY FEDERAL ACTIVITIES WITH RESPECT TO APPLICATIONS FILED AFTER JULY 15, 1955

FINAL DEADLINE FOR APPLICATIONS WITH RESPECT TO FUNDS AVAILABLE OR TO BE MADE AVAILABLE DURING FISCAL YEAR 1956

Subpart B of Part 110, 45 CFR (20 F. R. 7607, October 12, 1955) issued pursuant to title III (except sections 304 (b) and 308 (b) thereof) of Public Law 815, 81st Congress (64 Stat. 967) as added by Public Law 246, 83d Congress (67 Stat. 522) and as amended by Public Law 731, 83d Congress (68 Stat. 1005), and by Public Law 382, 84th Congress (69 Stat. 713), is hereby amended by inserting in § 110.21 the words, "or to be made available" immediately after the phrase "from funds then available," in order to provide for the possibility that funds appropriated after June 30, 1956, might become available to pay applications not reached on the priority list because of insufficient funds. The amended § 110.21 reads as follows:

§ 110.21 *Final deadline for applications with respect to funds available or to be made available during fiscal year 1956.* Pursuant to section 303 of the act, June 30, 1956, is fixed as the date on or before which all complete applications for payments to which applicants may be entitled under title III (except sections 304 (b) and 308 (b) thereof) from funds then available or to be made available shall be filed. Complete applications heretofore filed in compliance with the act since June 30, 1954, and for which funds have not been reserved shall be considered as filed for the purposes of this section subject to the right of the applicant to modify or amend the same on or before June 30, 1956. Payments under section 304 (b) will be made upon request of the local educational agency filed within 90 days after the date on which funds are appropriated to make such payments.

(Sec. 208, 64 Stat. 975; 20 U. S. C. 278)

[SEAL] S. M. BROWNELL,
*United States Commissioner of Education.*

Approved: June 15, 1956.

HEROLD C. HUNT,
*Acting Secretary of Health, Education and Welfare.*

# PROPOSED RULE MAKING

## DEPARTMENT OF THE TREASURY

### Internal Revenue Service

### [ 26 CFR (1954) Part 1 ]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 1, 1953

RESEARCH AND EXPERIMENTAL EXPENDITURES

Notice is hereby given, pursuant to the Admnistrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 174 (b) and 7805 of the Internal Revenue Code of 1954 (68A Stat. 66, 917; 26 U. S. C. 174 (b), 7805).

[SEAL] RUSSELL C. HARRINGTON,
*Commissioner of Internal Revenue.*

The following regulations relating to research and experimental expenditures are hereby promulgated under section 174 of the Internal Revenue Code of 1954, and are effective for taxable years beginning after December 31, 1953, and ending after August 16, 1954, except that the regulations under section 174 (b) are effective for any taxable year beginning after December 31, 1953:

Sec.
1.174 Statutory provisions; research and experimental expenditures.
1.174–1 Research and experimental expenditures; in general.
1.174–2 Definition of research and experimental expenditures.
1.174–3 Treatment as expenses.
1.174–4 Treatment as deferred expenses.

§ 1.174 *Statutory provisions; research and experimental expenditures.*

SEC. 174. *Research and experimental expenditures*—(a) *Treatment as expenses*—(1) *In general.* A taxpayer may treat research or experimental expenditures which are paid or incurred by him during the taxable year in connection with his trade or business as expenses which are not chargeable to capital account. The expenditures so treated shall be allowed as a deduction.

(2) *When method may be adopted*—(A) *Without consent.* A taxpayer may, without the consent of the Secretary or his delegate, adopt the method provided in this subsection for his first taxable year—

(i) Which begins after December 31, 1953, and ends after the date on which this title is enacted, and

(ii) For which expenditures described in paragraph (1) are paid or incurred.

(B) *With consent.* A taxpayer may, with the consent of the Secretary or his delegate, adopt at any time the method provided in this subsection.

(3) *Scope.* The method adopted under this subsection shall apply to all expenditures described in paragraph (1). The method adopted shall be adhered to in computing taxable income for the taxable year and for all subsequent taxable years unless, with the approval of the Secretary or his delegate, a change to a different method is authorized with respect to part or all of such expenditures.

(b) *Amortization of certain research and experimental expenditures*—(1) *In general.* At the election of the taxpayer, made in accordance with regulations prescribed by the Secretary or his delegate, research or experimental expenditures which are—

(A) Paid or incurred by the taxpayer in connection with his trade or business,

(B) Not treated as expenses under subsection (a), and

(C) Chargeable to capital account but not chargeable to property of a character which is subject to the allowance under section 167 (relating to allowance for depreciation, etc.) or section 611 (relating to allowance for depletion),

may be treated as deferred expenses. In computing taxable income, such deferred expenses shall be allowed as a deduction ratably over such period of not less than 60 months as may be selected by the taxpayer (beginning with the month in which the taxpayer first realizes benefits from such expenditures). Such deferred expenses are expenditures properly chargeable to capital account for purposes of section 1016 (a) (1) (relating to adjustments to basis of property).

(2) *Time for and scope of election.* The election provided by paragraph (1) may be made for any taxable year beginning after December 31, 1953, but only if made not later than the time prescribed by law for filing the return for such taxable year (including extensions thereof). The method so elected, and the period selected by the taxpayer, shall be adhered to in computing taxable income for the taxable year for which the election is made and for all subsequent taxable years unless, with the approval of the Secretary or his delegate, a change to a different method (or to a different period) is authorized with respect to part or all of such expenditures. The election shall not apply to any expenditure paid or incurred during any taxable year before the taxable year for which the taxpayer makes the election.

(c) *Land and other property.* This section shall not apply to any expenditure for the acquisition or improvement of land, or for the acquisition or improvement of property to be used in connection with the research or experimentation and of a character which is subject to the allowance under section 167 (relating to allowance for depreciation, etc.) or section 611 (relating to allowance for depletion); but for purposes of this section allowances under section 167, and allowances under section 611, shall be considered as expenditures.

(d) *Exploration expenditures.* This section shall not apply to any expenditure paid or incurred for the purpose of ascertaining the existence, location, extent, or quality of any deposit of ore or other mineral (including oil and gas).

(e) *Cross reference.* For adjustments to basis of property for amounts allowed as deductions as deferred expenses under subsection (b), see section 1016 (a) (14).

§ 1.174–1 *Research and experimental expenditures; in general.* Section 174 provides two methods for treating research or experimental expenditures paid or incurred by the taxpayer in connection with his trade or business. These expenditures may be treated as expenses not chargeable to capital account and deducted in the year in which they are paid or incurred (see § 1.174–3), or they may be deferred and amortized (see § 1.174–4). Research or experimental expenditures which are neither treated as expenses nor deferred and amortized under section 174 are not deductible as trade and business expenses under section 162. The expenditures to which section 174 applies may relate either to a general research program or to a particular project. See § 1.174–2 for the definition of research and experimental expenditures. The term "paid or incurred", as used in section 174 and in §§ 1.174–1 to 1.174–4, inclusive, is to be construed according to the method of accounting used by the taxpayer in computing taxable income. See section 7701 (a) (25).

§ 1.174–2 *Definition of research and experimental expenditures*—(a) *In general.* The term "research or experimental expenditures", as used in section 174, means expenditures incurred in connection with the taxpayer's trade or business which are not deductible under any other provision of the internal revenue laws and which represent research and development costs in the experimental or laboratory sense. The term includes generally all such costs incident to the development of an experimental or pilot model, a plant process, a product, a formula, an invention, or similar property, and the improvement of already existing property of the type mentioned. The term does not include, for example, ordinary trade or business expenses (such as expenditures for the ordinary testing or inspection of materials or products for quality control) or expenditures for efficiency surveys, management studies, consumer surveys, and advertising and promotions; nor does it include expenditures leading toward the creation or acquisition of goodwill, or like expenditures. Furthermore, the term does not include the cost of obtaining a patent or copyright, such as legal fees expended in making and perfecting a patent application; nor does it include the cost of acquiring another's patent, copyright, model, product, or process, or expenditures paid or incurred for research connected with literary, historical, or similar projects. The provisions of this section apply not only to costs paid or incurred by the taxpayer for research or experimentation undertaken directly by him but also to expenditures paid or incurred for research or experimentation carried on in his behalf by another person or organization (such as a research institute, foundation, engineering company, or similar contractor), but only to the extent that the activities for which the expenditures are made are of a type which would in general result in expenditures under section 174 if they had been undertaken directly by the taxpayer.

(b) *Certain expenditures with respect to land and other property.* (1) Generally, expenditures by the taxpayer for the acquisition or improvement of land, or for the acquisition or improvement of property which is subject to an allowance for depreciation under section 167 or depletion under section 611, are not deductible under section 174, irrespective of the fact that the property or improvements may be used by the taxpayer in connection with research or experimentation. However, alowances for depreciation or depletion of property are considered as research or experimental expenditures which may be amortized under section 174 (b) to the extent that the property to which the allowances relate is used in connection with research or experimentation. If any part of the cost of acquisition or improvement of depreciable property is attributable to research or experimentation (whether made by the taxpayer or another), see subparagraphs (2), (3), and (4) of this paragraph.

(2) Expenditures for research or experimentation may be allowable as a current expense deduction under section 174 (a) even though they result, as an end product of the research or experimentation, in depreciable property to be used in the taxpayer's trade or business. Such expenditures cannot be amortized under section 174 (b) except to the extent provided in § 1.174–4 (a) (4).

(3) If expenditures for research or experimentation are incurred in connection with the construction or manufacture of depreciable property by another, they are deductible under section 174 (a) only if made upon the taxpayer's order and at his risk. No deduction will be allowed (i) if the taxpayer purchases another's product under a performance guarantee (whether express, implied, or imposed by local law) unless the guarantee is limited, to engineering specifications or otherwise, in such a way that economic utility is not taken into account; or (ii) for any part of the purchase price of a product in regular production. For example, if a taxpayer orders a specially-built automatic milling machine under a guarantee that the machine will be capable of producing a given number of units per hour, no portion of the expenditure is deductible since none of it is made at the taxpayer's risk. Similarly, no deductible expense is incurred if a taxpayer enters into a contract for the construction of a new type of chemical processing plant under a turn-key contract guaranteeing a given annual production and a given consumption of raw material and fuel per unit. On the other hand, if the contract contained no guarantee of quality of production and of quantity of units in relation to consumption of raw material and fuel, and if real doubt existed as to the capabilities of the process, expenses for research or experimentation under the contract are at the taxpayer's risk and are deductible under section 174 (a).

(4) The deductions referred to in subparagraphs (2) and (3) of this paragraph for expenditures in connection with the acquisition or production of depreciable property to be used in the taxpayer's trade or business are limited to amounts expended for research or experimentation. For the purpose of the preceding sentence, amounts expended for research or experimentation do not include the costs of the component materials of the depreciable property, the costs of labor or other elements involved in its construction and installation, or costs attributable to the acquisition or improvement of the property.

(c) *Exploration expenditures.* The provisions of section 174 are not applicable to any expenditures paid or incurred for the purpose of ascertaining the existence, location, extent, or quality of any deposit of ore, oil, gas or other mineral. See sections 615 and 263.

§ 1.174–3 *Treatment as expenses*—(a) *In general.* Research or experimental expenditures paid or incurred by a taxpayer during the taxable year in connection with his trade or business are deductible as expenses, and are not chargeable to capital account, if the taxpayer adopts the method provided in section 174 (a). See paragraph (b) of this section. If adopted, the method shall apply to all research and experimental expenditures paid or incurred in the taxable year of adoption and all subsequent taxable years, unless a different method is authorized by the Commissioner under section 174 (a) (3) with respect to part or all of the expenditures. See paragraph (b) (3) of this section. Thus, if a change to the deferred expense method under section 174 (b) is authorized by the Commissioner with respect to research or experimental expenditures attributable to a particular project or projects, the taxpayer, for the taxable year of the change and for subsequent taxable years, must apply the deferred expense method to all such expenditures paid or incurred during any of those taxable years in connection with the particular project or projects, even though all other research and experimental expenditures are required to be deducted as current expenses under this section. In no event will the taxpayer be permitted to adopt the method described in this section as to part of the expenditures relative to a particular project and adopt a different method of treating the

balance of the expenditures relating to the same project.

(b) *Adoption and change of method*—(1) *Adoption without consent.* The method described in this section may be adopted for any taxable year beginning after December 31, 1953, and ending after August 16, 1954. The consent of the Commissioner is not required if the taxpayer adopts the method for the first such taxable year in which he pays or incurs research or experimental expenditures. The taxpayer may do so by stating in his income tax return that he is adopting the method of treating research or experimental expenditures as expenses under section 174 (a). If the taxpayer fails to adopt the method for the first taxable year in which he incurs such expenditures, he cannot do so in subsequent taxable years unless he obtains the consent of the Commissioner under section 174 (a) (2) (B) and subparagraph (2) of this paragraph. See, however, subparagraph (4) of this paragraph, relating to extensions of time.

(2) *Adoption with consent.* A taxpayer may, with the consent of the Commissioner, adopt at any time the method provided in section 174 (a). The method adopted in this manner shall be applicable only to expenditures paid or incurred during the taxable year for which the request is made and in subsequent taxable years. A request to adopt this method shall be in writing and shall be addressed to the Commissioner of Internal Revenue, Attention: T:R, Washington 25, D. C. The request shall set forth the name and address of the taxpayer, the first taxable year for which the adoption of the method is requested, and a description of the project or projects with respect to which research or experimental expenditures are to be, or have already been, paid or incurred. The request shall be signed by the taxpayer (or his duly authorized representative) and shall be filed not later than the last day of the first taxable year for which the adoption of the method is requested. See, however, subparagraph (4) of this paragraph, relating to extensions of time.

(3) *Change of method.* An application for permission to change to a different method of treating research or experimental expenditures shall be in writing and shall be addressed to the Commissioner of Internal Revenue, Attention: T:R, Washington 25, D. C. The application shall include the name and address of the taxpayer, shall be signed by the taxpayer (or his duly authorized representative), and shall be filed not later than the last day of the first taxable year for which the change in method is to apply. See, however, subparagraph (4) of this paragraph, relating to extensions of time. The application shall—

(i) State the first year to which the requested change is to be applicable;

(ii) State whether the change is to apply to all research or experimental expenditures paid or incurred by the taxpayer, or only to expenditures attributable to a particular project or projects;

(iii) Include such information as will identify the project or projects to which the change is applicable;

(iv) Indicate the number of months (not less than 60) selected for amortization of the expenditures, if any, which are to be treated as deferred expenses under section 174 (b);

(v) State that, upon approval of the application, the taxpayer will make an accounting segregation on his books and records of the research or experimental expenditures to which the change in method is to apply; and

(vi) State the reasons for the change. If permission is granted to make the change, the taxpayer shall attach a copy of the letter granting permission to his income tax return for the first taxable year in which the different method is effective.

(4) *Special rules.* If the last day prescribed by law for filing a return for any taxable year (including extensions thereof) to which section 174 (a) is applicable falls before the ninetieth day after the date the regulations under section 174 are published in the FEDERAL REGISTER, consent is hereby given for the taxpayer to adopt the expense method or to change from the expense method to a different method, provided that on or before such ninetieth day he submits to the district director for the district in which the return was filed the information required by subparagraph (1) of this paragraph or the information required by subparagraph (3) of this paragraph, whichever is applicable. For any taxable year for which the expense method or a different method is adopted pursuant to this subparagraph, an amended return reflecting such method shall be filed on or before such ninetieth day.

§ 1.174–4 *Treatment as deferred expenses*—(a) *In general.* (1) If a taxpayer has not adopted the method provided in section 174 (a) of treating research or experimental expenditures paid or incurred by him in connection with his trade or business as currently deductible expenses, he may, for any taxable year beginning after December 31, 1953, elect to treat such expenses as deferred expenses under section 174 (b), subject to the limitations of subparagraph (2) of this paragraph. If a taxpayer has adopted the method of treating such expenditures as expenses under section 174 (a), he may not elect to defer and amortize any such expenditures unless permission to do so is granted under section 174 (a) (3). See paragraph (b) of this section.

(2) The election to treat research or experimental expenditures as deferred expenses under section 174 (b) applies only to those expenditures which are chargeable to capital account but which are not chargeable to property of a character subject to an allowance for depreciation or depletion under section 167 or 611, respectively. Thus, the election under section 174 (b) applies only if the property resulting from the research or experimental expenditures has no determinable useful life. If the property resulting from the expenditures has a determinable useful life, section 174 (b) is not applicable, and the capitalized expenditures must be amortized or depreciated over the determinable useful life. Amounts treated as deferred expenses are properly chargeable to capital account for purposes of section 1016 (a) (1), relating to adjustments to basis of property. See section 1016 (a) (14). See section 174 (c) and § 1.174–2 (b) (1) for treatment of expenditures for the acquisition or improvement of land or of depreciable or depletable property to be used in connection with the research or experimentation.

(3) Expenditures which are treated as deferred expenses under section 174 (b) are allowable as a deduction ratably over a period of not less than 60 consecutive months beginning with the month in which the taxpayer first realizes benefits from the expenditures. The length of the period shall be selected by the taxpayer at the time he makes the election to defer the expenditures. If a taxpayer has two or more separate projects, he may select a different amortization period for each project. In the absence of a showing to the contrary, the taxpayer will be deemed to have begun to realize benefits from the deferred expenditures in the month in which the taxpayer first puts the process, formula, invention, or similar property to which the expenditures relate to an income-producing use. See section 1016 (a) (14) for adjustments to basis of property for amounts allowed as deductions under section 174 (b) and this section. See section 165 and the regulations thereunder for rules relating to the treatment of losses resulting from abandonment.

(4) If expenditures which the taxpayer has elected to defer and deduct ratably over a period of time in accordance with section 174 (b) result in the development of depreciable property, deductions for the unrecovered expenditures, beginning with the time the asset becomes depreciable in character, shall be determined under section 167 (relating to depreciation) and the regulations thereunder. For example, for the taxable year 1954, A, who reports his income on the basis of a calendar year, elects to defer and deduct ratably over a period of 60 months research and experimental expenditures made in connection with a particular project. In 1956, the total of the deferred expenditures amounts to $60,000. At that time, A has developed a process which he seeks to patent. On July 1, 1956, A first realized benefits from the marketing of products resulting from this process. Therefore, the expenditures deferred are deductible ratably over the 60-month period beginning with July 1, 1956 (when A first realized benefits from the project). In his return for the year 1956, A deducted $6,000; in 1957, A deducted $12,000 ($1,000 per month). On July 1, 1958, a patent protecting his process is obtained by A. In his return for 1958, A is entitled to a deduction of $6,000, representing the amortizable portion of the deferred expenses attributable to the period prior to July 1, 1958. The balance of the unrecovered expenditures ($60,000 minus $24,000, or $36,000) is to be recovered as a depreciation deduction over the life of the patent commencing with July 1, 1958. Thus, one-half of the annual depreciation deduction based upon the useful life of the patent is also

deductible for 1958 (from July 1 to December 31).

(5) The election shall be applicable to all research and experimental expenditures paid or incurred by the taxpayer or, if so limited by the taxpayer's election, to all such expenditures with respect to the particular project, subject to the limitations of subparagraph (2) of this paragraph. The election shall apply for the taxable year for which the election is made and for all subsequent taxable years, unless a change to a different treatment is authorized by the Commissioner under section 174 (b) (2). See paragraph (b) (2) of this section. Likewise, the taxpayer shall adhere to the amortization period selected at the time of the election unless a different period of amortization with respect to a part or all of the expenditures is similarly authorized. However, no change in method will be permitted with respect to expenditures paid or incurred before the taxable year to which the change is to apply. In no event will the taxpayer be permitted to treat part of the expenditures with respect to a particular project as deferred expenses under section 174 (b) and to adopt a different method of treating the balance of the expenditures relating to the same project for the same taxable year. The election under this section shall not apply to any expenditures paid or incurred before the taxable year for which the taxpayer makes the election.

(b) *Election and change of method*—(1) *Election.* The election under section 174 (b) shall be made not later than the time (including extensions) prescribed by law for filing the return for the taxable year for which the method is to be adopted. The election shall be made by attaching a statement to the taxpayer's return for the first taxable year to which the election is applicable. The statement shall be signed by the taxpayer (or his duly authorized representative), and shall—

(i) Set forth the name and address of the taxpayer;

(ii) Designate the first taxable year to which the election is to apply;

(iii) State whether the election is intended to apply to all expenditures within the permissible scope of the election, or only to a particular project or projects, and, if the latter, include such information as will identify the project or projects as to which the election is to apply;

(iv) Set forth the amount of all research or experimental expenditures paid or incurred during the taxable year for which the election is made;

(v) Indicate the number of months (not less than 60) selected for amortization of the deferred expenses for each project; and

(vi) State that the taxpayer will make an accounting segregation in his books and records of the expenditures to which the election relates.

(2) *Change to a different method or period.* Application for permission to change to a different method of treating research or experimental expenditures or to a different period of amortization for deferred expenses shall be in writing and shall be addressed to the Commissioner of Internal Revenue, Attention: T:R, Washington 25, D. C. The application shall include the name and address of the taxpayer, shall be signed by the taxpayer (or his duly authorized representative), and shall be filed not later than the end of the first taxable year in which the different method or different amortization period is to be used (unless subparagraph (3) of this paragraph, relating to extensions of time, is applicable). The application shall set forth the following information with regard to the research or experimental expenditures which are being treated under section 174 (b) as deferred expenses:

(i) Total amount of research or experimental expenditures attributable to each project;

(ii) Amortization period applicable to each project; and

(ii) Unamortized expenditures attributable to each project at the beginning of the taxable year in which the application is filed.

In addition, the application shall set forth the length of the new period or periods proposed, or the new method of treatment proposed, the reasons for the proposed change, and such information as will identify the project or projects to which the expenditures affected by the change relate. If permission is granted to make the change, the taxpayer shall attach a copy of the letter granting the permission to his income tax return for the first taxable year in which the different method or period is to be effective.

(3) *Special rules.* If the last day prescribed by law for filing a return for any taxable year for which the deferred method provided in section 174 (b) has been adopted falls before the ninetieth day after the date the regulations under section 174 are published in the FEDERAL REGISTER, consent is hereby given for the the taxpayer to change from such method and adopt a different method of treating research or experimental expenditures, provided that on or before such ninetieth day he submits to the district director for the district in which the return was filed the information required by subparagraph (2) of this paragraph, relating to a change to a different method or period. For any taxable year for which the different method is adopted pursuant to this subparagraph, an amended return reflecting such method shall be filed on or before such ninetieth day.

(c) *Transferee taxpayers.* Amounts chargeable to capital account under section 174 (b) and reflected in the basis (determined under section 1016 (a)) of property transferred to another taxpayer succeeding to the transferor's basis shall be allowed as a deduction to the transferee ratably over the period (or remaining period) selected by the transferor in his election under section 174 (b). The transferee may, with the permission of the Commissioner, change to a different method, or to a different period of amortization, but may not change the method of treating expenditures paid or incurred before the taxable year to which the change is to apply. See paragraph (b) (2) of this section.

(d) *Example.* The application of this section is illustrated by the following example:

*Example.* N Corporation is engaged in the business of manufacturing chemical products. On January 1, 1955, work is begun on a special research project. N Corporation elects, pursuant to section 174 (b), to defer the expenditures relating to the special project and to amortize the expenditures over a period of 72 months beginning with the month in which benefits from the expenditures are first realized. On January 1, 1955, N Corporation also purchased for $57,600 a building having a remaining useful life of 12 years as of the date of purchase and no salvage value at the end of the period. Fifty percent of the building's facilities are to be used in connection with the special research project. During 1955, N Corporation pays or incurs the following expenditures relating to the special research project:

| | |
|---|---|
| Salaries | $15,000 |
| Heat, light and power | 700 |
| Drawings | 2,000 |
| Models | 6,500 |
| Laboratory materials | 8,000 |
| Attorneys' fees | 1,400 |
| Depreciation on building attributable to project (50 percent of $4,800 allowable depreciation) | 2,400 |
| Total research and development expenditures | 36,000 |

The above expenditures result in a process which is marketable but not patentable and which has no determinable useful life. N Corporation first realizes benefits from the process in January 1956. N Corporation is entitled to deduct the amount of $6,000 ($\frac{\$36,000 \times 12 \text{ months}}{72 \text{ months}}$) as deferred expenses under section 174 (b) in computing taxable income for 1956.

[F. R. Doc. 56–4890; Filed, June 20, 1956; 8:52 a. m.]

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### [ 7 CFR Part 52 ]

### FROZEN SWEET PEPPERS[1]

### UNITED STATES STANDARDS FOR GRADES

Notice is hereby given that the United States Department of Agriculture is considering the issuance of United States Standards for Grades of Frozen Sweet Peppers pursuant to the authority contained in the Agricultural Marketing Act of 1946, (60 Stat. 1087 et seq., 7 U. S. C. 1621 et seq.). These standards, if made effective, will be the first issue by the Department of grade standards for this product.

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed standards should file the same with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, U. S. Department of Agriculture, Washington 25, D. C., not later than 60 days after publication hereof in the FEDERAL REGISTER.

[1] Compliance with these standards does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

The proposed standards are as follows:

PRODUCT DESCRIPTION, STYLES, AND GRADES

Sec.
52.3001 Product description.
52.3002 Types of frozen sweet peppers.
52.3003 Styles of frozen sweet peppers.
52.3004 Grades of frozen sweet peppers.

FACTORS OF QUALITY

52.3005 Ascertaining the grade.
52.3006 Ascertaining the rating for the factors which are scored.
52.3007 Color.
52.3008 Uniformity of size and symmetry.
52.3009 Defects.
52.3010 Character.

LOT CERTIFICATION TOLERANCES

52.3011 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.3012 Score sheet for frozen sweet peppers.

AUTHORITY: §§ 52.3001 to 52.3012 issued under sec. 205, 60 Stat. 1090, as amended; 7 U. S. C. 1624.

PRODUCT DESCRIPTION, STYLES, AND GRADES

§ 52.3001 *Product description.* "Frozen sweet peppers" is the frozen product prepared from fresh, clean, sound, firm pods of the common commercial varieties of sweet peppers, which have been properly prepared, may or may not be blanched and are then frozen in accordance with good commercial practice and maintained at temperatures necessary for the preservation of the product.

§ 52.3002 *Types of frozen sweet peppers.* (a) Type I, green.

(b) Type II, red.

(c) Type III, mixed (green and red).

§ 52.3003 *Styles of frozen sweet peppers.* (a) "Whole stemmed" means whole unpeeled pepper pods with stem and core removed.

(b) "Whole unstemmed" means whole unpeeled pepper pods with stems trimmed to not more than ½ inch length.

(c) "Halved" means whole stemmed, unpeeled, pepper pods which have been cut approximately in half from stem to blossom end.

(d) "Sliced" means whole stemmed, unpeeled pepper pods or pieces of pepper pods which have been cut into strips.

(e) "Diced" means whole stemmed, unpeeled pepper pods or pieces of pepper pods which have been cut into approximate square pieces.

(f) "Unit" means a whole unpeeled pepper pod or portion of a pepper pod in frozen sweet peppers.

§ 52.3004 *Grades of frozen sweet peppers.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of frozen sweet peppers that possess similar varietal characteristics; that possess a normal flavor; that possess a good color; that are practically uniform in size and symmetry; that are practically free from defects; that possess a good character; and for those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 85 points: *Provided*, That the frozen sweet peppers may be reasonably uniform in size and symmetry if the total score is not less than 85 points.

(b) "U. S. Grade B" or "U. S. Extra Standard" is the quality of frozen sweet peppers that possess similar varietal characteristics; that possess a normal flavor; that possess a reasonably good color; that are reasonably uniform in size and symmetry; that are reasonably free from defects; that possess a reasonably good character; and that score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality of frozen sweet peppers that fail to meet the requirements of U. S. Grade B or U. S. Extra Standard.

FACTORS OF QUALITY

§ 52.3005 *Ascertaining the grade.*—(a) *General.* In addition to considering other requirements outlined in the standards the following quality factors are evaluated:

(1) *Factors not rated by score points.*

(i) Varietal characteristics.

(ii) Flavor.

(2) *Factors rated by score points.* The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

| Factors: | Points |
|---|---|
| Color | 20 |
| Uniformity of size and symmetry | 20 |
| Defects | 30 |
| Character | 30 |
| Total score | 100 |

The evaluation of the factor of quality is made immediately after thawing to the extent that the product is substantially free from ice crystals and can be handled as individual units.

(b) *Normal flavor.* "Normal flavor" means that the product is free from objectionable flavor and objectionable odors of any kind.

§ 52.3006 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive. (For example, "27 to 30 points" means 27, 28, 29, or 30 points).

§ 52.3007 *Color.*—(a) *General.* The color of frozen sweet peppers has reference to the predominating and characteristic color of the exterior surface of the units of frozen sweet peppers.

(b) (*A*) *classification.* Frozen sweet peppers that possess a good color may be given a score of 17 to 20 points. "Good color" means a good characteristic bright color for the type and that variation from the predominating color of the type does not materially effect the appearance of the product.

(c) (*B*) *classification.* Frozen sweet peppers that possess a reasonably good color a score of 14 to 16 points may be given. Frozen sweet peppers that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means a reasonably bright characteristic color for the type and that variation from the predominating color of the type does not seriously affect the appearance of the product.

(d) (*SStd.*) *classification.* Frozen sweet peppers that fail to meet the requirements of paragraph (c) of this section or are definitely off color for any reason may be given a score of 0 to 13 points and shall not be graded above Substandard regardless of the total score for the product (this is a limiting rule).

§ 52.3008 *Uniformity of size and symmetry.*—(a) *General.* Uniformity of size and symmetry refers to the degree of variation in size and symmetry of the units in the respective styles of frozen sweet peppers.

(b) (*A*) *classification.* Frozen sweet peppers that are practically uniform in size and symmetry may be given a score of 17 to 20 points. "Practically uniform in size and symmetry" has the following meanings with respect to the following styles of frozen sweet peppers:

(1) *Whole stemmed; whole unstemmed; halved.* Not less than 90 percent, by count, of the pods shall be at least 2½ inches in length, exclusive of the stem, and 2½ inches in diameter and shall be practically uniform in size and symmetry.

(2) *Sliced.* The units are practically uniform in size and the aggregate weight of all strips less than 1¼ inches in length does not exceed 20 percent, by weight, of all the units.

(3) *Diced.* The units are practically uniform in size and the aggregate weight of all the units which are noticeably smaller than one-half the area of an average sized unit and of all markedly large and irregular-shaped units does not exceed 10 percent, by weight, of all the units.

(c) (*B*) *classification.* If the frozen sweet peppers are reasonably uniform in size and symmetry a score of 14 to 16 points may be given. "Reasonably uniform in size and symmetry" has the following meanings with respect to the following styles of frozen sweet peppers:

(1) *Whole stemmed; whole unstemmed; halved.* Not less than 80 percent, by count, of the pods shall be at least 2½ inches in length, exclusive of the stem, and 2½ inches in diameter and shall be reasonably uniform in size and symmetry.

(2) *Sliced.* The units are reasonably uniform in size and the aggregate weight of all strips less than 1¼ inches in length does not exceed 30 percent, by weight, of all the units.

(3) *Diced.* The units are reasonably uniform in size and the aggregate weight of all units which are noticeably smaller than one-half the area of an average sized unit and of all markedly large and irregular-shaped units does not exceed 20 percent, by weight, of all the units.

(d) (*SStd.*) *classification.* Frozen sweet peppers that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard regardless of the total score for the product (this is a limiting rule).

§ 52.3009 *Defects.*—(a) *General.* The factor of defects refers to the freedom from grit, sand, or silt; the trimming; and damaged and seriously damaged units.

(1) "Grit, sand, or silt" means any particle of earthy material.

(2) "Well trimmed" means that the unit is free from gouges or knife marks and with respect to whole untrimmed style that the stem is trimmed to not more than one-half inch and with respect to whole trimmed and halved styles that the stem, core, seeds and placenta tissue are neatly removed so as to retain substantially the appearance of a whole or halved unit.

(3) "Reasonably well trimmed" means that the unit is practically free from gouges or knife marks and with respect to whole untrimmed style that the stem is trimmed to not more than one-half inch and with respect to whole trimmed and halved styles the stem, core, seeds and placenta tissue have been removed so as to retain to a reasonable extent the appearance of a whole or halved unit.

(4) "Damage" means any injury or blemish which materially affects the appearance or eating quality of the unit.

(5) "Serious damage" means any injury or blemish which seriously affects the appearance or eating quality of the unit.

(b) (*A*) *classification.* Frozen sweet peppers that are practically free from defects may be given a score of 26 to 30 points. "Practically free from defects" means that the pods in whole unstemmed, whole stemmed, and halved styles are well trimmed; that no grit, sand, or silt may be present that affects the appearance and eating quality; and that damaged and seriously damaged units do not materially affect the appearance and eating quality of the product.

(c) (*B*) *classification.* Frozen sweet peppers that are reasonably free from defects may be given a score of 21 to 25 points. Frozen sweet peppers that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that the pods in whole unstemmed, whole stemmed and halved styles are reasonably well trimmed; that no grit, sand or silt may be present that affects the appearance or eating quality; and that damaged and seriously damaged units do not seriously affect the appearance and eating quality of the product.

(d) (*SStd.*) *classification.* Frozen sweet peppers that fail to meet the requirements of paragraph (e) of this section may be given a score of 0 to 20 points and shall not be graded above Substandard regardless of the total score for the product (this is a limiting rule).

§ 52.3010 *Character.*—(a) (*A*) *classification.* Frozen sweet peppers that possess a good character may be given a score of 25 to 30 points. "Good character" means that the units are firm, full fleshed and tender.

(b) (*B*) *classification.* If the frozen sweet peppers possess a reasonably good character a score of 21 to 24 points may be given. Frozen sweet peppers that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard regardless of the total score for the product (this is a limiting rule). "Reasonably good character" means that the units are reasonably full fleshed, may lack firmness but are not soft or mushy.

(c) (*SStd.*) *classification.* Frozen sweet peppers that fail to meet the requirements of paragraph (b) of this section may be given a score of 0 to 20 points and shall not be graded above Substandard regardless of the total score for the product (this is a limiting rule).

LOT CERTIFICATION TOLERANCES

§ 52.3011 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of frozen sweet peppers the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if, (1) such containers meet all of the applicable grade requirements of the factors of quality that are not rated by score points; (2) all containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification; and (3) with respect to those factors which are rated by score points:

(i) Not more than one-sixth of the containers fails to meet the grade indicated by the average of such total scores;

(ii) None of the containers falls more than four points below the minimum score for the grade indicated by the average of such total scores;

(iii) None of the containers falls more than one grade below the grade indicated by the average of such total scores; and

(iv) The average score of all containers for any factor subject to a limiting rule is within the score range of that factor for the grade indicated by the average of the total scores of the containers comprising the sample.

SCORE SHEET

§ 52.3012 *Score sheet for frozen sweet peppers.*

Size and kind of container _____
Container mark or identification _____
Label _____
Net weight (ounces) _____
Type _____
Style _____
Count of peppers (whole, halved) _____

| Factors | Score points | |
|---|---|---|
| Color | 20 | (A) 17–20<br>(B) [1] 14–16<br>(SStd.) [1] 0–13 |
| Uniformity of size and symmetry | 20 | (A) 17–20<br>(B) 14–16<br>(SStd.) [1] 0–13 |
| Defects | 30 | (A) 26–30<br>(B) [1] 21–25<br>(SStd.) [1] 0–20 |
| Character | 30 | (A) 25–30<br>(B) [1] 21–24<br>(SStd.) [1] 0–20 |

## CIVIL AERONAUTICS BOARD

[ 14 CFR Part 41 ]

CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE CONTINENTAL LIMITS OF UNITED STATES

NOTICE OF INSTITUTION OF RULE MAKING PROCEEDING

Notice is hereby given that the Bureau of Safety Regulation is instituting rule making proceedings by circulating Civil Air Regulations Draft Release No. 56–17 to persons on the Bureau's current distribution list. Other interested persons may secure a copy of this draft release upon request made to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C.

This draft release proposes a general revision of Part 41 of the Civil Air Regulations, Certification and Operation Rules for Scheduled Air Carrier Operations Outside the Continental Limits of the United States. This proposal is being circulated as the first step in the rule making process in the hope that it will serve to narrow or eliminate the areas of substantive difference between interested persons as to the adequacy or the desirability of the proposed rules.

The Bureau desires that all persons who will be affected by the requirements of this proposal be given an opportunity to participate in the consideration of these rules and to submit such comment as they may desire not only in the final rule making stage, but throughout the entire rule making process. Draft Release No. 56–17 requires that comment be submitted on or before September 20, 1956. If the nature of the comment is such that a discussion between the Board's staff and interested members of the public would be of constructive assistance in the further development of the proposed rules, all interested parties will be invited to participate in such a discussion to be held in Washington, D. C. Notice of the time and place of such a meeting, together with advance documentation, will be circulated to persons who have signified their interest prior to September 20, 1956.

Since it is intended that these rules as finally evolved as a result of the foregoing procedure will be published in their entirety as a notice of proposed rule making, interested persons who do not care to participate in the rule making proceedings at this stage will have a further opportunity for commenting thereon.

The foregoing procedure is proposed under the authority of section 4 of the Administrative Procedure Act, and Title VI of the Civil Aeronautics Act of 1938, as amended.

(Sec. 205, 52 Stat. 984, 49 U. S. C. 425. Interpret or apply secs. 601–610, 52 Stat. 1007–1012, as amended, 49 U. S. C. 551–560)

Dated at Washington, D. C., June 12, 1956.

By the Bureau of Safety Regulation.

[SEAL] JOHN M. CHAMBERLAIN,
*Director.*

[F. R. Doc. 56-4897; Filed, June 20, 1956; 8:54 a. m.]

## CIVIL AERONAUTICS BOARD

[Docket No. 7336]

PAN AMERICAN WORLD AIRWAYS, INC.

POSTPONEMENT OF HEARING

In the matter of the application of Pan American World Airways, Inc., under section 401 of the Civil Aeronautics Act, as amended, for amendment of its certificate of public convenience and necessity authorizing air transportation between the United States, Europe, the Middle East and India, so as to include San Juan, Puerto Rico, as a coterminal, and for amendment of said certificate and of its certificate of public convenience and necessity authorizing air transportation between the United States and South Africa, so as to authorize service to Madrid, Spain.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, that the hearing in the above-entitled proceeding, now assigned to be held on June 25, 1956, is postponed to July 31, 1956, 10:00 a. m., e. d. s. t., in Room E-224, Temporary Building No. 5, Sixteenth Street and Constitution Avenue NW., Washington, D. C., before Examiner Leslie G. Donahue.

Dated at Washington, D. C., June 14, 1956.

[SEAL] FRANCIS W. BROWN,
*Chief Examiner.*

[F. R. Doc. 56-4896; Filed, June 20, 1956; 8:53 a. m.]

[Docket No. 8007]

MACKEY AIRLINES, INC. AND MIDET AVIATION CORP.; ACQUISITION CASE

NOTICE OF HEARING

In the matter of the joint application of Mackey Airlines, Inc. and Midet Aviation Corporation for approval of an agreement providing for the acquisition by Mackey of the business and assets of Midet and for approval of the transfer of Midet's certificate.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, that a hearing in the above-entitled proceeding will be held on June 26, 1956, at 10:00 a. m. (local time) in the Marlin Beach Hotel, 17 South Atlantic Boulevard, Fort Lauderdale, Florida, before Examiner Barron Fredricks.

Without limiting the scope of the issues presented by the application herein, particular attention will be directed to the following matters:

1. Whether the acquisition by Mackey Airlines, Inc. of the assets and business of Midet Aviation Corporation will result in creating a monopoly or restraining competition or jeopardizing another air carrier and whether such acquisition is consistent with the public interest within the meaning of section 408 of the act.

2. Whether the agreement of April 30, 1956, providing for such acquisition is consistent with the public interest and in compliance with the act.

# NOTICES

3. What terms and conditions, if any, should be attached to the Board's approval of such acquisition?

4. Whether the transfer of the certificate of public convenience and necessity held by Midet Aviation Corporation is consistent with the public interest.

For further details of the issues involved interested persons are referred to the application and the prehearing conference report contained in the docket of this proceeding.

Notice is further given that any person not a party of record desiring to be heard on the issues involved in this proceeding must file with the Board on or before June 26, 1956 a written statement setting forth the matters of fact or law which he desires to advance. Any person filing such a statement may appear at and participate in the hearing in accordance with Rule 14 of the Board's rules of practice in economic proceedings.

Dated at Washington, D. C., June 18, 1956.

[SEAL] FRANCIS W. BROWN,
*Chief Examiner.*

[F. R. Doc. 56-4895; Filed, June 20, 1956; 8:53 a. m.]

## DEPARTMENT OF DEFENSE

### Office of the Secretary of Defense

[DOD Directive Number 5160.11, May 3, 1956]

SINGLE MANAGER ASSIGNMENT FOR SUBSISTENCE

References: [1]

(a) Directive 4000.8, Basic Regulations for the Military Supply System, November 17, 1952.

(b) Directive 5160.12, Policies for Implementation of Single Manager Assignments, January 31, 1956.

(c) Directive 5160.11, Single Manager Commodity Assignment for Subsistence, November 4, 1955.

(d) Directive 7420.1, Regulations Governing Stock Fund Operations, February 1, 1954.

I. *Authority and purpose.* A. Pursuant to the authority vested in the Secretary of Defense by the National Security Act of 1947, as amended, a Single Manager Commodity Assignment is hereby directed within the Department of Defense with authority, functions, responsibilities, and relationships as set forth below, recognizing that the primary mission is to effectively support the military effort of the country.

B. The purposes and objectives of this assignment are:

1. To provide the most effective and economical means of supplying subsistence to the Armed Services.

2. To eliminate duplication and overlapping of effort between and among the military services.

3. To apply the basic pattern for all organizations performing a Single Manager support mission, as prescribed in reference (b) above, to the mission of supplying subsistence to the Armed Services.

[1] Not filed with Federal Register Division.

II. *Scope.* The Single Manager plan will be employed, as appropriate, for the management of Subsistence within the Continental United States, and may be extended to include operatons outside the Continental United States, when directed by the Secretary of Defense.

III. *Cancellation.* Reference (c) is superseded and cancelled on the effective date of this directive.

IV. *Definitions*—A. *Single Manager.* The Secretary of the military department who is designated by the Secretary of Defense to be responsible for the organization and operation of the Single Manager assignment for subsistence.

B. *Executive Director for Subsistence.* The individual designated by the Single Manager to manage the Single Manager operating agency for subsistence.

C. *Single Manager Operating Agency.* An organization which, under the direction of the Executive Director for Subsistence, shall direct and control all assigned functions of supply management for subsistence for all military services. It shall be titled the Military Subsistence Supply Agency.

D. *Adminstrative Committee.* A group designated to assist the Executive Director in identifying and overcoming problems concerning the operation of this assignment. The Committee shall be neither a policy board nor an executive directorate, but rather a group of specialists meeting to recommend solutions to particular problems and to promote the effectiveness and economy with which the Agency meets the needs of the military services. Its membership shall be as follows:

1. Executive Director, Chairman.

2. A representative each from the Army, Navy, Marine Corps, and the Air Force.

3. The Assistant Secretaries of Defense (Comptroller, and Supply and Logistics), or their representatives.

4. Such technical or professional personnel augmentations from the military services as the Single Manager determines to be necessary and as subsistence supply problems under consideration dictate.

E. *Administrative support.* The provision of personnel, space, equipment, facilities, and supplies, including the related budgeting, funding fiscal control, training, manpower control and utilization, personnel administration, security administration, mobilization planning, and other administrative provisions and services, necessary to carry out assigned missions.

F. *Subsistence.* All items classified under Group 89 in the Federal Supply Classification, except for Class 8965.

G. *Supply management of subsistence.* The exercise of direction and control of subsistence supply operations, including the functions of cataloging, standardization, net requirements determination, procurement, production, inspection, storage, distribution, disposal, transportation, maintenance, and mobilization planning.

H. *Single Manager stocks.* Subsistence acquired by and maintained in the wholesale distribution system, under the control and ownership of the Single Manager, down to but excluding retail stocks. This includes operating stocks and economic, contingency, and mobilization reserves.

I. *Single Manager Subsistence Stock Fund Division.* An administrative division of the Army Stock Fund established pursuant to Regulations Covering Operations of Stock Funds (DOD Directive 7420.1) to finance Single Manager subsistence stocks.

J. *Retail Subsistence Stock Fund Divisions or Categories.* The division or category established within each of the military departments stock funds to finance retail subsistence stocks.

K. *Wholesale distribution.* An area depot distribution system designed to distribute and issue subsistence in bulk quantities to the post, camp, station, or base level of all services. This distribution system shall employ the facilities best suited to the requirements of the area served, regardless of military service ownership.

L. *Retail stocks.* Subsistence not included in Single Manager stocks which is necessary to be held and controlled by individual military services for issue or resale to final consumers in performance of assigned missions, and which is not under the direct management of the Single Manager.

V. *Delegation of authorities and responsibilities.* A. The Secretary of the Department of the Army is hereby designated as the Single Manager for Subsistence, subject to over-all guidance, policies, and programs of the Office of the Secretary of Defense, with the responsibilities and authorities assigned under this Directive. Additions or deletions of specific items from the cognizance of the Single Manager will be authorized only by the Office of the Secretary of Defense. Requests for change may be initiated by a military service and shall be forwarded through the Single Manager, for his recommendation, to the Secretary of Defense.

B. As Single Manager for Subsistence, the primary responsibility of the Secretary of the Army shall be to effectively meet the supply support requirements of the military services in terms of centrally managed subsistence. He shall also be responsible for fulfilling other support responsibilities placed upon the Department of Defense for subsistence. He shall be responsible for utilization of all applicable portions of reference (b) except where such portions are specifically modified or amplified herein.

C. The Secretary of each military department shall be responsible for the administrative support of all installations and activities under his jurisdiction, including administrative support required to perform those functions assigned by the Single Manager. Military departments will furnish to the Single Manager complete data regarding administrative support costs incurred on the basis of missions assigned by the Single Manager. Such data shall be compiled on a comparable basis and, as soon as practicable, derived from a uniform expense classification and related to budget and apportionment requests.

D. The Secretary of each military department shall be responsible for requirements determination, for supply of subsistence to using elements at retail level, and for control of reserve stocks at levels below the wholesale distribution level. Departmental planned requirements will be submitted to the Military Subsistence Supply Agency on a cyclical basis, in accordance with policies and procedures established by the Assistant Secretary of Defense (Supply and Logistics).

E. The Secretary of each military department shall be responsible for full cooperation with the Single Manager in carrying out the provisions of the applicable portions of reference (b) and the provisions of this Directive.

VI. *Authorities and responsibilities of the Single Manager*—A. *Organization and management.* 1. Designate an Executive Director for Subsistence, subject to approval by the Secretary of Defense. The Executive Director shall have no other duties but to direct the operations of the Subsistence Supply Agency. The Executive Director shall be responsible to the Secretary of the Army through channels prescribed by that Secretary.

2. Establish and organize the Military Subsistence Supply Agency in accordance with reference (b) above, except as otherwise specifically modified herein.

3. The Agency shall be staffed by civilian personnel employed by the Department of the Army and by military personnel from all military services, as appropriate, not necessarily with equal representation. Positions within the Agency staff will be identified as military or civilian, based on criteria established by the Secretary of Defense. Key military staff positions subordinate to the Executive Director shall be subject to rotation on a periodic basis among the military services, as agreed to by the Single Manager and the Secretaries of the other two military departments, with due consideration being given to the qualifications of the individuals concerned and the career program needs of each military service. The Department of the Army will be responsible for providing the administrative support for the Agency. Initially, however, personnel, personnel spaces, funds, facilities and equipment will be adjusted among the military services for responsibilities assigned to the Agency in order to meet the support requirements of the Single Manager created by this directive. Such personnel adjustments will be accomplished in accordance with the provisions of DOD Instruction 1404.4, dated April 9, 1955.

4. Organize the Administrative Committee in accordance with paragraph IV. D. above.

5. Assign the distribution mission for subsistence for each distribution area to specific area distribution depots from which all military installations in the area will requisition.

B. *Requirements.* 1. Receive from the military services on a cyclical basis statements of peacetime and mobilization requirements, computed and submitted in accordance with policies and procedures established by the Assistant Secretary of Defense (Supply & Logistics), together with necessary data including basic assumptions and factors upon which the requirements were promised, to enable review and comment on the validity of the requirements.

2. Direct the submissions on a periodic basis of inventory status reports at the retail level, by distribution area, of the total stocks on hand and the quantities of those stocks held for operating needs, and those stocks held for reserves. This refers to those stocks owned and positioned by the military services.

3. In accordance with policies and procedures established by the Assistant Secretary of Defense (Supply & Logistics), develop the total Department of Defense requirements program and compute net peacetime and mobilization requirements for the Agency, for purposes of procurement, distribution, and disposal.

4. Receive from the military departments the requirements for Mutual Defense Assistance Programs and civilian aid program.

C. *Procurement.* 1. Conduct or direct procurement, pursuant to the provisions of the Armed Services Procurement Act (Armed Services Procurement Regulation), and (Army Procurement Procedures), including contract administration, as a single service purchase assignment to the Single Manager for all centrally procured items. Designate those items to be procured locally. The designation or redesignation of items from local procurement to central procurement or vice versa will be coordinated with the military services with sufficient time allowed for an orderly adjustment of the affected programs. Stock Fund items authorized to be procured locally shall be financed by allotments of the retail stock funds.

2. Obtain and furnish to the military services procurement and production data for use in requirements and supply studies.

3. The Single Manager shall be responsible for accounting and control of Government-furnished material in the hands of contractors and Government manufacturing plants in connection with procurement of end items.

4. Procure materiel for the Mutual Defense Assistance Programs and civilian aid programs to fulfill requirements submitted by the departments which are not available from stocks owned by the Single Manager.

5. Administer the priorities and allocation authority delegated to the Secretaries of the military departments by the Assistant Secretary of Defense (Supply & Logistics) in accordance with the Department of Defense Priorities and Allocations Manual, pursuant to DOD Instruction 4410.1, and plan for administration in accordance with Department of Defense Emergency Priorities Allocation Manual (4410.2).

D. *Inspection.* Direct the program of Inspection and Quality Control for Subsistence, utilizing established inspection services and facilities to the maximum degree; this program shall apply to the procurement, storage, and maintenance of supplies.

E. *Mobilization planning.* 1. Coordinate and direct mobilization planning in assigned areas of supply management responsibility. Recommend related mobi-

lization policies and procedures to responsible Assistant Secretaries of Defense for inter-agency agreements and coordination with over-all Department of Defense mobilization plans.

2. Arrange for or conduct industrial mobilization planning for all items under the Single Manager for which advance planning is necessary to assure adequate wartime production to meet military needs. Such actions may include but are not limited to:

a. Developing with industry, under the policies and procedures of the Production Allocation Program, mobilization production schedules for all items on the Department of Defense Preferential Planning List and the several approved Departmental Planning Lists.

b. Developing procedures for locating potential sources of supply for other items and conducting such planning as may be appropriate.

c. Negotiating industry preparedness measures contracts as appropriate.

d. Determining needs for reserve production facilities, production equipment, stockpiles of critical materials, etc., and recommending appropriate action for acquisition and maintenance thereof.

F. *Storage.* 1. Determine requirements for storage space and related activities. Request necessary space and related activities from owning services. Establish and maintain records of space utilization.

2. Assign specific storage missions, when storage space can be made available, to installations other than area distribution depots, regardless of military service ownership, when necessary to store subsistence.

G. *Inventory control.* 1. Establish and maintain central control over subsistence inventories owned by the Single Manager, and prescribe quantitative stockage objectives for such inventories, at the area distribution depots, which are necessary to meet the area distribution requirements.

2. Prescribe an inventory reporting system which will provide current, accurate, repetitive and cyclic stock status information to the Agency for all subsistence owned by the Single Manager.

3. Prescribe requisitioning procedures to be utilized by the military services in requisitoning against Single Manager stocks, and direct the phased submission of requisitions to the appropriate depots or market centers.

4. Establish prices and pricing procedures in accordance with policy as established in reference (d).

5. Direct distribution and redistribution, down to and including shipments from distribution depots, of stocks owned by the Single Manager.

6. Direct, when necessary for rotation purposes, the reallocation of assets and the utilization and consumption by all military services of common stocks.

7. Institute such measures as forced issue when necessary for utilization of existing stocks.

8. Coordinate program for the positioning of mobilization reserve stocks to obtain maximum availability and minimum loss in the event of enemy attack, in accordance with Department of Defense policies.

9. Prescribe reports to be furnished to the Military Subsistence Supply Agency by area distribution depots, or other activities performing a mission assigned by the Single Manager, as may be necessary to carry out the responsibilities of this assignment.

10. Screen all excesses of subsistence, including returned material, either owned by the Single Manager or reported by the military services, and determine the utilization or disposition of such excesses.

11. Report to General Services Administration, in accordance with Department of Defense policy, those items excess to Department of Defense requirements.

12. Prepare inventory and supply reports, as required by the military services, for the development of requirements and supply studies.

H. *Stock Fund.* Establish and administer the Single Manager Subsistence Stock Fund Division, in accordance with reference (d) and the charter authorizing the establishment thereof.

I. *Research and development.* The Single Manager will be kept informed of all research and development pertaining to this commodity area. He may recommend to the military services research and development into improved materials, items, and methods within his commodity jurisdiction, and will recommend to the Assistant Secretary of Defense (Research and Development) any changes in the program he considers desirable. The military departments, under the policies and procedures of the Secretary of Defense, are responsible for research and development programs; the Assistant Secretary of Defense (Research and Development) is responsible for reviewing these programs.

J. *Cataloging and standardization.* 1. Responsible for coordinating the cataloging operations of the military services for subsistence in accordance with prescribed Department of Defense policies, procedures, and operations established for the Federal Catalog System; operate as a single submitting activity in the Federal Catalog System for Department of Defense subsistence.

2. Develop and direct a program of standardization and of standards and specification preparation and maintenance within the over-all Department of Defense policies and guidance.

K. *Transportation.* Arrange for required transportation or traffic management services from the respective Single Managers assigned responsibilities for traffic management (Single Managers for Military Traffic Management, Military Sea Transportation Service and Military Air Transport Service), in accordance with criteria and procedures established by those Single Managers, or as may otherwise be authorized by the Secretary of Defense.

L. *Maintenance and manufacture.* Coordinate the operation of all military activities engaged in maintenance, manufacture, assembly, or approved rehabilitation of subsistence materiel owned by or entering the wholesale distribution system.

M. *Personnel and training.* 1. In planning the organization and staffing required for the Agency, establish military and civilian career development patterns which shall be coordinated with and supplement programs of the military departments. Personnel training requirements peculiar to a particular military service will be considered in the development of the program and incorporated therein by the Single Manager.

2. Coordinate the execution of an adequate and well integrated, specialized training program with industry (regular and reserve). Review training programs of the Services and recommend measures to provide for maximum cross-servicing in the training of units and individuals within available facilities.

N. *General.* 1. Prepare reports as required by the Office of the Secretary of Defense.

2. The Single Manager is authorized and expected to maintain close liaison with nongovernmental organizations, associations, and industry on matters affecting the responsibilities under this Directive, subject to the provisions of Department of Defense Directive 5500.2, dated September 13, 1954.

VII. *Implementation.* A. Implementation of the Single Manager Assignment for Subsistence will obviate the requirement for any military service to perform the management functions assigned herein to the Single Manager, except when performing missions assigned by the Single Manager. Thus, all existing organizations within the military services which perform such functions shall have their missions, status, and manning modified, redefined, and adjusted, as early as possible, so as to exclude the functions assumed by the Military Subsistence Supply Agency and to reflect their reduced mission status.

B. The operating agency shall be so organized that, as a minimum, it will perform directly within its organization, at one location, the responsibilities designated in paragraphs VI. B., VI. C., VI. G., and VI. H. above.

C. Within ninety days, regulations, procedures, organizational arrangements, and adjustments among military services as to personnel, personnel spaces and funds, required to implement the provisions of this Directive, will be developed and coordinated with the military services by the Single Manager and transmitted to the Office of the Secretary of Defense for approval. The Assistant Secretary of Defense (Supply and Logistics) will coordinate the approval of such matters with other cognizant elements of the Office of the Secretary of Defense.

D. Regulations and procedures implementing reference (c) will remain in effect until separately superseded or cancelled.

VIII. *Annex.* The following Annex is incorporated as part of this Directive:

Annex A—Statement of the related responsibilities of the Single Manager and the military services in connection with this commodity assignment.

IX. *Effective date.* Development of implementation measures will be commenced immediately.

REUBEN B. ROBERTSON, Jr.,
*Deputy Secretary of Defense.*

ANNEX A

RELATED RESPONSIBILITIES OF SINGLE MANAGER AND THE MILITARY SERVICES

| *Single Manager* | *Military Services* |
|---|---|
| 1. *Organization and Management*<br>a. Designate the Executive Director and establish the Military Subsistence Supply Agency under his control. | a. Not applicable. |
| b. Provide administrative support to the Agency. Provide all civilian personnel and Army military personnel as required. Identify positions as military or civilian, based on criteria established by Office of the Secretary of Defense. | b. Not applicable. (Initially there will be a readjustment of personnel, personnel spaces and funds among the military services to provide the Single Manager with ceiling, etc.) |
| c. Determine requirements for officer personnel from other services with Secretaries of other military departments. Integrate such officer personnel into operational assignments in the Agency. Rotate key military staff positions among the services on a periodic basis, as agreed with other military departmental secretaries. | c. Furnish officer personnel, as required, for the staffing of the Agency. |
| d. Organize the Administrative Committee under the chairmanship of the Executive Director. | d. Provide departmental representatives and such augmentation personnel as the Single Manager may request. |
| e. Determine specific distribution areas. Assign to military services, distribution areas to be supported, as agents of the Single Manager. Furnish necessary operating procedures to the military services responsible for distribution area. | e. Perform distribution functions in accordance with the procedures prescribed by the Single Manager. Provide administrative support for designated area distribution depots. |
| 2. *Requirements*<br>Receives from the military departments, on a cyclical basis, peacetime and mobilization requirements; directs submissions of inventory status reports for the retail level, by distribution area, including statement of stocks held for operating needs and for reserves; and, in accordance with the Assistant Secretary of Defense (Supply & Logistics) policies and procedures, computes net peacetime and mobilization requirements for the Agency and develops the total Department of Defense requirements program for the items under his single managership. Provide for the Mutual Defense Assistance Programs and civilian aid programs as necessary. | Provide the Single Manager with information regarding requirements data, quantities of stocks on hand at the retail level by distribution depot area, as directed, on a cyclical basis. Also, report significant changes in these areas as they occur. Furnish necessary data, including basic assumptions and factors upon which the requirements were premised, to the Single Manager to enable him to review and comment on the validity thereof. Furnish the Mutual Defense Assistance Programs and civilian aid programs requirements as authorized. |
| 3. *Procurement*<br>Conduct or direct procurement pursuant to the Armed Services Procurement Act, Armed Services Procurement Regulation and the Army Procurement Procedures, including contract administration, as a single service purchase assignment to the Single Manager for all centrally procured items. Designate those items to be procured locally. | Procure locally those items designated by the Single Manager, financing such purchases by allotments from the retail stock funds. Conduct such central purchase as directed and funded by the Single Manager. |
| 4. *Inspection*<br>Direct the program of Inspection and Quality Control for Subsistence, utilizing established inspection services and facilities to the maximum degree; the program applies to procurement, storage, and maintenance of supplies. | Conduct inspection and maintain control of quality when requested, and as directed, by the Single Manager. |
| 5. *Mobilization Planning*<br>a. Coordinate and direct mobilization planning in assigned areas of supply management responsibility. Recommend to the Office of the Secretary of Defense related mobilization policies and procedures for inter-agency agreements and coordination with over-all Department of Defense mobilization plans. Arrange for or conduct industrial mobilization planning for all items for which advance planning is necessary to assure adequate wartime production to meet military needs. | a. Provide mobilization planning data as required by the Single Manager for this purpose. |
| b. Under the policies and procedures of the Production Allocation Program, serve as Claimant Procurement Planning Officer (CPPO) providing desired mobilization production requirements to ASPPO's for negotiation with industry and approving final schedules after negotiation. Serve as ASPPO for such plants for which planning responsibility has been or may be assigned by the Assistant Secretary of Defense (Supply & Logistics). | b. Serve as Armed Services Procurement Planning Officers (ASPPO's), for those plants for which planning responsibility may be assigned by the Assistant Secretary of Defense (Supply & Logistics), negotiating Tentative Mobilization Production Schedules with industrial management, and securing final approval by the Single Manager and industrial management. |
| c. Develop procedures for locating potential sources of supply for other items for which Production Allocation Program procedures are not applicable and conduct such planning thereunder as may be appropriate. | c. Assist the Single Manager through field procurement offices or the Armed Services Procurement Officers organization in conducting such planning, other than the Production Allocation Program, as may be appropriate. |
| d. Negotiate industry preparedness measures contracts with potential producers, research organizations, educational institutions, etc., as may be appropriate. | d. Provide assistance through field procurement offices. |
| e. Determine needs for reserve production facilities, production equipment, stockpiles of critical materials, etc., and recommend appropriate action for acquisition and maintenance thereof. | e. Provide required information, assistance, and appropriate action through the Technical Services, Bureaus, Commands or field installations. |
| 6. *Storage*<br>Determine requirements for storage space and related activities. Request necessary space and related activities from the owning service. Establish and maintain records of space utilization. Assign specific storage missions, when storage space can be made available, to installations other than area distribution depots, whenever necessary to store Single Manager reserve stocks. | Conduct storage and related functions at designated area distribution depots, providing effective logistical support to consuming agencies, irrespective of service, in accordance with the policies and procedures of the Single Manager. Maintain records, and submit space and operating reports as prescribed by the Single Manager. Perform additional storage functions, at storage points other than area distribution depots, for the Single Manager, when space can be made available. |

ANNEX A—Continued

RELATED RESPONSIBILITIES OF SINGLE MANAGER AND THE MILITARY SERVICES—continued

| *Single Manager* | *Military Services* |
|---|---|
| 7. *Inventory Control*<br>a. Establish and maintain central control over inventories owned by the Single Manager Subsistence Stock Fund Division, and prescribe stockage objectives for such inventories, at the area distribution depots, which are necessary to meet area distribution requirements. Establish prices and pricing procedures in accordance with DOD Directive 7420.1. | a. Maintain control over retail stocks. |
| b. Prescribe an inventory reporting system to provide current, accurate information regarding the stock status of inventories. | b. Provide inventory reports for Single Manager stocks as prescribed. |
| c. Prescribe requisitioning procedures to be utilized by the military services in requisitioning against distribution depots, and direct phased submission of requisitions to appropriate area distribution depots or market centers. | c. Requisition subsistence as prescribed by Single Manager. |
| d. Direct distribution and redistribution of Single Manager owned stocks, down to and including shipments from distribution depots to retail level. Control redistribution of retail stocks between distribution areas. | d. Redistribution of retail stocks will be controlled by the owning military services, except that such redistribution shall not be effected between distribution areas unless authorized by the Single Manager. |
| e. Direct, when necessary for rotation purposes, the utilization and consumption, by all military services, of common stocks, regardless of where held. | e. Participate as necessary to provide rotation and full utilization of stocks. |
| f. Direct, when appropriate and necessary, such as to balance stocks or to meet mission deadlines, the utilization of suitable substitutes. | f. Participate as necessary to provide full utilization of stocks. |
| g. Coordinate program among the military services and with civilian agencies of the Government for positioning of mobilization reserve stocks to obtain maximum availability and minimum loss in the event of enemy attack, in accordance with Department of Defense policies. | g. Participate as necessary to obtain the objectives of this program. |
| h. Prescribe such reports as may be necessary to carry out the responsibilities of this assignment. | h. Submit reports as required by the Single Manager. |
| i. Screen all excesses of subsistence, including returned materiel, either owned by the Single Manager or reported by the military services, and determine the utilization of such excesses. Report to the General Services Administration those items in excess to Department of Defense requirements. | i. Screen all excesses of subsistence owned and held at retail level and determine those items to be redistributed among the requisitioning activities of the military service concerned; such redistribution will be confined to the same distribution area unless approved by the Single Manager. Items not required within the service will be reported to the Single Manager as excess. |
| 8. *Stock Fund*<br>Establish and administer the Single Manager Subsistence Division of the Army Stock Fund for the management of Single Manager controlled stocks. | Maintain a retail stock fund division or category which will reimburse the Single Manager Subsistence Division of the Army Stock Fund for withdrawals from Single Manager owned stocks, and to finance inventories acquired through local purchase. Military services will prepare and support their own budgets in the normal manner and administer their respective retail stock funds. |
| 9. *Research and Development*<br>Recommend to a military service or services Research and Development into improved materials, items, and methods within his commodity jurisdiction. He will be kept informed on research and development in this commodity area. Recommend to the Assistant Secretary of Defense (Research & Development) any changes in the program he considers desirable. | Initiate requirements for research and development, and perform research and development. The services may initiate and perform research and development in areas of peculiar interest to their requirements in accordance with established coordinating procedures. |
| 10. *Cataloging and Standardization*<br>a. Responsible for coordinating the cataloging operations of the military services for subsistence in accordance with prescribed Department of Defense policies, procedures, and operations established for the Federal Catalog System; operate as a single submitting activity in the Federal Catalog System for Department of Defense subsistence. | a. Perform those functions of the Federal Catalog System for subsistence as prescribed by the Single Manager; utilize Federal catalog data as the prime identification data in all supply and logistics operations, consistent with Department of Defense policies. |
| b. Develop and direct a program of standardization and of standards and specifications within the over-all Department of Defense policies and guidance. | b. Accomplish such standards and specifications work as is assigned by the Single Manager. Inform the Single Manager of use needs, and recommend or concur in adoption, and standardization or rejection of material. Determinations on items peculiar to a single military service will remain with that service, but will be subject to review and action by the Single Manager in consonance with his responsibilities for standardization under the over-all Department of Defense policies in this field. |
| 11. *Maintenance and Manufacture*<br>Coordinate the operation of all military activities engaged in maintenance, manufacture, assembly, or approved rehabilitation of material owned by or entering the wholesale distribution system. | Perform as requested by the Single Manager the maintenance, manufacture, assembly or approved rehabilitation of materiel owned by or entering the wholesale distribution system. |
| 12. *Personnel and Training*<br>a. Provide a civilian personnel program and training standards for all personnel assigned under direction of the Single Manager. | a. The existing civilian personnel and training offices of the military services will be utilized in carrying out the civilian personnel and training program. |
| b. Coordinate specialized military training programs with respect to Subsistence. Recommend measures for interdepartmental training. | b. Participate in specialized training programs. |

[DOD Directive 5160.14, May 1, 1956]

## SINGLE MANAGER SERVICE ASSIGNMENT FOR TRAFFIC MANAGEMENT WITHIN THE UNITED STATES (ARMY)

References:[1]

(a) DOD Directive 4000.8, November 17, 1952.

(b) DOD Directive 5160.12, January 31, 1956.

(c) DOD Directive 4500.10, March 10, 1952.

I. *Authority and purpose.* A. Pursuant to the authority vested in the Secretary of Defense by the National Security Act of 1947, as amended, a Single Manager Service Assignment is hereby directed within the Department of Defense, with authority, functions, responsibilities and relationships as set forth below.

B. The purposes and objectives of this assignment are:

1. To provide the most effective and economical freight and passenger transportation service for the Armed Services from commercial transportation companies (including rail, highway, air, inland waterway, coastwise and intercoastal carriers) operating between points within the United States, (reference to coastwise and intercoastal commercial transportation is not intended to affect those responsibilities for ocean carrier functions assigned to MSTS, but has reference to the traffic management authority necessary to determine the proper mode of shipment).

2. To eliminate duplication and overlapping of effort between and among military departments.

3. To apply to the functions of traffic management within the Department of Defense the basic pattern for all organizations performing a multiple-service support mission, as prescribed in reference (b) above.

4. To assure under all conditions, efficiency and economy within the Department of Defense in the procurement, use, cost and control of commercial transportation services required by military agencies for the movement of freight and passengers between points within the United States.

5. To effectively develop plans to assure efficient use and control of commercial transportation resources utilized by the military within the United States in support of types of military missions.

6. To assure adequate practical training for military personnel to fit them for traffic management assignments at posts, camps and stations within the United States, and in overseas areas.

II. *Cancellation.* This Directive cancels and supersedes reference (c).

III. *Definitions*—A. *Single Manager.* The Secretary of the Department who is designated by the Secretary of Defense to be responsible for the organization and operation of the Single Manager assignment within the United States for traffic management.

B. *Executive Director for Traffic Management.* The individual designated by the Single Manager to manage the Single Manager operating agency for traffic management.

C. *Single Manager Operating Agency.* An organization which, under the direction of the Executive Director for Traffic Management, will direct and control all assigned functions of traffic management for all military departments. It shall be titled the Military Traffic Management Agency.

D. *Administrative Committee.* A group designated to assist the Executive Director in identifying and overcoming problems concerning the operation of this assignment. The committee will be neither a policy board nor an executive directorate, but rather a group of specialists meeting to recommend solutions to particular problems and to promote the effectiveness and economy with which the agency meets the needs of the military departments. Its membership will be as follows:

1. Executive Director—Chairman.

2. A representative from the Army, the Navy (or Marine Corps at the discretion of the Secretary of the Navy), and the Air Force.

3. The Assistant Secretaries of Defense (Supply and Logistics) and (Comptroller) or their representatives.

4. Such technical or professional personnel augmentations from the military departments as determined by the Single Manager to be necessary as traffic management problems under consideration dictate.

E. *Administrative support.* The provision of personnel, space, facilities, equipment, and supplies, including the related budgeting, funding, fiscal control, training, manpower control and utilization, personnel administration, security administration, mobilization planning, and any other administrative provisions and services, necessary to carry out assigned missions.

F. *Traffic Management.* The direction, control and supervision of all functions incident to the effective and economical procurement and use of freight and passenger transportation service from commercial for-hire transportation companies (including rail, highway, air, inland waterway, coastwise and intercoastal carriers). The basic functional areas of traffic management can normally be broken down into three major functional areas: the management functions, the cost functions and the service functions. The major functional areas are indicated by, but not limited to, those set forth in Annex A.

G. *Commercial transportation.* Service provided by privately owned land, air or water carriers on a for-hire basis to the Government or the general public.

H. *Military transportation.* Transportation provided through the use of military owned and operated transportation equipment such as aircraft, motor trucks, barges, ships, etc.

I. *Movement control.* The exercise of judgment and the determination by a military shipping agency or command as to:

1. Materiel or personnel requiring transportation.

2. Where the materiel or personnel must be moved.

3. The time at which such materiel and personnel must arrive at destination.

IV. *Delegation of authorities and responsibilities.* A. The Secretary of the Army is hereby designated as the Single Manager for Traffic Management, subject to over-all Department of Defense guidance, policies, and programs, with the responsibilities and authorities assigned under this Directive.

B. The Secretary of the Army will be responsible for utilization of all applicable portions of reference (b), which portions will be considered to be policy pertinent to this assignment, except where such portions are specifically modified or amplified herein.

C. Each military department will be responsible for the administrative support and performance of all traffic management operations assigned by the Single Manager which are performed by their local shipping installations or activities. The military departments will furnish to the Single Manager data regarding administrative support costs incurred on the basis of such functional assignment.

D. The Departments of the Navy and Air Force, in those instances wherein regional or branch offices are located at installations or facilities under their jurisdiction, will provide to such regional or branch offices such housekeeping or administrative support as is agreed to between them and the Single Manager, on a reimbursable basis.

E. The Secretary of each department will be responsible for determining the total transportation requirements of his department including shipping installation and regional requirements; and for submitting them to the Single Manager Operating Agency on the basis established by the Single Manager.

F. The Secretary of each department will be responsible for full cooperation with the Single Manager in carrying out the provisions of the applicable portions of reference (b) and the provisions of this Directive.

G. Transportation allocations apportioning transportation capacity to the

[1] Not filed with Federal Register Division.

military departments will be provided by the Joint Chiefs of Staff.

V. *Authorities and responsibilities of the Single Manager.* The Secretary of the Army as Single Manager will:

A. *Organization and management.* 1. Establish and organize the Military Traffic Management Agency in accordance with the principles contained in reference (b) above except as specifically modified herein.

2. Designate an Executive Director for Traffic Management subject to approval by the Secretary of Defense. The Executive Director will have no other duties but to direct the operations of the Military Traffic Management Agency and the agency will have no functions other than those assigned to it by this Directive. The Executive Director will be responsible to the Secretary of the Army through channels prescribed by that Secretary.

3. Organize the administrative committee in accordance with paragraph III D above.

4. Assign the regional mission for traffic management to a minimum number of regional offices from which all shipping installations or offices of the military departments within each region will receive traffic management services.

5. Locate the regional offices as strategically as possible, from the standpoint of lack of vulnerability, access to channels of operations of transportation companies, and the shipping and traffic evaluation operations of all the military departments.

6. Where necessary establish branch offices to the regional offices, subject to the approval of the Secretary of Defense.

7. Provide or arrange for administrative support to the agency and its regional or branch offices.

8. Prepare reports as required by the Office of the Secretary of Defense.

B. *Requirements.* 1. Prescribe the methods and format for the shipper departments to develop and advise the Single Manager through the Executive Director as to their transportation requirements by the mode or modes (including the assumptions and computations on which they are based), which in their judgment assures responsiveness to their individual logistic systems. The Single Manager, however, will be expected to evaluate and question, when necessary, the validity of the requirements specified.

2. Prescribe for the submission, by the military departments, of administrative and statistical reports in accordance with methods and procedures considered necessary by the agency to permit it to effectively and economically accomplish the objectives of this assignment.

C. *Personnel, training and support.* 1. Staff the agency, its regional and branch offices with civilian personnel who will be employees of the Department of the Army, and military personnel from all military services, as appropriate, not necessarily with equal representation. Initially, existing personnel, personnel spaces, funds, facilities and equipment will be adjusted among the military departments for responsibilities assigned to the agency in order to meet the support requirements of the Single Manager created by this directive. Such personnel adjustments will be effected in accordance with Department of Defense Instruction No. 1404.4, dated April 19, 1955, and other applicable directives.

2. Positions within the agency will be identified as military or civilian based on criteria established by the Secretary of Defense. Military staff positions subordinate to the Executive Director, at either the agency headquarters or its regional or branch offices, will be alternated among the military services as agreed to by the Single Manager and the Secretaries of the other two military departments, with due consideration being given to the qualifications of the individuals concerned and career program needs of each military department.

3. Name as the head of each regional office an individual with the highest qualifications obtainable.

4. Accommodate the need for training of military personnel by establishing training billets to permit training association with key elements of the agency, its regional and branch offices. The military personnel training billets will be established and divided among the departments on a basis to be agreed upon by the Single Manager and the Secretaries of the Navy and Air Force, subject to the approval of the Secretary of Defense.

5. In planning the organization and staffing required for the agency establish military and civilian career development patterns which will be coordinated with and supplement programs of the military departments. Personnel training requirements peculiar to a particular military department will be considered in the development of the program and incorporated therein by the Single Manager.

D. *General traffic management functions.* The Single Manager will be responsible for the management functions, cost functions and service functions as indicated in Annex A and such other related and incidental traffic management functions as required to accomplish the objectives of this assignment.

E. *Emergency control of military transportation equipment.* When the land transportation resources (and other resources determined by the Secretary of Defense) of commercial transportation companies operating within the United States are inadequate to meet military requirements the Single Manager will, as directed by the Secretary of Defense, control the use, and as directed, the operation of military owned surface transportation resources required to supplement the capability of the commercial transportation companies.

F. *Planning.* Develop and have in a state of readiness plans for the utilization, control and operation of military owned domestic surface transportation resources and such domestic transportation resources and facilities as are allocated or otherwise made available to support military missions under all conditions.

VI. *Responsibilities of the Departments of the Army, Navy and Air Force.* A. Provide such services and facilities to the Single Manager as he determines necessary for the accomplishment of his mission.

B. Assign military personnel to the Military Traffic Management Agency as agreed to with the Single Manager.

C. Each of the military services will establish an office whose functions will be to coordinate the transportation requirements of their shipping agencies with the agency and its regional offices and will not duplicate functions assigned to the agency.

D. Each military department may assign a liaison officer to each regional office to coordinate their movement control requirements within the geographical area for which each regional office is responsible.

VII. *Implementation.* A. It is the express intent of this directive that implementation of the Single Manager Assignment for traffic management within the United States will obviate the requirement for any activity in any military service to perform departmental headquarters or regional type traffic management functions, except when performing missions assigned by the Single Manager. Thus, the Army Zone Transportation offices, the Navy Central Freight Control offices, the Air Force District Traffic offices, the Marine Corps Freight Control office, those portions of Departmental and Command headquarters offices, and any other existing, regional or command offices for performance of traffic management functions, will cease to exist as soon as the Military Traffic Management Agency has assumed its responsibilities for such activities. However, traffic management functions at the local shipping installations of the military departments, to the extent assigned by the Single Manager, will be performed by the individual departments in accordance with regulations and procedures prescribed by the Single Manager.

B. Regulations and procedures, including plans showing the proposed organization, staffing and personnel requirements of the agency, together with statements of the adjustments to be made among the military departments on personnel, personnel spaces, funds, facilities and equipment required to implement the provisions of this directive, will be developed and coordinated with the military departments by the Single Manager and transmitted to the Secretary of Defense for approval. The statements on adjustments should clearly indicate the functions and activities to be abolished, personnel to be reduced, and money to be saved in the current organization and operations of each of the military departments, together with statements of any additional requirements for personnel and costs that will be created by the Single Manager as a result of the establishment of the Military Traffic Management Agency. The Assistant Secretary of Defense (Supply and Logistics) will coordinate the approval of such matters with other cognizant elements of the Office of the Secretary of Defense.

C. The Secretary of the Army, within thirty days after the date of this directive, will submit to the Secretary of Defense for approval, Terms of Reference and plans for implementing his responsibilities as Single Manager. Such Terms of Reference and plans will pertain to:

(a) Relationships between the departments (including Military Sea Transportation Service and Military Air Transport Service),

(b) Operations of the agency,

(c) The detailed organizational structure, together with personnel requirements and staffing plans, and

(d) The schedule of implementing actions for carrying out this assignment.

D. The Secretary of the Army, during the first year from the date of this directive, will submit to the Secretary of Defense, monthly performance and progress reports regarding the establishment and operations of the agency, including statements of functions and operations assumed by the agency, and personnel and personnel spaces transferred, reassigned, or reduced, or any money saved in each of the military departments as a result of the Single Manager Service Assignment for Traffic Management. In reporting all personnel, personnel spaces and personnel transferred, the reports will indicate the personnel and personnel spaces in all affected offices and organizations as of December 1, 1955. Reports will be submitted in triplicate fifteen days after the close of the month reported. Report Control Symbol DD–S&L(M) 265 is assigned to this reporting requirement.

E. In order to effect better current management control transportation funds, the Single Manager, within one year from the date of activation of the Military Traffic Management Agency, in conjunction with the Departments of the Navy and Air Force, the Assistant Secretaries of Defense (Supply and Logistics) and (Comptroller) will develop and place on a current basis appropriate funding, audit, cost and statistical reporting procedures which will provide such information as is necessary for the efficient management, adjustment, budgeting and control of transportation costs, provided however, there will be no change in the principle that each Service will budget for and be charged for the cost of its own transportation.

F. All matters pertaining to this assignment, which cannot be resolved by the Single Manager will be referred to the Secretary of Defense.

VIII. *Annex.* The following annex is incorporated as part of this Directive: Annex A—Statement of the management, cost and service functions of traffic management.

IX. *Effective date.* This Directive is effective immediately.

REUBEN B. ROBERTSON, Jr.,
*Deputy Secretary of Defense.*

ANNEX A

GENERAL TRAFFIC MANAGEMENT FUNCTIONS

A. *Management functions.* 1. Cooperate, by the application of adequate cost, rate and traffic data services, in advising and assisting:

a. Procurement agencies in developing the most economical sources of supply;

b. Production activities in programming the processing of raw materials, semi-finished and finished products through government operated facilities;

c. Distribution agencies in programming the positioning of stocks;

d. Site selection authorities in evaluating transportation considerations in the selection of plant and facilities' sites;

e. Fiscal agencies in the development and improvement of cost data techniques;

f. Appropriate agencies as to the effect of packing and packaging costs on transportation and distribution costs and the utilization of transportation equipment.

2. Control and operate military owned railway rolling stock registered for interchange service other than that permanently assigned to intra-base or intra-plant operations.

3. Develop and research improvements on small shipment consolidation programs.

4. Develop loss and damage prevention programs.

5. Develop and improve procedure for facilitating and assuring the control and expeditious movement of traffic, etc.

B. *Cost functions.* 1. Determination or establishment of proper freight classification, proper freight and passenger rates, fares, charges, rules and regulations on Department of Defense traffic.

2. Negotiation (when and where necessary) with all for-hire commercial carriers of cargo or passengers of their rate-making agencies, for the classifications, rates, fares, charges, rules and regulations contemplated by 1. above.

3. Establishment of intransit arrangements by for-hire commercial carriers of cargo to permit the stopping of military shipments short of final destination for various purposes (processing, storage, etc.) without payment of combination of separately established rates to and from the transit point.

4. The reviewing and maintaining of constant surveillance of reissued freight and passenger tariffs and of tariff supplements to determine changes made thereby which would affect the cost of moving, or the routing of, military traffic.

5. Reviewing of all for-hire commercial carrier (freight and passenger) dockets or other proposals to determine the extent to which military traffic would be affected thereby, and action required.

6. Recommending litigation in the transportation and traffic management areas when necessary to protect or promote the interests of the Department of Defense.

7. Preparation of billing guides for use by the military departments in the matter of properly describing property on shipping documents.

8. Developing and maintaining current transportation cost and statistical data necessary to facilitate intelligent and effective performance with regard to items 1., 2., 3., 4., 5., and 6. above.

C. *Service functions.* 1. Maintaining tariff files.

2. Obtaining and quoting rates.

3. Determination of the type of service required to move traffic.

4. Arranging with carriers for transportation equipment to effect shipment.

5. Routing of traffic.

6. Preparation and accomplishment of bills of lading, transportation requests and other shipping documents.

[F. R. Doc. 56–4857; Filed, June 20, 1956; 8:45 a. m.]

---

[DOD Directive Number 5160.15, May 4, 1956]

## SINGLE MANAGER ASSIGNMENT FOR CLOTHING-TEXTILES

References: [1]

(a) Directive 4000.8, Basic Regulations for the Military Supply System, November 17, 1952.

(b) Directive 5160.12, Policies for Implementation of Single Manager Assignments, January 31, 1956.

(c) Directive 7420.1, Regulations Governing Stock Fund Operations, February 1, 1954.

I. *Authority and purpose.* A. Pursuant to the authority vested in the Secretary of Defense by the National Security Act of 1947, as amended, a Single Manager Commodity Assignment is hereby directed within the Department of Defense, with authority, functions, responsibilities, and relationships as set forth below, recognizing that the primary mission is to effectively support the military effort of the country.

B. The purposes and objectives of this assignment are:

1. To provide the most effective and economical means of supplying clothing and textile materiel to the Armed Services.

2. To eliminate duplication and overlapping of effort between and among military services.

3. To apply the basic pattern for all organizations performing a Single Manager support mission, as prescribed in reference (b) above, to the mission of supplying clothing and textile materiel to the Armed Services.

II. *Scope.* The Single Manager Plan will be employed, as appropriate, for the management of clothing and textile materiel within the Continental United States, and may be extended to include operations outside the Continental United States, as directed by the Secretary of Defense.

III. *Definitions*—A. *Single Manager.* The Secretary of a military department who is designated by the Secretary of Defense to be responsible for the organization and operation of the Single Manager assignment for clothing and textile materiel.

B. *Executive Director for Clothing and Textile Materiel.* The individual designated by the Single Manager to manage the Single Manager operating agency for clothing and textile materiel.

C. *Single Manager Operating Agency.* An organization which, under the direction of the Executive Director for Clothing and Textile Materiel, shall direct and control all assigned functions of supply management of clothing and textile materiel for all military services. It shall be titled the Military Clothing and Textile Supply Agency.

D. *Administrative Committee.* A group designated to assist the Executive Director in identifying and overcoming problems concerning the operation of this assignment. The committee shall be neither a policy board nor an executive directorate, but rather a group of specialists meeting to recommend solutions to particular problems and to promote the effectiveness and economy with which the agency meets the needs of the military services. Its membership shall be as follows:

1. Executive Director, Chairman.

2. A representative each from the Army, Navy, Marine Corps, and the Air Force.

3. The Assistant Secretaries of Defense, Comptroller, and Supply and Logistics, or their representatives.

4. Such technical or professional personnel augmentations from the military services as the Single Manager deter-

[1] Not filed with Federal Register Division.

mines to be necessary and as clothing and textile supply problems under consideration dictate.

E. *Administrative support.* The provision of personnel, space, equipment, facilities and supplies, including the related budgeting, funding, fiscal control, training, manpower control and utilization, personnel administration, security administration, mobilization planning, and other administrative provisions and services, necessary to carry out assigned missions.

F. *Clothing and textile materiel.* All items falling within Federal Supply Groups 83 and 84, class 7210 and mattresses from class 7105, and all other items of related materiel authorized by the Office of the Secretary of Defense. (Annex B)

G. *Supply management of clothing and textile materiel.* The exercise of direction and control of clothing and textile materiel supply operations, including the functions of cataloging, standardization, net requirements determination, procurement, production, inspection, storage, distribution, disposal, transportation, maintenance, and mobilization planning.

H. *Single Manager Stocks.* Clothing and textile materiel acquired by and maintained in the wholesale distribution system, under the control and ownership of the Single Manager, down to but excluding retail stocks. This includes operating stocks and economic contingency, and mobilization reserves.

I. *Single Manager Clothing and Textile Materiel Stock Fund Division.* An administrative division of the Army Stock Fund established pursuant to Regulations Governing Operations of Stock Funds (DOD Directive 7420.1), to finance Single Manager clothing and textile materiel stocks.

J. *Retail Clothing and Textile Stock Fund Divisions or Categories.* The division or category established within each of the military departmental stock funds to finance retail clothing and textile materiel stocks.

K. *Wholesale distribution.* An area depot distribution system designed to distribute and issue clothing and textile materiel in bulk quantities to the post, camp, station, or base level of all services. This distribution system shall employ the facilities best suited to the requirements of the area served, regardless of military service ownership.

L. *Retail stocks.* Clothing and textile materiel not included in Single Manager stocks which is necessary to be held and controlled by the individual military services for issue or resale to final consumers in performance of assigned missions, and which is not under the direct management of the Single Manager.

IV. *Delegation of authorities and responsibilities.* A. The Secretary of the Department of the Army is hereby designated as the Single Manager for clothing and textile materiel, subject to overall guidance, policies, and programs of the Office of the Secretary of Defense, with the responsibilities and authorities assigned under this Directive. Additions or deletions of specific items from the cognizance of the Single Manager will be authorized only by the Office of the Secretary of Defense. Requests for change may be initiated by a military service and shall be forwarded through the Single Manager for his recommendation to the Secretary of Defense.

B. As Single Manager for clothing and textile materiel, the primary responsibility of the Secretary of the Army shall be to effectively meet the supply support requirements of the military services in terms of centrally managed clothing and textile items. He shall also be responsible for fulfilling other support responsibilities placed upon the Department of Defense for such items. He shall be responsible for utilization of all applicable portions of reference (b), except where such portions are specifically modified or amplified herein.

C. The Secretary of each military department shall be responsible for the administrative support of all installations and activities under his jurisdiction, including administrative support required to perform those functions assigned by the Single Manager. Military departments will furnish to the Single Manager complete data regarding administrative support costs incurred on the basis of missions assigned by the Single Manager. Such data shall be compiled on a comparable basis and as soon as practicable derived from a uniform expense classification and related to budget and apportionment requests.

D. The Secretary of each military department shall be responsible for requirements determination, for supply of clothing and textile materiel to using elements at retail level, and for control of reserve stocks at levels below the wholesale distribution level. Departmental planned requirements will be submitted to the Military Clothing and Textile Supply Agency on a cyclical basis, in accordance with policies and procedures established by the Assistant Secretary of Defense (Supply and Logistics).

E. The Secretary of each military department shall be responsible for full cooperation with the Single Manager in carrying out the provisions of the applicable portions of reference (b) and the provisions of this Directive.

V. *Authorities and Responsibilities of the Single Manager*—A. *Organization and Management.* 1. Designate an Executive Director for Clothing and Textile Materiel, subject to approval by the Secretary of Defense. The Executive Director shall have no other duties but to direct the operations of the Military Clothing and Textile Supply Agency. The Executive Director shall be responsible to the Secretary of the Army through channels prescribed by that Secretary.

2. Establish and organize the Military Clothing and Textile Supply Agency in accordance with reference (b) above, except as otherwise specifically modified herein.

3. The Agency shall be staffed by civilian personnel employed by the Department of the Army and by military personnel from all military services, as appropriate, not necessarily with equal representation. Positions within the Agency staff will be identified as military or civilian, based on criteria established by the Secretary of Defense. Key military staff positions subordinate to the Executive Director shall be subject to rotation on a periodic basis among the military services, as agreed to by the Single Manager and the Secretaries of the other two military departments, with due consideration being given to the qualifications of the individuals concerned and the career program needs of each military service. The Department of the Army will be responsible for providing the administrative support for the Agency. Initially, however, personnel, personnel spaces, funds, facilities and equipment will be adjusted among the military services for responsibilities assigned to the Agency in order to meet the support requirements of the Single Manager created by this Directive. Such personnel adjustments will be accomplished in accordance with the provisions of DOD Instruction 1404.4, dated April 19, 1955.

4. Organize the Administrative Committee in accordance with Paragraph III. D. above.

5. Assign the distribution mission for clothing and textile materiel for each distribution area to specific area distribution depots, from which all military installations in the area will requisition.

6. Direct the operations of the Department of Defense Duck and Webbing Pool.

B. *Requirements.* 1. Receive from the military services on a cyclical basis statements of peacetime and mobilization requirements, computed and submitted in accordance with policies and procedures established by the Assistant Secretary of Defense (Supply and Logistics), together with necessary data including basic assumptions, and factors upon which the requirements were premised, to enable review and comment on the validity of the requirements.

2. Direct the submissions on a periodic basis, of inventory status reports at the retail level, by distribution area, of the total stocks on hand and the quantities of those stocks held for operating needs, and those stocks held for reserves. This refers to those stocks owned and positioned by the military services.

3. In accordance with policies and procedures established by the Assistant Secretary of Defense (Supply and Logistics), develop the total Department of Defense requirements program and compute net peacetime and mobilization requirements for the Agency, for purposes of procurement, distribution and disposal.

4. Receive from the military services the requirements for Mutual Defense Assistance Programs and civilian aid programs.

C. *Procurement.* 1. Conduct or direct procurement, pursuant to the provisions of the Armed Services Procurement Act, Armed Services Procurement Regulations (ASPR), and Army Procurement Procedure (APP), including contract administration, as a single service purchase assignment to the Single Manager for all centrally procured items. Designate those items to be procured locally. The designation or redesignation of items from local procurement to central procurement or vice versa will be coordinated with the military services with sufficient time allowed for an orderly adjustment of the affected programs. Stock Fund Items authorized to be procured locally shall be financed by allotments of the retail stock funds.

2. Obtain and furnish to the military services procurement and production data for use in requirements and supply studies.

3. The Single Manager shall be responsible for accounting and control of government-furnished materiel in the hands of contractors and government manufacturing plants in connection with procurement of end items.

4. Procure materiel for the Mutual Defense Assistance Program and civilian aid programs to fulfill requirements submitted by the departments which are not available from stocks owned by the Single Manager.

5. Administer the priorities and allocation authority in the purchase of clothing and textile materiel delegated by the Assistant Secretary of Defense (Supply and Logistics), in accordance with the Department of Defense Priorities and Allocations Manual, pursuant to Department of Defense Instruction 4410.1, and plan for administration in accordance with Department of Defense Emergency Priorities Allocations Manual (4410.2).

D. *Inspection.* Direct the program of inspection and quality control for clothing and textile materiel, utilizing established inspection services and facilities to the maximum degree; this program shall apply to the procurement, storage and maintenance of supplies.

E. *Mobilization Planning.* 1. Coordinate and direct mobilization planning in assigned areas of supply management responsibility. Recommend related mobilization policies and procedures to responsible Assistant Secretaries of Defense for inter-agency agreements and coordination with over-all Department of Defense mobilization plans.

2. Arrange for or conduct industrial mobilization planning for all items under the Single Manager for which advance planning is necessary to assure adequate wartime production to meet military needs. Such actions may include, but are not limited to:

a. Developing with industry, under the policies and procedures of the Production Allocation Program, mobilization production schedules for all items on the Department of Defense Preferential Planning List and the several approved Departmental Planning Lists.

b. Developing procedures for locating potential sources of supply for other items and conducting such planning as may be appropriate.

c. Negotiating industry preparedness measures contracts as appropriate.

d. Determining needs for reserve production facilities, production equipment, stockpiles of critical materials, etc., and recommending appropriate action for acquisition and maintenance thereof.

F. *Storage.* 1. Determine requirements for storage space and related activities. Request necessary space and related activities from owning services. Establish and maintain records of space utilization.

2. Assign specific storage missions, when storage space can be made available, to installations other than area distribution depots, regardless of military service ownership, when necessary to store clothing and textile materiel.

G. *Inventory control.* 1. Establish and maintain central control over clothing and textile materiel inventories owned by the Single Manager, and prescribe quantitative stockage objectives for such inventories, at the area distribution depots, which are necessary to meet the area distribution requirements.

2. Prescribe an inventory reporting system which will provide current, accurate, repetitive, and cyclic stock status information to the agency for all clothing and textile materiel owned by the Single Manager.

3. Prescribe requisitioning procedures to be utilized by the military services in requisitioning against Single Manager stocks and direct the phased submission of requisitions to the appropriate depots.

4. Establish prices and pricing procedures in accordance with policy as established in reference (c).

5. Direct distribution and redistribution, down to and including shipments from distribution depots, of stocks owned by the Single Manager.

6. Direct, when necessary for rotation purposes, the reallocation of assets and the utilization and consumption, by all military services, of common stocks.

7. Institute such measures as forced issue when necessary for utilization of suitable substitutes, as agreed upon between the Single Manager and the military services concerned.

8. Coordinate program for the positioning of mobilization reserve stocks to obtain maximum availability and minimum loss in the event of enemy attack, in accordance with Department of Defense policies.

9. Prescribe reports to be furnished to the Military Clothing and Textile Supply Agency by area distribution depots, or other activities, performing a mission assigned by the Single Manager, as may be necessary to carry out the responsibilities of this assignment.

10. Screen all excesses of clothing and textile materiel, including returned used materiel either owned by the Single Manager or reported by the military services and determine the utilization or disposition of such excesses.

11. Report to General Services Administration, in accordance with Department of Defense policies, those items in excess to Department of Defense requirements.

12. Prepare inventory and supply reports, as required by the military services, for the development of requirement and supply studies.

H. *Stock fund.* Establish and administer the Single Manager Clothing and Textile Materiel Stock Fund Division, in accordance with reference (c) and the charter authorizing the establishment thereof.

I. *Research and development.* The Single Manager will be kept informed of all research and development pertaining to his commodity area. He may recommend to the military services research and development into improved materials, items and methods within his commodity jurisdiction, and will recommend to the Assistant Secretary of Defense (Research and Development) any changes in the program he considers desirable. The military services, under the policies and procedures of the Secretary of Defense, are responsible for research and development programs; the Assistant Secretary of Defense (Research and Development) is responsible for reviewing these programs.

J. *Cataloging and standardization.* 1. Responsible for coordinating the cataloging operations of the military services for clothing and textile materiel in accordance with prescribed Department of Defense policies, procedures, and operations established for the Federal Catalog System; operate as a single submitting activity in the Federal Catalog System for Department of Defense clothing and textile materiel.

2. Develop and direct a program of standardization and of standards and specification preparation and maintenance within the over-all Department of Defense policies and guidance.

K. *Transportation.* Arrange for required transportation or traffic management services from the respective Single Managers assigned responsibilities for traffic management (Single Managers for Military Traffic Management, Military Sea Transportation Service and Military Air Transport Service) in accordance with criteria and procedures established by those Single Managers, or as may otherwise be authorized by the Secretary of Defense.

L. *Maintenance and manufacture.* Coordinate the operation of all military activities engaged in maintenance, manufacture, assembly, or approved rehabilitation of clothing and textile materiel owned by or entering the wholesale distribution system.

M. *Personnel and training.* 1. In planning the organization and staffing required for the Agency, establish military and civilian career development patterns which shall be coordinated with and supplement programs of the military services. Personnel training requirements peculiar to a particular military service will be considered in the development of the program and incorporated therein by the Single Manager.

2. Coordinate the execution of an adequate and well integrated, specialized training program with industry (regular and reserve). Review training programs of the services and recommend measures to provide for maximum cross-servicing in the training of units and individuals within available facilities.

N. *General.* 1. Prepare reports as required by the Office of the Secretary of Defense.

2. The Single Manager is authorized and expected to maintain close liaison with non-Governmental organizations, associations and industry on matters affecting the responsibilities under this Directive, subject to the provisions of Department of Defense Directive 5500.2, dated 13 September 1954.

VI. *Implementation.* A. Implementation of the Single Manager assignment for clothing and textile materiel will obviate the requirement for any military service to perform the management functions assigned herein to the Single Manager, except when performing mis-

sions assigned by the Single Manager. Thus, all existing organizations within the military services, which perform such functions, shall have their missions, status, and manning modified, redefined, and adjusted, as early as possible, so as to exclude the functions assumed by the Military Clothing and Textile Supply Agency and to reflect their reduced mission status.

B. The operating agency shall be so organized that, as a minimum, it will perform directly within its organization, at one location, the responsibilities designated in Paragraph V. B., V. C., V. G. and V. H. above.

C. Within ninety days, regulations, procedures organizational arrangements, and adjustments among military services as to personnel, personnel spaces and funds, required to implement the provisions of this Directive, will be developed and coordinated with the military services by the Single Manager and copies transmitted to the Assistant Secretary of Defense (Supply and Logistics) for approval. The Assistant Secretary of Defense (Supply and Logistics) will coordinate the approval of such matters with other cognizant elements of the Office of the Secretary of Defense.

VII. *Annexes.* The following annexes are incorporated as part of this Directive:

Annex A—Statement of the related responsibilities of the Single Manager and the military services in connection with this commodity assignment.

Annex B—Listing of items, within the Federal Supply Groups and Classes, assigned to the Single Manager for Clothing and Textile Materiel (to follow).

VIII. *Effective date.* Development of implementation measures will be commenced immediately.

REUBEN B. ROBERTSON, JR.,
*Deputy Secretary of Defense.*

ANNEX A

RELATED RESPONSIBILITIES OF SINGLE MANAGER AND THE MILITARY SERVICES

| *Single Manager* | *Military Services* |
|---|---|
| 1. *Organization and Management*<br>a. Designate the Executive Director and establish the Military Clothing and Textile Supply Agency under his control. | a. Not applicable. |
| b. Provide administrative support to the agency. Provide all civilian personnel and Army military personnel as required. Identify positions as military or civilian, based on criteria established by the Office of the Secretary of Defense. | b. Not applicable. (Initially there will be a readjustment of personnel, personnel spaces and funds among the military services to provide the Single Manager with ceiling, etc.) |
| c. Determine requirements for officer personnel from other services with Secretaries of the other military departments. Integrate such officer personnel into operational assignments in the Agency. Rotate key military staff positions among the military services on a periodic basis, as agreed with the other military departmental Secretaries. | c. Furnish officer personnel, as required, for the staffing of the Agency. |
| d. Organize the Administrative Committee under the chairmanship of the Executive Director. | d. Provide departmental representatives and such augmentation personnel as the Single Manager may request. |
| e. Determine specific distribution areas. Assign to military services distribution areas to be supported as agents of the Single Manager. Furnish necessary operating procedures to the military service responsible for a distribution area. | e. Perform distribution functions in accordance with the procedures prescribed by the Single Manager. Provide administrative support for designated area distribution depots. |
| f. Administer and manage the Department of Defense Duck and Webbing Pool which will include but not limited to control over and reinvestment of pool funds. | f. Provide such information to the Single Manager as may be required for the operation of the Department of Defense Duck and Webbing Pool. |
| 2. *Requirements*<br>Receives from the military services on a cyclical basis, peacetime and mobilization requirements; directs submissions of inventory status reports for the retail level, by distribution area, including statement of stocks held for operating needs and for reserves; and, in accordance with Assistant Secretary of Defense (Supply and Logistics) policies and procedures, computes net peacetime and mobilization requirements for the Agency and develops the total Department of Defense requirements program for the items under his single managership. Provide for Mutual Defense Assistance Program and civilian aid programs as necessary. | Provide the Single Manager with information regarding requirements data, quantities of stocks on hand at the retail level, by distribution depot area, as directed, on a cyclical basis. Also, report significant changes in these areas as they occur. Furnish necessary data, including basic assumptions and factors upon which the requirements were promised, to the Single Manager to enable him to review and comment on the validity thereof. Furnish Mutual Defense Assistance Program and civilian aid program requirements as authorized. |
| 3. *Procurement*<br>Conduct or direct procurement pursuant to the Armed Services Procurement Act, Armed Services Procurement Regulation and Army Procurement Procedures, including contract administration, as a single service purchase assignment to the Single Manager for all centrally procured items. Designate those items to be procured locally. | Procure locally those items designated by the Single Manager, financing such purchase by allotments from the retail stock funds. Conduct such central purchase as directed and funded by the Single Manager. |
| 4. *Inspection*<br>Direct the program of Inspection and Quality Control for clothing and textile materiel, utilizing established inspection services and facilities to the maximum degree; this program shall apply to the procurement, storage, and maintenance of supplies. | Conduct inspection and maintain control of quality when requested and as directed by the Single Manager. |
| 5. *Mobilization Planning*<br>a. Coordinate and direct mobilization planning in assigned area of supply management responsibility. Recommend to the Office of the Secretary of Defense related mobilization policies and procedures for interagency agreements and coordination with over-all Department of Defense mobilization plans. Arrange for or conduct mobilization planning for all items for which advance planning is necessary to assure adequate wartime production to meet military needs. | a. Provide mobilization planning data as required by the Single Manager for this purpose. |
| b. Under the policies and procedures of the Production Allocation Program, serve as Claimant Procurement Planning Officer (CPPO) providing desired mobilization production requirements to Armed Services Procurement Planning Officers for negotiation with industry and approving final schedules after negotiation. Serve as Armed Services Procurement Planning Officer for such plants for which planning responsibility has been or may be assigned by the Assistant Secretary of Defense (Supply and Logistics). | b. Serve as Armed Services Procurement Planning Officers (ASPPO's) for those plants for which planning responsibility may be assigned by the Assistant Secretary of Defense (Supply and Logistics), negotiating Tentative Mobilization Production Schedules with industrial management, and securing final approval by the Single Manager and industrial management. |

ANNEX A—Continued

RELATED RESPONSIBILITIES OF SINGLE MANAGER AND THE MILITARY SERVICES—continued

| *Single Manager* | *Military Services* |
|---|---|
| c. Develop procedures for locating potential sources of supply for other items for which Production Allocation Program procedures are not applicable and conduct such planning thereunder as may be appropriate. | c. Assist the Single Manager through field procurement offices or the ASPPO organization in conducting such planning, other than Production Allocation Program, as may be appropriate. |
| d. Negotiate industry preparedness measures contracts with potential producers, research organizations, educational institutions, etc., as may be appropriate. | d. Provide assistance through field procurement offices. |
| e. Determine needs for reserve production facilities, production equipment, stockpiles of critical materials, etc., and recommend appropriate action for acquisition and maintenance thereof. | e. Provide required information, assistance, and appropriate action through the Technical Services, Bureaus, Commands, or field installations. |
| 6. *Storage*<br>Determine requirements for storage space and related activities. Request necessary space and related activities from the owning service. Establish and maintain records of space utilization. Assign specific storage missions, when storage space can be made available, to installations other than area distribution depots, whenever necessary to store Single Manager reserve stocks. | Conduct storage and related functions at designated area distribution depots, providing effective logistical support to consuming agencies, irrespective of service, in accordance with the policies and procedures of the Single Manager. Maintain records, and submit space and operating records as prescribed by the Single Manager. Perform additional storage functions, at storage points other than area distribution depots, for the Single Manager, when space can be made available. |
| 7. *Inventory Control*<br>a. Establish and maintain central control over inventories owned by the Single Manager Clothing and Textile Materiel Stock Fund Division, and prescribe quantitative stockage objectives for such inventories at the area distribution depots, which are necessary to meet the area distribution requirements. Establish prices and pricing procedures in accordance with DOD Directive 7420.1. | a. Maintain control over retail stocks. |
| b. Prescribe an inventory reporting system to provide current, accurate information regarding the status of inventories. | b. Provide inventory reports for Single Manager stocks as prescribed. |
| c. Prescribe requisitioning procedures to be utilized by the military services in requisitioning against area distribution depots, and direct the phased submission of requisitions to the appropriate area distribution depot. | c. Requisition clothing and textile materiel as prescribed by the Single Manager. |
| d. Direct distribution and redistribution of Single Manager owned stocks, down to and including shipments from distribution depots to retail level. Control redistribution of retail stocks between distribution areas. | d. Redistribution of retail stocks will be controlled by the owning military services, except that such redistribution shall not be effected between distribution areas except as authorized by the Single Manager. |
| e. Direct, when necessary for rotation purposes, the utilization and consumption, by all military services, of common stocks, regardless of where held or for whom procured. | e. Participate as necessary to provide rotation and full utilization of stocks. |
| f. Direct when appropriate and necessary, such as to balance stocks or to meet mission deadlines, the utilization of suitable substitutes. | f. Participate as necessary to provide full utilization of stocks. |
| g. Coordinate program among the military services and with civilian agencies of the Government for positioning of mobilization reserve stocks to obtain maximum availability and minimum loss in the event of enemy attack, in accordance with Department of Defense policies. | g. Participate as necessary to obtain the objectives of this program. |
| h. Prescribe such reports as may be necessary to carry out the responsibilities of this assignment. | h. Submit reports as required by the Single Manager. |
| i. Screen all excesses of clothing and textile materiel, including returned used materiel, either owned by the Single Manager or reported by the military services, and determine the utilization of such excesses. Report to General Services Administration those items excess to Department of Defense requirements. | i. Screen all excesses owned and held at retail level and determine those items to be redistributed among requisitioning activities of military service concerned. Such redistribution shall be confined to the same distribution area unless otherwise approved by the Single Manager. Items not required within the service will be reported to the Single Manager as excess. |
| 8. *Stock Fund*<br>Establish and administer the Single Manager Clothing and Textile Materiel Division of the Army Stock Fund for the management of Single Manager controlled stocks. | Maintain a retail stock fund which will reimburse the Single Manager Clothing and Textile Materiel Division, of the Army Stock Fund for withdrawals from Single Manager owned stocks, and to finance inventories acquired through local purchase. Military services will prepare and support their own budgets in the normal manner and administer their respective retail stock funds. |
| 9. *Research and Development*<br>Recommend to a military service or services Research and Development into improved materials, items, and methods within his commodity jurisdiction. He will be kept informed on research and development in his commodity area. He will recommend to the Assistant Secretary of Defense (Research and Development) any changes in the program he considers desirable. | Initiate requirements for research and development, and perform research and development. The services may initiate and perform research and development in areas of peculiar interest to their requirements in accordance with established coordinating procedures. |
| 10. *Cataloging and Standardization*<br>a. Responsible for coordinating the cataloging operations of the military services for clothing and textile materiel in accordance with prescribed Department of Defense policies, procedures and operations established for the Federal Catalog System; operate as a single submitting activity in the Federal Catalog System for Department of Defense clothing and textile materiel. | a. Perform those functions of the Federal Catalog System for clothing and textile materiel as prescribed by the Single Manager; utilize Federal Catalog Data as the prime identification data in all supply and logistics operations, consistent with Department of Defense policies. |

ANNEX A—Continued

RELATED RESPONSIBILITIES OF SINGLE MANAGER AND THE MILITARY SERVICES—continued

| | *Single Manager* | *Military Services* |
|---|---|---|
| | b. Develop and direct a program of standardization and of standards and specifications within the over-all Department of Defense policies and guidance. | b. Accomplish such standards and specifications work as is assigned by the Single Manager. Inform the Single Manager of use needs, and recommend or concur in adoption and standardization or rejection of materiel. Determinations on items peculiar to a single military service will remain with that service, but will be subject to review and action by the Single Manager in consonance with his responsibilities under the over-all Department of Defense policies in this field. |
| 11. | *Maintenance and Manufacture*<br>Coordinate the operation of all military activities engaged in maintenance, manufacture, assembly, or approved rehabilitation of materiel owned by or entering the wholesale distribution system. | Perform as requested by the Single Manager the maintenance, manufacture, assembly or approved rehabilitation of materiel owned by or entering the wholesale distribution system. |
| 12. | *Personnel and Training*<br>a. Provide a civilian personnel program and training standards for all personnel assigned under direction of the Single Manager. | a. The existing civilian personnel and training offices of the military services will be utilized in carrying out the civilian personnel and training program. |
| | b. Coordinate specialized military training programs with respect to clothing and textile materiel and recommend measures for interdepartmental training. | b. Participate in specialized training program. |
| 13. | *General*<br>Prepare or prescribe such reports as required to perform Single Manager responsibilities or as required by the Office of the Secretary of Defense. | Provide such information to Single Manager as may be required. |

[DOD Directive Number 5160.16, May 4, 1956]

## SINGLE MANAGER ASSIGNMENT FOR MEDICAL MATERIEL

References: [1]

(a) Directive 4000.8, Basic Regulations for the Military Supply System, November 17, 1952.

(b) Directive 5160.12, Policies for Implementation of Single Manager Assignments, January 31, 1956.

(c) Directive 7420.1, Regulations Governing Stock Fund Operations, February 1, 1954.

I. *Authority and purpose.* A. Pursuant to the authority vested in the Secretary of Defense by the National Security Act of 1947, as amended, a Single Manager Commodity Assignment is hereby directed within the Department of Defense, with authority, functions, responsibilities, and relationships as set forth below, recognizing that the primary mission is to effectively support the military effort of the country.

B. The purposes and objectives of this assignment are:

1. To provide the most effective and economical means of supplying medical materiel to the Armed Services.

2. To eliminate duplication and overlapping of effort between and among military services.

3. To apply the basic pattern for all organizations performing a Single Manager support mission, as prescribed in reference (b) above, to the mission of supplying medical materiel to the Armed Services.

II. *Scope.* The Single Manager Plan will be employed, as appropriate, for the management of medical materiel within the continental United States, and may be extended to include operations outside the continental United States when directed by the Secretary of Defense.

III. *Definitions*—A. *Single Manager.* The Secretary of a Military Department who is designated by the Secretary of Defense to be responsible for the organization and operation of the Single Manager assignment for medical materiel.

B. *Executive Director for Medical Materiel.* The individual designated by the Single Manager to manage the Single Manager operating agency for medical materiel.

C. *Single Manager Operating Agency.* An organization which, under the direction of the Executive Director for Medical Materiel, shall direct and control all assigned functions of supply management of medical materiel for all military services. It shall be titled the Military Medical Supply Agency.

D. *Administrative Committee.* A group designated to assist the Executive Director in identifying and overcoming problems concerning the operation of this assignment. The committee shall be neither a policy board nor an executive directorate, but rather a group of specialists meeting to recommend solutions to particular problems and to promote the effectiveness and economy with which the agency meets the needs of the military services. Its membership shall be as follows:

1. Executive Director, Chairman.

2. A representative each from the Army, Navy, Marine Corps, and the Air Force.

3. The Assistant Secretaries of Defense, Comptroller, Health and Medical, and Supply and Logistics, or their representatives.

4. Such technical or professional personnel augmentations from the military services as the Single Manager determines to be necessary and as medical materiel supply problems under consideration dictate.

E. *Administrative support.* The provision of personnel, space, equipment, facilities, and supplies, including the related budgeting, funding, fiscal control, training, manpower control and utilization, personnel administration, security administration, mobilization planning, and other administrative provisions and services necessary to carry out assigned missions.

F. *Medical materiel.* All items of medical, dental, and veterinary supplies and equipment falling within Federal Supply Group 65, and all other items of related materiel authorized by the Office of the Secretary of Defense (Annex B).

G. *Supply management of medical materiel.* The exercise of direction and control of medical material supply operations, including the functions of cataloging, standardization, net requirements determination, procurement, production, inspection, storage, distribution, disposal, transportation, maintenance, and mobilization planning.

H. *Single Manager Stocks.* Medical materiel acquired by and maintained in the wholesale distribution system, under the control and ownership of the Single Manager, down to but excluding retail stocks. This includes operating stocks and economic, contingency, and mobilization reserves.

I. *Single Manager Medical Materiel Stock Fund Division.* An administrative division of the Navy Stock Fund established pursuant to regulations governing operations of Stock Funds (Department of Defense Directive 7420.1) to finance Single Manager medical materiel stocks.

J. *Retail Medical Materiel Stock Fund Divisions or Categories.* The division or category established within each of the military departmental stock funds to finance retail medical materiel stocks.

K. *Wholesale distribution.* An area depot distribution system designed to distribute and issue medical materiel in bulk quantities to the post, camp, station, or base level of all services. This distribution system shall employ the facilities best suited to the requirements of the area served, regardless of military service ownership.

L. *Retail stocks.* Medical materiel not included in Single Manager stocks which is necessary to be held and controlled by individual military services for issue or resale to final consumers in performance of assigned missions, and which is not under the direct management of the Single Manager.

IV. *Delegation of authorities and responsibilities.* A. The Secretary of the Department of the Navy is hereby designated as the Single Manager for medical materiel, subject to over-all guidance, policies, and programs of the Office of the Secretary of Defense, with the responsibilities and authorities assigned under this Directive. Additions or deletions of specific items from the cognizance of the Single Manager will be authorized only by the Office of the Secretary of Defense. Requests for change may be initiated by a military service and shall be forwarded through the Single Manager for his recommendation to the Secretary of Defense.

B. As Single Manager for medical materiel, the primary responsibility of the Secretary of the Navy shall be to effectively meet the supply support requirements of the military services in terms of centrally managed medical items. He shall also be responsible for fulfilling other support responsibilities placed upon the Department of Defense for such items. He shall be responsible for utilization of all applicable portions of reference (b), except where such portions are specifically modified or amplified herein.

C. The Secretary of each military department shall be responsible for the administrative support of all installations and activities under his jurisdiction, including administrative support required to perform those functions assigned by the Single Manager. Military departments will furnish to the Single Manager complete data regarding administrative support costs incurred on the basis of missions assigned by the Single Manager. Such data shall be compiled on a comparable basis and, as soon as practicable, derived from a uniform expense classification and related to budget and apportionment requests.

D. The Secretary of each military department shall be responsible for requirements determination, for supply of medical materiel to using elements at retail level, and for control of reserve stocks at levels below the wholesale distribution level. Departmental planned requirements will be submitted to the Military Medical Supply Agency on a cyclical basis, in accordance with policies and procedures established by the Assistant Secretary of Defense (Supply and Logistics).

E. The Secretary of each military department shall be responsible for full cooperation with the Single Manager in carrying out the provisions of the applicable portions of reference (b) and the provisions of this Directive.

V. *Authorities and responsibilities of the Single Manager*—A. *Organization and Management.* 1. Designate an Executive Director for Medical Materiel, subject to approval by the Secretary of Defense. The Executive Director shall have no other duties but to direct the operations of the Military Medical Supply Agency. The Executive Director shall be responsible to the Secretary of the Navy through channels prescribed by that Secretary.

2. Establish and organize the Military Medical Supply Agency in accordance with reference (b) above, except as otherwise specifically modified herein.

3. The Agency shall be staffed by civilian personnel employed by the Department of the Navy and by military personnel from all military services, as appropriate, not necessarily with equal representation. Positions within the Agency staff will be identified as military or civilian, based on criteria established by the Secretary of Defense. Key military staff positions subordinate to the Executive Director shall be subject to rotation on a periodic basis among the military services, as agreed to by the Single Manager and the Secretaries of the other two military departments, with due consideration being given to the qualifications of the individuals concerned and the career program needs of each military service. The Department of the Navy will be responsible for providing the administrative support for the Agency. Initially, however, personnel, personnel spaces, funds, facilities and equipment will be adjusted among the military services for responsibilities assigned to the Agency in order to meet the support requirements of the Single Manager created by this Directive. Such personnel adjustments will be accomplished in accordance with the provisions of DOD Instruction 1404.4, dated April 19, 1955.

4. Organize the Administrative Committee in accordance with paragraph III.D. above.

5. Assign the distribution mission for medical materiel for each distribution area to specific area distribution depots, from which all military installations in the area will requisition.

B. *Requirements.* 1. Receive from the military services on a cyclical basis statements of peacetime and mobilization requirements, computed and submitted in accordance with policies and procedures established by the Assistant Secretary of Defense (Supply and Logistics), together with necessary data including basic assumptions, and factors upon which the requirements were premised, to enable review and comment on the validity of the requirements.

2. Direct the submissions, on a periodic basis, of inventory status reports at the retail level, by distribution area, of the total stocks on hand and the quantities of those stocks held for operating needs, and those stocks held for reserves. This refers to stocks owned and positioned by the military services.

3. In accordance with policies and procedures established by the Assistant Secretary of Defense (Supply and Logistics), develop the total Department of Defense requirements program and compute net peacetime and mobilization requirements for the Agency, for purposes of procurement, distribution, and disposal.

4. Receives from the military departments the requirements for Mutual Defense Assistance Program and civilian aid programs.

C. *Procurement.* 1. Conduct or direct procurement, pursuant to the provisions of the Armed Services Procurement Act, Armed Services Procurement Regulations (ASPR), and the Navy Purchase Directives, including contract administration, as a single service purchase assignment to the Single Manager for all centrally procured items. Designate those items to be procured locally. The designation or redesignation of items from local procurement to central procurement or vice versa will be coordinated with the military services with sufficient time allowed for an orderly adjustment of the affected programs. Stock Fund Items authorized to be procured locally shall be financed by allotments of the retail stock funds.

2. Obtain and furnish to the military services procurement and production data for use in requirements and supply studies.

3. The Single Manager shall be responsible for accounting and control of government-furnished materiel in the hands of contractors and government manufacturing plants in connection with procurement of end items.

4. Procure materiel for the Mutual Defense Assistance Program and civilian aid programs to fulfill requirements submitted by the departments which are not available from stocks owned by the Single Manager.

5. Administer the priorities and allocation authority, in the purchase of medical materiel, delegated by the Assistant Secretary of Defense (Supply and Logistics), in accordance with the Department of Defense Priorities and Allocations Manual, pursuant to Department of Defense Instruction 4410.1, and plan for administration in accordance with Department of Defense Emergency Priorities Allocation Manual (4410.2).

6. Purchase medical materiel for the Federal Civil Defense Administration on the basis of mutual agreement.

D. *Inspection.* Direct the program of inspection and quality control for medical materiel, utilizing established inspection services and facilities to the maximum degree; this program shall apply to the procurement, storage, and maintenance of supplies.

E. *Mobilization planning.* 1. Coordinate and direct mobilization planning in assigned areas of supply management responsibility. Recommend related mobilization policies and procedures to responsible Assistant Secretaries of Defense for interagency agreements and coordination with over-all Department of Defense mobilization plans.

2. Arrange for or conduct industrial mobilization planning for all items under the Single Manager for which advance planning is necessary to assure adequate wartime production to meet military needs. Such actions may include, but are not limited to:

a. Developing with industry, under the policies and procedures of the Production Allocation Program, mobilization production schedules for all items on the Department of Defense Preferential Planning List and the several approved Departmental Planning Lists.

[1] Not filed with Federal Register Division.

b. Developing procedures for locating potential sources of supply for other items and conducting such planning as may be appropriate.

c. Negotiating industry preparedness measures contracts as appropriate.

d. Determining needs for reserve production facilities, production equipment, stockpiles of critical materials, etc., and recommending appropriate action for acquisition and maintenance thereof.

F. *Storage.* 1. Determine requirements for storage space and related activities. Request necessary space and related activities from owning services. Establish and maintain records of space utilization.

2. Assign specific storage missions, when storage space can be made available, to installations other than area distribution depots, regardless of military service ownership, when necessary to store medical materiel.

G. *Inventory control.* 1. Establish and maintain central control over medical materiel inventories owned by the Single Manager, and prescribe quantitative stockage objectives for such inventories, at the area distribution depots, which are necessary to meet the area distribution requirements.

2. Prescribe an inventory reporting system which will provide current, accurate, repetitive, and cyclic stock status information to the Agency for all medical materiel owned by the Single Manager.

3. Prescribe requisitioning procedures to be utilized by the military services in requisitioning against Single Manager stocks and direct the phased submission of requisitions to the appropriate depots.

4. Establish prices and pricing procedures in accordance with policy as established in reference (c).

5. Direct distribution and redistribution, down to and including shipments from distribution depots, of stocks owned by the Single Manager.

6. Basing actions on policies approved by the Assistant Secretary of Defense (Health and Medical) direct, when necessary for rotation purposes, the reallocation of assets and the utilization and consumption, by all military services, of common stocks.

7. Institute such measures as forced issue when necessary for utilization of suitable substitutes. Substitutions of medical materiel will be made only in accordance with lists of substitute items developed by the Surgeons General and furnished to the Single Manager for consolidation and distribution.

8. Coordinate program for the positioning of mobilization reserve stocks to obtain maximum availability and minimum loss in the event of enemy attack, in accordance with Department of Defense policies and with consideration of the Federal Civil Defense Administration medical reserve program.

9. Prescribe reports to be furnished to the Military Medical Supply Agency by area distribution depots, or other activities performing a mission assigned by the Single Manager, as may be necessary to carry out the responsibilities of this assignment.

10. Screen all excesses of medical materiel, including returned used material either owned by the Single Manager or reported by the military services and determine the utilization or disposition of such excesses.

11. Report to General Services Administration, in accordance with Department of Defense policies, those items excess to Department of Defense requirements.

12. Prepare inventory and supply reports, as required by the military services, for the development of requirement and supply studies.

H. *Stock Fund.* Establish and administer the Single Manager Medical Materiel Stock Fund Division, in accordance with reference (c) and the charter authorizing the establishment thereof.

I. *Research and development.* The Single Manager will be kept informed of all research and development pertaining to his commodity area. He may recommend to the military services research and development into improved materiels, items and methods within his commodity jurisdiction, and will recommend to the Assistant Secretary of Defense (Research and Development) any changes in the program he considers desirable. The military departments, under the policies and procedures of the Secretary of Defense, are responsible for research and development programs; the Assistant Secretary of Defense (Research and Development) is responsible for reviewing these programs.

J. *Cataloging and standardization.* 1. Responsible for coordinating the cataloging operations of the military services for medical materiel in accordance with prescribed Department of Defense policies, procedures, and operations established for the Federal Catalog System; operate as a single submitting activity in the Federal Catalog System for Department of Defense medical materiel.

2. Develop and direct a program of standardization and of standards and specification preparation and maintenance within the over-all Department of Defense policies and guidance.

K. *Transportation.* Arrange for required transportation or traffic management services from the respective Single Managers assigned responsibilities for traffic management (Single Managers for Military Traffic Management, Military Sea Transportation Service, and Military Air Transport Service) in accordance with criteria and procedures established by those Single Managers, or as may otherwise be authorized by the Secretary of Defense.

L. *Maintenance and manufacture.* Coordinate the operation of all military activities engaged in maintenance, manufacture, assembly, or approved rehabilitation of medical materiel owned by or entering the wholesale distribution system.

M. *Personnel and training.* 1. In planning the organization and staffing required for the Agency, establish military and civilian career development patterns which shall be coordinated with and supplement programs of the military services. Personnel training requirements peculiar to a particular military service will be considered in the development of the program and incorporated therein by the Single Manager.

2. Coordinate the execution of an adequate and well integrated, specialized training program with industry (regular and reserve). Review training programs of the services and recommend measures to provide for maximum cross-servicing in the training of units and individuals within available facilities.

N. *General.* 1. Prepare reports as required by the Office of the Secretary of Defense.

2. The Single Manager is authorized and expected to maintain close liaison with non-Governmental organizations, associations and industry on matters affecting the responsibilities under this Directive, subject to the provisions of Department of Defense Directive 5500.2, dated September 13, 1954.

VI. *Implementation.* A. Implementation of the Single Manager assignment for medical materiel will obviate the requirement for any military service to perform the management functions assigned herein to the Single Manager, except when performing missions assigned by the Single Manager. Thus, all existing organizations within the military services which perform such functions shall have their missions, status, and manning modified, redefined, and adjusted as early as possible so as to exclude the functions assumed by the Military Medical Supply Agency and to reflect their reduced mission status. Industrial mobilization planning functions under the Production Allocation Program—both as Armed Services Procurement Planning Officer (ASPPO) and as Claimant Procurement Planning Officer (CPPO)—currently being performed by ASMPA for the Assistant Secretary of Defense (Supply and Logistics) be transferred without change to the Military Medical Supply Agency.

B. The operating agency shall be so organized that, as a minimum, it will perform directly within its organization, at one location, the responsibilities designated in Paragraph V. B., V. C., V. G., and V. H. above.

C. Within ninety days, regulations, procedures, organizational arrangements, and adjustments among military services as to personnel, personnel spaces and funds, required to implement the provisions of this Directive, will be developed and coordinated with the military services by the Single Manager and transmitted to the Office of the Secretary of Defense for approval. The Assistant Secretary of Defense (Supply and Logistics) will coordinate the approval of such matters with other cognizant elements of the Office of the Secretary of Defense.

VII. *Annexes.* The following annexes are incorporated as part of this Directive:

Annex A—Statement of the related responsibilities of the Single Manager and the military services in connection with this commodity assignment.

Annex B—Listing of items, within the Federal Supply Groups and Classes, assigned to the Single Manager for Medical Materiel (to follow).

VIII. *Effective date.* Development of implementation measures will be commenced immediately.

REUBEN B. ROBERTSON, Jr.,
*Deputy Secretary of Defense.*

ANNEX A

RELATED RESPONSIBILITIES OF SINGLE MANAGER AND THE MILITARY SERVICES

| *Single Manager* | *Military Services* |
|---|---|
| 1. *Organization and Management*<br>a. Designate the Executive Director and establish the Military Medical Supply agency under his control. | a. Not applicable. |
| b. Provide administrative support to the Agency. Provide all civilian personnel and Navy military personnel as required. Identify positions as military or civilian based on criteria established by the Office of the Secretary of Defense. | b. Not applicable. (Initially there will be a readjustment of personnel, personnel spaces, and funds among the military services to provide the Single Manager with ceiling, etc.) |
| c. Determine requirements for officer personnel from other services with Secretaries of the other military departments. Integrate such officer personnel into operational assignments in the Agency. Rotate key military staff positions among the military services on a periodic basis, as agreed with the other military departmental Secretaries. | c. Furnish officer personnel as required for the staffing of the Agency. |
| d. Organize the Administrative Committee under the chairmanship of the Executive Director. | d. Provide departmental representative and such augmentation personnel as the Single Manager may request. |
| e. Determine specific distribution areas. Assign to military services distribution areas to be supported, as agents of the Single Manager. Furnish necessary operating procedures to the military service responsible for a distribution area. | e. Perform distribution functions in accordance with procedures prescribed by the Single Manager. Provide administrative support for designated area distribution depots. |
| 2. *Requirements*<br>Receives from the military departments, on a cyclical basis, peacetime and mobilization requirements; directs submissions of inventory status reports for the retail level by distribution area including statement of stocks held for operating needs and for reserves; and, in accordance with Assistant Secretary of Defense (Supply and Logistics) policies and procedures, computes net peacetime and mobilization requirements for the Agency and develops the total Department of Defense requirements program for the items under his single managership. Provide for Mutual Defense Assistance Program and civilian aid programs as necessary. | Provide the Single Manager with information regarding requirements data, quantities of stocks on hand at the retail level by distribution depot area, as directed, on a cyclical basis. Also, report significant changes in these areas as they occur. Furnish necessary data, including basic assumptions and factors upon which the requirements were premised, to the Single Manager to enable him to review and comment on the validity thereof. Furnish Mutual Defense Assistance Program and civilian aid program requirements as authorized. |
| 3. *Procurement*<br>Conduct or direct procurement pursuant to the Armed Services Procurement Act (ASPR), and Navy Purchase Directives, including contract administration, as a single service purchase assignment to the Single Manager for all centrally procured items. Designate those items to be procured locally. | Procure locally those items designated by the Single Manager, financing such purchase by allotments from the retail stock funds. Conduct such central purchase as directed and funded by the Single Manager. |
| 4. *Inspection*<br>Direct the program of inspection and quality control for medical materiel utilizing established inspection services and facilities to the maximum degree; this program shall be applicable to procurement, storage, and maintenance of supplies. | Conduct inspection and maintain control of quality when requested and as directed by the Single Manager. |
| 5. *Mobilization Planning*<br>a. Coordinate and direct mobilization planning in assigned area of supply management responsibility. Recommend to the Office of the Secretary of Defense related mobilization policies and procedures for interagency agreements and coordination with over-all Department of Defense mobilization plans. Arrange for or conduct mobilization planning for all items for which advance planning is necessary to assure adequate wartime production to meet military needs. | a. Provide mobilization planning data as required by the Single Manager for this purpose. |
| b. Under the policies and procedures of the Production Allocation Program, serve as Claimant Procurement Planning Office (CPPO) providing desired mobilization production requirements to ASPPO's for negotiation with industry and approving final schedules after negotiation. Serve as ASPPO for such plants for which planning responsibility has been or may be assigned by the Assistant Secretary of Defense (Supply and Logistics). | b. Serve as Armed Services Procurement Planning Officers (ASPPO's) for those plants for which planning responsibility may be assigned by the Assistant Secretary of Defense (Supply and Logistics), negotiating tentative mobilization production schedules with industrial management, and securing final approval by the Single Manager and industrial management. |
| c. Develop procedures for locating potential sources of supply for other items for which Production Allocation Program procedures are not applicable and conduct such planning thereunder as may be appropriate. | c. Assist the Single Manager through field procurement offices or the ASPPO organization in conducting such planning, other than Production Allocation Programs, as may be appropriate. |
| d. Negotiate industry preparedness measures contracts with potential producers, research organizations, educational institutions, etc., as may be appropriate. | d. Provide assistance through field procurement offices. |
| e. Determine needs for reserve production facilities, production equipment, stockpiles of critical materials, etc., and recommend appropriate action for acquisition and maintenance thereof. | e. Provide required information, assistance, and appropriate action through the Technical Services Bureaus, Commands, or field installations. |
| 6. *Storage*<br>Determine requirements for storage space and related activities. Request necessary space and related activities from the owning service. Establish and maintain records of space utilization. Assign specific storage missions, when storage space can be made available, to installations other than area distribution depots, whenever necessary to store Single Manager reserve stocks. | Conduct storage and related functions at designated area distribution depots, providing effective logistical support to consuming agencies, irrespective of service, in accordance with the policies and procedures of the Single Manager. Maintain records and submit space and operating reports as prescribed by the Single Manager. Perform additional storage functions, at storage points other than area distribution depots, for the Single Manager, when space can be made available. |

ANNEX A—Continued

RELATED RESPONSIBILITIES OF SINGLE MANAGER AND THE MILITARY SERVICES—continued

| *Single Manager* | *Military Services* |
|---|---|
| 7. *Inventory Control*<br>a. Establish and maintain central control over inventories owned by the Single Manager Medical Materiel Stock Fund Division, and prescribe quantitative stockage objectives for such inventories, at the area distribution depots, which are necessary to meet the area distribution requirements. Establish prices and pricing procedures in accordance with Department of Defense Directive 7420.1. | a. Maintain control over retail stocks. |
| b. Prescribe an inventory reporting system to provide current, accurate information regarding the status of inventories. | b. Provide inventory reports for Single Manager stocks as prescribed. |
| c. Prescribe requisitioning procedures to be utilized by the military services in requisitioning against area distribution depots, and direct phased submission of requisitions to appropriate area distribution depots. | c. Requisition medical materiel as prescribed by the Single Manager. |
| d. Direct distribution and redistribution of Single Manager owned stocks, down to and including shipments from distribution depots to retail level. Control redistribution of retail stocks between distribution areas. | d. Redistribution of retail stocks will be controlled by the owning military services, except that such redistribution shall not be effected between distribution areas unless authorized by the Single Manager. |
| e. Basing actions on policies approved by the Assistant Secretary of Defense (Health and Medical), direct, when necessary for rotation purposes, the reallocation of assets and the utilization and consumption, by all military services, of common stocks regardless of where held. | e. Participate as necessary to provide rotation and full utilization of stocks. |
| f. Basing actions on policies approved by the Assistant Secretary of Defense (Health and Medical), direct, when appropriate and necessary, such as to balance stocks or to meet mission deadlines, the utilization of suitable substitutes in accordance with lists of substitute items developed by the Surgeons General and furnished to the Single Manager for consolidation and distribution. | f. Participate as necessary to provide full utilization of stocks. |
| g. Coordinate program among the military services and with civilian agencies of the government for positioning of mobilization reserve stocks to obtain maximum availability and minimum loss in the event of enemy attack, in accordance with Department of Defense policies. | g. Participate as necessary to obtain the objectives of this program. |
| h. Describe such reports as may be necessary to carry out the responsibilities of this assignment. | h. Submit reports as required by the Single Manager. |
| i. Screen all excesses of medical materiel, including returned used material, either owned by the Single Manager or reported by the military services, and determine the utilization of such excesses. Report to General Services Administration those items excess to Department of Defense requirements. | i. Screen all excesses owned and held at retail level and determine those items to be redistributed among requisitioning activities of military service concerned. Such redistribution shall be confined to the same distribution area unless otherwise approved by the Single Manager. Items not required within the service will be reported to the Single Manager as excess. |
| 8. *Stock Fund*<br>Establish and administer the Single Manager Medical Materiel Division Stock Fund for the management of Single Manager controlled stocks. | Maintain a retail stock fund which will reimburse the Single Manager Medical Materiel Division Stock Fund for withdrawals from Single Manager owned stocks, and to finance inventories acquired through local purchase. Military services will prepare and support their own budgets in the normal manner and administer their respective retail stock funds. |
| 9. *Research and Development*<br>Recommend, to a military service or services, research and development into improved materials, items, and methods within his commodity jurisdiction. He will be kept informed on research and development in his commodity area. Recommend to the Assistant Secretary of Defense (Research and Development) any changes in the program he considers desirable. | Initiate requirements for research and development, and perform research and development. The services may initiate and perform research and development in areas of peculiar interest to their requirements in accordance with established coordinating procedures. |
| 10. *Cataloging and Standardization*<br>a. Responsible for coordinating the cataloging operations of the military services for medical materiel in accordance with prescribed Department of Defense policies, procedures, and operations established for the Federal Catalog System; operate as a single submitting activity in the Federal Catalog System for Department of Defense medical materiel. | a. Perform those functions of the Federal Catalog System for medical materiel as prescribed by the Single Manager; utilize Federal catalog data as the prime identification data in all supply and logistics operations, consistent with Department of Defense policies. |
| b. Develop and direct a program of standardization and of standards and specifications within the overall Department of Defense policies and guidance. | b. Accomplish such standards and specifications work as is assigned by the Single Manager. Inform the Single Manager of use needs, and recommend or concur in adoption, and standardization or rejection of material. Determinations on items peculiar to a single military service will remain with that service, but will be subject to review and action by the Single Manager in consonance with his responsibilities for standardization under the over-all Department of Defense policies in this field. |
| 11. *Maintenance and Manufacture*<br>Coordinate the operation of all military activities engaged in maintenance, manufacture, assembly, on approved rehabilitation of materiel owned by or entering the wholesale distribution system. | Perform as requested by the Single Manager the maintenance, manufacture, assembly or approved rehabilitation of materiel owned by or entering the wholesale distribution system. |
| 12. *Personnel and Training*<br>a. Provide a civilian personnel program and training standards for all personnel assigned under direction of the Single Manager. | a. The existing civilian personnel and training offices of the military services will be utilized in carrying out the civilian personnel and training program. |
| b. Coordinate specialized military training programs with respect to medical materiel and recommend measures for interdepartmental training. | b. Participate in specialized training programs. |
| 13. *General*<br>Prepare or prescribe such reports as required to perform Single Manager responsibilities or as required by the Office of the Secretary of Defense. | Provide such information to Single Manager as may be required. |

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

NEW MEXICO

STOCK DRIVEWAY WITHDRAWAL NO. 81
NEW MEXICO NO. 12, REDUCED

JUNE 13, 1956.

Pursuant to the authority contained in section 10 of the act of December 29, 1916 (39 Stat. 865; 43 U. S. C. 300), as amended, and pursuant to the authority delegated to me by Order No. 541, section 2.5 (b) (1) (a) of the Director, Bureau of Land Management, approved April 21, 1954, 19 F. R. 2473, it is ordered as follows:

Departmental order of April 29, 1919 establishing Stock Driveway No. 81, New Mexico No. 12 is hereby revoked in so far as it affects the following described lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 13 N., R. 4 E.,
Sec. 30, NW¼SW¼.
T. 29 N., R. 9 W.,
Sec. 17, N½;
Sec. 18, SE¼SE¼;
Sec. 19, Lots 5 and 7;
Sec. 20, NW¼;
Sec. 21, Lots 1, 2, 3, 4, NW¼, S½;
Sec. 26, Lots 9 to 16, inclusive;
Sec. 27, W½NE¼, NW¼, S½;
Sec. 28, NE¼;
Sec. 34, NE¼;
Sec. 35, Lots 1 to 10, inclusive and Lots 15 and 16.

The areas described above aggregate 2,921.61 acres.

The lands lying in Sec. 30, NW¼SW¼, T. 13 N., R. 4 E., have been classified as suitable for lease and sale for homesite purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609, U. S. C. 682a), as amended, by Classification Order No. 42, New Mexico, dated February 23, 1956. Veterans preference has been allowed to persons entitled to such preference by the above mentioned Classification Order No. 42.

The lands in Section 18, SE¼SE¼, T. 29 N., R. 9 W., are patented lands.

The lands lying within T. 29 N., R. 9 W., are located in the Chaco Grazing District, and lie along the Largo Canyon from one to six miles distant in a southeasterly direction from Blanco, San Juan County, New Mexico. The topography of the land varies from arroyo bottom with no cover and subject to periodic flooding to gentle mesa slopes with a good cover of galleta, greasewood, chamisa and cheatgrass, with scattered sage brush to rough mesa slopes with a juniper cover. Soils are sandy and are highly susceptible to erosion. Little, if any, of the lands are suitable for farming. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any valid existing rights and the requirements of applicable law, the public lands released from withdrawal by this order, are hereby opened to filing of applications and selections in accordance with the following:

1. All valid applications for lands under the Homestead, Desert Land and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended, presented prior to 10:00 a. m. July 19, 1956, will be considered as simultaneously filed at that hour. Preference right applications filed after that hour and before 10:00 a. m. on October 18, 1956, will be governed by the time of filing.

2. All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraph 1 above, presented prior to 10:00 a. m. on October 18, 1956, will be considered as simultaneously filed at that hour. Such applications and selections filed after that hour will be governed by the time of filing.

Veterans claiming veterans preference rights under paragraph 1 above, must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, P. O. Box 1251, Santa Fe, New Mexico.

E. R. SMITH,
*State Supervisor.*

[Doc. No. 130]

ARIZONA

NOTICE OF PROPOSED WITHDRAWALS AND RESERVATION OF LANDS

JUNE 13, 1956.

The Arizona State Highway Department has filed an application, Serial No. AR–07202, for the withdrawal of the lands described below, from all forms of appropriation including the mining and mineral leasing laws. The applicant desires the land for a source of road construction materials.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, 233A Main Post Office Building, Phoenix, Arizona.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

GILA AND SALT RIVER MERIDIAN

T. 8 N., R. 27 E.,
Sec. 31: SE¼SE¼NW¼, NE¼NE¼SW¼.

The area described totals 20 acres in the Apache National Forest.

E. R. TRACITT,
*State Lands and Minerals Staff Officer.*

## National Park Service

[Region One, Order 3, Amdt. 1]

NATIONAL PARK SERVICE SUPERINTENDENTS

DELEGATION OF AUTHORITY

1. Paragraph (e) of section 1 of Order 3 (21 F. R. 1493) is amended so that the introductory portion of the section and paragraph (e) will read as follows:

SECTION 1. The National Park Service Superintendents in Region One whose positions are allocated to Civil Service grades GS-13 and above, in the administration, operation, and development of the areas under their supervision, are authorized to exercise all of the authority now or hereafter delegated to the Regional Director by the Director, except with respect to the following matters:

* * * * *

(e) Acceptance of an offer in settlement of a timber trespass unless (1) the trespass is an innocent one, (2) the damages therefrom do not exceed $500, and (3) payment of the full amount of the damages is offered.

2. Paragraph (f) of section 2 of Order 3 (21 F. R. 1493) is amended so that the introductory portion of the section and paragraph (f) will read as follows:

SEC. 2. The Superintendents whose positions are allocated to Civil Service grades GS-11 and GS-12, inclusive, in the administration, operation, and development of the areas under their supervision, are authorized to exercise all of the authority now or hereafter delegated to the Regional Director by the Director, except with respect to the following matters:

* * * * *

(f) Acceptance of an offer in settlement of a timber trespass unless (1) the trespass is an innocent one, (2) the damages therefrom do not exceed $500, and (3) payment of the full amount of the damages is offered.

3. Paragraph (k) of section 3 of Order 3 (21 F. R. 1493) is amended so that the introductory portion of the section and paragraph (k) will read as follows:

SEC. 3. The Superintendents whose positions are allocated to Civil Service grades GS-10 and below in the administration, operation, and development of the areas under their supervision, are authorized to exercise all of the authority now or hereafter delegated to the Regional Director by the Director, except with respect to the following matters:

* * * * *

(k) Acceptance of an offer in settlement of a timber trespass unless (1) the trespass is an innocent one, (2) the damages therefrom do not exceed $500, and (3) payment of the full amount of the damages is offered.

* * * * *

# DEPARTMENT OF THE TREASURY

## Bureau of Customs

[T. D. 54111]

ISTHMIAN LINES, INC.

REGISTRATION OF HOUSE FLAG

The Commissioner of Customs by virtue of the authority vested in him and in accordance with § 3.81 (a), Customs Regulations (19 CFR 3.81 (a)), has registered the house flag of the Isthmian Lines, Inc. as described below.

The house flag is rectangular in shape. The hoist is 4 feet in height; the fly is 6 feet. The field of the flag is blue and is divided horizontally and vertically by a white cross or band one foot in width which divides the blue field in equal portions so there remains a blue rectangle in each corner measuring 2½ feet horizontally and 1½ feet vertically. Superimposed in the middle of the cross or white band is a red 15-inch square with points vertical and horizontal in the form of a diamond. The colors are identical with those in the United States Ensign.

A colored drawing of the house flag described above is on file with the Federal Register Division.

The registration of a house flag in the name of Isthmian Steamship Company under date of August 31, 1953 (T. D. 53331, 18 F. R. 5368), is hereby cancelled.

[SEAL] C. A. EMERICK,
*Acting Commissioner of Customs.*

# FEDERAL POWER COMMISSION

[Project No. 2171]

CITY OF SEWARD, ALASKA

APPLICATION FOR LICENSE

JUNE 15, 1956.

Public notice is hereby given that City of Seward, Alaska, has filed application under the Federal Power Act (16 U. S. C. 791a-825r) for license for proposed water-power Project No. 2171 to be located on Crescent and Carter Lakes on Kenai Peninsula in the Third Judicial Division, Territory of Alaska, and to consist of an earth fill dam 20 feet high

across the outlet of Crescent Lake which would raise the level of the lake 11 feet (from 1,454 m. s. l. to 1,465 feet m. s. l.), creating 21,000 acre-feet of usable power storage; side channel spillway; equalizing channel 5,000 feet long between Crescent and Carter Lakes; an intake channel 1,500 feet long at outlet of Carter Lake; 4,150 feet of steel penstock; reinforced concrete powerhouse with initial installation of one 5,400 horsepower impulse turbine connected to a 3,500 kw generator; a tailrace channel about 2,400 feet long; substation; and a 69 kv transmission line 32 miles in length to Seward.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last date upon which protests or petitions may be filed is July 30, 1956. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 56-4870; Filed, June 20, 1956; 8:47 a. m.]

[Docket No. E-6688]

BLACK HILLS POWER AND LIGHT CO.

APPLICATION AUTHORIZING ISSUANCE OF COMMON STOCK

JUNE 14, 1956.

Take notice that on June 12, 1956, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Black Hills Power and Light Company ("Applicant"), a corporation organized under the laws of the State of South Dakota, and doing business in the States of Wyoming and South Dakota, with its principal business office at Rapid City, South Dakota, seeking an order authorizing the issuance of such number of shares of Common Stock as will equal an aggregate offering price not in excess of $300,000, computed upon the basis of market value of Applicant's Common Stock, as determined from transactions or quotations in the over-the-counter market on a date to be specified hereafter, and the issuance of $1,000,000 principal amount of First Mortgage Bonds, Series G, 4 percent, to be dated June 1, 1956, and to mature June 1, 1986. Applicant proposes to offer the Common Stock to holders of the presently outstanding Common Stock pro rata according to their preemptive rights, with additional rights to such stockholders to subscribe for any shares not taken upon the exercise of the preemptive rights. The offering of said Common Stock will not be underwritten. Applicant, however, proposes to pay compensation of 25 cents per share to security dealers who are members of the National Association of Security Dealers, Inc., who assist stockholders in the exercise of their warrants.

Applicant alleges that it does not propose to issue said bonds by cooperative bidding. Applicant proposes to sell said series G Bonds to The Equitable Life Assurance Society of the United States at a price of 99⅛ and accrued interest.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 5th day of July 1956, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file and available for public inspection.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 56-4871; Filed, June 20, 1956; 8:47 a. m.]

---

[Docket No. E-6689]

BLACK HILLS POWER AND LIGHT CO.

APPLICATION FOR ORDER AUTHORIZING APPLICANT TO ASSUME LIABILITY OF GUARANTOR

JUNE 14, 1956.

Take notice that on June 12, 1956, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Black Hills Power and Light Company ("Applicant"), a corporation organized under the laws of the State of South Dakota, and doing business in the States of Wyoming and South Dakota, with its principal business office at Rapid City, South Dakota, seeking an order authorizing Applicant to assume the liability of guarantor with respect to the purchase money obligations of Wyodak Resources Development Corp. ("Wyodak Corp."), which it proposes to organize as a wholly owned subsidiary. Applicant has an option to lease certain coal properties and to purchase certain equipment and structures belonging to Wyodak Coal Co. ("Coal Company"), located in Campbell County, Wyoming. Applicant proposes to guarantee the purchase money obligations covering the purchase of the properties of Coal Company by Wyodak Corp. The application states that the base purchase price for the structure and equipment of the Coal Company is $557,141.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 5th day of July 1956, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's Rules of Practice and Procedure. The application is on file and available for public inspection.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 56-4872; Filed, June 20, 1956; 8:47 a. m.]

---

[Docket No. G-10592]

UNITED GAS PIPE LINE CO.

ORDER SUSPENDING REVISED TARIFF SHEETS AND FIXING DATE OF HEARING

United Gas Pipe Line Company (United), on May 15, 1956, tendered for filing Second Revised Sheets Nos. 1, 4, 6, 10, 12, 16, 17, 17-A, 18, 19, 20, 21, 23, 25, 27, 28, 30, 32, 99, 100, 101, 102, 103, and 104 to its FPC Gas Tariff, First Revised Volume No. 1, proposed to take effect as of June 16, 1956. By said filing United proposes a general rate increase for all of its sales of natural gas for resale, subject to the jurisdiction of the Commission, except for sales in the isolated Mississippi Zone. No increased rate was proposed for the transportation of gas for others. It is estimated that the increase in rates will be approximately $5,856,000 per year, or an increase of 7.1 per cent over the rates pending in Docket No. G-9547.

United bases part of its proposed rate increase on claimed increases in the cost of purchased gas which are expected to occur by August 31, 1956. The extent to which United's claimed purchased gas costs will be realized cannot now be determined. Additionally United is claiming a rate of return of 6½ percent and associated income taxes, acquisition adjustment costs, and allocations of costs which do not apear justifiable. The proposed rate structure is also questionable. These, as well as other items of cost, have not been adequately established, and it appears that the increased rates and charges proposed in United's filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful.

The Louisiana Public Service Commission, as well as several customers of United, request that the proposed rates be suspended and investigated, and that a hearing be held to determine just and reasonable rates. Willmut Gas and Oil Company and Tyler Gas Service Company jointly with the City of Tyler, Texas, customers of United, have filed petitions for an order rejecting United's filing of May 15, 1956, on the basis of the decisions in United Gas Pipe Line Co., v. Mobile Gas Service Corp., et al., 350 U. S. 332 and Federal Power Commission v. Sierra Pacific Power Co., 350 U. S. 348. Another customer of United, Mississippi Valley Gas Company, filed a motion to reject United's proposed increases in rates as to it, Texas Gas Transmission Corporation and Southern Natural Gas Company, predicating the motion on the Mobile case. The City of Memphis, Tennessee, and the Memphis Light, Gas and Water Division filed joint motions to reject, cancel and dismiss the filing insofar as it would apply to Texas Gas. Southern Natural filed an answer in opposition to Mississippi Valley's motion.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates of United and the increased rates proposed in its filing of May 15, 1956, and that the above-designated tariff sheets[1] be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 4, 5, 15, and 16 of the Natural Gas Act and the Commission's general rules and regulations, including rules of practice and procedure (18 CFR Ch. I), a public hearing hereby is set to commence on September 24, 1956 at 10 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the lawfulness of the rates and charges of United and as proposed by United in its filing of May 15, 1956.

(B) Pending such hearing and decision thereon, United's proposed Second Revised Sheets 1, 4, 6, 10, 12, 21, 23, 25, 27, 28, 30, 32, 99, 100, 101, 102, 103 and 104 to its FPC Gas Tariff, First Revised Volume No. 1, be and the same hereby are suspended and the use thereof deferred until November 16, 1956, and until such further time as they may be made effective in the manner prescribed by the Natural Gas Act.

(C) United shall serve upon each party to this proceeding copies of the testimony and exhibits it proposes to offer in the hearing provided in paragraph (A) above, including five (5) copies thereof upon Commission Staff Counsel. Such copies of the testimony and exhibits shall be served at such time as to permit delivery to all parties, including Staff Counsel, not later than September 17, 1956.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

(E) This order is without prejudice to any decision which may hereafter be made by this Commission on the issues raised in the pending motions and petitions in the proceedings in Docket No. G-9547 which were argued before the Commission on May 25, 1956, nor to any decision which may hereafter be made by the Commission on the issues raised in the above-mentioned motion of Mississippi Valley Gas Company, the above-mentioned joint motions of the City of Memphis, Tennessee and the Memphis Light, Gas and Water Division, the above-mentioned petitions of Willmut Gas and Oil Company, and Tyler Gas Service Company and the City of Tyler, Texas, filed and pending herein.

Issued: June 15, 1956.

By the Commission.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[1] Second Revised Sheets Nos. 16, 17, 17-A, 18, 19 and 20 to FPC Gas Tariff, First Revised Volume No. 1 appear to pertain to sales of gas for resale for industrial use only and therefore may not be suspended pursuant to section 4 of the Natural Gas Act.

## GENERAL SERVICES ADMINISTRATION

[Project 3-DC-01]

FEDERAL OFFICE BUILDINGS

PROSPECTUS FOR PROPOSED BUILDINGS IN SOUTHWEST REDEVELOPMENT AREA OF DISTRICT OF COLUMBIA

EDITORIAL NOTE: This prospectus of proposed Project Number 3-DC-01 is published pursuant to section 412 (f) of the Public Buildings Purchase Contract Act of 1954 as amended by Public Law 150, 84th Congress, which requires publication in the FEDERAL REGISTER, for a period of ten consecutive days from date of submission to the Committees on Public Works of the Senate and House of Representatives.

Project Number 3-DC-01 (Revised)

MARCH 14, 1956.

FORMAL PROSPECTUS FOR PROPOSED BUILDING UNDER TITLE I PUBLIC LAW 519, 83D CONGRESS, 2D SESSION

FEDERAL OFFICE BUILDING, WASHINGTON, D. C.

1. *Brief description of proposed building.* The project contemplates the erection of a group of three Federal Office Buildings on a site to be acquired by the Government facing on the proposed Tenth Street Mall in the southwest redevelopment area of Washington, D. C. Each building will be multistoried. An aggregate of approximately 643,000 square feet of net assignable space will be provided.

2. *Estimated maximum cost and financing.*
a. Maximum cost of site and buildings, $25,250,000.
b. Proposed contract term, 30 years.
c. Maximum rate of interest on purchase contract, 4 percent.

3. *Certificates of need.* As the project is intended to provide relocation of numerous Federal agencies now in temporary buildings, no specific allocation of space can be made at this time. Upon completion of the facility, assignment and reassignment will be made in accordance with existing law. Therefore, requirement for Certificate of Need otherwise required by section 411 (e) of the Public Buildings Purchase Contract Act of 1954 was waived in Public Law 150, 84th Congress. Certification is hereby made as to the need for service and garage space.

4. *Non-availability of existing space.* Suitable space owned by the Government is not available; and suitable rental space is not available at a price commensurate with that to be afforded through the contract proposed.

5. *Estimated annual managerial, custodial, heat, and utility costs.* (Services to be supplied by Government), $675,000.

6. *Estimated annual tax liability, upkeep and maintenance.* a. Taxes, post construction (contract period), $321,625.
b. Upkeep and maintenance (to be provided by Government), $96,000.

7. *Current annual housing costs.* Rents and other housing costs currently paid by the Government for agencies to be housed in the building to be erected, $509,000 p. a.

*Determination of need.* It has been determined that (1) the needs for space for the permanent activities of the Federal Government in this particular area cannot be satisfied by utilization of any existing suitable property now owned by the Government, and (2) the best interests of the United States will be served by taking action hereunder.

Submitted at Washington, D. C., on June 1, 1956.

Approved:

FRANKLIN G. FLOETE,
*Administrator of General Services.*

8. *Statement of Director, Bureau of the Budget.* Reflected in letter (copy attached).

EXECUTIVE OFFICE OF THE PRESIDENT

BUREAU OF THE BUDGET

WASHINGTON 25, D. C.

JUNE 13, 1956.

Project 3-DC-01 (Revised 3-14-56).
3 Multi-storied Federal Office Buildings.
Southwest Redevelopment Area, Washington, D. C.

MY DEAR MR. FLOETE: Pursuant to section 411 (e) (8) of the Public Buildings Purchase Contract Act of 1954 (Public Law 519), the (Revised March 14, 1956) proposal for a group of three Federal Office Buildings, transmitted with your letter of June 1, 1956, has been examined and in my opinion "is necessary and in conformity with the policy of the President." This approval is given with the following understanding:

1. Revision reflects the application of more definite plans for integration of the facility with the proposed Tenth Street Mall developed subsequent to approval of the project last July. Effective integration requires construction of three building units in lieu of one, as originally proposed. Garage space of 134,250 square feet not contemplated in original project is provided. Number of employees, utilization of space and cost factors are relatively the same.

2. That the stated project cost of $25,250,000 (including $2,500,000 for a site to be acquired) is a maximum figure.

3. That the reported annual operating cost of existing Tempos 4, 5, and T; 1. e., $1.00 per square foot, represents minimum maintenance in anticipation of demolition, and that temporary Government buildings actually cost more to maintain than the proposed new buildings.

4. That the proposed buildings will house approximately 10% of Federal employees presently housed in temporary buildings, and that the specific allocation of agencies in the proposed buildings is to be determined later by General Services Administration.

5. That every effort will be made to design and construct space conducive to maximum efficient utilization of both site and buildings and to take advantage of any revision of cost downward which may be found possible as the plans develop and negotiations are advanced.

6. That this approval supersedes Mr. Hughes' letter of July 22, 1955.

You appreciate, of course, that this project will receive a more detailed review as to cost and space utilization prior to the approval of the lease-purchase agreement.

Sincerely yours,

(Signed) PERCIVAL BRUNDAGE,
*Director.*

Hon. FRANKLIN G. FLOETE,
*Administrator,*
*General Services Administration,*
*Washington 25, D. C.*

## SECURITIES AND EXCHANGE COMMISSION

### TROY, GRAHAM AND CO., INC.

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 15th day of June 1956.

In the matter of Troy, Graham and Company, Incorporated, Harris Trust Building, 111 West Monroe Street, Chicago 3, Illinois.

I. The Commission's public official files disclose that Troy, Graham and Company, Incorporated, an Illinois corporation, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar year 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof at 10 a. m. on the 20th day of July 1956 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before July 6, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered*, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to July 20, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 56-4877; Filed, June 20, 1956; 8:49 a. m.]

### DAVID DONALD LEVEN

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 15th day of June 1956.

In the matter of David Donald Leven dba Leven Brothers, c/o Donald Publications, Inc., 400 Madison Avenue, New York 17, New York.

I. The Commission's public official files disclose that David Donald Leven, a sole proprietor, dba Leven Brothers, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1949, 1952, and 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof at 10 a. m. on the 20th day of July 1956, at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before July 6, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered*, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to July 20, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 56-4878; Filed, June 20, 1956; 8:49 a. m.]

### BYRON DRUE HAMPTON, JR.

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 15th day of June 1956.

In the matter of Byron Drue Hampton, Jr., dba Stallion Royalties, 201 Market Street, Baird, Texas.

I. The Commission's public official files disclose that Byron Drue Hampton, Jr., a sole proprietor, dba Stallion Royalties, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar year 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof at 10 a. m. on the 20th day of July 1956 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before July 13, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered*, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to July 20, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

### WESTERN EMPIRE BROKERAGE CO., INC.

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

JUNE 15, 1956.

In the matter of Western Empire Brokerage Company, Inc., 303 Newhouse Bldg., Salt Lake City, Utah.

I. The Commission's public official files disclose that Western Empire Brokerage Company, Inc., a Utah corporation, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934, and is a member of the National Association of Securities Dealers, Inc., a national securities association, registered pursuant to section 15A of said act.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar year 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant;

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant; and

(e) Whether, pursuant to section 15A (*l*) (2) of the Securities Exchange Act of 1934, it is necessary or appropriate in the public interest or for the protection of investors or to carry out the purposes of said section, to suspend for a period not to exceed twelve (12) months or to expel registrant from membership in the National Association of Securities Dealers, Inc.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in paragraph IV hereof at 10 a. m. on the 20th day of July 1956 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before July 13, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered*, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to July 20, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of

the section delaying the effective date of any final Commission action.

By the Commission.

GEORGE VINCENT GRACE

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

JUNE 15, 1956.

In the matter of George Vincent Grace, dba G. V. Grace Company, Pine Hollow Road, East Norwich, L. I., New York.

I. The Commission's public official files disclose that George Vincent Grace, a sole proprietor, dba G. V. Grace Company, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934, and is a member of the National Association of Securities Dealers, Inc., a national securities association registered pursuant to section 15A of said act.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1949, 1951, 1953, and 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant;

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant; and

(e) Whether, pursuant to section 15A (*l*) (2) of the Securities Exchange Act of 1934, it is necessary or appropriate in the public interest or for the protection of investors or to carry out the purposes of said section; to suspend for a period not to exceed twelve (12) months or to expel registrant from membership in the National Association of Securities Dealers, Inc.

V. *It is ordered,* That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof at 10 a. m. on the 20th day of July 1956 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before July 6, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered,* That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to July 20, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

JAMES CONNOR CHEATHAM

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 15th day of June 1956.

In the matter of James Connor Cheatham dba James C. Cheatham & Co., 111-A Peoples Bank Building, P. O. Box 812, Tyler, Texas.

I. The Commission's public official files disclose that James Connor Cheatham, a sole proprietor dba James C. Cheatham & Co., hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1953 and 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered,* That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof at 10 a. m. on the 20th day of July 1956 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before July 13, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered,* That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to July 20, 1956.

[1] Filed as part of the original document.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[File No. 70-3485]

UNION ELECTRIC CO.

NOTICE OF FILING OF DECLARATION REGARDING THE ISSUANCE AND SALE OF NEW BONDS

JUNE 15, 1956.

Notice is hereby given that Union Electric Company ("Union"), a registered holding company and a public-utility company, has filed a declaration with this Commission pursuant to the provisions of the Public Utility Holding Company Act of 1935 ("act") and has designated sections 6 (a) and 7 of the act and Rule U-50 thereunder as applicable to the proposed transactions.

All interested persons are referred to the declaration on file in the offices of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

Union proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $40,000,000 principal amount of its First Mortgage Bonds ("New Bonds"), __ Percent Series due July 1, 1986. The New Bonds will be issued under and secured by a Mortgage and Deed of Trust dated June 15, 1937, as heretofore amended and supplemented and as to be amended and supplemented by a further supplemental indenture to be dated as of July 1, 1956. The interest rate on the New Bonds, which is to be a multiple of ⅛ of 1 percent, and the price thereof to Union, which price, exclusive of accrued interest, is to be not less than 100 percent and not more than 102.75 percent of the principal amount, will be determined by the competitive bidding.

The declaration states that the net proceeds to be received from the issuance and sale of the New Bonds will be used by the company to provide funds, through reimbursement of its treasury for capital expenditures heretofore made, to retire short-term bank loans, to finance in part the cost of continuing additions and improvements to its utility plant, and for other corporate purposes.

Union has received permission from the Commission (Holding Company Act Release No. 13174 (May 10, 1956)) for a temporary increase in the amount of promissory notes it may issue to evidence short-term bank loans from 5 percent as specified in section 6 (b) of the act to 8 percent, such increase to remain in effect until September 14, 1956, or such earlier date upon which Union shall have completed the sale of the New Bonds, and it is expected that such short term bank loans will aggregate approximately $21,000,000 by the time the New Bonds are sold. The declaration states that approximately $41,950,000 of construction expenditures are budgeted for the year 1956, and for the two years 1956 and 1957 are expected to aggregate approximately $90,850,000. It is estimated by Union that the proceeds from the sale of the New Bonds, together with cash to be derived from operations, will be sufficient to provide for the above purposes in 1956 and in part for construction in 1957, but that its cash requirements for construction and other purposes in 1957 will require short-term borrowings or some other form of financing, the type and amount of which have not been determined.

The declaration states that the issue and sale of the New Bonds must be authorized by the Public Service Commission of Missouri and the Illinois Commerce Commission and that applications for such authorization are being filed with such commissions. No Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than July 6, 1956, at 5:30 p. m., e d. s. t., request the Commission in wriitng that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said filing which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the declaration, as filed or as it may hereafter be amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100 or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 812-102]

INVESTORS DIVERSIFIED SERVICES, INC., AND INVESTORS SYNDICATE OF AMERICA, INC.

NOTICE OF FILING OF APPLICATION FOR AMENDMENT OF ORDER EXEMPTING TRANSACTIONS BETWEEN AFFILIATES

JUNE 15, 1956.

Notice is hereby given that Investors Diversified Services, Inc. ("IDS") and Investors Syndicate of America, Inc. ("ISA"), both registered under the Investment Company Act of 1940 ("act"), as face-amount certificate companies, have filed a joint application for an order amending certain terms and provisions of an order of the Commission pursuant to sections 6 (c) and 17 (b) of the act, dated March 1, 1946, as amended September 22, 1947, which exempted from the provisions of sections 17 (a) (1) and 17 (a) (2) of the act certain transactions between the applicants involving the sale and purchase of mortgages and loans secured by real estate.

IDS is engaged in servicing its outstanding face-amount certificates sold prior to the enactment of the act, in acting as principal underwriter and investment adviser for certain of its subsidiary and other affiliated investment companies, and in acquiring and servicing mortgages for its subsidiaries and servicing mortgages for non-affiliated investors. ISA, a wholly owned subsidiary of IDS, is engaged in the issuance of face-amount certificates and investment of the proceeds principally in mortgages.

The applicants request the amendment of the existing amended order of the Commission to eliminate the provision thereof which permits IDS to charge ISA a premium of not to exceed 1½ percent in connection with the sale of mortgages by IDS to ISA. The application states that since November 1953 IDS has been selling mortgages to ISA under the provisions of the Commission's order without the imposition of a premium, and that sales on this basis are proposed to be continued in the future. The proposed amendment would establish amortized cost to the vendor at the time of sale or purchase, plus accrued interest, as the basis of sales of mortgages between the applicants. Amortized cost would be determined in accordance with generally accepted accounting principles, but would not include any general or indirect costs incurred in acquiring such mortgages.

The applicants also request that the order be amended to establish a reducing scale of charges for servicing larger mortgages in lieu of the present fixed annual rate of ½ of 1 percent. The proposed annual rate would be ½ of 1 percent on the unpaid principal balances of residential mortgages; on other mortgages the annual rates would be ½ of 1 percent on the first $50,000, ¼ of 1 percent on the next $150,000, and ⅛ of 1 percent on the amount over $200,000. The servicing rate for residential mortgages is stated by the applicants to be the usual rate charged and paid by IDS under mortgage servicing agreements with non-affiliates, as well as the rate considered standard for mortgage servicing in the industry. The reducing scale of fees for servicing larger mortgages is similar to those typically charged in servicing arrangements of IDS with non-affiliates and elsewhere in the industry, in recognition of the relationship of the size of the mortgage to the services performed.

It is requested by the applicants that the order also be amended to permit ISA to sell mortgages to IDS and to service mortgages for IDS on the same basis as

the sales and servicing by IDS to and for ISA, thus enabling either company to acquire mortgages or utilize mortgage servicing facilities of the other on a mutually advantageous basis.

Sections 17 (a) (1) and 17 (a) (2) of the act prohibit an affiliated person of a registered investment company, or an affiliated person of such a person, from selling to or purchasing from such registered investment company or any company controlled by such registered investment company, any security or other property, subject to certain exceptions, unless the Commission upon application pursuant to section 17 (b) grants an exemption from the provisions of section 17 (a), after finding that the terms of the proposed transaction, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned, that the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the act, and is consistent with the general purposes of the act. Section 6 (c) of the act provides that the Commission may conditionally or unconditionally exempt any transaction or class of transactions from any provision of the act if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the act.

Since IDS and ISA are affiliated persons, transactions involving the sale and purchase of mortgages between such companies are subject to the provisions of sections 17 (a) (1) and 17 (a) (2) of the act. The application requests an order under sections 6 (c) and 17 (b) exempting the mortgage transactions proposed to be made under the terms of the amended order.

Notice is further given that any interested person may, not later than June 29, 1956, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act, upon such terms and conditions as the Commission may impose.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[F. R. Doc. 56-4884; Filed, June 20, 1956; 8:50 a. m.]

## NOTICES

[File No. 812-296]

INVESTORS DIVERSIFIED SERVICES, INC., AND INVESTORS SYNDICATE TITLE & GUARANTY CO.

NOTICE OF FILING OF APPLICATION FOR ORDER EXEMPTING TRANSACTIONS BETWEEN AFFILIATES

JUNE 15, 1956.

Notice is hereby given that Investors Diversified Services, Inc. ("IDS") and Investors Syndicate Title & Guaranty Company ("Title") have filed an amended joint application pursuant to sections 6 (c) and 17 (b) of the Investment Company Act of 1940 ("act") for an order exempting from the provisions of sections 17 (a) (1) and 17 (a) (2) of the act certain transactions between the applicants involving the sale and purchase of mortgages and loans secured by real estate.

IDS is registered under the act as a face-amount certificate company. It is engaged in servicing its outstanding face-amount certificates sold prior to the enactment of the act, in acting as principal underwriter and investment adviser for certain of its subsidiary and other affiliated investment companies, and in acquiring and servicing mortgages for its subsidiaries and servicing mortgages for non-affiliated investors. Title, a wholly-owned subsidiary of IDS, is engaged in the issuance and sale of participation certificates to residents of the State of New York and investment of the proceeds in mortgages. Title is exempt as an investment company under the act pursuant to section 6 (a) (5) of the act.

The application requests an order exempting the sale and purchase of mortgages between IDS and Title at prices equal to the amortized cost of such mortgages to the vendor at the time of sale or purchase plus accrued interest; the purchase, endorsement, guarantee or fulfillment by IDS of any commitment with respect to any mortgage which is owned by Title, in pursuance of the terms of, and at prices and subject to the terms and conditions set forth in, certificates (and related agreements, endorsements or guarantees) issued by Title prior to the date of the requested order; and the servicing of mortgages between IDS and Title for (a) a charge at the annual rate of ½ of 1 percent on the unpaid principal balances of residential mortgages, and on other mortgages ½ of 1 percent on the first $50,000, ⅓ of 1 percent on the next $150,000, and ⅛ of 1 percent on the amount over $200,000, and (b) the reimbursement of any expenses or disbursements of one applicant incident to the foreclosure of any such mortgage serviced for the other.

The application states that IDS has been a leading originator and purchaser of real estate mortgages and that it has substantial facilities for the acquisition and servicing of mortgages. It is stated that since it is necessary that Title have mortgages for its own investment purposes, it is desirable that it utilize IDS as a source upon which it can depend for the acquisition and servicing of such mortgages, and that at times when Title has mortgages in excess of its own requirements such mortgages be available for purchase by IDS. Applicants state that these arrangements are beneficial to both companies in that they furnish a source from which mortgages can be purchased when needed, provide diversification as to location and types of mortgages, and permit each company to operate to better advantage in the mortgage field.

Amortized cost at which mortgages are proposed to be sold and purchased is to be determined in accordance with generally accepted accounting principles, but will not include any general or indirect costs incurred in acquiring mortgages. Existing commitments of IDS under which it may purchase mortgages owned by Title are pursuant to the terms of certificates issued by Title between 1930 and 1941, or related agreements, and mortgages will be purchased by IDS thereunder only in accordance with the terms of such certificates or agreements.

The proposed servicing rate for residential mortgages is stated by the applicants to be the usual rate charged and paid by IDS under mortgage servicing agreements with non-affiliates, as well as the rate considered standard for mortgage servicing in the industry. The reducing scale of fees for servicing larger mortgages is similar to those typically charged in servicing arrangements of IDS with non-affiliates and elsewhere in the industry, in recognition of the relationship of the size of the mortgage to the services performed.

Section 17 (a) (1) and 17 (a) (2) of the act prohibit an affiliated person of a registered investment company, or an affiliated person of such a person, from selling to or purchasing from such registered investment company or any company controlled by such registered investment company, any security or other property, subject to certain exceptions, unless the Commission upon application pursuant to section 17 (b) grants an exemption from the provisions of section 17 (a), after finding that the terms of the proposed transaction, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned, that the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the act, and is consistent with the general purposes of the act. Section 6 (c) of the act provides that the Commission may conditionally or unconditionally exempt any transaction or class of transactions from any provision of the act if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the act.

Since IDS and Title are affiliated persons, transactions involving the sale and purchase of mortgages between such companies are subject to the provisions

of sections 17 (a) (1) and 17 (a) (2) of the act. The application requests an order under section 6 (c) and 17 (b) exempting the proposed mortgage transactions between IDS and Title.

Notice is further given that any interested person may, not later than June 29, 1956, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act, upon such terms and conditions as the Commission may impose.

By the Commission.

[File No. 70-366]

DALLAS TRANSIT CO.

ORDER APPROVING CHARGES TO PAID-IN SURPLUS

JUNE 15, 1956.

In 1942 Dallas Railway & Terminal Company, which subsequently changed its name to Dallas Transit Company ("Dallas Company"), a nonutility company, and its then parent company, Electric Power & Light Corporation ("Electric"), which was then a registered holding company, filed a joint application-declaration pursuant to sections 6 (a), 7, 9 (a) (1), 10 and 12 of the Public Utility Holding Company Act of 1935 ("act") and Rule U-45 promulgated thereunder. This filing concerned, among other things, the donation to Dallas Company by Electric of certain securities as a consequence of which there was created on the books of Dallas Company a paid-in surplus of $2,650,000 (In the Matter of Electric Power & Light Corporation et al., 12 S. E. C. 254 (1942)). The Commission by order dated October 5, 1942 (Holding Company Act Release No. 3836) granted the application and permitted the declaration to become effective, subject to the condition that, "Dallas [Company] shall not hereafter use, for any purpose, any part of the paid-in surplus, created under the transactions proposed herein, except after notice to and approval by this Commission." Dallas Company has now requested this Commission to approve the writing off of its earned surplus deficit against its paid-in surplus account as of July 1, 1954.

The Commission finding that the charges to paid-in surplus, as set forth in the Memorandum Opinion of the Commission filed this day herein have been approved by the Council of the City of Dallas and by the Board of Directors and stockholders of the company; and further finding that the use of the paid-in surplus in the manner proposed meets the standards of section 12 (c) of the act and Rule U-46 promulgated thereunder and is in accord with sound accounting principles;

*It is ordered*, That the charge of the earned surplus deficit in the accounts of Dallas Company as of July 1, 1954, against its paid-in surplus be and hereby is approved;

*It is further ordered*, That the jurisdiction heretofore reserved in respect of any use of the company's paid-in surplus be and hereby is released.

By the Commission.

TERENCE ARTHUR PETER NEVILLE GETHING

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 15th day of June 1956.

In the matter of Terence Arthur Peter Neville Gething dba Peter Gething & Company, 803 Peoples Building, Box 346, Charlestown, South Carolina.

I. The Commission's public official files disclose that Terence Arthur Peter Neville Gething, a sole proprietor dba Peter Gething & Company, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar year 1955, as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof at 10 a. m. on the 20th day of July 1956 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. At such time the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before July 6, 1956. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

*It is further ordered*, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to July 20, 1956.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[File 24SF-2164]

LEWISOHN COPPER CORP.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

JUNE 15, 1956.

I. Lewisohn Copper Corp., a Delaware corporation with its principal office at 128 North Church Street, Tucson, Arizo-

na, filed with the Commission, on September 22, 1955, a notification on Form 1–A relating to an offering of 200,000 shares of its common stock, 10 cents par value, purportedly at $1.50 per share, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder;

II. The Commission has reasonable cause to believe:

A. That no exemption was available under Regulation A for the securities purported to be offered thereunder, that the terms and conditions of the regulation have not been complied with, and that the offering circular and other material used in connection with the offering contained untrue statements of material facts and omitted to state material facts necessary in order to make the statement made, in the light of the circumstances under which they were made, not misleading, particularly with respect to the following:

1. The statement in the offering circular that the public offering price was $1.50 per share, the failure to disclose in the offering circular the method of offering whereby the stock would be offered to the public at higher and undetermined prices by a small number of persons purchasing from the principal underwriter with a view to distribution and who in fact did so distribute the stock, and the failure to disclose the profit of such persons.

2. The offering of securities, purportedly under said notification and regulation, when the aggregate public offering price of said securities and the aggregate gross proceeds actually received from their sale to the public exceeded $300,000.

3. The failure to use an offering circular, as required by Rule 219, in connection with the offering of said securities to the public.

4. The failure to file with the Commission copies of other material used in connection with the offering, as required by Rule 221.

5. The dissemination in connection with the offering of materially misleading information regarding the company, its plans and its properties.

B. That said offering did operate as a fraud and deceit upon the purchasers.

III. *It is ordered,* Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A of securities of Lewisohn Copper Corp. pursuant to said notification be, and hereby is, temporarily suspended.

Notice is hereby given, that any person having any interest in this matter may file with the Secretary of the Commission a written request for a hearing; that, within twenty days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place of said hearing will be promptly given by the Commission.

*It is further ordered,* That this order and notice shall be served upon Lewisohn Copper Corp., 128 North Church Street, Tucson, Arizona; George F. Breen, 115 Broadway, New York 6, New York; United States Corporation Company, 160 Broadway, New York 38, New York; and Alfred W. Green, Esq., 30 Broad Street, New York 4, New York; personally or by registered mail or confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

## DEPARTMENT OF JUSTICE

### Office of Alien Property

[Vesting Order 13557, Amdt.]

MANNHEIMER VERSICHERUNGSGESELLSCHAFT

In re: Bonds owned by Mannheimer Versicherungsgesellschaft; F–28–6160–E–1.

Vesting Order 13557, dated July 13, 1949, is hereby amended to read as follows:

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Mannheimer Versicherungsgesellschaft, the last known address of which is Meckesheim/Baden, Germany, is a corporation, partnership, association or other business organization, organized under the laws of Germany, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Mannheim, Germany and is a national of a designated enemy country (Germany);

2. That the property described as follows: Those certain debts or other obligations, matured or unmatured, of the Hudson & Manhattan Railroad Company, 30 Church Street, New York, New York, evidenced by three (3) Hudson & Manhattan Railroad Company, first and refunding 5 percent Gold Bearer Bonds, Series A of $1,000 face value each, bearing the numbers 1118, 1119 and 1120, and evidenced by coupons attached to or detached from said bonds and due August 1, 1940, to August 1, 1944, inclusive and on or after February 1, 1947, and any and all rights to demand, enforce and collect the aforesaid debts or other obligations, together with any and all rights in, to and under the said bonds and coupons,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Mannheimer Versicherungsgesellschaft, the the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on June 15, 1956.

For the Attorney General.

## TITLE 6—AGRICULTURAL CREDIT

### Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter D—Regulations Under Soil Bank Act

PART 485—SOIL BANK

SUBPART—ACREAGE RESERVE PROGRAM

The regulations contained herein govern the 1956 acreage reserve part of the Soil Bank Program.

Sec.
485.101 Definitions.
485.102 Administration.
485.103 Purpose of the acreage reserve program.
485.104 Eligible commodities.
485.105 Area of availability.
485.106 National acreage reserve goals.
485.107 Soil Bank corn base.
485.108 Limits on extent of participation.
485.109 Allotments for new farms not eligible.
485.110 Acreage reserve agreement.
485.111 Reduction of acreage of commodity.
485.112 Designation and use of acreage reserve.
485.113 Compliance with acreage allotments.
485.114 Amount of compensation.
485.115 Rate of compensation per acre.
485.116 Commodity base unit rates.
485.117 Basis for determining yield factor.
485.118 Method of determining yield.
485.119 Determination of acreage and extent of calculations.
485.120 Manner and time of compensation.
485.121 Set-offs.
485.122 Division of compensation between landlords, tenants, and sharecroppers.
485.123 Additional provisions relating to tenants and sharecroppers.
485.124 Successors-in-interest.
485.125 Assignments prohibited.
485.126 Schemes or devices to defeat purpose of agreement.
485.127 Violations of agreement.
485.128 Penalty for grazing or harvesting.
485.129 Access to farm and records.
485.130 State committee approval of determinations of county committees.
485.131 Finality of determinations.
485.132 Effect on acreage allotment and marketing quota programs.

AUTHORITY: §§ 485.101 to 485.132 issued under sec. 124, Pub. Law 540, 84th Cong.

§ 485.101 *Definitions.* As used in the regulations in this part and in all agreements, forms, documents and procedures in connection therewith, unless the context or subject matter otherwise requires, the following terms shall have the following meanings:

(a) "Act" means the Soil Bank Act (70 State 188).

(b) "Secretary" means the Secretary of Agriculture of the United States, or the officer, employee, or other representative of the United States Department of Agriculture acting in his stead pursuant to delegated authority.

(c) "Deputy Administrator" means the Deputy Administrator for Production Adjustment, or Acting Deputy Administrator for Production Adjustment, Commodity Stabilization Service, United States Department of Agriculture.

(d) "State" means any one of the continental United States.

(e) "County" means county or parish. The extra long staple cotton producing areas located in the northern part of Puerto Rico shall be considered a county, and the extra long staple cotton producing areas located in the southern part of Puerto Rico shall be considered as a county.

(f) "County committee" means the group of persons elected within a county as the county committee pursuant to the regulations governing the selection and functions of the Agricultural Stabilization and Conservation county committees. In Puerto Rico, "county committee" means the ASC Caribbean Area Committee.

(g) "State committee" means the group of persons designated for a State by the Secretary as the Agricultural Stabilization and Conservation State Committee. In Puerto Rico, "State committee" means the ASC Caribbean Area Committee.

(h) "Person" means an individual, partnership, firm, joint-stock company, corporation, association, trust, estate, or other legal entity, or a State, political subdivision of a State, or any agency thereof. The term "person" shall include two or more persons having a joint or common interest.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

**CFR SUPPLEMENTS**

**(As of January 1, 1956)**

The following Supplements are now available:

**Title 6 ($1.75)**

**Title 7: Parts 210–899 (Rev., 1955) with Supplement ($4.50)**

**Title 26 (1954) Parts 1–220 (Rev., 1955) ($2.00)**

**Titles 47 and 48 ($2.25)**

Previously announced: Title 3, 1955 Supp. ($2.00); Titles 4 and 5 ($1.00); Title 7: Parts 1–209 ($1.25), Parts 900–959 (Rev., 1955) ($6.00), Part 960 to end (Rev., 1955) with Supplement ($5.85); Title 8 ($0.50); Title 9 ($0.70); Titles 10–13 ($0.70); Title 14: Parts 1–399 ($2.50), Part 400 to end ($1.00); Title 15 ($1.00); Title 16 ($1.25); Title 17 ($0.60); Title 18 ($0.50); Title 19 ($0.50); Title 20 ($1.00); Title 21 (Rev., 1955) ($5.50); Titles 22 and 23 ($1.00); Title 24 ($0.75); Title 25 ($0.50); Title 26: Parts 1–79 ($0.35), Parts 80–169 ($0.50), Parts 170–182 ($0.30), Parts 183–299 ($0.35), Part 300 to end, Ch. I, and Title 27 ($1.00); Titles 28 and 29 ($1.25); Titles 30 and 31 ($1.25); Title 32: Parts 1–399 ($0.60), Parts 400–699 ($0.65), Parts 700–799 ($0.35), Parts 800–1099 ($0.40), Part 1100 to end ($0.35); Title 32A (Rev., 1955) ($1.25); Title 33 ($1.50); Titles 35–37 ($1.00); Title 39 (Rev., 1955) ($4.25); Titles 40–42 ($0.65); Title 43 ($0.50); Title 46: Parts 1–145 ($0.60), Part 146 to end ($1.25); Title 49: Parts 1–70 ($0.60), Parts 71–90 ($1.00), Parts 91–164 ($0.50), Part 165 to end ($0.65)

| Chapter I: | |
| Part 1 | 4406 |

(i) "Cash tenant", "standing-rent tenant", or "fixed-rent tenant" means a person who rents land from another for a fixed amount of cash or a commodity to be paid as rent.

(j) "Share tenant" means a person other than a sharecropper who rents land from another person and pays as rent a share of the crops or the proceeds thereof.

(k) "Sharecropper" means a person who works a farm in whole or in part under the general supervision of the operator and is entitled to receive for his labor a share of the crops produced thereon or the proceeds thereof.

(l) "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(m) "Producer" means any person who is an owner or a landlord, cash tenant, standing-rent tenant, fixed-rent tenant, share tenant, or sharecropper.

(n) "Producer unit" means a share of the allotment for the commodity, or in the case of corn, a share of the Soil Bank corn base, farmed by (1) a landowner, cash tenant, or fixed-rent tenant, with his own labor or with hired labor other than sharecroppers, or (2) a share tenant without the aid of any sharecropper, or (3) a sharecropper.

(o) "Farm" means all adjacent or nearby farm or rangeland under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm or rangeland which the county committee determines is operated by the same person as a part of the same unit in producing range livestock, or with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that for any other land; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county or administrative area, as the case may be, in which the principal dwelling is situated, or if there is no dwelling thereon it shall be regarded as located in the county or administrative area, as the case may be, in which the major portion of the farm is located.

(p) "Commercial corn-producing area" means the area designated by the Secretary (20 F. R. 8666) pursuant to section 301 (b) (4) of the Agricultural Adjustment Act of 1938, as amended.

(q) "Commercial wheat-producing area" means all areas except the area designated by the Secretary (20 F. R. 3494) pursuant to section 335 (e) of the Agricultural Adjustment Act of 1938, as amended.

(r) "Corn" means field corn, including sweet corn which is produced for feed or silage, planted alone or interplanted with other crops.

(s) "Cotton" means upland cotton and extra long staple cotton.

(t) "Allotment" means the 1956 acreage allotment established for a farm for a particular commodity pursuant to the Agricultural Adjustment Act of 1938, as amended.

(u) "Acreage reserve" means the tract of land on a farm which is designated in an acreage reserve agreement as being withdrawn from the production of a particular commodity.

§ 485.102 *Administration.* The 1956 Acreage Reserve Program will be administered by the Commodity Stabilization Service under the general direction and supervision of the Administrator of such Service, and in the field will be carried out by State and county committees. Members of county committees are hereby authorized to sign "Acreage Reserve Agreements 1956" (Form CSC 800) on behalf of the Secretary. State and county committees do not have authority to modify or waive any of the provisions of these regulations, or any amendment, supplement, or revision thereto, and do not have authority to modify or waive any of the provisions of any agreement except to the extent specifically authorized herein.

§ 485.103 *Purpose of the acreage reserve program.* The purpose of the acreage reserve program is to assist producers to divert a portion of their cropland from the production of excessive supplies of agricultural commodities by compensating them for reducing their acreages below their allotments or, in the case of corn, their Soil Bank corn base.

§ 485.104 *Eligible commodities.* The acreage reserve program provided for in these regulations shall apply to the 1956 crops of cotton, wheat produced in the commercial wheat-producing area, corn produced in the commercial corn-producing area, peanuts (except that a producer whose 1956 peanut allotment has been increased pursuant to section 358 (c) (2) of the Agricultural Adjustment Act of 1938, as amended, shall not be eligible to participate in the acreage reserve program for peanuts in 1056), rice, flue-cured tobacco, burley tobacco, Maryland tobacco, dark air-cured tobacco, fire-cured tobacco, Virginia sun-cured tobacco, cigar binder tobacco types 51, 52, 54, and 55, and Ohio cigar filler tobacco types, 42, 43, and 44.

§ 485.105 *Area of availability.* The acreage reserve program will be available in the continental United States, and in the Commonwealth of Puerto Rico with respect to cotton.

§ 485.106 *National acreage reserve goals.* There are hereby established the following national acreage reserve goals for the 1956 acreage reserve program:

| *Commodity* | *Acres* |
|---|---|
| (a) Corn | 2,000,000 to 4,000,000. |
| (b) Cotton | 1,500,000 to 3,000,000. |
| (c) Peanuts | 50,000 to 100,000. |
| (d) Rice | 50,000 to 100,000 |
| (e) Wheat | 5,000,000 to 8,000,000. |
| (f) Flue-cured tobacco | 10,000 to 25,000. |
| (g) Burley tobacco | 15,000 to 30,000. |
| (h) Maryland tobacco | 5,000 to 8,000. |
| (i) Dark air-cured tobacco | 3,000 to 5,000. |
| (j) Fire-cured tobacco | 4,000 to 7,000. |
| (k) Virginia sun-cured tobacco | 500 to 600. |
| (l) Cigar binder tobacco: | |
| Type 51 | 3,500 to 4,200. |
| Type 52 | 2,500 to 3,200. |
| Type 54 | 500 to 700. |
| Type 55 | 500 to 1,200. |
| (m) Ohio cigar filler tobacco: Types 42, 43, and 44 | 300 to 500. |

§ 485.107 *Soil Bank corn base.* A Soil Bank corn base is hereby established for each farm for which an allotment for corn has been established for the farm under the provisions of §§ 721.710 to 722.222, inclusive, of 7 C. F. R. Part 721—Corn, Subpart—Farm Acreage Allotments for 1956 Crop. Such Soil Bank corn base shall be obtained by multiplying such allotment, including any revision of the allotment through appeal or otherwise, by 117.8 per centum. §§ 721.710 to 721.722, inclusive, shall remain effective for the purpose of determining the allotment used as a basis for establishing the Soil Bank corn base. The provisions of § 721.721 shall not be applicable to the Soil Bank corn base established hereunder, but shall be applicable to the allotment on the basis of which the Soil Bank corn base is established.

§ 485.108 *Limits on extent of participation*—(a) *Maximum acreage.* The acreage which may be placed in the acreage reserve may not exceed the allotment for the commodity, or in the case of corn, the Soil Bank corn base, and, within such limitation, may not exceed the following:

(1) For corn, the maximum acreage shall be (i) 50 percent of the Soil Bank corn base, or (ii) 50 acres, whichever is larger.

(2) For wheat and rice, the maximum acreage shall be (i) 50 percent of the allotment, or (ii) 50 acres, whichever is larger.

(3) For cotton and peanuts, the maximum acreage shall be (i) 50 percent of the allotment, or (ii) 10 acres, whichever is larger.

(4) For any type of tobacco, the maximum acreage shall be (i) 50 percent of the allotment, or (ii) 5 acres, whichever is larger.

(b) *Minimum acreage.* The minimum acreage for a commodity placed in the acreage reserve shall be the larger of (1) ten percent of the allotment for the commodity, or in the case of corn, ten percent of the Soil Bank corn base, or (2) one-half acre for burley tobacco, one acre for any other type of tobacco, one acre for peanuts, two acres for cotton, and five acres for corn, rice, and wheat, except that if the allotment or Soil Bank corn base is less than the applicable number of acres specified under subparagraph (2) of this paragraph, the minimum acreage will be the entire allotment or Soil Bank corn base.

§ 485.109 *Allotments for new farms not eligible.* Producers shall not be eligible for participation in the acreage reserve program with respect to farms which receive allotments as "new farms" under regulations governing the establishment of acreage allotments for the 1956 crops. In the case of rice, producers who receive allotments as "new producers" under regulations governing the establishment of acreage allotments for the 1956 crop of rice shall not be eligible to participate with respect to such rice allotments.

§ 485.110 *Acreage reserve agreement.* (a) In order for producers on a farm to participate in the program, a Soil Bank Acreage Reserve Agreement 1956, Form CSS–800 (Soil Bank) (hereinafter referred to as "agreement") must be entered into by the operator. In addition, if the operator is a share-tenant, the agreement must be signed by each person who as owner or landlord has control of the land on which the acreage reserve is located or has an interest in the commodity with respect to which the acreage is being reduced.

(b) Where only the operator is required to enter into the agreement, it must be signed by him and filed with the county committee not later than July 20, 1956. If a person in addition to the operator is required to sign the agreement, but is not available for the signing of the agreement on or before July 20, 1956, the operator must sign the agreement and deliver a signed copy to the county committee not later than July 20, 1956, and must obtain the signature of such other person and furnish the executed agreement to the county committee not later than July 31, 1956.

(c) An agreement entered into hereunder may be terminated by the producers at any time on or before July 20, 1956 (the final date on which agreements must be signed by the operator and filed with the county committee) by the operator furnishing written notice to the county committee prior to such termination. Such agreement shall, however, for purposes of the civil penalty for grazing or harvesting the acreage reserve (See § 485.128) be in full force and effect for the period prior to such termination.

(d) Agreements shall not be entered into in any county under which the total compensation payable to producers is in excess of the total amount of compensation authorized for the county.

§ 485.111 *Reduction of acreage of commodity.* To be eligible for participation in the acreage reserve program, the producer must reduce his acreage of the commodity below his allotment, or, in the case of corn, the Soil Bank corn base, in one or more of the following ways:

(a) Reduction of the acreage may be by underplanting the allotment or Soil Bank corn base, if the underplanting, in the case of fall-seeded wheat, was due to adverse weather, or, in the case of any of the other commodities, was due to adverse weather or was in anticipation of participating in the Soil Bank program: *Provided*, That, in the case of spring-seeded wheat, the farm is one on which spring-seeded wheat was planted in 1954, 1955, or 1956. The operator must furnish, prior to the execution of the agreement, a certified statement setting forth the reason for such underplanting.

(b) Reduction of the acreage may be by plowing the crop under or otherwise physically incorporating it into the soil, or clipping, mowing, or cutting it to prevent maturing, subsequent to May 27, 1956, and prior to the date indicated below but in no event later than July 31, 1956:

(1) Corn and wheat: The final disposition date fixed for the area for compliance with allotments for purposes of price support and marketing quotas, except that if such date is during the period May 28 to June 30, 1956, inclusive, the final date for adjusting acreage for purposes of the acreage reserve program shall be June 30, 1956. Information as to the date fixed for the area for compliance with allotments may be obtained from the county committee. Any extension of time hereunder for adjusting acreage of corn and wheat under the acreage reserve program shall not, however, extend the final disposition date for compliance with allotments for purposes of price support and marketing quotas.

(2) Cotton, rice, peanuts, and tobacco: The date fixed for the commodity by the State committee for adjusting acreage under the acreage reserve program which shall be not later than 15 days before harvest of the crop begins in the area, except that the date fixed shall not be earlier than June 30, 1956. Information as to the date fixed for the area may be obtained from the county committee. The dates fixed for adjusting acreage under the acreage reserve program shall not extend or limit the time otherwise permitted for compliance with allotments for purposes of price support and marketing quotas.

(c) Reduction of the acreage may be by destruction of the crop due to natural causes on or before the date determined under paragraph (b) of this section as being the final date for adjusting acreage for purposes of the acreage reserve program.

§ 485.112 *Designation and use of acreage reserve.* (a) The tract or tracts of land constituting the acreage reserve for each commodity must be specifically designated in the agreement. If reduction of the acreage is by destruction due to natural causes or by plowing the crop under or otherwise physically incorporating it into the soil, or clipping, mowing, or cutting it to prevent maturing, the land on which such reduction took place shall be included as a part of the tract or tracts designated as the acreage reserve.

(b) No crop shall have been harvested from the acreage reserve in 1956 or shall be harvested from the acreage reserve prior to January 1, 1957, and the acreage reserve shall not have been grazed in 1956 and shall not be grazed prior to January 1, 1957, unless the Secretary, after certification by the Governor of the State in which the farm is located of the need for grazing on the acreage reserve, determines that it is necessary to permit grazing thereon in order to alleviate damage, hardship or suffering caused by severe drought, flood, or other natural disasters and gives written consent to such grazing. The operator must furnish, prior to the execution of the agreement, a certified statement that no crop has been harvested from the acreage reserve in 1956 and that the acreage reserve has not been grazed in 1956.

(c) No crop shall be planted on the acreage reserve after the agreement is signed and prior to January 1, 1957, except that (1) crops approved by the county committee for protective cover may be planted on the acreage reserve and (2) crops may be planted on the acreage reserve for harvest during 1957 or later in areas where such crops would normally be planted in the fall of 1956 for such later harvest.

(d) In the event that, at the time the agreement is executed, there is growing on the acreage reserve any crop, other than an approved cover crop, such crop must be plowed under or otherwise physically incorporated into the soil, or clipped, mowed, or cut to prevent maturing. In the case of one of the eligible commodities, such crops must be disposed of not later than the date provided for in § 485.111. In the case of other crops, disposal must be accomplished on or before the date fixed by the State committee which shall be not later than 15 days before harvest of the crop begins in the area, except that the date fixed shall not be earlier than June 30, 1956, or later than July 31, 1956. Information as to the date fixed for the area may be obtained from the county committee.

(e) The producer shall, without reimbursement under the agreement, control the spread on the acreage reserve of noxious weeds designated by the State committee, using methods approved by the county committee, including, if required, tillage operations or chemical sprays. A list of such noxious weeds may be obtained from the county committee.

(f) The acreage reserve shall be in addition to any acreage devoted to the conservation reserve program.

§ 485.113 *Compliance with acreage allotments.* No person shall be eligible for compensation under the acreage reserve program with respect to any farm on which (a) the 1956 acreage of cotton, rice, or tobacco exceeds the allotment for the commodity; or (b) the 1956 acreage of wheat, in the case of a farm in the commercial wheat-producing area, exceeds the larger of the allotment for wheat or 15 acres; or (c) the 1956 acreage of corn, in the case of a farm in the commercial corn-producing area, exceeds the Soil Bank corn base; or (d) the 1956 acreage of peanuts exceeds the larger of the allotment for peanuts or one acre. For purposes of this provision such acreage limitations shall not be deemed to have been exceeded unless such acreage limitations were knowingly exceeded. Such acreage limitations shall be deemed to have been knowingly exceeded if under the rules and regulations governing eligibility for price support for the commodity such acreage limitations would be determined to have been knowingly exceeded.

§ 485.114 *Amount of compensation.* The amount of compensation for each commodity shall be determined by multiplying the rate of compensation per acre for the commodity, determined in accordance with § 485.115, by the smallest of (a) the number of acres in the acreage reserve, (b) the acreage by which the commodity is reduced below the allotment, or in the case of corn, the Soil Bank corn base, or (c) the number of acres which the producer agrees to place in the acreage reserve: *Provided*, That no compensation will be paid for the particular commodity if the acreage so determined is below the minimum acreage which may be placed in the acreage reserve.

§ 485.115 *Rate of compensation per acre.* The rate of compensation per acre for the commodity shall be determined by multiplying the base unit rate for the commodity specified in § 485.116 by the applicable yield factor determined in accordance with § 485.117: *Provided, however*, That (a) the minimum rate of compensation for reduction of acreage by destruction due to natural causes or by plowing the crop under or otherwise physically incorporating it into the soil, or clipping, mowing, or cutting it to prevent maturing, shall be $6 per acre; (b) the rate of compensation for reduction of acreage by underplanting in the case of fall-seeded wheat shall be $4 per acre; and (c) the maximum rates of compensation per acre for tobacco shall be: flue-cured, $293; burley, $340; Maryland, $169; dark air-cured, $201; Virginia sun-cured, $160; fire-cured, $198; cigar binder type 51, $366; cigar binder type 52, $346; cigar binder type 54, $154; cigar binder type 55, $211; Ohio cigar filler types 42–44, $173.

§ 485.116 *Commodity base unit rates.* The base unit rates for the different commodities are as follows:

| | |
|---|---|
| Corn | The applicable county rate specified in Appendix 1 hereof. |
| Wheat | The applicable county rate specified in Appendix 1 hereof. |
| Peanuts | 3 cents per pound. |
| Rice | $2.25 per hundredweight. |
| Cotton | 15 cents per pound. |
| Flue-cured tobacco | 18 cents per pound. |
| Burley tobacco | 18 cents per pound. |
| Maryland tobacco | 17 cents per pound. |
| Dark air-cured tobacco | 12 cents per pound. |
| Virginia sun-cured tobacco | 12 cents per pound. |
| Fire-cured tobacco | 13 cents per pound. |
| Cigar binder tobacco: | |
| Type 51 | 19 cents per pound. |
| Type 52 | 18 cents per pound. |
| Type 54 | 8 cents per pound. |
| Type 55 | 11 cents per pound. |
| Ohio cigar-filler tobacco: Types 42–44 | 9 cents per pound. |

§ 485.117 *Basis for determining yield factor.* (a) In the case of reduction of acreage by underplanting the allotment for cotton, rice, peanuts, tobacco, spring-seeded wheat, or underplanting the Soil Bank corn base, the yield factor shall be the normal yield for the tract of land designated as the acreage reserve. The normal yield for the tract of land designated as the acreage reserve shall be determined by the county committee on the basis of (1) the normal yield for the farm and (2) any variation in yield between the farm and the tract of land designated as the acreage reserve.

(b) In the case of reduction of acreage by underplanting, of the allotment, due to adverse weather, in the case of wheat seeded in the fall of 1955, there will be no yield factor. The rate of compensation in such case shall be $4.00 per acre, regardless of yield, as provided in § 485.115.

(c) In the case of reduction of acreage by destruction due to natural causes or by plowing the crop under or otherwise physically incorporating it into the soil, or clipping, mowing, or cutting it to prevent maturing, the yield factor shall be the normal yield for the farm, unless the crop is subnormal, in which case the yield factor shall be the appraised yield for the field on which the destruction or adjustment of acreage takes place.

§ 485.118 *Method of determining yield.* (a) *Normal yield for the farm.* (1) County check yields for each commodity shall be determined by the Deputy Administrator on the basis of the county average yields for the commodity during the base period for the commodity, adjusted for drought, flood, or other abnormal conditions. The base period for wheat is the years 1945 through 1954, inclusive; the base period for tobacco is the years 1950 through 1955, inclusive; and the base period for other commodities is the years 1951 through 1955, inclusive. With the approval of the State committee, the county committee may establish, for any commodity, community check yields for communities or areas of the county as deemed necessary to reflect significant variations in the yields between such communities or areas.

(2) In the case of peanuts and tobacco, where records of actual farm yields are available to the county committee, the normal yield for the farm shall be determined by the county committee on the basis of the actual yields of the commodity obtained during the base period specified above for establishing the county check yield, adjusted for drought, flood, or other abnormal conditions. Where records of actual farm yields for peanuts and tobacco are not available, and in the case of all other commodities, the county committee shall determine the normal yield for the farm on the basis of (i) the community check yield (or county check yield if no community check yield is established), (ii) the productivity of the land on the farm normally devoted to the commodity (iii) customary planting and cultivation practices of the farm operator, and (iv) other factors affecting yields in the community, or for the farm including drought, flood, or other abnormal conditions. In either event, whether the normal yield is determined on the basis of records of the actual yields or on the basis of the factors specified above, the normal yield so established for the farm shall be subject to such adjustment as is necessary in order that such yields for all farms in the county, weighted by the allotments or Soil Bank corn bases for such farms, will not exceed the county check yield established for the county.

(b) *Appraised yield for the field.* In appraising the yield for a crop destroyed due to natural causes, the county committee shall estimate the yield on the basis of the actual condition of the crop after the damage or destruction took place. In the case of total destruction, the yield will be zero. In appraising the yield for a crop plowed under or otherwise physically incorporated into the soil, or clipped, mowed, or cut to prevent maturing, after May 27, 1956, but before an agreement has been signed by the operator and filed with the county committee, the county committee shall estimate the yield on the basis of the actual condition of the crop before such adjustment in the acreage took place. In appraising the yield for a crop to be plowed under or otherwise physically incorporated into the soil, or clipped, mowed, or cut to prevent maturing, after the agreement is signed, the county committee shall estimate the yield on the basis of the actual condition of the crop prior to the signing of the agreement.

(c) *Yield categories.* In the establishment of yields, the farm or tract of land may be placed in yield categories in lieu of establishing the precise yield for the individual farm or tract.

(d) *Instructions implementing provisions of this section.* The Deputy Administrator shall issue instructions to State and county committees with respect to the implementation of the provisions of this section. Copies of such instructions will be available for examination in the office of the county committee.

§ 485.119 *Determination of acreage and extent of calculations.* (a) The number of acres in the acreage reserve and the acreage by which the commodity is reduced below the allotment or, in the case of corn, the Soil Bank corn base, shall be determined in the same manner as acreage is determined in connection with allotment and marketing quota programs.

(b) The extent of calculations shall be as follows:

(1) The acreage of each type of tobacco shall be expressed in hundredths of an acre and fractions of less than a hundredth of an acre shall be dropped.

(2) The acreages of crops other than tobacco shall be expressed in tenths of an acre and fractions of less than one-tenth of an acre shall be dropped.

(c) In determining the acreage reserve for a commodity, the method of calculation set forth in paragraph (a) of this section for the commodity shall be followed.

§ 485.120 *Manner and time of compensation*—(a) *Manner of compensation.* Compensation will be paid to each producer entitled thereto through the issuance to such producer of negotiable certificates, redeemable by Commodity Credit Corporation. Such certificates will be redeemable in cash upon presentation by the producer to whom issued or any holder in due course at the Federal Reserve Bank or Branch Bank designated thereon. Such presentation should be made through regular banking channels. The designated Federal Reserve Bank or Branch will accept the certificates as cash items for immediate credit. In the case of certificates issued with respect to wheat, rice, and corn, the producer to whom the certificate is issued (but not any other person) may obtain redemption of such certificates in grain to the extent provided in regulations to be issued by the Secretary. Commodities delivered to producers in redemption of certificates shall not be eligible for tender to CCC under the price support program.

(b) *Time of compensation.* Certificates shall be issued to the producer or producers entitled thereto upon determination by the county committee that there has been compliance with the acreage reduction requirements of the program.

§ 485.121 *Set-offs.* If any producer to whom compensation is payable under the acreage reserve program is indebted to the United States Department of Agriculture, or any agency thereof including Commodity Credit Corporation, or is indebted to any other agency of the United States and such indebtedness to such other agency is listed on the county debt register, the compensation due such producer shall be set-off against such indebtedness. Indebtedness owing to the Department of Agriculture, or any agency thereof, shall be given first consideration. Set-offs made pursuant to this section shall not deprive the producer of any right to contest the justness of the indebtedness involved either by administrative appeal or by legal action.

§ 485.122 *Division of compensation between landlords, tenants, and sharecroppers.* The agreement entered into with the producers shall specify the basis on which the landlords, tenants, and sharecroppers are to share in the compensation payable thereunder. The basis on which the tenants and sharecroppers share in such compensation must be approved by the county committee as being fair and equitable. In considering whether the tenants and sharecroppers will share in the compensation on a fair and equitable basis, the county committee shall give consideration to the respective contributions which would have been made by the landlord, tenants, and sharecroppers in the production of the crops which would have been produced on the acreage diverted from production under the agreement and the basis on which they would have shared in such crops or the proceeds thereof. In general, the basis for sharing compensation may be approved by the county committee if—

(a) The total compensation is allocated among the producer units (as defined in § 485.101) in proportion to the number of acres contributed from each producer unit to the acreage diverted from production under the agreement; and

(b) The share of the landlord, and operator, if other than the landlord, in the compensation allocated to any producer unit farmed by a tenant or sharecropper does not result in the landlord and operator receiving in excess of the return they would have received for furnishing the land and farm management less any savings in cost to them which result from not producing a crop on the acreage diverted from production and less the amount of any enhancement in value of the land diverted from production as a result of conservation practices carried out on such land.

§ 485.123 *Additional provisions relating to tenants and sharecroppers.* (a) No agreement with respect to any commodity shall be entered into with a producer if it shall appear:

(1) That the landlord or operator has not afforded his tenants and sharecroppers an opportunity to participate under the agreement in proportion to the number of acres in the respective producer units of such commodity farmed by such tenants or sharecroppers; or

(2) That the landlord or operator has, as a result of participation in the Soil Bank program, reduced the number of tenants and sharecroppers on the farm, or the size of their producer units; or

(3) That there exists between the operator or landlord and any tenant or sharecropper any lease, contract, agreement, or understanding, unfairly exacted or required by the operator or landlord and entered into in contemplation of the signing of any agreement hereunder, the effect or purpose of which is:

(i) To cause the tenant or sharecropper to pay over to the landlard or operator any compensation to be paid to him under the agreement; or

(ii) To change the status of any tenant or sharecropper in order to deprive him of any part of the compensation or any other right or privilege of his under the agreement to which his actual status with respect to the land prior thereto would have entitled him; or

(iii) To reduce the size of the tenant's or sharecropper's producer unit in contemplation of the signing of the agreement; or

(iv) To increase the rent to be paid by the tenant or decrease the share of the crop or its proceeds to be received by the sharecropper.

(4) That the operator or landlord has adopted any device or scheme of any sort whatever for the purpose of depriving any tenant or any sharecropper of his compensation or of any other right under the agreement.

(b) The agreement shall be deemed to have been violated if any of the conditions set forth in paragraph (a) of this section are discovered after the signing of the agreement, or if, after the signing of the agreement, the producer enters into any lease, contract, agreement, or understanding with any tenant or sharecropper of the nature prohibited by paragraph (a) (3) of this section or adopts any scheme or device prohibited by paragraph (a) (4) of this section.

§ 485.124 *Successors-in-interest.* (a) In case any producer who is entitled to any compensation under any agreement, dies, becomes incompetent or disappears before receiving such compensation, the compensation shall be made to his successor, as determined in accordance with the regulations issued by the Secretary (7 CFR Part 1108) or any amendments thereto, for payments made pursuant to section 8 of the Soil Conservation and Domestic Allotment Act, as amended.

(b) In the event of the sale or transfer of the farm, other than by death or incompetency, after the agreement is signed, but before compensation is paid thereunder, compensation will be paid to the original signer of the agreement, if he retains the interest in the crop with respect to which the compensation is to be paid. If the interest in the crop with respect to which the compensation is to be paid is transferred to the buyer or other person succeeding the original signer of the agreement, and the county committee is notified in writing of such sale or transfer before compensation has been paid, such compensation shall be paid to such buyer or successor, provided such buyer or successor becomes a party to the agreement by executing a form prescribed by the Secretary for such purpose.

(c) If there is a change in a tenant or sharecropper after the agreement is signed, but before compensation is paid thereunder, compensation shall be paid to the original tenant or sharecropper if he retains the interest in the crop with respect to which compensation is to be paid. If the successor tenant or sharecropper succeeds to the interest in the crop with respect to which the compensation is to be paid, and the county committee is notified in writing of such change before compensation is paid, such compensation shall be paid to such successor tenant or sharecropper, provided, in the case of a tenant-operator, that such tenant-operator becomes a party to the agreement by executing a form prescribed by the Secretary for such purpose.

§ 485.125 *Assignments prohibited.* No agreement entered into hereunder, or any claim or benefit arising therefrom may be assigned in whole or in part.

§ 485.126 *Schemes or devices to defeat purpose of agreement.* No producer entering into an agreement with the Secretary hereunder shall employ any scheme or device which would tend to defeat the purpose of the agreement.

§ 485.127 *Violations of agreement.* (a) In the event the Secretary determines that there has been a violation of any agreement and that such violation is of such a substantial nature as to warrant termination of the agreement, all rights to compensation under the agreement shall be forfeited and all compensation paid shall be refunded. The producers who sign the agreement will be obligated to refund all compensation received not only by them but also by any tenant or sharecropper. The tenant or sharecropper shall also be obligated to refund any compensation received by such tenant or sharecropper. In the event that any of the certificates issued as compensation cannot be returned, the face amount of such certificates, plus interest at the rate of six percent per annum, shall be paid to the United States.

(b) In the event the Secretary determines that there has been a violation of any agreement but that such violation is of such a nature as not to warrant termination of the agreement, rights to compensation under the agreement shall be adjusted, forfeited and refunded as the Secretary determines to be appropriate. The producers signing the agreement will be obligated to accept such adjustments in compensation, forfeit such benefits, and make such refunds to the United States of compensation received not only by them but also by any tenant or sharecropper as the Secretary determines to be appropriate. The tenant or sharecropper will also be obligated to refund, forfeit, and accept such adjustment in compensation paid or otherwise payable to such tenant or sharecropper as the Secretary determines to be appropriate. In the event that any of the certificates issued as compensation cannot be returned in accordance with the determination of the Secretary, the face amount of such certificates, plus interest at the rate of six percent per annum, shall be paid to the United States.

(c) Regulations prescribing the rules and procedure for determining whether a violation has occurred, and whether such violation is of such a substantial nature as to warrant termination of the agreement, and the amount of any adjustment, forfeiture or refund which shall be made if such violation is of such a nature as not to warrant termination of the agreement, and the rules and procedure for review of such determinations will be published separately at a later date.

§ 485.128 *Penalty for grazing or harvesting.* Section 123 of the Act imposes a civil penalty upon any producer who knowingly and wilfully grazes or harvests any crop from any acreage in violation of an agreement equal to 50 per centum of the compensation payable for compliance with such agreement. Such penalty is in addition to any amounts required to be forfeited or refunded under the provisions of the agreement.

§ 485.129 *Access to farm and records.* The county committeemen or their representatives, or any authorized representative of the Secretary, for the purposes of ascertaining the accuracy of the representations made in or in connection with any agreement entered into hereunder and the performance of the terms and conditions of such agreement, shall have the right to enter the farm at any reasonable time in order to measure the acreage or determine the production of any agricultural commodity on the farm, and to examine any records pertaining to the farm or to the acreage, production, or sale of any such agricultural commodity, and the landlord or operator shall furnish such information relating to the farm as may be requested by the county committeemen or their representatives or authorized representatives of the Secretary.

§ 485.130 *State committee approval of determinations of county committees.* The State committee may revise or require revision of any determination made by the county committee in connection with the acreage reserve program.

§ 485.131 *Finality of determinations.* The facts constituting the basis for any compensation, or the amount thereof, under any agreement when officially determined in conformity with these regulations, shall be final and conclusive and shall not be reviewable by any other officer or agency of the Government, except that the act provides for judicial review in the case of the termination of an agreement.

§ 485.132 *Effect on acreage allotment and marketing quota programs.* (a) The acreage on any farm which is diverted from the production of any commodity in order to carry out an agreement shall be considered as acreage devoted to the commodity for the purposes of establishing future State, county and farm acreage allotments and Soil Bank corn bases.

(b) In applying the provisions of paragraph (6) of Public Law 74, Seventy-seventh Congress (7 U. S. C. 1340 (6)), and section 326 (g) and 356 (g) of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1326 (b), 1356 (g)) relating to reduction of the storage amounts of wheat and rice, the acreage on any farm which is diverted from the production of wheat or rice in order to carry out an agreement, shall be considered as wheat acreage or rice acreage, as the case may be, on the farm.

Issued at Washington, D. C., this 15th day of June 1956.

[SEAL] EZRA TAFT BENSON,
*Secretary of Agriculture.*

# TITLE 7—AGRICULTURE

## Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

### PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

ORDER AMENDING ORDER REGULATING HANDLING

§ 922.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations made in connection with the issuance of this order; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and the applicable rules of practice and procedure effective thereunder (7 CFR Part 900), a public hearing was held at Los Angeles, California, on January 25, 1956, upon proposed amendments to the tentatively approved marketing agreement and to Order No. 22 (7 CFR Part 922) regulating the handling of Valencia oranges grown in Arizona and designated part of California. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act, including the establishment and maintenance of such orderly marketing conditions for Valencia oranges grown in Arizona and designated part of California as will provide, in the interests of producers and consumers, an orderly flow thereof to market throughout its normal marketing season to avoid unreasonable fluctuations in supplies and prices;

(2) The said order, as hereby amended, regulates the handling of Valencia oranges grown in Arizona and designated part of California in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which hearings have been held;

(3) The said order as hereby amended is limited in its application to the smallest regional production area that is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of such production area would not effectively carry out the declared policy of the act;

(4) The said order as hereby amended prescribes, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to differences in the production and marketing of the Valencia oranges covered thereby; and

(5) All handling of Valencia oranges, as defined in the order as hereby amended, is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

(b) *Additional findings.* It is hereby found on the basis hereinafter indicated that good cause exists for making the provisions of this order effective not later than the date of publication in the FEDERAL REGISTER; and that it would be contrary to the public interest to postpone such effective date until 30 days after publication (60 Stat. 237; 5 U. S. C. 1001 et seq.). Shipments of the current crop of Valencia oranges is now under way. To be of maximum benefits during this season, it is necessary that these amendments be made effective as soon as possible. The amendments, among other things, authorize handlers to make use of the overshipment tolerance provision each week instead of every other week as is now provided, and authorize the establishment of a percentage of a size regulation on the allotment issued to a handler for a week, as well as on volume of shipments. Thus, more flexibility of operation under the program is provided. The provisions of the order are well known to the handlers of Valencia oranges. The public hearing in connection therewith was held on January 25, 1956, and the recommended decision and final decision were published in the FEDERAL REGISTER on April 12, 1956 (21 F. R. 2384), and May 5, 1956 (21 F. R. 3022), respectively. Copies of the regulatory provisions of this order were made available to all known interested parties, and compliance with such provisions will not require advance preparation on the part of persons subject thereto which cannot be completed prior to the effective date of regulation pursuant hereto.

(c) *Determinations.* It is hereby determined that:

(1) A marketing agreement regulating the handling of Valencia oranges grown in Arizona and designated part of California, upon which public hearings were held, has been signed by handlers (excluding cooperative associations of producers who were not engaged in processing, distributing, or shipping the oranges covered by this order) who, during the period beginning February 1, 1955, and ending January 31, 1956, both dates inclusive, handled not less than 80 percent of the volume of oranges covered by said order as hereby amended; and

(2) The issuance of this order amending the aforesaid order is favored or approved by producers who, during the determined representative period (February 1, 1955, through January 31, 1956), produced for market, within Arizona and the designated part of California, at least two-thirds of the volume of Valencia oranges produced for market within the said production area.

*It is, therefore, ordered,* That, on and after the effective date hereof, the handling of Valencia oranges grown in Arizona and designated part of California shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid order as hereby amended as follows:

1. Delete the provisions of § 922.16 and substitute in lieu thereof the following:

§ 922.16 *Carton.* "Carton" means the standard container number 58 as defined in section 828.83 of the Agricultural Code of California, as amended, of a capacity of approximately 38½ pounds of oranges, or such other container and capacity as may be established by the committee with the approval of the Secretary, or the equivalent thereof.

2. Delete the provisions of § 922.18 and substitute in lieu thereof the following:

§ 922.18 *Carload.* "Carload" means a quantity of oranges equivalent to 924 cartons of oranges, or such other quantity of oranges as may be established by the committee with the approval of the Secretary.

3. Amend the provisions of § 922.31 by adding at the end of the section the following sentence: "Whenever specifically authorized or approved by the committee, an alternate member shall be reimbursed for reasonable expenses necessarily incurred by him in attending committee meetings and shall receive compensation at the rate provided in this section, notwithstanding that the committee member for whom he serves as alternate also attends such meetings."

4. Amend the provisions of § 922.32 as follows:

a. Delete the first sentence thereof and substitute in lieu thereof the following: "The committee shall, as soon as practicable after the marketing of the crop is completed, prepare and mail an annual report to the Secretary and to each handler and grower of record."

b. Delete therefrom the words following (d) and substitute in lieu thereof the following: "notice of the time and place of an open meeting, to be held as soon as practicable after the mailing of the annual report, to review the whole record of the operations of this part."

5. Amend the provisions of paragraph (e) of § 922.53 *Prorate bases* by inserting the following as part of the last sentence in such paragraph: "; and, in the event the change in control of oranges is occasioned by a bona fide transfer of the ownership of the real property on which such oranges were produced, the person gaining the control of such oranges shall have his quantity of oranges available for current shipment adjusted by adding thereto a quantity of oranges equal to that which is so deducted."

6. Amend the provisions of § 922.55 by deleting therefrom the first sentence and substituting in lieu thereof the following: "During any week for which the Secretary has fixed the total quantity of oranges which may be handled, any person who has received an allotment for such week, and whose total allotment is not loaned, or is not required for the repayment of an allotment loan or as a deduction for a prior overshipment, may handle in addition to his allotment an amount of such oranges equivalent to 10 percent of his allotment, or one carload, whichever is the greater."

7. Amend the provisions of § 922.57 by adding a new paragraph (e) as follows:

(e) No allotment may be loaned from one handler to another when such loan is brought about by the payment of a consideration.

8. Amend the provisions of § 922.64 by inserting the following immediately after the first sentence of such section: "When any such size regulation restricts the handling of a portion of a specified size, the quantity of such size that may be handled by a handler during a particular week shall be established as a percentage of (a) the weekly allotment issued to such handler when volume regulation is in effect, and (b) the total weekly volume handled by such handler when volume regulation is not in effect."

9. Insert the following new sentence immediately preceding the last sentence of § 922.52 *Issuance of volume regulations:* "Such regulation may be made effective, as authorized by the act, irrespective of whether the season average price for Valencia oranges is in excess of the parity price specified therefor in the act."

10. Amend the provisions of § 922.71 by deleting therefrom the word, "box" and substituting in lieu thereof the word "carton."

11. Immediately preceding the closing of the parenthesis at the end of § 922.2 *Act* insert the following: "; 68 Stat. 906, 1047."

12. Amend the provisions of § 922.83 (c) (3) by deleting therefrom the date "December 15" wherever it appears and substituting in lieu thereof the date "October 15."

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 18th day of June 1956, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] EARL L. BUTZ,
*Assistant Secretary.*

### PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING OF LEMONS GROWN IN CALIFORNIA AND ARIZONA

§ 953.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations made in connection with the issuance of this order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and the applicable rules of practice and procedure effective thereunder (7 CFR Part 900) a public hearing was held at Los Angeles, California, on January 25, 1956, upon proposed amendments to Marketing Agreement No. 94, as amended, and Order No. 53, as amended (7 CFR Part 953),[1] regulating the handling of lemons grown in California and Arizona. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act, including the establishment and maintenance of such orderly marketing conditions for lemons grown in the States of California and Arizona as will provide, in the interests of producers and consumers, an orderly flow thereof to market throughout its normal marketing season to avoid unreasonable fluctuations in supplies and prices;

(2) The said order, as amended, and as hereby further amended, regulates the handling of lemons grown in the States of California and Arizona in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, the marketing agreement upon which hearings have been held;

(3) The said order, as amended, and as hereby further amended, is limited in its application to the smallest regional production area that is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of such production area would not effectively carry out the declared policy of the act; and

(4) The said order, as amended, and as hereby further amended, prescribes, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to differences in the production and marketing of the lemons covered thereby.

(b) *Additional findings.* It is hereby determined on the basis hereinafter indicated that good cause exists for making the provisions of this order effective not later than the date of publication in the FEDERAL REGISTER; and that it would be contrary to the public interest to postpone such effective date until 30 days after publication (60 Stat. 237; 5 U. S. C. 1001 et seq.). The marketing of lemons takes place throughout the year and the heaviest movement of the 1955–56 season is now in progress. To be of maximum benefits, it is necessary that the provisions of these amendments be made effective as soon as possible; and the amendments relieve restrictions in that, under certain circumstances, handlers overshipment tolerances for a week is increased. The provisions of this order are well known to handlers. The public hearing in connection therewith was held at Los Angeles, California, on January 25, 1956, and the recommended decision and the final decision were published in the FEDERAL REGISTER on April 17, 1956 (21 F. R. 2477) and May 10, 1956 (21 F. R. 3115), respectively. Copies of the provisions of this order were made available to all known interested parties, and compliance with such

[1] The compilation of Order No. 53, as amended, appears in 20 F. R. 2913.

provisions will not require advance preparation on the part of persons subject thereto which cannot be completed prior to the effective date hereof.

(c) *Determinations.* It is hereby determined that:

(1) The "Agreement Amending the Marketing Agreement, as Amended, Regulating the Handling of Lemons Grown in California and Arizona," upon which the aforesaid public hearing was held, has been signed by handlers (excluding cooperative associations of producers who were not engaged in processing, distributing, or shipping the lemons covered by this order) who, during the period November 1, 1954, through October 31, 1955, shipped not less than 80 percent of the volume of lemons covered by said order, as amended, and hereby further amended;

(2) The issuance of this order, amending the aforesaid order, as amended, is favored, or approved, by at least three-fourths of the producers who, during the determined representative period (November 1, 1954, through October 31, 1955), were engaged within the production area specified in said order, as amended, in the production of lemons for market; and

(3) The issuance of this order, amending the aforesaid order as amended, is favored or approved by producers who, during the aforesaid representative period, produced for market at least two-thirds of the volume of lemons produced within California and Arizona for market.

*It is, therefore, ordered,* That, on and after the effective date hereof, all handling of lemons grown in the production area shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

1. Delete the provisions of § 953.8 and substitute in lieu thereof the following:

§ 953.8 *Carload.* "Carload" means a quantity of lemons equivalent to 930 cartons of lemons, or such other quantity of lemons as may be established by the committee with the approval of the Secretary.

2. Delete the provisions of § 953.9 and substitute in lieu thereof the following:

§ 953.9 *Carton.* "Carton" means a standard container number 58 as defined in section 828.83 of the Agricultural Code of California, as amended, of a capacity of approximately 39½ pounds of lemons, or such other container and capacity as may be established by the committee with the approval of the Secretary, or the equivalent thereof.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 18th day of June 1956, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] EARL L. BUTZ,
*Assistant Secretary.*

# TITLE 16—COMMERCIAL PRACTICES

## Chapter I—Federal Trade Commission

### Subchapter A—Procedures, Rules of Practice, and Orders

[Docket 6531]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

CREDIT TV SERVICE

Subpart—*Advertising falsely or misleadingly:* § 13.75 *Free goods or services;* § 13.225 *Servicing.* Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 13.1960 *Free service.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Joseph Jimenez et al. dba Credit TV Service, Washington, D. C., Docket 6531, June 9, 1956]

*In the Matter of Joseph Jimenez and Catherine Jimenez, Individuals, Trading and Doing Business as Credit TV Service*

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging two individuals, with place of business in Washington, D. C., with misrepresenting their charges for servicing and repairing a TV set in the home and misrepresenting shop estimates as free—and an agreement containing a consent order to cease and desist disposing of all the issues without hearing.

On this basis, the hearing examiner made his initial decision and order to cease and desist which, by order of June 8, 1956, became, on June 9, the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered,* That respondents Joseph Jimenez and Catherine Jimenez, individuals, trading and doing business as Credit TV Service, or trading and doing business under any other name or names, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of replacement parts for television sets and other merchandise, or repair services in connection therewith, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing, directly or by implication:

1. That the charge for servicing or repairing is 99 cents, or any other amount which is not in accordance with the facts.

2. That there is no charge for estimates made in the shop, when such is not the fact.

By "Decision of the Commission", etc., report of compliance was required as follows:

*It is ordered,* That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: June 8, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH,
*Secretary.*

[F. R. Doc. 56-4915; Filed, June 21, 1956; 8:48 a. m.]

### Subchapter B—Trade Practice Conference Rules

[File No. 21-486]

PART 30—PLASTICS HOUSEWARES INDUSTRY

TRADE PRACTICE RULES

Due proceedings having been held under the trade practice conference procedure in pursuance of the act of Congress approved September 26, 1914, as amended (Federal Trade Commission Act), and other provisions of law administered by the Commission:

*It is now ordered,* That the Group I trade practice rules as hereinafter set forth, which have been approved by the Commission in this proceeding, be promulgated as of June 22, 1956.

*Statement by the Commission.* Trade practice rules for the plastics housewares industry, as hereinafter set forth, are promulgated by the Federal Trade Commission under the trade practice conference procedure.

The industry for which these trade practice rules are established is composed of persons, firms, corporations, and organizations who are engaged in the manufacture, design, offering for sale, sale, or distribution of plastics housewares, which include, but are not limited to, the articles of molded plastics mentioned in the definitions of industry products which immediately precede the rules herein. Not included are melamine dinnerware and articles made from thermoplastic film.

The rules are directed to the maintenance of free and fair competition in the industry and to the prevention and elimination of various practices deemed to be violative of laws administered by the Commission. They are to be applied to such end and to the exclusion of any acts or practices which suppress competition or otherwise restrain trade.

Proceedings under which the rules have been established were instituted pursuant to an industry application. A general trade practice conference was held in the offices of the Commission in Washington, D. C., at which proposals for rules were submitted for the consideration of the Commission. Thereafter proposed rules were published by the Commission and made available to all industry members and other interested or affected parties upon public notice whereby they were afforded opportunity to present their views, including such pertinent information, suggestions, or amendments as they desired to offer, and to be heard in the premises. Pursuant to such notice, a public hearing was held in the offices of the Commission in Washington, D. C., and all matters there presented, or otherwise received in the proceeding, were duly considered by the Commission.

Thereafter, and upon full consideration of the entire matter, final action was taken by the Commission whereby it approved the rules as hereinafter set forth. No Group II rules have been included for the reason that the Group II rules recommended by the industry are of a type presently the subject of a general study by the Commission. If, after completion of such study, it is determined that provisions of this type may be included as Group II rules for industries, an opportunity then will be afforded members of this industry to have such rules included.

The rules as herein approved become operative thirty (30) days from the date of promulgation.

*The rules.* These rules promulgated by the Commission are designed to foster and promote the maintenance of fair competitive conditions in the interest of protecting industry, trade, and the public. It is to this end, and to the exclusion of any act or practice which fixes or controls prices through combination or agreement, or which unreasonably restrains trade or suppresses competition, or otherwise unlawfully injures, destroys, or prevents competition, that the rules are to be applied.

GROUP I

*General statement.* The unfair trade practices embraced in the rules herein are considered to be unfair methods of competition, unfair or deceptive acts or practices, or other illegal practices, prohibited under laws administered by the Federal Trade Commission; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use, by any person, partnership, corporation, or other organization subject to its jurisdiction, of such unlawful practices in commerce.

Sec.
30.0 Definitions.
30.1 Misrepresentation and deception in general.
30.2 Misrepresenting products as conforming to standard.
30.3 Misuse of terms "close-outs," "discontinued lines," "special bargains," etc.
30.4 Substitution of products.
30.5 Deceptive use and imitation of trade or corporate names, trade-marks, etc.
30.6 Deceptive invoicing.
30.7 Fictitious prices, price lists, etc.
30.8 Guarantees, warranties, etc.
30.9 Use of lottery schemes, etc.
30.10 Prohibited forms of trade restraints (unlawful price fixing, etc.).
30.11 Prohibited sales below cost.
30.12 Prohibited discrimination.
30.13 Lifting of stocks.
30.14 Defamation of competitors or false disparagement of their products.
30.15 Procurement of competitors' confidential information by unfair means and wrongful use thereof.
30.16 Enticing away employees of competitors.
30.17 Commercial bribery.
30.18 Unlawful interference with competitors' purchases or sales.
30.19 Exclusive deals.
30.20 Aiding or abetting use of unfair trade practices.

AUTHORITY: §§ 30.0 to 30.20, issued under sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45.

§ 30.0 *Definitions.* (a) As used in this part, the term "industry products" means all plastics housewares including, but not limited to, articles such as the following: Bowls, breadboxes, butter dishes, cake dishes, canister sets, cheese slicers, clothesline reels, clothespins, coasters, coat hangers, cookie jars, defroster trays, egg trays, flavor servers, forks, funnels, knives, measuring spoons, napkin holders, necktie racks, paper-towel holders, potato mashers, refrigerator boxes, refrigerator dishes, salt and pepper shakers, scoops, scourers, shoe racks, sink strainers, silverware trays, soap dishes, straws, tea strainers, toiletpaper holders, towel racks and holders, tumblers, utility trays, and waste baskets, which are molded of plastics, but specifically excluding melamine dinnerware or articles made from thermoplastic film.

(b) As used in this part, the term "members of the industry" means persons, firms, corporations, and organizations engaged in the manufacture, design, offering for sale, sale, or distribution of "industry products" as above defined.

§ 30.1 *Misrepresentation and deception in general.* It is an unfair trade practice to use, or cause or promote the use of, any trade promotional literature, advertising matter, guarantee, warranty, mark, brand, label, trade name, picture, design or device, designation, or other type of oral or written representation, however disseminated or published, or to fail to disclose any material fact, which has the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers with respect to the type, kind, grade, quality, quantity, size, weight, nature, substance, durability, serviceability, origin, preparation, production, manufacture, distribution, or customary or regular price, of any product of the industry, or which has the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public in any other material respect. [Rule 1]

§ 30.2 *Misrepresenting products as conforming to standard.* In connection with the sale or offering for sale of industry products, it is an unfair trade practice to represent, through advertising or otherwise, that such products conform to any standards recognized in or applicable to the industry when such is not the fact. [Rule 2]

§ 30.3 *Misuse of terms "close-outs," "discontinued lines," "special bargains," etc.* It is an unfair trade practice to offer for sale, sell, advertise, describe, or otherwise represent, regular lines of industry products as "Close-Outs," "Discontinued Lines," "Special Bargains," or by words or representations of similar import, when such are not true in fact; or to so offer for sale, sell, advertise, describe, or otherwise represent industry products where the capacity and tendency or effect thereof is to lead the purchasing or consuming public to believe such products are being offered for sale or sold at greatly reduced prices, or at so-called "bargain" prices, when such is not the fact. [Rule 3]

§ 30.4 *Substitution of products.* It is an unfair trade practice for an industry member to make an unauthorized substitution of products, where such substitution has the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public, by:

(a) Shipping or delivering industry products which do not conform to samples submitted, to specifications upon which the sale is consummated, or to representations made prior to securing the order, without advising the purchaser of the substitution and obtaining his consent thereto prior to making shipment or delivery; or

(b) Falsely representing the reason for making a substitution. [Rule 4]

§ 30.50 *Deceptive use and imitation of trade or corporate names, trade-marks, etc.* It is an unfair trade practice for any member of the industry to use any trade name, corporate name, trade-mark, or other trade designation, which has the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchaser as to the character, name, nature, or origin of any product of the industry, or of any material used therein, or which is false or misleading in any material respect. [Rule 5]

§ 30.6 *Deceptive invoicing.* Withholding from or inserting in invoices any statement or information by reason of which omission or insertion a false, inaccurate, or incomplete record is made, which has the capacity and tendency or effect of deceiving purchasers, prospective purchasers, or the consuming public in any material respect, is an unfair trade practice. [Rule 6]

§ 30.7 *Fictitious prices, price lists, etc.* The publishing or circulating by any member of the industry of false or misleading price quotations, price lists, terms or conditions of sale, or reports as to production or sales, with the capacity and tendency or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public, or the advertising, sale, or offering for sale of industry products at prices purporting to be reduced from what are in fact fictitious prices, or at purported reductions in prices when such purported reductions are in fact fictitious or are otherwise misleading or deceptive, is an unfair trade practice. [Rule 7]

§ 30.8 *Guarantees, warranties, etc.* (a) It is an unfair trade practice to use, or cause to be used, any guarantee or warranty which is false, misleading, deceptive, or unfair to the purchasing or consuming public.

(b) The following types of guarantees are examples of those considered to be unfair trade practices and in violation of this section:

(1) Guarantees containing statements, representations, or assertions which have the capacity and tendency or effect of misleading or deceiving in any material respect; or

(2) Guarantees which are so used, or are of such form, text, or character, as

to import, imply, or represent that the guarantee is broader than is in fact true, or that the guarantee covers the entire industry product when such is not the fact, or will afford more protection to purchasers or users than is in fact true; or

(3) Guarantees in which any condition, qualification, or contingency applied by the guarantor thereto is not fully and nondeceptively stated therein, or is stated in such manner or form as to be deceptively minimized, obscured, or concealed, wholly or in part; or

(4) Guarantees which are stated, phrased, or set forth in such manner that although the statements contained therein are literally and technically true, the whole is misleading in that purchasers or users are not made sufficiently aware of certain contingencies or conditions applicable to such guarantees which materially lessen the value or protection therof as guarantees to purchasers or users; or

(5) Guarantees which purportedly extend for such an indefinite or unlimited period of time or for such long period of years as to have the capacity and tendency or effect of thereby misleading or deceiving purchasers or users into the belief that the product has or is definitely known to have a longer period of serviceability or greater durability in actual use than is in fact true; or

(6) Guarantees which in themselves or in the manner of their use are otherwise false, misleading, or deceptive.

(c) The section shall be applicable not only to guarantees but also to warranties, to purported warranties and guarantees, and to any promise or representation in the nature of or purporting to be a guarantee or warranty. [Rule 8]

§ 30.9 *Use of lottery schemes, etc.* It is an unfair trade practice to sell, distribute, or promote the sale or distribution of any industry product by means of a game of chance, gift enterprise, or lottery scheme. [Rule 9]

§ 30.10 *Prohibited forms of trade restraints (unlawful price fixing, etc.).*[1] It is an unfair trade practice for any member of the industry, either directly or indirectly, to engage in any planned common course of action, or to enter into or take part in any understanding, agreement, combination, or conspiracy, with one or more members of the industry, or with any other person or persons, to fix or maintain the price of any goods or otherwise unlawfully to restrain trade; or to use any form of threat, intimidation, or coercion to induce any member of the industry or other person or persons to engage in any such planned common course of action, or to become a party to any such understanding, agreement, combination, or conspiracy. [Rule 10]

§ 30.11 *Prohibited sales below cost.* (a) The practice of selling products of the industry at a price less than the cost thereof to the seller, with the purpose or intent, and where the effect is, or where there is a reasonable probability that the effect will be, to substantially injure, suppress, or stifle competition or tend to create a monopoly, is an unfair trade practice.

(b) This section is not to be construed as prohibiting all sales below cost, but only such selling below the seller's cost as is resorted to and pursued with the wrongful intent or purpose referred to and where the effect is, or where there is reasonable probability that the effect will be, to substantially injure, suppress, or stifle competition or to create a monopoly. Among the situations in which the requisite purpose or intent would ordinarily be lacking are cases in which such sales were: (1) of seasonal goods near the conclusion of the season; (2) of obsolescent goods; (3) made under judicial process; or (4) made in bona fide discontinuance of business in the goods concerned.

(c) As used in paragraphs (a) and (b) of this section, the term "cost" means the respective seller's cost and not an average cost in the industry whether such average cost be determined by an industry cost survey or some other method. It consists of the total outlay or expenditure by the seller in the acquisition, production, and distribution of the products involved, and comprises all elements of cost such as labor, material, depreciation, taxes (except taxes on net income and such other taxes as are not properly applicable to cost), and general overhead expenses, incurred by the seller in the acquisition, manufacture, processing, preparation for marketing, sale, and delivery of the products. Not to be included are dividends or interest on borrowed or invested capital, or nonoperating losses, such as fire losses and losses from the sale or exchange of capital assets. Operating cost should not be reduced by items of nonoperating income, such as income from investments, and gain on the sale of capital assets.

(d) Nothing in this section shall be construed as relieving an industry member from compliance with any of the requirements of the Robinson-Patman Act. [Rule 11]

§ 30.12 *Prohibited discrimination*[2]—(a) *Prohibited discriminatory prices, rebates, refunds, discounts, credits, etc., which effect unlawful price discrimination.* It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, to grant or allow, secretly or openly, directly or indirectly, any rebate, refund, discount, credit, or other form of price differential, where such rebate, refund, discount, credit, or other form of price differential, effects a discrimination in price between different purchasers of goods of like grade and quality, where either or any of the purchases involved therein are in commerce, and where the effect thereof may be substantially to lessen competition or tend to create a monopoly in any line of commerce, or to injure, destroy, or prevent competition with any person who either grants or knowingly receives the benefit of such discrimination, or with customers of either of them: *Provided, however:*

(1) That the goods involved in any such transaction are sold for use, consumption, or resale within any place under the jurisdiction of the United States, and are not purchased by schools, colleges, universities, public libraries, churches, hospitals, or charitable institutions not operated for profit, as supplies for their own use;

(2) That nothing contained in this paragraph shall prevent differentials which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which such commodities are to such purchasers sold or delivered;

NOTE: Cost justification under the above proviso depends upon net savings in cost based on all facts relevant to the transactions under the terms of subparagraph (2) of this paragraph. For example, if a seller regularly grants a discount based upon the purchase of a specified quantity by a single order for a single delivery, and this discount is justified by cost differences, it does not follow that the same discount can be cost justified if granted to a purchaser of the same quantity by multiple orders or for multiple deliveries.

(3) That nothing contained in this section shall prevent persons engaged in selling goods, wares, or merchandise in commerce from selecting their own customers in bona fide transactions and not in restraint of trade;

(4) That nothing contained in this paragraph shall prevent price changes from time to time where made in response to changing conditions affecting the market for or the marketability of the goods concerned, such as but not limited to obsolescence of seasonal goods, distress sales under court process, or sales in good faith in discontinuance of business in the goods concerned;

(5) That nothing contained in this section shall prevent the meeting in good faith of an equally low price of a competitor, or the services or facilities furnished by a competitor (see paragraphs (d) and (e) of this section).

(NOTE: In complaint proceedings, justification of price differentials under subparagraphs (2), (4) and (5) of this paragraph is a matter of affirmative defense to be established by the person or concern charged with price discrimination.)

(b) The following are examples of price differential practices to be considered as subject to the prohibitions of paragraph (a) of this section when involving goods of like grade and quality which are sold for use, consumption, or resale within any place under the jurisdiction of the United States, and which are not purchased by schools, colleges, universities, public libraries, churches, hospitals, or charitable institutions not operated for profit, as supplies for their own use, and when:

(1) The commerce requirements specified in paragraph (a) of this section are present; and

(2) The price differential has a reasonable probability of substantially lessening competition or tending to create a monopoly in any line of commerce, or of injuring, destroying, or preventing competition with the industry member or with the customer receiving the benefit of the price differential, or with customers of either of them; and

(3) The price differential is not justified by cost savings (see paragraph (a) (2) of this section); and

(4) The price differential is not made in response to changing conditions affecting the market for or the marketability of the goods concerned (see paragraph (a) (4) of this section); and

(5) The lower price was not made to meet in good faith an equally low price of a competitor (see paragraph (a) (5) of this section).

*Example No. 1.* At the end of a given period an industry member grants a discount to a customer equivalent to a fixed percentage of the total of the customer's purchases during such period and fails to grant such discount to other customers under like conditions.

*Example No. 2.* An industry member sells goods to one or more of his customers at a higher price than he charges other customers for like merchandise. It is immaterial whether or not such discrimination is accomplished by misrepresentation as to the grade and quality of the products sold.

(c) *Prohibited brokerage and commissions.* It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, to pay or grant, or to receive or accept, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods, wares, or merchandise, either to the other party to such transaction or to an agent, representative, or other intermediary therein where such intermediary is acting in fact for or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid.

(d) *Prohibited advertising or promotional allowances, etc.* It is an unfair trade practice for any member of the industry engaged in commerce to pay or contract for the payment of advertising or promotional allowances or any other thing of value to or for the benefit of a customer of such member in the course of such commerce as compensation or in consideration for any services or facilities furnished by or through such customer in connection with the processing, handling, sale, or offering for sale of any products or commodities manufactured, sold, or offered for sale by such member, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products or commodities.

(e) *Prohibited discriminatory services or facilities.* It is an unfair trade practice for any member of the industry engaged in commerce to discriminate in favor of one purchaser against another purchaser or purchasers of a commodity bought for resale, with or without processing, by contracting to furnish or furnishing, or by contributing to the furnishing of, any services or facilities connected with the processing, handling, sale, or offering for sale of such commodity to purchaser upon terms not according to all competing purchasers on proportionally equal terms.

(f) *Inducing or receiving an illegal discrimination in price.* It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, knowingly to induce or receive a discrimination in price which is prohibited by the foregoing provisions of this section.

NOTE: This paragraph is a re-statement of section 2(f) of the Clayton Act as amended. In a complaint proceeding under this section, in order to make out a prima facie violation, the Commission must show that the favored buyer induced or received the lower price knowing, or knowing facts from which he should have known, that such price was violative of section 2(a) of said act and not justified under subparagraphs (2), (4), or (5) of paragraph (a) of this section. When, in any such proceeding, the issue is limited to the question of whether the price differential involved made only due allowance for differences in cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which the goods were sold and delivered, the Commission may establish a prima facie case in a number of ways, including:

(1) By showing that the buyer paying the lower price knew that the methods by, and quantities in, which the goods were sold and delivered to him by the seller were the same as in the case of the competing buyer or buyers paying the higher price or prices; or

(2) By showing, when there is a difference in the methods or quantities in which the goods were sold and delivered by the seller to the buyer than in the case of the competing buyer or buyers paying the higher price or prices, that the buyer paying the lower price or prices knew the nature and extent of such differences and knew or should have known that they could not have resulted in sufficient cost savings of the kind and character specified as to justify the price differential. [Rule 12]

§ 30.13 *Lifting of stocks.* It is an unfair trade practice for any member of the industry to purchase the stock of a distributor or dealer which has been supplied by competitor or competitors when such practice is done as an inducement to the distributor or dealer to discontinue handling competitive products and to handle such member's products exclusively, and where the effect of such act or practice may be substantially to lessen competition or tend to create a monopoly in any line of commerce. [Rule 13]

§ 30.14 *Defamation of competitors or false disparagement of their products.* The defamation of competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations, or the false disparagement of competitors' products in any respect, or of their business methods, selling prices, values, credit terms, policies, or services, is an unfair trade practice. [Rule 14]

§ 30.15 *Procurement of competitors' confidential information by unfair means and wrongful use thereof.* It is an unfair trade practice for any member of the industry to obtain information concerning the business of a competitor by bribery of an employee or agent of such competitor, by false or misleading statements or representations, by the impersonation of one in authority, or by any other unfair means, and to use the information so obtained in such manner as to injure said competitor in his business or to suppress competition or unreasonably restrain trade. [Rule 15]

§ 30.16 *Enticing away employees of competitors.* It is an unfair trade practice for any member of the industry wilfully to entice away employees or sales representatives of competitors with the intent and effect of thereby unduly hampering or injuring competitors in their business and destroying or substantially lessening competition: *Provided,* That nothing in this section shall be construed as prohibiting employees from seeking more favorable employment, or as prohibiting employers from hiring or offering employment to employees of competitors in good faith and not for the purpose of injuring, destroying, or preventing competition. [Rule 16]

§ 30.17 *Commercial bribery.* It is an unfair trade practice for a member of the industry, directly or indirectly, to give, or offer to give, or permit or cause to be given, money or anything of value to agents, employees, or representatives of customers or prospective customers, or to agents, employees, or representatives of competitors' customers or prospective customers, without the knowledge of their employers or principals, as an inducement to influence their employers or principals to purchase or contract to pur-

[1] The inhibitions of this section are subject to Public Law 542, approved July 14, 1952—66 Stat. 632 (the McGuire Act) which provides that with respect to a commodity which bears, or the label or container of which bears, the trade-mark, brand, or name of the producer or distributor of such commodity and which is in free and open competition with commodities of the same general class produced or distributed by others, a seller of such a commodity may enter into a contract or agreement with a buyer thereof which establishes a minimum or stipulated price at which such commodity may be resold by such buyer when such contract or agreement is lawful as applied to intrastate transactions under the laws of the State, Territory, or territorial jurisdiction in which the resale is to be made or to which the commodity is to be transported for such resale, and when such contract or agreement is not between manufacturers, or between wholesalers, or between brokers, or between factors, or between retailers, or between persons, firms, or corporations in competition with each other.

[2] As used in this section, the word "commerce" means "trade or commerce among the several States and with foreign nations, or between the District of Columbia or any Territory of the United States and any State, Territory, or foreign nation, or between any insular possessions or other places under the jurisdiction of the United States, or between any such possession or place and any State or Territory of the United States or the District of Columbia or any foreign nation, or within the District of Columbia or any Territory or any insular possession or other place under the jurisdiction of the United States."

chase products manufactured or sold by such industry member or the maker of such gift or offer, or to influence such employers or principals to refrain from dealing in the products of competitors or from dealing or contacting to deal with competitors. [Rule 17]

§ 30.18 *Unlawful interference with competitors' purchases or sales.* It is an unfair trade practice for any member of the industry, by means of any monopolistic practices or through combination, conspiracy, coercion, boycott, threats, or any other unlawful means, directly or indirectly, to interfere with a competitor's right to purchase his raw materials and supplies from whomsoever he chooses, or to sell his product to whomsoever he chooses. [Rule 18]

§ 30.19 *Exclusive deals.* It is an unfair trade practice for any member of the industry to contract to sell or sell any industry product, or fix a price charged therefor, or discount from, or rebate upon, such price, on the condition, agreement, or understanding that the purchaser thereof shall not use or deal in the products of a competitor or competitors of such industry member, where the effect of such sale or contract for sale, or of such condition, agreement, or understanding, may be substantially to lessen competition or tend to create a monopoly in any line of commerce. [Rule 19]

§ 30.20 *Aiding or abetting use of unfair trade practices.* It is an unfair trade practice for any person, firm, or corporation to aid, abet, coerce, or induce another, directly or indirectly, to use or promote the use of any unfair trade practice specified in the rules in this part. [Rule 20]

Issued: June 19, 1956.

Promulgated by the Federal Trade Commission June 22, 1956.

## PART 32—MELAMINE DINNERWARE INDUSTRY

### TRADE PRACTICE RULES

Due proceedings having been held under the trade practice conference procedure in pursuance of the Act of Congress approved September 26, 1914, as amended (Federal Trade Commission Act), and other provisions of law administered by the Commission;

*It is now ordered*, That the Group I trade practice rules as hereinafter set forth, which have been approved by the Commission in this proceeding, be promulgated as of June 22, 1956.

*Statement by the Commission.* Trade practice rules for the melamine dinnerware industry, as hereinafter set forth, are promulgated by the Federal Trade Commission under the trade practice conference procedure.

The industry for which trade practice rules are hereby established is composed of persons, firms, corporations, and organizations engaged in the manufacture, design, distribution, or sale of Melamine Molded Dinnerware.

The rules are directed to the maintenance of free and fair competition in the industry and to the prevention and elimination of various practices deemed to be violative of laws administered by the Commission. They are to be applied to such end and to the exclusion of any acts or practices which suppress competition or otherwise restrain trade.

Proceedings under which the rules have been established were instituted pursuant to an industry application. A general trade practice conference was held in the offices of the Commission in Washington, D. C., at which proposals for rules were submitted for the consideration of the Commission. Thereafter proposed rules were published by the Commission and made available to all industry members and other interested or affected parties upon public notice whereby they were afforded opportunity to present their views, including such pertinent information, suggestions, or amendments as they desired to offer, and to be heard in the premises. Pursuant to such notice, a public hearing was held in the offices of the Commission in Washington, D. C., and all matters there presented, or otherwise received in the proceedings, were duly considered by the Commission.

Thereafter, and upon full consideration of the entire matter, final action was taken by the Commission whereby it approved the rules as hereinafter set forth. No Group II rules have been included for the reason that the Group II rules recommended by the industry are of a type presently the subject of general study by the Commission. If, after the completion of such study, it is determined that provisions of this type may be included as Group II rules for industries, an opportunity then will be afforded to the members of this industry to have such rules included.

The rules as herein approved become operative thirty (30) days from the date of promulgation.

*The rules.* These rules promulgated by the Commission are designed to foster and promote the maintenance of fair competitive conditions in the interest of protecting industry, trade, and the public. It is to this end, and to the exclusion of any act or practice which fixes or controls prices through combination or agreement, or which unreasonably restrains trade or suppresses competition, or otherwise unlawfully injures, destroys, or prevents competition, that the rules are to be applied.

### GROUP I

The unfair trade practices embraced in the rules in this part are considered to be unfair methods of competition, unfair or deceptive acts or practices, or other illegal practices, prohibited under laws administered by the Federal Trade Commission; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use, by any person, partnership, corporation, or other organization subject to its jurisdiction, of such unlawful practices in commerce.

Sec.
32.0 Definitions.
32.1 Misrepresentation and deception in general.
32.2 Misrepresentations as to character of business.
32.3 Misrepresenting products as conforming to standard.
32.4 Misuse of terms "close-outs," "discontinued lines," "special bargains," etc.
32.5 Substitution of products.
32.6 Deceptive use and imitation of trade or corporate names, trademarks etc.
32.7 Deceptive invoicing.
32.8 Fictitious prices, price lists, etc.
32.9 Guaranties, warranties, etc.
32.10 Use of lottery schemes, etc.
32.11 Prohibited forms of trade restraints (unlawful price fixing, etc.).
32.12 Prohibited sales below cost.
32.13 Prohibited discrimination.
32.14 Lifting of stocks.
32.15 Consignment distribution.
32.16 Defamation of competitors or false disparagement of their products.
32.17 Procurement of competitors' confidential information by unfair means and wrongful use thereof.
32.18 Enticing away employees of competitors.
32.19 Exclusive deals.
32.20 Commercial bribery.
32.21 Unlawful interference with competitors' purchases or sales.
32.22 Aiding or abetting use of unfair trade practices.

AUTHORITY: §§ 32.0 to 32.22 issued under sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec 5, 38 Stat. 719, as amended; 15 U. S C. 45.

§ 32.0 *Definitions.* (a) Members of the industry are those persons, firms, corporations, and organizations engaged in the manufacture, design, distribution, or sale of melamine molded dinnerware.

(b) As used in the rules in this part, the term "industry products" or "products of the industry" consists of dinnerware molded of melamine plastic material.

§ 32.1 *Misrepresentation and deception in general.* It is an unfair trade practice to use, or cause or promote the use of, any trade promotional literature, advertising matter, guarantee, warranty, mark, brand, label, trade name, picture, design or device, designation, or other type of oral or written representation, however disseminated or published, or to fail to disclose any material fact, which has the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers with respect to the type, kind, grade, quality, quantity, size, weight, nature, substance, durability, serviceability, origin, preparation, production, manufacture, distribution, or customary or regular price, of any product of the industry, or which has the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public in any other material respect. [Rule 1]

§ 32.2 *Misrepresentations as to character of business.* It is an unfair trade practice for any member of the industry to represent, directly or indirectly, through the use of any word or term in his corporate or trade name, in his advertising or otherwise, that he is a manufacturer of industry products, or that he is the owner or operator of a factory manufacturing them, when such is not the fact, or in any other manner to misrepresent the character, extent, volume, or type of his business. [Rule 2]

§ 32.3 *Misrepresenting products as conforming to standard.* In connection with the sale or offering for sale of industry products, it is an unfair trade practice to represent, through advertising or otherwise, that such products conform to any standards recognized in or applicable to the industry when such is not the fact. [Rule 3]

§ 32.4 *Misuse of terms "close-outs," "discontinued lines," "special bargains," etc.* It is an unfair trade practice to offer for sale, sell, advertise, describe, or otherwise represent, regular lines of industry products as "close-outs," "discontinued lines," "special bargains," or by words or representations of similar import, when such are not true in fact; or to so offer for sale, sell, advertise, describe, or otherwise represent, industry products where the capacity and tendency or effect thereof is to lead the purchasing or consuming public to believe such products are being offered for sale or sold at greatly reduced prices, or at so-called "bargain" prices, when such is not the fact. [Rule 4]

§ 32.5 *Substitution of products.* It is an unfair trade practice for an industry member to make an unauthorized substitution of products, where such substitution has the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public, by:

(a) Shipping or delivering industry products which do not conform to samples submitted, to specifications upon which the sale is consummated, or to representations made prior to securing the order, without advising the purchaser of the substitition and obtaining his consent thereto prior to making shipment or delivery; or

(b) Falsely representing the reason for making a substitution. [Rule 5]

§ 32.6 *Deceptive use and imitation of trade name, corporate name, trademark, etc.* It is an unfair trade practice for any member of the industry to use any trade name, corporate name, trademark, or other trade designation, which has the capacity and tendency of effect of misleading or deceiving purchasers or prospective purchasers as to the character, name, nature, or origin of any product of the industry, or of any material used therein, or which is false or misleading in any material respect. [Rule 6]

§ 32.7 *Deceptive invoicing.* Withholding from or inserting in invoices any statement or information by reason of which omission or insertion a false, inaccurate, or incomplete record is made, which has the capacity and tendency or effect of deceiving purchasers, prospective purchasers, or the consuming public in any material respect, is an unfair trade practice. [Rule 7]

§ 32.8 *Fictitious prices, price lists, etc.* The publishing or circulating by any member of the industry of false or misleading price quotations, price lists, terms or conditions of sale, or reports as to production or sales, with the capacity and tendency or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public, or the advertising, sale, or offering for sale of industry products at prices purporting to be reduced from what are in fact fictitious prices, or at purported reductions in prices when such purported reductions are in fact fictitious or are otherwise misleading or deceptive, is an unfair trade practice. [Rule 8]

§ 32.9 *Guarantees, warranties, etc.* (a) In the sale, offering for sale, or distribution of industry products, it is an unfair trade practice for any industry member:

(1) To represent that any industry product is guaranteed unless, in close conjunction with such representation, the identity of the guarantor, the extent and nature of the guarantee, and any material conditions or limitations relating to the liability of the guarantor under the guarantee, are adequately and nondeceptively disclosed; or

(2) To offer or use any guarantee respecting an industry product under which the guarantor fails to observe his obligations thereunder; or

(3) To offer or use any guarantee which is otherwise deceptive or unfair.

(b) This section shall be applicable not only to guarantees but also to warranties, to purported guarantees and warranties, and to any promise or representation in the nature of a guarantee or warranty. [Rule 9]

§ 32.10 *Use of lottery schemes, etc.* It is an unfair trade practice to sell, distribute, or promote the sale or distribution of any industry product by means of a game of chance, gift enterprise, or lottery scheme. [Rule 10]

§ 32.11 *Prohibited forms of trade restraints (unlawful price fixing, etc.)*[1] It is an unfair trade practice for any member of the industry, either directly or indirectly, to engage in any planned common course of action, or to enter into or take part in any understanding, agreement, combination, or conspiracy, with one or more members of the industry, or with any other person or persons, to fix or maintain the price of any goods or otherwise unlawfully to restrain trade; or to use any form of threat, intimidation, or coercion to induce any member of the industry or other person or persons to engage in any such planned common course of action, or to become a party to any such understanding, agreement, combination, or conspiracy. [Rule 11]

§ 32.12 *Prohibited sales below cost.* (a) The practice of selling products of the industry at a price less than the cost thereof to the seller, with the purpose or intent, and where the effect is, or where there is a reasonable probability that the effect will be, to substantially injure, suppress, or stifle competition or tend to create a monopoly, is an unfair trade practice.

(b) This section is not to be construed as prohibiting all sales below cost, but only such selling below the seller's cost as is resorted to and pursued with the wrongful intent or purpose referred to and where the effect is, or where there is a reasonable probability that the effect will be, to substantially injure, suppress, or stifle competition or to create a monopoly. Among the situations in which the requisite purpose or intent would ordinarily be lacking are cases in which such sales were: (1) of seasonal goods near the conclusion of the season; (2) of obsolescent goods; (3) made under judicial process; or (4) made in bona fide discontinuance of business in the goods concerned.

(c) As used in paragraphs (a) and (b) of this section, the term "cost" means the respective seller's cost and not an average cost in the industry whether such average cost be determined by an industry cost survey or some other method. It consists of the total outlay or expenditure by the seller in the acquisition, production, and distribution of the products involved, and comprises all elements of cost such as labor, material, depreciation, taxes (except taxes on net income and such other taxes as are not properly applicable to cost), and general overhead expenses, incurred by the seller in the acquisition, manufacture, processing, preparation for marketing, sale, and delivery of the products. Not to be included are dividends or interest on borrowed or invested capital, or nonoperating losses, such as fire losses and losses from the sale or exchange of capital assets. Operating cost should not be reduced by items of nonoperating income, such as income from investments, and gain on the sale of capital assets.

(d) Nothing in this section shall be construed as relieving an industry member from compliance with any of the requirements of the Robinson-Patman Act. [Rule 12]

[1] The inhibitions of this section are subject to Public Law 542, approved July 14, 1952—66 Stat. 632 (the McGuire Act) which provides that with respect to a commodity which bears, or the label or container of which bears, the trade-mark, brand, or name of the producer or distributor of such commodity and which is in free and open competition with commodities of the same general class produced or distributed by others, a seller of such a commodity may enter into a contract or agreement with a buyer thereof which establishes a minimum or stipulated price at which such commodity may be resold by such buyer when such contract or agreement is lawful as applied to intrastate transactions under the laws of the State, Territory, or territorial jurisdiction in which the resale is to be made or to which the commodity is to be transported for such resale, and when such contract or agreement is not between manufacturers, or between wholesalers, or between brokers, or between factors, or between retailers, or between persons, firms, or corporations in competition with each other.

§ 32.13 *Prohibited discrimination*[2]—(a) *Prohibited discriminatory prices, rebates, refunds, discounts, credits, etc., which effect unlawful price discrimination.* It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, to grant or allow, secretly or openly, directly or indirectly, any rebate, rebund, discount, credit, or other form of price differential, where such rebate, refund, discount, credit, or other form of price differential, effects a discrimination in price between different purchasers of goods of like grade and quality, where either or any of the purchases involved therein are in commerce, and where the effect therof may be substantially to lessen competition or tend to create a monopoly in any line of commerce, or to injure, destroy, or prevent competition with any person who either grants or knowingly receives the benefit of such discrimination, or with customers of either of them: *Provided, however:*

(1) That the goods involved in any such transaction are sold for use, consumption, or resale within any place under the jurisdiction of the United States, and are not purchased by schools, colleges, universities, public libraries, churches, hospitals, or charitable institutions not operated for profit, as supplies for their own use;

(2) That nothing contained in this paragraph shall prevent differentials which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which said commodities are to such purchasers sold or delivered;

NOTE: Cost justification under the above proviso depends upon net savings in cost based on all facts relevant to the transactions under the terms of subparagraph (2) of this paragraph. For example, if a seller regularly grants a discount based upon the purchase of a specified quantity by a single order for a single delivery, and this discount is justified by cost differences, it does not follow that the same discount can be cost justified if granted to a purchaser of the same quantity by multiple orders or for multiple deliveries.

(3) That nothing contained in this section shall prevent persons engaged in selling goods, wares, or merchandise in commerce from selecting their own customers in bona fide transactions and not in restraint of trade;

(4) That nothing contained in this paragraph shall prevent price changes from time to time where made in response to changing conditions affecting the market for or the marketability of the goods concerned, such as but not limited to obsolescence of seasonal goods, distress sales under court process, or sales in good faith in discontinuance of business in the goods concerned;

(5) That nothing contained in this section shall prevent the meeting in good faith of an equally low price of a competitor, or the services or facilities furnished by a competitor (see paragraphs (d) and (e) of this section).

NOTE: In complaint proceedings, justification of price differentials under subparagraphs (2), (4) and (5) of this paragraph is a matter of affirmative defense to be established by the person or concern charged with price discrimination.

(b) The following are examples of price differential practices to be considered as subject to the prohibitions of paragraph (a) of this section when involving goods of like grade and quality which are sold for use, consumption, or resale within any place under the jurisdiction of the United States, and which are not purchased by schools, colleges, universities, public libraries, churches, hospitals, or charitable institutions not operated for profit, as supplies for their own use, and when:

(1) The commerce requirements specified in paragraph (a) of this section are present; and

(2) The price differential has a reasonable probability of substantially lessening competition or tending to create a monopoly in any line of commerce, or of injuring, destroying, or preventing completion with the industry member or with the customer receiving the benefit of the price differential, or with customers of either of them; and

(3) The price differential is not justified by cost savings (see paragraph (a) (2) of this section); and

(4) The price differential is not made in response to changing conditions affecting the market for or the marketability of the goods concerned (see paragraph (a) (4) of this section); and

(5) The lower price was not made to meet in good faith an equally low price of a competitor (see paragraph (a) (5) of this section).

*Example No. 1.* At the end of a given period an industry member grants a discount to a customer equivalent to a fixed percentage of the total of the customer's purchases during such period and fails to grant such discount to other customers under like conditions.

*Example No. 2.* An industry member sells goods to one or more of his customers at a higher price than he charges other customers for like merchandise. It is immaterial whether or not such discrimination is accomplished by misrepresentation as to the grade and quality of the products sold.

(c) *Prohibited brokerage and commissions.* It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, to pay or grant, or to receive or accept, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods, wares, or merchandise, either to the other party to such transaction or to an agent, representative, or other intermediary therein where such intermediary is acting in fact for or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid.

(d) *Prohibited advertising or promotional allowances, etc.* It is an unfair trade practice for any member of the industry engaged in commerce to pay or contract for the payment of advertising or promotional allowances or any other thing of value to or for the benefit of a customer of such member in the course of such commerce as compensation or in consideration for any services or facilities furnished by or through such customer in connection with the processing, handling, sale, or offering for sale of any products or commodities manufactured, sold, or offered for sale by such member, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products or commodities.

NOTE 1: Industry members giving advertising allowances to competing customers must exercise precaution and diligence in seeing that all of such allowances are used in accordance with the terms of their offers.

NOTE 2: When an industry member gives allowances to competing customers for advertising in a newspaper or periodical, the fact that a lower advertising rate for equivalent space is available to one or more, but not all, such customers, is not to be regarded by the industry member as warranting the retention by such customer or customers of any portion of the allowance for his or their personal use or benefit.

(e) *Prohibited discriminatory services or facilities.* It is an unfair trade practice for any member of the industry engaged in commerce to discriminate in favor of one purchaser against another purchaser or purchasers of a commodity bought for resale, with or without processing, by contracting to furnish or furnishing, or by contributing to the furnishing of, any services or facilities connected with the processing, handling, sale, or offering for sale of such commodity so purchased upon terms not accorded to all competing purchasers on proportionally equal terms.

(f) *Clarification.* The following is presented for the purpose of clarifying the requirements of paragraphs (d) and (e) of this section with respect to the supplying of marketing services, facilities or allowances by industry members to their customers, but it is not intended to imply by such presentation that other methods which assure of proportional equality of treatment of competing customers may not also be used.

An industry member may simultaneously offer to each of his customers competing in the resale of his products the same kind of promotional service, facility or allowance of a cost value equal to a uniform percentage of the sales (or purchases) of the industry member's products by each customer during a specified and identical period of time: *Provided, however,* That when the service, facility or allowance offered is of a type which under reasonable terms and conditions is not usable or suitable to the facilities and business of all customers, and is offered to any one customer, the member offer each of those customers to whom the service, facility or allowance is not usable or suitable an alternate type of promotional service, facility or allowance which is of equivalent measurable cost, is usable by the customer, and is suitable to his facilities and business, and promptly inform all competing customers of the kind and amount of services, facilities or allowances which he has offered to each and the respective terms and conditions under which such services, facilities or allowances are to be furnished by the industry member: *And provided, further,* That when the offer of any service, facility or allowance to any customer is conditioned on such customer supplying some reciprocal service, facility or payment, a reciprocal service, facility or payment be required in the offers to all other customers and there be an equality of ratio among all customers as to the measurable cost of that which is supplied by the industry member and the reciprocal service, facility or payment required of any customer. The industry member must take every reasonable precaution to see that services, facilities or allowances which he furnishes to customers are used in accord with the terms of his offer; and upon failure of the customer to perform any obligation on his part, the industry member must cease supplying the customer any further service, facility or allowance.

(g) *Inducing or receiving an illegal discrimination in price.* It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, knowingly to induce or receive a discrimination in price which is prohibited by the foregoing provisions of this section.

NOTE: This paragraph is a re-statement of section 2 (f) of the Clayton Act as amended. In a complaint proceeding under this section, in order to make out a prima facie violation, the Commission must show that the favored buyer induced or received the lower price knowing, or knowing facts from which he should have known, that such price was violative of section 2 (a) of said act and not justified under subparagraphs (2), (4) or (5) of paragraph (a) of this section. When, in any such proceeding, the issue is limited to the question of whether the price differential involved made only due allowance for differences in cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which the goods were sold and delivered, the Commission may establish a prima facie case in a number of ways, including:

(1) By showing that the buyer paying the lower price knew that the methods by, and quantities in, which the goods were sold and delivered to him by the seller were the same as in the case of the competing buyer or buyers paying the higher price or prices; or

(2) By showing, when there is a difference in the methods or quantities in which the goods were sold and delivered by the seller to the buyer than in the case of the competing buyer or buyers paying the higher price or prices, that the buyer paying the lower price or prices knew the nature and extent of such differences and knew or should have known that they could not have resulted in sufficient cost savings of the kind and character specified as to justify the price differential.

[Rule 13]

§ 32.14 *Lifting of stocks.* It is an unfair trade practice for any member of the industry to purchase the stock of a distributor or dealer which has been supplied by a competitor or competitors when such practice is done as an inducement to the distributor or dealer to discontinue handling competitive products and to handle such member's products exclusively, and where the effect of such act or practice may be substantially to lessen competition or tend to create a monopoly in any line of commerce. [Rule 14]

§ 32.15 *Consignment distribution.* (a) It is an unfair trade practice for any member of the industry to employ the practice of shipping industry products on consignment without the express request of the purchaser.

(b) It is an unfair trade practice for any member of the industry to employ the practice of shipping industry products on consignment or pretended consignment for the purpose and with the effect of artificially clogging or closing trade outlets and unduly restricting competitors' use of said trade outlets in getting their products to consumers through regular channels of distribution, thereby injuring, destroying, or preventing competition or tending to create a monopoly or unreasonably to restrain trade.

(c) Nothing in this section shall be construed to authorize any understanding or agreement, combination or conspiracy, or planned common course of action, by and between industry members, mutually to conform or restrict their practice of shipping goods on consignment with the intent or effect of lessening competition. [Rule 15]

§ 32.16 *Defamation of competitors or false disparagement of their products.* The defamation of competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations, or the false disparagement of competitors' products in any respect, or of their business methods, selling prices, values, credit terms, policies, or services, is an unfair trade practice. [Rule 16]

§ 32.17 *Procurement of competitors' confidential information by unfair means and wrongful use thereof.* It is an unfair trade practice for any member of the industry to obtain information concerning the business of a competitor by bribery of an employee or agent of such competitor, by false or misleading statements or representations, by the impersonation of one in authority, or by any other unfair means, and to use the information so obtained in such manner as to injure said competitor in his business or to suppress competition or unreasonably restrain trade. [Rule 17]

§ 32.18 *Enticing away employees of competitors.* It is an unfair trade practice for any member of the industry wilfully to entice away employees or sales representatives of competitors with the intent and effect of thereby unduly hampering or injuring competitors in their business and destroying or substantially lessening competition: *Provided,* That nothing in this section shall be construed as prohibiting employees from seeking more favorable employment, or as prohibiting employers from hiring or offering employment to employees of competitors in good faith and not for the purpose of injuring, destroying, or preventing competition. [Rule 18]

§ 32.19 *Exclusive deals.* It is an unfair trade practice for any member of the industry to contract to sell or sell any industry product, or fix a price charged therefor, or discount from, or rebate upon, such price, on the condition, agreement, or understanding that the purchaser thereof shall not use or deal in the products of a competitor or competitors of such industry member, where the effect of such sale or contract for sale, or of such condition, agreement, or understanding, may be substantially to lessen competition or tend to create a monopoly in any line of commerce. [Rule 19]

§ 32.20 *Commercial bribery.* It is an unfair trade practice for a member of the industry, directly or indirectly, to give, or offer to give, or permit or cause to be given, money or anything of value to agents, employees, or representatives of customers or prospective customers, or to agents, employees, or representatives of competitors' customers or prospective customers, without the knowledge of their employers or principals, as an inducement to influence their employers or principals to purchase or contract to purchase products manufactured or sold by such industry member or the maker of such gift or offer, or to influence such employers or principals to refrain from dealing in the products of competitors or from dealing or contracting to deal with competitors. [Rule 20]

§ 32.21 *Unlawful interference with competitors' purchases or sales.* It is an unfair trade practice for any member of the industry, by means of any monopolistic practices or through combination, conspiracy, coercion, boycott, threats, or any other unlawful means, directly or indirectly, to interfere with a competitor's right to purchase his raw materials and supplies from whomsoever he chooses, or to sell his product to whomsoever he chooses. [Rule 21]

§ 32.22 *Aiding or abetting use of unfair trade practices.* It is an unfair trade practice for any person, firm, or corporation to aid, abet, coerce, or induce another, directly or indirectly, to use or promote the use of any unfair trade practice specified in the rules in this part. [Rule 22]

Issued: June 19, 1956.

Promulgated by the Federal Trade Commission.

[SEAL] ROBERT M. PARRISH,
*Secretary.*

[F. R. Doc. 56-4913; Filed, June 21, 1956; 8:48 a. m.]

[2] As used in this section, the word "commerce" means "trade or commerce among the several States and with foreign nations, or between the District of Columbia or any Territory of the United States and any State, Territory, or foreign nation, or between any insular possessions of other places under the jurisdiction of the United States, or between any such possession or place and any State or Territory of the United States or the District of Columbia or any foreign nation, or within the District of Columbia or any Territory or any insular possession or other place under the jurisdiction of the United States."

## TITLE 21—FOOD AND DRUGS

### Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

Subchapter B—Food and Food Products

PART 19—CHEESES; PROCESSED CHEESES; CHEESE FOODS; CHEESE SPREADS, AND RELATED FOODS; DEFINITIONS AND STANDARDS OF IDENTITY

NUWORLD CHEESE AND CERTAIN OTHER CHEESES AND RELATED FOODS

In the matter of establishing a definition and standard of identity for nuworld cheese and amending the definitions and standards of identity for pasteurized process cheese (§ 19.750); pasteurized process cheese food (§ 19.765); pasteurized process cheese spread (§ 19.775); cold-pack cheese, club cheese, comminuted cheese (§ 19.785); and cold-pack cheese food (§ 19.787):

A notice of proposed rule making was published in the FEDERAL REGISTER of April 13, 1956 (21 F. R. 2415), setting forth proposals to adopt a definition and standard of identity for nuworld cheese and to amend the definitions and standards of identity for the cheeses and cheese foods named above so that nuworld cheese might be used in mixtures of cheeses comprising the cheese ingredients of such foods, under the same conditions prescribed for blue cheese. The notice invited all interested persons to submit views and comments on the proposals. No comments nor suggestions were received. Therefore, upon consideration of the information submitted by the petitioner and other relevant information available, it is concluded that it will promote honesty and fair dealing in the interest of consumers to adopt the standard for nuworld cheese proposed by the petitioner and to effect amendments of the other cheese and cheese-food identity standards to provide that where nuworld cheese is used with other cheeses as part of the cheese ingredient it will be subject to the same restrictions prescribed for blue cheese so used.

Pursuant to the authority vested in the Secretary of Health, Education, and Welfare by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 401, 52 Stat. 1046, 68 Stat. 54; 21 U. S. C. 341), delegated to the Commissioner of Food and Drugs (20 F. R. 1996): *It is ordered*, That Part 19 (21 CFR 19; as amended, 21 F. R. 543 et seq., 1269) be amended as indicated below:

1. Part 19 is amended by adding the following new section:

§ 19.569 *Nuworld cheese; identity.* (a) Nuworld cheese is the food prepared from milk and other ingredients specified in this section, by the procedure set forth in paragraph (b) of this section, or by another procedure which produces a finished cheese having the same physical and chemical properties as the cheese produced when the procedure set forth in paragraph (b) of this section is used. It is characterized by the presence of creamy-white mold throughout the cheese. It contains not more than 46 percent of moisture, and its solids contain not less than 50 percent of milk fat, as determined by the methods prescribed in § 19.500 (c). It is not less than 60 days old.

(b) Milk, which may be pasteurized or clarified or both, which may be warmed, and which may be homogenized, is subjected to the action of harmless lactic-acid-producing bacteria, present in such milk or added thereto. Harmless artificial green or blue coloring, in a quantity which neutralizes any natural yellow coloring in the curd, may be added. Sufficient rennet (with or without purified calcium chloride in a quantity not more than 0.02 percent, calculated as anhydrous calcium chloride of the weight of the milk) is added to set the milk to a semisolid mass. The mass is cut into smaller portions and allowed to stand for a time. The mixed curd and whey is placed in forms permitting further drainage. While being placed in forms, spores of a white mutant of the mold Penicillium roquefortii are added. The forms are turned several times during drainage. When sufficiently drained, the shaped curd is removed from the form and salted with dry salt or brine. Perforations are then made in the shaped curd, and it is held at a temperature of approximately 50° F., at 90 percent to 95 percent relative humidity, until the characteristic mold growth has developed. During storage, the surface of the cheese may be scraped to remove surface growth of undesirable microorganisms. A harmless preparation of enzymes of animal or plant origin capable of aiding in the curing or development of flavor of nuworld cheese may be added during the procedure, in such quantity that the weight of the solids of such preparation is not more than 0.1 percent of the weight of the milk used.

(c) For the purposes of this section, the word "milk" means cow's milk, which may be adjusted by separating part of the fat therefrom or by adding thereto one or more of the following: Cream, concentrated skim milk, nonfat dry milk solids, water in a quantity sufficient to reconstitute any concentrated skim milk or nonfat dry milk solids used.

2. Section 19.750 *Pasteurized process cheese* * * * is amended by inserting in the first and second sentences of paragraph (a) (6), after the words "blue cheese," the words "nuworld cheese,", so that as amended paragraph (a) (6) reads as follows:

(6) The weight of each variety of cheese in a pasteurized process cheese made from two varieties of cheese is not less than 25 percent of the total weight of both, except that the weight of blue cheese, nuworld cheese, roquefort cheese, or gorgonzola cheese is not less than 10 percent of the total weight of both, and the weight of limburger cheese is not less than 5 percent of the total weight of both. The weight of each variety of cheese in a pasteurized process cheese food made with three or more varieties of cheese is not less than 15 percent of the total weight of all, except that the weight of blue cheese, nuworld cheese, roquefort cheese, gorgonzola cheese, or limburger cheese is not less than 5 percent of the total weight of all. These limits do not apply to the quantity of cheddar cheese, washed curd cheese, colby cheese and granular cheese in mixtures which are designated as "American cheese" as prescribed in paragraph (e) (2) (ii) of this section. Such mixtures are considered as one variety of cheese for the purposes of this subparagraph.

Effect of amending § 19.750: § 19.751 *Pasteurized blended cheese* * * *, § 19.755 *Pasteurized process cheese with fruits, vegetables, or meats* * * *, and § 19.763 *Pasteurized blended cheese with fruits, vegetables, or meats* * * * are also amended by their reference to § 19.750, for provisions with respect to cheese ingredient.

3. Section 19.765 *Pasteurized process cheese food* * * * is amended by inserting in the first and second sentences of paragraph (a) (6), after the words "blue cheese," the words "nuworld cheese,", so that as amended paragraph (a) (6) reads as follows:

(6) The weight of each variety of cheese in a pasteurized process cheese food made with two varieties of cheese is not less than 25 percent of the total weight of both, except that the weight of blue cheese, nuworld cheese, roquefort cheese, gorgonzola cheese, or limburger cheese is not less than 10 percent of the total weight of both. The weight of each variety of cheese in a pasteurized process cheese food made with three or more varieties of cheese is not less than 15 percent of the total weight of all, except that the weight of blue cheese, nuworld cheese, roquefort cheese, gorgonzola cheese, or limburger cheese is not less than 5 percent of the total weight of all. These limits do not apply to the quantity of cheddar cheese, washed curd cheese, colby cheese, and granular cheese in mixtures which are designated as "American cheese" as prescribed in paragraph (f) (6) of this section. Such mixtures are considered as one variety of cheese for the purposes of this subparagraph.

Effect of amending § 19.765: § 19.770 *Pasteurized process cheese food with fruits, vegetables, or meats* * * * is also amended by its reference to § 19.765, for the provision with respect to cheese ingredient.

4. Section 19.775 *Pasteurized process cheese spread* * * * is amended by inserting in the first and second sentences of paragraph (a) (6), after the words "blue cheese," the words "nuworld cheese," so that as amended paragraph (a) (6) reads as follows:

(6) The weight of each variety of cheese in a pasteurized process cheese spread made with two varieties of cheese is not less than 25 percent of the total weight of both, except that the weight of blue cheese, nuworld cheese, roquefort cheese, gorgonzola cheese, or limburger cheese is not less than 10 percent of the total weight of both. The weight of each variety of cheese in a pasteurized process cheese spread made with three or more varieties of cheese is not less than 15 percent of the total weight of all, except that the weight of blue cheese, nuworld cheese, roquefort cheese, gorgonzola cheese, or limburger cheese is not less than 5 percent of the total weight of all. These limits do not apply to the quality of cheddar cheese, washed curd cheese, colby cheese, and granular cheese in mixtures which are designated as "American cheese" as prescribed in paragraph (f) (6) of this section. Such mixtures are considered as one variety of cheese for the purposes of this subparagraph.

Effect of amending § 19.775: § 19.776 *Pasteurized cheese spread* * * *, § 19.780 *Pasteurized process cheese spread with fruits, vegetables or meats* * * *, and § 19.781 *Pasteurized cheese spread with fruits, vegetables, or meats* * * * are also amended by their reference to § 19.775, for the provisions with respect to cheese ingredients.

5. Section 19.785 *Cold-pack cheese, club cheese, comminuted cheese* * * * is amended by inserting in paragraph (a) (6), after the words "blue cheese," the words "nuworld cheese,", so that as amended paragraph (a) (6) reads as follows:

(6) The weight of each variety of cheese in a cold-pack cheese made from two varieties of cheese is not less than 25 percent of the total weight of both, except that the weight of blue cheese, nuworld cheese, roquefort cheese, or gorgonzola cheese is not less than 10 percent of the total weight of both, and the weight of limburger cheese is not less than 5 percent of the total weight of both. The weight of each variety of cheese in a cold-pack cheese made from three or more varieties of cheese is not less than 15 percent of the total weight of all, except that the weight of blue cheese, nuworld cheese, roquefort cheese, or gorgonzola cheese is not less than 5 percent of the total weight of all, and the weight of limburger cheese is not less than 3 percent of the total weight of all. These limits do not apply to the quality of cheddar cheese, washed curd cheese, colby cheese, and granular cheese in mixtures which are designated as "American cheese" as prescribed in paragraph (d) (2) of this section. Such mixtures are considered as one variety of cheese for the purpose of this subparagraph.

6. Section 19.787 *Cold-pack cheese food* * * * is amended by inserting in the first and second sentences of paragraph (a) (6), after the words "blue cheese," the words "nuworld cheese,", so that as amended paragraph (a) (6) reads as follows:

(6) The weight of each variety of cheese in the cold-pack cheese food made with two varieties of cheese is not less than 25 percent of the total weight of both, except that the weight of blue cheese, nuworld cheese, roquefort cheese, gorgonzola cheese, or limburger cheese is not less than 10 percent of the total weight of both. The weight of each variety of cheese in the cold-pack cheese food made with three or more varieties of cheese is not less than 15 percent of the total weight of all, except that the weight of blue cheese, nuworld cheese, roquefort cheese, gorgonzola cheese, or limburger cheese is not less than 5 percent of the total weight of all. These limits do not apply to the quantity of cheddar cheese, washed curd cheese, colby cheese, and granular cheese in mixtures which are designated as "American cheese" as prescribed in paragraph (f) (6) of this section. Such mixtures are considered as one variety of cheese for the purposes of this subparagraph.

Effect of amending § 19.787: § 19.788 *Cold-pack cheese food with fruits, vegetables, or meats* * * * is also amended by its reference to § 19.787, for the provision with respect to cheese ingredient.

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of publication of this order in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, shall specify with particularity the provisions of the order deemed objectionable and the grounds for the objections, and shall request a public hearing on the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

*Effective date.* This order shall become effective 90 days after its publication in the FEDERAL REGISTER, except as to any of its provisions that may be stayed by the filing of objections thereto. Notice of the filing of objections, or lack thereof, will be announced by publication in the FEDERAL REGISTER.

(Sec. 401, 52 Stat. 1046, as amended; 21 U. S. C. 341)

Dated: June 13, 1956.

[SEAL] GEO. P. LARRICK,
*Commissioner of Food and Drugs.*

## TITLE 26—INTERNAL REVENUE, 1954

### Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter A—Income Tax

[T. D. 6184]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

MISCELLANEOUS AMENDMENTS

On April 11, 1956, notice of proposed rule making regarding the regulations for taxable years beginning after December 31, 1953, and ending after August 16, 1954, under section 214 of the Internal Revenue Code of 1954, was published in the FEDERAL REGISTER (21 F. R. 2331). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the regulations as so published are hereby adopted, subject to the changes as set forth below:

PARAGRAPH 1. Section 1.214-1 (b) is revised as follows:

(A) By striking "under a decree of divorce," from the second sentence of subparagraph (1).

(B) By changing subdivision (iii) of subparagraph (2) to read as set forth below.

(C) By changing subparagraph (3) to read as set forth below.

(D) By striking the word "above" from subparagraph (4) and substituting "of this paragraph" in lieu thereof.

PAR. 2. Section 1.214-1 (c) is revised by striking "throughout" in the second sentence of example (8) and inserting in lieu thereof "during".

PAR. 3. Section 1.214-1 (d) is revised as follows:

(A) By adding at the end of subdivision (ii) of subparagraph (1) the following: "The deduction for expenses paid for the care of a dependent under the age of 12 years is allowed even though the dependent is not a child or stepchild of the taxpayer."

(B) By changing subparagraph (2) to read as set forth below.

PAR. 4. Section 1.214-1 (f) is revised by striking "child" in the first sentence of example (3) of subparagraph (5) and inserting in lieu thereof "dependent grandchildren".

PAR. 5. Section 1.214-1 (g) (3) is revised as follows:

(A) By striking "(i)" from the first example and inserting in lieu thereof "*Example* (1)".

(B) By striking "(ii)" from the second example and inserting in lieu thereof "*Example* (2)".

(C) By revising the third example to read as set forth below.

(Sec. 7805, 68A Stat. 917; 26 U. S. C. 7805)

[SEAL] O. GORDON DELK,
*Acting Commissioner of Internal Revenue.*

Approved: June 19, 1956.

DAN THROOP SMITH,
*Special Assistant to the Secretary in Charge of Tax Policy.*

§ 1.214 *Statutory provisions; additional itemized deductions for individuals; expenses for care of certain dependents.*

SEC. 214. *Expenses for care of certain dependents*—(a) *General rule.* There shall be allowed as a deduction expenses paid during the taxable year by a taxpayer who is a woman or a widower for the care of one or more dependents (as defined in subsection (c) (1)), but only if such care is for the purpose of enabling the taxpayer to be gainfully employed.

(b) *Limitations*—(1) *In general.* The deduction under subsection (a)—

(A) Shall not exceed $600 for any taxable year; and

(B) Shall not apply to any amount paid to an individual with respect to whom the taxpayer is allowed for his taxable year a deduction under section 151 (relating to deductions for personal exemptions).

(2) *Working wives.* In the case of a woman who is married, the deduction under subsection (a)—

(A) Shall not be allowed unless she files a joint return with her husband for the taxable year, and

(B) Shall be reduced by the amount (if any) by which the adjusted gross income of the taxpayer and her spouse exceeds $4,500.

This paragraph shall not apply if the taxpayer's husband is incapable of self-support because mentally or physically defective.

(c) *Definitions.* For purposes of this section—

(1) *Dependent.* The term "dependent" means a person with respect to whom the taxpayer is entitled to an exemption under section 151 (e) (1)—

(A) Who has not attained the age of 12 years, and who (within the meaning of section 152) is a son, stepson, daughter, or stepdaughter of the taxpayer; or

(B) Who is physically or mentally incapable of caring for himself.

(2) *Widower.* The term "widower" includes an unmarried individual who is legally separated from his spouse under a decree of divorce or of separate maintenance.

(3) *Determination of status.* A woman shall not be considered as married if she is legally separated from her spouse under a decree of divorce or of separate maintenance at the close of the taxable year.

§ 1.214-1 *Expenses for the care of certain dependents*—(a) *General rule.* Section 214 allows a deduction from gross income of expenses paid for the care of certain dependents where the care is for the purpose of enabling the taxpayer to be gainfully employed. Such expenses are referred to in this section as "child care" expenses. The deduction may not exceed $600 for any taxable year (regardless of the number of dependents for whose care the expenses are paid) and is allowed only for expenses incurred while the taxpayer is gainfully employed or in active search of gainful employment. The employment which is the cause of the incurring of the expenses may, however, consist of services either within or without the home of the taxpayer. Self-employment constitutes employment for purposes of section 214.

(b) *Taxpayers who may qualify for the deduction.* The deduction provided in section 214 is allowed only to a woman or a widower. For the purpose of this paragraph, the following rules apply:

(1) *A widower.* The deduction is allowed for expenses paid by a taxpayer who is a widower at the time the expenses are incurred. The term "widower" includes (i) a man whose wife has died and who has not remarried, (ii) a man who is divorced from his wife, and has not remarried, and (iii) a man who is legally separated from his wife under a decree of legal separation.

(2) *A married woman whose husband is capable of self-support.* If the expenses are paid by a woman (i) who is married at the time the expenses are incurred, (ii) whose husband at that time is not incapable of self-support because he is mentally defective or physically disabled, and (iii) who is not divorced or legally separated at the end of the taxable year, the deduction is allowed, but only if she files a joint income tax return with her husband for the taxable year in which the expenses are paid. Further, the amount otherwise deductible shall be reduced by the amount, if any, by which the combined adjusted gross income of the taxpayer and her spouse exceeds $4,500 for the taxable year in which the expenses are paid. The amount otherwise deductible is the amount expended for child care or $600, whichever is lesser. The determination of whether the taxpayer's husband is incapable of self-support because of a mental defect or physical disability shall be made without regard to his income from sources other than his own earnings. For purposes of this subparagraph, the term "earnings" means wages, salaries, commissions, professional fees, and other amounts received as compensation for personal services actually rendered. It does not include income such as pensions, annuities, sick-pay, interest, dividends, or rents.

(3) *A married woman whose husband is incapable of self-support.* (i) The deduction is allowed without regard to the limitations described in subparagraph (2) of this paragraph for expenses paid by a married woman whose husband is incapable of self-support because he is mentally defective or physically disabled (as defined in subparagraph (2) of this paragraph) at the time the expenses are incurred.

(ii) A married woman claiming a deduction under this subparagraph shall attach to her income tax return in which the deduction is claimed a statement disclosing (*a*) the nature of her husband's disability, (*b*) the period of the disability, and (*c*) if her husband had earnings during the period, the amount of such earnings. Where the husband is capable of self-support for part of a taxable year the child care expenses incurred for such part shall be treated under subparagraph (2) of this paragraph. See example (8) of paragraph (c) of this section.

(4) *A single woman.* The deduction is also allowed without regard to the limitation described in subparagraph (2) of this paragraph for expenses paid by a woman who (i) is unmarried at the time the expenses are incurred, or (ii) is, at the close of her taxable year, legally separated from her husband under a decree of divorce or of separate maintenance.

(5) *Determination of status.* If child care expenses are incurred in one taxable year and paid in another, the status of a taxpayer described in subparagraphs (1) to (4) of this paragraph, inclusive, shall be determined as of the year in which the expenses are incurred, and not when such expenses are paid.

(c) *Computation of deduction.* The deduction for child care expenses is allowable only with respect to such expenses actually paid during the taxable year regardless of when the event which occasioned the expenses occurred and regardless of the method of accounting employed by the taxpayer in making his income tax return. If child care expenses are incurred but not paid during the taxable year, no deduction can be taken for such year. Thus, if an expenditure was incurred in December 1955, but not paid until January 1956, no deduction may be taken for the calendar year 1955. The following examples illustrate the computation of the deduction allowed by section 214 in the case of a taxpayer making his return on the basis of the calendar year. In each example it is assumed that the expenses are of the type which would qualify for the deduction.

*Example (1).* M was a widower during 1954, until September 1, when he remarried. He paid $50 each month in 1954 for child care expenses. He may take into account, for purposes of the deduction allowed by section 214, only the expenses paid during the taxable year which were incurred while he was unmarried. Since the expenses were $400 ($50 per month from January to August, inclusive), the amount of the deduction is $400. If M had paid $100 per month during 1954, the deduction would be limited to $600, although the expenses incurred while M was unmarried amount to $800.

*Example (2).* H and W were married during the entire year 1954. W, the wife, paid $900 for child care expenses incurred during the year. The combined adjusted gross income of H and W for 1954 was $5,000. The allowable deduction under section 214 is $100 ($600, the maximum deduction allowable, reduced by $500, the excess of adjusted gross income of $5,000 over $4,500). The deduction of $100 is allowable only if H and W made a joint return for 1954.

*Example (3).* The facts are the same as in example (2), except that the child care expenses paid during the year were $400. No deduction is allowable under section 214, since the amount of expenses paid, $400, is less than $500 (the excess of the adjusted gross income over $4,500).

*Example (4).* During 1954, W, a woman, paid $50 each month for child care expenses. She was unmarried until April 1, 1954, and was married for the remainder of the year. H, her husband, was capable of self-support, and the combined adjusted gross income of husband and wife was $4,700. H and W made a joint return for 1954. The total deduction allowable to W under section 214 is $400, computed as follows: $150 as expenses incurred while W was a single woman, and $250 as expenses incurred while W was married; the $250 is arrived at by taking the amount expended while H and W were married, $450, and reducing it by $200 (the excess of adjusted gross income, $4,700 over $4,500).

*Example (5).* The facts are the same as in example (4), except that the amounts paid are $75 per month ($225 being paid for expenses incurred while W was single and $675 while she was married). The total allowable deduction in this case is $600. $225 is deductible as expenses incurred while W was a single woman. $400 of the expenses incurred during the period of marriage is also deductible. However, the maximum deduction allowable to W is $600. The allowable amount for expenses incurred during the period of marriage is determined as follows: $675 (the amount expended during the period) is reduced to $600 (the maximum deduction allowable) and $600 is then reduced by $200 (the excess of adjusted gross income $4,700 over $4,500) to $400.

*Example (6).* H and W were married during 1954 prior to July 1, when they received a decree of divorce. She did not remarry during 1954. W paid $100 per month for child care expenses during 1954. The allowable deduction is $600. Since W is considered to have been a single woman during all of 1954, the limitations with respect to the deduction allowed to a married woman are not applicable, and only the $600 limitation applies.

*Example (7).* H and W married on July 1, 1954. At all times in 1954, until July 1, H was a widower and W was a widow. H and W each paid $750 for child care in 1954, prior to their marriage. Each is allowed a deduction for 1954 of $600, regardless of their adjusted gross income and of the amount of their child care expenditures while married, and whether or not a joint return was filed. However, no additional deduction would be allowed for child care expenses paid after their marriage.

*Example (8).* H and W were married at all times during the year 1954. As a result of an accident, H incurred injuries which rendered him incapable of self-support during 1954 until September 1. The adjusted gross income of H and W for 1954 was $4,700. W paid $60 each month in 1954 for child care expenses. The deduction allowable to W by section 214 is $520. This amount is composed of $480, representing the amounts paid during H's period of disability, and $40, representing the allowable deduction of expenses paid in the amount of $240 from September to December, inclusive ($240 is reduced by $200, the excess of the adjusted gross income ($4,700) over $4,500).

*Example (9).* H and W were married from January 1, 1954 to October 1, 1954, when H died. The combined adjusted gross income of the spouses was $4,800. W paid $50 per month for child care expenses throughout the entire year. The deduction allowed to W if she filed a separate return is $150, the amount paid while she was a widow. If a joint return is filed on behalf of the widow and her deceased husband, the deduction allowable is $300 which includes $150 deductible as a married woman (the amount expended during marriage, $450, being reduced by $300, the excess of $4,800 over $4,500).

(d) *Dependents.* (1) The deduction provided by section 214 is allowed only for expenses paid for the care of an individual who (for the taxable year of the taxpayer in which the expenses are incurred) is a dependent of the taxpayer for whom an exemption is allowed under section 151 (e) (1). Furthermore, the dependent must, at the time the expenses are incurred, be either—

(i) Under the age of 12 years, or

(ii) Physically or mentally unable to care for himself. It is not necessary that the dependent be permanently disabled in order for the amount expended for his care to be deductible. However, the mere fact that the disability, whether temporary or permanent, renders him incapable of self-support does not necessarily mean that he is incapable of self-care within the meaning of this subdivision. The deduction for expenses paid for the care of a dependent under the age of 12 years is allowed even though the dependent is not a child or stepchild of the taxpayer.

(2) The rules provided in sections 151 and 152, with respect to the definition and qualification of an individual as a dependent, govern for the purpose of section 214. Thus, expenses for the care of a child or stepchild of the taxpayer under 12 whom the taxpayer supports are deductible even though the child or stepchild has gross income of $600 or more. On the other hand, expenses for the care of an aged parent would not be deductible if the gross income condition of section 151 (e) (1) (A) is not met. The term "dependent" does not include the spouse of a taxpayer.

(e) *Payments to a dependent.* No deduction is allowed under section 214 for expenses paid to an individual for whom the taxpayer is allowed, for the taxable year in which the expenses are paid, an exemption under section 151. Thus, if the taxpayer, a working widow, supports her mother and is entitled to claim her as a dependent, she may not deduct amounts paid to the mother for the care of the taxpayer's children.

(f) *What expenses are deductible*—(1) *In general.* In order for an expense to be deductible under section 214, it must meet three conditions: First, the expense must be for the care of a dependent; second, it must be for a dependent's care while the taxpayer is gainfully employed or in search of gainful employment; and third, the expense must be for the purpose of enabling the taxpayer to be gainfully employed. In determining whether an expense meets these conditions, all the facts and circumstances of the case must be taken into consideration.

(2) *Definition of care of a dependent.* (i) In general, the phrase expenses for the care of a dependent means amounts expended for the primary purpose of assuring the dependent's well being and protection. It does not include all benefits which may be bestowed upon him. Accordingly, amounts expended to provide food, clothing, or education, are not, in themselves, amounts expended for "care" so as to be deductible under section 214. However, where the manner of providing care is such that the expense which must be incurred includes payments for other benefits which are inseparably a part of the care, the full amount of the expense will be considered to be incurred for care. Thus, the full amount paid to a nursery school will be considered to be for the care of the child, even though th eschool also furnishes lunch, recreational activities, and other benefits.

(ii) The manner of providing the care need not be the least expensive method available to the taxpayer. For example, the taxpayer's mother may reside at the taxpayer's home and be available to afford the taxpayer's child adequate care. Regardless of this fact, the expense incurred for the child at a nursery school or day camp may be expense for the care of the child. See, however, suparagraph (4) of this paragraph with respect to the requirement that the expense must be for the purpose of enabling the taxpayer to be gainfully employed.

(iii) Where a portion of an expenditure is for the care of a dependent and a portion is for other unrelated purposes, a reasonable allocation shall be made and only the portion of the amount paid which is attributable to the care shall be considered an amount to which section 214 is applicable. This rule is applicable if, for example, a servant performs household duties and also cares for the children of the taxpayer. In this case, however, where one of the children is under 12, and the other (or others), is over 12, there need be no further allocation between the children under 12 years and those over that age.

(3) *Period of employment.* Since the deduction is allowed only for expenses for care for those periods during which the taxpayer is gainfully employed (or in active search of gainful employment), an allocation may be required when an expense covers periods of care in which no employment is involved. Thus, if a taxpayer pays $50 each month during the year for care of his child at a foster home, and the taxpayer is employed (or in search of employment) for only two months during the year, the deduction is limited to $100.

(4) *Purpose of expenditure.* Even if an expense is incurred for the care of a dependent, it is not deductible unless it is incurred for the purpose of permitting the taxpayer to be gainfully employed. Whether that is the true purpose of the expense depends upon the facts and circumstances of the particular case. Thus, the fact that the cost of providing care for a dependent is greater than the amounts anticipated to be received from the employment of the taxpayer may indicate that the purpose of the expenditure is other than to permit the taxpayer to be gainfully employed.

(5) *Examples.* The following examples illustrate the application of this paragraph.

*Example (1).* A widow has a child who is too young to attend public school. In order that she may be gainfully employed, the widow places the child in a nursery school while she is at work. The expenses paid to the nursery school are child care expenses to which the deduction under section 214 is applicable. Assuming the nursery school provides lunch for the child, no allocation is required between that part of the expense which might be considered to be for the lunch as distinguished from the expense of assuring the child's protection.

*Example (2).* The taxpayer, a single woman, in order to be gainfully employed employs a housekeeper who cares for the taxpayer's two children, aged 9 and 13 years, respectively, in addition to performing regular household duties of cleaning and cooking. If it is assumed that the compensation paid to the housekeeper is $1,200 during the year, and that $500 is allocated to the care of the children, a deduction of $500 is allowed under section 214. No allocation is required for purposes of determining which part of the $500 is for the care of the 9 year old child. If the expenses allocable to the care of the children were $700, the amount of the deduction would be $600, the maximum amount allowable in a taxable year under section 214.

*Example (3).* The taxpayer, a single woman, has a dependent grandchild 10 years of age who has been attending public school. The taxpayer who has been working part time is offered a position involving full time employment which she can accept only if arrangements are made for the care of the child from 8 a. m. to 5:30 p. m. Such arrangements are made at a private school to which she sends the child. The expenses paid to the school are for the care of the child without allocation between that part of the expense which represents tuition and that part which represents true care. The expense is considered to be incurred for the purpose of enabling the taxpayer to be gainfully employed.

*Example (4).* The taxpayer, a widow with a substantial income, has a child aged 11 who has been attending boarding school for several years. The taxpayer, who has been performing gratuitous services for a philanthropic organization, accepts a part-time job with the organization for which she is paid a small salary. From these facts it would appear that the expense of continuing the child in the boarding school is not for the purpose of enabling the taxpayer to be gainfully employed, whether or not the expense is considered to be incurred for the care of the child.

*Example (5).* The taxpayer, a widower, has a child who is physically incapable of caring for himself. In order to be gainfully employed the taxpayer sends the child to a school for children who are physically handicapped. The expense of the school, whether a day school or a boarding school, is a child care expense.

*Example (6).* The taxpayer, a single woman, lives with her mother who is an invalid incapable of caring for herself. In order to be gainfully employed the taxpayer hires a practical nurse whose sole duty consists of providing for the care of the mother while the taxpayer is at work. The expense

paid to the nurse may be a "child care" expense.

(g) *Expenses qualifying under section 213.* (1) An expense which may constitute an amount otherwise deductible under section 213, relating to medical, etc., expenses, may also, as in example (6) of paragraph (f) of this section, constitute an expense for which a deduction is allowable under section 214. In such a case, that part of the amount for which a deduction is allowed under section 214 shall not be treated as an expense under section 213.

(2) On the other hand, where an amount is treated as a medical expense under section 213 for purposes of determining the amount deductible under that section, it shall not be allowed as a deduction under section 214.

(3) The provisions of this paragraph may be illustrated by the following examples:

*Example 1.* W, a single woman, pays $720 during the taxable year for the care of her child who suffers from infantile paralysis. It is assumed that the expenses are of a nature which qualify as medical expenses under section 213. It is also assumed that these expenses are for the purpose of permitting W to be gainfully employed. W's adjusted gross income for the taxable year is $5,000. She is allowed a deduction of $600 for child care expenses under section 214. The balance of the expenses, or $120, she treats as medical expenses. However, this amount does not exceed 3 percent of her adjusted gross income and is thus not allowable as a deduction under section 213.

*Example 2.* It would not be proper in the case presented in (1) for W first to determine under section 213 her deductible medical expenses (which would be $570 ($720 less 3% x $5,000)), and then claim as a deduction under section 214 the $150 which is not deductible under section 213. The $150 would be disallowed under section 214 for the reason that it was treated as a medical expense in determining the amount deductible under section 213.

*Example 3.* W, a single woman under the age of 65 years, is also the head of a household. She pays $12,000 during the taxable year for child care expenses which also qualify as medical expenses under section 213. W's adjusted gross income for the taxable year is $18,000. She is allowed a deduction of $600 for child care expenses under section 214. The balance, or $11,400 is treated as medical expenses. The allowable deduction under section 213 for such expenses is the excess of 3 percent of W's adjusted gross income, or $10,860, but subject to the maximum limitation in section 213.

## TITLE 39—POSTAL SERVICE

### Chapter I—Post Office Department

PART 22—SECOND CLASS

PART 104—PRINTED MATTER

MISCELLANEOUS AMENDMENTS

a. In § 22.1 *Second-class rates* amend paragraph (d) (2) by striking from the listing of countries the following: Philippines.

The foregoing amendment is effective July 1, 1956.

(R. S. 161; 396, as amended; 5 U. S. C. 22, 369)

b. In § 104.3 *Weight limits* make the following changes in paragraph (b):

1. Strike out subparagraph (3).

2. Redesignate subparagraphs (4), (5), and (6) as subparagraphs (3), (4), and (5), respectively.

c. In § 104.8 *Books* amend paragraph (a) by striking from the listing of countries the following: Philippines.

The foregoing amendments are effective July 1, 1956.

(R. S. 161, 396, 398, as amended; 5 U. S. C. 22, 369, 372)

[SEAL] ABE MCGREGOR GOFF,
*The Solicitor.*

## TITLE 47—TELECOMMUNICATION

### Chapter I—Federal Communications Commission

[Rules Amdt. 1-5]

PART 1—PRACTICE AND PROCEDURE

ANTENNA STRUCTURES

In the matter of amendment of § 1.333 of Part 1 of the Commission's rules to conform with § 17.3 of Part 17.

The Commission having under consideration amendment of § 1.333 of Part 1 of its rules relating to Organization, Practice, and Procedure to conform with changes recently made to § 17.3 of Part 17 of its rules.

It appearing that § 1.333 was adopted by an order on August 31, 1955 (20 F. R. 6553) and was specifically made subject to the final results in Docket No. 11306 to amend Part 17; and

It further appearing that a portion of § 1.333 is now at variance with § 17.3 and should be revised to conform therewith; and

It further appearing that the substance of the amendment herein ordered has been the subject of formal rule making proceedings in Docket No. 11306 which resulted in the amendment of Part 17 by Report and Order released April 30, 1956 (21 F. R. 2952); and

It further appearing that general notice of proposed rule making under section 4 of the Administrative Procedure Act is unnecessary because this amendment is editorial in nature and solely for the purpose of conforming Part 1 with Part 17, and that for the same reason this amendment may become effective immediately;

*It is ordered,* This 19th day of June 1956, that, pursuant to authority contained in sections 4 (i), 303 (f) and (r) and 319 (d) of the Communications Act of 1934, as amended, and section 0.341 (a) of the Commission's rules, § 1.333 of Part 1 of the Commission's rules is amended, effective June 25, 1956, as set forth below.

Released: June 19, 1956.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] MARY JANE MORRIS,
*Secretary.*

Amendment of Part 1, rules relating to Organization and Practice and Procedure:

Amend subparagraphs (1) and (2) of § 1.333 (f) to read as follows:

(1) The antenna structures proposed to be erected will exceed an overall height of 170 feet above ground level, except where the antenna is mounted on an existing man-made structure other than an antenna structure and does not increase the overall height of such man-made structure by more than 20 feet, or

(2) The antenna structures proposed to be erected will exceed an overall height of 1 foot above the established airport (landing area) elevation for each 200 feet of distance, or fraction thereof, from the nearest boundary of such landing area, except where the antenna does not exceed 20 feet above the ground or if the antenna is mounted on an existing man-made structure other than an antenna structure or natural formation and does not increase the overall height of such man-made structure or natural formation by more than 20 feet.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 303, 319, 48 Stat. 1082, as amended, 1089; 47 U. S. C. 303, 319)

## TITLE 43—PUBLIC LANDS: INTERIOR

### Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1305]

[2118017]

WISCONSIN

CORRECTING PUBLIC LAND ORDER NO. 1277 OF MARCH 21, 1956

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910, c. 421 (36 Stat. 847; 43 U. S. C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

The following-described paragraph numbered 3 (b) of Public Land Order No. 1277 of March 21, 1956, which revoked Public Land Order No. 372 of May 26, 1947, is hereby deleted:

The lands have been open to applications and offers under the mineral-leasing laws and to location for metalliferous minerals. They will be open to location for nonmetalliferous minerals under the United States mining laws beginning at 10:00 a. m. on June 26, 1956.

WESLEY A. D'EWART,
*Assistant Secretary of the Interior.*

JUNE 18, 1956.

[Public Land Order 1306]

[Oregon 04822]

OREGON

WITHDRAWING PUBLIC LANDS FOR USE OF THE BUREAU OF LAND MANAGEMENT IN CONNECTION WITH SIUSLAW SAND AND DUNE CONTROL PROJECT, LM-35-P-2-EUGENE

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Oregon are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved under the jurisdiction of the Bureau of Land Management, Department of the Interior, for use in connection with its Siuslaw Sand and Dune Control Project (LM-35-P-2-Eugene):

WILLAMETTE MERIDIAN

T. 18 S., R. 12 W.,
Sec. 21, lots 5, 6, 7, 8, and W½E½;
Sec. 28, lots 5, 6, 7, 8, E½SW¼, and W½SE¼;
Sec. 33, lots 1, 2, 3, 4, E½W½, and E½;
Sec. 34, lot 5, SW¼NW¼; and W½SW¼.

The areas described aggregate 1,291.25 acres.

WESLEY A. D'EWART,
*Assistant Secretary of the Interior.*

# PROPOSED RULE MAKING

## FEDERAL TRADE COMMISSION

[ 16 CFR Part 187 ]

[File No. 21-416]

ADVERTISING AND SALES PROMOTION OF MAIL ORDER INSURANCE

NOTICE OF HEARING AND OF OPPORTUNITY TO PRESENT OBJECTIONS, IF ANY, TO REPEAL OF TRADE PRACTICE RULES

The Federal Trade Commission proposes the repeal of the trade practice rules relating to the advertising and sales promotion of Mail Order Insurance which were promulgated by it on February 3, 1950, and hereby schedules a hearing on such proposal in Room 332, Federal Trade Commission Building, Sixth and Pennsylvania Avenue NW., Washington, D. C., commencing at 10:00 a. m., e. d. s. t., July 10, 1956, for the purpose of affording an opportunity to all persons, firms, corporations, organizations, or other parties, having an interest in said rules to present their views concerning the proposal to repeal them. The views of interested and affected parties may be submitted orally at such hearing, or by letter, memorandum, brief, or other communication at any time prior to July 10, 1956. Copies of the trade practice rules relating to the advertising and sales promotion of Mail Order Insurance, promulgated February 3, 1950, and copies of the trade practice rules for the Accident and Health Insurance Industry, promulgated June 15, 1956, may be obtained upon request therefor to the Commission.

After due consideration of all matters presented orally or in writing, the Commission will proceed to final action on the proposal to repeal the trade practice rules relating to the advertising and sales promotion of Mail Order Insurance.

Issued: June 19, 1956.

By direction of the Commission.

[SEAL] ROBERT M. PARRISH,
*Secretary.*

## DEPARTMENT OF THE TREASURY

### Internal Revenue Service

[ 26 CFR (1954) Part 1 ]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

INCOME FROM SOURCES WITHOUT THE U. S.; FOREIGN TAX CREDIT

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 905 and 7805 of the Internal Revenue Code of 1954 (68A Stat. 288, 917; 26 U. S. C. 905, 7805).

[SEAL] O. GORDON DELK,
*Acting Commissioner of Internal Revenue.*

The following regulations, relating to the credit for taxes of foreign countries and of possessions of the United States, are hereby prescribed under sections 901 through 905 of the Internal Revenue Code of 1954, and are effective for taxable years beginning after December 31, 1953, and ending after August 16, 1954:

INCOME FROM SOURCES WITHOUT THE UNITED STATES

FOREIGN TAX CREDIT

Sec.
1.901 Statutory provisions; taxes of foreign countries and of possessions of United States.
1.901–1 Allowance of credit for taxes.
1.901–2 Definitions.
1.902 Statutory provisions; credit for corporate stockholder in foreign corporation.
1.902–1 Taxes of foreign corporation.
1.902–2 Special rules for payments from certain wholly-owned foreign corporations.
1.903 Statutory provisions; credit for taxes in lieu of income, etc., taxes.
1.903–1 Definition of taxes in lieu of income, war profits, or excess profits taxes.
1.904 Statutory provisions; limitation on credit.
1.904–1 Limitation on credit for foreign taxes.
1.905 Statutory provisions; applicable rules.
1.905–1 When credit for taxes may be taken.
1.905–2 Conditions of allowance of credit.

1.905–3 Redetermination of the tax when credit proves incorrect.
1.905–4 Credit for taxes accrued but not paid.

INCOME FROM SOURCES WITHOUT THE UNITED STATES

FOREIGN TAX CREDIT

§ 1.901 *Statutory provisions; taxes of foreign countries and of possessions of United States; allowance of credit.*

SEC. 901. *Taxes of foreign countries and of possessions of United States*—(a) *Allowance of credit.* If the taxpayer chooses to have the benefits of this subpart, the tax imposed by this chapter shall, subject to the limitation of section 904, be credited with the amounts provided in the applicable paragraph of subsection (b) plus, in the case of a corporation, the taxes deemed to have been paid under section 902. Such choice may be made or changed at any time prior to the expiration of the period prescribed for making a claim for credit or refund of the tax against which the credit is allowable. The credit shall not be allowed against the tax imposed by section 531 (relating to the tax on accumulated earnings), against the additional tax imposed for the taxable year under section 1333 (relating to war loss recoveries), or against the personal holding company tax imposed by section 541.

(b) *Amount allowed.* Subject to the limitation of section 904, the following amounts shall be allowed as the credit under subsection (a):

(1) *Citizens and domestic corporations.* In the case of a citizen of the United States and of a domestic corporation, the amount of any income, war profits, and excess profits taxes paid or accrued during the taxable year to any foreign country or to any possession of the United States; and

(2) *Resident of the United States or Puerto Rico.* In the case of a resident of the United States and in the case of an individual who is a bona fide resident of Puerto Rico during the entire taxable year, the amount of any such taxes paid or accrued during the taxable year to any possession of the United States; and

(3) *Alien resident of the United States or Puerto Rico.* In the case of an alien resident of the United States and in the case of an alien individual who is a bona fide resident of Puerto Rico during the entire taxable year, the amount of any such taxes paid or accrued during the taxable year to any foreign country, if the foreign country of which such alien resident is a citizen or subject, in imposing such taxes, allows a similar credit to citizens of the United States residing in such country; and

(4) *Partnerships and estates.* In the case of any individual described in paragraph (1), (2), or (3), who is a member of a partnership or a beneficiary of an estate or trust, the amount of his proportionate share of the taxes (described in such paragraph) of the partnership or the estate or trust paid or accrued during the taxable year to a foreign country or to any possession of the United States, as the case may be.

(c) *Corporations treated as foreign.* For purposes of this subpart, the following corporations shall be treated as foreign corporations:

(1) A corporation entitled to the benefits of section 931, by reason of receiving a large percentage of its gross income from sources within a possession of the United States; and

(2) A corporation organized under the China Trade Act, 1922 (15 U. S. C., chapter 4), and entitled to the deduction provided in section 941.

(d) *Cross reference.* (1) For deductions of income, war profits, and excess profits taxes paid to a foreign country or a possession of the United States, see section 164.

(2) For right of each partner to make election under this section, see section 703 (b).

(3) For right of estate or trust to the credit for taxes imposed by foreign countries and possessions of the United States under this section, see section 642 (a) (2).

§ 1.901–1 *Allowance of credit for taxes*—(a) *In general.* Citizens of the United States, domestic corporations, and certain aliens resident in the United States or Puerto Rico may choose to claim a credit, as provided in section 901, against the tax imposed by chapter 1 for taxes paid or accrued to foreign countries and possessions of the United States, subject to the conditions prescribed in the following subparagraphs:

(1) *Citizen of the United States.* A citizen of the United States, whether resident or nonresident, may claim a credit for (i) the amount of any income, war profits, and excess profits taxes paid or accrued during the taxable year to any foreign country or to any possession of the United States; and (ii) his share of any such taxes of a partnership of which he is a member, or of an estate or trust of which he is a beneficiary.

(2) *Domestic corporation.* A domestic corporation may claim a credit for (i) the amount of any income, war profits, and excesss profits taxes paid or accrued during the taxable year to any foreign country or to any possession of the United States; and (ii) the taxes deemed to have been paid under section 902.

(3) *Alien resident of the United States or Puerto Rico.* An alien resident of the United States, or an alien individual who is a bona fide resident of Puerto Rico during the entire taxable year, may claim a credit for—

(i) The amount of any income, war profits, and excess profits taxes paid or accrued during the taxable year to any possession of the United States;

(ii) The amount of any such taxes paid or accrued during the taxable year to any foreign country, if the foreign country of which such alien resident is a citizen or subject, in imposing such taxes, allows a similar credit to citizens of the United States residing in such country; and

(iii) His share of any such taxes of a partnership of which he is a member, or of an estate or trust of which he is a beneficiary, paid or accrued during the taxable year,

(*a*) To any foreign country, if the foreign country of which such alien resident is a citizen or subject, in imposing such taxes, allows a similar credit to citizens of the United States residing in such country, or

(*b*) To any possession of the United States, as the case may be.

(b) *Foreign countries which satisfy the similar credit requirement*—(1) *Taxes of foreign country of which alien resident is citizen or subject.* A foreign country of which an alien resident is a citizen or subject allows a similar credit, within the meaning of section 901 (b) (3), to a United States citizen residing in such country either—

(i) If such country allows him a credit against its income taxes for the amount of income taxes paid or accrued to the United States; or

(ii) If, in imposing such taxes, such country exempts from taxation the income received by him from sources within the United States (as determined under sections 861 through 864).

(2) *Taxes of foreign country other than one of which alien resident is citizen or subject.* An alien resident of the United States may claim a credit for income taxes paid or accrued by him to a foreign country other than the one of which he is a citizen or subject if the country of which he is a citizen or subject either—

(i) Allows a credit to a United States citizen residing therein for income taxes paid or accrued by him to such other foreign country; or

(ii) In imposing its income taxes, exempts from taxation the income of a United States citizen residing therein from sources within such other foreign country.

(c) *Deduction denied if credit claimed.* If a taxpayer chooses with respect to any taxable year to claim a credit for taxes to any extent, such choice will be considered to apply to income, war profits, and excess profits taxes paid or accrued to all foreign countries and possessions of the United States, and no portion of any such taxes shall be allowed as a deduction from gross income. See section 164 (b) (6).

(d) *Period during which election can be made or changed.* The taxpayer may, with respect to a particular taxable year, claim the benefits of section 901 (or change such choice if previously made) at any time prior to the expiration of the period prescribed for making a claim for credit or refund of the tax against which the credit is allowable. See section 6511 (a) and (d) (3).

(e) *Joint return.* In the case of a husband and wife making a joint return, credit for taxes paid or accrued to any foreign country or to any possession of the United States shall be computed upon the basis of the total taxes so paid by or accrued against the spouses.

(f) *Taxes against which credit not allowed.* The credit for taxes shall be allowed only against the tax imposed by chapter 1 but it shall not be allowed against the following taxes imposed under that chapter:

(1) The tax on accumulated earnings imposed by section 531;

(2) The personal holding company tax imposed by section 541; and

(3) The additional tax relating to war loss recoveries imposed by section 1333.

(g) *Taxpayers to whom credit not allowed.* Among those to whom the credit for taxes is not allowed are the following:

(1) A foreign corporation (see section 882 (c) (4));

(2) A China Trade Act corporation (see section 942);

(3) A citizen or domestic corporation entitled to the benefits of the exemption provided by section 931 for income from possessions of the United States (see section 931 (g));

(4) A nonresident alien, other than an alien individual who is a bona fide resident of Puerto Rico during the entire taxable year (see sections 874 (c) and 901 (b) (3));

(5) A citizen of a possession of the United Staets (except the Virgin Islands and Puerto Rico) who is not otherwise a citizen of the United States and who is not a resident of the United States (see section 932).

(h) *Taxpayers denied credit in a particular taxable year.* Taxpayers who are denied the credit for taxes for particular taxable years are the following:

(1) An individual who elects to pay the optional tax imposed by section 3, or one who elects under section 144 to take the standard deduction (see section 36);

(2) A taxpayer who elects to deduct taxes paid or accrued to any foreign country or possession of the United States (see section 164);

(3) A regulated investment company which has exercised the election under section 853.

§ 1.901–2 *Definitions.* (a) The term "amount of any income, war profits, and excess profits taxes paid or accrued during the taxable year" means taxes proper, paid or accrued during the taxable year on behalf of the taxpayer claiming credit. No credit is given for amounts representing interest or penalties.

(b) As used in sections 901–905, inclusive, the term "foreign country" means any foreign state or political subdivision thereof, or any foreign political entity, which levies and collects income, war profits, or excess profits taxes.

(c) As used in sections 901–905, inclusive, the term "any possession of the United States" includes Guam, Puerto Rico and the Virgin Islands. But see section 931 and the regulations thereunder.

(d) The principles of sections 861 through 864 and the regulations thereunder shall apply in determining the sources of income for the purposes of sections 901–905, inclusive.

(e) For definitions generally, see section 7701 and the regulations thereunder.

§ 1.902 *Statutory provisions; credit for corporate stockholder in foreign corporation.*

SEC. 902. *Credit for corporate stockholder in foreign corporation*—(a) *Treatment of taxes paid by foreign corporation.* For purposes of this subpart, a domestic corporation which owns at least 10 percent of the voting stock of a foreign corporation from which it receives dividends in any taxable year shall be deemed to have paid the same proportion of any income, war profits, or excess profits taxes paid or deemed to be paid by such foreign corporation to any foreign country or to any possession of the United States, on or with respect to the accumulated profits of such foreign corporation from which such dividends were paid, which the amount of such dividends bears to the amount of such accumulated profits.

(b) *Foreign subsidiary of foreign corporation.* If such foreign corporation owns 50 percent or more of the voting stock of another foreign corporation from which it receives dividends in any taxable year, it shall be deemed to have paid the same proportion of any income, war profits, or excess profits taxes paid by such other foreign corporation to any foreign country or to any possession of the United States, on or with respect to the accumulated profits of the corporation from which such dividends were paid, which the amount of such dividends bears to the amount of such accumulated profits.

(c) *Applicable rules.* (1) The term "accumulated profits," when used in this section in reference to a foreign corporation, means the amount of its gains, profits, or income in excess of the income, war profits, and excess profits taxes imposed on or with respect to such profits or income; and the Secretary or his delegate shall have full power to determine from the accumulated profits of what year or years such dividends were paid, treating dividends paid in the first 60 days of any year as having been paid from the accumulated profits of the preceding year or years (unless to his satisfaction shown otherwise), and in other respects treating dividends as having been paid from the most recently accumulated gains, profits, or earnings.

(2) In the case of a foreign corporation, the income, war profits, and excess profits taxes of which are determined on the basis of an accounting period of loss than 1 year, the word "year" as used in this subsection shall be construed to mean such accounting period.

(d) *Special rules for certain wholly-owned foreign corporations.* For purposes of this subtitle, if—

(1) A domestic corporation owns, directly or indirectly, 100 percent of all classes of outstanding stock of a foreign corporation engaged in manufacturing, production, or mining,

(2) Such domestic corporation receives property in the form of a royalty or compensation from such foreign corporation pursuant to any portion of contractual arrangement under which the domestic corporation agrees to furnish services or property in consideration for the property so received, and

(3) Such contractual arrangement provides that the property so received by such domestic corporation shall be accepted by such domestic corporation in lieu of dividends and that such foreign corporation shall neither declare nor pay any dividends of any kind in any calendar year in which such property is paid to such domestic corporation by such foreign corporation,

then the excess of the fair market value of such property so received by such domestic corporation over the cost to such domestic corporation of the property and services so furnished by such domestic corporation shall be treated as a distribution by such foreign corporation to such domestic corporation, and for purposes of section 301, the amount of such distribution shall be such excess, in lieu of any amount otherwise determined under section 301 without regard to this subsection; and the basis of such property so received by such domestic corporation shall be the fair market value of such property, in lieu of the basis otherwise determined under section 301 (d) without regard to this subsection.

§ 1.902–1 *Taxes of foreign corporation*—(a) *Domestic corporation owning stock of a foreign corporation.* In the case of a domestic corporation which owns at least 10 percent of the voting stock of a foreign corporation from which it receives dividends in any taxable year, the credit for foreign taxes includes the income, war profits, and excess profits taxes deemed to have been paid by such domestic corporation. The amount of taxes so deemed to have been paid by the domestic corporation is determined by taking the same proportion of any income, war profits, and excess profits taxes paid or accrued to any foreign country or to any possession of the United States by such foreign corporation, on or with respect to the accumulated profits of such foreign corporation from which such dividends were paid, which the amount of any such dividends received bears to the amount of such accumulated profits. If dividends are received from more than one such foreign corporation, the taxes deemed to have been paid by the domestic corporation are computed separately for the dividends received from each such foreign corporation. If the credit for foreign taxes includes taxes deemed to have been paid, the taxpayer must furnish the same information with respect to such taxes as it is required to furnish with respect to the taxes actually paid or accrued by it. Taxes paid or accrued by such a foreign corporation are deemed to have been paid by the domestic corporation for purposes of credit only. For other limitations on the amount of credit, see § 1.904–1.

(b) *Foreign corporation owning stock of another foreign corporation.* If any foreign corporation (hereafter in this paragraph referred to as the former corporation) coming within the scope of paragraph (a) of this section owns 50 percent or more of the voting stock of another foreign corporation (hereafter in this paragraph referred to as the latter corporation) from which it receives dividends in any taxable year, the former corporation shall be deemed to have paid that proportion of any income, war profits, and excess profits taxes paid or accrued to any foreign country or to any possession of the United States by the latter corporation, on or with respect to the accumulated profits of such latter corporation from which such dividends were paid, which the amount of such dividends bears to the amount of such accumulated profits. Such tax so deemed to have been paid shall then be taken into consideration in determining the amount of income, war profits, and excess profits taxes paid or deemed to have been paid by the former corporation to any possession or foreign country on or with respect to its own accumulated profits from which the dividends were paid by such corporation to the domestic corporation.

(c) *Source of income of foreign subsidiaries and country to which tax is deemed to have been paid.* For the purpose of section 904, dividends of a foreign corporation (at least 10 percent of whose voting stock is owned by a domestic corporation) shall be deemed to have been derived from sources within the foreign country or possession of the United States in which such foreign corporation is incorporated, to the extent that under section 862 (a) (2) such dividends are treated as income from sources without the United States. In addition, all income, war profits, and excess profits taxes paid or deemed to have been paid by such foreign corporation to any foreign country or possession of the United States shall be deemed to have been paid to the country or possession under whose laws such foreign corporation is incorporated.

(d) *Illustration of principles.* The application of the principles of this section in the determination of the amount of the foreign tax available as a basis for a credit to the domestic corporation may be illustrated by the following example involving Corporation A, a domestic corporation which owns 40 percent

of the voting stock of Corporation B, a foreign corporation which in turn owns 80 percent of the voting stock of Corporation C, another foreign corporation. It is assumed that all transactions have taken place within, and are related to, the same taxable year.

(1) *Application of section 902 (b) to determine tax deemed to be paid by Corporation B.*

| | |
|---|---|
| (i) Gains, profits, and income of Corporation C | $125,000 |
| (ii) Foreign tax paid by Corporation C with respect to such gains, profits, and income | 25,000 |
| (iii) Accumulated profits of Corporation C: $125,000 less $25,000 | 100,000 |
| (iv) Dividends paid by Corporation C to Corporation B | $50,000 |
| (v) Corporation C foreign tax with respect to the accumulated profits of Corporation C from which the dividends were paid to Corporation B: $\$25,000 \times \frac{100,000}{125,000}$ | 20,000 |
| (vi) Corporation C foreign tax with respect to the accumulated profits distributed which is deemed to be paid by Corporation B: $\$20,000 \times \frac{50,000}{100,000}$ | 10,000 |

(2) *Application of section 902 (a) to determine tax deemed to be paid by Corporation A.*

| | | |
|---|---|---|
| (i) Gains, profits, and income of Corporation B: | | |
| Business profits | $50,000 | |
| Dividends from Corporation C (as per subparagraph (1)) | 50,000 | |
| | | $100,000 |
| (ii) Foreign tax actually paid by Corporation B with respect to such gains, profits, and income | | 20,000 |
| (iii) Accumulated profits of Corporation B: $100,000 income less $20,000 taxes paid | | 80,000 |
| (iv) Dividends paid by Corporation B to Corporation A | | 15,000 |
| (v) Corporation B foreign tax paid with respect to the accumulated profits of Corporation B from which the dividends were paid to Corporation A: $\$20,000 \times \frac{80,000}{100,000}$ | | 16,000 |
| (vi) Corporation B foreign tax paid, and deemed to be paid, with respect to the accumulated profits of Corporation B from which the dividends were paid to Corporation A: $16,000 plus $10,000 | | 26,000 |
| (vii) Corporation B foreign tax with respect to the accumulated profits distributed which is deemed to be paid by Corporation A: $\frac{15,000}{80,000} \times \$26,000$ | | 4,875 |

§ 1.902–2 *Special rules for payments from certain wholly-owned foreign corporations*—(a) *Qualifications.* Section 902 (d) provides a special rule for the purpose of allowing credit in accordance with section 902 (a) for foreign taxes in the case of dividends paid by certain foreign corporations. Certain payments made by a wholly-owned foreign subsidiary to its domestic parent corporation shall be treated, to the extent prescribed in section 902 (d) and paragraph (b) of this section, as distributions by the foreign corporation to the domestic corporation for purposes of subtitle A and thus for purposes of the foreign tax credit of the domestic parent. In order for the payments to qualify for the treatment provided by section 902 (d) all the following conditions must be met:

(1) The domestic corporation must own (directly or indirectly) 100 percent of all classes of outstanding stock of a foreign corporation which is engaged in manufacturing, production, or mining.

(2) Such domestic corporation must receive property (including money) in the form of a royalty or of compensation from such foreign corporation pursuant to any form of contractual arrangement under which the domestic corporation agrees to furnish services or property in consideration for the property so received from the foreign corporation.

(3) Such contractual arrangement must provide that the property so received by such domestic corporation shall be accepted by such domestic corporation in lieu of dividends and that such foreign corporation shall neither declare nor pay any dividends of any kind in any calendar year in which such property is paid to the domestic corporation by such foreign corporation.

(b) *Amount and nature of distribution.* In cases where section 902 (d) applies, the excess of the fair market value of the property so received in lieu of dividends by the domestic corporation over the cost to it of the property and services so furnished by it shall be treated as a distribution of property by the foreign corporation to which section 301 applies. For purposes of section 301 (relating to distributions of property by a corporation to a shareholder) the amount of such distribution in lieu of dividends shall be such excess of the fair market value (on the date of distribution) of the property received by the domestic corporation over the cost of the property and services furnished by it, in lieu of any amount otherwise determined under section 301 without regard to section 902 (d). However, the amount determined under the preceding two sentences can not exceed the amount which would constitute a dividend for the purposes of subtitle A, and thus for the purposes of section 902 (a), if such excess had been declared and paid as a dividend by such foreign corporation. Any adjustment to the earnings and profits of the foreign corporation because of such distribution of property shall be made only in accordance with the provisions of section 312. The basis of the property so received by the domestic corporation shall be the fair market value of such property (on the date of distribution), in lieu of the basis otherwise determined under section 301 (d) without regard to section 902 (d).

(c) *Illustration of principles.* The application of the principles of section 902 (d) may be illustrated by the following example:

*Example.* A, a domestic corporation, has owned since January 1, 1950, 100 percent of all classes of outstanding stock of B, a foreign corporation engaged in the mining of certain ore (not constituting inventory assets as defined in section 312 (b) (2) (A)). On February 1, 1950, A and B entered into a contractual arrangement under which A agreed to furnish technical services to B in consideration of a royalty payment by B of ten percent of the ore mined. The contractual arrangement further provides that the ore received by A shall be accepted in lieu of dividends and that B shall neither declare nor pay any dividends of any kind in any calendar year in which such ore is paid to A. In 1955, the cost to A of the technical services furnished under the contractual arrangement is $30,000. The ore received by A during 1955, had an adjusted basis in the hands of B of $40,000, and a fair market value of $100,000. The earnings and profits of B accumulated as of the close of 1955, are $200,000. Under these facts A has received from B in 1955 a distribution under section 902 (d) of $70,000 ($100,000 minus $30,000), which is includible in the gross income of A as a dividend in that amount. A is deemed to have paid, to the extent provided in section 902 (a), foreign income taxes imposed on B on or with respect to the accumulated profits of B from which such dividend of $70,000 was paid. The basis to A of the ore received is $100,000, its fair market value. The accumulated earnings and profits of B shall be reduced by $28,000 $\left(\frac{\$70,000}{\$100,000} \times \$40,000\right)$, i. e., that portion of the adjusted basis (in the hands of B immediately prior to the distribution) of the property distributed which is allocable to the distribution.

§ 1.903 *Statutory provisions; credit for taxes in lieu of income, etc., taxes.*

SEC. 903. *Credit for taxes in lieu of income, etc., taxes.* For purposes of this subpart and of section 164 (b), the term "income, war profits, and excess profits taxes" shall include a tax paid in lieu of a tax on income, war profits, or excess profits otherwise generally imposed by any foreign country or by any possession of the United States.

§ 1.903–1 *Definition of taxes in lieu of income, war profits, or excess profits taxes*—(a) *In general.* For the purposes of sections 901 through 905, inclusive, and section 164 (b) (6), the term "income, war profits, and excess profits taxes" includes a tax imposed by statute or decree by a foreign country or by a possession of the United States if—

(1) Such country or possession has in force a general income tax law,

(2) The taxpayer claiming the credit would, in the absence of a specific provision applicable to such taxpayer, be subject to such general income tax, and

(3) Such general income tax is not imposed upon the taxpayer thus subject to such substituted tax.

(b) *Example.* The application of section 903 may be illustrated by the following example:

*Example.* The A Corporation does business in X country, which imposes an income tax upon substantially a taxable income base. The ascertainment of taxable income, though not the determination of gross income, from sources in X country is found administratively difficult. The X country, by decree, provides that corporations circumstanced as was the A Corporation would, in lieu of the income tax at the rate of 20 percent otherwise payable, be subject to tax at the rate of 10 percent upon the amount of gross income from X country. In accordance with such decree the A Corporation paid X country the sum of $25,000 in 1955 with respect to its tax liability to the X country for the year 1954. Such amount, subject to the applicable limitation, is available as a credit to the A Corporation as foreign income, war profits, or excess profits taxes against the United States tax liability for the year 1954.

§ 1.904 *Statutory provisions; limitation on credit.*

SEC. 904. *Limitation on credit*—(a) *Limitation.* The amount of the credit in respect of the tax paid or accrued to any country shall not exceed the same proportion of the tax against which such credit is taken which the taxpayer's taxable income from sources within such country (but not in excess of the taxpayer's entire taxable income) bears to his entire taxable income for the same taxable year.

(b) *Taxable income for purpose of computing limitation.* For purposes of computing the limitation under subsection (a), the taxable income in the case of an individual, estate, or trust shall be computed without any deduction for personal exemptions under section 151 or 642 (b).

§ 1.904–1 *Limitation on credit for foreign taxes*—(a) *General.* The amount allowable as a credit for income or profits taxes paid or accrued to a foreign country or a possession of the United States is subject to the limitation prescribed in section 904. This limitation provides that the credit for such taxes paid or accrued (including those deemed to have been paid) to each foreign country or possession of the United States may not exceed that proportion of the tax against which credit is taken which the taxpayer's taxable income from sources within such country or possession (but not in excess of taxpayer's entire taxable income) bears to his entire taxable income for the same taxable year.

(b) *Special computation of taxable income.* For purposes of computing the limitation under paragraph (a), the taxable income in the case of an individual, estate, or trust shall be computed without any deduction for personal exemptions under section 151 or 642 (b).

(c) *Illustration of principles.* The operation of this limitation on the credit for foreign taxes paid or accrued may be illustrated by the following examples:

*Example (1).* The credit for foreign taxes allowable for 1954 in the case of X, an unmarried citizen of the United States who in 1954 received the income shown below and had three exemptions under section 151, is $14,904, computed as follows:

| | | |
|---|---|---|
| Taxable income (computed without deductions for personal exemptions) from sources within the United States | $50,000 | |
| Taxable income (computed without deductions for personal exemptions) from sources within Great Britain | 25,000 | |
| Total taxable income | 75,000 | |
| United States income tax (based on taxable income computed with the deductions for personal exemptions) | | 44,712 |
| British income and profits taxes | | $18,000 |
| Limitation under section 904 $\left(\frac{25,000}{75,000} \text{ of } \$44,712\right)$ | | 14,904 |
| Credit for British income and profits taxes (total British income and profits taxes, reduced in accordance with the limitation under section 904) | | 14,904 |

*Example (2).* Assume the same facts as in example (1) except that the sources of X's income and taxes paid are as shown below. The credit for foreign taxes allowable to X is $13,442.40, computed as follows:

| | | |
|---|---|---|
| Taxable income (computed without deductions for personal exemptions) from sources within the United States | $50,000 | |
| Taxable income (computed without deductions for personal exemptions) from sources within Great Britain | 15,000 | |
| Taxable income (computed without deductions for personal exemptions) from sources within Canada | 10,000 | |
| Total taxable income | 75,000 | |
| United States income tax (based on taxable income computed with the deductions for personal exemptions) | | 44,712 |
| British income and profits taxes | | 10,800 |
| Limitation on British income and profits taxes under section 904 $\left(\frac{15,000}{75,000} \text{ of } \$44,712\right)$ | | $8,942.40 |
| Credit for British income and profits taxes (limited under section 904) | | 8,942.40 |
| Canadian income and profits taxes | | 4,500.00 |
| Limitation on Canadian income and profits taxes under section 904 $\left(\frac{10,000}{75,000} \text{ of } \$44,712\right)$ | | 5,961.60 |
| Credit for Canadian income and profits taxes (total Canadian income and profits taxes, since such amount does not exceed the limitation under section 904) | | 4,500.00 |
| Total amount of credit allowable (sum of credits—$8,942.40 plus $4,500) | | 13,442.40 |

*Example (3).* A domestic corporation realized taxable income in 1954 in the amount of $100,000, consisting of $50,000 from United States sources and dividends of $50,000 from a French corporation, 20 percent of whose voting stock it owned. The French corporation paid income and profits taxes to France on its income and in addition paid a dividend tax for the account of its shareholders on income distributed to them, the latter tax being withheld and paid at the source. The domestic corporation's credit for foreign taxes is $23,250, computed as follows:

| | | |
|---|---|---|
| Taxable income from sources within the United States | $50,000 | |
| Taxable income from sources within France | 50,000 | |
| Total taxable income | 100,000 | |
| United States income tax | | 46,500 |
| Dividend tax paid at source to France | | 19,000 |
| Income and profits taxes deemed under section 902 to have been paid to France, computed as follows: | | |
| Dividends received from French corporation during 1954 | $50,000 | |
| Income of French corporation during 1954 | 200,000 | |
| Income and profits taxes paid to France on $200,000 | 30,000 | |
| Accumulated profits ($200,000 minus $30,000) | 170,000 | |
| French taxes applicable to accumulated profits distributed: $\frac{50,000}{170,000}$ of $\frac{170,000}{200,000}$ of $30,000 | | 7,500 |
| Total income and profits taxes paid and deemed to have been paid to France | | 26,500 |
| Limitation under section 904 $\left(\frac{50,000}{100,000} \text{ of } \$46,500\right)$ | | 23,250 |
| Credit for French income and profits taxes (limited under section 904) | | 23,250 |

(d) *Joint return.* In the case of a husband and wife making a joint return, the limitation prescribed by section 904 upon the credit for taxes paid or accrued to any foreign country or to any possession of the United States shall be applied with respect to the aggregate taxable income from sources within each such country or possession, and the aggregate taxable income from all sources, of the spouses.

§ 1.905 *Statutory provisions; applicable rules.*

SEC. 905. *Applicable rules*—(a) *Year in which credit taken.* The credits provided in this subpart may, at the option of the taxpayer and irrespective of the method of accounting employed in keeping his books, be taken in the year in which the taxes of the foreign country or the possession of the United States accrued, subject, however, to the conditions prescribed in subsection (c). If the taxpayer elects to take such credits in the year in which the taxes of the foreign country or the possession of the United States accrued, the credits for all subsequent years shall be taken on the same basis, and no portion of any such taxes shall be allowed as a deduction in the same or any succeeding year.

(b) *Proof of credits.* The credits provided in this subpart shall be allowed only if the taxpayer establishes to the satisfaction of the Secretary or his delegate—

(1) The total amount of income derived from sources without the United States, determined as provided in part I,

(2) The amount of income derived from each country, the tax paid or accrued to which is claimed as a credit under this subpart, such amount to be determined under regulations prescribed by the Secretary or his delegate, and

(3) All other information necessary for the verification and computation of such credits.

(c) *Adjustments on payment of accrued taxes.* If accrued taxes when paid differ from the amounts claimed as credits by the taxpayer, or if any tax paid is refunded in whole or in part, the taxpayer shall notify the Secretary or his delegate, who shall redetermine the amount of the tax for the year or years affected. The amount of tax due on such redetermination, if any, shall be paid by the taxpayer on notice and demand by the Secretary or his delegate, or the amount of tax overpaid, if any, shall be credited or refunded to the taxpayer in accordance with subchap-

ter B of chapter 66 (sec. 6511 and following). In the case of such a tax accrued but not paid, the Secretary or his delegate, as a condition precedent to the allowance of this credit may require the taxpayer to give a bond, with sureties satisfactory to and to be approved by the Secretary or his delegate, in such sum as the Secretary or his delegate may require, conditioned on the payment by the taxpayer of any amount of tax found due on any such redetermination; and the bond herein prescribed shall contain such further conditions as the Secretary or his delegate may require. In such redetermination by the Secretary or his delegate of the amount of tax due from the taxpayer for the year or years affected by a refund, the amount of the taxes refunded for which credit has been allowed under this section shall be reduced by the amount of any tax described in section 901 imposed by the foreign country or possession of the United States with respect to such refund; but no credit under this subpart, and no deduction under section 164 (relating to deduction for taxes) shall be allowed for any taxable year with respect to such tax imposed on the refund. No interest shall be assessed or collected on any amount of tax due on any redetermination by the Secretary or his delegate, resulting from a refund to the taxpayer, for any period before the receipt of such refund, except to the extent interest was paid by the foreign country or possession of the United States on such refund for such period.

§ 1.905–1 *When credit for taxes may be taken*—(a) *In general.* The credit for taxes provided in sections 901 to 905, inclusive, may ordinarily be taken either in the return for the year in which the taxes accrued or in which the taxes were paid, dependent upon whether the accounts of the taxpayer are kept and his returns filed upon an accrual method or upon the cash receipts and disbursements method. Section 905 (a) allows the taxpayer, at his option and irrespective of the method of accounting employed in keeping his books, to take such credit for taxes as may be allowable in the return for the year in which the taxes accrued. An election thus made under section 905 (a) (or under the corresponding provisions of prior internal revenue laws) must be followed in returns for all subsequent years, and no portion of any such taxes will be allowed as a deduction from gross income in any year. See also § 1.905–4.

(b) *Foreign income subject to exchange controls.* If, however, under the provisions of the regulations under section 461, an amount otherwise constituting gross income for the taxable year from sources without the United States is, owing to monetary, exchange, or other restrictions imposed by a foreign country, not includible in gross income of the taxpayer for such year, the credit for income taxes imposed by such foreign country with respect to such amount shall be taken proportionately in any subsequent taxable year in which such amount or portion thereof is includible in gross income.

§ 1.905–2 *Conditions of allowance of credit*—(a) *Forms and information.* (1) Whenever the taxpayer chooses, in accordance with paragraph (d) of § 1.901–1, to claim the benefits of the foreign tax credit, the claim for credit shall be accompanied by Form 1116 in the case of an individual or by Form 1118 in the case of a corporation.

(2) The form must be carefully filled in with all the information called for and with the calculations of credits indicated, and must be signed and contain or be verified by a written declaration that it is made under the penalties of perjury. Except where it is established to the satisfaction of the district director that it is impossible for the taxpayer to furnish such evidence, the form must have attached to it (i) the receipt for each such tax payment if credit is sought for taxes already paid or (ii) the return on which each such accrued tax was based if credit is sought for taxes accrued. This receipt or return so attached must be either the original, a duplicate original, a duly certified or authenticated copy, or a sworn copy. In case only a sworn copy of a receipt or return is attached, there must be kept readily available for comparison on request the original, a duplicate original, or a duly certified or authenticated copy. If the receipt or the return is in a foreign language, a certified translation thereof must be furnished by the taxpayer. Any additional information necessary for the determination under sections 861 through 864 of the amount of income derived from sources without the United States and from each foreign country shall, upon the request of the district director, be furnished by the taxpayer.

(b) *Secondary evidence.* Where it has been established to the satisfaction of the district director that it is impossible to furnish a receipt for such foreign tax payment, the foreign tax return, or direct evidence of the amount of tax withheld at the source, the district director, may, in his discretion, accept secondary evidence thereof as follows:

(1) *Receipt for payment.* In the absence of a receipt for payment of foreign taxes there shall be submitted a photostatic copy of the check, draft, or other medium of payment showing the amount and date thereof, with certification identifying it with the tax claimed to have been paid, together with evidence establishing that the tax was paid for taxpayer's account as his own tax on his own income. If credit is claimed on an accrual method, it must be shown that the tax accrued in the taxable year.

(2) *Foreign tax return.* If the foreign tax return is not available, the foreign tax has not been paid, and credit is claimed on an accrual method, there shall be submitted:

(i) A certified statement of the amount claimed to have accrued,

(ii) Excerpts from the taxpayer's accounts showing amounts of foreign income and tax thereon accrued on its books,

(iii) A computation of the foreign tax based on income from the foreign country carried on the books and at current rates of tax to be established by data such as excerpts from the foreign law, assessment notices, or other documentary evidence thereof,

(iv) A bond, if deemed necessary by the district director, filed in the manner provided in cases where the foreign return is available, and

(v) In case a bond is not required, a specific agreement wherein the taxpayer shall recognize its liability to report the correct amount of tax when ascertained, as required by the provisions of section 905 (c).

If at any time the foreign tax receipts or foreign tax returns become available to the taxpayer, they shall be promptly submitted to the district director.

(3) *Tax withheld at source.* In the case of taxes withheld at the source from dividends, interest, royalties, compensation, or other form of income, where evidence of withholding and of the amount withheld cannot be secured from those who have made the payments, the district director may, in his discretion, accept secondary evidence of such withholding and of the amount of the tax so withheld, having due regard to the taxpayer's books of account and to the rates of taxation prevailing in the particular foreign country during the period involved.

§ 1.905–3 *Redetermination of the tax when credit proves incorrect*—(a) *In general.* In case credit has been given for taxes accrued, or a proportionate share thereof, and the amount that is actually paid on account of such taxes, or a proportionate share thereof, is not the same as the amount of such credit, or in case any tax payment credited is refunded in whole or in part, the taxpayer shall immediately notify the Commissioner. The Commissioner will thereupon redetermine the amount of the tax of such taxpayer for the year or years for which such incorrect credit was granted. The amount of tax, if any, due upon such redetermination shall be paid by the taxpayer upon notice and demand by the district director. The amount of tax, if any, shown by such redetermination to have been overpaid shall be credited or refunded to the taxpayer in accordance with the provisions of § 301.6511 (d)–3 of the regulations on procedure and administration.

(b) *Foreign tax imposed on foreign refund.* Where the redetermination of the tax for a taxable year, or years, is occasioned by the refund to the taxpayer of tax paid to a foreign country or possession of the United States, the amount of the taxes refunded for which credit has been allowed shall be reduced by the amount of any tax described in section 901 imposed by the foreign country or possession of the United States with respect to such refund. In such case no credit under section 901, and no deduction under section 164, shall be allowed for any taxable year with respect to such tax imposed on the refund.

(c) *Interest.* Where the redetermination of the tax for a taxable year, or years, is occasioned by the refund to the taxpayer of tax paid to a foreign country or possession of the United States, no interest shall be assessed or collected on the amount of tax due upon such redetermination resulting from such refund to the taxpayer, for any period before the receipt of such refund, except to the extent interest was paid by the foreign country or possession of the United States on such refund for such period.

§ 1.905–4 *Credit for taxes accrued but not paid.* In the case of a credit sought for a tax accrued but not paid, the district director may, as a condition precedent to the allowance of a credit, require a bond from the taxpayer, in addition to Form 1116 or 1118. If such a bond is required, Form 1117 shall be used by an individual; and Form 1119, by a corporation. It shall be in such sum as the Commissioner may prescribe, and shall be conditioned for the payment by the taxpayer of any amount of tax found due upon any redetermination of the tax made necessary by such credit proving incorrect, with such further conditions as the district director may require. This bond shall be executed by the taxpayer, or the agent or representative of the taxpayer, as principal, and by sureties satisfactory to and approved by the Commissioner. See also 6 U. S. C. 15.

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### [ 7 CFR Part 52 ]

CANNED SWEET CHERRIES [1]

U. S. STANDARDS FOR GRADES

Notice is hereby given that the United States Department of Agriculture is considering amendments to the United States Standards for Grades of Canned Sweet Cherries (7 CFR 52.821 to 52.836), pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., as amended, 7 U. S. C. 1621 et seq.). The amendments as hereinafter set forth provide for a redefinition of slightly damaged, damaged, and seriously damaged cherries, and a change in the allowance for seriously damaged cherries in U. S. Grade B or U. S. Choice grade.

ten data, views, or arguments for consideration in connection with the proposed amendments should file the same with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than December 31, 1956.

The proposed amendments to § 52.833 are as follows:

1. Change paragraph (a) to read:

§ 52.833 *Absence of defects*—(a) *General.* The factor of absence of defects refers to the degree of freedom from harmless extraneous material; from portions of stems; from pits or portions thereof in pitted style; from slightly damaged, damaged, seriously damaged, slightly misshapen, misshapen, blemished, and seriously blemished cherries; and from any other defects which detract from the appearance or edibility of the product. Processing cracks are not considered as defects but are considered under the factor of character. (§ 52.834).

2. Change paragraphs (a) (5) and (6) to read:

(5) "Slightly damaged" means any injury other than blemishes which affects the appearance of the cherry, and includes:

(i) Circular cracks with slight discoloration, such as "rain checks," confined entirely within the stem basin and more than ¼ inch, but not more than ½ inch, in length;

(ii) Cracks with slight discoloration, such as "rain checks," outside the stem basin and more than 3/16 inch, but not more than ⅜ inch in length;

(iii) Mutilated cherries in unpitted style whereby the cherry is seriously torn at the stem and that such torn area exceeds that of a circle ¼ inch in diameter; and mutilated cherries in pitted style whereby the cherry is so pitter-torn or so damaged by other similar means that the entire pit cavity is exposed and the appearance of the cherry is seriously affected.

(6) "Damaged" means any injury other than blemishes which materially affects the appearance of the cherry and includes:

(i) Circular cracks with discoloration, such as "rain checks," confined entirely within the stem basin and more than ½ inch in length;

(ii) Cracks with discoloration, such as "rain checks," outside the stem basin and more than ⅜ inch in length;

3. Insert new paragraph (a) (7) to read:

(7) "Seriously damaged" means damaged to the extent that the appearance or edibility of the cherry is seriously affected.

4. In paragraph (a), renumber subparagraphs as follows: Change (7) to (8), (8) to (9), (9) to (10), and (10) to (11).

5. Change paragraph (b) (4) to read:

(4) A total of 10 percent, by count, of the cherries may be slightly damaged, damaged, seriously damaged, slightly misshapen, misshapen, blemished, seriously blemished, or any combination thereof but not more than 5 percent, by count, of the cherries may be damaged, seriously damaged, misshapen, blemished, seriously blemished, or any combination thereof: *Provided,* That not more than 2 percent, by count, of the cherries may be seriously blemished and seriously damaged.

6. Change paragraph (c) (4) to read:

(4) A total of 20 percent, by count, of the cherries may be slightly damaged, damaged, seriously damaged, slightly misshapen, misshapen, blemished, seriously blemished, or any combination thereof but not more than 10 percent, by count, of the cherries may be damaged, seriously damaged, misshapen, blemished, seriously blemished, or any combination thereof: *Provided,* That not more than 4 percent, by count, of the cherries may be seriously blemished and seriously damaged.

7. Change paragraph (d) (4) to read:

(4) A total of 30 percent, by count, of the cherries may be slightly damaged, damaged, seriously damaged, misshapen, blemished, seriously blemished, or any combination thereof but not more than 15 percent, by count, of the cherries may be blemished, seriously blemished, and seriously damaged.

(Sec. 205, 60 Stat. 1090, as amended; 7 U. S. C. 1624)

Dated: June 19, 1956.

### [ 7 CFR Part 905 ]

[Docket No. AO–209–A8]

HANDLING OF MILK IN OKLAHOMA CITY, OKLA., MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR Part 900), a public hearing was held at Oklahoma City, Oklahoma, June 5, 1956, pursuant to notice which was issued May 17, 1956 (21 F. R. 3319).

The sole issues of the hearing related to the reports of daily average bases for certain producers entering the market through consolidation of plant operations and the necessity for prompt action with respect to this issue.

*Findings and conclusions.* The following findings and conclusions are based on the evidence received at the hearing and the record thereof:

1. Provision should be made that bases be computed for certain producers entering the Oklahoma City market because of a consolidation of plant operations. A fluid milk plant in a nearby city has recently been acquired by a handler with an approved plant in the Oklahoma City marketing area. This handler now plans to combine the operations of the plant acquired with those currently carried out in his approved plant. Some twelve farmers who have supplied the plant acquired will thus become producers under the Oklahoma City order. Under the present provisions of the order such producers would have no daily average bases since they were not producers on the Oklahoma City market during the months of September through December 1955 when bases effective for the period of February through July 1956 were established.

The merger of the plant operations will add a volume of Class I sales to the Oklahoma City market which was previously associated with the milk of these producers. The September through December 1955 deliveries of these producers are available since bases were established with the nonpool plant for deliveries in

these months and the records of the plant are available to the market administrator. The principal producers' association supplying the Oklahoma City market has requested that bases be established for these producers, as has the handler receiving their milk. In view of all the circumstances associated with this change in plant operations it appears equitable that bases be computed for the producers who supplied the plant now to be closed during the base forming period specified in the order.

2. The due and timely execution of the function of the Secretary under the act imperatively and unavoidably requires the omission of a recommended decision by the Deputy Administrator, Agricultural Marketing Service, and the opportunity for exceptions thereto on the actions contained in the amendments herein provided.

Delay beyond the minimum time required to make the attached amending order effective would defeat the purpose of such amendment. The bases to be computed for producers affected by the amendment will be used as a basis of payment for their deliveries only through July 1956. Failure to amend the method of computation of such bases will result in inequities to such producers to the detriment of the market. Accordingly, the time necessarily involved in the preparation, filing and publication of the recommended decision and the consideration of exceptions thereto would make such action ineffective.

The propriety of omitting a recommended decision and opportunity to file exceptions thereto with respect to the issues here decided was indicated in the hearing record by interested parties, who filed no briefs on the evidence with respect to the issue of this hearing.

*Determination of representative period.* The month of May 1956 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order amending the order regulating the handling of milk in the Oklahoma City, Oklahoma, marketing area in the manner set forth in the attached amending order is approved or favored by producers who, during such period were engaged in the production of milk for sale in the marketing area specified in such order.

*General findings.* (a) The proposed marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the proposed marketing agreement and in the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in the said marketing agreement upon which a hearing has been held.

*Marketing agreement and order.* Annexed hereto and made a part hereof are two documents entitled respectively "Marketing Agreement Regulating the Handling of Milk in the Oklahoma City, Oklahoma, Marketing Area," and "Order Amending the Order, Regulating the Handling of Milk in the Oklahoma City, Oklahoma, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered that all of this decision except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as hereby proposed to be amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 19th day of June 1956.

[SEAL] EARL L. BUTZ,
*Assistant Secretary.*

*Order*[1] *Amending the Order, as Amended, Regulating the Handling of Milk in the Oklahoma City, Oklahoma, Marketing Area*

§ 905.0 *Finding and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Oklahoma City, Oklahoma, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

*Order relative to handling.* It is therefore ordered that on and after the effective date hereof the handling of milk in the Oklahoma City, Oklahoma, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. Delete the period (.) at the end of § 905.65 (a), substitute therefor a colon (:) and add the following: "*Provided*, That deliveries during the months of September 1955 through December 1955 to a plant whose operations have since been transferred to an approved plant shall be used in the computation of daily average bases effective through July 1956 for producers who became producers through such transfer of operations."

[F. R. Doc. 56-4943; Filed, June 21, 1956; 8:53 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

### Internal Revenue Service

[Order No. 33]

ASSISTANT COMMISSIONER (OPERATIONS)

DELEGATION OF CERTAIN ADDITIONAL FUNCTIONS

Pursuant to the authority vested in me as Commissioner of Internal Revenue, it is hereby ordered, subject to my continuing general supervision:

1. There are delegated to the Assistant Commissioner (Operations) the functions vested in the Commissioner:

(a) To perform, manage, administer, and provide direction of the operational activities of the Internal Revenue Service pertaining to alcohol and tobacco tax, appellate, audit, collection, and intelligence activities; and

(b) To decide upon and make allocations of funds and personnel to the extent that funds and personnel are made available for the support of such activities.

2. Without limitation this authority includes authority to redelegate any function vested in the Assistant Commissioner (Operations) and to amend or revoke existing delegations respecting such activities: *Provided*, That in the absence of such amendment or revocation, delegations respecting such activities shall remain in effect.

3. Any order, mimeograph, instruction, circular, or other provision in effect immediately prior to the effective date of this order inconsistent with any provision of this order is modified to the extent of such inconsistency.

4. This order shall be effective June 6, 1956.

Issued: June 1, 1956.

RUSSELL C. HARRINGTON,
*Commissioner.*

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[60586]

ALASKA

WITHDRAWING PUBLIC LANDS FOR SCHOOL PURPOSES

JUNE 15, 1956.

By virtue of the authority vested in the Secretary of the Interior by the act of May 31, 1938 (52 Stat. 593; 48 U. S. C. 353a), and pursuant to Departmental Order No. 2583, sec. 2.22 (a) of August 16, 1950, it is ordered as follows:

Subject to valid existing rights, the following-described land at Point Lay, Alaska, is hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved under the jurisdiction of the Bureau of Indian Affairs, Department of the Interior, for school purposes:

Beginning at a point from which the northwest corner of the school building owned by the Alaska Native Service, located on the beach of the Arctic Ocean in the native village of Point Lay bears south 150 feet and east 150 feet, thence by metes and bounds:

Southwesterly, 300 feet, along the shore of the Arctic Ocean;

Southeasterly, 400 feet, parallel with the school building to a point on a lagoon;

Northeasterly, 300 feet, along shore of the lagoon;

Northwesterly, 400 feet, parallel to the school building to point of beginning.

The area described contains 2.7 acres.

The reservation made by this order shall be subject to the withdrawal made by Public Land Order No. 82 of January 22, 1943, which reserved lands for use in connection with the prosecution of the war.

EDWARD WOOZLEY,
*Director.*

## GENERAL SERVICES ADMINISTRATION

[Project 3-DC-01]

FEDERAL OFFICE BUILDINGS

PROSPECTUS FOR PROPOSED BUILDINGS IN SOUTHWEST REDEVELOPMENT AREA OF DISTRICT OF COLUMBIA

EDITORIAL NOTE: This prospectus of proposed Project Number 3-DC-01 is published pursuant to section 412 (f) of the Public Buildings Purchase Contract Act of 1954 as amended by Public Law 150, 84th Congress, which requires publication in the FEDERAL REGISTER, for a period of ten consecutive days from date of submission to the Committees on Public Works of the Senate and House of Representatives.

Project Number 3-DC-01 (Revised)

MARCH 14, 1956.

FORMAL PROSPECTUS FOR PROPOSED BUILDING UNDER TITLE I PUBLIC LAW 519, 83D CONGRESS, 2D SESSION

FEDERAL OFFICE BUILDING, WASHINGTON, D. C.

1. *Brief description of proposed building.* The project contemplates the erection of a group of three Federal Office Buildings on a site to be acquired by the Government facing on the proposed Tenth Street Mall in the southwest redevelopment area of Washington, D. C. Each building will be multi-storied. An aggregate of approximately 643,000 square feet of net assignable space will be provided.

2. *Estimated maximum cost and financing.*
a. Maximum cost of site and buildings, $25,250,000.
b. Proposed contract term, 30 years.
c. Maximum rate of interest on purchase contract, 4 percent.

3. *Certificates of need.* As the project is intended to provide relocation of numerous Federal agencies now in temporary buildings, no specific allocation of space can be made at this time. Upon completion of the facility, assignment and reassignment will be made in accordance with existing law. Therefore, requirement for Certificate of Need otherwise required by section 411 (e) of the Public Buildings Purchase Contract Act of 1954 was waived in Public Law 150, 84th Congress. Certification is hereby made as to the need for service and garage space.

4. *Non-availability of existing space.* Suitable space owned by the Government is not available; and suitable rental space is not available at a price commensurate with that to be afforded through the contract proposed.

5. *Estimated annual managerial, custodial, heat, and utility costs.* (Services to be supplied by Government), $675,000.

6. *Estimated annual tax liability, upkeep and maintenance.* a. Taxes, post construction (contract period), $321,625.

b. Upkeep and maintenance (to be provided by Government), $96,000.

7. *Current annual housing costs.* Rents and other housing costs currently paid by the Government for agencies to be housed in the building to be erected, $509,000 p. a.

*Determination of need.* It has been determined that (1) the needs for space for the permanent activities of the Federal Government in this particular area cannot be satisfied by utilization of any existing suitable property now owned by the Government, and (2) the best interests of the United States will be served by taking action hereunder.

Submitted at Washington, D. C., on June 1, 1956.

Approved:

FRANKLIN G. FLOETE,
*Administrator of General Services.*

8. *Statement of Director, Bureau of the Budget.* Reflected in letter (copy attached).

EXECUTIVE OFFICE OF THE PRESIDENT

BUREAU OF THE BUDGET

WASHINGTON 25, D. C.

JUNE 13, 1956.

Project 3-DC-01 (Revised 3-14-56).
3 Multi-storied Federal Office Buildings.
Southwest Redevelopment Area, Washington, D. C.

MY DEAR MR. FLOETE: Pursuant to section 411 (e) (8) of the Public Buildings Purchase Contract Act of 1954 (Public Law 519), the (Revised March 14, 1956) proposal for a group of three Federal Office Buildings, transmitted with your letter of June 1, 1956, has been examined and in my opinion "is necessary and in conformity with the policy of the President." This approval is given with the following understanding:

1. Revision reflects the application of more definite plans for integration of the facility with the proposed Tenth Street Mall developed subsequent to approval of the project last July. Effective integration requires construction of three building units in lieu of one, as originally proposed. Garage space of 134,250 square feet not contemplated in original project is provided. Number of employees, utilization of space and cost factors are relatively the same.

2. That the stated project cost of $25,250,000 (including $2,500,000 for a site to be acquired) is a maximum figure.

3. That the reported annual operating cost of existing Tempos 4, 5, and T; i. e., $1.00 per square foot, represents minimum maintenance in anticipation of demolition, and that temporary Government buildings actually cost more to maintain than the proposed new buildings.

4. That the proposed buildings will house approximately 10% of Federal employees presently housed in temporary buildings, and that the specific allocation of agencies in the proposed buildings is to be determined later by General Services Administration.

5. That every effort will be made to design and construct space conducive to maximum

efficient utilization of both site and buildings and to take advantage of any revision of cost downward which may be found possible as the plans develop and negotiations are advanced.

6. That this approval supersedes Mr. Hughes' letter of July 22, 1955.

You appreciate, of course, that this project will receive a more detailed review as to cost and space utilization prior to the approval of the lease-purchase agreement.

Sincerely yours,

(Signed) PERCIVAL BRUNDAGE,
*Director.*

HON. FRANKLIN G. FLOETE,
*Administrator,*
*General Services Administration,*
*Washington 25, D. C.*

## SECRETARY OF THE TREASURY

### DELEGATION OF AUTHORITY TO NEGOTIATE CONTRACT FOR PURCHASE AND INSTALLATION OF A MECHANICAL CONVEYOR SYSTEM

1. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, herein called the act, authority is hereby delegated to the Secretary of the Treasury to negotiate, without advertising, under section 302 (c) (9) of the act, a contract for the purchase and installation of a mechanical conveyor system at the Morgan Annex Post Office Building, New York, for use of the Bureau of Customs.

2. This authority shall be exercised in accordance with applicable limitations and requirements of the act, particularly sections 304 and 307, and in accordance with policies, procedures, and controls prescribed by the General Services Administration.

3. The authority herein delegated may be redelegated to any official or employee of the Treasury Department.

4. This delegation shall be effective as of the date hereof.

Dated: June 15, 1956.

FRANKLIN G. FLOETE,
*Administrator.*

## DEPARTMENT OF COMMERCE

### Maritime Administration

### OCEANIC STEAMSHIP CO.

### NOTICE OF APPLICATION

Notice is hereby given of the application of The Oceanic Steamship Company for written permission of the Maritime Administrator under section 805 (a) of the Merchant Marine Act, 1936, as amended, 46 U. S. C. 1223, to permit its parent organization, the Matson Navigation Company, to operate the SS "Matsonia" on one westbound intercoastal voyage carrying passengers and their automobiles from New York and/or Baltimore and/or Hampton Roads to Los Angeles and/or San Francisco, calling en route at St. Thomas and/or Port Au Prince and/or Havana and/or Kingston and/or Port of Spain and/or Curacao and/or Cristobal and/or Balboa and/or Cartagena and/or Acapulco, said voyage to commence on or about May 10, 1957. No passengers or automobiles will be taken on or discharged at any of the foreign ports, except Acapulco.

Any person, firm, or corporation having any interest in such application and desiring a hearing on issues pertinent to section 805 (a) should within fifteen (15) days from the date of publication of this notice in the FEDERAL REGISTER notify the Secretary, Maritime Administration, and file petition for leave to intervene in accordance wth the rules of practice and procedure of the Maritime Administration.

If no request for hearing and petition for leave to intervene is received within the specified time, the application will be processed without a hearing.

By Order of the Maritime Administrator.

Dated: June 19, 1956.

[SEAL] GEO. A. VIEHMANN,
*Assistant Secretary.*

## FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 11511, 11710; FCC 56 M-604]

### BOOTH RADIO AND TELEVISION STATIONS, INC. AND KNORR BROADCASTING CORP.

### ORDER CONTINUING HEARING

In re applications of Booth Radio and Television Stations, Inc., Lansing, Michigan, Docket No. 11511, File No. BP-9767; Knorr Broadcasting Corporation, Lansing, Michigan, Docket No. 11710, File No. BP-10391; for construction permits.

The Hearing Examiner having under consideration a "Petition for Continuance" filed June 12, 1956, on behalf of Knorr Broadcasting Corporation, requesting that the hearing in the above-entitled proceeding be continued from July 30, 1956, to a date to be fixed by subsequent order; and

It appearing in the petition that a third applicant has filed an application for the same facilities in Lansing and may be entitled to comparative consideration with the above-entitled applications, that no useful purpose would be served by proceeding with the hearing on July 30, 1956, that counsel for all other parties have informally waived the time of filing provisions of § 1.745 of the Commission's rules and interpose no objection to the requested continuance, and that the granting of the petition will conduce to the orderly dispatch of the Commission's business; now therefore,

*It is ordered,* This 19th day of June 1956, that the above petition is granted, and the hearing now scheduled to commence on July 30, 1956, is continued to a date to be fixed by subsequent order.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4944; Filed, June 21, 1956; 8:54 a. m.]

[Docket Nos. 11565, 11566; FCC 56M-605]

### ROLLINS BROADCASTING OF DELAWARE, INC. AND FRANKLIN BROADCASTING CO.

### ORDER CONTINUING HEARING

In re applications of Rollins Broadcasting of Delaware, Inc., Philadelphia, Pennsylvania, Docket No. 11565, File No. BP-9500; Lawrence M. C. Smith, tr/as Franklin Broadcasting Company, Philadelphia, Pennsylvania, Docket No. 11566, File No. BP-9633; for construction permits.

The Hearing Examiner having under consideration a "Petition to Revise Hearing Dates" filed June 14, 1956, on behalf of Rollins Broadcasting of Delaware, Inc., requesting amendment of certain dates now scheduled in the above-entitled proceeding; and

It appearing that by Commission orders released on June 15, 1956, the issues in this proceeding were amended and clarified so that additional testimony will be required, that counsel for the other applicant and for Broadcast Bureau have informally consented to a grant of this petition, that immediate consideration thereof is warranted under § 1.745 of the Commission's rules, and that the granting of the petition will conduce to the orderly dispatch of the Commission's business; now therefore,

*It is ordered,* This 19th day of June 1956, that the above petition is granted, and that so much of the order of May 18, 1956, which set: (1) the exchange of the direct affirmative case exhibits upon engineering matters on or before June 18, 1956, and (2) the further prehearing conference and the hearing of evidence on June 20 and June 27, 1956, be and it is hereby set aside; and

*It is further ordered,* That the exchange of the direct affirmative case exhibits upon engineering matters, as contemplated by § 1.841 (a), will be accomplished on or before Monday, June 25, 1956, and a further prehearing conference shall be held at 10:00 a. m., on Wednesday, June 27, 1956, at which time a date will be fixed for the commencement of the hearing.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4945; Filed, June 21, 1956; 8:54 a. m.]

### ROLLINS BROADCASTING OF DELAWARE, INC. AND FRANKLIN BROADCASTING CO.

### ORDER AMENDING ISSUES

In re applications of Rollins Broadcasting of Delaware, Inc., Philadelphia, Pennsylvania, Docket No. 11565, File No. BP-9500; Lawrence M. C. Smith, d/b as Franklin Broadcasting Company, Philadelphia, Pennsylvania, Docket No. 11566, File No. BP-9633; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of June 1956;

The Commission having under consideration a motion to enlarge issues in the above-entitled proceeding, filed December 23, 1955, by Franklin Broadcasting Company; an answer to said motion filed January 3, 1956, by Rollins Broadcasting of Delaware, Inc.; and a reply to the answer of Rollins Broadcasting of Delaware, Inc. filed January 9, 1956, by Franklin Broadcasting Company;

It appearing that Franklin Broadcasting Company contends that Rollins Broadcasting of Delaware does not have a contract or arrangement to obtain or use the area of land required for its antenna site specified in its application; and that, in view thereof the issues should be enlarged to determine the availability of such land;

It further appearing that Rollins in its answer states that it has an option which covers the parcel of ground described in its application with the exception of a strip of land upon which ground wires will be buried; but that Rollins has assurances that the ground wires can be buried on this strip;

It further appearing that on the basis of the pleadings before it, the Commission cannot determine that the strip of land will, in fact, be available to Rollins upon which to bury ground wires; and that accordingly, the issues should be enlarged to determine the availability of such strip of land;

Accordingly, *it is ordered,* That the motion to enlarge issues, filed December 23, 1955 by Franklin Broadcasting Company is granted and the issues in the above-entitled proceeding are enlarged to include the following issue:

8. To determine whether Rollins Broadcasting of Delaware, Inc. has made or will be able to make arrangements to obtain and use the site specified in its application.[1]

Released: June 15, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4921; Filed, June 21, 1956; 8:50 a. m.]

[1] As to the numbering of this issue, see Memorandum and Order, released this date.

[Docket Nos. 11565, 11566; FCC 56-539]

### ROLLINS BROADCASTING OF DELAWARE, INC. AND FRANKLIN BROADCASTING CO.

### MEMORANDUM AND ORDER AMENDING ISSUES

In re applications of Rollings Broadcasting of Delaware, Inc., Philadelphia, Pennsylvania, Docket No. 11565, File No. BP-9500; Lawrence M. C. Smith, d/b as Franklin Broadcasting Company, Philadelphia, Pennsylvania, Docket No. 11566, File No. BP-9633; for construction permits.

1. The Commission has under consideration a petition filed December 20, 1955, by Rollins Broadcasting of Delaware, Inc., Philadelphia, Pennsylvania, to enlarge issues in the above-entitled proceeding; an answer to said petition filed on December 30, 1955, by Franklin Broadcasting Company; an appeal filed by Rollins Broadcasting of Delaware, Inc. on January 9, 1956, from the Examiner's Order in the above-entitled proceeding granting the petition of Franklin Broadcasting Company to amend its application; opposition to said appeal filed January 16, 1956 by Franklin Broadcasting Company; and answer to opposition filed on January 23, 1956 by Rollins.

2. This proceeding, as now constituted, involves the mutually exclusive applications of Rollins Broadcasting of Delaware, Inc., Philadelphia, Pennsylvania and Lawrence M. C. Smith, d/b as Franklin Broadcasting Company, Philadelphia, Pennsylvania,[1] each seeking a construction permit to operate on 900 kc with a power of one kilowatt, daytime only, employing a directional antenna.

3. The application of Franklin Broadcasting Company was filed January 17, 1955, requesting a construction permit to operate on 900 kc with a power of 1 kw, daytime only, non-directionally at Ardmore, Pennsylvania. This application was amended on October 26, 1955, to specify directional antenna and to change its location from Ardmore to Philadelphia, Pennsylvania. This amendment, among other things, specified a location near 61st Street and Passyunk Avenue, Philadelphia, as the transmitter site. Subsequently the application was again amended (December 27, 1955) to change transmitter site to Essington Avenue and Passyunk Avenue, Philadelphia, and to change the financial statement.

*Petition to enlarge.* 4. The above-described pleadings relate to the two Franklin sites in Philadelphia. Rollins, by its petition, requests that the issues be enlarged (1) to determine whether Franklin Broadcasting Company has made arrangements to obtain and will be able to utilize the site specified in its application. (This is the site first specified by Franklin in Philadelphia near 61st Street and Passyunk Avenue); and (2) to determine the circumstances surrounding the filing of the application by Franklin Broadcasting Company for Philadelphia, Pennsylvania, and in light of these circumstances, whether the applicant has acted in good faith or for the purpose of hindering or delaying the establishment of a service by Rollins Broadcasting of Delaware, Inc.

5. The first issue requested has been rendered moot by the subsequent (December 27, 1955) amendment of the Franklin application specifying another site and by the manner of the disposition of the other pleadings herein. Thus, consideration will be given only to the second requested issue. Rollins in support of its petition, alleges that it made an inquiry into the circumstances surrounding Franklin's negotiations for its site. It is asserted that this investigation disclosed that Franklin specified the 61st Street and Passyunk Avenue site in its application without first obtaining a lease or option to purchase the site from the Pioneer Oil Company, owner of the property; and that, during negotiations with Pioneer Oil Company to obtain a lease to the property, Franklin was informed repeatedly that the property was not available to it for use as a transmitter site. It is also asserted that Mr. Herman Stoffman, a principal in the Pioneer Oil Company was called upon by Franklin's representatives; that, when it appeared that no agreement could be reached he was asked to enter into an agreement with Franklin whereby he would be paid a sum of money to permit Franklin to specify the Pioneer Oil property as its site in its application, with the understanding that there was no intention whatsoever to build a station on his property; that he was told that the option to use the site for filing purposes only could be covered in one agreement and that in another agreement it would be understood that there would be no construction at that location; that it was specifically pointed out to Mr. Stoffman that the money paid could be kept by him even though a station would never be built at this location; and that Mr. Stoffman refused to enter into an agreement of this type.

6. Rollins states that in view of the circumstances hereinabove recited a serious question is raised regarding the good faith of Franklin Broadcasting Company in filing its application in this proceeding; and that these facts, if established, bear upon the qualifications of Franklin to own and operate a radio facility.

7. Franklin, in its answer denies the allegations made by Rollins with the exception that it states that the negotiations for a lease of the Pioneer Oil site (61st Street and Passyunk Avenue site) was not completed at the time of filing its application to amend on October 25, 1955, but it nevertheless expected the negotiations to be satisfactorily completed. Mr. Lawrence M. C. Smith, principal in Franklin Broadcasting Company, in an affidavit attached to the answer relates the circumstances pertaining to the site negotiations and states that the unsupported allegations contained in Rollins' petition (see paragraph 5, supra) as what took place in negotiations between Mr. Abrams (Franklin's real estate representative), Smith and Mr. Stoffman and the inferences therefrom are completely untrue.

8. Rollins in its answer to the opposition to the appeal from Examiner's Order granting Franklin's petition to amend its application, includes an affidavit of Mr. G. R. Chambers of Rollins Broadcasting, Inc., and Mr. W. H. Mitchell of the C. J. Realty Company, Philadelphia, Pennsylvania, setting forth details concerning Rollins' search for a transmitter site and repeating substantially the same allegations as were made by Rollins in its petition to enlarge issues (see paragraph 5, supra).

9. In view of the statements and counterstatements made by the two parties to this proceeding, the Commission is unable, on the basis of pleadings before it, to resolve the allegations made by Rollins and is of the view that the

[1] The application of Miners Broadcasting Service, Inc., West Chester, Pennsylvania (Docket No. 11564, File No. BP-8925) was also consolidated in this proceeding. However, this application was dismissed without prejudice on December 22, 1955.

issues should be enlarged to permit an inquiry into the circumstances surrounding the negotiations which took place between Franklin Broadcasting Company and the Pioneer Oil Company.

*Appeal from Examiner's order granting leave to amend.* 10. As hereinabove indicated, Rollins Broadcasting of Delaware, Inc., has appealed from the order of the Examiner granting the petition of Franklin Broadcasting Company, filed December 27, 1955, for leave to amend its application to specify a new site at Essington Avenue and Passyunk Avenue. As hereinbefore stated, Franklin's negotiations were not satisfactorily completed for the site near 61st Street and Passyunk Avenue, at the time its amended application was filed October 26, 1955. This necessitated a selection of a new site by Franklin for its proposed operation. Franklin, in its opposition to the appeal from the Examiner's allowance of the December 27 amendment asserts that, shortly after filing its October 26 amended application, it encountered unexpected difficulties in negotiations for the site and, in view thereof, immediately proceeded to locate another site in the immediate vicinity; that by early December it had obtained informal assurances and by December 20, 1955, it had obtained a firm written option; that Rollins' counsel was informally notified as early as December 13, 1955, that Franklin was changing its site and would soon file a petition for leave to amend; and that, on December 27, 1955, it filed with the Commission such a petition to amend its application, specifying the new site. The Examiner granted this petition on January 4, 1956.

11. Rollins contends that Franklin failed to establish good cause to amend its application as required under § 1.365 of the Commission's rules and regulations which provides that after an application has been designated for hearing it may not be amended unless good cause has been established. In support, Rollins states that the new site is approximately 0.8 of a mile from the site previously specified; that as a consequence thereof, significant additions in populations have been made in Franklin's proposed 25 mv/m and 5 mv/m contours; that the cost of construction has been increased from $12,000–$15,000 to $15,000–$18,000; that a change in the capital structure has been made; that the amendment would require a reexamination to determine whether the proposed antenna at the new site would constitute a hazard to air navigation; and that a question of the ability to maintain the directional pattern specified is raised because of the presence of oil tanks nearby. However, Rollins made no showing in what manner the oil tanks would be expected to affect the maintenance of the pattern. Parenthetically, it may be noted here that the question concerning a hazard to air navigation has been favorably resolved, and that the Broadcast Bureau filed a pleading which raised questions concerning the maintenance of the directional pattern, but subsequently advised that its doubts concerning the matter had been dispelled. Thus, in the absence of a showing by Rollins concerning any problem of maintenance of the pattern, no further consideration will be given to these two matters.[2]

12. With respect to the increase in population within the 25 mv/m and 5 mv/m contours, referred to above, it should be noted that the 25 mv/m contour is considered only in relation to the service to be rendered by a proposal to business and factory areas (see § 3.182 (f) of the Commission's rules), and not to the number of persons to be served therein. Rollins has not shown that, by the change in site location, Franklin's proposal has attained a greater degree of compliance with § 3.182 (f) of the rules. As to the populations within the 5 mv/m contour, § 3.188 (b) (2) of the rules provides that a site should be selected so as to place a minimum field intensity of 5 to 10 mv/m over the most distant residential section of the city to which the station is to be assigned. Thus, this is the main consideration with respect to the 5 mv/m contour, but Rollins has not shown that the 5 mv/m contour under the amended application encompasses more of the residential area of Philadelphia than did the 5 mv/m contour from the original site. In further connection with these two contours, it should be noted that Franklin states that the population count originally made for these two contours was in error, and that correction of the error would show a slight reduction in the populations included within the respective contours from the new site. Thus, as to coverage we fail to perceive that the allowance of the amendment would result in any unfair competitive advantage to Franklin, as alleged by Rollins.

14. Rollins argues that Franklin cannot allege good cause for its amendment by virtue of the fact that negotiations for the 61st Street and Passyunk Avenue site were not successfully completed. It contends that Franklin had no reasonable expectation at any time that the site would be available to it; and that Franklin should not now be permitted to urge that loss of its site constitutes good cause to amend its application. Rollins also argues that Franklin's amendment of December 27 materially changed the financial aspects of its proposal so that a reexamination of the application by the Commission is necessary to determine whether the financial qualifications have been met; and if not, a new issue in the proceeding would be necessary to take care of such questions. It asserts that raising such an issue at this stage of the proceeding would not be consistent with the public interest.

15. In the present posture of the pleadings before the Commission, the Commission is of the view that Franklin's amendment of December 27, 1955, was properly allowed by the Examiner. Our decision is based upon the assumption that Franklin acted properly with regard to the site earlier proposed at 61st Street and Passyunk Avenue. The assumption is subject to being disproved after hearing on the good faith issue which is being added so that, of course, our ruling upholding allowance of the amendment is conditional. To hold otherwise would leave Franklin without a site as required by the Commission's rules and with a defective application. If the proceeding should go forward under such circumstances, and assuming that the good faith issue were resolved in favor of Franklin, the proceeding would result in a nullity. This, we do not believe would be conducive to the proper dispatch of business and to the ends of justice. The allowance of the amendment will not result in any competitive advantage accruing to Franklin, nor will it prevent Rollins from introducing evidence under the issue bearing upon Franklin's good faith, nor will it prejudice Rollins.

15. Accordingly: *it is ordered,* That the appeal of Rollins Broadcasting of Delaware, Inc., filed January 9, 1956, from the Examiner's Order granting the petition of Franklin Broadcasting Company for leave to amend is denied.

*It is further ordered,* That the petition for enlargement of issues filed December 20, 1955, by Rollins Broadcasting of Delaware, Inc., is granted insofar as it requests an issue concerning the good faith of Franklin Broadcasting Company, and in other respects is denied.

*It is further ordered,* That the Order of Designation of November 30, 1955 is modified so that the issues now numbered "7" and "8" are renumbered as "9" and "10" respectively and the issues are enlarged to include the following:[3]

7. To determine the circumstances surrounding the filing of the application by Franklin Broadcasting Company for Philadelphia, Pennsylvania, in which a site near 61st Street and Passyunk Avenue was specified, and in light of these circumstances, whether the applicant has acted in good faith.

8. To determine whether Rollins Broadcasting of Delaware, Inc. has made or will be able to make arrangements to obtain and use the site specified in its application.

Adopted: June 13, 1956.

Released: June 15, 1956.

[Docket Nos. 11565, 11566; FCC 56-540]

ROLLINS BROADCASTING OF DELAWARE, INC. AND FRANKLIN BROADCASTING CO.

ORDER RE ISSUES

In re applications of Rollins Broadcasting of Delaware, Inc., Philadelphia, Pennsylvania, Docket No. 11565, File No. BP-9500; Lawrence M. C. Smith, d/b as Franklin Broadcasting Company, Philadelphia, Pennsylvania, Docket No. 11566, File No. BP-9633; for construction permits.

[2] With respect to the matter of financial qualifications of Franklin Broadcasting Company, see separate Order adopted this date.

[3] By a separate Order, adopted this date, the Commission enlarged the issues to include Issue No. 8.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of June 1956;

The Commission having before it for consideration in the above-entitled matter the following: (1) "Petition to Enlarge Issues and Affirm Basic Qualifications" filed by the Broadcast Bureau on January 18, 1956; (2) "Answer to Broadcast Bureau's Petition to Enlarge Issues" filed by Franklin Broadcasting Company on January 28, 1956; (3) "Reply to Petition to Enlarge Issues and Affirm Basic Qualifications" filed by Rollins Broadcasting of Delaware, Inc., on January 27, 1956; and (4) "Reply to Answer to Petition to Enlarge Issues" filed by the Broadcast Bureau on January 31, 1956; and

It appearing that the Broadcast Bureau's "Reply" (item 4, supra) renders moot the Bureau's "Petition to Enlarge Issues" (item 1, supra); and

It further appearing that, in light of Franklin's amendment of December 27, 1955, the Commission has reviewed the financial qualifications of Franklin Broadcasting Company and hereby reaffirms its former finding that Franklin Broadcasting Company is financially qualified to operate its proposed station;

*It is ordered,* That the aforementioned "Petition to Enlarge Issues and Affirm Basic Qualification" of the Broadcast Bureau is granted to the extent of an affirmance of Franklin's financial qualifications and in other respects, it is denied.

Released: June 15, 1956.

NEWS ON THE AIR, INC.

ORDER CONTINUING HEARING CONFERENCE

In re application of News on the Air, Inc., Port Clinton, Ohio, Docket No. 11670, File No. BP-9977; for construction permit.

The Hearing Examiner having under consideration a pleading filed June 7, 1956, by Court House Broadcasting Company, a party in the above-entitled proceeding, requesting an extension of the date presently scheduled for the exchange of engineering exhibits and for further pre-hearing conference; and

It appearing that the requested extension has been agreed to by all parties to the proceeding and that the time element necessitates prompt action on the pleading;

*It is ordered,* This the 7th day of June 1956, that the above-entitled request for additional time is granted and the date for the exchange of the engineering exhibits is continued from June 11, 1956, to June 21, 1956, and the date for further pre-hearing conference is changed from June 21, 1956, to July 9, 1956.

[Docket Nos. 11736, 11737; FCC 56-547]

PAUL A. BRANDT AND LIVINGSTON BROADCASTING CO.

ORDER DESIGNATING APPLICATIONS FOR HEARING ON STATED ISSUES

In re applications of Paul A. Brandt, West Branch, Michigan, Docket No. 11736, File No. BP-10109; M. H. Wirth tr/as Livingston Broadcasting Co., Howell, Michigan, Docket No. 11737, File No. BP-10283; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of June, 1956;

The Commission having under consideration the above-captioned application of Paul A. Brandt and M. H. Wirth tr/as Livingston Broadcasting Co., each for a construction permit for a new standard broadcast station to operate on 1350 kilocycles, daytime only, with a power of one kilowatt and 500 watts, respectively, at West Branch and Howell, Michigan, respectively;

It appearing that each of the applicants is legally, technically, financially, and otherwise qualified, except as may appear from the issues specified below, to operate its proposed station, but that operation of both stations as proposed would result in mutually destructive interference and that the proposed operation of the Livingston Broadcasting Co. would cause objectionable interference to Station WEXL, Royal Oak, Michigan (1340 kc, 250 w, U); and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letter dated April 27, 1956, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of either application would serve the public interest; and

It further appearing that a timely reply was received from each subject applicant expressing an intention of appearing at a hearing; and

It further appearing that by letter dated May 21, 1956, Station WEXL expressed an intention of appearing at a hearing on the Livingston Broadcasting Co. application; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

*It is ordered,* That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order upon the following issues:

1. To determine the areas and populations which would receive primary service from each of the proposed operations, and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation of the Livingston Broadcasting Co., would cause interference to Station WEXL, Royal Oak, Michigan, or any other existing standard broadcast station, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine in the light of section 307 (b) of the Communications Act of 1934, as amended, which of the operations proposed in the above-captioned applications would better provide a fair, efficient and equitable distribution of radio service.

4. To determine in the light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

*It is further ordered,* That the Sparks Broadcasting Co., licensee of Station WEXL, is made a party to the proceeding.

Released: June 18, 1956.

[Docket No. 11738, etc.; FCC 56-548]

SOUTH DADE BROADCASTING CO., INC., ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of South Dade Broadcasting Co., Inc., Homestead, Florida, Docket No. 11738, File No. BP-10009; J. M. Pace, Homestead, Florida, Docket No. 11739, File No. BP-10198; Redland Broadcasting Company, Homestead, Florida, Docket No. 11740, File No. BP-10424; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of June, 1956;

The Commission having under consideration the above-captioned applications of the South Dade Broadcasting Co., Inc., J. M. Pace and the Redland Broadcasting Company, each for a construction permit for a new standard broadcast station to operate on 1430 kilocycles with a power of 500 watts, daytime only, at Homestead, Florida;

It appearing that each of the applicants is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate its proposed station but that the proposed operations would result in mutually destructive interference; and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letter dated April 5, 1956, of the aforementioned deficiency and that the Commission was unable to conclude that a grant of any of the applications would be in the public interest; and

It further appearing that a timely reply was filed by each of the subject applicants, and each of the applicants recognized the mutual interference problem involved; and

It further appearing that in letters dated November 21, 1955, and March 29 and May 10, 1956, Paul Brake, licensee of Station WWPB, Miami, Florida, opposed all three applications on the basis of interference to Station WWPB; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

*It is ordered*, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from each of the proposed operations, and the availability of other primary service to such areas and populations.

2. To determine whether any of the proposed operations would cause interference to Station WWPB, Miami, Florida; or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine which of the operations proposed in the above-captioned applications would better serve the public interest in the light of the evidence adduced under the foregoing issues and record made with respect to the significant differences between the applications as to:

(a) The background and experience of each of the above-named applicants to own and operate its proposed station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed stations.

(c) The programming service proposed in each of the above-mentioned applications.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which, if any, of the applications should be granted.

*It is further ordered*, That Paul Brake, licensee of Station WWPB, Miami, Florida, is made a party to the proceeding.

Released: June 18, 1956.

[Docket No. 11741; FCC 56-549]

CLAREMORE BROADCASTING CO.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Robert I. Hartley tr/as Claremore Broadcasting Company, Claremore, Oklahoma, Docket No. 11741, File No. BP-10306; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of June 1956;

The Commission having under consideration the above-captioned application of Robert I. Hartley tr/as Claremore Broadcasting Company for a construction permit for a new standard broadcast station to operate on 1270 kilocycles with a power of 500 watts, daytime only, at Claremore, Oklahoma;

It appearing that the applicant is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate the proposed station, but that the proposed operation may cause interference to Stations KSOK, Arkansas City, Kansas (1280 kc, 100 w, 1 kw-LS, U) and KUOA, Siloam Springs, Arkansas (1290 kc, 5 kw, D); and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised by letter dated April 23, 1956, or the aforementioned deficiency and that the Commission was unable to conclude that a grant of the application would be in the public interest, and

It further appearing that a timely reply was received from the applicant; and

It further appearing that counsel for Station KUOA requested by letter dated May 22, 1956, that the application be designated for hearing; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

It is ordered, that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the proposed operation, and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation would cause objectionable interference to Stations KSOK, Arkansas City, Kansas, and KUOA, Siloam Springs, Arkansas, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine, in the light of the evidence adduced pursuant to the foregoing issues, if a grant of the subject application would serve the public interest.

*It is further ordered*, That The KSOK Broadcasting Company, Inc., and KUOA, Incorporated, licensees of Stations KSOK and KUOA, respectively, are made parties to the proceeding.

Released: June 18, 1956.

WGLI, INC.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of WGLI, Incorporated, Babylon, New York, Docket No. 11742, File No. BP-10276; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of June 1956;

The Commission having under consideration the above-captioned application of WGLI, Incorporated, for a construction permit for a new standard broadcast station to operate on 1290 kilocycles with a power of one kilowatt, directional antenna, unlimited time, at Babylon, New York;

It appearing that the applicant is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate its proposed station, but that the proposed operation would be involved in daytime interference with Station WOV, New York, New York (1280 kc, 5 kw, DA-1, S-WHBI); and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised by letter dated April 27, 1956, of the aforementioned deficiency and that the Commission was unable to conclude that a grant of the application would be in the public interest; and

It further appearing that counsel, on behalf of Station WOV, requested by letter dated March 9, 1956, that the subject application be designated for hearing and that Station WOV be made a party to the proceeding; and

It further appearing that a timely reply was received from the applicant; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

*It is ordered*, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the proposed operation, and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation would be involved in objectionable interference with Station WOV, New York, New York, or any other existing standard broadcast station, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine, in the light of the evidence adduced pursuant to the foregoing issues, if a grant of the subject application would serve the public interest.

## SECURITIES AND EXCHANGE COMMISSION

[File No. 31-634]

PENNSYLVANIA POWER & LIGHT CO.

ORDER GRANTING EXEMPTION

JUNE 18, 1956.

Pennsylvania Power & Light Company ("Penn Power"), a public-utility company, has filed with this Commission an application pursuant to section 3 (a) (2) of the Public Utility Holding Company Act of 1935 ("act") for an exemption for it and its direct subsidiary, Safe Harbor Water Power Corporation ("Safe Harbor"), 50 percent of whose voting securities is owned by Penn Power, from the provisions of the act on the basis that it is predominantly a public utility company whose operations as such do not extend beyond the Commonwealth of Pennsylvania, the State in which it is organized.

Due notice of the filing of said exemption application has been given and no hearing thereon has been ordered by or requested of the Commission. The Commission has examined the statements contained in said exemption application and has considered the full record with respect thereto. It appears to the Commission that the applicable standards of section 3 (a) (2) of the act are satisfied and the Commission finds that the granting of said exemption application will not be detrimental to the public interest or the interest of investors or consumers.

*It is therefore ordered*, That Penn Power and Safe Harbor, as a subsidiary of Penn Power, be, and the same hereby are, exempted from the provisions of the act applicable to them as a holding company and a subsidiary company thereof.

*It is further ordered*, That this order shall become effective upon issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[F. R. Doc. 56-4907; Filed, June 21, 1956; 8:46 a. m.]

## DEPARTMENT OF JUSTICE

### Immigration and Naturalization Service

STATEMENT OF ORGANIZATION

MISCELLANEOUS AMENDMENTS

Effective upon publication in the FEDERAL REGISTER, the following amendments to the Statement of Organization of the Immigration and Naturalization Service (19 F. R. 8071, December 8, 1954), as amended, are prescribed:

1. District 7 *Buffalo, New York* of paragraph (b) *District Offices* of section 1.51 *Field Service* is amended by deleting the word "stations" and inserting the word "station".

2. District 22 of paragraph (b) *District Offices* of section 1.51 *Field Service* is amended to read as follows: "22. *Portland, Maine.* The district office in Portland, Maine, has jurisdiction over the State of Maine; also, over the United

States immigration station located in the Province of New Brunswick, Canada, and the immigration stations located in the Province of Nova Scotia, Canada."

3. District 10, *St. Paul, Minn.*, of subparagraph (2) *Ports of entry for aliens arriving by vessel or by land transportation* of paragraph (c) *Suboffices* of section 1.51 *Field Service* is amended by alphabetically adding "Silver Bay, Minn." to the Class C ports of entry.

4. District 22—Portland, Maine, of subparagraph (4) *Immigration stations in foreign countries* of paragraph (c) *Suboffices* of section 1.51 *Field Service* is amended to read as follows:

DISTRICT 22—PORTLAND, MAINE

St. John, New Brunswick, Canada.
Halifax, Nova Scotia, Canada.
Yarmouth, Nova Scotia, Canada.

5. Effective as of July 1, 1956, District 10—St. Paul, Minn., of subparagraph (2) *Ports of entry for aliens arriving by vessel or by land transportation* of paragraph (c) *Suboffices* of section 1.51 *Field Service* is amended by revoking from the Class A ports the port of "• Winton, Minn." and by adding the port of "• Ely, Minn." between Duluth and International Falls, Minn.

Dated: June 19, 1956.

J. M. SWING,
*Commissioner of Immigration and Naturalization.*

CHRISTIANI & NIELSEN

NOTICE OF INTENTION TO RETURN VESTED PROPERTY

Pursuant to section 32 (f) of the Trading With the Enemy Act, as amended, notice is hereby given of intention to return, on or after 30 days from the date of publication hereof, the following property located in Washington, D. C., including all royalties accrued thereunder and all damages and profits recoverable for past infringement thereof, after adequate provision for taxes and conservatory expenses:

*Claimant, Claim No., and Property*

Christiani & Nielsen, Copenhagen, Denmark, Claim No. 28954, Vesting Orders Nos. 664 and 3854:

1. $2,752.25 in the Treasury of the United States;

2. Property described in Vesting Order No. 664 (8 F. R. 4989, April 17, 1943), relating to United States Letters Patent No. 2,191,845;

3. All interests and rights (including all royalties and other monies payable or held with respect to such interests and rights and all damages for breach of the agreement hereinafter described, together with the right to sue therefor) created in Christiani & Nielsen by virtue of an agreement dated September 23, 1926 (including all modifications of and supplements to such agreement, including, but without limitation, letters from United States Gypsum Company to Christiani & Nielsen, dated respectively December 1, 1930 and September 28, 1932) by and between United States Gypsum Company, Christiani & Nielsen and Erik Christian Bayer, relating, among other things, to Patent No. 2,017,022, dated October 8, 1935, inventor Carlisle K. Roos, for Cementitious Material, to the extent that those interests and rights were owned by Christiani & Nielsen immediately prior to vesting by Vesting Order No. 3854 (9 F. R. 8267, July 21, 1944); and

4. All interests and rights (including all royalties and other monies payable or held with respect to such interests and rights and all damages for breach of the agreement hereinafter described, together with the right to sue therefor) created in Christiani & Nielsen by virtue of an agreement dated March 24, 1938 (including all modifications thereof and supplements thereto, if any) by and between Battelle Development Corpora-

tion and Christiani & Nielsen, relating, among other things, to Patent No. 2,151,932, dated March 28, 1939, inventor Aage Neilsen, for Process for Manufacturing Porous Articles of Clay, to the extent that those interests and rights were owned by Christiani & Neilsen immediately prior to vesting by Vesting Order No. 3854 (9 F. R. 8267, July 21, 1944).

Executed at Washington, D. C., on June 14, 1956.

For the Attorney General.

# FEDERAL REGISTER

VOLUME 21 NUMBER 122

Washington, Saturday, June 23, 1956

## TITLE 3—THE PRESIDENT

### PROCLAMATION 3142

UNITED NATIONS DAY, 1956

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the United States of America joined in founding the United Nations for the purpose of maintaining international peace and security; and

WHEREAS the United States has consistently supported the United Nations, the Charter of which is the outgrowth of a common desire among peoples of all nations for permanent peace; and

WHEREAS in the ten years of its existence the United Nations has developed into a living, functioning organization capable of influencing world opinion on the side of peace, freedom, and justice; and

WHEREAS recent additions to the membership of the United Nations have increased its vitality and its capability of achieving the aims and ideals of its Charter and fulfilling man's ancient longing for a better and a strife-free world; and

WHEREAS the General Assembly of the United Nations has resolved that October 24, the anniversary of the coming into force of the United Nations Charter, should be dedicated each year to making known the purposes, principles, and accomplishments of the United Nations:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby urge the citizens of this Nation to observe Wednesday, October 24, 1956, as United Nations Day by means of community programs that will demonstrate their faith in, and support of, the United Nations and will contribute to a better understanding of its aims, problems, and accomplishments.

I call also upon the officials of the Federal, State, and local Governments, the United States Committee for the United Nations, representatives of civic, educational, and religious organizations, and agencies of the press, radio, television, and motion pictures, as well as all citizens, to cooperate in appropriate observance of United Nations Day throughout our country.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 21st day of June in the year of our Lord nineteen hundred and fifty-six,
[SEAL] and of the Independence of the United States of America the one hundred and eightieth.

DWIGHT D. EISENHOWER

By the President:

HERBERT HOOVER, Jr.,
*Acting Secretary of State.*

State and County Agricultural Stabilization and Conservation Committees (hereinafter referred to as State and County Committees).

§ 421.1927 *Applicability of §§ 421.1926 through 421.1929.* Sections 421.1926 through 421.1929 state the eligibility requirements for producers of rice under the 1956 rice price support operations with respect to compliance with farm acreage allotments for rice, and are in addition to other regulations to be issued by the Commodity Credit Corporation governing eligibility for price support.

§ 421.1928 *Definitions.* As used in this subpart, and in all instructions, forms and documents in connection herewith, the words and phrases defined in this section shall have the meaning herein assigned to them unless the context or subject matter otherwise requires.

(a) *Farm.* Means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm or range land which the County Committee determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops, and with workstock, farm machinery, and labor substantially separate from that for any other land; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county or administrative area in which the principal dwelling is situated or, if there is no dwelling thereon, it shall be regarded as located in the county or administrative area in which the major portion of the farm is located.

(b) *Person.* Means an individual, partnership, association, corporation, estate, trust, or other business enterprise or legal entity, and, wherever applicable, a State, political subdivision of a State, or any agency thereof.

(c) *Operator.* Means the person who, as owner, landlord, or tenant, is in charge of the supervision and conduct of the farming operations on the entire farm.

(d) *Producer.* Means any person engaged in the production of rice as landowner, landlord, tenant, or sharecropper and includes a person owning and operating his own farm; a tenant operating a farm rented for cash; a tenant operating a farm under a crop share lease, contract, or agreement; a landlord leasing to share tenants; and a person or irrigation company furnishing water for a share of the crop. For purposes of the regulations in this subpart, the term "tenant" shall be deemed to include a person or irrigation company furnishing water for a share of the rice crop.

(e) "Rice acreage" means the acreage planted to rice and the acreage of volunteer rice which reaches maturity, excluding (1) any acreage of non-irrigated rice of three acres or less, (2) any acreage of sweet, glutenous, or candy rice, commonly known as Mochi Gomi, (3) any acreage of rice grown for experimental purposes only by or under contract to a publicly-owned agricultural experiment station, (4) any acreage planted to rice under a contract which was entered into prior to planting with the Fish and Wildlife Service for wildlife feed which was not harvested, and (5) any excess rice acreage which is destroyed or otherwise handled or treated (by the producer or from some cause beyond his control) not later than the date established by the county committee with the approval of the State committee so that rice cannot be harvested therefrom. Such date for each county or areas within the county shall be far enough in advance of the date the harvesting of rice normally begins in the county to permit sufficient time to remeasure the farms in the county and issue marketing cards to eligible producers prior to harvest. Notice of 1956 Acreage of Rice on Form CSS—598 shall be mailed to the operator of each farm on which there is excess rice acreage at least 15 days prior to such established date: *Provided,* That if such notice is not mailed at least 15 days prior to such established date the producer shall have 15 days from the date the Notice of 1956 Acreage of Rice is mailed to destroy or treat the excess rice acreage so that rice cannot be harvested therefrom. If a producer proves to the satisfaction of the county committee that he is unable to dispose of the excess rice acreage by the required date because of the physical condition of the rice acreage, an extension of time sufficient to afford a fair and reasonable opportunity for such disposal may be granted by the county committee provided the excess acreage is destroyed prior to the time the harvesting of rice begins on the farm.

The acreage of rice as determined by the first inspection and as stated on Form CSS–598 shall be considered as "rice acreage" if the farm operator or his representative fails to notify the ASC county office by the date specified on Form CSS–598 of his intention to adjust the rice acreage to the farm allotment and pay the cost of remeasurement as provided in the "Regulations Pertaining to Rice Marketing Quotas for 1956 Crop of Rice" as published in the FEDERAL REGISTER May 15, 1956 (7 CFR 730.750 to 730.799; 21 F. R. 3169 et. seq.). The date specified on Form CSS–598 for notifying the county office of an intention to adjust shall coincide with the latest date on which the adjustment may be made.

(f) *Rice acreage allotment.* Means that rice acreage allotment established for the farm under "Regulations Pertaining to Farm Acreage Allotments for the 1956 Crop" as published in the FEDERAL REGISTER under date of January 5, 1956, (7 CFR 730.701 to 730.704; 21 F. R. 71), and any amendments thereto.

§ 421.1929 *Compliance requirements; producers.* A producer shall not be eligible for price support on rice produced in 1956 unless the 1956-crop rice acreage on the farm on which such rice was produced is not in excess of the rice acreage allotment: *Provided,* That if a producer has an interest in the 1956 rice crop produced on any other farm in the same county, he must also be entitled to receive a marketing certificate for each such farm in order to be eligible for price support. Where a producer is engaged in the production of rice in more than one county (in the same State or in two or more States) and the State Committee has determined to apply the requirements of § 730.767 (b) of the "Regulations Pertaining to Rice Marketing Quotas for 1956-Crop Rice" (7 CFR Part 730; 21 F. R. 3169, 3174) to such multiple farm producer, the requirements of this section shall also be followed with respect to each such farm, wherever situated, in order for the producer to be

eligible for price support on his 1956 crop of rice.

§ 421.1930 *Effect of unknowingly exceeding farm rice acreage allotment; method of determination.* The rice acreage on a farm shall not be deemed to be in excess of the rice acreage allotment unless the operator knowingly exceeded such allotment. If the rice acreage allotment is in fact exceeded, such allotment shall be considered as having been knowingly exceeded unless the operator of the farm establishes, to the satisfaction of the county committee, either of the following conditions:

(a) Through no fault of the operator, the rice acreage(s) was not measured or he was not notified of the measured acreage(s) in time to dispose of the excess acreage in the manner specified in § 421.1928 (e); or

(b) The operator received an erroneous notice of his measured acreage and acted in good faith on the basis of such notice, and was not notified of the corrected acreage in time to dispose of the excess acreage in the manner specified in § 421.1928 (e), and with respect to both paragraphs (a) and (b) of this section, the operator made a reasonable effort by measuring or otherwise to comply with the rice acreage allotment.

§ 421.1931 *Application for review and request for reconsideration.* Any producer who is dissatisfied with any determination with respect to compliance with rice acreage allotments may, within 15 days after mailing of the official notice of the farm acreage allotment and marketing quota, file application with the county committee to have such determination reviewed by a review committee: *Provided*, That such application for review must be based on a determination which the producer has the right to have reviewed under the Regulations Pertaining to Rice Marketing Quotas for the 1956 Crop of Rice (7 CFR Part 730). Unless application for review is made within such 15-day period, such determination shall be final as to the producers on the farm. The procedures governing such review are contained in the regulations issued by the Secretary of Agriculture (7 CFR Part 711).

Done at Washington, D. C., this 19th day of June 1956.

[SEAL] TRUE D. MORSE,
*Acting Secretary of Agriculture.*

[F. R. Doc. 56-4957; Filed, June 22, 1956; 8:47 a. m.]

## TITLE 16—COMMERCIAL PRACTICES

### Chapter I—Federal Trade Commission

[Docket 6230]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

ROCKY MOUNTAIN WHOLESALE CO. ET AL.

Subpart—*Discriminating in price under section 2, Clayton Act, as amended.* Payment or acceptance of commission, brokerage, or other compensation under 2 (c): § 13.810 *Buyers' corporate or other agent.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 2, 38 Stat. 730, as amended; 15 U. S. C. 13) [Cease and desist order, Rocky Mountain Wholesale Company et al., Albuquerque, N. Mex., Docket 6230, June 7, 1956]

*In the matter of Rocky Mountain Wholesale Company, a Corporation, and Jack Beatty, Individually and as President of Rocky Mountain Wholesale Company; and as a Partner of Consolidated Brokerage Company and G & Z Brokerage Company*

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a corporate wholesaler of sundries, candy, and tobacco products and its president, with place of business in Albuquerque, New Mexico, with receiving unlawful allowances or brokerage in violation of Section 2 (c) of the Clayton Act, as amended, in that, as partners, they shared in brokerage received by two brokerage companies on purchases made by them for their own account.

On the basis of the record, containing respondents' answer making certain admissions, motion of counsel in support of the complaint for issuance of a cease and desist order predicated thereon, and respondents' later motion to dismiss, the hearing examiner made his initial decision, including findings,[1] conclusions,[1] and order to cease and desist, which became, on June 7, 1956, the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered*, That the respondents Rocky Mountain Wholesale Company, a corporation, and Jack Beatty, individually and as President of Rocky Mountain Wholesale Company, and as a partner of Consolidated Brokerage Company and G & Z Brokerage Company and their respective representatives, agents and employees, directly or through any corporate or other device in connection with the purchase by respondents, or either of them, of sundries, candy and tobacco products in commerce as "commerce" is defined in the Clayton Act, do forthwith cease and desist from receiving or accepting, directly or indirectly, from any seller anything of value as a commission, brokerage, or other compensation or any allowance or discount in lieu thereof, upon purchases of sundries, candy and tobacco products made by respondents or for their account.

By "Decision of the Commission", etc., report of compliance was required as follows:

*It is ordered*, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: June 7, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH,
*Secretary.*

[F. R. Doc. 56-4954; Filed, June 22, 1956; 8:47 a. m.]

[1] Filed as part of original document.

## TITLE 19—CUSTOMS DUTIES

### Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 54113]

PART 5—CUSTOMS RELATIONS WITH CONTIGUOUS FOREIGN TERRITORY

PART 18—TRANSPORTATION IN BOND AND MERCHANDISE IN TRANSIT

PART 24—CUSTOMS FINANCIAL AND ACCOUNTING PROCEDURE

IN-TRANSIT SHIPMENTS

The customs services of Canada and the United States have agreed on a joint procedure under which containers of commercial travelers' samples transported between ports in one country through territory of the other without display may be corded and sealed in the country of departure only.

Under this procedure, examination of the samples will be made either by a Canadian or a United States customs officer before the outer containers of the samples are corded and sealed for movement in transit through the other country and no other examination of the samples themselves, as distinguished from their outer containers, will ordinarily be made by the customs officers of either country if the cords and seals are found intact and if neither the containers nor the cords and seals appear to have been tampered with. Border clearance requirements for such in-transit movements of commercial travelers' samples and the documentation of such in-transit movements of commercial travelers' samples are being simplified.

Under the procedure, outer containers of commercial travelers' samples will be corded and sealed with yellow automatic metal in-transit seals stamped "United States-Canada Customs" at United States ports of exit to Canada and with bright green automatic metal in-transit seals stamped "Canada-United States Customs" at Canadian ports of exit to the United States.

Accordingly, the Customs regulations are hereby amended as follows:

1. Section 5.11 is amended by substituting the following matter for that preceding "the same procedure" in the first sentence of paragraph (a): "Subject to the applicable provisions of paragraphs (b) and (c), whenever merchandise (including baggage) arrives at a frontier port from Mexico or Canada in transit through the United States to the same country from which it arrived," and by redesignating paragraph (c) as paragraph (d); and by inserting a new paragraph (c) to read as follows:

(c) A commercial traveler arriving at a Canadian frontier port with his samples which are to be transported in his own automobile through the United States to another port in Canada without being displayed in the United States, may present the samples, if the outer containers can be effectively sealed, to a Canadian customs officer at the port of departure from Canada for cording and sealing with bright green automatic metal in-transit seals. As a condition for such cording and sealing, the traveler will be required to furnish to the Canadian customs officer a list, in duplicate, of all the articles in the containers with the approximate values of the articles shown. Such list will bear the traveler's name and address. Upon the arrival of the commercial traveler in the United States with his samples effectively corded and sealed as set forth above, and upon presentation to the United States customs officer of the original list of samples properly authenticated by the Canadian customs officer, the samples may be transported through the United States without disturbing the cords and seals and without further sealing of the samples in the United States. Bonded common carrier facilities are not considered to be reasonably available to a commercial traveler under the above described circumstances and, therefore, he may be permitted to transport his samples in his own automobile, subject to the conditions of § 18.20 (b) of this chapter. The traveler shall be required to execute and file customs Form 7520, in triplicate, at the port of his arrival in the United States as an in-transit manifest covering the movement to the port of exit from the United States of any portion of his samples which is not released from customs custody. In preparing customs Form 7520 for commercial travelers' samples, descriptions, quantities, and values may be shown thereon by merely noting "Commercial Samples", the number of the corded and sealed containers, and the approximate total value of the samples.

(Sec. 553, 46 Stat. 742, as amended; 19 U. S. C. 1553)

2. Section 18.15 of the Customs regulations is amended by inserting "and accompanied commercial travelers' samples" after the words "Domestic baggage" in the heading; by changing the first letter in the first word of paragraph (c) to lower case and inserting "Except as otherwise provided for in paragraph (d) of this section," at the beginning of that paragraph; by deleting the parenthetical matter at the end of paragraph (c); and by adding a new paragraph (d) to read as follows:

(d) If a commercial traveler arriving at a United States frontier port with his samples wishes to carry them in his own automobile through Canada to another place in the United States without displaying them in Canada and the outer containers of the samples may be readily and effectively corded and sealed, the containers may be corded and sealed with yellow automatic metal intransit seals by a United States customs officer upon compliance with the following conditions. The traveler shall furnish a list, in duplicate, of all the articles in the containers with the approximate values of the articles shown. The customs officer shall check the list with the articles and satisfy himself that the values shown for the articles appear to be approximately correct. The original of the list, signed by the customs officer over his title and showing that the articles on the list have been checked by the officer against those in the containers, shall be returned to the traveler for submission by him to the Canadian customs upon his arrival in Canada. The traveler shall also be required to execute and file customs Form 7533-B, in original only, at the port of his departure from the United States, as an intransit manifest covering the movement of the samples to the United States port through which the traveler will return to this country. After this form has been signed and dated by the customs officer, it shall be returned to the traveler for submission by him to the collector of customs at the United States port where the samples are returned to this country. In preparing customs Form 7533-B for commercial travelers' samples, descriptions and quantities may be shown thereon by merely noting "Commercial Samples" and the number of the corded and sealed containers. The traveler may be required to assist the customs officer in the cording and sealing.

(Sec. 554, 46 Stat. 743; 19 U. S. C. 1554)

3. Section 24.13 (b) is amended to read:

(b) In-bond seals used for sealing imported merchandise shipped between ports in the United States shall be colored red and stamped "U. S. Customs In Bond," except that bright green seals shall be used to seal carload or truckload shipments of merchandise or containers of commercial travelers' samples moving in transit between Canadian ports through the United States in bond as provided for by § 5.11 (b) and (c) of this chapter. Such green seals used on railroad cars shall be stamped [Can. Customs / U. S. Transit], those used on trucks stamped [H. W. Can. Customs / U. S. Transit], and those used on containers of commercial travelers' samples stamped Canada-United States Customs. In-transit seals used for sealing merchandise shipped from one port in the United States through foreign territory or waters to another port in the United States shall be colored blue and stamped "U. S. Customs In-Transit," except that in-transit seals used on carload or truckload shipments of merchandise or on containers of commercial travelers' samples moving in transit between United States ports via Canada shall be colored yellow. Such yellow seals used on railroad cars shall be stamped [U. S. Customs / Can. Transit], those used on trucks stamped [H. W. U. S. Customs / Can. Transit], and those used on containers of commercial travelers' samples stamped "United States-Canada Customs." Seals used for sealing merchandise for customs purposes other than for (1) shipping in bond, (2) shipping by other than a bonded common carrier in accordance with section 553, Tariff Act of 1930, as amended, or (3) shipping in transit shall be uncolored and stamped "U. S. Customs." All seals (except green in-transit seals for use on trucks or on containers of commercial travelers' samples) shall be stamped with the name of the port for which they are ordered. Each Tyden seal shall be stamped with a serial number. Each automatic metal seal shall be stamped with a symbol number and, when required, with a serial number. These numbers will be assigned by the collector of customs when the orders therefor are approved.

4. Section 24.13 (c) is amended by deleting "Tyden" in the next to the last sentence.

(R. S. 251, sec. 624, 46 Stat. 759; 19 U. S. C. 66, 1624)

The new procedure herein authorized shall be effective as soon as the new automatic metal in-transit seals are available for use.

[SEAL] RALPH KELLY,
*Commissioner of Customs.*

Approved: June 15, 1956.

DAVID W. KENDALL,
*Acting Secretary of the Treasury.*

[F. R. Doc. 56-4967; Filed, June 22, 1956; 8:49 a. m.]

## TITLE 20—EMPLOYEES' BENEFITS

### Chapter V—Bureau of Employment Security, Department of Labor

PART 609—REGULATIONS TO IMPLEMENT TITLE XV OF THE SOCIAL SECURITY ACT, AS AMENDED; RESPONSIBILITIES OF FEDERAL AGENCIES

MISCELLANEOUS AMENDMENTS

Pursuant to the authority vested in me by section 1509, Title XV of the Social Security Act, as amended (68 Stat. 1130; 42 U. S. C. A. 1361, et seq.), the following regulations contained in this part are amended. The amendments are designed to clarify the form and manner in which the Federal agencies are to make their findings, how these findings can be implemented or modified and the finality to be attributed to such findings. Several other minor changes are also of a clarifying nature.

1. Section 609.1 (e) is amended to read as follows:

(e) "Official station" means the State or country (if outside the United States) designated on the Federal employee's notification of personnel action terminating his Federal service (Standard Form 50 or its equivalent) as his "headquarters", or "duty station" if it differs from his "headquarters". If the form of notification does not specify his "headquarters" or "duty station", his official station shall be the State or country of employment designated on such form.

2. Section 609.1 is amended by adding paragraph (i) as follows:

(i) "Findings" means the facts found by a Federal agency with respect to:

(1) Whether the claimant has performed Federal service for that agency during the base period specified on the Form ES-931,

(2) The claimant's Federal wages for such base period, by quarters or weeks, as requested, and

(3) The reasons for the termination of his Federal service.

3. Section 609.2 (b) is amended by deleting the words "leave without pay" and inserting in lieu thereof the words "nonpay status."

4. Section 609.3 (a) is amended to read as follows:

§ 609.3 *Findings by Federal agency.* (a) Upon receipt from a State agency or the Secretary of a "Request for Wage and Separation Information" (Form ES–931), the Federal agency shall promptly make its findings. It shall thereupon complete all copies of the Form ES–931 and transmit its findings to the State agency on such Form or as a part thereof. If the documents necessary for the completion of the Form have been assigned to an agency record center or the Federal Record Center in St. Louis, the Federal agency shall obtain the necessary information from the record center. Any record center shall give priority to such request.

5. Section 609.3 (d) is amended to read as follows:

(d) The findings of the Federal agency shall be final and conclusive: *Provided however,* That additional information submitted by the Federal agency in accordance with § 609.7 shall be considered a part of the original findings which shall be final and conclusive as so supplemented: *And provided further,* That any findings submitted by the Federal agency after reconsideration in accordance with § 609.7 shall be final and conclusive as affirmed or modified by the Federal agency.

6. Section 609.3 (e) is amended to read as follows:

(e) A claimant's right to compensation under Title XV will be determined, subject to the findings of the Federal agency, by the State agency under the applicable provisions of the State unemployment compensation law. Any such determination by a State agency is, except for the findings of the Federal agency, subject to review in the same manner and to the same extent as other determinations of entitlement under the State unemployment compensation law, unless it is a determination by the State agency of Puerto Rico or the Virgin Islands, in which event it is subject to review in accordance with the regulations of the Secretary.

7. Section 609.5 is amended to read as follows:

§ 609.5 *Allocation of terminal annual leave payment.* The Federal agency shall allocate any lump-sum payment for terminal annual leave over the period (following the date of separation) for which it was paid. The Federal agency shall follow the procedures described in the Federal Personnel Manual for computing the terminal annual leave payment to ascertain the last day with respect to which such payment was made.

8. Section 609.7 (a) is amended by deleting the words "pursuant to § 609.3 (a)" in the first sentence and by adding the following paragraph at the end of paragraph (a):

If at any stage in the determination of a claimant's entitlement to compensation the State agency, State administrative appeal authority, or the Secretary, determines that the Federal agency's finding do not contain sufficient information for the application of the State law, a request may be made for additional facts. Upon receipt of this request the Federal agency shall (except where it would be inconsistent with general policies followed in the case of separations for security reasons) furnish, in writing, such additional information as it may have to enable the State agency or appeal authority to apply the State law.

9. Section 609.7 (b) is amended by deleting in the first sentence the words "made pursuant to § 609.3 (a)" and by adding the following paragraph at the end of paragraph (b):

The State agency, State administrative appeal authority or the Secretary may at any stage in the determination of a claimant's entitlement to compensation request the Federal agency to reconsider and correct any of its findings. The Federal agency, immediately upon receipt of such request for reconsideration and correction, shall consider the information supplied by the State agency, State administrative appeal authority, or the Secretary and shall review its findings. The Federal agency shall promptly correct any errors or omissions that it may find, and shall, in writing, affirm or modify any or all of its findings as may be appropriate. It shall then forward its reconsidered findings to the State agency, State administrative appeal authority or the Secretary.

10. Section 609.7 (c) is amended by deleting the words "made pursuant to § 609.3 (a)".

11. Section 609.8 is amended by deleting the words "made pursuant to § 609.3 (a)".

(Sec. 1509, 68 Stat. 1135; 42 U. S. C. 1369)

*Effective date.* This amendment shall take effect upon publication in the FEDERAL REGISTER.

Signed at Washington, D. C., this 15th day of June 1956.

JAMES P. MITCHELL,
*Secretary of Labor.*

PART 610—REGULATIONS TO IMPLEMENT TITLE XV OF THE SOCIAL SECURITY ACT, AS AMENDED; RESPONSIBILITIES OF STATE EMPLOYMENT SECURITY AGENCIES

MISCELLANEOUS AMENDMENTS

Pursuant to the authority vested in me by section 1509, Title XV of the Social Security Act, as amended (68 Stat. 1130; 42 U. S. C. A. 1361, et seq.), the following regulations contained in this part are amended. The amendments are designed to clarify the form and manner in which the Federal agencies are to make their findings, how these findings can be implemented or modified and the finality to be attributed to such findings. Several other minor changes are also of a clarifying nature.

1. Section 610.1 (g) is amended to read as follows:

(g) "Official station" means the State or country (if outside the United States) designated on the Federal employee's notification of personnel action terminating his Federal service (Standard Form 50 or its equivalent) as his "headquarters", or "duty station" if it differs from his "headquarters". If the form of notification does not specify his "headquarters" or "duty station", his official station shall be the State or country of employment designated on such form.

2. Section 610.1 is amended by adding paragraph (l) as follows:

(l) "Findings" means the facts found by a Federal agency with respect to:

(1) Whether the claimant has performed Federal service for that agency during the base period specified on the Form ES–931,

(2) The claimant's Federal wages for such base period, by quarters or weeks, as requested, and

(3) The reasons for the termination of his Federal service.

3. Section 610.3 (a) (3) is amended by the addition of the following at the end of subparagraph (3):

(3) • • • Federal service and Federal wages assigned to a State in error may be reassigned by that State for use by the proper State. The reassigning State agency shall keep an appropriate record of the reassignment.

4. Section 610.3 (c) (3) is amended to read as follows:

(3) Federal service and Federal wages assigned to a State shall be used only by that State (or by another State to which they have been transferred in accordance with the interstate wage combining plans or reassigned to correct an error) in determining entitlement to compensation.

5. Section 610.3 is amended by deleting § 610.3 (c) (4) and (e).

6. Section 610.4 (a) is amended to read as follows:

§ 610.4 *Effect of Federal agency's findings.* (a) The findings of a Federal agency shall be final and conclusive: *Provided however,* That additional information submitted by the Federal agency in accordance with § 609.7 of this chapter shall be considered a part of the original findings which shall be final and conclusive as so supplemented: *And provided further,* That any findings submitted by the Federal agency after reconsideration in accordance with § 609.7 of this chapter shall be final and conclusive as affirmed or modified by the Federal agency.

7. Section 610.4 (b) is amended by deleting the words "specified in paragraph (a) of this section".

8. Section 610.5 (a) is amended by changing the parenthetical statement in the first sentence to read as follows: "(or of another State to which they have been transferred in accordance with the interstate wage combining plans or reassigned to correct an error)."

9. Section 610.7 (a) is amended to read as follows:

§ 610.7 *Adjustments and appeals—*(a) *Appeals from State agency determinations.* Except for the findings of the Federal agency, determinations made by a State agency as to a claimant's entitlement to compensation shall be subject to review in the same manner and to the same extent as other determinations made under the State unemployment compensation law.

10. Section 610.7 (b) (1) is amended by changing the second sentence to read as follows: "If at the time a request for reconsideration and correction of the Federal agency's findings or for additional information is filed, a determination of entitlement has already been made, the claimant shall file an appeal or request for redetermination from the State agency's determination in accordance with the unemployment compensation law of the State."

11. A new section designated as § 610.8 is added to read as follows:

§ 610.8 *Redetermination after corrected findings.* If the findings of the Federal agency are corrected pursuant to § 609.7 (c) of this chapter, the State agency shall to the extent the State law permits and the corrected finding affords a basis therefor, make a redetermination of the claimant's entitlement to compensation and forward notice thereof to the claimant.

(Sec. 1509, 68 Stat. 1135; 42 U. S. C. 1369)

*Effective date.* This amendment shall take effect upon publication in the FEDERAL REGISTER.

Signed at Washington, D. C., this 15th day of June 1956.

JAMES P. MITCHELL,
*Secretary of Labor.*

# TITLE 49—TRANSPORTATION

## Chapter I—Interstate Commerce Commission

[Docket No. 3666; Order 26]

PARTS 71–78—EXPLOSIVES AND OTHER DANGEROUS ARTICLES

MISCELLANEOUS AMENDMENTS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 4th day of June 1956.

The matter of revision of certain regulations governing the transportation of explosives and other dangerous articles, formulated and published by the Commission, being under consideration, and

It appearing, that Notice No. 26, dated April 18, 1956, setting forth certain proposed amendments to the said regulations, and the reasons therefor, and stating that consideration was to be given thereto, was published in the FEDERAL REGISTER on May 5, 1956 (21 F. R. 3024), pursuant to the provisions of section 4 of the Administrative Procedure Act; that pursuant to said notice interested parties were given an opportunity to be heard with respect to said proposed amendments; and that no request for hearing and no written views or arguments were submitted to the Commission in favor of or against the proposed amendments:

*It is ordered,* That the aforesaid regulations governing the transportation of explosives and other dangerous articles be, and they are hereby, amended in the manner and to the extent set forth in Notice No. 26, dated April 18, 1956.

*It is further ordered,* That this order shall become effective August 31, 1956 and shall remain in effect until further order of the Commission;

*It is further ordered,* That compliance with the herein prescribed and amended regulations is hereby authorized on and after the date of service of this order;

*And it is further ordered,* That copies of this order be served upon all parties of record herein, and that notice shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy thereof with the Director, Division of Federal Register.

(Sec. 204, 49 Stat. 546, as amended, sec. 835, 62 Stat. 739; 49 U. S. C. 304, 18 U. S. C. 835)

By the Commission, Division 3.

[SEAL] HAROLD D. MCCOY,
*Secretary.*

PART 72—COMMODITY LIST OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES CONTAINING THE SHIPPING NAME OR DESCRIPTION OF ALL ARTICLES SUBJECT TO PARTS 71–78 OF THIS CHAPTER

1. Amend § 72.5 Commodity List (20 F. R. 4413, June 23, 1955) (15 F. R. 8266, 8267, 8268, 8271, Dec. 2, 1950) (19 F. R. 8524, Dec. 14, 1954) (17 F. R. 7279, Aug. 9, 1952) (21 F. R. 2145, Apr. 4, 1956) (49 CFR 1950 Rev., 1955 Supp. 72.5) as follows:

§ 72.5 *List of explosives and other dangerous articles.* (a) • • •

| Article | Classed as— | Exemptions and packing (see sec.) | Label required if not exempt | Maximum quantity in 1 outside container by rail express |
|---|---|---|---|---|
| *Change* | | | | |
| Detonating fuzes, class A explosives | Expl. A | No exemption, 73.69 | | Not accepted. |
| Detonating fuzes, class A explosives, radioactive. | Expl. A | No exemption, 73.69 | | Do. |
| Detonating fuzes, class C explosives | Expl. C | No exemption, 73.113 | | 150 pounds. |
| Dispersant gas, n. o. s. | Nonf. G | 73.302, 73.306, 73.314 | Green | 300 pounds. |
| *Explosive compositions* | Expl. A or B | No exemption, 73.53, 73.61 to 73.93. | | 10 pounds. |
| Fuzes, detonating class A explosives | Expl. A | No exemption, 73.69 | | Not accepted. |
| Fuzes, detonating, class A explosives, radioactive. | Expl. A | No exemption, 73.69 | | Do. |
| Fuzes, detonating, class C explosives | Expl. C | No exemption, 73.113 | | 150 pounds. |
| Hydrogen bromide | Nonf. G | 73.302, 73.306 | Green | 300 pounds. |
| Jet thrust unit (*jato*), class A explosives | Expl. A | No exemption, 73.79 | | Not accepted. |
| Jet thrust unit (*jato*), class B explosives | Expl. B | No exemption, 73.92 | | Do. |
| Pressurized flammable liquid, n. o. s. | F. L. | 73.118, 73.142 | Red | 10 gallons. |
| Propellant explosives, class A explosives | Expl. A | No exemption, 73.64 (d). | | See § 73.86. |
| Propellant explosives, class B explosives | Expl. B | No exemption, 73.93 | Red # | 10 pounds. |
| *Add* | | | | |
| Gold 198 | Pois. D | 73.392, 73.393 | Poison. Radioactive materials. Red. | See § 73.391 (c). |
| Refrigerant gas, n. o. s. | Nonf. G | 73.302, 73.306, 73.314 | Green | 300 pounds. |

---

PART 73—SHIPPERS

SUBPART A—PREPARATION OF ARTICLES FOR TRANSPORTATION BY CARRIERS BY RAIL FREIGHT, RAIL EXPRESS, HIGHWAY, OR WATER

1. In § 73.22, amend the introductory text of paragraph (a) (21 F. R. 2145, Apr. 4, 1956) (49 CFR 73.22, 1950 Rev.) to read as follows:

§ 73.22 *Specification containers prescribed.* (a) Shipping containers, unless otherwise provided in this part (see § 73.9 (c)), used hereafter in shipping explosives or other dangerous articles, must have been made, assembled with all parts or fittings in their proper place, and marked in compliance with specifications prescribed in Part 78 of this chapter or with specifications of the Commission in effect at date of manufacture of container.

• • • • • •

SUBPART C—FLAMMABLE LIQUIDS; DEFINITION AND PREPARATION

2. In § 73.118, amend paragraphs (a) and (b); cancel paragraph (c) (22); add paragraph (d) (21 F. R. 363, Jan. 19, 1956) (17 F. R. 7280, Aug. 9, 1952) (15 F. R. 8298, Dec. 2, 1950) (49 CFR 1950 Rev., 1955 Supp., 73.118) to read as follow:

§ 73.118 *Exemptions for flammable liquids.* (a) Flammable liquids, except pressurized flammable liquids and those enumerated in paragraph (c) of this section, in inside metal containers not over 1 quart capacity each, packed in strong outside containers, except as otherwise provided, are exempt from specification packaging, marking, and labeling requirements, except that marking name of contents on outside container is required for shipments via carrier by water. Shipments for transportation by highway carriers are exempt also from Part 77 of this chapter, except § 77.817,

and Part 197 of this chapter. These exemptions do not apply to shipments offered for transportation by rail express.

(b) Flammable liquids, except pressurized flammable liquids and those enumerated in paragraph (c) of this section, in inside containers having a capacity not over 1 pint or 16 ounces by weight each, packed in strong outside containers, are exempt from specification packaging, marking, and labeling requirements, except that marking name of contents on outside container is required for shipments via carrier by water. Shipments for transportation by highway carriers are exempt also from Part 77 of this chapter, except § 77.817, and Part 197 of this chapter.

(c) * * *

(22) [Canceled.]

* * * * *

(d) Pressurized flammable liquids in inside containers having a capacity not exceeding ½ pint or 8 ounces by weight each, capable of withstanding a 4-foot drop onto solid concrete without shattering, packed in strong outside containers, are exempt from specification packaging, marking, and labeling requirements, except that marking name of contents on outside container is required for shipments via carrier by water. Shipments for transportation by highway carriers are exempt also from Part 77 of this chapter, except § 77.817, and Part 197 of this chapter.

3. In § 73.119, amend paragraph (b) (3) (15 F. R. 8299, Dec. 2, 1950) (49 CFR 73.119, 1950 Rev.) to read as follows:

§ 73.119 *Flammable liquids not specifically provided for.* * * *

(b) * * *

(3) Spec. 10B (§ 78.156 of this chapter), wooden barrels or kegs.

NOTE 1: Because of the present emergency and until further order of the Commission, wooden whiskey barrels, properly recoopered, which comply with all the provisions of spec. 10B (§ 78.156 of this chapter), are also authorized. Marking is required on the head of each container, by the reconditioner, by hot branding or legible stenciling, as follows: ICC–10B.

Name or symbol (letters) of reconditioner; this must be registered with the Bureau of Explosives and located just above, below, or following the mark ICC–10B.

Size of marking (minimum) ¾ inch high.

* * * * *

4. In § 73.145, amend paragraph (a) (4) (21 F. R. 671, Jan. 31, 1956) (49 CFR 1950 Rev., 73.145) to read as follows:

§ 73.145 *Methylhydrazine and unsdimethylhydrazine.* (a) * * *

(4) Spec. 17C (§ 78.115 of this chapter), metal barrels or drums (single-trip) with openings not exceeding 2.3 inches in diameter. Authorized only for unsymmetrical dimethylhydrazine.

* * * * *

SUBPART D—FLAMMABLE SOLIDS AND OXIDIZING MATERIALS; DEFINITION AND PREPARATION

5. In § 73.182, amend paragraph (b) (1), (2) and (4); add paragraph (b) (5) (19 F. R. 8526, Dec. 14, 1954) (20 F. R. 4415, June 23, 1955) (49 CFR 1950 Rev., 1955 Supp., 73.182) to read as follows:

§ 73.182 *Nitrates.* * * *

(b) * * *

(1) In bulk in tight closed freight cars. (See § 74.532 (k) of this chapter for loading requirements.)

(2) In bulk in sift proof closed or open type motor vehicles. (See § 77.838 (f) of this chapter for loading requirements.)

* * * * *

(4) In burlap bags not exceeding 200 pounds net weight, water-resistant made tight against sifting, and made of not less than 8-ounce burlap. Ammonium nitrate-carbonate mixtures, calcium nitrate, sodium nitrate, nitrate of soda and potash, or strontium nitrate when so packed are exempt from labeling requirements and § 77.823 of this chapter. For water shipments see Regulations for Explosives or Other Dangerous Articles on Board Vessels prescribed by the Commandant United States Coast Guard (46 CFR Part 146). (See §§ 74.532 and 77.838 of this chapter for loading requirements.)

(5) In multi-wall paper bags not exceeding 110 pounds net weight, of at least 4-ply construction including moisture-barrier ply, and made tight against sifting. Completed package, filled to weight with product and closed for shipment, must be capable of withstanding three 4-foot drops on face or back onto solid concrete without rupture. Ammonium nitrate-carbonate mixtures, calcium nitrate, sodium nitrate, nitrate of soda and potash, or strontium nitrate when so packed are exempt from labeling requirements and § 77.823 of this chapter. For water shipments see Regulations for Explosives or Other Dangerous Articles on Board Vessels prescribed by the Commandant United States Coast Guard (46 CFR Part 146). (See §§ 74.532 and 77.838 of this chapter for loading requirements.)

SUBPART E—ACIDS AND OTHER CORROSIVE LIQUIDS; DEFINITION AND PREPARATION

6. In § 73.249, amend the introductory text of paragraph (a); amend paragraph (a) (6) and (7) (21 F. R. 2147, Apr. 4, 1956) (18 F. R. 6778, Oct. 27, 1953) (49 CFR 1950 Rev., 1955 Supp., 73.249) to read as follows:

§ 73.249 *Alkaline corrosive liquids, n. o. s., alkaline caustic liquids, n. o. s., alkaline battery fluids, and sodium aluminate, liquid.* (a) Alkaline corrosive liquids, n. o. s., alkaline caustic liquids, n. o. s., alkaline battery fluids, and sodium aluminate, liquid, when offered for transportation by carriers by rail freight, highway, or water must be packed in specification containers of a design and constructed of materials that will not react dangerously with or be decomposed by the chemical packed therein as follows:

* * * * *

(6) Spec. MC 310 or MC 311 (§ 78.330 or § 78.331 of this chapter), tank motor vehicles.

(7) Spec. 60 (§ 78.255 of this chapter), portable tanks.

* * * * *

7. In § 73.257, amend paragraph (a) (6) (20 F. R. 4416, 4417, June 23, 1955) (49 CFR 1950 Rev., 1955 Supp., 73.257) to read as follows:

§ 73.257 *Electrolyte (acid) or corrosive battery fluid.* (a) * * *

(6) Spec. 12B (§ 78.205 of this chapter), fiberboard boxes with inside containers of polyethylene or other electrolyte acid resistant plastic having secure closures capable of withstanding conditions incident to transportation without leakage and unless containers are rigid or semi-rigid in nature they must be contained in other strong inside containers; minimum thickness of polyethylene or other plastic material shall be not less than 0.003 inch for any film sheet for multi-wall containers or not less than 0.006 inch for single wall containers; not more than 12 such inside containers shall be packed in one outside box and the marking prescribed in § 73.401 (c) shall not be required. Inside containers shall be packed to prevent movement within the box. Dry storage batteries or battery charger device may be packed in the same outside box when adequately separated from other inside containers; gross weight of completed package shall not exceed 65 pounds. Complete package, closed as for shipment, with inside polyethylene containers filled with liquid of same specific gravity as commodity to be shipped, must be capable of withstanding at least 2 drops from a height of 4 feet onto solid concrete without leakage from or rupture of inside containers.

* * * * *

8. In § 73.260, amend paragraph (e) (18 F. R. 3135, June 2, 1953) (49 CFR 1950 Rev., 1955 Supp., 73.260) to read as follows:

§ 73.260 *Electric storage batteries, wet.* * * *

(e) Shipments of electric storage batteries containing electrolyte or battery fluid, loaded or braced to prevent damage in transit and short circuits, are exempt from Parts 71–78 and 197 of this chapter: *Provided, however,* That storage batteries (either wet or dry) constitute the only commodity being transported in the railroad car or motor vehicle body.

* * * * *

9. In § 73.266, amend paragraph (c) (5) (21 F. R. 672, Jan. 31, 1956) (49 CFR 73.266, 1950 Rev.) to read as follows:

§ 73.266 *Hydrogen peroxide solution in water.* * * *

(c) * * *

(5) Spec. 1F, 1G, or 1H (§ 78.10, § 78.11, or § 78.13 of this chapter), polyethylene carboys in wooden boxes, plywood drums, or metal crates. The carboy closures must be vented so as to prevent accumulation of internal pressure.

* * * * *

SUBPART F—COMPRESSED GASES; DEFINITION AND PREPARATION

10. In § 73.302, amend paragraph (a) (5) and (7) (19 F. R. 1279, Mar. 6, 1954) (21 F. R. 673, Jan. 31, 1956) (49 CFR 1950 Rev., 1955 Supp., 73.302) to read as follows:

§ 73.302 *Exemptions for compressed gases.* (a) * * *

(5) Foodstuffs or soaps in metal cans with soluble or emulsified compressed gas, provided the pressure in the container does not exceed 115 pounds per square inch absolute at 70° F. or 150 pounds per square inch absolute at 130° F. The metal container must be capable of withstanding without bursting a pressure of two times the pressure of contents at 70° F. or one and one-half times the pressure of the contents at 130° F., whichever is greater.

* * * * *

(7) Inside nonrefillable metal containers charged with a solution containing biological products or a medical preparation which will be deteriorated by heat and compressed gas or gases, which is nonpoisonous and nonflammable, and of capacity not to exceed 31.83 cubic inches (17.6 fluid ounces). Pressure in the container not to exceed 55 pounds per square inch absolute at 70° F., and the liquid content of the product and gas must not completely fill the container at 130° F. One completed container out of each lot of 500 or less, filled for shipment, must have been heated until content reached a minimum temperature of 130° F., without evidence of leakage, distortion, or other defect.

* * * * *

11. In § 73.306, amend paragraph (d) (1) (19 F. R. 1279, Mar. 6, 1954) (49 CFR 1950 Rev., 1955 Supp., 73.306) to read as follows:

§ 73.306 *Liquefied gases, except acetylene in solution.* * * *

(d) * * *

(1) Spec. 12B (§ 78.205 of this chapter) fiberboard boxes or spec. 15A, 15B, 15C, 16A, or 19A (§§ 78.168, 78.169, 78.170, 78.185, or 78.190 of this chapter) wooden boxes, with inside metal containers not over 31.83 cubic inches (17.6 fluid ounces) capacity each. Pressure in inside containers shall not exceed 55 pounds per square inch absolute at 70° F. and the liquid content of the mixture must not completely fill the container at 130° F. Each completed container filled for shipment must have been heated until contents reached a minimum temperature of 130° F., without evidence of leakage, distortion, or other defect.

* * * * *

12. In § 73.310, amend the introductory text of paragraph (a) (21 F. R. 367, Jan. 19, 1956) (49 CFR 73.310, 1950 Rev.) to read as follows:

§ 73.310 *Fire extinguishers and component parts thereof.* (a) Fire extinguishers and component parts thereof containing compressed gas for the purpose of expelling fire extinguishing contents, which must be nonliquefied gas when in containers exceeding 30 cubic inches capacity, when shipped under the following conditions are exempt from specification packaging, marking, and labeling requirements, except that marking name of contents on outside container is required for shipments via carrier by water. Shipments for transportation by highway carriers are exempt also from Part 77 of this chapter, except § 77.817, and Part 197 of this chapter.

* * * * *

SUBPART G—POISONOUS ARTICLES; DEFINITION AND PREPARATION

13. In § 73.370, amend paragraphs (a) (5) and (c) (1); add paragraph (c) (3) (20 F. R. 4418, June 23, 1955) (18 F. R. 804, Feb. 7, 1953) (49 CFR 1950 Rev., 1955 Supp., 73.370) to read as follows:

§ 73.370 *Cyanides, or cyanide mixtures, except cyanide of calcium and mixtures thereof.* (a) * * *

(5) Spec. 37A or 37B (§ 78.131 or § 78.132 of this chapter), metal drums (single-trip containers).

* * * * *

(c) * * *

(1) As prescribed in paragraph (a) (2), (3), (4), (6), (8), (9), (10), or (11) of this section.

* * * * *

(3) Spec. 37A or 37B (§ 78.131 or § 78.132 of this chapter), metal drums (single-trip containers); welded side seams required for Spec. 37B drums and all seams and closures must be watertight and hermetically sealed.

* * * * *

14. In § 73.391, amend paragraph (c) (20 F. R. 952, Feb. 15, 1955) (49 CFR 1950 Rev., 1955 Supp., 73.391) to read as follows:

§ 73.391 *Radioactive materials Class D poison; definition.* * * *

(c) Not more than 300 curies of solid cesium 137, cobalt 60, gold 198, or iridium 192 may be packed in one outside container for shipment by rail freight, rail express, or highway, except by special arrangements and under conditions approved by the Bureau of Explosives.

15. In § 73.393, amend paragraph (f) (5) (20 F. R. 952, Feb. 15, 1955) (49 CFR 1950 Rev. 1955 Supp., 73.393) to read as follows:

§ 73.393 *Packing and shielding.* * * *

(f) * * *

(5) Spec. 55 (§ 78.250 of this chapter), metal-encased, lead or uranium metal-shielded containers. Authorized for not more than 300 curies (see § 73.391). Containers must be equipped with a seal.

* * * * *

PART 74—CARRIERS BY RAIL FREIGHT

SUBPART A—LOADING, UNLOADING, PLACARDING AND HANDLING CARS; LOADING PACKAGES INTO CARS

1. In § 74.532, amend paragraph (k) (19 F. R. 1281, Mar. 6, 1954) (49 CFR 1950 Rev., 1955 Supp., 74.532) to read as follows:

§ 74.532 *Loading other dangerous articles.* * * *

(k) Nitrates listed in § 73.182 (b) of this chapter must be loaded in clean closed cars which shall be free of loose boards, cracks, holes, or exposed decayed spots. Interior of cars must be swept clean and be free of any projections capable of injuring bags when so packaged. Doors of cars must have tight closures. Journals and boxes must be in good condition. Ammonium nitrate, ammonium nitrate (organic coating), ammonium nitrate fertilizer, containing 90 percent or more ammonium nitrate with no organic coating, and guanidine nitrate must be loaded in all wood box cars, or wooden box cars with steel roofs, or steel box cars with wooden floors and must not be loaded in all metal cars (see also § 74.541 (a) (1)).

* * * * *

SUBPART E—HANDLING BY CARRIERS BY RAIL FREIGHT

2. In § 74.584, paragraph (a) table, amend the first item in the first column, now reading, "For high explosives, initiating explosives and low explosives, class A." to read as follows: "For high explosives, initiating explosives, low explosives, and blasting caps or electric blasting caps more than 1,000 in quantity, class A" (17 F. R. 4296, May 10, 1952) (49 CFR 1950 Rev., 1955 Supp., 74.584).

3. In § 74.589, amend paragraph (g) (1) and (2), and paragraph (k) in (15 F. R. 8356, Dec. 2, 1950) redesignated as (h) (1) and (2), and paragraph (l) respectively, in (49 CFR 74.589, 1950 Rev.) to read as follows:

§ 74.589 *Handling cars.* * * *

(h) * * *

(1) Occupied passenger car; except as provided in paragraph (l) of this section.

(2) Occupied combination car; except as provided in paragraph (l) of this section.

* * * * *

(l) *Position in freight train or mixed train of cars placarded "Explosives" or "Poison Gas", or both, when accompanied by cars carrying guards or gas handling crews.* A car requiring "Explosives" or "Poison Gas" placards, or both, shall be next to and ahead of the car occupied by the guards or gas handling crews accompanying such car; except that when the car occupied by guards or gas handling crews is equipped with a lighted heater or stove it shall be the fourth car behind a car or cars requiring "Explosives" placards.

(1) [Canceled.]

PART 75—CARRIERS BY RAIL EXPRESS

SUBPART A—TRANSPORTATION OF EXPLOSIVES BY THE RAILWAY EXPRESS AGENCY, INCORPORATED, IN PASSENGER OR EXPRESS TRAIN SERVICE

1. In § 75.675, amend Exception No. 1 following paragraph (a) (16 F. R. 9380, Sept. 15, 1951) (49 CFR 1950 Rev., 1955 Supp., 75.675) to read as follows:

§ 75.675 *Explosives via Railway Express Agency, Inc.* (a) * * *

Exception No. 1: Samples of explosives for laboratory examination, fireworks, or other similar authorized explosives may continue to be transported in passenger or express train service, subject to the published regulations. (See §§ 72.5 and 73.86 (d) of this chapter.)

* * * * *

PART 77—SHIPMENTS MADE BY WAY OF COMMON, CONTRACT, OR PRIVATE CARRIERS BY PUBLIC HIGHWAY

SUBPART A—GENERAL INFORMATION AND REGULATIONS

1. In § 77.817, amend paragraph (a) (1) (18 F. R. 5273, Sept. 1, 1953) (49

CFR 1950 Rev., 1955 Supp., 77.817) to read as follows:

§ 77.817 *Shipping papers.* (a) • • •

(1) Every motor carrier offering for rail transportation any loaded motor vehicle or any loaded motor vehicle trailer, semi-trailer, or container containing any shipment of an explosive or other dangerous article shall show on the bill of lading, shipping order, shipping paper, or other billing issued in lieu thereof, in addition to the description of the vehicle or container, the proper and definite name of the commodity as shown in § 72.5 of this chapter and the color of label or kind of placards applied.

SUBPART B—LOADING AND UNLOADING

2. In § 77.835, amend paragraphs (g) and (h) (18 F. R. 5273, Sept. 1, 1953) (15 F. R. 8365, Dec. 2, 1950) (49 CFR 1950 Rev., 1955 Supp., 77.835) to read as follows:

§ 77.835 *Explosives.* • • •

(g) *Blasting caps and/or electric blasting caps in same vehicle with other explosives.* Blasting caps and/or electric blasting caps, without limitation as to quantity except as limited in paragraph (m) of this section, may be transported in the same motor vehicle with high explosives (dynamites and similar explosives) when the net weight of the high explosives (dynamites and similar explosives) does not exceed 5,000 pounds, as follows: The blasting caps and electric blasting caps must be packed in authorized I. C. C. specification outside shipping containers, or in prescribed inside I. C. C. packages in an outside box made of 1 inch lumber lined with suitable padding material not less than ½ inch thick or a box made of not less than 12 gauge sheet metal lined with plywood or other suitable material not less than ⅜ inch thick so that no metal is exposed. Hinged cover and fastening device are required on boxes. These boxes must be loaded in motor vehicle so that contents or box will be immediately accessible for removal and so that other containers in the motor vehicle will not fall on them or otherwise damage them during transit. Blasting caps or electric blasting caps when not packed in containers referred to above in this paragraph must be transported in containers as prescribed in spec. MC–201. See paragraph (m) of this section for shipment of blasting caps with liquid nitroglycerin, desensitized liquid nitroglycerin or diethylene glycol dinitrate. Explosive projectiles with detonating fuzes assembled in place must not be transported unless shipped by, for, or to the Departments of the Army, Navy, and Air Force of the United States Government, or unless of a type approved by the Bureau of Explosives.

(h) *Lading within body or covered, tailgate closed.* Except as provided in paragraphs (g), (k), and (m) of this section, dealing with the transportation of liquid nitroglycerin, desensitized liquid nitroglycerin or diethylene glycol dinitrate, other than as defined in § 73.53 (e) of this chapter, all of that portion of the lading of any motor vehicle which consists of explosives shall be contained entirely within the body of the motor vehicle or within the horizontal outline thereof, without overhang or projection of any part of the load, and if such motor vehicle has a tailboard or tailgate, it shall be closed and secured in place during such transportation. Every motor vehicle transporting explosives must either have a closed body or have the body thereof covered with a tarpaulin, and in either event care must be taken to protect the load from moisture and sparks, except that subject to other provisions of these regulations, explosives other than black powder may be transported on flat-bed vehicles if the explosive portion of the load on each vehicle is packed in fire and water resistant containers or covered with a fire and water resistant tarpaulin.

3. In § 77.838, amend paragraph (f) (15 F. R. 8366, Dec. 2, 1950) (49 CFR 77.838, 1950 Rev.) to read as follows:

§ 77.838 *Flammable solids and oxidizing materials.* • • •

(f) Nitrates listed in § 73.182 (b) of this chapter must be loaded in closed or open type motor vehicles which must be swept clean and be free of any projections capable of injuring bags when so packaged. When shipped in open type motor vehicles the lading must be suitably covered. Ammonium nitrate, ammonium nitrate (organic coating), ammonium nitrate fertilizer, containing 90 percent or more ammonium nitrate with no organic coating, and guanidine nitrate must not be loaded in all metal vehicles of the closed type. (See § 77.823 (a) (4) and (5).)

## PART 78—SHIPPING CONTAINER SPECIFICATIONS

SUBPART E—SPECIFICATIONS FOR WOODEN BARRELS, KEGS, BOXES, KITS, AND DRUMS

Amend heading of § 78.185; amend entire § 78.185–2; add paragraph (b) to § 78.185–8; amend § 78.185–9 (a); amend entire § 78.185–12 (15 F. R. 8470, 8471, Dec. 2, 1950) (49 CFR 78.185, 78.185–2, 78.185–8, 78.185–9, 78.185–12, 1950 Rev.) to read as follows:

§ 78.185 *Specification 16A; plywood or wooden boxes, wirebound.*

• • • • •

§ 78.185–2 *Lumber or plywood.* (a) Lumber shall be well seasoned and commercially dry; free from decay, objectionable knots, slanting shakes, sharp cross grain, and other defects that materially lessen the strength. Grain of wood in cleats and battens must not cross piece within its length.

(b) Plywood shall be made from veneer which has been rotary cut, sliced, or sawed. Plywood shall be good commercial box or sheathing grade and shall be moisture-resistant; free from decay, objectionable knots that interfere with nailing, splits, gaps, and other defects that materially lessen the strength.

(1) Moisture-resistant plywood shall be fabricated with either synthetic or protein type glue. Specimens for testing shall be not less than 5 in number, measuring 6" x 6", and shall withstand 10 cycles of 4 hours immersion in water at room temperature and drying for 20 hours at a temperature not over 100° F. After 10 cycles, 4 of the 5 samples are to show not more than a sum total of 2-inch delamination on the edges, with depth delamination no greater than ½ inch.

§ 78.185–8 *Cleats.* • • •

(b) Cleats for plywood boxes shall be Group 4 woods.

§ 78.185–9 *Ends.* (a) Battened when prescribed. Wired ends authorized provided wires run cross grain and terminate in loops with ends of wire driven through end board and clinched. Grain of wood and outside ply of plywood shall be perpendicular to sides except for wired ends.

§ 78.185–12 *Thickness of boards or plywood (sides, tops, bottoms, and ends.)* (a) Thickness as follows except that, for thicknesses prescribed as 3/16" or less, resawn boards must be 1/64" thicker for each resawn surface:

| Group of wood | Minimum thickness of boards (inch) | | | | | | |
|---|---|---|---|---|---|---|---|
| | 1/8 (0.125) | 1/7 (0.143) | 1/6 (0.167) | 3/16 (0.185) | 7/32 (0.219) | 1/4 (0.250) | 5/16 (0.313) |
| | Authorized gross weight, box and contents, not over (pounds) | | | | | | |
| 1 | 25 | 35 | 50 | 75 | 100 | 150 | 200 |
| 2 | 35 | 50 | 75 | 100 | 150 | 200 | 315 |
| 3 | 50 | 75 | 100 | 150 | 200 | 315 | 400 |
| 4 | 75 | 100 | 150 | 200 | 315 | 400 | |

(1) For boxes with 3 or more rows of cleats, boards of the next lower thickness prescribed in the table are acceptable.

(b)

| Group of wood | Minimum thickness of plywood (inch) [1] | | |
|---|---|---|---|
| | 1/8 (0.125) | 3/16 (0.150) | 3/16 (0.188) |
| | Authorized gross weight, box and contents, not over (pounds) | | |
| 4 | 150 | 300 | 400 |

[1] Minimum tolerance of 5% permitted for specified thicknesses.

[F. R. Doc. 56–4966; Filed, June 22, 1956; 8:49 a. m.]

# TITLE 14—CIVIL AVIATION

## Chapter I—Civil Aeronautics Board

### Subchapter B—Economic Regulations

[Reg. ER–210]

## PART 241—UNIFORM SYSTEM OF ACCOUNTS AND REPORTS FOR CERTIFICATED AIR CARRIERS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 30th day of April 1956.

A notice of proposed rule-making comprehensively revising the Board's present accounting and reporting requirements was originally published in the FEDERAL REGISTER on July 9, 1954 (19 F. R. 4200), and circulated to the industry as Economic Regulations Draft Release No. 68, dated July 6, 1954. Subsequently, a further notice of proposed rule-making containing modifications of the previously proposed regulations was published in the FEDERAL REGISTER on September 22, 1955 (20 F. R. 7111), and circulated to the industry as Economic Regulations Draft Release No. 68D, dated September 20, 1955.

Issuance of these draft releases was preceded by extensive conferences and discussions between the Board's staff and representatives of the industry. The industry submitted written comments and on November 9, 1955, oral argument was held before the Board.

The principal purpose of this revision is to increase the effectiveness of the present accounting and reporting system by remedying various deficiencies which have accumulated with the dynamic growth of the industry in recent years. Delineations between different account classifications have been made more specific and accounting instructions and definitions have been amplified. Accounting classifications have been redrawn to conform more closely with the natural divisions in, and current requirements of, air carrier operations. Accounting requirements have been differentiated to meet the varying needs of air carriers of different sizes. To this end, carriers have been classified for both accounting and reporting purposes into three major groups generally on the basis of the over-all volume of operations conducted. The line of demarcation between capitalizable items and current expenditures has been more explicitly established. Practices concerning operations performed under aircraft interchange agreements have been prescribed in a more complete and detailed form. Reporting burdens have been minimized to the maximum feasible extent, consistent with proper administration of the Act, through modifications in the prescribed reporting format and reduction of the number of items required to be reported.

In view of the dynamic characteristics of the rapidly expanding certificated air transport industry and divergent operating practices among different carriers, the Board recognizes that exceptional circumstances may occasionally render it inequitable to insist upon uniform adherence, in all cases, to the accounting and reporting rules and regulations herein promulgated. Accordingly, provision is made for exceptions from the requirements of any such rule or regulation whenever enforcement of a particular requirement would not be in the public interest. In all cases, however, the resulting departures from uniformity of enforcement will be utilized by the Board as a means of attaining uniformity of accounting principle as will be more specifically discussed hereinafter.

Various accounting requirements included in the revised uniform system have been challenged by the industry, on the ground that they constitute an allegedly illegal interference with managerial prerogative. These challenges largely rest upon the assertion that the Board does not enjoy necessary statutory power to regulate the substance of the accounting methods employed by certificated air carriers. It is believed that this contention is entirely untenable because the Board has plenary power over both the substance and form of all accounting performed by such carriers.

The industry professes to find a significant and meaningful contrast in the language employed in subsections (a) and (d), respectively, of section 407. The former subsection empowers the board "• • • to prescribe the manner and form in which such reports shall be made • • •" while the latter subsection states that the Board "• • • shall prescribe the forms of any and all accounts, records, and memoranda to be kept by air carriers • • •". Apart from the question of whether this narrow method of statutory construction is appropriate in interpreting the Civil Aeronautics Act, it must be noted that the industry has apparently ignored the equally significant language of section 902 (e). That section makes it a criminal offense for any air carrier or any person acting on its behalf to "• • • knowingly and willfully, fail or refuse • • • to keep or preserve accounts, records, and memoranda in the form and manner prescribed or approved by the authority (Board) • • •". Congress would not have made it a criminal offense for a carrier to refuse to keep its accounts in the manner prescribed or approved by the Board if it did not intend to vest in the Board such power to prescribe the manner in which the accounts are kept. It does not appear, therefore, that any significance may properly be attached to the cited difference in language of subsections (a) and (d) of section 407. Moreover, the omission of the word "manner" in subsection 407 (d) appears plainly attributable to adherence by the framers of the Civil Aeronautics Act to the exact language used in sections 20 (5), 220 (d) and 313 (e) of the Interstate Commerce Act.[1]

Finally, the industry's suggested construction of the Act also ignores part of the relevant text of section 407 (d). That section not only provides that the Board shall prescribe the forms of any and all accounts but also makes it "• • • unlawful for an air carrier to keep any accounts, records, or memoranda other than those prescribed or approved by the authority [Board] • • •". This language also appears in the Federal Communications Act of 1934 and has been judicially construed to empower that agency to "• • • supervise the accounting performed under the prescribed system of accounts, and to determine whether a given item should be entered under a particular account." (New England T&T Co. v. U. S., 53 F. Supp. 399, 405 (D. C., Mass., 1943)). Clearly, Congress would not have authorized the Board to regulate and control all specific accounting entries made by carriers subject to its jurisdiction unless it intended to have the Board exercise plenary power over the substance of accounting. Thus, the language of the act and related statutes appear to militate against the industry contention that the Board can only prescribe the pigeonholes in which accounting entries would be made but that the management of the carriers enjoy exclusive control over the content of such entries.

Nor does there appear to be any merit in the industry's claim that various substantive features of the revised system of accounts are invalid because of the regulatory control thus imposed upon managerial discretion. In Kansas City Southern Railway Co. v. U. S. et al. (231 U. S. 423, 440–441 (1913)), the court disposed of a similar contention as follows:

> As to the intent and meaning of § 20, it is first insisted that the power conferred upon the Commission to prescribe the forms of accounts, records, and memoranda to be kept by the carriers, recognizes a distinction between the form and the substance; and that while the Commission, in order to obtain full and accurate information concerning the affairs of each corporation, must have power to require any reports, schedules, and accounts necessary to show the true financial condition of each carrier; yet that the grant must by fair interpretation, and in order not to amount to an unconstitutional delegation of legislative power, stop short of the point where the regulation in its essence goes not to the form but to the substance and involves interference with the internal affairs of the corporation. We do not, however, think that any such distinction between the form and the substance is admissible with respect to the declared object of standardizing railroad accounts and obtaining therefrom full and accurate information concerning the affairs of the respective corporations. The very object of a system of accounts is to display the pertinent financial operations of the company, and throw light upon its present condition. If they are to truly do this, the form must correspond with the substance. In order that accounts may be standardized, it is necessary that the accounts of the several carriers shall be arranged under like headings or titles; and it is obviously essential that charges and credits shall be allocated under the proper headings—the same with one carrier as with another. Unless "Additions and Betterments," on the one hand, and "Operating Expenses," on the other, are to indicate the same class of entries upon the books of other carriers, there is no possibility of standardization. So far as such uniformity requirements control or tend to control the conduct of the carrier in its capacity as a public servant engaged in interstate commerce, they are within the authority constitutionally conferred by Congress upon the Commission. There is no direct interference with the internal affairs of the corporation; and if any such interference indirectly results, it is only such as is incidental to the lawful control of the

[1] 49 U. S. C. A. 20 (5), 320 (d), and 913 (e).

carrier by the Federal authority and to this the rights of stockholders and bondholders alike are necessarily subject.

In addition to the foregoing general legal and policy objections, the industry has also challenged various provisions of the revised manual on the ground that they constitute unlawful action or represent abuses of administrative discretion. The Board believes that it is appropriate to discuss individually the major items among these challenged provisions.

One of these provisions concerns the proper accounting treatment of flight equipment parts and assemblies. The operation of aircraft necessitates keeping a supply of spare parts used for repairs and replacements of mechanical components on hand at all times. Prior to the instant revision, flight equipment parts and assemblies which are not useful in the repair of two or more primary classes of property were classified in a single account. Experience has demonstrated, however, that such a classification encompasses two distinct classes of parts which should be treated differently for accounting purposes in order to reflect their varying economic characteristics.

To this end, the revised manual classifies flight equipment parts of this nature as rotables, which are repaired and repeatedly reused to provide an extended service life, and expendables, which are consumed as used and are not repairable for reuse thereafter. It should be noted that airlines have commonly followed the practice of subdividing these flight equipment parts inventories between rotables and expendables even though the present manual carries all such inventories in a single fixed asset account. Thus, the proposed classification will tend to conform the uniform accounting system to the actual practices of the industry.

Since rotables are repeatedly used they tend to have a service life approximating that of the related aircraft type. Furthermore, they are subject to depreciation factors in the same economic sense as the related property. Accordingly, this classification of flight equipment parts is accounted for in the same manner as other depreciable properties. The inventory balance is carried in an asset account and a depreciation reserve, scaled to reflect residual values realizable upon disposal of such assets, is established. When a rotable part is withdrawn from use for repair and another rotable drawn from inventory is used in its place, no accounting entries are made. However, when a rotable part can no longer be repaired and must be replaced by a newly purchased part, the normal accounting procedure for property retirements is followed. Under this procedure, accounts are reduced by the cost of the retired item and depreciation reserve is correspondingly reduced thus clearing the item from the accounts without any current impact upon the operating statement. Thus, there is no possibility of a duplicate expense charge to cover the cost of the retired items by provision of depreciation, on the one hand, and by direct charge of the same item to maintenance expense, on the other hand.

Unlike rotables, which are repairable for later reuse, expendables can be used only once. Because of this characteristic, expendables are recurrently retired and replaced throughout the life of the related aircraft type and reflect none of the aspects of fixed properties subject to depreciation. In contrast, rotables in general tend to have a useful life comparable to the related aircraft types. Consequently, failure to make advance provision for the cost of retired expendables (by way of a depreciation reserve) does not result in materially distorting the operating results of any accounting period. Accordingly, there is no need for periodic amortization of the original cost of expendables since the principal purpose of depreciation accounting is to avoid distortion as between accounting periods. It is one of the basic tenets of accounting theory that only items of fixed property having a service life of substantially more than one year should be depreciated and the majority of these expendables have a shorter actual service life.

Because expendables withdrawn from inventory for use cannot under the revised system of accounts be charged to depreciation reserves, they must be directly expensed in the accounting period in which consumed. In this manner, an airline will recoup its entire investment in those expendables which are used before the retirement of the related aircraft type. If any loss is incurred upon the expendable items remaining in the inventory when the last airplane in a fleet of a particular type is retired, it will be recognized by a direct charge to the expenses of the period when the loss is incurred. Clearly, there is no dispute concerning the proposition that losses of this character constitute a proper charge against income. The industry contends, however, that advance provision for the contingency of such losses should be made by the establishment of a reserve for obsolescence. But, sound principles of accrual accounting do not require the establishment of a reserve in all cases where a future loss may be incurred. On the contrary, reserve accruals are only required where the loss is fairly certain to occur and the amount involved is sufficiently large to distort earned income of the period when the potential loss materializes. These conditions appear to be lacking in the case of flight equipment expendable parts.

In the first place, the potentiality of any loss from obsolescence factors attaching to expendables during the early stages of the economic life of an aircraft type is largely a matter of speculation and conjecture. Unlike other utility properties which are generally scrapped upon retirement, airplanes discarded by one air carrier have commonly been purchased for further use by other air carriers. A market for such sales exists both within the United States and in foreign countries. Expendables are, of course, useful to the purchaser of the retired aircraft. To the extent that there is a market for the expendables on hand when an aircraft fleet is sold, the accounting airline should be able to recoup its investment in such items. True enough, the seller is normally unwilling to offer a warranty on such parts but that does not impair their marketability at an appropriate price. Furthermore, expendables are often in short supply toward the end of the service life of a particular aircraft type. This factor tends to enhance the price which can be realized upon their sale.

In the second place, it is equally doubtful whether any losses which may actually be incurred will be large enough to distort current operating income. Management has significant opportunities to minimize the quantity of its expendable inventory which will remain on hand, unused, when the related fleet is retired. A carrier which starts off with a fleet of twenty planes, of a given type, may have a fleet of only three planes when the last remaining plane goes out of service. It is generally impossible, or at least difficult, to arrange for an entire fleet of new planes to be delivered in a single batch. Aircraft manufacturers tend to make deliveries in periodic installments. Thus, the quantity of spare parts which must be kept on hand to maintain aircraft in satisfactory mechanical condition can be progressively reduced as the related fleet nears the final end of its collective service life. Finally, the current nature of expendables, all on hand at any given time having been purchased generally within the last twelve months, tends to result in relative equality between their cost to the seller and their market value which also serves to minimize the magnitude of any loss. Moreover, the aircraft to which the parts relate have commonly been retired at a substantial profit thus providing a basis for absorbing currently any loss realized on the inventory of expendable parts.

While there is only a slight possibility of significant distortion in the financial statement resulting from a material obsolescence loss against which no reserve has been provided, there is a substantial danger that the establishment of such a reserve will result in duplicate expense charges for the same item. It will be recalled that all expendables are charged to expenses at full cost as withdrawn from inventory for use. Thus, any overestimation of the quantity of unused expendables in a provision for obsolescence will result in an excessive expense charge. Accurate determination of this quantity well before the fact is, of course, a difficult task in view of the many imponderables involved.

In view of these considerations, the attached manual generally prohibits the establishment of any reserve for obsolescence applicable to flight equipment expendable parts. However, in order to protect against imminent loss on expendable inventories in a particular circumstance or due to generally changed conditions in the industry, provision is made for an appropriate reserve account which can only be utilized by a carrier for whom this provision of the regulation has been waived.[2] Such accounting treatment is

[2] Or, upon amendment of this rule in the case of generally changed conditions.

based upon the premise that these losses may occasionally be incurred in sufficient magnitude and with adequately demonstrable certainty to warrant the accrual of appropriate reserves under the control of the Board. In such cases, failure to permit or direct the use of a reserve would impair uniformity in the accounting principles applied by the carriers subject to this system of accounts. Furthermore, failure to utilize different accounting methods to reflect varying factual situations would undermine the fundamental objective underlying this system of accounts of accurately stating financial and operating results. It need hardly be mentioned that this desirable goal of uniformity cannot be achieved if the public interest is left unprotected against divergent management judgments. For this reason, the uniform system herein adopted preserves for the Board effective control over the determination of whether departures from uniformity of method should be permitted.

Nor does there appear to be any merit to a separate line of argument adduced by the industry to the effect that the Board should refrain from changing the provisions of the present manual, which permits carriers to make accruals to a reserve for obsolescence loss on expendables, because the new accounting treatment prescribed may result in the loss of certain tax deductions now enjoyed. Depreciation allowances for spare parts used to repair machinery or other operating equipment have generally not been permitted for income tax purposes. However, airlines have been permitted to depreciate all of the assets in their present flight equipment parts inventories account for such purposes. During the course of the oral argument presented on behalf of the industry, one of its representatives stated that the classification of expendables as current assets would jeopardize its present ability to minimize Federal income tax payments by virtue of such depreciation deductions. The Board believes, however, that its accounting regulations should be based upon sound accounting principles which will fairly reflect actual financial conditions. Moreover, it is not the purpose of the uniform system of accounts to aid the industry in its legitimate and natural effort to reduce its tax liabilities.

The industry also objects to the mandatory requirement of the new manual that accruals be made to a reserve for airframe maintenance in order to distribute fairly the cost of all periodically performed maintenance work among the accounting periods respectively benefiting therefrom. Contrary to the impression of the air carriers, the revised manual does not invade the legitimate province of managerial discretion by requiring exclusive use of any particular maintenance method. It merely imposes the requirement that all intermittently incurred direct maintenance expenses arising from periodic operations of this nature which are sufficiently material, in the aggregate, to distort current net income if charged to expenses of the period when incurred be charged to a reserve account.

The industry opposes this feature of the manual and proposes as an alternative that each individual air carrier be given the option to either: (1) Capitalize each periodic overhaul for subsequent amortization to operating expense as depreciation, (2) charge expenditures on each periodic overhaul to current income as incurred, or (3) accrue through recurrent expense charges a special "Operating Reserve" account for future overhauls against which the cost of overhauls would be charged as incurred.

The operating reserve as contemplated by the third alternative set forth above, as proposed by the industry, creates the fiction that the asset to which the reserve relates has not been expended but that an obligation not classifiable either as a liability or as net worth has been incurred. Because of the relatively large amounts involved for aircraft overhaul costs in the air transport industry the failure to offset reserve provisions for aircraft overhaul against the asset while also providing full depreciation on the asset value restorable by overhaul tends to distort both the balance sheet and the operating statement. Accordingly, the third alternative proposed by the industry is rejected as being in conflict with sound accounting principles and as being basically impractical because of its tendency to distort the financial statements. In the absence of an actual expenditure for the performance of an overhaul or the contracting of a liability for its performance a charge to expense for overhauls to be performed in the future essentially dissipates the asset to be overhauled. Hence, provisions for future overhaul costs and depreciation alike simply represent current expenditures of the assets to which they relate and the provisions for both should be offset against the related assets.

The first two alternatives advanced by the industry, however, do not contain this deficiency. A paramount objective of this system of accounts, in this area, as in similar areas, is to provide reasonable assurance of substantive uniformity between different carriers in adherence to the fundamental precept of accrual accounting that costs should be charged against the period of operations in which consumed. It is recognized that in some circumstances of a relatively stable recurrent flow of maintenance operations substantially equivalent results may be achieved in any given accounting period by either of the first two alternatives advanced by the industry. However, this system of accounts embraces carriers widely divergent in both size and techniques employed in maintaining airframes in an airworthy condition. As a consequence, uniformity of accounting results under the industry proposal would be left dependent upon widely differing judgments of individual carrier managements as to the degree to which a departure from accrual accounting principles may be warranted. Accordingly, this system of accounts rests upon the premise that uniformity of accounting results in substance can be effectively achieved only through direct control by the Board of each carrier's accounting procedures in this area. Hence there is prescribed the general rule that airframe overhaul reserves shall be established by all air carriers but that waiver of this requirement may be made upon a showing that such reserves are not required to achieve a reasonable matching of expenses with the use of airframes under maintenance practices of a particular carrier.

The industry has also challenged provisions of this system of accounts which require that residual values of airframes shall include the cost of a full overhaul in determining the remaining values subject to depreciation and that overhaul reserves shall be classified as valuation reserves, rather than "Operating Reserves," to be offset against the asset to which related. These provisions are again based upon the principle that charges may be made against income only for expenditures already made while provisions for contingent future expenditures constitute a segregation of retained earnings not appropriately chargeable against income until materialized. Consistent with this axiom, maintenance reserves created by charges against income represent nothing more than a recognition of diminution in the useful life of property because of delayed maintenance which may be restored upon the performance of such delayed maintenance. Such reserves represent in essence provisions for the relatively rapid depreciation of a portion of the original cost of the asset which is subject to restoration upon the performance of maintenance. The depreciation reserve, on the other hand, represents provisions for the long term depreciation of the remaining cost value of the asset. As at any given date the composite depreciation and maintenance reserves reflect that portion of the original prepaid expenditure which has been recovered by charges to expense at differing rates. It follows that since provision is made for the partial recovery of original cost through delayed maintenance reserve provisions, the deduction of such restorable use values from the depreciable value is required to prevent a duplication in recurrent charges to expense. Moreover, the market under normal circumstances will generally place a higher value upon an aircraft with low hours than upon an aircraft with high hours since last overhaul.

While objecting to the prescribed treatment of the overhaul reserve the industry has, nevertheless, advanced the principle of depreciating that portion of the original value of equipment restorable by overhaul and the capitalized amounts of subsequent overhauls performed over the related maintenance cycle as one acceptable alternative which should be permitted. Under this principle, the overhaul component included in the cost of the aircraft equipment would be separated from the other costs of the aircraft and amortized over the overhaul period with no other provision for depreciation. This would have the effect of depreciating that portion of the asset cost not included in the overhaul component over the service life of the equipment while amortizing the overhaul component in the original cost of the

equipment, as well as the cost of each separate overhaul subsequently performed, over the individual overhaul periods. Accordingly, under this practice, the amount of the overhaul would be excluded from the depreciable portion of the asset cost and would be separately amortized over the overhaul period. This would produce in principle, the same effect as deducting the overhaul reserve (reserve for depreciation of overhaul component) from the asset and including the amount of an overhaul in the residual as provided in the system of accounts here prescribed. The only difference is that under the prescribed procedure the amount of the overhaul is included in the residual rather than being separately stated and the overhaul reserve is offset directly against the asset rather than the separately stated overhaul component. But the effect in both cases is to amortize the overhaul over the overhaul period and deduct the reserve from the asset as a valuation reserve.

Consistent with these characteristics of maintenance reserves, adherence to generally accepted accounting principles would require that costs of an overhaul be appropriately deducted from original cost in determining values to be depreciated over the full service life as opposed to the overhaul periods of the flight equipment, and that overhaul reserves be appropriately offset as valuation reserves against the portion of the asset which is restorable through overhaul. Since the performance of an overhaul always restores an additional useful life the value restored by overhaul can depreciate only with the expiration of the overhaul period. If this value is expensed, both as depreciation and as provision for overhaul, duplication of expense would result.

Both the proposed rule as previously circulated and the accounting system herein prescribed prohibit charging to the income of any period tax expense in excess of the amount of taxes actually payable for such period. Recognition was given in the proposed system of accounts to a possible waiver of this rule in circumstances where the integrity of the financial statements would be materially impaired by a failure to accrue tax liabilities related to income resulting from differences between accelerated amortization of property taken for tax purposes and normal amortization taken for accounting purposes. The industry construed this recognition of potential waiver from the rule as being limited to income differences stemming from amortization of emergency facilities under certificates of necessity. The intent of the proposed system, however, was to recognize that adherence to generally accepted accounting principles may warrant waiver of the prescribed rule upon a factual demonstration that under the prescribed rule material distortion would result in the financial statements from differences in depreciation accounting principles adopted for regular accounting and tax purposes, without regard to any particular tax statute in which such differences may be rooted. This potential waiver recognition has, accordingly, been modified herein to clarify this intent.

In its filed comments concerning the revised accounting manual, the industry urged that each air carrier be permitted to establish, at its option, deferred tax reserves on income resulting from such differences in depreciation principles followed for tax and regular accounting purposes. The Board believes, however, that such reserves will not be necessary in all cases to reflect accurately the actual earnings of air carriers and that it is necessary to retain positive Board control over the use of such reserves to insure substantive uniformity of accounting results and to prevent overstatements of tax expenses.

Differences in normal accounting and tax computed depreciation may result from a multiplicity of revenue code provisions widely differing in impact upon recurrent net income. Under some circumstances of relatively rapid depreciation tax provisions potential liabilities will be built up over the period of time when conversion is made to such rapid depreciation methods, and above-normal depreciation charges are being taken for tax purposes. However, these potential liabilities may not mature and become payable while the quantum of a carrier's investment is either increasing or stabilized at a generally fixed level. During such period, the above-normal tax deductions on new equipment (representing either additions to or replacements of operating plant) will offset the below-normal deductions applicable to properties already depreciated on an accelerated basis. Since airlines have evidenced a firm and pronounced growth trend in their dollar investment throughout the last several years and are presently committed to a substantial equipment modernization and capacity expansion program for the future, it appears that their use of rapid depreciation provisions may well have this impact. Consequently, the Board believes that the accelerated portion of the depreciation deductions actually taken could generally result only in a lag in the recognition of such liabilities. Indeed, it would seem that this lag could well be perpetuated at a relatively stable level for a period of many years. Therefore, it would seem that the industry generally may not suffer any material income distortions after an initial conversion period when the transition to the accelerated depreciation methods for tax purposes will have its maximum impact and the total taxes payable in any given year will tend to approximate the amount of taxes which would have been payable if the normal methods of computing depreciation deductions were also used for tax purposes. In this respect, the potential liabilities involved here are directly comparable to those arising in other areas of this system of accounts which in accordance with common accounting practice are not recognized, because of their recurring character, as the basis for reserve accruals. Accordingly, the system of accounts herein prescribed prohibits the accrual of estimated potential tax liabilities stemming from income differences produced by provisions in the Revenue Code for other than normal depreciation methods. At the same time recognition is given to the possibility that such income differences may in some circumstances be of sufficient materiality to warrant a waiver of this prohibition upon a factual demonstration that a failure to provide for the taxes related thereto will undermine the integrity of the financial statements.

Various substantive revisions of the provisions of the revised manual originally circulated have been made in response to industry comments. Thus, proposed clearing accounts for all associated company transactions have been deleted; the proposed classification of all foreign exchange adjustments as nonoperating items has been modified to permit reporting of those adjustments resulting from routine daily fluctuations in exchange rates as incidental operating income; the proposed requirement for a quarterly physical inventory of accrued vacation pay liabilities has been modified to permit an annual inventory and the proposed requirement for exclusive use of the "straight-line" method of depreciation has been transferred to a pending notice of proposed rule-making dealing comprehensively with the subject of depreciation accounting.

The Board finds that the various classifications of air carriers established by this revised accounting and reporting system are just and reasonable in view of the nature of the services performed by the different air carriers, and that the regulations hereby promulgated to be applicable to and to be observed by such classes of air carriers are necessary and desirable in the public interest.

Interested persons have been afforded opportunity to participate in the formulation of this revision, and due consideration has been given to all relevant matters presented.

The Board is cognizant of the fact that the process of conversion to a new accounting system poses certain difficulties. Accordingly, the attached revised manual includes various specific provisions dealing with the mechanics of such conversion. Similar provisions are incorporated in a simultaneously issued notice of proposed rule-making which integrates various major features of the new accounting system with the presently effective manual. Industry comment will presumably be forthcoming in connection with the latter rule-making proceeding. The Board desires to advise the industry that if it undertakes to amend upon the finalization of that proceeding, any of the conversion features therein proposed, similar changes will be made with respect to the conversion features of the instant revised manual.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 241 of the Economic Regulations (comprising the uniform accounting and reporting system for the class designated as certificated air carriers) effective January 1, 1957, to read as follows:

---

## PART 241—UNIFORM SYSTEM OF ACCOUNTS AND REPORTS FOR AIR CARRIERS

Sec.

241.01 Authority under which accounting and reporting rules and regulations are prescribed and administered.

241.02 Administration of accounting and reporting regulations.

241.03 Definitions for purposes of this system of accounts and reports.

241.04 Air carrier groupings and standard name abbreviations.

241.05 Standard air carrier operation abbreviations.

241.06 Standard aircraft type abbreviations.

**Subpart A—General Accounting Provisions**

241.1 Introduction to system of accounts and reports.

241.1–1 Applicability of system of accounts and reports.

241.1–2 General description of system of accounts and reports.

241.1–3 System of accounts coding.

241.1–4 Records.

241.1–5 Accounting entities.

241.1–6 Interpretation of accounts.

241.1–7 Address for reports and correspondence.

241.1–8 Conversion to this system of accounts and reports.

241.2 General accounting policies.

241.2–1 Bases of allocation between entities.

241.2–2 Distribution of revenues and expenses within entities.

241.2–3 Transactions in foreign currencies.

241.2–4 Accounting period.

241.2–5 Liability accruals.

241.2–6 Federal income tax accruals.

241.2–7 Delayed items.

241.2–8 Unaudited items.

241.2–9 Improvements, additions and betterments.

241.2–10 Capitalization of interest on construction.

241.2–11 Accounting for transactions in gross amounts.

241.2–12 Valuation of assets.

241.2–13 Establishment of reserves.

241.2–14 Depreciation and amortization.

241.2–15 Contingent assets and contingent liabilities.

241.2–16 Notes to financial statements.

**Subpart B—Balance Sheet Classifications**

241.3 Chart of balance sheet accounts.

241.4 General.

241.5 Balance sheet account groupings.

241.5–1 Current assets.

241.5–2 Investments and special funds.

241.5–3 Property and equipment.

241.5–4 Property and equipment depreciation and maintenance reserves.

241.5–5 Deferred charges.

241.5–6 Current liabilities.

241.5–7 Noncurrent liabilities.

241.5–8 Deferred credits.

241.5–9 Stockholder equity.

241.6 Objective classification of balance sheet elements.

**Subpart C—Profit and Loss Classifications**

241.7 Chart of profit and loss accounts.

241.8 General.

241.9 Functional classification; operating revenues.

241.10 Functional classification; operating expenses of Group I air carriers.

241.11 Functional classification; operating expenses of Group II and Group III air carriers.

241.12 Objective classification; operating revenues.

241.13 Objective classification; operating expenses.

241.14 Objective classification; nonoperating income and expense.

241.15 Objective classification; income taxes for current period.

241.16 Objective classification; special items.

**Subpart D—General Reporting Provisions**

241.21 Introduction to system of reports.

241.22 General reporting instructions.

241.23 Balance sheet elements.

241.24 Profit and loss elements.

241.25 Traffic and capacity elements.

241.26 General corporate elements.

AUTHORITY: §§ 241.01 to 241.26 issued under sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 407, 416, 52 Stat. 1000, 1004, as amended; 49 U. S. C. 487, 496.

§ 241.01 *Authority under which accounting and reporting rules and regulations are prescribed and administered.* This Uniform System of Accounts and Reports for Air Carriers is issued, prescribed and administered under the following provisions of the Civil Aeronautics Act of 1938 (52 Stat. 1000, 49 U. S. C. 487):

GENERAL POWERS

SEC. 205 (a). The Authority[1] is empowered to perform such acts, to conduct such investigations, to issue and amend such orders, and to make and amend such general or special rules, regulations, and procedure, pursuant to and consistent with the provisions of this Act, as it shall deem necessary to carry out such provisions and to exercise and perform its powers and duties under this Act.

FILING OF REPORTS

SEC. 407 (a). The Authority is empowered to require annual, monthly, periodical, and special reports from any air carrier; to prescribe the manner and form in which such reports shall be made; and to require from any air carrier specific answers to all questions upon which the Authority may deem information to be necessary. Such reports shall be under oath whenever the Authority so requires. The Authority may also require any air carrier to file with it a true copy of each or any contract, agreement, understanding, or arrangement, between such air carrier and any other carrier or person, in relation to any traffic affected by the provisions of this Act.

DISCLOSURE OF STOCK OWNERSHIP

SEC. 407 (b). Each air carrier shall submit annually, and at such other times as the Authority shall require, a list showing the names of each of its stockholders or members holding more than 5 per centum of the entire capital stock or capital, as the case may be, of such air carrier, together with the name of any person for whose account, if other than the holder, such stock is held; and a report setting forth a description of the shares of stock, or others interest, held by such air carrier, or for its account in persons other than itself.

FORM OF ACCOUNTS

SEC. 407 (d). The Authority shall prescribe the forms of any and all accounts, records, and memoranda to be kept by air carriers, including the accounts, records, and memoranda of the movement of traffic, as well as of the receipts and expenditures of money, and the length of time such accounts, records, and memoranda shall be preserved; and it shall be unlawful for air carriers to keep any accounts, records, or memoranda other than those prescribed or approved by the Authority: *Provided*, That any air carrier may keep additional accounts, records, or memoranda if they do not impair the integrity of the accounts, records, or memoranda prescribed or approved by the Authority and do not constitute an undue financial burden on such air carrier.

INSPECTION OF ACCOUNTS AND PROPERTY

SEC. 407 (e). The Authority shall at all times have access to all lands, buildings, and equipment of any carrier and to all accounts, records, and memoranda, including all documents, papers, and correspondence, now or hereafter existing, and kept or required to be kept by air carriers; and it may employ special agents or auditors, who shall have authority under the orders of the Authority to inspect and examine any and all such lands, buildings, equipment, accounts, records, and memoranda. The provisions of this section shall apply, to the extent found by the Authority to be reasonably necessary for the administration of this Act, to persons having control over any air carrier, or affiliated with any air carrier within the meaning of section 5 (8) of the Interstate Commerce Act, as amended.

CLASSIFICATION

SEC. 416 (a). The Authority may from time to time establish such just and reasonable classifications or groups of air carriers for the purposes of this title as the nature of the services performed by such air carriers shall require; and such just and reasonable rules, and regulations, pursuant to and consistent with the provisions of this title, to be observed by each such class or group, as the Authority finds necessary in the public interest.

FAILURE TO FILE REPORTS; FALSIFICATION OF RECORDS

SEC. 902 (e). Any air carrier, or any officer, agent, employee, or representative thereof, who shall, knowingly and willfully, fail or refuse to make a report to the Authority as required by this Act, or to keep or preserve accounts, records, and memoranda in the form and manner prescribed or approved by the Authority, or shall, knowingly and willfully, falsify, mutilate, or alter any such report, account, record, or memorandum, or shall knowingly and willfully file any false report, account, record, or memorandum, shall be deemed guilty of a misdemeanor and, upon conviction thereof, be subject for each offense to a fine of not less than $100 and not more than $5,000.

REFUSAL TO TESTIFY

SEC. 902 (g). Any person who shall neglect or refuse to attend and testify, or to answer any lawful inquiry, or to produce books, papers, or documents, if in his power to do so, in obedience to the subpena or lawful requirement of the Authority or the Air Safety Board, shall be guilty of a misdemeanor and, upon conviction thereof, shall be subject to a fine of not less than $100 nor more than $5,000, or imprisonment for not more than one year, or both.

FILING OF COMPLAINTS AUTHORIZED

SEC. 1002 (a). Any person may file with the Authority a complaint in writing with respect to anything done or omitted to be done by any person in contravention of any provision of this Act, or of any requirement established pursuant thereto. If the person complained against shall not satisfy the complaint and there shall appear to be any reasonable ground for investigating the complaint, it shall be the duty of the Authority to investigate the matters complained of. Whenever the Authority is of the opinion that any complaint does not state facts which warrant an investigation or action on its part, it may dismiss such complaint without hearing.

[1] As used herein, the term "Authority" is the designation for the Civil Aeronautics Board, the latter being its present name as provided in the President's Reorganization Plan No. IV under the Reorganization Act of 1939.

INVESTIGATIONS ON INITIATIVE OF AUTHORITY

SEC. 1002 (b). The Authority is empowered at any time to institute an investigation, on its own initiative, in any case and as to any matter or thing concerning which complaint is authorized to be made to or before the Authority by any provision of this Act, or concerning which any question may arise under any of the provisions of this Act, or relating to the enforcement of any of the provisions of this Act. The Authority shall have the same power to proceed with any investigation instituted on its own motion as though it had been appealed to by complaint.

ENTRY OF ORDERS FOR COMPLIANCE WITH ACT

SEC. 1002 (c). If the Authority finds, after notice and hearing, in any investigation instituted upon complaint or upon its own initiative, that any person has failed to comply with any provision of this Act or any requirement established pursuant thereto, the Authority shall issue an appropriate order to compel such person to comply therewith.

§ 241.02 *Administration of accounting and reporting regulations.* Authority to waive, modify, and interpret this system of accounts and reports, and to authorize the substitution of photographic reproductions for specified categories of records, has been delegated by the Civil Aeronautics Board to the Chief, Office of Carrier Accounts and Statistics as set forth by sec. 5 of Public Notice PN 8 (effective October 27, 1954):

(a) The Chief, Office of Carrier Accounts and Statistics is authorized to waive, modify or interpret the accounting and reporting requirements for Parts 241, 242, 243, and 244 of the Economic Regulations and establish detailed uniform practices in connection with the submission of the reports required therein; provided, that upon application by any air carrier affected by such action, the Chief shall submit any waiver, modification, interpretation or established practice to the Board for review.

(b) The Chief, Office of Carrier Accounts and Statistics is authorized to:

1. Authorize air carriers to substitute photographic reproductions for specified categories of records; and

2. Approve or disapprove an "application for substitution" filed by an air carrier pursuant to Section 249.1 (d) of the Economic Regulations.

(c) The Chief, Office of Carrier Accounts and Statistics is authorized to grant or deny, upon good cause shown, individual requests for extension of time for filing reports or for waiver of the form or content of such reports to conform to the particular operation of the individual requesting such waiver.

§ 241.03 *Definitions for purposes of this system of accounts and reports.*

*Account, clearing.* An account used as a medium for the temporary accumulation of costs that are redistributed to appropriate applicable accounts.

*Acquisition, date of.* The date on which the title to owned property or equipment (or the right to use or control the reassignment of leased property or equipment) passes to the air carrier.

*Addition, property.* Additional equipment, land, structures, and other tangible property; extensions of fuel, water, and oil distribution equipment; additions to buildings and other structures; and additional safety devices applied to equipment not previously thus equipped. (See also *Modification.*)

*Air carrier.* Any citizen of the United States who undertakes, whether directly or indirectly or by a lease or any other arrangement, to engage in air transportation.

*Air carrier, surviving.* An entity (air carrier) which, as the result of a business combination, has acquired the net assets, and carries on the operations of, one or more predecessor air carriers, and which may be newly organized at the time of the combination or may be one of the predecessor air carriers.

*Aircraft.* Any contrivance now known or hereafter invented, used or designed for navigation of or flight in the air.

*Aircraft days assigned to service-carrier's equipment.* The number of days that aircraft owned or acquired through rental or lease (but not interchange) are in the possession of the reporting air carrier and are available for service on the reporting carrier's routes plus the number of days that the above aircraft are in service on routes of others under interchange agreements. Days that aircraft are out of service for periodic maintenance or major overhaul are included but days that newly acquired aircraft are on hand prior to availability for productive use and days that aircraft are rented or leased to others (for other than interchange) are excluded.

*Aircraft days assigned to service-carrier's routes.* Same as aircraft days assigned to service-carrier's equipment but excluding the number of days owned or rented equipment are in the possession of others under interchange agreements and including the number of days aircraft of others are in the possession of the air carrier under interchange agreements.

*Aircraft, leased (rented).* Aircraft obtained from (or furnished to) others under lease or rental arrangements. Leased and rented aircraft do not include those used under interchange agreements designed to provide one-plane service over the routes of the air carriers involved.

*Aircraft type.* A distinctive model as designated by the manufacturer.

*Airport.* A landing area regularly used by aircraft for receiving or discharging passengers or cargo.

*Airport, alternate.* An approved airport to which a flight may proceed if a landing at the airport to which the flight was dispatched becomes inadvisable.

*Airport-to-airport distance.* The great-circle distance, measured in statute miles, between airports as listed in the Civil Aeronautics Board's Official Airline Route and Mileage Manual.

*Air transportation.* The carriage by aircraft of persons, property or mail.

*Airworthiness (or airworthy).* When applied to a particular aircraft or component part, it denotes the ability of such aircraft or component part to perform its function satisfactorily through a range of operations determined by the Civil Aeronautics Administration.

*Allocate.* To assign an item or group of items of investment, revenue, or cost to an object, activity, process, or operation, in accordance with cost responsibilities, benefits received, or other measure of apportionment.

*Allocation, bases of.* Bases of distribution whereby revenues, expenses, and/or costs are equitably apportioned among revenue, expense, property and equipment, and other accounts.

*Amortization.* The gradual extinguishment of an amount in an account by distributing such amount over a fixed period, over the life of the asset or liability to which it applies or over the period during which it is anticipated the benefit will be realized.

*Asset, contingent.* An asset the existence, value, or ownership of which depend upon the occurrence or nonoccurrence of a specific event or upon the performance or nonperformance of a specified act.

*Associated company.* A company in which the accounting air carrier holds 5 percent or more of the outstanding proprietary interest; or a company which holds 5 percent or more of the outstanding proprietary interest of the accounting air carrier; or a company that, directly or through one or more intermediaries, controls, or is controlled by, or is under common control with the accounting air carrier. Companies owned or controlled jointly with other air carriers shall be regarded as associated companies for purposes of this system of accounts. (See also *Control.*)

*Betterment.* Any improvement to property or equipment through the substitution of superior parts for inferior parts retired, the object of which is to make such property more useful or of greater capacity than at the time of acquisition or installation. (See also *Modification.*)

*Board.* The Civil Aeronautics Board.

*Capacity, seat.* The number of passenger seats installed in an airframe, including seats in lounges (except when any sale of such seats is prohibited by safety regulations). This is the maximum number of seats if the configuration provides for more than one seating arrangement.

*Cargo.* Freight plus express plus excess baggage. Excludes passengers and mail (priority and nonpriority).

*Certificated point.* A city, place or population center authorized to receive scheduled air service under a Certificate of Public Convenience and Necessity or under an exemption issued to an air carrier.

*Certificate of Public Convenience and Necessity.* A certificate issued to an air carrier under section 401, of the act, by the Civil Aeronautics Board authorizing the carrier to engage in air transportation.

*Company, predecessor.* An air carrier whose net assets and operations have been taken over by one or more other air carriers.

*Compensation (of personnel).* Remuneration to air carrier employees for personal services. Includes salaries, wages, overtime pay, cost-of-living differentials, bonuses, etc., as distinguished from per diem allowances or reimbursement for expenses incurred by personnel for the benefit of the air carrier.

*Control (including the terms Controlling, Controlled by, and Under common control).* The possession, directly or indirectly, of the power positively to direct, or cause the direction of or negate the direction of, the management and policies of a company, whether such power is through one or more intermediary companies or alone or in conjunction with or pursuant to an agreement, and whether such power is established through a majority or minority ownership or voting of securities, common directors, officers, or stockholders, voting trusts, holding trusts, associated companies, contract, or any other direct or indirect means.

*Cost.* The amount of cash (or its equivalent) actually paid for property, materials and supplies, and services, including that amount paid to put the property or materials and supplies in readiness for use. It includes additions for such items as transportation charges, installation charges, and customs duties, less any cash or other discounts.

*Cost, book.* The amount at which an asset is recorded in an account without the deduction of amounts in related reserves or other accounts.

*Cost, depreciated.* The cost of property and equipment less the related reserves for depreciation and maintenance or other valuation reserves.

*Cost, removal.* The cost of demolishing, dismantling, tearing down, or otherwise removing property and equipment, including the cost of related transportation and handling.

*Debt, expense on.* Expenses incurred by or for the air carrier in connection with the issuance and sale of evidences of debt (exclusive of the sale of reacquired securities), such as fees for drafting mortgages and trust deeds; fees and taxes for issuing or recording evidences of debt; cost of engraving and printing bonds, certificates of indebtedness, and other commercial paper; specific costs of obtaining governmental authority for issuance and filing notices thereunder; fees for legal services; fees and commissions paid underwriters, brokers, and salesmen for marketing such evidences of debt; fees and expenses of listing on exchanges; and other like costs.

*Departures completed, percent scheduled.* The percent of scheduled departures that were performed.

*Departures completed, scheduled.* The number of take-offs performed at each airport pursuant to published schedules, exclusive of extra sections to scheduled departures.

*Departure performed.* A take-off made at an airport.

*Departure, scheduled.* A take-off scheduled at an airport, as set forth in published schedules.

*Depreciation (of depreciable property and equipment).* The loss in service value, not restored by current maintenance, incurred in the course of service from causes known to be in current operation, against which the carrier is not protected by insurance, and the effect of which can be forecast with reasonable accuracy. The causes of depreciation include wear and tear, decay, action of the elements, inadequacy, obsolescence, changes in the art, changes in demand, and requirements of public authorities.

*Discount (of securities issued or assumed by the air carrier).* The excess of (1) the par or stated value of securities over (2) the then current money value of the consideration received from their sale less the amount included for dividends or for interest accrued.

*Equipment.* Tangible property other than land, structures, and improvements.

*Equivalent unit.* A new unit substituted for an existing unit that is worn out, is damaged beyond repair, or has become inadequate in service, the substituted unit having substantially no greater capacity than the unit for which substituted.

*Excess baggage.* Passenger baggage in excess of the fixed free weight.

*Expense, capital stock.* Expenses incurred by or for the air carrier in connection with the initial issuance and sale of capital stock (exclusive of the sale of reacquired capital stock), such as fees and commissions paid to promoters, underwriters, brokers, and salesmen; fees for legal services; cost of soliciting subscriptions for capital stock, including fees, commissions, and advertising; specific costs of obtaining governmental authority for issuance and filing notices thereunder; fees and taxes for issuance of capital stock and listing on exchanges; and the cost of preparing, engraving, printing, issuing, and distributing prospectuses and stock certificates.

*Express.* Property transported by air under published air express tariffs filed with the Civil Aeronautics Board.

*Flight, developmental.* A flight for (a) the development of a new route either prior or subsequent to certification by the Civil Aeronautics Board; (b) the extension of an existing route; and (c) the integration of a new type of aircraft or service.

*Flight, extra section.* A flight, conducted as an integral part of scheduled service, that has not been provided for in published schedules and is required for transportation of traffic that can not be accommodated on a regularly scheduled flight. Flights made in ferrying aircraft to meet schedules, or for similar operational reasons, are not extra sections, and are classified as nonrevenue flights even if an occasional shipment, as a matter of special accommodation, is on board.

*Flight, ferry.* A flight for the purpose of returning an aircraft to base, equipment equalization, or moving an aircraft to and from a maintenance base.

*Flight, personnel training.* A flight for the purpose of obtaining flying time for flight personnel or a flight in connection with a personnel training program.

*Freight.* Property transported by air under published air freight tariffs filed with the Civil Aeronautics Board.

*Group basis (in depreciation accounting).* A plan under which (1) depreciation is based upon the application of a single depreciation rate to the total book cost of all property included in a given depreciable property and equipment account or class, despite differences in service life of individual items of property and equipment, (2) the full original cost, less any salvage realized, of an item of depreciable property or equipment retired is charged to the reserve for depreciation regardless of the age of the item, and (3) no gain or loss is recognized on the retirement of individual items of property or equipment.

*Hop, inter-airport.* A flight between two airports.

*Horsepower, maximum continuous.* The brake horsepower developed in standard atmosphere at a specified altitude under the maximum conditions of crankshaft rotational speed and engine manifold pressure approved for use during periods of unrestricted duration. For purposes of this system of accounts and reports, the maximum continuous horsepower for each aircraft type or model shall be the horsepower established under conditions of sea level altitude by the Civil Aeronautics Administration in aircraft specifications pertaining to each aircraft type or model.

*Hours, aircraft.* The airborne hours of aircraft computed from the moment an aircraft leaves the ground until it touches the ground at the end of a flight.

*Hours, block-to-block (ramp-to-ramp).* The aircraft hours computed from the moment the aircraft first moves under its own power for purposes of flight, until it comes to rest at the next point of landing.

*Hours flown, revenue aircraft.* The aircraft hours of flights performed in revenue service.

*Hours in capitalized projects, aircraft.* Aircraft hours applicable to ferrying newly acquired aircraft from the factory, to capitalized extension and development preoperating projects and to other costs which have been capitalized.

*Hours per aircraft per day—carrier's equipment, revenue.* Average hours of productive use per day in revenue service of reporting carrier's equipment determined by dividing (1) aircraft days assigned to service—carrier's equipment into (2) revenue aircraft hours minus revenue hours on other carrier's interchange equipment plus total hours by others on the carrier's interchange equipment.

*Hours per aircraft per day—carrier's routes, revenue.* Average hours of productive use per day in revenue service on reporting carrier's routes determined by dividing (1) aircraft days assigned to service-carrier's routes into (2) revenue aircraft hours.

*Improvement.* An addition or alteration to land, a building, or a unit of equipment that results in a better piece of property, in the sense of greater durability, or in increased productivity or efficiency. (See also *Modification.*)

*Insurance, self.* The assumption by an air carrier of a risk of loss or liability arising from an accident or other contingent event.

*Interchange agreement.* An agreement under which aircraft of one air carrier are utilized to provide one-plane service over its own routes and the routes of other air carriers.

*Inventory, perpetual.* A book inventory kept in continuous agreement with stock on hand by means of a detailed record.

*Item, delayed.* An item relating to transactions that occurred during a prior

accounting period and that requires further accounting treatment for a true statement of financial condition or operating results. It includes adjustments of errors in the operating revenue, operating expense, and other income accounts for prior periods.

*Liability, contingent.* A possible source of obligation of an air carrier dependent upon the fulfillment of conditions regarded as uncertain.

*Load, available.* Represents the maximum salable load. It is the allowable gross weight less the empty weight, less all justifiable aircraft equipment, and less the operating load (consisting of minimum fuel load, oil, flight crew, steward's supplies, etc.). For passenger aircraft, the available load must not exceed the weight of the maximum number of passengers who can be accommodated in the seats installed in the aircraft plus the weight of the traffic that can be accommodated in the cargo space.

*Load, average revenue.* The average total revenue tons carried in revenue services, determined by dividing total revenue ton-miles by aircraft miles flown in revenue services.

*Load, average revenue passenger.* Average number of revenue passengers carried in passenger services, determined by dividing revenue passenger-miles by aircraft miles flown in revenue passenger services.

*Load factor, over-all revenue.* The percent that total revenue ton-miles (passenger plus nonpassenger) are of available ton-miles in revenue services.

*Load factor, revenue passenger.* The percent that revenue passenger-miles are of available seat-miles in revenue passenger services.

*Load, minimum fuel.* The minimum amount of fuel with which an aircraft may be dispatched in accordance with Civil Air Regulations.

*Load, salable.* (See *Load, available.*)

*Mail, nonpriority.* Mail moving at service transportation rates lower than those established for mail bearing postage established specifically for air mail service.

*Mail, priority.* Mail bearing postage at rates established specifically for air mail service or mail moving at service transportation rates equivalent to those established for air mail service.

*Mile.* A statute mile (5,280 feet).

*Miles completed, percent scheduled aircraft.* The percent of scheduled aircraft miles which were performed.

*Miles completed, scheduled aircraft.* The aircraft miles performed on scheduled flights computed between only those scheduled points actually served.

*Miles flown, aircraft.* The miles (computed in airport-to-airport distances) for each inter-airport hop actually completed, whether or not performed in accordance with the scheduled pattern. For this purpose, operation to a flag stop is a hop completed even though a landing is not actually made. In cases where the inter-airport distances are inapplicable, aircraft miles flown are determined by multiplying the normal cruising speed for the aircraft type by the airborne hours.

*Miles flown, nonrevenue aircraft.* The aircraft miles flown on nonrevenue flights, such as ferry, personnel training, extension and development, and abortive revenue flights.

*Miles, revenue aircraft.* The aircraft miles flown in revenue service.

*Miles, scheduled aircraft.* The sum of the airport-to-airport distances of all flights scheduled to be performed over the air carrier's certificated routes pursuant to published flight schedules. Flights listed in the published schedules for operation only as extra sections, when traffic warrants, are excluded.

*Modification.* An alteration in a structure or unit of equipment that changes its design and is made to correct an error, increase production, improve efficiency of operation, or for some other reason.

*Obsolescence.* The process of becoming out of date due to progress of the arts and sciences, changed economic conditions, legislation, etc., which ultimately results in the retirement or other disposition of property.

*Off-line.* Installations maintained or facilities used for other than scheduled certificated air services.

*On-line.* Installations maintained or facilities used in conducting scheduled certificated air services.

*Operations, domestic.* Air transportation service within the Continental limits of the United States or within territories or possessions of the United States. For purposes of this Manual, foreign and overseas flights, operated as an integral part of operations within the Continental United States or Alaska, to or from terminal points in Canada which are not an integral part of other foreign and overseas operations are considered domestic operations.

*Operations, foreign and overseas.* Air transportation service between: (1) Points within the Continental limits of the United States and its territories or possessions (including the Canal Zone); (2) points within the Continental limits of the United States and foreign countries (excluding Canada); (3) points within one territory or possession of the United States and another; and (4) points within territories or possessions of the United States and foreign countries.

*Operations, mail.* Operations conducted for the air transportation of mail.

*Operations, nonmail.* Operations other than those conducted for the air transportation of mail.

*Operations, system.* The over-all operations of an air carrier including all of the operating entities of an air carrier having multiple operations.

*Passenger-mile.* One passenger transported one mile. Passenger-miles are computed by multiplying the aircraft miles flown on each inter-airport hop by the number of passengers carried on that hop.

*Passenger-mile, nonrevenue.* One nonrevenue passenger transported one mile.

*Passenger-mile, revenue.* One revenue passenger transported one mile.

*Passenger originations, number of on-line.* The number of passengers boarding aircraft at the points of initial enplanement on the accounting carrier's operation with the return portion of a round trip counted separately as an initial origination. In addition, a passenger traveling on a carrier having two or more operating entities, for which separate reports are required by the Civil Aeronautics Board, is counted separately on each one.

*Passenger, nonrevenue.* Person receiving air transportation from the air carrier for which remuneration is not received by the air carrier. Air carrier employees or others receiving air transportation against whom token service charges are levied are considered nonrevenue passengers. Infants for whom a token fare is charged are not counted as passengers.

*Passenger, revenue.* Person receiving air transportation from the air carrier for which remuneration is received by the air carrier. Air carrier employees or others receiving air transportation against whom token service charges are levied are considered nonrevenue passengers. Infants for whom a token fare is charged are not counted as passengers.

*Premium (as applied to securities issued or assumed by the air carrier).* The excess of (1) the then current money value of the consideration received from their sale, less the amount included therein for dividends or interest accrued, over (2) their par or stated value.

*Property (as applied to traffic).* (See *Cargo.*)

*Replacement.* Substitution of new for existing facilities that are worn out, damaged beyond repair, or have become inadequate in service.

*Residual value.* The predetermined portion of the cost of a unit of property or equipment excluded from depreciation. It shall represent a fair and reasonable estimate of recoverable value as of the end of the service life over which the property is depreciated. It shall reflect values which are dissipated by use but are normally restored to individual units of property through recurrent repairs and periodic maintenance operations, and shall include the estimated cost of periodic maintenance operations for which reserves are provided, which, if not reflected in such residual values, would produce duplicate charges to expense.

*Retirement.* The permanent withdrawal of assets from operations through sale, abandonment, demolition, or other disposal.

*Retirement, date of.* The date on which property or equipment is permanently withdrawn from operations.

*Route, certificated.* The route over which an air carrier is authorized to provide air transportation pursuant to Certificates of Public Convenience and Necessity issued by the Civil Aeronautics Board.

*Salvage value.* The amount received for property retired, less the expenses incurred in connection with the sale or in the preparation of the property for sale; or, if retained, the amount at which the material recovered is charged to materials and supplies or other appropriate account.

*Schedule, published.* An official schedule of an air carrier on file with the Civil Aeronautics Board.

*Seats available.* Installed seats in an aircraft, including seats in lounges but excluding any that are blocked off because of operating limitations or priority mail load. This item represents the maximum number of salable seats.

*Seats, average available.* The average number of seats available for passengers, determined by dividing available seat-miles by revenue aircraft miles flown in passenger service.

*Seat-miles, available.* The aircraft miles flown on each inter-airport hop multiplied by the number of seats available on that hop.

*Service, charter.* Nonscheduled transport service performed by an air carrier under an agreement with others for the exclusive use of an aircraft.

*Service, coach (tourist).* Transport service specifically established for the carriage of passengers at special reduced passenger fares that are predicated on both the operation of specifically designated aircraft space and a reduction in the quality of service regularly and ordinarily provided.

*Service, combination passenger.* Transport service for the carriage of both first class and coach (tourist) passengers on the same aircraft.

*Service, irregular (excluding charter).* Nonscheduled transport service other than charter service.

*Service, first class.* Transport service established for the carriage of passengers moving at either standard fares or premium fares, or at reduced fares not predicated upon the operation of specifically allocated aircraft space, and for whom standard or premium quality services are provided.

*Service life.* The period between the date of installation of property or equipment and its date of retirement.

*Service, mixed.* Transport service established for the joint transportation of passengers, cargo, and/or mail.

*Service, nonpassenger.* Transport service established for the carriage of traffic other than passengers.

*Service, nonscheduled.* Includes transport service between points not covered by Certificates of Public Convenience and Necessity issued by the Civil Aeronautics Board to the air carrier; services pursuant to the charter or hiring of aircraft; other revenue services not constituting an integral part of the services performed pursuant to published schedules; and related nonrevenue flights.

*Service, scheduled.* Transport service operated over an air carrier's certificated routes pursuant to published flight schedules, including extra sections and related nonrevenue flights.

*Service, transport.* The operation of facilities for the carriage of traffic by air.

*Service, tourist.* (See *Service, coach.*)

*Services, all.* The total of scheduled and nonscheduled transport services.

*Stop, flag.* A point on an air carrier's certificated route that is scheduled to be served only when traffic is to be picked up or discharged.

*Stop, fuel.* A point on an air carrier's certificated route scheduled to refuel the aircraft but not to enplane or deplane traffic.

*Tariff, published.* A publication containing rates applicable to the transportation of persons or cargo and rules relating to or affecting such rates or transportation, filed with the Civil Aeronautics Board.

*Ton.* A short ton (2,000 pounds).

*Ton-mile.* One ton transported one mile. Ton-miles are computed by multiplying the aircraft miles flown on each inter-airport hop by the number of tons carried on that hop.

*Ton-mile, nonrevenue.* One ton of nonrevenue traffic transported one mile.

*Ton-mile, passenger.* One ton of passenger weight (including free baggage) transported one mile. (See also *Weight, passenger.*)

*Ton-mile, revenue.* One ton of revenue traffic transported one mile.

*Ton-miles, available.* The aircraft miles flown on each inter-airport hop multiplied by the available load for that hop.

*Traffic, enplaned.* A count of the number of passengers boarding and tons of cargo and mail loaded on an aircraft. For this purpose, passengers, cargo, and mail on aircraft entering a carrier's system on interchange flights are considered as enplaning at the interchange point, and passengers, cargo, and mail moving from one operation to another operation of the same carrier, for which separate reports are required by the Civil Aeronautics Board, are considered as enplaning at the junction point.

*Traffic, deplaned.* A count of the number of passengers getting off and tons of cargo and mail unloaded from an aircraft. For this purpose, passengers, cargo, and mail on aircraft leaving a carrier's system on interchange flights are considered as deplaning at the interchange point, and passengers, cargo, and mail moving from one operation to another operation of the same carrier, for which separate reports are required by the Civil Aeronautics Board, are considered as deplaning at the junction point.

*Traffic, nonrevenue.* Passengers and cargo transported by air for which remuneration is not received by the air carrier. Passengers (including air carrier employees) and cargo carried for token service charges are considered nonrevenue traffic.

*Traffic office.* A facility where air transportation is sold, and related processes of documentation and reservation confirmation are performed.

*Traffic, revenue.* Passengers, cargo, and mail transported by air for which remuneration is received by the air carrier. Passengers (including air carrier employees) and cargo carried for token service charges are not considered revenue traffic.

*Transportation, free.* The carriage of any person or cargo (other than cargo owned by the air carrier) without compensation.

*Unit basis (in depreciation accounting).* A plan under which depreciation expense is accrued upon the basis of the book cost of the individual item of property in relation to the service life and salvage value of the particular item.

*Value, service.* The difference between the book cost and the residual value of property and equipment.

*Weight, allowable gross.* The maximum gross weight (of the aircraft and its contents) which an aircraft is licensed to carry into the air on each inter-airport hop.

*Weight, average available.* The average capacity available for revenue traffic, determined by dividing available ton-miles by aircraft miles in revenue service.

*Weight, empty.* The weight of the airframe, engines, propellers, and fixed equipment of an aircraft. Empty weight excludes the weight of the crew and payload, but includes the weight of all fixed ballast, unusable fuel supply, undrainable oil, total quantity of engine coolant, and total quantity of hydraulic fluid.

*Weight, passenger.* For the purposes of this manual, a standard weight of 190 pounds per passenger (including free baggage) is used for domestic operations, and 215 and 200 pounds for first class and coach passengers, respectively, in foreign and overseas operations. Other weights may be prescribed in specific instances upon the initiative of the Board or upon factually supported request by an air carrier.

§ 241.04 *Air carrier groupings and standard name abbreviations.*

## SUBPART A—GENERAL ACCOUNTING PROVISIONS

§ 241.1 *Introduction to system of accounts and reports.*

§ 241.1–1 *Applicability of system of accounts and reports.* Each air carrier holding a certificate of public convenience and necessity under section 401 of the Civil Aeronautics Act shall keep its books of account, records and memoranda and make reports to the Board in accordance with the system of accounts and reports prescribed herein. The Civil Aeronautics Board reserves the right, however, under the provisions of sections 407 and 416 of the Civil Aeronautics Act of 1938, as amended, to expand or otherwise modify the classes of carriers subject to this system of accounts and reports.

§ 241.1–2 *Waivers from this system of accounts and reports.* A waiver from any provision of this system of accounts or reports may be made by the Civil Aeronautics Board upon its own initiative or upon the submission of written request therefor from any air carrier, or group of air carriers, provided that such a waiver is in the public interest and each request for waiver expressly demonstrates that: existing peculiarities or unusual circumstances warrant a departure from a procedure or technique prescribed herein; a specifically defined alternative procedure or technique will result in a substantially equivalent or more accurate portrayal of operating results or financial condition, consistent with the principles embodied in the provisions of this system of accounts and reports; and the application of such alternative procedure will maintain or improve uniformity in substantive results as between air carriers.

§ 241.1–3 *General description of system of accounts and reports.* (a) This system of accounts and reports is designed to permit limited contraction or expansion to reflect the varying needs and capacities of different air carriers without impairing basic accounting comparability as between air carriers. In its administration three air carrier groups, designated Group I, Group II and Group III, respectively, are established by the Civil Aeronautics Board. This grouping will be reviewed from time to time upon petition of individual air carriers or by initiative of the Civil Aeronautics Board, with the view of a possible regrouping of the air carriers.

(b) Under the system of accounts prescribed, balance sheet elements are accounted for by all air carrier groups within a fixed uniform pattern of specific accounts. All profit and loss elements are accounted for within specific objective accounts established for each air carrier group resulting from dual classifications, designated for each air carrier group, which are descriptive of both basic areas of financial activity, or functional operation, and objective served. The profit and loss elements of the three air carrier groups can be reduced to broad objectives and general or functional classifications which are comparable for all air carrier groups. Both balance sheet and profit and loss accounts and account groupings are designed, in general, to embrace all activities, both air transport and other than air transport, in which the air carrier engages and provide for the separation of elements identifiable exclusively with other than air transport activities. Profit and loss elements which are recorded during the current accounting year are subclassified as between (1) those which relate to the current accounting year and (2) those which relate to prior accounting years, or special items that are of sufficient magnitude to distort current operating results.

(c) In order to afford air carriers as much flexibility and freedom as possible in establishing ledger and subsidiary accounts to meet their individual needs, a minimum number of account subdivisions have been prescribed in this Uniform System of Accounts. It is intended, however, that each air carrier, in maintaining its accounting records, will provide subaccount and subsidiary account segregations of accounting elements which differ in nature of accounting characteristics, in a manner which will render individual elements readily discernable and traceable throughout the accounting system, and will provide for relating profit and loss elements to applicable balance sheet counterparts.

§ 241.1–4 *System of accounts coding.* (a) A four digit control number is assigned for each balance sheet and profit and loss account. Each balance sheet account is numbered sequentially, within blocks, designating basic balance sheet classifications. The first two digits of the four digit code assigned to each profit and loss account denote a detailed area of financial activity or functional operation. The first two digits, thus assigned to each profit and loss account, are numbered sequentially within blocks, designating more general classifications of financial activity and functional operation. The second two digits assigned to profit and loss accounts denote objective classifications.

(b) A fifth digit, appended as a decimal, has been assigned for internal control by the Civil Aeronautics Board of prescribed subdivisions of the primary objective balance sheet and profit and loss classifications. A different fifth digit code number from that assigned by the Civil Aeronautics Board may be adopted for internal record keeping by the air carrier provided the prescribed subclassification of objective accounts is not impaired and the code number assigned by the Civil Aeronautics Board is employed in reporting to the Board on Form 41 Reports.

§ 241.1–5 *Records.* (a) The general books of account and all books, records, and memoranda which support in any way the entries therein shall be kept in such manner as to provide at any time full information relating to any account. The entries in each account shall be supported by such detailed information as will render certain the identification of all facts essential to a verification of the nature and character of each entry and its proper classification under the prescribed Uniform System of Accounts. Registers, or other appropriate records, shall be maintained of the history and nature of each note receivable and each note payable.

(b) The books and records referred to herein include not only accounting records in a limited technical sense, but all other records such as organization tables and charts, internal accounting manuals and revisions thereto, minute books, stock books, reports, cost distributions and other accounting work sheets, correspondence, memoranda, etc., which may constitute necessary links in developing the history of, or facts regarding, any accounting or financial transaction.

(c) All books, records and memoranda shall be preserved and filed in such manner as to readily permit the audit and examination thereof by representatives of the Civil Aeronautics Board. All books, records and memoranda shall be housed or stored in such manner as to afford protection from loss, theft, or damage by fire, flood or otherwise and no such books and records shall be destroyed or otherwise disposed of, except in conformance with Part 249 of this chapter for the preservation of records.

§ 241.1–6 *Accounting entities.* Separate records shall be maintained for each entity required to make separate reports pursuant to § 241.21 (i) and for each entity established for management purposes. Such records shall be maintained with sufficient particularity to permit the association of items traceable directly to each entity and to permit the proration of items which are common to two or more such entities in such fashion that the results produced for each entity would be closely comparable to the results which would be required to fairly reflect the operating results of a distinct legal entity.

§ 241.1–7 *Interpretation of accounts.* To the end that uniform accounting may be maintained within the prescribed system, questions involving matters of significance which are not clearly provided for should be submitted to the Civil Aeronautics Board for explanation, interpretation, or resolution.

§ 241.1–8 *Address for reports and correspondence.* Reports, statements and correspondence submitted to the Civil Aeronautics Board in accordance with or relating to instructions and requirements contained herein shall be addressed to the Office of Carrier Accounts and Statistics, Civil Aeronautics Board, Washington, D. C., the organizational unit responsible for administering the accounting and reporting functions of the Civil Aeronautics Board.

§ 241.1–9 *Conversion to this system of accounts and reports.* (a) The provisions of this system of accounts and reports shall be effective as of January 1, 1957. All balance sheet account balances shall be restated as at the beginning of business January 1, 1957, to conform with the provisions of this system of accounts except as provided below. All necessary adjustments to conform the accounts to the new system by reason of increase or decrease in reserves, or other necessary adjustments, shall be accumulated in an appropriate clearing account and the net transferred to profit and loss classification 9700 Special Items.

(b) Any adjustments of reserves for depreciation, obsolescence of flight equipment expendable parts, uncollectible accounts or other valuations of assets, shall be applied to current and subsequent accounting periods by spreading the depreciated cost of such assets over the remaining life of the asset to which applicable and shall not be applied retroactively.

(c) Adjustments, necessitated by the requirement of this system of accounts that undepreciable residual values shall reflect values restored by periodic maintenance operations, shall be effected by subdividing the accumulated depreciation reserve between that portion representing values restorable by periodic maintenance, which shall be classified as maintenance reserve, and the remaining portion which shall be classified as depreciation reserve, unless this requirement is waived by the Civil Aeronautics Board.

(d) Any reserve accumulated for obsolescence of flight equipment spare parts and assemblies shall be divided between the portion applicable to flight equipment expendable parts and flight equipment rotable parts and recorded in the applicable reserve accounts. Unless otherwise waived by the Civil Aeronautics Board, no further accrual shall be made to the reserve for obsolescence of flight equipment expendable parts and any losses sustained upon the retirement of the parts to which related shall be charged against this reserve.

(e) Any provision of this system of accounts respecting the required reserves for depreciation, or other valuation of assets, shall be made applicable as at the effective date of this regulation to all assets then existing as well as to assets subsequently acquired against which the accrual of reserves would be appropriate.

(f) All statements and plans required to be submitted to the Civil Aeronautics Board by this system of accounts insofar as currently applicable shall be filed by January 1, 1957.

§ 241.2 *General accounting policies.*

§ 241.2–1 *Bases of allocation between entities.* (a) In accordance with the provisions of § 241.1–6 profit and loss items and noncurrent assets applicable in common to two or more entities shall be allocated between such entities in such fashion that the results produced for each entity would be closely comparable to those which would be required to fairly reflect results of a distinct legal entity.

(b) Each air carrier shall file with the Civil Aeronautics Board a statement detailing practices and techniques used in assigning and prorating noncurrent assets and profit and loss items between separate entities. The practices and techniques set forth in such statement shall thenceforth be used by the air carrier unless it is notified by the Civil Aeronautics Board that they do not meet the requirements set forth herein. (See § 241.22 (d).)

(c) Changes in methods of allocating items between entities shall not be reflected in the air carrier's accounts until 30 days have elapsed following the filing of a statement, of the type described in (b) above, with the Civil Aeronautics Board unless the carrier has been notified in writing by the Civil Aeronautics Board, prior to the expiration of such period, that the changes either conform with or do not meet the requirements set forth herein.

§ 241.2–2 *Distribution of revenues and expenses within entities.* (a) Revenues and expenses attributable to a single natural objective account or functional classification shall be assigned accordingly.

(b) Revenue and expense items which are common to two or more natural objective accounts shall be charged to the objective accounts to which they predominantly relate.

(c) Expense items contributing to more than one function shall be charged to the general overhead functions to which applicable except that where only incidental contribution is made to more than a single function an item may be included in the function to which primarily related, provided such function is not distorted by including an aggregation of amounts applicable to other functions.

§ 241.2–3 *Transactions in foreign currencies.* (a) All accounts provided herein shall be stated in terms of United States Currency.

(b) Amounts to be entered in the accounts of this system that originate in terms of foreign currencies, shall be initially recorded in United States Currency at the rates of exchange realizable at the date of the original transaction, except as provided in paragraph (g) of this section, unless free conversion is not permitted and governmentally controlled rates are prescribed, in which case the latter rates shall be used.

(c) Current assets and liabilities shall be restated in the accounts at the end of each quarterly accounting period at rates of exchange then realizable, except as provided in paragraph (g) of this section, unless free conversion is not permitted and governmentally controlled rates are prescribed in which case the latter rates shall be used.

(d) Noncurrent assets and liabilities shall be reflected in the accounts at the freely realizable, or governmentally prescribed, rates of exchange prevailing at the date of the original transaction and shall not be revalued to reflect subsequent changes in rates of exchange, except to reflect permanent changes in value resulting from general monetary revaluations.

(e) Unrealized gains or losses developing in the course of normal routine restatements of current assets and liabilities in conformance with day-to-day fluctuations in rates of exchange shall be entered in profit and loss classification 4600 Incidental Revenues—Net. Unrealized gains or losses of a non-routine or an abnormal character shall be entered in profit and loss classification 8100 Nonoperating Income and Expense—Net.

(f) Realized gains or losses resulting from normal routine differences between the rates at which assets and liabilities are stated in the accounts and the rates of exchange existing at the date of realization, liquidation, or settlement, shall be entered in profit and loss classification 4600 Incidental Revenues—Net. Realized gains or losses of a non-routine or an abnormal character shall be entered in profit and loss classification 8100 Nonoperating Income and Expense—Net.

(g) Standard rates of exchange which are reasonably representative of currently realizable rates of exchange, or governmentally controlled rates where free conversion is not permitted, may be

used for originally recording each transaction and for quarterly restatements of current assets and current liabilities provided such standards are redetermined at least once each accounting year or oftener as may be necessary to reasonably approximate currently realizable or officially prescribed rates of exchange at the close of each calendar quarter.

(h) Provisions shall not be made by charges against income for reserves against anticipated changes in exchange rates during future accounting periods.

§ 241.2–4 *Accounting period.* (a) The accounting year of each air carrier subject to this Uniform System of Accounts shall be the calendar year unless otherwise approved by the Civil Aeronautics Board.

(b) Each air carrier shall keep its financial accounts and records on a full accrual basis for each quarter so that all transactions, as nearly as may reasonably be ascertained, shall be fully reflected in the air carrier's books for the quarter in which revenues have been earned and the costs attaching to the revenues so earned in each quarter have been incurred independently of the incidence of sales or purchases and settlement with debtors or creditors.

(c) Expenditures incurred during the current accounting year which demonstrably benefit operations to be performed during subsequent accounting years to a significant extent shall be deferred and amortized to the period in which the related operations are performed when of sufficient magnitude to distort the accounting results of the year in which incurred.

(d) Expenditures charged directly or amortized to operations within one accounting year shall not be reversed in a subsequent accounting year and reamortized or charged directly against operations of subsequent years except that retroactive adjustments are permitted where necessary to conform with adjustments required by the Civil Aeronautics Board for rate making purposes provided a statement explaining the detailed adjustments is submitted for review by the Civil Aeronautics Board.

§ 241.2–5 *Liability accruals.* Charges shall be made against income and accruals made for only those liabilities for which a definitely demonstrable obligation exists. Where a definite obligation has been incurred, such as for accrued vacation or dismissal compensation and the precise liability has not been determined, an estimate may be made of the currently existing liability on such actuarial or other bases as can be justified from available information, provided that balances are re-evaluated and adjusted at least once each accounting year to accurately reflect the true detriment (or cost) to the air carrier.

§ 241.2–6 *Federal income tax accruals.* (a) All income taxes shall be accrued by proportionate charges or credits to income each calendar quarter in such manner as will allocate the charges for taxes, or the tax credits for losses, to the periods in which the related profits or losses respectively, are reflected.

(b) The general policy in respect to the accrual of income taxes for each accounting period will require that the air carrier take up in its accounts an amount equivalent to the actual tax liability applicable to the period as computed or estimated on the basis of income tax laws and regulations then in effect. Waiver of this limitation may be made in instances where provision has been made in the income tax laws for the rapid depreciation or amortization of properties at rates in excess of those which are used for regular accounting purposes provided that the difference between the current tax liability and the tax expense then applicable to the income taken up in the accounting period results in such material misstatement of the amount of the income tax properly applicable to the profit taken up in the period as to undermine the integrity of the carrier's financial statements. In such cases and where waiver is made from the general prohibition herein the income tax, properly applicable at the tax rates effective under then-existing law to the profit for the year in which such tax will become due and payable, shall be accrued for regular accounting purposes and deferred until actually paid in order to apportion the total income tax cost among the various accounting periods on a basis which will fairly represent the actual tax burden in terms of actual income taken up by the carrier in each of the various accounting periods.

§ 241.2–7 *Delayed items.* (a) All items affecting net income, including income adjustments, shall be recorded in appropriate profit and loss accounts and reflected on the income statement and shall not be entered directly to retained earnings.

(b) Items applicable to operations occurring prior to the current accounting year which were not recorded in the books of account shall be included in the same accounts which would have been charged or credited if the items had not been delayed; provided, that if any delayed item is relatively so large in amount that its inclusion in the accounts for a single year would materially distort the affected accounts, it shall be included in profit and loss classification 9700 Special Items.

(c) Items applicable to operations occurring prior to the current quarter which were not recorded in the books of account shall be included in the same accounts which would have been charged or credited if the items had not been delayed; provided, that if any delayed item is relatively so large in amount that its inclusion in the accounts for a single quarter would materially distort the revenues or expenses it shall be identified in amount and nature by the quarters to which applicable as a footnote to the CAB Form 41 profit and loss statement filed for the quarter in which the item is included.

§ 241.2–8 *Unaudited items.* If a transaction has occurred but the amount involved is not precisely determinable, the amount shall be estimated, included in the proper accounts and where significant noted for financial statement purposes. The carrier is not required to anticipate or disclose minor items which would not appreciably affect the results of its operations or financial position.

§ 241.2–9 *Improvements, additions and betterments.* (a) As a general rule, expenditures for additions, betterments or improvements, which increase the productive capacity of units of land, property or equipment, shall be capitalized rather than charged directly against income of the period in which incurred. Expenditures of insignificant amount related to individual projects may be expensed as incurred, rather than capitalized, provided their inclusion as individual items or when aggregated for like items encompassed by a particular program, will not distort current operating results.

(b) The costs to be capitalized shall include all costs directly incurred by reason of the program together with an allocated portion of overhead costs to the full extent overhead expenses have been responsive to the volume of capitalizable projects currently or periodically in process.

(c) When superior parts are substituted for old parts in existing units of property and equipment as an incident to normal maintenance operations where normal retirement procedures are not practicable, the excess cost of the new parts over the estimated current cost of new parts of the kind replaced shall be charged to the related property and equipment account.

§ 241.2–10 *Capitalization of interest on construction.* Capitalization of interest on funds provided through debt financing and the capitalization of constructive interest on funds provided through equity financing employed in capital construction projects are both prohibited except upon waiver of this prohibition by the Civil Aeronautics Board, provided that in the case of a newly certificated carrier interest actually paid for funds employed prior to inauguration of service may be included in capitalized extension and development costs.

§ 241.2–11 *Accounting for transactions in gross amounts.* (a) All assets and liabilities shall be stated in balance sheet presentations in gross values, provided that all depreciation, provisions for uncollectible accounts and other valuation reserves shall be offset against the class of asset to which related. Traffic balances between air carriers which are normally settled in net amounts through airline clearing houses shall be accounted for in net amounts receivable from or payable to each such clearing house, provided that items removed from clearing houses for outside settlement shall be stated in gross amounts. Amounts receivable from, and amounts payable to, associated companies and other air carriers, which are not normally settled through airline clearing houses, and which are normally settled on a current basis shall be stated in gross amounts receivable and gross amounts payable. Amounts receivable from, and amounts payable to, individual associated companies which are not settled on a current basis, and are not includible in current assets or current liabilities, shall be stated in net amounts receivable or payable. Receivables from particular associated companies shall not be offset against payables to other associated companies.

(b) The cost of Treasury Certificates or other tax notes, which are to be surrendered to the United States Treasury, rather than independently sold, in satisfying Federal income tax liabilities may be offset against accrued Federal income tax liabilities provided both the gross income tax liability and the value of the tax notes are reflected on the face of the balance sheet. The offset of other government securities or other assets against Federal income tax liabilities is prohibited.

§ 241.2–12 *Valuation of assets.* All assets shall be recorded at cost to the air carrier and shall not be adjusted to reflect changes in market value except that parts which have been expensed from current inventories, and are recovered, may be returned to inventory at estimated value with contra credit to the expense accounts initially charged.

§ 241.2–13 *Establishment of reserves.* (a) Provisions for reserves covering transactions or conditions which do not diminish assets or result in demonstrable liability to the air carrier, with corresponding diminution in stockholder equity during the period over which accrued, shall not be charged against income but shall be charged directly against balance sheet account 2940 Unappropriated Retained Earnings.

(b) All reserves shall be classified in balance sheet presentations in terms of their inherent impact upon the air carrier's financial condition as either valuation of assets (offsetting the assets to which related), accrued liabilities, or appropriations of retained earnings.

(c) Provisions for self-insurance may be charged as operating expense in accordance with a plan which provides for reflecting actuarial or other reasonable measures of insurable risks as a recurring operating expense but adjusts annual net income to reflect only realized losses. Accruals for self-insurance shall be made through charges against operating expenses and credits to balance sheet account 2350 Self-Insurance Accruals—Clearing and the balance in such account between self-insurance accrued and losses sustained shall be cleared to nonoperating income and expense at the close of each accounting year. An amount equal to the uncleared balance in account 2350 Self-Insurance Accruals—Clearing shall be simultaneously reflected in appropriated retained earnings by appropriate debits or credits to balance sheet accounts 2940 Unappropriated Retained Earnings and 2920 Reserve for Self-Insurance. Each air carrier shall file with the Civil Aeronautics Board as a supplement to the CAB Form 41 report for the period in which self-insurance reserves are established or revised, a statement which sets forth the rates at which the reserves for self-insured risks are to be accumulated, the level at which self-insurance reserves will cease to be accumulated and such other detail as may be pertinent to the plan. The rates and practices set forth in such statement shall thenceforth be used by the air carrier unless it is notified by the Civil Aeronautics Board that they do not meet the requirements set forth herein. (See balance sheet account 2350 Self-Insurance Accruals—Clearing.)

(d) Additional reserves over those prescribed in this system of accounts may be established for the purpose of equalizing or distributing expense charges between calendar quarters of each accounting year in accordance with operations performed, in the event such expenditures are part of a specific program to which the air carrier is demonstrably committed and are of sufficient magnitude to significantly distort the financial results of the current quarter if expensed directly. Each air carrier shall submit, for approval by the Civil Aeronautics Board, a plan for each such equalization reserve which shall set forth the proposed accounting and rates of accrual. Such plans shall provide for the liquidation of each expense equalization reserve at the close of each accounting year. Equalization reserves shall not be used in respect to expenditures, the distortionary fluctuations of which spread over a cycle of longer than one year.

§ 241.2–14 *Depreciation and amortization.* (a) Assets of a type possessing prolonged service lives significantly longer than one year, and which are generally repaired and reused shall be written off against operations through periodic depreciation or amortization charges from the date first placed in regular service and shall not be expensed when retired or acquired. Assets of a type which are recurrently expended and replaced, rather than repaired and reused, shall not be depreciated or amortized but shall be charged to expense as issued for use. Waiver of this prohibition may be made upon a factual demonstration of impending losses in material amount from flight equipment expendable parts obsolescence factors not effectively provided for otherwise. In such cases and where waiver is made from the general prohibition, the air carrier may accrue through periodic expense charges, a reserve for anticipated losses from obsolescence of flight equipment expendable parts inventories which the air carrier anticipates will be on hand at the date of retirement of the equipment type to which related.

(b) Assets of a type which are subject to depreciation shall not be classified as current assets but shall be carried in property and equipment or other appropriate noncurrent asset account classifications. Assets of a type which are recurrently expended and replaced, including flight equipment expendable parts, shall be classified as current assets.

(c) Depreciation shall be calculated by the air carrier in such manner as will prevent the charging of either excessive or inadequate expense or the accumulation of excessive or inadequate reserves, and shall be based upon a study of the air carrier's history and experience or such engineering or other information as may be available with respect to prospective future conditions and without regard to depreciation accounting practices adopted for tax purposes. Undepreciable residual values shall be established for each class of property and equipment and shall represent the fair and reasonable estimate of the recoverable value as of the end of the service life over which the property is depreciated. Residual values shall reflect values which are dissipated by use but are normally restored to individual units of property through recurrent repairs and periodic maintenance operations, and shall include the estimated cost of periodic maintenance operations for which reserves are provided, which, if not reflected in such residual values, would produce duplicate charges to expense.

(d) Each air carrier shall file with the Civil Aeronautics Board on or before January 1, 1957 a statement which shall clearly and completely describe for each category of property and equipment the bases upon which the respective residual values and service lives have been assigned. For each new type of property or equipment acquired subsequently such a statement shall be submitted within 90 days after the property or equipment has been placed in regular service. Where changing conditions make necessary a revision or adjustment in rates of depreciation or residual values, a supplementary statement shall be attached to CAB Form 41 filed for the period in which such revisions or adjustments are made which shall clearly and completely describe the bases upon which the residual values and service lives have been revised. Retroactive adjustments in depreciation rates are in general prohibited.

§ 241.2–15 *Contingent assets and contingent liabilities.* Contingent assets and contingent liabilities shall not be included in the body of the balance sheet but shall be explained in footnotes.

§ 241.2–16 *Notes to financial statements.* All matters which are not clearly identified in the body of the financial statements but which may influence materially interpretations or conclusions which may reasonably be drawn in regard to financial condition or earnings position shall be clearly and completely stated as footnotes to the financial statements.

SUBPART B—BALANCE SHEET CLASSIFICATIONS

§ 241.3 *Chart of balance sheet accounts.*

| Name of account | Operating | Nonoperating |
|---|---|---|
| Property and equipment—Continued | | |
| Reserve for depreciation—storage and distribution equipment | 1657 | 1757 |
| Reserve for depreciation—miscellaneous ground equipment | 1658 | 1758 |
| Reserve for depreciation—buildings and improvements | 1660 | 1760 |
| Accumulated depreciation and amortization of capitalized leases | 1660.1 | 1760.1 |
| Other buildings and improvements | 1669 | 1769 |
| Reserves for depreciation—ground property and equipment | 1679 | 1779 |
| Land | 1679 | 1779 |
| Construction work in progress | 1689 | 1789 |
| | General classification | |
| Deferred charges: | | |
| Long-term prepayments | | 1820 |
| Developmental and preoperating costs | | 1830 |
| Unamortized discount and expense on debt | | 1840 |
| Unamortized capital stock expense | | 1850 |
| Unamortized debt expansion adjustment | | 1870 |
| Other deferred charges | | 1880 |
| Other deferred charges | | 1890 |
| Current liabilities: | | |
| Current notes payable | | 2010 |
| Accounts payable—general | | 2020 |
| Collections as agent | | 2030 |
| Collections as agent—other | | 2040 |
| Notes and accounts payable—associated companies | | 2050 |
| Accrued personnel compensation | | 2110 |
| Accrued vacation liability | | 2120 |
| Accrued Federal income taxes | | 2131 |
| Other accrued taxes | | 2139 |
| Dividends declared | | 2140 |
| Air traffic liability | | 2150 |
| Uncarned transportation revenue | | 2160 |
| Other current liabilities | | 2190 |
| Noncurrent liabilities: | | |
| Long term debt | | 2210 |
| Advances from associated companies | | 2240 |
| Advances from separately operated divisions | | 2245 |
| Noncurrent lease liability—capitalized leases | | 2260 |
| Company stock purchase plan liability | | 2290 |
| Other noncurrent liabilities | | 2290 |
| Maintenance liability—leased airframes | | 2290.2 |
| Maintenance liability—leased aircraft engines | | 2290.3 |
| Miscellaneous noncurrent liabilities | | 2290.9 |
| Deferred credits: | | |
| Unamortized premium on debt | | 2330 |
| Deferred Federal income taxes | | 2340 |
| Self-insurance accruals—clearing | | 2370 |
| Other deferred credits | | 2390 |
| Stockholder equity: | | |
| Preferred stock | | 2820 |
| Common stock | | 2840 |
| Common stock subscribed and unissued | | 2850 |

| Reserve for depreciation—ramp equipment | 1652 | 1752 |
| Reserve for depreciation—communication and meteorological equipment | 1653 | 1753 |
| Reserve for depreciation—maintenance and engineering equipment | 1654 | 1754 |
| Reserve for depreciation—surface transport vehicles and equipment | 1655 | 1755 |
| Reserve for depreciation—furniture, fixtures and office equipment | 1656 | 1756 |

See footnote at end of table.

[1] Prescribed for Group II and Group III air carriers only.

Note: Digits to right of decimals and italicized codes established for CAB control purposes only.

§ 241.4 *General.* (a) The balance sheet accounts are designed to show the financial condition of the air carrier as at a given date, reflecting the asset and liability balances carried forward subsequent to the closing or constructive closing of the air carrier's books of account.

(b) The balance sheet accounts prescribed in this system of accounts for each air carrier group are set forth in § 241.3 Chart of Balance Sheet Accounts. The balance sheet elements to be included in each account are presented in § 241.6 and the balance sheet groupings to be accorded each account are set forth in § 241.5.

§ 241.5 *Balance sheet account groupings.*

§ 241.5–1 *Current assets.* (a) Include in this classification all resources which may reasonably be expected to be realized in cash or sold or consumed within one year, such as unrestricted cash, those assets that are readily convertible into cash or are held for current use in operations, and current claims against others to the extent settlement is reasonably assured, except that securities of others classified in investment and special fund accounts at date of acquisition need not be reclassified until disposition thereof.

(b) Perpetual inventories of all materials, supplies, lubricating oils, motor fuels and flight equipment expendable parts shall be maintained and shall be physically verified at least annually. Any shortage, overage, shrinkage, etc., shall be adjusted by charges or credits to the appropriate expense account.

(c) Items of general current asset characteristics which are not expected to be realized or consumed within one year may be included in this classification provided the noncurrent portion is not substantial in amount and classification as a current item will not impair the significance of working capital.

§ 241.5–2 *Investments and special funds.* (a) Include in this classification long term investments in securities of others exclusive of United States Government securities, securities which are not readily marketable, funds set aside for specific purposes or involving restrictions preventing current use, contract performance deposits and other securities, receivables, or funds not available for current operations. Investments in United States Government securities shall be included in the current assets account group.

(b) Investments in securities of others shall be recorded at cost exclusive of amounts paid for acrued interest or dividends.

(c) Permanent impairment in the value of securities may be reflected through charges to profit and loss classification 8100 Nonoperating Income and Expense—Net.

§ 241.5–3 *Property and equipment.* (a) All investments of the air carrier in land and units of tangible property and equipment shall be included within this general classification.

(b) The general classification "Property and Equipment" shall be subclassified as between "Operating Property and Equipment" and "Nonoperating Property and Equipment". "Operating Property and Equipment" shall encompass items used in air transportation services and services incidental thereto. "Nonoperating Property and Equipment" shall encompass investments in property and equipment not separately accounted for within a separately operated division but assigned to other than air transportation and its incidental services, and property and equipment held for future use.

(c) Operating and nonoperating property and equipment shall be accounted for separately in accordance with the following instructions:

(1) Investment in property and equipment shall be recorded at total cost including all expenditures applicable to acquisition, other costs of a preliminary nature, costs incident to placing in position and conditioning for operation, and costs of additions, betterments, improvements and modifications.

(2) Used airframes and aircraft engines shall be recorded pursuant to subparagraph (1) of this paragraph. In addition, upon performance of the initial periodic maintenance operations after acquisition of used airframes, the cost incurred to restore that portion of the useful life which had expired through use prior to acquisition shall be included as an addition to the cost of used airframes so that the cost thereof will reflect the cost of fully overhauled units.

(3) The cost of additions, betterments, improvements and modifications shall be charged to the balance sheet account in which the property or equipment to which related is carried. The cost of parts and appurtenances removed, and the reserves for depreciation and maintenance applicable thereto, shall be treated as for retired property and accounted for accordingly.

(4) If different classes of property and equipment chargeable to more than one property account are purchased for a single sum and the cost of each class cannot be definitely ascertained, apportionment shall be based upon the most accurate information available. If necessary, appraisals shall be made to establish the relative costs.

(5) If property and equipment is acquired as a part of a business from another air carrier through consolidation, merger, or reorganization, pursuant to a plan approved by the Civil Aeronautics Board, the costs and related depreciation and maintenance reserves as carried on the books of the predecessor company at the date of transfer shall be entered by the acquiring air carrier in the appropriate accounts prescribed for recording investment in tangible assets. Any difference between the purchase price of the property and equipment acquired and its depreciated cost, at the date of acquisition, shall be recorded in balance sheet account 1870 Property Acquisition Adjustment.

(6) Interest on liabilities incurred in the acquisition of property and equipment, contract rights or other privileges shall not be included as a part of the cost thereof but shall be charged to profit and loss classification 8100 Nonoperating Income and Expense-Net.

(7) Upon disposal by sale, retirement, abandonment, dismantling, or otherwise, of equipment depreciated on a unit basis, the air carrier shall credit the account in which the property or equipment is carried with the cost thereof; charge the depreciation and maintenance reserves with the related reserve balance applicable to the property disposed of; and charge the cash proceeds of the sale or the value of salvaged material to the appropriate asset accounts. When the sales price or salvage value less the cost of dismantling differs from the cost of the property less accrued depreciation and maintenance reserves such difference shall be recorded in the appropriate capital gain or loss accounts.

(8) Upon disposal by sale, retirement, abandonment, dismantling, or otherwise of property or equipment depreciated on a group basis, the air carrier shall credit the account in which the property or equipment is carried, and charge the related depreciation reserve with the original cost thereof, less any salvage realized, regardless of the age of the item. No gain or loss is recognized on the retirement of individual items of property or equipment depreciated on a group basis.

(9) If property is retired or disposed of as a result of major accident or other casualty, the cost of such property less accrued depreciation and maintenance reserves shall be charged to balance sheet account 1890 Other Deferred Charges pending adjustments and settlement of insurance. The resulting profit or loss after reflecting adjustments for insurance coverage or self-insurance shall be recorded in the appropriate capital gain or loss accounts. If the air carrier has no option but to accept replacement by an equivalent unit, the book cost and accrued depreciation reserve applicable to the unit disposed of shall be assigned to the new property or equipment. Where the air carrier has the option in settlement to select between replacement in kind, and cash or its equivalent, the air carrier shall account for the property or equipment disposed of in accordance with subparagraph (7) or (8) of this paragraph. Any property or equipment purchased in replacement shall be recorded pursuant to subparagraph (1) of this paragraph.

(10) When property and equipment owned by the air carrier is applied as part payment of the purchase price of new property and equipment the new property and equipment shall be recorded at its full purchase price provided an excessive allowance is not made for assets traded in, in lieu of price adjustments or discounts on the purchase price of assets acquired. The difference between the depreciated cost of assets applied as payment and the amount allowed therefor shall be treated as retirement gain or loss.

(11) When operating property and equipment acquired requires conditioning or modification before placing in air transport or its incidental services, the costs related thereto shall be accumulated in balance sheet account 1689 Construction Work in Progress. The total accumulated cost shall be transferred to the appropriate operating property and equipment account coincidently with the placing of the property and equipment into regular air transport or incidental services.

(12) When operating property or equipment is retired from air transportation or incidental operations and retained by the air carrier, its cost, together with applicable reserves for depreciation and maintenance, shall be transferred to balance sheet classification 1700 Nonoperating Property and Equipment. If property is transferred for exclusive use of separately operated divisions, the depreciated cost thereof shall be recorded in balance sheet account 1520 Advances to Separately Operated Divisions.

(13) The air carrier shall maintain property and equipment records setting forth the description of all property and equipment recorded in balance sheet classifications 1600 and 1700 Property and Equipment. With respect to each unit or group of property or equipment, the record shall show the date of acquisition, the original cost, the cost of additions and betterments, the cost of parts retired, rates of depreciation, residual values not subject to depreciation, and the date of retirement or other disposition.

(14) Property and equipment loaned, in the custody of, or consigned to the air carrier without a purchase obligation, shall not be recorded in the same manner as similar classes or types of property purchased by the air carrier. The property and equipment accounts shall not be charged with the value of such property, and liability accounts shall not be established, provided, however, that appropriate memoranda accounts may be maintained.

(15) Charges to the accounts prescribed herein shall be made upon the basis of functions performed without regard to the location at which the equipment or property is installed or placed.

(16) Objective accounts shall be maintained for each class of property and equipment in accordance with the instructions set forth in § 241.6.

§ 241.5–4 *Property and equipment depreciation and maintenance reserves.* (a) This balance sheet classification shall include the accumulation of all provisions for losses occurring in property and equipment from use and obsolescence. For example, it shall include reserves for maintenance of property and equipment, and reserves for depreciation established to record current lessening in service value due to wear and tear from use and the action of time and the elements which are not replaced by current repairs, as well as losses in capacity for use or service occasioned by obsolescence, supersession, discoveries, change in popular demand, or the requirement of public authority. Residual values and rates for accrual of depreciation and maintenance shall be calculated to prevent charging excessive or inadequate expense or the accumulation of inadequate or excessive reserves.

(b) Depreciation shall be calculated from the date on which a building, structure or unit of property is placed in regular service and shall cease on the date such property is withdrawn from service by reason of sale, retirement, abandonment, or dismantling, or when the difference between the cost and residual value, shall have been charged to expense.

(c) Property not subject to depreciation shall include (1) land owned or held in perpetuity, (2) expenditures on uncompleted units of property and equipment during the process of construction or manufacture, (3) capitalized maintenance costs of leased flight equipment for which a reserve for periodic maintenance is accrued, and (4) items classified as current assets.

(d) All airframes and aircraft engines shall be depreciated on a unit basis from the date the airframe or aircraft engine is first placed in regular service by the air carrier.

(e) Group depreciation procedures may be applied to property and equipment of nominal value or not readily identifiable by units and which are classified into groups of items of approximately equal life expectancy.

(f) The residual value established for each airframe and each aircraft engine shall reflect values which are dissipated by use but are normally restored to individual units of property through recurrent repairs and periodic maintenance operations, and shall include the estimated cost of periodic maintenance operations for which reserves are provided, which, if not reflected in such residual value, would produce duplicate charges to expense.

(g) Rates of depreciation and undepreciable residual values applied to each class of depreciable property and equipment shall be calculated to distribute, on the basis of years of life, the estimated service value to operating expense accounts and other accounts, over the estimated service life of the property and equipment; provided, that hours of life may be used for depreciation of specific classes of flight equipment other than airframes and aircraft engines upon waiver of years of life by the Civil Aeronautics Board following a factually supported demonstraton that the service life of each such class of property corresponds more closely to hours of use than to calendar time.

(h) Adjustments in rates of depreciation occasioned by changing conditions shall be applied in accordance with the general policies set forth in § 241.2–14.

(i) Maintenance reserves shall be established by each air carrier for the cost of all periodic airframe maintenance operations of material amount in such manner as will equitably apportion the total airframe direct maintenance costs to the different accounting years on such bases as will effectively produce an appropriate matching of total airframe maintenance costs with the operation of airframes. At the option of the air carrier, maintenance reserves may also be established for aircraft engines. The purpose of such allocation is to prevent distortion of the operating and financial statements by reason of periodic peaks in maintenance costs in one accounting year which in part are properly applicable to operations performed in other accounting years. Waiver of the required reserves may be made by the Civil Aeronautics Board upon a factual demonstration that the expensing of such costs, as incurred, apportions the total direct maintenance costs between accounting years substantially in accordance with the use of airframes. Periodic airframe maintenance reserves, required in order to prevent significant distortion of the financial statements, properly include all periodic direct maintenance expenses, whether related to periodic overhauls or to other aspects of periodic maintenance which, in aggregate, are sufficiently non-recurrent as to result in an inequitable distribution of total maintenance costs as between different accounting periods. The following practices shall be observed in accounting for periodic maintenance reserves:

(1) Provisions for periodic maintenance of both owned and leased flight equipment shall be charged to profit and loss account 72 Maintenance Reserve Provisions on the basis of rates of cost per hour flown in the air carrier's operations. The rates of accrual shall be established by each air carrier in accordance with its experienced cost per periodic maintenance operation with each type of equipment during the next previous representative accounting period and representative hours of use realized between equivalent periodic maintenance operations. The rate used for new equipment types may be based upon parallel experience adjusted to reflect such engineering or other information as may be available. Each air carrier shall submit a statement detailing the plans upon which the accumulation of airframe or aircraft engine reserves are based or revised as a supplement to CAB Form 41 for the period in which such reserves are established or revised. This statement shall set forth the rates by which the reserves are established and maintained or revised and shall include statistical data showing that the rates of accrual are fully and completely supported by the air carrier's experience and calculated to prevent accumulating excessive or deficient reserves. The rates set forth in such statement shall thenceforth be used by the air carrier unless it is notified by the Civil Aeronautics Board that the rates of accrual do not meet the requirements set forth herein.

(2) Accruals for maintenance of owned equipment shall be credited, in accordance with hours flown in the air carrier's operations, to balance sheet account 1621 Reserve for Maintenance—Airframes or 1622 Reserve for Maintenance—Aircraft Engines, as appropriate, and concurrently charged to profit and loss account 72 Maintenance Reserve Provisions.

(3) Accruals for maintenance of leased equipment shall be credited, in accordance with hours flown in the air carrier's operations, to balance sheet account 2290.2 Maintenance Liability—Leased Airframes, or 2290.3 Maintenance Liability—Leased Aircraft Engines, as appropriate, up to an amount equivalent to that portion of the applicable maintenance cycle remaining unexpired at date of acquisition. Subsequent to the initial periodic maintenance operation performed by the air carrier, accrual of amounts equivalent to the portion of the applicable maintenance cycle remaining unexpired at date of acquisition shall be credited, in accordance with hours flown in the air carrier's operations, to balance sheet account 1627 Reserve for Maintenance—Leased Flight Equipment as an offset to such initial periodic maintenance which shall be charged to balance sheet account 1607 Improvements to Leased Flight Equipment in amounts which represent a restoration of the maintenance cycle expired prior to acquisition by the air carrier. (See subparagraph (4) of this paragraph.) Profit and loss account 72 Maintenance Reserve Provisions shall be concurrently charged, in accordance with hours flown in the air carrier's operations, with such accruals to maintenance liability or reserve accounts.

(4) The actual cost of periodic maintenance operations performed shall be generally charged directly to the applicable periodic maintenance reserve. In the case of equipment leased from others, that portion of the cost of each maintenance operation which represents a restoration of the maintenance cycle which remained unexpired at date of acquisition shall be charged against appropriate maintenance liability accounts. That portion of the cost of the first periodic maintenance operation performed subsequent to acquisition of leased equipment or equipment purchased in used condition which represents a restoration of the maintenance cycle expired prior to acquisition, shall be charged to balance sheet account 1607 Improvements to Leased Flight Equipment or other applicable property accounts. With the exception of that portion of the first periodic maintenance operation on leased or used equipment, discussed above, the cost of each periodic maintenance operation shall be simultaneously charged to the applicable objective expense accounts and credited to profit and loss account 72 Maintenance Reserve Provisions so that the total cost of maintenance is reflected in applicable appropriate objective expense accounts and total maintenance expense is equated in relation to operations performed between different accounting periods through profit and loss account 72 Maintenance Reserve Provisions.

(5) Adjustments of accrued maintenance for differences between actual maintenance costs incurred and amounts accrued, or amounts accrued and amounts exchanged in settlement of lease arrangements, shall be credited or charged to profit and loss account 72 Maintenance Reserve Provisions.

§ 241.5–5 *Deferred charges.* (a) Include in this classification all debit balances in general clearing accounts including charges held in suspense pending receipt of information necessary for final disposition, prepayments chargeable against operations over a period of years, capitalized expenditures of an organizational or developmental character, property acquisition adjustments, and the cost of patents, copyrights and miscellaneous intangibles.

(b) Deferred charges having a definite time incidence shall be amortized over the periods to which they apply. Each air carrier shall file as a supplement to the CAB Form 41 report for the period during which property acquisition adjustments, developmental and preoperating costs, and other intangibles are first capitalized, a statement setting forth a description of the amounts capitalized and the monthly rates at which it proposes to amortize such costs. The plan set forth in this statement shall thenceforth be followed by the air carrier, unless directed otherwise by the Civil Aeronautics Board.

§ 241.5–6 *Current liabilities.* Include in this classification all debts or obligations the liquidation or payment of which is reasonably expected to require the use, within one year, of existing resources of a type which are properly classifiable as current assets, or the creation of other current liabilities. Current liabilities shall include payables incurred in the acquisition of materials, collections received in advance of performance of services, debts accruing from expenses incurred from operations and other liabilities that are regularly and ordinarily subject to current liquidation.

§ 241.5–7 *Noncurrent liabilities.* (a) This classification shall include all debts or obligations the liquidation or payment of which is not reasonably expected to require the use within one year of existing resources of a type which are properly classifiable as current assets, or the creation of current liabilities. Noncurrent liabilities shall include mortgages, bonds and debentures maturing more than one year from the date of the balance sheet and other obligations not payable within 12 months. It shall reflect the principal amount or par value of debt securities issued or other long term debt assumed by the air carrier. Discount and expense on long term debt shall be recorded in the Deferred Charges balance sheet group. Premiums on long term debt shall be recorded in the Deferred credits balance sheet account group.

(b) In cases where debt coming due within 12 months is to be refunded, or where payment is to be made from assets of a type not properly classifiable as current, the amount payable shall not be removed from this classification.

(c) Gains or losses on liquidation of bonds, debentures or other debt securities of the air carrier shall be entered in profit and loss classification 8100 Nonoperating Income and Expense—Net. Gains and losses or adjustments to liabilities accrued from expenses incurred in operations shall be entered in the expense accounts initially charged.

§ 241.5–8 *Deferred credits.* (a) Include in this classification all credit balances in general clearing accounts including credits held in suspense pending receipt of information necessary for final disposition and premiums on long term debt securities of the air carrier.

(b) Deferred credits having a definite time incidence shall be amortized over the periods to which they apply.

§ 241.5–9 *Stockholder equity.* (a) This general classification shall include all items which record the aggregate interests of holders of the air carrier's stock in assets owned by the air carrier.

(b) The general classification "Stockholder Equity", shall be subdivided between that portion representing direct contributions of the stockholders, or "Paid-In Capital", that portion representing income retained from the operation of the air carrier, or "Retained Earnings", and that portion, "Treasury Stock", representing the cost to the air carrier of capital stock issued by the air carrier which has been reacquired and is held for disposition.

(c) The "Paid-In Capital" classification shall be subdivided between "Capital Stock", which shall include the par or stated value of capital stock issued or the cash value of the consideration actually received in case of stock having no par or stated value, and "Other Paid-In Capital", which shall include the excess (premium) or deficiency (discount) of the cash value of the consideration received from the issue of any capital stock having par or stated value, donations by stockholders, adjustments of capital resulting from reorganization or recapitalization, and gains or losses from reacquisition and resale or retirement of the air carrier's capital stock.

(d) The records supporting the entries in the accounts included in the "Other Paid-In Capital" balance sheet classification shall be maintained with sufficient particularity to identify amounts applicable to each series and class of stock affected.

(e) Discount applicable to a particular class or series of capital stock shall not be offset against premiums applicable to another class or series of capital stock. At the option of the air carrier discount applicable to a particular class or series of stock may be offset against premiums related to that class or series of stock.

(f) Gains or losses arising from the reacquisition and resale or retirement of the air carrier's capital stock shall be credited or debited, as appropriate, to that portion of "Other Paid-In Capital" which relates to the particular series and class of capital stock resold or retired.

(g) The "Retained Earnings" balance sheet classification shall reflect the balance of net profits, income, and gains of the air carrier from the date of incorporation after deducting losses, and distributions to stockholders. In cases where a deficit has been absorbed by a reduction of "Other Paid-In Capital" as a result of a restatement of capital stock or retained earnings, a new retained earnings account shall be established, dated to show that it runs from the effective date of the restatement and this dating shall be disclosed in financial statements until such time as the effective date no longer possesses special significance.

§ 241.6 *Objective classification of balance sheet elements.*

CURRENT ASSETS

1010 *Cash.* (a) Record here all general and working funds available on demand as of the date of the balance sheet which are not formally restricted or earmarked for specific objectives. Funds deposited for special purposes which are to be satisfied within one year shall be included in account 1030 Special Deposits and funds restricted as to general availability, which are not offset by current liabilities, shall be included in account 1550 Special Funds-Other.

(b) Each air carrier shall subdivide this account in such manner that the balance can be readily segregated as between balances in United States currency and the balances in each foreign currency.

1030. *Special Deposits.* Record here funds or securities deposited with fiscal agents or others for payment of current obligations. Deposits for more than one year, not offset by current liabilities, shall not be included in this account but in account 1550 Special Funds-Other.

1110 *United States Government Securities.* Record here the cost of United States Treasury Certificates. This account shall be charged or credited for discount or premium to be amortized to profit and loss account 83 Interest Income.

1120 *Other Temporary Cash Investments.* Record here the cost of securities and other collectible obligations acquired for the purpose of temporarily investing cash, other than those issued by the United States Government or associated companies. This account shall be charged or credited for discount or premium to be amortized to profit and loss account 83 Interest Income.

1220 *Accounts Receivable—U. S. Government.* Record here amounts due on open account with the United States Government. The balances in this account shall be maintained in such fashion as will clearly and separately identify service mail pay receivables, subsidy receivables and other than mail transportation receivables.

1230 *Accounts Receivable—Foreign Governments.* Record here amounts due on open account with foreign governments.

1240 *Accounts Receivable—General Traffic.* Record here amounts due, except from the United States and foreign governments and associated companies, which are not settled through airline clearing houses, for the performance of air transportation. Airline traffic accounts payable shall not be offset against the balance in this account except that traffic accounts, including accounts with associated companies, settled through airline clearing houses shall be accounted for in net amounts receivable which shall be included in this account, or in net amounts payable which shall be included in balance sheet account 2030 Collections as Agent—Traffic.

1250 *Notes and Accounts Receivable—Associated Companies.* Record here gross amounts due from associated companies including traffic accounts receivable, which are settled currently but are not settled through airline clearing houses. Balances payable to associated companies shall not be offset against amounts carried in this account. Balances with associated companies which are not normally settled currently shall not be included in this account but in balance sheet account 1510 Investments in Associated Companies.

1260 *Notes and Accounts Receivable—Company Personnel.* Record here amounts due from officers and employees of the air carrier.

1280 *Notes and Accounts Receivable—Other.* Record here notes receivable and accounts due from others, which are to be settled currently, not provided for in accounts 1220 to 1260, inclusive.

1290 *Reserve for Uncollectible Accounts.* (a) Record here accruals for estimated losses from uncollectible accounts.

(b) All accounts against which reserves have been established shall be examined at least annually for the purpose of redetermining the basis of accruals to be applied to subsequent accounting periods and the reasonableness of reserves already provided.

1310 *Flight Equipment Expendable Parts.* (a) Record here the cost of flight equipment replacement parts of a type which ordinarily would be recurrently expended and replaced rather than repaired and reused. The cost of rotable parts and assemblies of material value which ordinarily are repaired and reused shall not be recorded in this account but in account 1608 Flight Equipment Rotable Parts and Assemblies. For purposes of identifying rotable parts and assemblies of insignificant unit value which may be included in this account, a reasonable maximum unit value limitation may be established.

(b) Costs paid by the air carrier such as transportation charges and customs duties; excise, sales, use and other taxes; special insurance; and other charges applicable to the cost of flight equipment expendable parts shall be charged to this account when they can be definitely allocated to specific items or units of property. If such costs cannot be so allocated, or if of minor significance in relation to the cost of such property, the amounts thereof may be charged to balance sheet account 1890 Other Deferred Charges, and cleared either by a suitable "loading charge" as the parts are used or by current charges to appropriate expense or property accounts; provided, that the method of application does not cause material distortion in operating expenses from one accounting period to another.

(c) This account shall include the cost of labor, materials and outside services used in the process of manufacturing flight equipment expendable parts for stock. Reusable parts recovered in connection with construction, maintenance, or retirement of property and equipment shall be included in this account at fair and reasonable values but in no case shall such values exceed original cost. Scrap and nonusable parts, expensed from this account and recovered, shall be included at net amounts realizable therefrom with contra credit to the expense accounts initially charged.

(d) A reserve for inventory adjustment or obsolescence applicable to items of property recorded in this account is generally prohibited. Any losses sustained or gains realized upon the abandonment or other disposition of flight equipment expendable parts shall be taken up as capital gains or losses in the periods in which sustained or realized. (See balance sheet account 1311 Reserve for Obsolescence—Expendable Parts.)

(e) Items in this account shall be charged to appropriate expense accounts as issued for use. Profit and loss on sales of inventory items as a routine service to others shall be included in profit and loss accounts 14 General Service Sales-Associated Companies, or 16 General Service Sales-Outside, and the parts sold shall be removed from this account at full cost.

(f) Subaccounts shall be established within this account for the separate recording of each class or type of flight equipment expendable repair parts.

1311 *Reserve for Obsolescence—Expendable Parts.* (a) A reserve for inventory adjustment or obsolescence is generally prohibited. However, in the event waiver of this prohibition is granted (see § 241.2–14) accruals shall be made to this account for estimated losses, from obsolescence of flight equipment expendable parts which it is anticipated will be on hand at the date of retirement of the airframe or aircraft engine type to which related. Where waiver is made to the general prohibition, accounting practices as set forth below shall be followed.

(b) The estimated loss shall be computed by estimating the inventory which will be on hand upon retirement of the airframe or aircraft engine type to which related and deducting therefrom the estimated recoverable value. The estimated loss thus determined shall be accrued through equal annual charges to profit and loss account 73 Expendable Parts Obsolescence Provisions. The reserve applicable to each class or type of expendable parts shall be recorded in separate subaccounts of this account.

(c) Expendable parts shall be charged to operating expenses as issued for use and shall not be charged to this account. Where changing conditions necessitate a revision or adjustment in rates of obsolescence accrual, such revision or adjustment shall be made applicable to current and subsequent accounting periods and shall not be applied retroactively to prior accounting periods. Following retirement of airframe or aircraft engine types to which related, any balance remaining in this account shall be offset against related balances carried in balance sheet account 1310 Flight Equipment Expendable Parts and the net cleared to profit and loss account 81 Capital Gains and Losses.

(d) A statement shall be filed with the Civil Aeronautics Board prior to the establishment or revision of reserves for obsolescence of flight equipment expendable parts which fully explains the bases of the estimated losses and the rates of accrual to the obsolescence reserves. No obsolescence reserves shall be established, revised or adjusted without the prior approval of the Civil Aeronautics Board.

1330 *Miscellaneous Materials and Supplies.* (a) Record here the cost of unissued and unapplied materials and supplies, including motor fuels and lubricating oils, held in stock such as unissued shop materials, expendable tools, stationery and office supplies, passenger service supplies, and restaurant and food service supplies.

(b) This account shall not include flight equipment replacement parts. Such items shall be recorded, as appropriate, in balance sheet account 1310 Flight Equipment Expendable Parts or 1608 Flight Equipment Rotable Parts and Assemblies.

(c) Materials and supplies held in small supply and purchased currently may be charged to appropriate expense accounts when purchased. Costs paid by the air carrier such as transportation charges and customs duties; excise, sales, use and other taxes; special insurance; and other charges applicable to the cost of materials and supplies shall be charged to this account when they can be definitely allocated to specific items or units of property. If such costs cannot be allocated, or if of minor significance in relation to the cost of such property, the amounts thereof may be charged to balance sheet account 1890 Other Deferred Charges, and cleared either by a suitable "loading charge" as the parts are used or by current charges to appropriate expense or property accounts; provided, that the method of application does not cause material distortion in operating expenses from one accounting period to another.

(d) This account shall include the cost of labor, materials, and outside services used in the process of manufacturing materials and supplies for stock. Reusable materials and supplies recovered in connection with the construction, maintenance, or retirement of property and equipment shall be included in this account at fair and reasonable values but in no case shall such values exceed original cost. Scrap and nonusable materials and supplies, expensed from this account and recovered, shall be included at net amounts realizable therefrom with contra credit to the expense accounts initially charged.

(e) A reserve for inventory adjustment or obsolescence applicable to items of property in this account is prohibited. Items in this account shall be charged to appropriate expense accounts as issued for use. Profit and loss on sales of inventory items as a routine service to others shall be included in profit and loss account 14 General Service Sales—Associated Companies or 16 General Service Sales—Outside.

(f) Subaccounts shall be established within this account for the separate recording of each class or type of miscellaneous materials and supplies.

1410 *Short Term Prepayments.* Record here prepayments of obligations which if not paid in advance would require the expenditure of working capital within one year, such as prepaid rent, insurance, taxes, interest, etc. Unexpired insurance and miscellaneous prepayments applicable to periods extending beyond one year where significant in amount shall be charged to balance sheet account 1820 Long Term Prepayments.

1420 *Other Current Assets.* Record here current assets not provided for in balance sheet accounts 1010 to 1410, inclusive, such as accumulated costs of jobs in process for others.

INVESTMENTS AND SPECIAL FUNDS

1510 *Investments in Associated Companies.* Record here net investments in associated companies together with advances, loans, and other amounts not settled currently. Balances receivable from and payable to different associated companies shall not be offset.

1520 *Advances to Separately Operated Divisions.* (a) Record here investments in and advances (including amounts due on open accounts) to separately operated nontransport divisions for which separate records and books of account are maintained.

(b) Three subaccounts shall be maintained for each separately operated nontransport division: (1) Net investment; (2) current net profit or loss; and (3) current accounts receivable or payable between the air carrier and the separately operated division.

(c) Each nontransport division shall be accounted for separately in net amounts receivable which shall be included in this account or net amounts payable which shall be included in balance sheet account 2245 Advances from Separately Operated Divisions.

1530 *Other Investments and Receivables.* Record here notes and accounts receivable not due within one year and investments in securities issued by others. Securities held as temporary cash investments shall not be included in this account but in either balance sheet account 1110 United States Government Securities or 1120 Other Temporary Cash Investments as appropriate. Investments in and receivables from associated companies which are not settled currently shall be included in balance sheet account 1510 Investments in Associated Companies.

1540 *Special Funds—Self-Insurance.* Record here funds segregated as part of a plan for the operation of a reserve for self-insurance.

1550 *Special Funds—Other.* Record here special funds not of a current nature and restricted as to general availability, except funds for uninsured losses. Include items such as sinking funds, cash and securities posted with courts of law, employee's funds for purchase of capital stock, pension funds under the control of the air carrier and equipment purchase funds. Funds for uninsured losses shall be included in balance sheet account 1540 Special Funds—Self-Insurance.

OPERATING PROPERTY AND EQUIPMENT

1601 *Airframes.* (a) Record here the total cost to the air carrier of airframes of all types and classes, as provided in § 241.5–3, together with the full complement of instruments, appurtenances and fixtures comprising complete airframes including accessories necessary to the installation of engines, and flight control and transmission systems, except as specifically provided otherwise in accounts 1602 to 1607, inclusive and excluding main and tail rotor heads of rotary wing aircraft.

(b) Airframes designed to permit multiple payload configurations shall be recorded in this account at the total cost of the maximum complement of instruments, appurtenances and fixtures used in the air carrier's operations.

1602 *Aircraft Engines.* Record here the total cost to the air carrier of complete units of aircraft engines of all types and classes, as provided in § 241.5–3, together with a full complement of accessories, appurtenances, parts and fixtures comprising fully assembled engines as delivered by the engine manufacturer ready for operation in test but without the accessories necessary to its installation in airframes.

1603 *Aircraft Propellers.* Record here the total cost to the air carrier of aircraft propellers of all types and classes, as provided in § 241.5–3, together with a full complement of accessories, appurtenances and fixtures comprising complete fixed-wing aircraft propeller blade and propeller hub assemblies and complete rotary wing aircraft main and tail rotor heads, blades and hub assemblies.

1604 *Aircraft Communications and Navigational Equipment.* Record here the total cost to the air carrier of complete units of airborne communications and electronic navigational equipment of all types and classes, as provided in § 241.5–3, together with a full complement of parts and accessories comprising complete transmission or receiving units.

1606 *Miscellaneous Flight Equipment.* Record here the total cost to the air carrier of complete units of miscellaneous airborne flight equipment of all types and classes, not otherwise provided for in accounts 1601 through 1604, inclusive, as provided in § 241.5–3, such as miscellaneous flight crew equipment, life rafts, etc.

1607 *Improvements to Leased Flight Equipment.* Record here the total cost to the air carrier incurred in connection with modification, conversion or other improvements to leased flight equipment, as provided in § 241.5–3. This account shall include the cost of initial periodic maintenance operations performed by the air carrier on leased flight equipment which represents a restoration of maintenance service life consumed prior to date of acquisition by the air carrier.

1608 *Flight Equipment Rotable Parts and Assemblies.* (a) Record here the total cost to the air carrier of all spare instruments, parts, appurtenances and sub-assemblies related to the primary components of flight equipment units provided for in balance sheet accounts 1601 through 1607, inclusive, as provided in § 241.5–3. This account shall include all parts and assemblies of material value which are rotable in nature and may be reserviced or repaired and used repeatedly. Items of an expendable nature which generally may not be repaired and reused, shall not be recorded in this account but in account 1310 Flight Equipment Expendable Parts. Except for recurrent service sales, flight equipment parts recorded in this account shall be accounted for and depreciated in accordance with the instructions related to property and equipment generally and shall not be charged to operating expense as retired. Profit or loss on sales of parts as a routine service to others shall be included in profit and loss account 14 General Service Sales—Associated Companies, or 16 General Service Sales—Outside, and parts sold shall be removed from this account at full cost irrespective of any reserve for depreciation which has been provided.

(b) This account shall be subdivided as follows by Group II and Group III air carriers:

1608.1 Airframe Parts and Assemblies.
1608.5 Aircraft Engine Parts and Assemblies.
1608.9 Other Parts and Assemblies.

1609 *Flight Equipment.* This classification is established only for purposes of control by the Civil Aeronautics Board and shall reflect the total cost of property and equipment of all types and classes used in the in-flight operations of aircraft.

1629 *Reserves for Depreciation and Maintenance-Flight Equipment.* (a) Record in accounts 1611 through 1627, inclusive, accruals for depreciation or maintenance of flight equipment as provided in § 241.5–4.

(b) As set forth in § 241.3, Chart of Balance Sheet Accounts, separate accounts shall be established for depreciation and maintenance reserves, respectively, which parallel balance sheet accounts 1601 through 1608, established for recording the cost of flight equipment.

1630 *Passenger Service Equipment.* Record here the total cost to the air carrier of full complements of equipment assigned to aircraft or active line operations as opposed to items held in stock for servicing passengers, as provided in § 241.5–3, such as broilers, beetleware, dishes, food boxes, thermos jugs, blankets, first aid kits, etc. Spare items shall be carried in balance sheet account 1330 Miscellaneous Materials and Supplies and shall be charged directly to expense upon withdrawal from stock for replacing original complements.

1631 *Hotel, Restaurant and Food Service Equipment.* Record here the total cost to the air carrier of all types and classes of equipment used in restaurants and kitchens, as provided in § 241.5–3.

1632 *Ramp Equipment.* Record here the total cost to the air carrier of equipment of all types and classes, as provided in § 241.5–3, used in enplaning and handling traffic and in handling aircraft while on ramps, including motorized vehicles used in ramp service. Classes of equipment used interchangeably between handling aircraft on ramps and in maintaining aircraft may be classified in accordance with normal predominant use.

1633. *Communication and Meteorological Equipment.* Record here the total cost to the air carrier of non-airborne equipment of all types and classes, as provided in § 241.5–3, used in meteorological and communication services which is not a part of buildings.

1634 *Maintenance and Engineering Equipment.* Record here the total cost to the air carrier of equipment of all types and classes, as provided in § 241.5–3, including motorized vehicles used in engineering and drafting services and in maintaining, overhauling, repairing and testing other classes of property and equipment. Classes of equipment used interchangeably between handling aircraft on ramps and in maintaining aircraft may be classified in accordance with normal predominant use.

1635 *Surface Transport Vehicles and Equipment.* Record here the total cost to the air carrier of property and equipment of all types and classes, as provided in § 241.5–3, used in ground and marine transportation services. This account shall not include motorized vehicles or equipment used primarily in loading and servicing aircraft or in maintaining aircraft, which motorized vehicles or equipment shall be classified in accordance with predominant use.

1636 *Furniture, Fixtures and Office Equipment.* Record here the total cost to the air carrier of furniture, fixtures and office equipment of all types and classes, wherever used or located, as provided in § 241.5–3.

1637 *Storage and Distribution Equipment.* Record here the total cost to the air carrier of property and equipment of all types and classes, as provided in § 241.5–3, used in storing and distributing fuel, oil and water, such as fueling trucks, tanks, pipe lines, etc.

1638 *Miscellaneous Ground Equipment.* Record here the total cost to the air carrier of ground equipment of all types and classes, as provided in § 241.5–3, not provided for in balance sheet accounts 1630 to 1637, inclusive, such as medical, photographic, and employee's training equipment, and airport and airway lighting equipment.

1640 *Buildings and Other Improvements.* Record here the total cost to the air carrier of buildings, structures and equipment and related improvements, both owned and leased, as provided in § 241.5–3. Each air carrier shall maintain the following subaccounts in which the values fairly assignable to maintenance and other operations shall be separately recorded:

1640.1 Maintenance Buildings and Improvements.
1640.9 Other Buildings and Improvements.

1649 *Ground Property and Equipment.* This classification is established only for purposes of control by the Civil Aeronautics Board and shall reflect the total cost of prop-

erty and equipment of all types and classes other than flight equipment, land, and work in progress.

1669 *Reserves for Depreciation—Ground Property and Equipment.* (a) Record in accounts 1650 through 1660, inclusive, accruals for depreciation of ground property and equipment as provided in § 241.5–4.

(b) As set forth in § 241.3 Chart of Balance Sheet Accounts, separate accounts shall be established for depreciation reserves which parallel balance sheet accounts 1630 through 1640, established for recording the cost of ground property and equipment.

1679 *Land.* Record here the initial cost and the cost of improving land, as provided in § 241.5–3.

1689 *Construction Work in Progress.* Record here the direct and indirect costs to the air carrier accumulated to the date of the balance sheet in connection with constructing and readying for installation in operations property and equipment of all types and classes, as provided in § 241.5–3. This account shall not include the accumulated costs of fabricating parts, materials and supplies or of jobs in process for others which shall be recorded as appropriate, in balance sheet accounts 1310 Flight Equipment Expendable Parts, 1330 Miscellaneous Materials and Supplies, or 1420 Other Current Assets, respectively.

NONOPERATING PROPERTY AND EQUIPMENT

1700 *Nonoperating Property and Equipment.* The total cost to the air carrier of nonoperating property and equipment and related reserves for depreciation and maintenance shall be recorded in balance sheet accounts 1701 through 1789 which, as set forth in § 241.3 Chart of Balance Sheet Accounts, parallel those established above, balance sheet accounts 1601 through 1689, for recording the cost of operating property and equipment.

DEFERRED CHARGES

1820 *Long Term Prepayments.* Record here prepayments of obligations applicable to periods extending beyond one year such as payments on leased property and equipment and other payments and advances for rents, rights or other privileges.

1830 *Developmental and Preoperating Costs.* (a) Record here costs accumulated and deferred by the air carrier pertaining to the development of new routes or extension of existing routes, preparation for operation of new routes subsequent to certification by the Civil Aeronautics Board, the integration of new types of aircraft or services, and other preparations for substantial alterations in operational characteristics.

(b) Costs chargeable to this account shall include items directly related to each specific developmental or preoperating project, such as travel and incidental expenses, legal expenses, flight crew training expenses, and regulatory proceedings expenses. Expenses which would be otherwise incurred in the normal air transport operations conducted by the air carrier during the current accounting period shall not be allocated to developmental or preoperating projects and charged to this account.

(c) Records shall be established for new routes or extensions of existing routes to record separately: (1) Costs incurred in acquiring or applying for the routes, including all costs incurred prior to certification by the Board and inauguration of service by the air carrier, and (2) Costs incurred after revenue operations begin over the new routes or extensions.

(d) Subclassifications shall be established to record for each developmental project the period covered and the purpose of each item of expense. Each air carrier shall classify the costs of all projects included in this account between:

(1) Those related and contributing to the normal air transportation services currently conducted by the air carrier.

(2) Those related to services conducted by the air carrier which are extraneous to or are not otherwise related to the air transportation services currently conducted.

(3) Those held in suspense pending status determination in terms of possible contribution to the air transportation services and inauguration of the service or operation to which related.

(e) Amounts included in this account which contribute to the normal air transportation services currently conducted by the air carrier shall be amortized to profit and loss account 74 Amortization unless otherwise approved or directed by the Civil Aeronautics Board. Other amounts included in this account shall be amortized or charged to profit and loss account 89 Miscellaneous Nonoperating Debits.

1840 *Unamortized Discount and Expense on Debt.* (a) Record here the excess of the par value of debt securities issued over the cash value of consideration received therefor, exclusive of accrued interest, together with expenses related to the assumption by the air carrier of long term debt of all types and classes.

(b) Amounts recorded in this account shall be amortized to profit and loss account 87 Interest Expense.

1850 *Unamortized Capital Stock Expense.* Record here, in separate subdivisions for each class and series of capital stock, all commissions and expenses incurred in the original issuance and sale of capital stock. The air carrier may amortize the balance in this account to profit and loss account 89 Miscellaneous Nonoperating Debits.

1870 *Property Acquisition Adjustment.* (a) Record here the difference between the purchase price to the air carrier of property and equipment acquired as a part of a business from another air carrier through consolidation, merger, or reorganization, pursuant to a plan approved by the Civil Aeronautics Board, and the depreciated cost to the predecessor company at date of acquisition. Separate subaccounts shall be established to record the amounts applicable to each such acquisition.

(b) Balances in this account shall be amortized by charges to profit and loss account 89 Miscellaneous Nonoperating Debits unless otherwise directed or approved by the Civil Aeronautics Board.

(c) A supplementary statement shall accompany reports covering the periods in which charges are made to this account. The required statement shall include an explanation of the charges and the air carrier's proposed plan for write-off or amortization. The plan shall be considered effective unless the air carrier is informed of modifications of the proposed accounting treatment by the Civil Aeronautics Board.

(d) The foregoing instructions do not apply to purchases of individual units of property or equipment from another air carrier when such acquisitions do not require approval of the Civil Aeronautics Board.

1880 *Other Intangibles.* Record here the cost of leaseholds, patents, copyrights and other intangible properties, rights and privileges acquired as a part of a business from other air carriers and other intangible assets not provided for elsewhere. This account shall be subdivided to reflect the nature of each intangible asset included in this account. Amortization of each intangible asset recorded in this account shall be effected in accordance with a plan filed with the Civil Aeronautics Board.

1890 *Other Deferred Charges.* Record here debits, not provided for elsewhere, the proper final disposition of which cannot be effected until additional information has been received.

CURRENT LIABILITIES

2010 *Current Notes Payable.* Record here the face value of all notes, drafts, acceptances, or other similar evidences of indebtedness payable on demand or within one year to other than associated companies, including the portion of long term debt due within one year of the balance sheet date. The current portion of long term debt expected to require the use of existing resources of a type not properly classifiable as current assets, shall be included in appropriate noncurrent liability accounts and shall not be included in this account.

2020 *Accounts Payable—General.* Record here all accounts payable within one year which are not provided for in accounts 2010 to 2050, inclusive.

2030 *Collections as Agent—Traffic.* (a) Record here amounts collected for transportation sold over lines of other air carriers or surface transport carriers, excluding associated companies.

(b) Airline traffic accounts receivable shall not be offset against the balance in this account except that traffic accounts, including accounts with associated companies, settled through airline clearing houses shall be accounted for in net amounts payable which shall be included in this account, or in net amounts receivable which shall be included in balance sheet account 1240 Accounts Receivable—General Traffic.

2040 *Collections as Agent—Other.* Record here amounts collected for the account of others such as sales or transportation taxes and amounts deducted from employee salaries and wages for payments to others exclusive of amounts collected for air transportation over the lines of other air carriers.

2050 *Notes and Accounts Payable—Associated Companies.* Record here gross amounts due on current notes and open accounts with associated companies, including traffic accounts which are not settled through airline clearing houses. Balances receivable from associated companies, shall not be offset against amounts carried in this account. Balances with associated companies which are not normally settled currently shall not be included in this account but in balance sheet account 2240 Advances from Associated Companies.

2110 *Accrued Personnel Compensation.* Record here amounts accrued for unpaid compensation to personnel, which have been charged to profit and loss or capitalized, as compensation for the period in which accrued.

2120 *Accrued Vacation Liability.* (a) Record here any accruals for liabilities against the air carrier for personnel vacations. At the option of the air carrier the cost of personnel vacations may be charged directly to the applicable personnel compensation expense account without accrual through this account.

(b) This account shall be credited and the applicable personnel compensation expense account concurrently charged with the cost of any lag between vacations accrued and vacations taken. Accruals may be based upon standard rates of lag provided such standard rates are verified by physical inventory and adjusted accordingly at least once each calendar year. Adjustments of balances in this account shall be cleared to applicable compensation expense accounts. No accruals shall be made to this account for other than definitely demonstrable obligations of the air carrier.

2131 *Accrued Federal Income Taxes.* Record here accruals for currently payable Federal income taxes. Provisions for deferred taxes shall not be accrued except as provided in balance sheet account 2340 Deferred Federal Income Taxes.

2139 *Other Accrued Taxes.* Record here accruals for taxes, exclusive of Federal income taxes, constituting a charge borne by the air carrier, as opposed to those collected as an agent for others.

2140 *Dividends Declared.* Record here, in separate subdivisions for each class and series of capital stock, all dividends declared but unpaid on capital stock.

2150 *Air Travel Plan Liability.* Record here the air carrier's liability for deposits received under air travel plan contracts.

2160 *Unearned Transportation Revenue.* (a) Record here the value of transportation sold, but not used or refunded, for travel over the air carrier's own lines. Each air carrier shall establish practices for the clearance of transportation revenues as earned to the applicable transportation revenue profit and loss accounts and for the periodic clearance on a consistent basis of unredeemed transportation sales to the related transportation revenue profit and loss accounts or other appropriate accounts. Physical verification of the reliability of revenue accounting practices shall be made at least once each accounting year.

(b) A statement shall be filed with the Civil Aeronautics Board as a supplement to the Form 41 reports which fully explains the accounting methods and bases of clearing to income both earned and unredeemed transportation sales.

2190 *Other Current Liabilities.* Record here current and accrued liabilities not provided for in accounts 2010 to 2160, inclusive.

NONCURRENT LIABILITIES

2210 *Long Term Debt.* Record here the face value or principal amount of debt securities issued or assumed by the air carrier and held by other than associated companies, which has not been retired or cancelled and it not payable within 12 months of the balance sheet date, except as provided in § 241.5–7.

2240 *Advances from Associated Companies.* Record here net amounts due associated companies for notes, loans and advances which are not settled currently. Balances payable to and receivable from different associated companies shall not be offset.

2245 *Advances from Separately Operated Divisions.* (a) Record here net advances, including amounts settled currently, from separately operated nontransport divisions for which separate records and books of account are maintained.

(b) Each nontransport division shall be accounted for separately in net amounts payable, which shall be included in this account, or net amounts receivable which shall be included in balance sheet account 1520 Advances to Separately Operated Divisions.

2250 *Pension Liability.* Record here the liability of the air carrier under employee pension plans, to which either or both employees and the air carrier contribute, if the plan is administered by the air carrier.

2260 *Company Stock Purchase Plan Liability.* Record here the liability for installments received on capital stock from company personnel who are not bound by legally enforceable subscription contracts.

2290 *Other Noncurrent Liabilities.* (a) Record here noncurrent liabilities not provided for in balance sheet accounts 2210 to 2260, inclusive, such as accruals for personnel dismissal liability, accruals for maintenance of leased flight equipment equivalent to the portion of periodic maintenance service life unexpired at date of acquisition and other miscellaneous liability accruals.

(b) Each air carrier shall maintain the following subaccounts:

2290.2 *Maintenance Liability—Leased Airframes.* Record here the proportionate part of accruals for and actual costs incurred in periodic maintenance of leased airframes which is equivalent to the portion of the established periodic maintenance cycle remaining unexpired at the date of acquisition of such leased airframes by the air carrier.

2290.3 *Maintenance Liability—Leased Aircraft Engines.* Record here the proportionate part of accruals for and actual costs incurred in periodic maintenance of leased aircraft engines which is equivalent to the portion of the established periodic maintenance cycle remaining unexpired at the date of acquisition of such leased aircraft engines by the air carrier.

2290.9 *Miscellaneous Noncurrent Liabilities.* Record here noncurrent liabilities not provided for in subaccounts 2290.2 and 2290.3.

DEFERRED CREDITS

2330 *Unamortized Premium on Debt.* (a) Record here the excess of the cash value of consideration received over the par value plus accrued interest on debt securities issued.

(b) Amounts recorded in this account shall be amortized to profit and loss account 87 Interest Expense.

2340 *Deferred Federal Income Taxes.* (a) In the event of waiver by the Civil Aeronautics Board of the prohibition against accruals of deferred Federal income tax liability, such accruals shall be recorded in this account.

(b) Accruals to this account shall be made at regular quarterly periods, by charges to profit and loss subaccount 92.1 Current Provisions for Deferred Taxes, with the proportionate accruals applicable to each period, for income taxes to be paid in the future on the amount by which depreciation or amortization of property for tax purposes exceeds the depreciation expense accrued for regular accounting purposes and normally used in computing net income. Such accruals shall be based upon tax rates currently applicable to income of the periods in which the tax liability is determined.

(c) This account shall be debited and profit and loss subaccount 92.2 Amortization of Taxes Deferred (Credit) shall be credited, at regular quarterly periods, with proportionate amounts which will amortize prior accruals for deferred Federal income taxes over the periods in which depreciation expense normally used in computing net income exceeds depreciation or amortization of property recognized for tax purposes.

(d) Any applicable balance remaining in this account upon termination of the normal service life or retirement of property and equipment to which related shall be credited to profit and loss subaccount 92.3 Adjustment of Deferred Taxes.

(e) Each air carrier is restricted in its use of this account to the purposes set forth above. Deferred tax accruals shall not be reversed or revised without prior approval of the Civil Aeronautics Board. This prohibition, however, does not apply to the correction of clerical errors which may be effected without approval by the Civil Aeronautics Board. All adjustments shall be effected through appropriate credits or debits to profit and loss subaccount 92.3 Adjustment of Deferred Taxes. Full explanation of each adjustment shall be set forth in the air carrier's CAB Form 41 report for the period in which the adjustment is made.

2350. *Self-Insurance Accruals—Clearing.* (a) Record here all accruals by the air carrier for uninsured losses. Accruals to this account shall be charged to profit and loss accounts 55.2 Provisions for Self-Insurance and 56 Insurance—Traffic Liability. All losses sustained by the air carrier upon the realization of risks for which accruals have been made shall be charged to this account.

(b) At the close of each accounting year, the balance in this account shall be cleared by credit or debit, as appropriate, to profit and loss account 80 Over or Under Self-Insurance Accruals.

(c) The net debit or credit balance in this account prior to clearing at the close of the year shall be simultaneously reflected in appropriated retained earnings by a charge or credit, respectively, to balance sheet account 2920 Reserve for Self-Insurance and a credit, or charge, respectively to balance sheet account 2940 Unappropriated Retained Earnings.

(d) The air carrier shall submit in writing to the Civil Aeronautics Board a statement which sets forth the rates at which provisions for self-insured risks are to be accumulated, the level at which self-insurance provisions will cease to be accumulated and such other detail as may be pertinent to the plan.

2390 *Other Deferred Credits.* Record here credits, not provided for elsewhere, the proper final disposition of which cannot be effected until additional information has been received.

STOCKHOLDER EQUITY

2820 *Preferred Stock.* Record here in separate subdivisions for each class and series, the par or stated value of preferred capital stock issued or in the case of no-par stock without stated value, the full consideration received.

2840 *Common Stock.* Record here in separate subdivisions for each class and series, the par or stated value of common stock issued or in case of no-par stock without stated value, the full consideration received.

2860 *Capital Stock Subscribed and Unissued.* Record here in separate subdivisions for each class and series, the par or stated value, or the subscription price in the case of stock without par or stated value, of legally enforceable subscriptions to the capital stock of the air carrier.

2890 *Other Paid-In Capital.* (a) Record here in separate subdivisions for each class and series, the difference between the price at which capital stock is sold and the par or stated value of such stock; gains or losses arising from the reacquisition and the resale or retirement of each class and series of capital stock; donations; the excess of retained earnings capitalized over par or stated value of capital stock issued; and adjustments in capital resulting from reorganization or recapitalization. This account shall also include the balances of contributions to the business enterprise of individual proprietors or partners.

(b) Each air carrier shall maintain the following subaccounts:

2890.1 *Premium on Capital Stock.* Record here in separate subdivisions for each class and series of stock issued, the excess of the cash value of consideration received over the par or stated value and accrued dividends of stock issued together with assessments against stockholders representing payments required in excess of par or stated value.

2890.2 *Discount on Capital Stock.* Record here in separate subdivisions for each class and series of capital stock issued, the excess of the par or stated value over the cash value of consideration received, less accrued dividends. Discount applicable to a particular class and series of capital stock may be offset against premiums from the same class and series of capital stock. Discounts and premiums on different classes and series of capital stock shall not be offset.

2890.3 *Other Capital Stock Transactions.* Record here, in separate subdivisions for each class and series, the balance of credits arising from the reacquisition and resale or cancellation of capital stock, credits arising from a reduction in the par or stated value of capital stock or the net balance of credits or

debits resulting from other paid-in capital transactions, not provided for elsewhere, which is identified with particular classes and series of capital stock.

2890.9 *Miscellaneous Paid-In Capital.* Record here all other paid-in capital credits or debits not identified with particular classes and series of capital stock such as capital provided by donations from company stockholders and other paid-in capital which at the effective date of this system of accounts cannot be classified as to the source thereof.

2920 *Reserve for Self-Insurance.* (a) Record here the balance of accruals for uninsured losses provided by charges to balance sheet account 2940 Unappropriated Retained Earnings. This account shall be charged or credited respectively, and balance sheet account 2940 Unappropriated Retained Earnings shall be credited or charged, respectively with amounts equivalent to the debit or credit balance of balance sheet account 2350 Self-Insurance Accruals—Clearing as at the end of each accounting year.

(b) The air carrier shall submit in writing to the Civil Aeronautics Board a statement which sets forth the rates at which the reserve is to be accumulated, the level at which it will cease to be accumulated and such other detail as may be pertinent to the plan. The plan shall not be placed into effect for 30 days following submission in writing to the Civil Aeronautics Board.

2930. *Other Appropriations of Retained Earnings.* (a) Record here amounts of retained earnings segregated for contingencies and other special purposes exclusive of amounts segregated under self-insurance plans.

(b) Charges resulting from the materialization of events for which retained earnings have been appropriated shall not be entered in this account but in appropriate profit and loss accounts. Balances in this account shall be returned to balance sheet account 2940 Unappropriated Retained Earnings when the reason for which created no longer exists.

2940 *Unappropriated Retained Earnings.* (a) Record here the net income or loss from operations of the air carrier and dividends declared on capital stock.

(b) This account shall not be charged with dividends on treasury stock but may be charged with dividends on capital stock of the air carrier held in special funds not under the control of the air carrier. If a dividend is not payable in cash the values entered in this account shall be completely described.

(c) Delayed credits or charges to income shall not be entered in this account directly but in appropriate profit and loss accounts.

(d) Net income or loss accounted for during the current fiscal year shall not be entered in this account until the close of the fiscal year. Individual proprietorships or partnerships may clear net income or loss accounted for during the year directly to balance sheet account 2890 Other Paid-In Capital, or optionally, to this account for subsequent transfer to balance sheet account 2890 Other Paid-In Capital.

2990 *Treasury Stock.* (a) Charge here the cost of capital stock issued by the air carrier reacquired by it and not retired or cancelled. Capital credits or debits resulting from the resale or retirement of capital stock held in this account shall be entered in balance sheet account 2890.3 Other Capital Stock Transactions.

(b) Separate records shall be established for each class and series of capital stock held in this account.

## SUBPART C—PROFIT AND LOSS CLASSIFICATIONS

§ 241.7 Chart of profit and loss accounts.

| Objective classification of profit and loss elements | Functional or financial activity to which applicable (00) | | |
|---|---|---|---|
| | Group I carriers | Group II carriers | Group III carriers |
| **OPERATING REVENUES** | | | |
| 01 Passenger. | | | |
| 01.1 Passenger—first class | 31, 32 | 31, 32 | 31, 32. |
| 01.2 Passenger—coach | 31, 32 | 31, 32 | 31, 32. |
| 02 United States mail. | | | |
| 02.1 Priority | 31, 32 | 31, 32 | 31, 32. |
| 02.2 Nonpriority | 31, 32 | 31, 32 | 31, 32. |
| 03 Foreign Mail | 31, 32 | 31, 32 | 31, 32. |
| 06 Property. | | | |
| 06.1 Express | 31, 32 | 31, 32 | 31, 32. |
| 06.2 Freight | 31, 32 | 31, 32 | 31, 32. |
| 06.3 Excess passenger baggage | 31, 32 | 31, 32 | 31, 32. |
| 07 Charter | 32 | 32 | 32. |
| 08 Section 406 subsidy | 41 | 41 | 41. |

§ 241.8 *General.* (a) The profit and loss accounts are designed to reflect, through natural groupings, the elements entering into the derivation of income or loss accruing to the proprietary interests during each accounting period.

(b) The system of accounts prescribed herein provides for the co-ordinate grouping of all revenues and expenses in terms of both major natural objectives and functional activities and for subdivision of both to provide varying degrees of detail for air carriers of differing accounting capacities and/or requirements.

(c) The detailed objective accounts established for each air carrier group, by the dual subdivision of profit and loss elements in terms of both natural objectives and functional activities, are set forth in § 241.7 Chart of Profit and Loss Accounts.

(d) The prescribed system of accounts provides generally that profit and loss elements shall be grouped in accordance with their inherent characteristics within the following primary classifications:

(1) *Operating revenues.* (i) This primary classification shall include revenues of a character usually and ordinarily derived from the performance of air transportation, and net revenues from services performed incidental to the performance

| Objective classification of profit and loss elements | Functional or financial activity to which applicable (00) | | |

| 74.2 Other intangibles | | 70 | 70. |
| 75 Depreciation. | | 70 | 70. |
| 75.1 Airframes | | 70 | 70. |
| 75.2 Aircraft engines | | | |

of air transportation, which relate to services performed during the current accounting year or which, although relating to services performed during prior accounting years, are not sufficiently large to materially distort the accounts of the current accounting year.

(ii) Operating revenues shall be subclassified in terms of functional activities as provided in § 241.9.

(2) *Operating expenses.* (i) This primary classification shall include expenses of a character usually and ordinarily incurred in the performance of air transportation which are attributable to services performed during the current accounting year or which, although attributable to services performed during prior accounting years, are not sufficiently large to materially distort the accounts of the current accounting year.

(ii) Operating expenses shall be subclassified in terms of functional activities as provided in §§ 241.10 and 241.11.

(3) *Nonoperating income and expense—net.* This primary classification (8100) shall include income and loss incident to commercial ventures not inherently related to the performance of the common carrier air transport services of the accounting entity; other revenues and expenses attributable to financing or other activities which are extraneous to and not an integral part of air transportation or its incidental services; and special recurrent or nonrecurrent items of a non-period or extraordinary nature of a magnitude which will not significantly distort the net income of the current accounting year.

(4) *Income taxes for current period.* This primary classification (9100) shall include provisions for Federal, State, local and foreign taxes which are based upon the net income of the air carrier for the current period together with refunds for excess profits credits or carry back of losses and increases or reductions of income taxes of prior years of a magnitude which will not distort net income of the current accounting year. Income taxes applicable to special income credits or debits recorded in profit and loss classification 9700 Special Items, and other material income tax items not allocable to income of the current accounting year, shall not be included in this classification but in profit and loss classification 9700 Special Items.

(5) *Special items.* This primary classification (9700) shall include credits and debits which relate to prior accounting years and extraordinary special items that are of sufficient magnitude to significantly distort current financial results. Each air carrier shall establish such standard practices for separately identifying special items and current period income items as may be prescribed by the Civil Aeronautics Board, or in the absence of such action by the Civil Aeronautics Board, such standard practices as will not result in significant distortion of net income applicable to the current year.

§ 241.9 *Functional classification; operating revenues.*

3900 *Transport Revenues.* This classification is prescribed for all air carrier groups and shall include all revenues from the air transportation of traffic of all classes. It shall consist of the following subclassifications:

3100 *Scheduled Services.* This subclassification shall include revenues from the transportation by air of traffic between points prescribed in certificates of public convenience and necessity issued by the Civil Aeronautics Board and held by the air carrier, for the transportation of individual passengers or cargo shipments (as opposed to charter of aircraft) on flights performed pursuant to published schedules, filed with the Civil Aeronautics Board, and extra section or other flights performed as an integral part of the air carrier's published flight schedules.

3200 *Nonscheduled Services.* This subclassification shall include revenues from the transportation by air of traffic between points not prescribed in certificates of public convenience and necessity issued by the Civil Aeronautics Board and held by the air carrier; from the performance of aircraft charter services; and from the performance of other air transportation services not constituting an integral part of services performed pursuant to published schedules filed with the Civil Aeronautics Board. Flights performed as extra sections of flights performed pursuant to published schedules shall not be included in this subclassification but in subclassification 3100 Scheduled Services.

4900 *Nontransport Revenues.* This classification is prescribed for all air carrier groups and shall include all revenues, grants or aids for providing air transportation facilities, but not as direct payment for the carriage of traffic, and all revenues and fees, less expenses directly associated with the performance of services which grow from and are incidental to air transportation services performed by the air carrier. It shall consist of the following subclassifications:

4100 *Federal Subsidy.* This subclassification shall include revenues from the United States Government as direct grants or aids for providing air transportation facilities. It shall not include revenues from the carriage of traffic or the performance of other specific contractual services for the United States Government.

4600 *Incidental Revenues—Net.* a. This subclassification shall include net revenues from services which grow from and are incidental to the air transportation services performed by the air carrier.

b. This subclassification shall include revenues, less related expenses, from only those services which are performed as an incidental adjunct to air transportation services and which provide improved utilization of plant and organization required for the performance of air transportation services. Revenues and expenses related to services of a magnitude or scope beyond an incidental adjunct to air transportation services shall not be included in this subclassification. Revenues and expenses applicable to such services shall be included in profit and loss classification 8100 Nonoperating Income and Expense—Net, and the accounting modified to conform with that of a separately operated division whether or not the service is organized as a separately operated division.

c. This subclassification shall embrace all expense items directly identified with particular incidental services performed as well as amounts representing increases in costs incurred in common with the air transport service, to the extent such increases result from the added incidental services, as well as a prorata share of the costs incurred by the air carrier in operating facilities which are used jointly with others. As a general rule, this subclassification shall not include those costs, other than joint facilities costs, which would remain as an essential part of the air transport services if the incidental service were terminated.

d. Each air carrier shall file with the Civil Aeronautics Board a statement setting forth the methods used in assigning or prorating expenses between incidental services and transport operations. This statement shall be filed no later than January 1, 1957 or with the air carrier's initial Form 41 report, whichever occurs later. Changes in such methods shall not be reflected in the air carrier's accounts until 30 days have elapsed following written notice to the Civil Aeronautics Board unless approved in writing by the Civil Aeronautics Board prior to expiration of the notice period.

§ 241.10 *Functional classification; operating expenses of group I air carriers.*

5100 *Flying Operations.* (a) This function shall include expenses incurred directly in the in-flight operation of aircraft and expenses attaching to the holding of aircraft and aircraft operational personnel in readiness for assignment to an in-flight status.

(b) This function shall not include expenses incurred in repairing, servicing or storing aircraft, expenses incurred on the ground in protecting and controlling the in-flight movement of aircraft, or the compensation of ground personnel and other expenses incurred in scheduling or preparing aircraft or aircraft operational personnel for flight assignment. Such expenses shall be included in function 5400 Maintenance or function 6900 General Services and Administration.

5400 *Maintenance.* (a) This function shall include all expenses, both direct and indirect, specifically identifiable with the repair and upkeep of property and equipment as may be required to meet operating and safety standards; in inspecting or checking property and equipment in accordance with prescribed operational standards; and in polishing or cleaning property and equipment when such polishing or cleaning is not an incidental routine in connection with the normal productive use of property and equipment.

(b) This function shall include the cost of direct labor, materials, and outside service and maintenance overhead or other costs specifically associated with maintenance operations regardless of the location at which incurred.

(c) This function shall not include costs incurred in the construction, improvement, or modification of property and equipment even when necessitated to meet new or changed operating or safety standards. Such costs shall be charged to appropriate property and equipment accounts.

(d) Costs incurred by aircraft handling personnel in visual inspection, minor check and servicing of aircraft, while in line service, shall not be included in this function when performed as an incidental routine during the normal productive use of aircraft but shall be included in function 6900 General Services and Administration.

(e) Each Group I air carrier shall maintain the following subfunctions:

5200 *Direct Maintenance.* a. This subfunction shall include the costs of labor, materials and outside services consumed directly in periodic maintenance operations and the maintenance and repair of property and equipment, of all types and classes, regardless of the location at which incurred, exclusive of costs specifically identified with maintenance of property and equipment carried in balance sheet accounts 1634 Maintenance and Engineering Equipment and 1640.1 Maintenance Buildings and Improvements which shall be included in subfunction 5300 Maintenance Burden.

b. The cost of direct labor, materials and supplies, as well as outside repairs, used in the maintenance and repair of property and equipment shall be recorded on running job orders or tickets covering repairs and periodic inspections except servicing. Where a number of like items are maintained on a group basis, it will be necessary to maintain only one job order for each group.

c. When supervisory personnel such as crew chiefs, inspectors and foremen are engaged in direct labor in connection with equipment maintenance, a proportionate part of their salaries and wages shall be charged to the appropriate direct labor accounts. The cost of transporting property to and from shops for repair and maintenance shall be included as a part of the cost of the materials and supplies used in the repair or maintenance of such property and equipment. Transportation charges, customs and duties, etc; shall be included in the cost of repairs and maintenance operations when made by outside parties.

5300 *Maintenance Burden.* a. This subfunction shall include all overhead or general expenses which are specifically identified with activities involved in periodic maintenance operations and the maintenance and repair of property and equipment of all types and classes, including the cost of direct labor, materials and outside services identified with the maintenance and repair of property and equipment carried in balance sheet accounts 1634 Maintenance and Engineering Equipment, and 1640.1 Maintenance Buildings and Improvements. It shall include expenses specifically related to the administration of maintenance stocks and stores, the keeping of pertinent maintenance operations records, and the scheduling, controlling, planning and supervision of maintenance operations.

b. This subfunction shall not include expenses related to financial accounting, purchasing or other overhead activities which are of general applicability to all operating functions. Such expenses shall be included in function 6900 General Services and Administration.

6900 *General Services and Administration.* This function shall include expenses incurred on the ground in controlling and protecting the in-flight movement of aircraft; landing, handling, or servicing aircraft on the ground; selling transportation; servicing and handling traffic of all classes; promoting the development of traffic; administering operations generally; and all other expenses not otherwise provided for in functions 5100 Flying Operations, 5400 Maintenance, and 7000 Depreciation and Amortization.

7000 *Depreciation and Amortization.* This function shall include all charges to expense to record losses suffered through current exhaustion of the serviceability of property and equipment due to wear and tear from use and the action of time and the elements, which are not replaced by current repairs as well as losses in serviceability occasioned by obsolescence, supersession, discoveries, change in popular demand or action by public authority. It shall also include charges for the amortization of capitalized developmental and preoperating costs and other intangible assets applicable to the performance of air transportation. (See balance sheet accounts 1830 Developmental and Preoperating Costs and 1880 Other Intangibles.)

§ 241.11 *Functional classifications; operating expenses of Group II and Group III air carriers.*

5100 *Flying Operations.* (a) This function shall include expenses incurred directly in the in-flight operation of aircraft and expenses attaching to the holding of aircraft and aircraft operational personnel in readiness for assignment to an in-flight status.

(b) This function shall not include expenses incurred in repairing, servicing or storing aircraft, expenses incurred on the ground in protecting and controlling the in-flight movement of aircraft, or compensation of ground personnel and other expenses incurred in scheduling or preparing aircraft or aircraft operational personnel for flight assignment. Such expenses shall be included in function 5400 Maintenance, or function 6400 Aircraft and Traffic Servicing.

5400 *Maintenance.* (a) This function shall include all expenses, both direct and indirect, incurred in the repair and upkeep of property and equipment as may be required to meet operating and safety standards; in inspecting or checking property and equipment in accordance with prescribed operational standards; and in polishing or cleaning property and equipment when such polishing or cleaning is not an incidental routine in connection with the normal productive use of property and equipment.

(b) This function shall include the cost of direct labor, materials, and outside services and maintenance overhead or other costs associated with maintenance operations regardless of the location at which incurred.

(c) This function shall not include costs incurred in the construction, improvement, or modification of property and equipment even when necessitated to meet new or changed operating or safety standards. Such costs shall be charged to appropriate property and equipment accounts.

(d) Costs incurred by aircraft handling personnel in visual inspection, minor check and servicing of aircraft, while in line service, shall not be included in this function when performed as an incidental routine during the normal productive use of aircraft but shall be included in function 6400 Aircraft and Traffic Servicing.

(e) Both Group II air carriers and Group III air carriers shall maintain the following subfunctions:

5200 *Direct Maintenance.* a. This subfunction shall include the costs of labor, materials and outside services consumed directly in periodic maintenance operations and the maintenance and repair of property and equipment of all types and classes, regardless of the location at which incurred, exclusive of property and equipment carried in balance sheet accounts 1634 Maintenance and Engineering Equipment and 1640.1 Maintenance Buildings and Improvements, which shall be included in subfunction 5300 Maintenance Burden.

b. The cost of direct labor, materials and supplies, as well as outside repairs, used in the maintenance and repair of property and equipment shall be recorded on running job orders or tickets covering repairs and periodic inspections except servicing. Where a number of like items are maintained on a group basis, it will be necessary to maintain only one job order for each group.

c. When supervisory personnel such as crew chiefs, inspectors and foremen are engaged in direct labor in connection with equipment maintenance, a proportionate part of their salaries and wages shall be charged to the appropriate direct labor accounts. The cost of transporting property to and from shops for repair and maintenance shall be included as a part of the cost of the materials and supplies used in the repair or maintenance of such property and equipment. Transportation charges, customs and duties, etc., shall be included in the cost of repairs and maintenance operations when made by outside parties.

5300 *Maintenance Burden.* a. This subfunction shall include all overhead or general expenses used directly in the activities involved in periodic maintenance operations and the maintenance and repair of property and equipment of all types and classes, including the cost of direct labor, materials and outside services used in the maintenance and repair of property and equipment carried in balance sheet accounts 1634 Maintenance and Engineering Equipment, and 1640.1 Maintenance Buildings and Improvements. It shall include expenses related to the administration of maintenance stocks and stores, the keeping of pertinent maintenance operations records, and the scheduling, controlling, planning and supervison of maintenance operations.

b. This subfunction shall not include expenses related to financial accounting, purchasing or other overhead activities which are of general applicability to all operating functions. Such expenses shall be included in function 6800 General and Administrative.

5500 *Passenger Service.* This function shall include all expenses chargeable directly to activities contributing to the comfort, safety and convenience of passengers while in flight and when flights are interrupted. It shall not include expenses incurred in enplaning or deplaning passengers, or in securing and selling passenger transportation and caring for passengers prior to entering a flight status. Such expenses shall be included in functions 6400 Aircraft and Traffic Servicing and 6700 Promotion and Sales, respectively.

6400 *Aircraft and Traffic Servicing.* (a) This function shall include the compensation of ground personnel and other expenses incurred on the ground incident to the protection and control of the in-flight movement of aircraft, scheduling and preparing aircraft operational crews for flight assignment, handling and servicing aircraft while in line operation, servicing and handling traffic on the ground, subsequent to the issuance of documents establishing the air carrier's responsibility to provide air transportation and in-flight expenses of handling and protecting all non-passenger traffic including passenger baggage.

(b) This function shall include only those aircraft servicing and cleaning expenses which are incurred as an incidental routine during the normal productive use of aircraft in line operations. It shall not include expenses incurred in the repair and maintenance of property and equipment, or in checking or inspecting property and equipment in accordance with prescribed operational standards when such activities are not an incidental routine during the normal productive use of aircraft. Such expenses shall be included in function 5400 Maintenance.

(c) This function shall not include expenses incurred in securing traffic, arranging aircraft space for traffic sold or in issuing documents confirming traffic sales and establishing the air carrier's responsibility to provide air transportation. Such expenses shall be included in function 6700 Promotion and Sales. However, for purposes of this system of accounts expenses attributable to the operation of airport traffic offices shall be included in this function. Expenses attributable to the operation of city traffic offices shall be included in function 6700 Promotion and Sales.

(d) Group III air carriers shall further subdivide this function as follows:

6100 *Aircraft Servicing.* This subfunction shall include the compensation of ground personnel and other expenses incurred on the ground incident to the protection and control of the in-flight movement of aircraft; scheduling or preparing aircraft operational crews for flight assignment; landing and parking aircraft; visual inspection, routine checking, servicing and fueling of aircraft; and other expenses incurred on the ground incident to readying for arrival and take-off of aircraft.

6200 *Traffic Servicing.* a. This subfunction shall include the compensation of ground personnel and other expenses incurred on the ground incident to handling traffic of all types and classes on the ground subsequent to the issuance of documents establishing the air carrier's responsibility to provide air transportation and expenses attributable to the operation of airport traffic offices. It shall include expenses incurred in both enplaning and deplaning traffic as well as expenses incurred in preparation for

enplanement and all expenses subsequent to deplanement.

b. This subfunction shall also include costs incurred in handling and protecting all nonpassenger traffic while in flight. It shall not include expenses incurred in contributing to the comfort, safety and convenience of passengers while in flight or when flights are interrupted. Such expenses shall be included in function 5500 Passenger Service.

6300 *Servicing Administration.* a. This subfunction shall include expenses of a general nature incurred in performing supervisory or administrative activities relating solely and in common to subfunctions 6100 Aircraft Servicing and 6200 Traffic Servicing.

b. This subfunction shall not include supervisory or administrative expenses which can be charged directly to subfunction 6100 Aircraft Servicing or subfunction 6200 Traffic Servicing. Nor shall this subfunction include expenses which contribute more than incidentally to functions other than function 6400 Aircraft and Traffic Servicing. Such expenses shall be included in function 6800 General and Administrative.

c. The expenses in this subfunction shall be recorded separately for each geographic location at which incurred.

6700 *Promotion and Sales.* (a) This function shall include expenses incurred in creating public preference for the air carrier and its services; stimulating the development of the air transport market; and promoting the air carrier or developing air transportation generally.

(b) It shall also include the compensation of personnel and other expenses incident to documenting sales; expenses incident to controlling and arranging or confirming aircraft space for traffic sold; expenses incurred in direct sales solicitation and selling of aircraft space; and expenses incurred in developing tariffs and schedules for publication.

(c) This function shall not include expenses incurred in handling traffic subsequent to the issuance of documents establishing the air carrier's responsibility to provide air transportation which shall be included in functions 5500 Passenger Service and 6400 Aircraft and Traffic Servicing. However, for purposes of this system of accounts expenses attributable to the operation of airport traffic offices shall be included in function 6400 Aircraft and Traffic Servicing. Expenses attributable to the operation of city traffic offices shall be included in this function.

(d) Group III air carriers shall subdivide this function as follows:

6500 *Reservations and Sales.* This subfunction shall include expenses incident to direct sales solicitation, documenting sales, controlling and arranging or confirming aircraft space sold, and in developing tariffs and schedules for publication. It shall also include expenses attributable to the operation of city traffic offices. Expenses incurred in stimulating traffic and promoting the air carrier or air transportation generally shall not be included in this subfunction but in subfunction 6600 Advertising and Publicity.

6600 *Advertising and Publicity.* (a) This subfunction shall include expenses incurred in creating public preference for the air carrier and its services; stimulating development of the air transport market; and promoting the air carrier or developing air transportation generally.

(b) This subfunction shall not include expenses incurred in direct sales solicitation and selling of aircraft space. Such costs shall be included in subfunction 6500 Reservations and Sales.

6800 *General and Administrative.* (a) This function shall include expenses of a general corporate nature and expenses incurred in performing activities which contribute to more than a single operating function such as general financial accounting activities, purchasing activities, representation at law, and other general operational administration, which are not directly applicable to a particular function.

(b) This function shall not include expenses incurred directly in promoting traffic or in promoting relations of the air carrier generally with the public which shall be included in function 6700 Promotion and Sales. Nor shall this function include expenses, regularly applicable in large part to a specific function, which contribute only incidentally, or in small amount, to various other functions. Such expenses when of such size as will not distort the function to which predominantly related, shall be included in the specific function to which regularly related. However, expenses of significant amount regularly contributing to activities embracing two or more functions shall be included in this function.

7000 *Depreciation and Amortization.* This function shall include all charges to expense to record losses suffered through current exhaustion of the serviceability of property and equipment due to wear and tear from use and the action of time and the elements, which are not replaced by current repairs, as well as losses in serviceability occasioned by obsolescence, supersession, discoveries, change in popular demand or action by public authority. It shall also include charges for the amortization of capitalized developmental and preoperating costs, and other intangible assets applicable to the performance of air transportation. (See accounts 1830 Developmental and Preoperating Costs and 1880 Other Intangibles.)

§ 241.12 *Objective classification; operating revenues.*

00 *General Instructions.* (a) The objective accounts established herein are prescribed for all air carrier groups. Each air carrier shall credit the gross revenues accruing from services ordinarily associated with air transportation or its incidental services, performed during the current accounting period, to the appropriate account established herein for each revenue source. Expenses incident to transport services from which revenue is earned shall not be charged to the related revenue account. However, direct costs of forwarding traffic, when no refund is made of transportation sales as a result of interrupted trips, and refunds of sales, shall be charged to the applicable revenue account.

(b) Revenues accruing from transactions conducted in foreign currencies shall be credited to the applicable objective accounts at the United States dollar equivalent, at currently realizable, or officially prescribed rates of exchange, of foreign currencies received or due the air carrier from sales.

(c) Expenses directly associated with the performance of incidental services shall be charged to the applicable incidental revenue account (See classification 4600 Incidental Revenues—Net). Except as provided in operating expense objective account 77 Uncleared Expense Credits, all expenses allocated to incidental services shall be cleared by appropriate credits to the applicable operating expense objective accounts.

01 *Passenger.* (a) Record here revenue from the transportation of passengers by air including infants transported at reduced fares, berth charges, surcharges for premium services and other similar charges. Service charges for persons travelling on a nonrevenue basis shall be recorded in objective account 19 Other Operating Revenues.

(b) This account shall be subdivided as follows by all air carrier groups:

01.1 *Passenger—First Class.* Record here revenue from the air transportation of passengers moving at either standard fares or premium fares, or at reduced fares not predicated upon the use of aircraft space specifically separated from first class, and for whom standard or premium quality services are provided.

01.2 *Passenger—Coach.* Record here revenue from the air transportation of passengers moving at special fares reduced from the first class or premium fares which are predicated upon both the operation of specifically designated aircraft space and a reduction in the quality of service regularly and ordinarily provided.

02 *United States Mail.* (a) Record here revenue from the transportation by air of United States mail at service mail rates established by the Civil Aeronautics Board.

(b) Fines and penalties imposed by the United States Government in connection with the carriage of mail shall not be charged to this account but to profit and loss account 89 Miscellaneous Nonoperating Debits.

(c) This account shall be subdivided as follows by all air carrier groups:

02.1 *Priority.* Record here revenue from mail bearing postage at rates established specifically for air mail service or mail moving at service transportation rates equivalent to those established for mail bearing the full air mail postage.

02.2 *Nonpriority.* Record here revenue from mail moving at service transportation rates lower than those established for mail bearing postage established specifically for air mail service.

03 *Foreign Mail.* (a) Record here revenue from the transportation by air of mail other than United States mail.

(b) Fines and penalties imposed by foreign governments shall not be charged to this account but to profit and loss account 89 Miscellaneous Nonoperating Debits.

06 *Property.* (a) Record here revenue from the transportation by air of property including excess passenger baggage.

(b) Revenues resulting from services incidental to the transportation services such as collection of shippers interest insurance premiums and charges and fees for service such as pick-up and delivery, assembly and distribution, storage and handling, and C. O. D. collection shall not be credited to this account but to profit and loss account 17 Air Cargo Services.

(c) This account shall be subdivided as follows by all air carrier groups:

06.1 *Express.* Record here revenue from the transportation by air of express as defined in tariffs filed with the Civil Aeronautics Board.

06.2 *Freight.* Record here revenue from the transportation by air of property other than express and passenger baggage.

06.3 *Excess Passenger Baggage.* Record here revenue from the transportation by air of passenger baggage in excess of fixed free weight.

07 *Charter.* Record here revenue from transport services in which the remuneration received from the party receiving transportation accrues directly to the account of the air carrier and the party receiving transportation obtains exclusive use of an aircraft at published charter rates. This account shall not include revenues or fees from other carriers, or others, for air transport facilities provided or operated by the air carrier when the remuneration received from the party receiving transportation accrues directly to other air carriers, or others, or when the revenue accruing directly to the air carrier from the party receiving air transportation is based upon individual contractural rates, as opposed to published charter rates. Such revenues shall be included in profit and loss accounts 11 Rents, 13 Interchange Sales—Associated Companies, or 15 Interchange Sales—Outside, as appropriate.

08 *Section 406 Subsidy.* Record here amounts of compensation fixed pursuant to section 406 (b) of the Civil Aeronautics Act which exceed amounts accruing to the air carrier under service mail rates established by the Civil Aeronautics Board for the carriage of United States mail.

09 *Foreign Exchange Fluctuation Adjustments.* Record here gains or losses from transactions involving currency conversions resulting from normal, routine, day-to-day fluctuations in rates of foreign exchange. Gains or losses of a nonroutine, abnormal character shall not be entered in this account but in profit and loss account 85 Foreign Exchange Adjustments.

10 *Hotel, Restaurant and Food Service.* (a) Record here revenues from and expenses related to the operation of hotels and restaurants and similar facilities, and from sales of food. (See objective account 61 Passenger Food Expense.)

(b) This account shall be subdivided as follows by all air carrier groups:

10.1 Gross Revenues.
10.2 Depreciation Expense.
10.3 Other Expenses.

11 *Rents.* (a) Record here revenues from and expenses related to property and equipment owned or leased which has been rented or subleased to others exclusive of associated companies. This account shall not include fees from the use by others of air carrier aircraft under aircraft interchange agreements.

(b) This account shall be subdivided as follows by all air carrier groups:

11.1 Gross Revenues.
11.2 Depreciation Expense.
11.3 Other Expenses.

12 *Limousine Service.* (a) Record here revenues from and expenses related to the operation of passenger limousine surface transportation services.

(b) This account shall be subdivided as follows by all air carrier groups:

12.1 Gross Revenues.
12.2 Depreciation Expense.
12.3 Other Expenses.

13 *Interchange Sales—Associated Companies.* (a) Record here the revenues or fees from and the expenses related to services provided associated companies by the air carrier under aircraft interchange agreements. This account shall be charged and the applicable operating expense objective accounts shall be credited, except as provided in operating expense objective account 77 Uncleared Expense Credits, with the expenses attaching to services provided associated companies under aircraft interchange agreements.

(b) This account shall not include revenues or expenses related to air transportation services performed in the name of and for the account of the accounting air carrier. Such revenues shall be included in applicable transport revenue and operating expense objective accounts.

(c) This account shall be subdivided as follows by all air carrier groups:

13.1 Gross Revenues.
13.2 Depreciation Expense.
13.3 Other Expenses.

14 *General Service Sales — Associated Companies.* (a) Record here the revenues, commissions or fees from and expenses related to other than air transportation and aircraft interchange services provided associated companies by the air carrier. This account shall include the contractual fees or other revenues from and expenses related to services provided associated companies in the operation of facilities which are used jointly with associated companies, as well as revenues from and the costs related to the sale of supplies, parts and repairs sold directly or furnished as a part of services to associated companies.

(b) This account shall not include consideration received from sales of property, equipment, materials or supplies when disposed of as a part of a program involving retirement of property and equipment as opposed to routine sales and services to associated companies unless such disposition is conducted as a normal part of the incidental sales activity. Such retirement gains or losses shall be included in capital gains and losses accounts. Maintenance parts, materials or supplies sold as a service to associated companies shall be charged to this account at cost without adjustment of related obsolescence or depreciation reserves.

(c) This account shall be subdivided as follows by all air carrier groups:

14.1 Gross Revenues.
14.2 Depreciation Expense.
14.3 Other Expenses.

15 *Interchange Sales—Outside.* (a) Record here the revenues or fees from and the expenses related to services provided other than associated companies by the air carrier under aircraft interchange agreements. This account shall be charged and the applicable operating expense objective accounts shall be credited, except as provided in operating expense objective account 77 Uncleared Expense Credits, with the expenses attaching to services provided other than associated companies under aircraft interchange agreements.

(b) This account shall not include revenues or expenses related to air transportation services performed in the name of and for the account of the accounting air carrier. Such revenues and expenses shall be included in applicable transport revenue and operating expense objective accounts.

(c) This account shall be subdivided as follows by all air carrier groups:

15.1 Gross Revenues.
15.2 Depreciation Expense.
15.3 Other Expenses.

16 *General Service Sales—Outside.* (a) Record here the gross revenues, commissions or fees from and expenses related to other than air transportation and aircraft interchange services provided to other than associated companies by the air carrier. This account shall include the contractual fees or other revenues from and expenses related to services provided to other than associated companies in the operation of facilities which are used jointly with others, as well as revenues from and the costs related to the sale of supplies, parts and repairs sold directly or furnished as a part of services to others.

(b) This account shall not include consideration received from sales of property, equipment, materials or supplies when disposed of as a part of a program involving retirement of property and equipment as opposed to routine sales and services to others unless such disposition is conducted as a normal part of the incidental sales activity. Such retirement gain or loss shall be included in capital gains and losses accounts. Maintenance parts, materials or supplies sold as a service to others shall be charged to this account at cost without adjustment of related obsolescence or depreciation reserves.

(c) This account shall be subdivided as follows by all air carrier groups:

16.1 Gross Revenues.
16.2 Depreciation Expense.
16.3 Other Expenses.

17 *Air Cargo Services.* (a) Record here fees and other revenues from and expenses related to incidental services performed in connection with cargo shipments such as pick-up and delivery fees, shipper's interest insurance charges, storage and handling fees, etc.

(b) This account shall be subdivided as follows by all air carrier groups:

17.1 Gross Revenues.
17.2 Depreciation Expense.
17.3 Other Expenses.

18 *Other Incidental Revenues.* (a) Record here revenues from and expenses related to incidental services not provided for in profit and loss accounts 10 through 17, inclusive, such as revenue and expenses incident to vending machines, parcel rooms and storage facilities, etc.

(b) This account shall be subdivided as follows by all air carrier groups:

18.1 Gross Revenues.
18.2 Depreciation Expense.
18.3 Other Expenses.

19 *Other Operating Revenues.* (a) Record here revenues from services associated with air transportation not provided for in profit and loss accounts 01 through 09, inclusive, such as revenues from service charges for failure to cancel or for late cancellation of air transportation reservations, revenues from the transportation of corpses, revenues from aerial photography and advertising flights, and revenues from nontransportation service charges collected on both revenue and nonrevenue flights.

(b) This account shall be subdivided as follows by all air carrier groups:

19.1 Reservations Cancellation Fees.
19.9 Miscellaneous Operating Revenues.

§ 241.13 *Objective Classification; Operating Expenses.*

00 *General Instructions.* (a) Each element of expense, ordinarily associated with air transportation services performed during the current accounting year, shall be charged to the accounts established in this section in accordance with the objectives served by each expenditure. Basic objective accounts, applicable to all air carrier groups, are established for recording all expense elements. These basic accounts are in certain areas subdivided to provide greater detail for indicated air carrier groups.

(b) To the end that the integrity of the prescribed objective accounts shall not be impaired, each air carrier (1) shall charge the appropriate account prescribed for each service purchased or expense element incurred expressly for the benefit of the air carrier regardless of whether incurred directly by the air carrier or through an agent or other intermediary, and (2) except as provided in objective account 77 Uncleared Expense Credits, shall credit, or charge, as appropriate, the account prescribed for each expense element which may be involved in distributions of expenses between separate operating entities of the air carrier, between incidental and transport services or transport functions, between balance sheet and profit and loss elements and between the air carrier and others, when the expenses are incurred initially by or for the benefit of the air carrier. At the option of the air carrier, standard rates applicable to each objective account comprising a particular pool of expenses subject to assignment between two or more activities, may be established for proration purposes, provided the rates established are predicated upon the experience of the air carrier and are reviewed and modified as appropriate at least once each year.

21 *General Management Personnel.* Record here the compensation, including vacation and sick leave pay, of general officers and supervisors, and immediate assistants regardless of locality at which based, responsible for an activity not provided for in profit and loss accounts 25 through 35, inclusive, or an activity involving two or more such accounts.

23 *Pilots and Copilots.* Record here the compensation, including vacation and sick leave pay, of pilots and copilots assigned or held inactive awaiting assignment to flight duty.

24 *Other Flight Personnel.* Record here the compensation, including vacation and sick leave pay, of other flight personnel assigned or held inactive awaiting assignment

to flight status, not responsible for the in-flight management of aircraft, such as engineers, navigation officers and cabin attendants.

25 *Maintenance Labor.* (a) Record here the compensation for time of personnel spent directly on specific property and equipment maintenance projects. (See subfunction 5200 Direct Maintenance.) Vacation and sick leave pay shall be charged to profit and loss account 28 Trainees, Instructors and Unallocated Shop Labor.

(b) This account shall be subdivided as follows:

GROUP II AND GROUP III AIR CARRIERS

25.1 *Labor—Airframes.* Record here the direct labor expended upon airframes and spare instruments or parts related to airframes.

25.2 *Labor—Aircraft Engines.* Record here the direct labor expended upon aircraft engines and spare instruments or parts related to aircraft engines.

25.3 *Labor—Other Flight Equipment.* Record here the direct labor expended upon flight equipment, other than airframes, aircraft engines and spare instruments and parts related to airframes and aircraft engines.

GROUP I AIR CARRIERS

25.6 *Labor—Flight Equipment.* Record here the direct labor expended upon flight equipment of all types and classes.

ALL AIR CARRIER GROUPS

25.9 *Labor—Ground Property and Equipment.* Record here the direct labor expended upon ground property and equipment of all types and classes. Direct labor expended upon general ground properties shall be charged to subfunction 5200 Direct Maintenance; and direct labor expended upon maintenance buildings and equipment shall be charged to subfunction 5300 Maintenance Burden.

26 *Aircraft and Traffic Handling Personnel.* (a) Record here the compensation, including vacation and sick leave pay, of personnel of all types and classes, including direct supervisory personnel, assigned to ground activities, engaged directly in protecting and controlling aircraft in flight, scheduling and preparing flight crews for flight assignment, parking and servicing aircraft incidental to line operations, and of personnel of all types and classes engaged in servicing and handling traffic of all types and classes on the ground.

(b) This account shall be subdivided as follows by Group II and Group III air carriers:

26.1 *General Aircraft and Traffic Handling Personnel.* Record here compensation of personnel handling or controlling aircraft and generally servicing or handling traffic of all types and classes whose activities are not identifiable with the particular activities provided for in subaccounts 26.2, 26.3 or 26.4, inclusive.

26.2 *Aircraft Control Personnel.* Record here compensation of personnel whose activities are identifiable with the protection and control of aircraft in flight and in scheduling or preparing flight crews for flight assignment.

26.3 *Passenger Handling Personnel.* Record here compensation of personnel whose activities are identifiable with the handling of passengers.

26.4 *Cargo Handling Personnel.* Record here compensation of personnel whose activities are identifiable with the handling of passenger baggage, mail, express or freight.

28 *Trainees, Instructors and Unallocated Shop Labor.* (a) Record here the compensation, including vacation and sick leave pay, of instructors and personnel in an off-the-job training status; direct maintenance personnel compensation not assigned to specific projects; and vacation or sick leave pay of direct maintenance personnel.

(b) This account shall be subdivided as follows by all air carrier groups:

28.1 *Trainees and Instructors.* Record here the compensation of instructors and personnel in a training status.

28.2 *Unallocated Shop Labor.* Record here the pay of direct maintenance personnel which has not been assigned to profit and loss account 25 Maintenance Labor for time spent on specific maintenance projects and vacation or sick leave pay of direct maintenance personnel.

30 *Communications Personnel.* Record here the compensation, including vacation and sick leave pay, of personnel of all types and classes, including direct supervisory personnel, engaged in local, interstation, or ground-air communications activities. This account shall include compensation of personnel such as radio operators, telephone operators, switch-board operators, teletype operators, messengers, etc.

31 *Record Keeping and Statistical Personnel.* Record here the compensation, including vacation and sick leave pay, of personnel including supervisory personnel, whose primary duties relate to maintaining records or conducting economic or other analyses required for general management controls, such as accountants, economists, statisticians, maintenance record clerks, stores record clerks, stores receiving and issuing clerks and file clerks. This account shall not include personnel engaged in documentation or other activities constituting an integral part of activities encompassed by other objective accounts.

32 *Lawyers and Law Clerks.* Record here the compensation, including vacation and sick leave pay, of air carrier personnel engaged in law research or representing the air carrier in matters of law.

33 *Traffic Solicitors.* Record here the compensation, including vacation and sick leave pay, of personnel engaged directly in solicitation of traffic of all types and classes. This account shall not include compensation of traffic office personnel engaged in soliciting activities incidental to the documenting of sales and assigning aircraft space which shall be included in profit and loss account 26 Aircraft and Traffic Handling Personnel.

34 *Purchasing Personnel.* (a) Record here the compensation, including vacation and sick leave pay, of personnel, including direct supervisory personnel, engaged in purchasing activities.

(b) This account shall include compensation of personnel engaged in maintaining purchasing records but shall not include compensation of personnel responsible for the control of inventories or stores which shall be included in objective account 31 Record Keeping and Statistical Personnel. In cases where the responsibility for maintaining purchasing and stores records are inseparable, the related compensation may be accounted for in accordance with dominant responsibilities.

35 *Other Personnel.* Record here the compensation, including vacation and sick leave pay, of personnel whose activities are not identifiable with activities provided for in profit and loss accounts 21 through 34, inclusive.

36 *Personnel Expenses.* (a) Record here expenses incurred by personnel, attaching to goods or services used personally, which are reimbursed directly to personnel or reimbursed indirectly through vendors who bill the air carrier directly for services rendered employees.

(b) This account shall include allowances in lieu of expenses as well as expenses incurred for travel, lodgings, meals, entertainment of individuals or groups of individuals, and membership fees and dues in professional or social clubs and associations.

(c) Records shall be maintained which will separately and clearly identify the nature of each item charged to this account.

37 *Communications Purchased.* Record here expenses, including related taxes, incurred for rental of communication services and for communication services of all types and classes not provided by personnel of the air carrier, such as telegraph, telephone, teletype, private line services, and charges for communication services from organizations operated jointly with associated companies or others.

38 *Light, Heat, Power and Water.* Record here charges related to the provision of light, heat, power and water, including related taxes.

39 *Traffic Commissions.* (a) Record here charges by others, including associated companies, for commissions arising from sales of transportation. Commissions, fees or other charges incurred for general agency services, as opposed to commissions arising from sales of transportation, shall not be included in this account but in profit and loss account 42 General Services Purchased—Associated Companies or profit and loss account 43 General Services Purchased—Outside, as appropriate.

(b) This account shall be subdivided as follows by Group II and Group III air carriers:

39.1 *Commissions—Passenger.* Record here charges for commissions arising from sales of passenger transportation.

39.2 *Commissions—Property.* Record here charges for commissions arising from sales of nonpassenger transportation.

40 *Legal Fees and Expenses.* Record here expenditures incurred for legal services by counsel retained on a fee basis and related expenses reimbursed or borne directly by the air carrier and other expenses incurred directly by the air carrier for legal supplies not obtainable from the air carrier's general stationary stock. This account shall not be charged with legal fees or expenses incurred in connection with claims occasioned by accidents or other casualties. Such charges shall be accumulated in balance sheet account 1890 Other Deferred Charges and cleared to profit and loss account 58 Injuries, Loss and Damage upon settlement of insurance claims. Nor should this account include fees or expenses related to developmental projects. Such expenses shall be included as appropriate in profit and loss account 89 Miscellaneous Nonoperating Debits or balance sheet account 1830 Developmental and Preoperating Costs.

41 *Professional and Technical Fees and Expenses.* Record here fees and expenses, other than legal fees and expenses, incurred for outside professional and technical services which are reimbursed or borne directly by the air carrier. This account shall not include fees or expenses related to developmental projects. Such expenses shall be included, as appropriate, in profit and loss account 89 Miscellaneous Nonoperating Debits or balance sheet account 1830 Developmental and Preoperating Costs.

42 *General Services Purchased—Associated Companies.* (a) Record here charges for services performed for the air carrier by associated companies which are not identifiable with services provided for in profit and loss accounts 37 through 41, inclusive, or which are not expressly identifiable with other objective expense accounts.

(b) Charges from associated companies for services provided the air carrier under aircraft interchange agreements or other agreements embracing a complete activity or service such as the operation of jointly used ground facilities, shall be included in this account for each operating function to which the services contribute. Charges for providing aircraft capacity including charges for depreciation and interest on the capital related to the flight equipment provided shall be included in function 5100 Flying Operations.

(c) This account shall be subdivided as follows by each air carrier group:

GROUP II AND GROUP III AIR CARRIERS

42.1 *Airframe Repairs—Associated Companies.* Record here charges by associated companies for maintenance or repair of airframes and spare instruments or parts related to airframes owned or leased by the air carrier. Charges by associated companies for maintenance of airframes provided under aircraft interchange agreements shall not be included in this subaccount but in subaccount 42.7 Aircraft Interchange Charges—Associated Companies.

42.2 *Aircraft Engine Repairs—Associated Companies.* Record here charges by associated companies for maintenance or repair of aircraft engines including spare instruments or parts related to aircraft engines owned or leased by the air carrier. Charges by associated companies for maintenance of aircraft engines provided under aircraft interchange agreements shall not be included in this subaccount but in subaccount 42.7 Aircraft Interchange Charges—Associated Companies.

42.3 *Other Flight Equipment Repairs—Associated Companies.* Record here charges by associated companies for maintenance or repair of flight equipment owned or leased by the air carrier, other than airframes, aircraft engines, and spare instruments and parts related to airframes and aircraft engines. Charges by associated companies for maintenance of flight equipment provided under aircraft interchange agreements shall not be included in this subaccount but in subaccount 42.7 Aircraft Interchange Charges—Associated Companies.

GROUP I AIR CARRIERS

42.6 *Flight Equipment Repairs—Associated Companies.* Record here charges by associated companies for maintenance or repair of flight equipment of all types and classes owned or leased by the air carrier. Charges by associated companies for maintenance of flight equipment provided under aircraft interchange agreements shall not be included in this subaccount but in subaccount 42.7 Aircraft Interchange Charges—Associated Companies.

ALL AIR CARRIER GROUPS

42.7 *Aircraft Interchange Charges—Associated Companies.* Record here charges by associated companies for providing aircraft capacity or services related to the direct operation or maintenance of flight equipment under aircraft interchange agreements.

42.8 *General Interchange Service Charges — Associated Companies.* Record here charges by associated companies for services provided the air carrier under aircraft interchange agreements, other than charges related to the direct operation or maintenance of flight equipment, including all charges for maintenance and repair of ground properties, as well as fees or charges for traffic solicitation and sales, or supervision and administration covered by the aircraft interchange agreements. Charges for depreciation or interest on capital related to flight equipment provided under interchange agreements shall not be included in this subaccount but in subaccount 42.7 Aircraft Interchange Charges—Associated Companies.

42.9 *Other Services—Associated Companies.* (a) Record here charges for services performed by associated companies not provided for elsewhere.

(b) This subaccount shall include only those charges for services, not provided for in profit and loss accounts 37 to 41, inclusive, and subaccounts 42.1 to 42.8, inclusive, embracing a complete activity or service provided by associated companies, such as the operation of traffic offices or other facilities used jointly with the air carrier, which do not represent reimbursement of specific expense elements incurred expressly for the benefit of the air carrier. Reimbursement of expenses incurred expressly for the benefit of the air carrier shall be entered in appropriate personnel compensation or other objective expense accounts. The cost of services received in the repair of general ground properties shall be charged to subfunction 5200 Direct Maintenance; and services received in the repair of maintenance buildings and equipment shall be charged to subfunction 5300 Maintenance Burden.

43. *General Services Purchased—Outside.* (a) Record here charges for services performed for the air carrier by other than associated companies which are not identifiable with services provided for in profit and loss accounts 37 through 41, inclusive, or which are not expressly identified with other objective expense accounts.

(b) Charges from others for services provided the air carrier under aircraft interchange agreements or other agreements embracing a complete activity or service, such as the operating of jointly used ground facilities, shall be included in this account for each operating function to which the services contribute. Charges for providing aircraft capacity, including charges for depreciation and interest on the capital related to the flight equipment provided, shall be included in function 5100 Flying Operations.

(c) This account shall be subdivided by each air carrier group, as follows:

GROUP II AND GROUP III AIR CARRIERS

43.1 *Airframe Repairs—Outside.* Record here charges for maintenance or repair of airframes and spare instruments or parts related to airframes owned or leased by the air carrier. Charges by others for maintenance of airframes provided under aircraft interchange agreements shall not be included in this subaccount but in subaccount 43.7 Aircraft Interchange Charges—Outside.

43.2 *Aircraft Engine Repairs—Outside.* Record here charges for maintenance or repair of aircraft engines including spare instruments or parts related to aircraft engines owned or leased by the air carrier. Charges by others for maintenance of aircraft engines provided under aircraft interchange agreements shall not be included in this subaccount but in subaccount 43.7 Aircraft Interchange Charges—Outside.

43.3 *Other Flight Equipment Repairs—Outside.* Record here charges for maintenance or repair of flight equipment owned or leased by the air carrier, other than airframes, aircraft engines, and spare instruments and parts related to airframes and aircraft engines. Charges by others for maintenance of flight equipment provided under aircraft interchange agreements shall not be included in this subaccount but in subaccount 43.7 Aircraft Interchange Charges—Outside.

GROUP I AIR CARRIERS

43.6 *Flight Equipment Repairs—Outside.* Record here charges for maintenance or repair of flight equipment of all types and classes owned or leased by the air carrier. Charges by others for maintenance of flight equipment provided under aircraft interchange agreements shall not be included in this subaccount but in subaccount 43.7 Aircraft Interchange Charges—Outside.

ALL AIR CARRIER GROUPS

43.7 *Aircraft Interchange Charges—Outside.* Record here charges by other than associated companies for providing aircraft capacity or services related to the direct operation or maintenance of flight equipment under aircraft interchange agreements.

43.8 *General Interchange Service Charges—Outside.* Record here charges by others, except associated companies, for services provided the air carrier under aircraft interchange agreements, other than charges related to the direct operation or maintenance of flight equipment, including all charges for maintenance and repair of ground properties, as well as fees or charges for traffic solicitation and sales, or supervision and administration covered by the aircraft interchange agreements. Charges for depreciation or interest on capital related to flight equipment provided under interchange agreements shall not be included in this subaccount but in subaccount 43.7 Aircraft Interchange Charges—Outside.

43.9 *Other Services—Outside.* Record here charges for maintenance and repair of ground property and equipment of all types and classes and other charges for services performed by others not provided for elsewhere. This subaccount shall include only those charges for services, not provided for elsewhere in profit and loss accounts 37 to 43 embracing a complete activity or service provided by other than associated companies such as the operation of traffic offices or other facilities used jointly with the air carrier which do not represent reimbursement of specific expense elements incurred expressly for the benefit of the air carrier. Reimbursement of expenses incurred expressly for the benefit of the air carrier shall be entered in appropriate personnel compensation or other objective expense accounts. The cost of services received in the repair of general ground properties shall be charged to subfunction 5200 Direct Maintenance; and services received in the repair of maintenance buildings and equipment shall be charged to subfunction 5300 Maintenance Burden.

44 *Rentals and Landing Fees.* (a) Record here rentals, fees or charges incurred in the use of property and equipment provided by others and for the landing or storing of aircraft.

(b) This account shall be subdivided as follows by all air carrier groups:

44.1 *Rentals.* Record here charges for use of property and equipment.

44.2 *Landing Fees.* Record here aircraft landing charges and fees.

45 *Aircraft Fuels and Oils.* (a) Record here the cost of fuels and oils issued from stocks of the air carrier, or delivered directly by others, to aircraft for use in flight operations. Adjustments of inventories of aircraft fuel and oil shall also be entered in this account. The cost of fuels and oils used in repairs and maintenance services and non-refundable fuel and oil taxes shall not be included in this account but in profit and loss accounts 49 Shop and Servicing Supplies and 69 Taxes—Other than Payroll, respectively.

(b) This account shall be subdivided as follows by Group II and Group III air carriers:

45.1 *Aircraft Fuels.* Record here the cost of fuels used in flight operations.

45.2 *Aircraft Oils.* Record here the cost of oils used in flight operations.

46 *Maintenance Materials.* (a) Record here the cost of materials and supplies consumed directly in specific property and equipment maintenance projects.

(b) This account shall be subdivided as follows:

GROUP II AND GROUP III AIR CARRIERS

46.1 *Materials—Airframes.* Record here the cost of materials and supplies consumed directly in maintenance of airframes and spare instruments or parts related to airframes.

46.2 *Materials—Aircraft Engines.* Record here the cost of materials and supplies consumed directly in maintenance of aircraft

engines and spare instruments or parts related to aircraft engines.

46.3 *Materials—Other Flight Equipment.* Record here the cost of materials and supplies consumed directly in maintenance of flight equipment, other than airframes and aircraft engines, or spare instruments and parts related to airframes and aircraft engines.

GROUP I AIR CARRIERS

46.6 *Materials—Flight Equipment.* Record here the cost of materials and supplies consumed directly in the maintenance of flight equipment of all types and classes.

ALL AIR CARRIER GROUPS

46.9 *Materials—Ground Property and Equipment.* Record here the cost of materials and supplies consumed directly in the maintenance of ground property and equipment of all types and classes. The cost of materials and supplies consumed in the repair of general ground properties shall be charged to subfunction 5200 Direct Maintenance; and materials and supplies consumed in the repair of maintenance buildings and equipment shall be charged to subfunction 5300 Maintenance Burden.

49 *Shop and Servicing Supplies.* Record here the cost of supplies and expendable small tools and equipment used in maintaining, servicing and cleaning property or equipment the cost of which cannot be directly assigned to a specific job or type of work.

50 *Stationery, Printing and Office Supplies.* Record here the cost of stationery and forms used by the air carrier including the cost of engineering and shipping supplies.

51 *Passenger Food Expense.* (a) Record here the cost of food and refreshments served passengers except food costs arising from interrupted trips.

(b) If the air carrier prepares its own food, the initial cost and expenses incurred in the preparation thereof shall be accumulated in a clearly identified clearing account through which the cost of food shall be cleared to this account, to profit and loss account 36 Personnel Expenses, and to profit and loss account 10 Hotel, Restaurant and Food Service on bases which appropriately allocate the cost of food served passengers, the cost of food provided employees without charge and the cost of food sold.

53 *Other Supplies.* Record here the cost of supplies consumed and not provided for otherwise.

54 *Inventory Adjustments.* Record here adjustments for overage, shortage or shrinkage of inventories carried in balance sheet accounts 1310 Flight Equipment Expendable Parts and 1330 Miscellaneous Materials and Supplies. Adjustment of aircraft fuel and oil inventories shall not be included in this account but in profit and loss account 45 Aircraft Fuels and Oils. Gains or losses from retirements of materials and supplies shall not be recorded in this account but in profit and loss account 81 Capital Gains and Losses.

55 *Insurance—Public Liability and Property Damage.* (a) Record here provisions for self-insurance and the cost of fire, windstorm, loss, damage, public liability and property damage, and all other general insurance carried by the air carrier, except insurance covering liability for injuries, loss and damage to passengers and property, and insurance carried for the protection or welfare of employees.

(b) This account shall be subdivided as follows by all air carrier groups:

55.1 *Insurance Purchased.* Record here the cost of all purchased insurance properly chargeable to this account.

55.2 *Provisions for Self-Insurance.* Record here provisions for self-insurance against general risks, to be borne by the air carrier and properly chargeable to this account.

56 *Insurance—Traffic Liability.* Record here self-insurance provisions and the cost of insurance covering the air carrier's liability for injuries, loss and damage to passengers and cargo.

57 *Insurance—Employee Welfare.* Record here the cost of insurance of all kinds carried for the benefit or protection of employees and contributions of the air carrier to employee pension or other welfare plans.

58 *Injuries, Loss and Damage.* Record here the remainder of gains, losses or costs resulting from accidents, casualties or mishandlings, after offsetting insurance recoveries, as accumulated until finally determined, in balance sheet account 1890 Other Deferred Charges. This account shall not include gains or losses from retirement of property and equipment resulting from casualties. Such gains or losses shall be recorded in appropriate capital gains or losses accounts.

59 *Tariffs, Schedules and Timetables.* Record here the production and distribution cost, excluding compensation of air carrier personnel, of all tariffs, operating schedules, timetables, circulars and related quick reference charts.

60 *Advertising.* Record here the cost, excluding compensation of air carrier personnel, of all space, direct mail, spot and other advertising for the purpose of increasing air travel, disseminating air travel information and publicizing services offered by the air carrier.

62 *Other Promotional and Publicity Expenses.* Record here the costs, excluding compensation of air carrier personnel, of producing and distributing publicity releases and other expenses, not chargeable to profit and loss accounts 59 and 60, incurred for the purpose of publicizing or improving the public relations of the air carrier generally.

63 *Interrupted Trips Expense.* Record here expenses allowed or paid for the care and serving of passengers because of unscheduled interrupted passenger journeys. Cost to the air carrier of forwarding passengers by surface common carrier, or ticket refunds, shall not be charged to this account but to profit and loss account 01 Passenger Revenue.

64 *Memberships.* Record here the cost of membership dues in trade associations, chambers of commerce, or other business associations and organizations together with special assessments related thereto.

65 *Corporate and Fiscal Expenses.* Record here corporate and fiscal fees and expenses of the air carrier and all expenses in connection with exchange and transfer of capital stock excluding expenses in connection with original issuance of capital stock.

66 *Uncollectible Accounts.* Record here losses from uncollectible accounts and reserve provisions and adjustments thereto, for such losses. When reserves for uncollectible accounts are established, losses as realized shall be charged against such reserves and shall not be charged to this account.

67 *Clearance, Customs and Duties.* Record here clearance, customs, duties and brokerage fees and charges applicable to clearing aircraft and traffic.

68 *Taxes—Payroll.* Record here all taxes levied against the air carrier based upon or directly relating to compensation of personnel.

69 *Taxes—Other Than Payroll.* (a) Record here all taxes levied against the air carrier not otherwise provided for including non-refundable aircraft fuel and oil taxes. Interest and penalties on delinquent taxes shall not be charged to this account but to profit and loss accounts 87 Interest Expense and 89 Miscellaneous Nonoperating Debits, respectively.

(b) Entries to this account shall clearly reveal each kind of tax and the governmental agency to which paid or payable.

71 *Other Expenses.* Record here all expenses ordinarily associated with air transportation and its incidental services not provided for otherwise.

72 *Maintenance Reserve Provisions.* (a) Record here provisions to reserves for periodic maintenance of airframes and aircraft engines or for equalization of maintenance costs within the current accounting year. The direct costs actually expended in maintenance operations shall be charged as incurred to direct labor, materials and outside repair accounts and concurrently credited to this account.

(b) This account shall be subdivided as follows by all air carrier groups:

72.1 *Reserve Provisions—Airframes.* Record here provisions for maintenance of airframes.

72.2 *Reserve Provisions—Aircraft Engines.* Record here provisions for maintenance of aircraft engines.

73 *Expendable Parts Obsolescence Provisions.* In the event of waiver by the Civil Aeronautics Board of the prohibition against accruals of reserves for obsolescence of flight equipment expendable parts, provisions for accruals to such reserves shall be charged to this account. Amounts reserved through charges to this account shall be credited to balance sheet account 1311 Reserve for Obsolescence—Expendable Parts.

74 *Amortization.* (a) Record here amortization of deferred charges attaching to the air transportation services conducted by the air carrier which are not prepayments of recurrent expenses ordinarily requiring expenditures of working capital within one year.

(b) This account shall be subdivided as follows by all air carrier groups:

74.1 *Developmental and Preoperating Expenses.* Record here amortization of the cost of projects carried in balance sheet account 1830 Developmental and Preoperating Costs as approved or directed by the Civil Aeronautics Board.

74.2 *Other Intangibles.* Record here amortization of the cost of intangibles not provided for otherwise as approved or directed by the Civil Aeronautics Board.

75 *Depreciation.* (a) Record here provisions for depreciation of property and equipment carried in balance sheet accounts 1601 through 1640, inclusive.

(b) This account shall be subdivided as follows:

ALL AIR CARRIER GROUPS

75.1 *Depreciation — Airframes.* Record here provisions for depreciation of property and equipment carried in balance sheet account 1601 Airframes.

75.2 *Depreciation—Aircraft Engines.* Record here provisions for depreciation of property and equipment carried in balance sheet account 1602 Aircraft Engines.

GROUP II AND GROUP III AIR CARRIERS

75.3 *Depreciation—Airframe Parts.* Record here provisions for depreciation of spare airframe instruments and parts carried in balance sheet subaccount 1608.1 Airframe Parts and Assemblies.

75.4 *Depreciation—Aircraft Engine Parts.* Record here provisions for depreciation of spare aircraft engine instruments and parts carried in balance sheet subaccount 1608.5 Aircraft Engine Parts and Assemblies.

ALL AIR CARRIER GROUPS

75.5 *Depreciation—Other Flight Equipment.* Record here provisions for depreciation of property and equipment and parts carried in balance sheet accounts 1603 Aircraft Propellers, 1604 Aircraft Communications and Navigational Equipment, 1606 Miscellaneous Flight Equipment, 1607 Improvements to Leased Flight Equipment (exclusive of capitalized overhauls of leased flight equipment for which periodic maintenance reserves are maintained) and balance sheet subaccount 1608.9 Other Parts and Assemblies. Group I air carriers shall also include in this subaccount provisions for depreciation of property carried in balance sheet account 1608 Flight Equipment Rotable Parts and Assemblies.

75.6 *Depreciation—Flight Equipment.* This classification is established only for purposes of control by the Civil Aeronautics Board and shall include all charges to operating expenses for depreciation of flight equipment of all types and classes.

75.8 *Depreciation—Maintenance Equipment and Hangars.* Record here provisions for depreciation of property and equipment carried in balance sheet account 1634, Maintenance and Engineering Equipment and balance sheet subaccount 1640.1 Maintenance Buildings and Improvements.

75.9 *Depreciation—General Ground Property.* Record here provisions for depreciation of property and equipment carried in balance sheet accounts 1630 through 1640, other than account 1634, Maintenance and Engineering Equipment and subaccount 1640.1, Maintenance Buildings and Improvements.

77 *Uncleared Expense Credits.* (a) Record here credits to operating expenses, which have not been cleared to the objective accounts to which applicable.

(b) Each air carrier shall credit, or charge as appropriate, the objective account prescribed for each expense element which may be involved in distribution of expenses between separate reporting entities or separately operated divisions of the air carrier. At the option of the air carrier, either the individual applicable objective accounts or this account may be credited with amounts capitalized, charged against incidental services, or otherwise assigned to other than separate operating entities of the air carrier provided the aggregate credits to this account in each function do not, for any accounting year, distort the individual objective accounts of the function to which related and all expense credits applicable to complete individual transactions are consistently credited either to this account or the individual objective accounts to which related. Each air carrier using this account shall establish such standard practices as may be prescribed by the Civil Aeronautics Board or, in the absence of such action by the Civil Aeronautics Board, such standard practices as will prevent credits to this account from significantly distorting the individual objective accounts of each function to which related.

(c) This account shall not be credited with amounts applicable to objective accounts of the Flying Operations, Depreciation and Direct Maintenance functions. Credits applicable to such functions shall be carried to the individual objective accounts to which applicable.

(d) This account shall be subdivided as follows by all air carrier groups:

77.8 *Uncleared Interchange Expense Credits.* Record here credits to operating expenses, from operations performed for others under aircraft interchange agreements, which have not been cleared to the objective accounts to which applicable.

77.9 *Other Uncleared Expense Credits.* Record here credits to operating expenses, from other than operations under aircraft interchange agreements, which have not been cleared to the objective accounts to which applicable.

78 *Direct Maintenance—Flight Equipment.* This classification is established for purposes of control by the Civil Aeronautics Board and shall include all charges to operating expenses for maintenance of flight equipment of all types and classes.

79 *Applied Burden Debit/Credit.* (a) This classification is established only for purposes of control by the Civil Aeronautics Board and reporting on Form 41 by the air carriers, and shall reflect all maintenance burden applied in accordance with the provisions of Schedule P-5 of this system of accounts and reports.

(b) This classification shall be subdivided as follows by all air carrier groups:

79.6 Applied Burden—Flight Equipment.
79.8 Applied Burden—General Ground Property.

### § 241.14 *Objective classification; nonoperating income and expense.*

80 *Over or Under Self-Insurance Accruals.* Record here at the close of each accounting year any remaining balance between self-insurance provisions, charged to profit and loss subaccount 55.2 Provisions for Self-Insurance or account 56 Insurance—Traffic Liability and charges for uninsured losses realized during each accounting year, both of which shall be cleared to this account through balance sheet account 2350 Self-Insurance Accruals—Clearing. (See account 2350 Self-Insurance Accruals—Clearing).

81 *Capital Gains and Losses.* (a) Record here gains or losses on retirements of property and equipment, repair parts, supplies or materials, and investments in securities.

(b) This account shall be subdivided as follows by all air carrier groups:

81.1 *Capital Gains and Losses—Operating Property.* (a) Record here gains or losses on retirements of operating property and equipment, flight equipment expendable parts, or miscellaneous materials and supplies sold or otherwise retired in connection with a general retirement program as opposed to incidental sales performed as a service to others.

(b) This account shall not include gains or losses on debt securities issued by the air carrier which have been reacquired and cancelled or resold; such gains or losses shall be recorded, as appropriate, in profit and loss accounts 88 Miscellaneous Nonoperating Credits or 89 Miscellaneous Nonoperating Debits. Gains or losses on the reacquisition and retirement or resale of capital stock issued by the air carrier shall not be included in this account but in paid-in capital subaccount 2890.3 Other Capital Stock Transactions. Gains or losses from property carried in balance sheet account 1520 Advances to Separately Operated Divisions shall be accounted for in the books of separately operated divisions and treated by the air carrier as a part of quarterly profit and loss of separately operated divisions taken up through profit and loss account 86 Income from Nontransport Ventures.

81.2 *Capital Gains and Losses—Nonoperating Property.* (a) Record here gains or losses on retirement of nonoperating property and equipment and investments in securities of others.

(b) This account shall not include gains or losses on debt securities issued by the air carrier which have been reacquired and cancelled or resold. Such gains or losses shall be recorded as appropriate, in profit and loss account 88 Miscellaneous Nonoperating Credits or 89 Miscellaneous Nonoperating Debits. Gains or losses on reacquisition and retirement or resale of capital stock issued by the air carrier shall not be included in this account but in paid-in capital subaccount 2890.3 Other Capital Stock Transactions. Gains or losses from property carried in balance sheet account 1520 Advances to Separately Operated Divisions shall be accounted for in books of separately operated divisions and treated by the air carrier as a part of quarterly profit and loss of separately operated divisions taken up through profit and loss account 86 Income from Nontransport Ventures.

82 *Unapplied Cash Discounts.* Record here cash discounts on routine purchases of materials, repair parts or supplies. Cash discounts on classes of assets included in property and equipment accounts shall not be recorded in this account but shall be applied as a reduction of the cost of such assets.

83 *Interest Income.* (a) Record here interest income from all sources. This account shall include as an increase or reduction of interest received the proportionate amortization of any discount or premium on the purchase price of securities of others held by the air carrier.

(b) This account shall not include interest on securities issued or assumed by the air carrier and subsequently reacquired.

84 *Dividend Income.* Record here income from dividends declared on stocks of other companies owned by the air carrier. Dividends on securities issued or assumed by the air carrier and subsequently reacquired shall not be included in this account.

85 *Foreign Exchange Adjustments.* Record here gains or losses from transactions involving currency conversions resulting from non-routine, unusual changes in rates of foreign exchange.

86 *Income from Nontransport Ventures.* Record here the gross revenues and expenses applicable to operations not reasonably considered as incidental to the commercial air transport services of the accounting entity; rents from nonoperating properties used by others; income or loss from separately operated divisions; and other income or loss from activities of the air carrier which are extraneous to the air transport and incidental services of the accounting entity.

87 *Interest Expense.* (a) Record here interest on both long term and short term obligations; interest on unpaid taxes and on all other classes of debt; and amounts accrued, as a reduction of interest, for amortization of premium on debt.

(b) This account shall be subdivided as follows by all air carrier groups:

87.1 Interest on Debt Principal.
87.2 Amortization of Discount and Expense on Debt.
87.3 Amortization of Premium on Debt.

88 *Miscellaneous Nonoperating Credits.* Record here all credits of a nonoperating character not provided for otherwise, such as royalties from patents, gains from sale of investments in securities of others and gains from the reacquisition and retirement or resale of debt securities issued by the air carrier.

89 *Miscellaneous Nonoperating Debits.* Record here all debits of a nonoperating character not provided for otherwise, such as fines or penalties imposed by governmental authorities; costs related to property held for future use; donations for charitable, social or community welfare purposes; and losses on reacquired and retired or resold debt securities of the air carrier. This account shall be charged with amortization of amounts carried in balance sheet account 1870 Property Acquisition Adjustment unless otherwise approved or directed by the Civil Aeronautics Board.

### § 241.15 *Objective classification; income taxes for current period.*

91 *Normal Income Taxes and Surtaxes.* Record here proportionate quarterly provisions for accruals of Federal, state, local and foreign taxes based upon the net income of the air carrier accruing under normal tax and surtax rates and allocable to income of the current accounting year. This account shall include amounts refundable from the carryback of losses in the year in which the loss occurs, together with other adjustments of income taxes of prior years provided their inclusion will not distort net income of the current accounting year. Income taxes allocable to special income items and material income tax adjustments shall not be included in this account but in profit and loss account 97 Special Income Tax Credits and Debits (Net).

92 *Provisions for Deferred Federal Income Taxes.* (a) In the event of waiver by the Civil Aeronautics Board of the prohibition against accruals for the deferral of Federal income taxes, provisions and related adjustments for such deferrals shall be recorded in this account as provided in balance sheet account 2340 Deferred Federal Income Taxes.

(b) This account shall be subdivided as follows by all air carrier groups:

92.1 *Current Provisions for Deferred Taxes.* Charge here, and credit balance sheet account 2340 Deferred Federal Income Taxes with provisions during the current accounting period for the proportionate quarterly accruals of income taxes to be paid in the future on the amount by which depreciation or amortization of property and equipment for tax purposes exceeds the depreciation expense normally used in computing net income. Rates of accrual for deferred taxes shall be at the tax rates currently applicable to the periods in which the tax liability is to be determined.

92.2 *Amortization of Taxes Deferred (Credit).* This subaccount shall be credited and balance sheet account 2340 Deferred Federal Income Taxes shall be debited at regular quarterly accounting periods with proportionate amounts which will amortize prior accruals for deferred taxes over the periods in which depreciation expense normally used in computing net income exceeds depreciation or amortization recognized for tax purposes.

92.3 *Adjustment of Deferred Taxes.* (a) Credit this subaccount and debit balance sheet account 2340 Deferred Federal Income Taxes with any balance remaining in balance sheet account 2340 Deferred Federal Income Taxes upon termination of the normal service life or retirement of property and equipment to which related. This subaccount shall also be credited or debited as appropriate with adjustments in prior accruals to balance sheet account 2340 Deferred Federal Income Taxes and with corrections of errors of a clerical nature.

(b) Each air carrier shall maintain records supporting each entry in this account which clearly identify the specific property to which related and provide a full explanation of the factors occasioning each adjusting entry.

95 *Excess Profits Taxes.* Record here provisions for accruals, adjustments, or refunds of Federal, state, local, and foreign taxes, over and above normal taxes and surtaxes, which are based upon income designated as excess net income for tax purposes.

§ 241.16 *Objective classification; special items.*

96 *Special Income Credits and Debits (Net).* Record here income credits or debits accounted for during the current accounting year which relate to prior accounting years and other special items of sufficient magnitude to distort current financial results. Records supporting entries to this account shall be maintained with sufficient particularity to identify the nature and gross amount of each special income credit and each special income debit.

97 *Special Income Tax Credits and Debits (Net).* Record here income taxes allocable to items of income included in profit and loss account 96 Special Income Credits and Debits (Net) and other income tax credits and debits accounted for during the current accounting year related to increases and deductions in prior period income taxes, excess profits credits, or credits from the carry back of losses, which are of sufficient magnitude to significantly distort current financial results. Records supporting entries to this account shall be maintained with sufficient particularity to identify the nature and gross amount of each special credit and each special debit.

SUBPART D—GENERAL REPORTING PROVISIONS

§ 241.21 *Introduction to system of reports.* (a) Each air carrier subject to the Civil Aeronautics Act of 1938, as amended, shall file with the Civil Aeronautics Board, monthly, quarterly, and annual CAB Form 41 reports of financial and operating statistics as prescribed herein unless waiver is made by the Civil Aeronautics Board.

(b) The system prescribed provides for the submission by each air carrier of four classes of financial and operating statistics, on individual schedules of the CAB Form 41 report, grouped as follows:

A. Certification.
B. Balance Sheet Elements.
P. Profit and Loss Elements.
T. Traffic and Capacity Elements.
G. General Corporate Elements.

(c) The prescribed system of reports provides that the frequency of reporting shall be monthly for some schedules, quarterly for some and annually for others. It also provides in some areas for the classification of air carriers into Group I, Group II and Group III with the form and content differentiated as between groups.

(d) Each schedule of the prescribed CAB Form 41 report has been assigned a specific code. The prefix alphabetical codes A, B, P, T, and G, respectively, have been employed to denote certification, balance sheet, profit and loss, traffic and capacity and general corporate elements. The digits immediately following the alphabetical prefix designate the particular schedule.

(e) Each air carrier shall submit to the Office of Carrier Accounts and Statistics, Civil Aeronautics Board, Washing, D. C., three copies of each schedule, except as hereinafter indicated in § 241.22 General Reporting Instructions. Certain schedules are set up in units of seven sheets each, the first two of which are translucent to permit dry blue print reproduction. The data columns of certain translucent sheets are separated by perforations to permit disassembly for clip-board statistical processing. The non-translucent sheets are unperforated and are of a format which permits filing within binders designed for standard 8½" x 14" sheets. The three copies filed with the Civil Aeronautics Board shall be comprised of the original translucent sheet and the third and fourth sheets of each seven sheet schedule.

(f) Wherever practicable the sheets have been designed to permit machine tabulation. Upon approval by the Civil Aeronautics Board, the carrier may supply its own continuous-feed forms provided each schedule conforms with the specifications of the forms prescribed herein.

(g) A good quality black ribbon shall be used in preparing the original translucent copy of each schedule submitted to the Civil Aeronautics Board. In no event shall ditto or similar processes be used in preparing translucent copies nor shall any information be typed on the reverse side of translucent copies submitted to the Civil Aeronautics Board.

(h) Conversion to this system of reports. Cumulative 12-month totals hereinafter prescribed in this system of reports are waived until report for the 12-months ended December 31, 1957 with respect to the following items:

| Schedule No. | Cumulative 12-month totals waived |
|---|---|
| P-1 | Operating expense classifications 5100 through 7000, inclusive, and all items following Net Income Before Special Items. |
| P-3 | All 12-month totals. |
| P-5 | Do. |
| P-7 | Do. |
| P-8 | Do. |
| T-1 and T-2 | Items 016 and 017 revenue passengers carried and number of revenue passenger enplanements, respectively, and item 684 Total Revenue Departures Performed. |
| T-3 | Item 9081—aircraft days assigned to service—carrier routes; Item 9083—revenue hours per aircraft per day—carrier routes; and Items 9867 through 9978, inclusive. |

(i) The separate entities for which separate reports are hereinafter prescribed shall be those for which separate reports are being made as of December 31, 1956.

§ 241.22 *General reporting instructions.* (a) The CAB Form 41 report shall be comprised of schedules to be filed at the frequency indicated below. Three copies of each schedule shall be filed (i. e. postmarked) with the Civil Aeronautics Board on or before the indicated number of days subsequent to the period for which the report is being made, except that only two copies of the interim Balance Sheet and Income Statement need be filed.

| Schedule No. | Title | Filing: Frequency | Filing: Postmark interval (days) |
|---|---|---|---|
| A | Certification | Quarterly | 40 |
| B-1 | Balance Sheet | do | 40 |
| B-2 | Notes to Balance Sheet | do | 40 |
| B-3 | Paid-In Capital, Appropriations of Retained Earnings | do | 40 |
| B-4 | Reserve for Uncollectible Accounts and Reserve for Obsolescence—Expendable Parts—Account 1311; Accounts with Associated Companies and Separately Operated Divisions. | do | 40 |
| B-5 | Property and Equipment | do | 40 |
| B-6 | Distribution of Noncurrent Assets by Operating Entity | Semiannually | 40 |
| B-7 | Airframes and Aircraft Engines Acquired | Quarterly | 40 |
| B-8 | Property and Equipment Retired | do | 40 |
| B-9 | Accrued Maintenance | do | 40 |
| B-10 | Developmental and Preoperating Costs | do | 40 |
| B-41 | Investments Held by, or for the Account of Respondent | Annually | 90 |
| B-42 | Accounts 1410 Short-Term Prepayments, 1550 Special Funds—Other, 1820 Long Term Prepayments, 1880 Other Intangibles, 1890 Other Deferred Charges, 2390 Other Deferred Credits. | do | 90 |

| Schedule No. | Title | Filing: Frequency | Filing: Postmark interval (days) |
|---|---|---|---|
| B-43 | Inventory of Airframes and Aircraft Engines | Annually | 90 |
| B-44 | Transactions With Associated Companies | do | 90 |
| | Interim Balance Sheet | Monthly [1] | 40 |
| P-1.1 | Income Statement—Group I Air Carriers | Quarterly | 40 |
| P-1.2 | Income Statement—Group II and Group III Air Carriers | do | 40 |
| P-2 | Notes to Income Statement | do | 40 |
| P-3 | Transport Revenues; Depreciation and Amortization; Nonoperating Income and Expense—Net; Income Taxes. | do | 40 |
| P-4 | Incidental Revenues—Net; Explanation of Special Items; Explanation of Deferred Federal Income Tax Adjustments, Dividends Declared and Retained Earnings Adjustments. | do | 40 |
| P-5.1 | Aircraft Operating Expenses—Group I Air Carriers | do | 40 |
| P-5.2 | Aircraft Operating Expenses—Group II and Group III Air Carriers. | do | 40 |
| P-6 | Maintenance, Passenger Service, and General Services and Administration Expense Functions—All Air Carrier Groups. | do | 40 |
| P-7 | Aircraft and Traffic Servicing, Promotion and Sales, and General and Administrative Expense Functions—Group II and Group III Air Carriers. | do | 40 |
| P-8 | Aircraft and Traffic Servicing, and Promotion and Sales Expense Subfunctions—Group III Air Carriers. | do | 40 |
| P-9.1 | Distribution of Ground Servicing Expenses by Geographic Location—Group I Air Carriers. | do | 40 |
| P-9.2 | Distribution of Ground Servicing Expenses by Geographic Location—Group II and Group III Air Carriers. | do | 40 |
| P-10 | Payroll | do | 90 |
| P-41 | Taxes | Annually | 40 |
| | Interim Income Statement | Monthly [1] | 40 |
| T-1 | Monthly Statement of Summarized Traffic and Capacity Statistics | do | 30 |
| T-2 | Monthly Statement of Scheduled Services Traffic and Capacity Statistics. | do | 30 |
| T-3 | Quarterly Statement of Aircraft Operating Statistics | Quarterly | 30 |
| T-4 | On-Line Airport Activity Data | do | 40 |
| G-41 | Persons Holding More than 5 percentum of Respondent's Capital Stock or Capital. | Annually | 90 |
| G-42 | Compensation and Expenses of All General Officers, and Directors and of Management Personnel Receiving $10,000 or more per Annum for Personal Services. | do | 90 |
| G-43 | Compensation and Expenses of Persons and Firms (Other than Directors, Officers and Employees) Receiving $5,000 or more during the calendar year. | do | 90 |
| G-44 | Corporate and Securities Data | do | 90 |

[1] Except for third month of each calendar quarter.

(b) Each air carrier shall file the schedules of the CAB Form 41 reports with the Civil Aeronautics Board in accordance with the above instructions, except that B and P report schedules for the final quarter of each air carrier's fiscal year may be extended to 90 days following the year's end: *Provided*, That preliminary Schedules B–1, P–1.1 or P–1.2 and P–3 are submitted within the standard prescribed 40 day filing period. Preliminary year end schedules are filed for the convenience of the Civil Aeronautics Board pending receipt of the final regular year end Form 41 report and shall be withheld from public disclosure, unless directed otherwise by the Civil Aeronautics Board, until the herein prescribed due date of the final report or the final report is filed whichever first occurs.

(c) If circumstances prevent the filing of a report within the prescribed time limit, consideration will be given to the granting of an extension upon receipt of a written request therefor. Such a request must set forth good, and sufficient reason to justify granting the extension, must set forth the date when the report can be filed, and be submitted sufficiently in advance of the due date to permit proper time for consideration and communication to the air carrier of the action taken. Except in cases of emergency no such request will be entertained which is not postmarked in sufficient time to normally reach the Civil Aeronautics Board at least 24 hours before the prescribed due date. If a request is denied, the air carrier remains subject to the filing requirements to the same extent as if no request for extension of time had been made.

(d) Statements required to be filed under this system of accounts and reports are recapitulated below:

(1) Methods used in assigning or prorating noncurrent assets and profit and loss items between operating entities and changes in such methods.

(2) Plans for accrual of self-insurance reserves.

(3) Plans for establishment of expense equalization reserves.

(4) Statement of depreciation rates and accounting practices.

(5) Plans for accumulation of periodic maintenance reserves.

(6) Plans for amortization of developmental and preoperating costs and other intangibles.

(7) Methods and bases for accrual of unearned transportation revenues.

(8) Methods used in assigning or prorating expenses between incidental services and transport operations and changes in such methods.

(9) Methods used in applying maintenance burden.

(10) Methods of computing available seat-miles and available ton-miles for each aircraft type.

(11) Statement of retroactive adjustments made to conform with mail rate actions.

The foregoing statements where applicable shall be filed in duplicate, no later than January 1, 1957, and statements covering subsequent changes therein shall be attached to the CAB Form 41 report filed for the period in which such revisions are made. In the case of air carriers becoming subject to this system of accounts subsequent to January 1, 1957, statements shall be filed concurrently with each air carrier's initial CAB Form 41 report.

(e) All financial data reported on B, P, and G schedules shall reflect the status of the air carrier's books of account for the period for which report is being made and shall conform to the instructions of this Uniform System of Accounts and Reports. At the option of the air carrier financial data may be reported in thousands of dollars by Group III air carriers, and in whole dollars by Group I and Group II air carriers, by either dropping or rounding the hundreds of dollars and the cents respectively, provided all amounts are balanced within and between schedules and zero digits are inserted for the actual money amounts eliminated.

(f) Traffic and other operational statistics included in schedules of the CAB Form 41 reports shall reflect data pertaining to the month, quarter or 12 months to date period for which the report is being made.

(g) Adjustments correcting errors in previously reported traffic and other operational statistics shall not be included in data reported in schedules for the current period but shall be effected by submission of corrected schedules for the period to which applicable or, if only a few items are involved, by written notice and authorization to the Civil Aeronautics Board to correct previously filed reports except that any correction which amounts to less than one half of one percent (0.5%) of the corrected amount for the month to which related may be included in the report for the current month provided the amount of the correction is clearly noted on the Form 41 Report.

(h) All letters and statements of correction or revision of reported data shall be a part of the CAB Form 41 reports.

§ 241.23 *Balance sheet elements.*

SCHEDULE B–1—BALANCE SHEET

(a) This schedule shall be filed by all air carrier groups.

(b) This schedule shall reflect the balances as at the close of business on the last day of each calendar quarter, for the overall or system operations of each air carrier in conformance with the provisions of §§ 241.4, 241.5, and 241.6.

(c) Individual proprietors or partners shall report the aggregate capital contributed by the proprietor or partners in account 2890 Other Paid-In Capital.

SCHEDULE B–2—NOTES TO BALANCE SHEET

(a) This schedule shall be filed by all air carrier groups.

(b) All substantive matters which may influence materially interpretations or conclusions in regard to the financial condition of the air carrier which are not clearly identified in the body of the balance sheet shall be completely and clearly stated in this schedule and cross-referenced to the affected balance sheet account.

(c) The amounts of any purchase commitments of material size and not of a recurrent routine character, shall be identified and explained on this schedule. At the option of the air carrier purchase commitments may be noted only in the December 31 report of each calendar year.

SCHEDULE B–3—PAID-IN CAPITAL, APPROPRIATIONS OF RETAINED EARNINGS

(a) This schedule shall be filed by all air carrier groups.

(b) Each class and series of the air carrier's capital stock, as at the end of each calendar quarter, shall be listed and the indicated information entered within the "Paid-In Capital" section of this schedule.

(c) All transactions and amounts affecting paid-in capital, during the current quarter shall be fully explained for each class and series of capital stock to which related. Total paid-in capital and total treasury stock reported on this schedule as at the end of each calendar quarter shall agree with corresponding amounts reported on Schedule B–1 Balance Sheet.

(d) Individual proprietors or partners shall reflect the name of the proprietor or each partner at the head of the columns captioned "class of stock" and the balance of contributions to the business entity by the proprietor or each partner on line 11 Total Paid-In Capital.

(e) All credits and debits to each self-insurance reserve and other appropriations of retained earnings shall be identified and explained in the "Appropriations of Retained Earnings" section of this schedule. The balances of accounts 2920 Reserve for Self-Insurance and 2930 Other Appropriations of Retained Earnings as at the end of each calendar quarter shall agree with corresponding amounts reported on Schedule B–1 Balance Sheet.

SCHEDULE B–4—RESERVE FOR UNCOLLECTIBLE ACCOUNTS, RESERVE FOR OBSOLESCENCE-EXPENDABLE PARTS, ACCOUNTS WITH ASSOCIATED COMPANIES, AND SEPARATELY OPERATED DIVISIONS

(a) This schedule shall be filed by all air carrier groups.

(b) Each reserve for uncollectible accounts and each reserve for obsolescence of expendable parts shall be separately identified in the indicated section of this schedule. Columns 1 and 2 shall reflect the account number and the description of the asset against which each reserve is provided. The balance of each reserve as at the end of each quarter shall agree with corresponding amounts reported on Schedule B–1 Balance Sheet.

(c) The name of each associated company and description of each separately operated division shall be entered in column 1 of the indicated section of this schedule and the related balances shall be reflected in columns 2 through 6. The sum of the balances reported for each account shall agree with the amounts shown for the corresponding accounts on Schedule B–1 Balance Sheet.

SCHEDULE B–5—PROPERTY AND EQUIPMENT

(a) This schedule shall be filed by all air carrier groups.

(b) A complete report shall be made on this schedule for the overall or system operations conducted by the air carrier.

(c) Column 3, "Additions" shall reflect the book cost of property and equipment acquired and the cost of improvements, betterments or other additions to each class of property and equipment during the current quarter.

(d) Column 4, "Retirements" shall reflect the book cost of each class of property and equipment retired during the current quarter. The amounts in this column shall agree by accounts with the amounts shown in column 7 of Schedule B–8 Property and Equipment Retired.

(e) Column 5, "Transfers between Property Accounts" shall reflect the book cost of property and equipment reclassified between property and equipment accounts during the current quarter. Credit transfers from an account shall be indicated by an asterisk (*).

(f) Column 6, "Transfers between Other Accounts" shall reflect the cost of assets reclassified as between property and equipment and other balance sheet accounts during the current quarter and identification of the contra accounts affected by the transfer. Credit transfers shall be indicated by an asterisk (*). The cost of property and equipment and the related balances in reserves for depreciation and maintenance at the end of each quarter shall agree with corresponding amounts reported on Schedule B–1 Balance Sheet.

SCHEDULE B–6—DISTRIBUTION OF NONCURRENT ASSETS BY OPERATING ENTITY

(a) This schedule shall be filed by all air carrier groups for the June and December quarters of each calendar year.

(b) Each classification of noncurrent assets shall be distributed by the air carrier between all operating entities for which separate reports are required on bases which will fairly reflect the depreciated cost of the assets employed in each such operation. Assets which are of a system character and not properly allocable to operating entities shall be entered in column 4, "Nonassignable to Operating Entities." Each air carrier shall file with the Civil Aeronautics Board a statement setting forth the methods used in assigning the depreciated cost of noncurrent assets between separate reporting entities.

(c) The total depreciated cost of each class of noncurrent assets entered in column 3, "Overall System," shall agree with corresponding amounts reported on Schedule B–1 Balance Sheet.

SCHEDULE B–7—AIRFRAMES AND AIRCRAFT ENGINES ACQUIRED

(a) This schedule shall be filed by all air carrier groups.

(b) The indicated data shall be reported for each airframe, and in aggregate for each type or model of aircraft engine.

(c) All dates shall indicate the day, the month and the year; shall be provided on a unit basis for airframes only; and, shall be reported for each aircraft engine group by date of transaction.

(d) Report shall be made in the quarter in which each airframe and each group of aircraft engines is actually acquired irrespective of whether the cost thereof is reflected in the property and equipment accounts during the current quarter or a subsequent quarter. If the cost data are not reflected in the current quarter a footnote to that effect shall accompany the report of acquisition. The costs shall be reported during the quarter in which determined and the equipment to which related shall be listed again in this schedule, with complete information, and shall be identified as being the same equipment reported at the earlier date.

(e) Column 2, "Date Placed in Transport Service" shall relate to airframes only and shall be the date on which each airframe was or will be placed in regular service by the reporting entity. If this date is not known at the time of submission of the report an estimated date bearing the notation "estimate" shall be provided with the exact date shown by footnote on a subsequent Schedule B–7 in which the airframe is reidentified by license number, type of aircraft and date acquired.

(f) Column 8, "Maximum Continuous Horsepower" shall reflect the maximum continuous horsepower rating of each type of aircraft engine acquired. (See § 241.03 for definition as applied in this system of accounts and reports.)

(g) Column 9, "Aircraft Engines per Airframe" shall reflect the number of aircraft engines for which each acquired airframe is designed.

(h) Column 10, "Maximum Seat Capacity" shall reflect the number of passenger seats installed in each airframe acquired. When the configuration of airframes provides sleeping accommodations the passenger capacity shall be shown in terms of both a sleeper version and a nonsleeper version. When airframes are designed for multiple adjustable seating configurations, the maximum number of seats for which designed shall be reported. When the seating configuration of airframes is modified subsequent to original acquisition, the revised passenger capacity of each airframe shall be reported in the quarter in which modified and referenced to identify original capacity reported.

(i) Column 11, "Cost" shall agree in totals for airframes and aircraft engines, respectively, with the corresponding cost of additions reported in Schedule B–5, column 3, "Additions."

(j) Columns 12 and 13, "Reserves for Depreciation and Maintenance" shall include the amount of such reserves applicable to property and equipment transferred from separately operated divisions.

SCHEDULE B–8—PROPERTY AND EQUIPMENT RETIRED

(a) This schedule shall be filed by all air carrier groups.

(b) The indicated data shall be reported for each airframe, each type of aircraft engine, and in aggregate, by accounts, for other operating property and equipment and nonoperating property and equipment sold or otherwise retired.

(c) Retirements shall be listed in the numerical sequence of the property and equipment account to which related.

(d) All dates shall include the day, the month and the year of each transaction.

(e) Column 7, "Cost" shall agree in totals for each account with the corresponding cost of property and equipment retired and as reported in Schedule B–5, column 4, "Retirements."

(f) Column 13, "Disposition" shall reflect the name of the person or organization to which retired property and equipment is sold or a notation as to the nature of the retirements if not sold.

SCHEDULE B–9—ACCRUED MAINTENANCE

(a) This schedule shall be filed by all air carrier groups.

(b) Separate copies of this schedule shall be filed for each separate operating entity of the air carrier.

(c) The balance of each maintenance reserve at the end of the quarter as reported in this schedule shall agree, when aggregated for the air carrier as a whole, with corresponding balances reported in Schedule B–5, Property and Equipment.

SCHEDULE B–10—DEVELOPMENTAL AND PREOPERATING COSTS

(a) This schedule shall be filed by all air carrier groups.

(b) Separate copies of this schedule shall be filed for projects directly applicable to each separate operating entity of the air carrier and for the air carrier as a whole covering projects which are applicable in common to all transport operating entities.

(c) Column 1 shall reflect an identification and complete description of each project. The description shall include the CAB docket number in cases of projects involving a proceeding before the Civil Aeronautics Board.

(d) Column 6, "Unamortized Balance at End of Quarter" shall in total agree, when aggregated for the air carrier as a whole, with the corresponding balance of account 1830 shown in Schedule B–1 Balance Sheet.

(e) Column 7, "Development Costs Charged Directly to Account 89" shall reflect costs incurred in connection with projects involving extensions to or modifications of existing routes or the acquisition of new routes which have been charged against income directly.

SCHEDULE B–41—INVESTMENTS HELD BY, OR FOR THE ACCOUNT OF, RESPONDENT

(a) This schedule shall be filed by all air carrier groups.

(b) The data in this schedule shall be grouped as between investments held in the name of the air carrier and investments held in the name of others for the account of the air carrier. Each group shall be separately subtotaled by investments in associated companies and by investments in other than associated companies.

(c) Column 1 shall reflect the name of each associated company, and each other issuer of securities held by the air carrier.

(d) Column 4, Book Cost, in total, for investments held in the name of the air carrier, shall agree with corresponding amounts reflected in Schedule B–1 Balance Sheet.

(e) Column 5, "Number of Shares or Debt Principal Amount" shall reflect the number of shares of stock or the principal amount of bonds or notes held by the air carrier, for each class of security reported in column (1).

SCHEDULE B–42—ACCOUNTS 1410 SHORT TERM PREPAYMENTS, 1550 SPECIAL FUNDS—OTHER, 1820 LONG TERM PREPAYMENTS, 1880 OTHER INTANGIBLES, 1890 OTHER DEFERRED CHARGES, AND 2390 OTHER DEFERRED CREDITS

(a) This schedule shall be filed by all air carrier groups.

(b) The data in this schedule shall be grouped and subtotaled for each indicated balance sheet account in numerical order and shall identify the nature and the amount of each item included in each such balance sheet account as at the close of the current accounting period.

SCHEDULE B–43—INVENTORY OF AIRFRAMES AND AIRCRAFT ENGINES

(a) This schedule shall be filed by all air carrier groups.

(b) Separate reports shall be made on this schedule (1) for airframes and aircraft engines directly assigned aa at the end of the year to each separate operating entity of the air carrier and (2) for the air carrier as a whole covering airframes and aircraft engines which as at the end of the year are applicable to two or more operating entities.

(c) The indicated data shall be reported by individual airframes. Data pertaining to aircraft engines may be reported on a group basis by type of engine and type of aircraft to which related.

(d) Data in this schedule shall be grouped and subtotaled as between data pertaining to airframes and data pertaining to aircraft engines.

(e) The data to be reported shall include airframes and aircraft engines owned and in operation, those owned and in conversion, and nonoperating airframes and aircraft engines with subtotals for each of these groups.

(f) Data pertaining to rented airframes and aircraft engines shall be listed in columns 1 through 7, inclusive. Costs of improvements to rented airframes and aircraft engines shall be listed in columns 8 through 11, inclusive.

SCHEDULE B–44—TRANSACTIONS WITH ASSOCIATED COMPANIES

(a) This schedule shall be filed by all air carrier groups.

(b) A single set of this schedule shall be filed for the over-all corporate or other legal entity comprising the air carrier.

(c) The data in this schedule shall be grouped and subtotaled separately for balance sheet accounts 1250 Notes and Accounts Receivable—Associated Companies, 1510 Investments in Associated Companies, 2050 Notes and Accounts Payable—Associated Companies, and 2240 Advances From Associated Companies.

(e) Column 2 shall reflect, for each item listed in column 1, the balance as at the close of the next previous calendar year.

(f) Column 3 shall reflect, for each item listed in column 1, the total billings to associated companies in the case of asset accounts, or the total billings from associated companies in the case of liability accounts, during the calendar year. Billings by associated companies shall not be offset against billings to associated companies but shall each be reported separately in gross amounts billed after reflection of debit or credit adjustments to correct or otherwise modify amounts previously billed whether such adjustments originate with the billed or billing company.

(g) Column 4 shall reflect, for each item listed in column 1, adjustments resulting from restatements stemming from changes in foreign exchange rates.

(h) Column 5 shall reflect, for each item listed in column 1, the amount of account settlements effected during the calendar year.

(i) Column 6 shall reflect, for each item listed in column 1, the balance as at the close of the current calendar year.

(j) Column 7 shall reflect, for each item listed in column 1, the amount of contra debits to liability accounts or contra credits to asset accounts during the calendar year which affected other balance sheet acocunts.

(k) Column 8 shall reflect, for each item listed in column 1, the amount of contra debits to liability accounts or contra credits to asset accounts during the calendar year which affected profit and loss accounts. The sum of the amounts shown for each associated company account in columns 7 and 8 shall agree with the amount shown for total billings listed in column 3 for each such account.

(l) Amounts to be reported on this schedule shall include all transactions cleared through balance sheet accounts 1250, 1510, 2050, and 2240. Transactions with associated companies for transport services settled through airline clearing houses shall not be reflected in this schedule unless transferred from clearing houses for direct settlement between the air carrier and associated companies. The contra amounts to billings shall be classified in terms of their inherent characteristics as to balance sheet or profit and loss impact and the ultimate disposition to be made of such amounts without regard to any intermediate accounting which may be performed.

INTERIM BALANCE SHEET

Each air carrier shall file for each of the first two calendar months of each calendar quarter two copies of balance sheets in the form prepared for its management.

## § 241.24 *Profit and loss elements.*

SCHEDULE P–1.1—INCOME STATEMENT—GROUP I AIR CARRIERS

SCHEDULE P–1.2—INCOME STATEMENT—GROUP II AND GROUP III AIR CARRIERS

(a) Schedule P–1.1 shall be filed by each Group I air carrier and Schedule P–1.2 shall be filed by each Group II air carrier and each Group III air carrier.

(b) Separate income statements shall be filed, covering all indicated items through "Net Income After Special Items" for each separate operating entity of the air carrier and for the over-all, or system, operations of the air carrier. The indicated items following "Net Income after Special Items" shall be reported on only the income statement filed for the air carrier's system.

(c) Data reported on this schedule shall conform with the instructions pertaining to profit and loss classifications within this Uniform System of Accounts and Reports.

(d) Data reported in the "12-Months to Date" column shall represent for each individual item the sum of amounts reported in the "Quarter" column for the current and next previous three quarters.

(e) "Unappropriated Retained Earnings—Beginning of Period," shall be the sum of the balances of "Unappropriated Retained Earnings" and "Net Income—Year to Date" reported on the balance sheet as at the close of the corresponding quarter of the previous year, in the case of the "12-Months to Date" column, and as at the close of the previous quarter, in the case of the "Quarter" column.

(f) "Unappropriated Retained Earnings—End of Period" shall be, in the cases of both the "12-Months to Date" and "Quarter" columns, the sum of the balances of "Unappropriated Retained Earnings" and "Net Income—Year to Date" reported on the balance sheet as at the close of the current quarter.

SCHEDULE P–2—NOTES TO INCOME STATEMENT

(a) This schedule shall be filed by all air carrier groups.

(b) All substantive matters which may influence materially interpretations or conclusions in regard to the earnings position of the air carrier which are not clearly identified in the body of the income statement shall be completely and clearly stated in this schedule and cross referenced to the affected profit and loss account.

SCHEDULE P–3—TRANSPORT REVENUES; DEPRECIATION AND AMORTIZATION; NONOPERATING INCOME AND EXPENSE—NET; INCOME TAXES

(a) This schedule shall be filed by all air carrier groups.

(b) Separate sets of this schedule shall be filed for each separate operating entity of the air carrier.

(c) Transport revenues shall reflect the aggregate revenues from each indicated class of traffic carried in both scheduled and nonscheduled services. The sum of the subdivisions of each objective account shall agree with the corresponding amounts reported in Schedule P–1 Income Statement. In the event the air carrier performs irregular transport services, in addition to charter services and scheduled services, separate sets of this schedule shall be filed for the reporting of scheduled transport services and for nonscheduled transport services, respectively, and the service to which each report applies shall be entered in the box at the head of each of the two amount columns following "Period Ended".

(d) Depreciation and Amortization, Nonoperating Income and Expense—Net, and Income Taxes, respectively, shall reflect the indicated detail applicable to the corresponding amounts reported in Schedule P–1 Income Statement.

SCHEDULE P–4—INCIDENTAL REVENUES—NET; EXPLANATION OF SPECIAL ITEMS; EXPLANATION OF DEFERRED FEDERAL INCOME TAX ADJUSTMENTS; DIVIDENDS DECLARED AND RETAINED EARNINGS ADJUSTMENTS

(a) This schedule shall be filed by all air carrier groups.

(b) Separate sets of this schedule shall be filed for each separate operating entity of the air carrier.

(c) Incidental revenues—net shall be reported in this schedule in conformance with the instructions pertaining to each item in § 241.9, classification 4600 Incidental Revenues—Net.

(d) The aggregate of all net incidental revenues reported in this schedule shall agree with the corresponding net amount reported for classification 4600 Incidental Revenues—Net in Schedule P–1.

(e) Each special income item shall be fully identified and reported in gross amount in this schedule.

(f) Special credits to income during the current accounting period shall be identified in positive amounts and any special debits to income shall be identified by asterisks (*).

(g) Special income, and special income tax, credit and debit items shall be reported separately.

(h) The net of special income items and the net of special income tax items reported in this schedule shall agree with corresponding amounts reported in Schedule P–1.

(i) Deferred Federal Income Tax Adjustments shall be fully explained in the bottom section of this schedule. The explanations for each credit and debit, respectively, shall identify the property to which related, provide a complete description of the adjustment and the reasons for the adjustment.

(j) Dividends declared and retained earnings adjustments shall be fully explained in the bottom section of this schedule. If a dividend is not payable in cash, the values of amounts declared shall be completely described.

SCHEDULES P–5.1 AND P–5.2—AIRCRAFT OPERATING EXPENSES

(a) Schedule P–5.1 shall be filed by each Group I air carrier and P–5.2 by each Group II and Group III air carrier.

(b) Separate sets of this schedule shall be filed for each separate operating entity of the air carrier.

(c) Two sets of this schedule shall be filed each quarter for each operating entity. One set shall reflect the indicated data applicable to the current quarter. The second set shall reflect the indicated data applicable to the 12-month period ended with the current quarter. An "x" shall be inserted in the box designated "Qr" at the head of each column of the set covering quarterly data and an "x" shall be inserted in the box designated "Yr" at the head of each column of the set covering 12-months to date data.

(d) Data applicable to each aircraft type operated by the air carrier shall be reported in separate columns of this schedule and each aircraft type for which report is being made shall be identified at the head of each column in the space provided opposite "Aircraft Type." However, each air carrier may group, on a uniform basis, data applicable to small single-engine aircraft of approximately equivalent size. For this purpose the following two groups are established: (1) single-engine aircraft with maximum continuous horsepower of 300 or under; and (2) single-engine aircraft with maximum continuous horsepower of 301 to 450, inclusive. All other aircraft types, including larger single-engine and small twin-engine types, are to be separately reported. Expenses applicable to the operation on the accounting carrier's routes of aircraft provided by others under aircraft interchange agreements shall be separately reported, in aggregate for all such aircraft, as if for a distinct aircraft type. Those expenses applicable to aircraft of the same type as those owned or operated by the accounting air carrier shall be distributed in summary memo form as item 98.1 and 98.2 to each aircraft type owned or operated by the accounting air carrier. Aircraft types not generally used in revenue services shall be separately reported. If more than one type of aircraft is involved a separation of data relating to each type of aircraft shall not be required.

(e) "Aircraft type" refers to model such as DC–3, DC–3 Super, CV–240, DC–6, etc., as listed in § 241.06, Standard Aircraft Type Abbreviations, with no distinction being required with respect to the type of service, such as passenger or cargo, for which the aircraft is primarily equipped.

(f) Italicized codes and item titles do not constitute accounts or account numbers prescribed for air carrier accounting but shall be used for reporting purposes only.

(g) Item 79.6 Applied Maintenance Burden shall reflect an allocation by each air carrier of the total expenses included in subfunction 5300 Maintenance Burden plus the total of account 75.8 Depreciation—Maintenance Equipment and Hangars as reported on Schedule P–6 Maintenance, Passenger Service, and General Services and Administration Expense Functions between maintenance of flight equipment, by class of equipment, and maintenance of ground property and equipment exclusive of maintenance equipment and maintenance buildings.

Each air carrier shall file with the Civil Aeronautics Board a statement as a supplement to this schedule in which the procedures to be followed in allocating maintenance burden are fully explained. Revisions in such allocation procedures shall not be effected for 30 days following written notice to the Civil Aeronautics Board. At the option of the air carrier standard burden rates may be employed for quarterly allocations of maintenance burden provided the rates are reviewed at least once each accounting year and the amounts allocated are adjusted to reflect the actual costs incurred for the full accounting year. Any differences between actual burden costs incurred during each quarter and amounts applied at standard rates shall be entered as item 79.9 "Over or under applied Burden" in Schedule P–6.

(h) The total of function 5100 Flying Operations reported on this schedule shall agree with corresponding amounts reported on Schedule P–1; the total of item 5278 Total Direct Maintenance Flight Equipment shall agree with the corresponding amount reported in Schedule P–6; and the total of item 75.6 Total Depreciation—Flight Equipment shall agree with the corresponding amount in Schedule P–3.

SCHEDULE P–6—MAINTENANCE, PASSENGER SERVICE, AND GENERAL SERVICES AND ADMINISTRATION EXPENSE FUNCTIONS

(a) This schedule shall be filed by all air carrier groups.

(b) A separate set of this schedule shall be filed for each separate operating entity of the air carrier.

(c) Two sets of this schedule shall be filed for each operating entity with the Form 41 report filed for the fourth calendar quarter of each calendar year. One set shall be filed for each operating entity for the first three quarters of each calendar year. One of the two sets filed for the fourth quarter of each year shall reflect the indicated data applicable to the twelve months ended December 31. All other sets shall reflect the indicated data applicable to the current quarter. An "x" shall be inserted in the box designated "Qr" at the head of each column of each report covering quarterly data and an "x" shall be inserted in the box designated "Yr" at the head of each column of each report covering 12-month data.

(d) Group I air carriers shall report the indicated data for all except function 5500 Passenger Service.

(e) Group II and Group III air carriers shall report the indicated data for all except function 6900 General Services and Administration.

(f) Items 79.6 Applied Maintenance Burden—Flight Equipment and 79.8 Applied Maintenance Burden—General Ground Property, respectively shall reflect an allocation by each air carrier of the total expenses included in subfunction 5300 Maintenance Burden plus the total of account 75.8 Depreciation—Maintenance Equipment and Hangars between maintenance of flight equipment, by class of flight equipment, and maintenance of ground property and equipment exclusive of maintenance equipment and maintenance buildings. Each air carrier shall file with the Civil Aeronautics Board a statement as a supplement to this schedule in which the procedures to be followed in allocating maintenance burden are fully explained. Revisions in such allocation procedures shall not be effected for 30 days following written notice to the Civil Aeronautics Board. At the option of the air carrier standard burden rates may be employed for quarterly allocations of maintenance burden provided the rates are reviewed at least once each accounting year and the amounts allocated are adjusted to reflect the actual costs incurred for the full accounting year. Any differences between actual burden costs incurred during each quarter and amounts applied at standard rates shall be entered as item 79.9 "Over or Under Applied Burden."

(g) Item 75.8 Depreciation—Maintenance Equipment and Hangars reported in this schedule shall agree with the corresponding amount reported in schedule P–3; the sum of the totals of subfunctions 5200 Direct Maintenance and 5300 Maintenance Burden, before inclusion of item 75.8 or application of burden, shall agree with the corresponding amount reported in function 5400 in Schedule P–1 and the total of function 6900 General Services and Administration reported in this schedule by Group I air carriers shall agree with the corresponding amount reported in Schedule P–1.

SCHEDULE P–7—AIRCRAFT AND TRAFFIC SERVICING, PROMOTION AND SALES, AND GENERAL AND ADMINISTRATIVE EXPENSE FUNCTIONS

(a) This schedule shall be filed by each Group II air carrier and each Group III air carrier.

(b) Separate sets of this schedule shall be filed for each operating entity with the Form 41 report filed for the fourth calendar quarter of each calendar year. One set shall be filed for each operating entity for the first three quarters of each calendar year. One of the two sets filed for the fourth quarter of each year shall reflect the indicated data applicable to the twelve months ended December 31. All other sets shall reflect the indicated data applicable to the current quarter. An "x" shall be inserted in the box designated "Qr" at the head of each column of each report covering quarterly data and an "x" shall be inserted in the box designated "Yr" at the head of each column of each report covering 12-month data.

(c) Group II air carriers shall report the indicated data for all except subfunction 6100 Aircraft Servicing.

(d) Group III air carriers shall report the indicated data for subfunction 6100 Aircraft Servicing and function 6800 General and Administrative and shall disregard the data indicated for functions 6400 Aircraft and Traffic Servicing and 6700 Promotion and Sales.

(e) The item "12-months to date" shall reflect the total expenses of each functional expense classification reported on this schedule for the cumulative 12-month period ended with each current quarter for which report is made.

(f) The total of each functional expense classification reported in this schedule shall agree with the corresponding amount reported in Schedule P–1.

SCHEDULE P–8—AIRCRAFT AND TRAFFIC SERVICING, AND PROMOTION AND SALES EXPENSE SUBFUNCTIONS

(a) This schedule shall be filed by each Group III air carrier only.

(b) Two sets of this schedule shall be filed for each separate operating entity of the air carrier.

(c) Two sets of this schedule shall be filed for each operating entity with the Form 41 report filed for the fourth calendar quarter of each calendar year. One set shall be filed for each operating entity for the first three quarters of each calendar year. One of the two sets filed for the fourth quarter of each year shall reflect the indicated data applicable to the twelve months ended December 31. All other sets shall reflect the indicated data applicable to the current quarter. An "x" shall be inserted in the box designated "Qr" at the head of each column of each report covering quarterly data and an "x" shall be inserted in the box designated "Yr" at the head of each column of each report covering 12-month data.

(d) The item "12-months to date" shall reflect the total expenses of each functional expense classification reported on this schedule for the cumulative 12-month period ended with each current quarter for which report is made.

(e) The sum of the totals reported in this schedule for subfunctions 6200 Traffic Servicing and 6300 Servicing Administration, together with 6100 Aircraft Servicing in Schedule P–7 shall agree with the corresponding amount reported for function 6400 Aircraft and Traffic Servicing in Schedule P–1. The sum of the totals reported in subfunctions 6500 Reservations and Sales and 6600 Advertising and Publicity shall agree with the corresponding amount reported for function 6700 Promotion and Sales in Schedule P–1.

SCHEDULE P–9.1—DISTRIBUTION OF GROUND SERVICING EXPENSES BY GEOGRAPHIC LOCATION; GROUP I AIR CARRIERS

SCHEDULE P–9.2—DISTRIBUTION OF GROUND SERVICING EXPENSES BY GEOGRAPHIC LOCATION; GROUP II AND GROUP III AIR CARRIERS

(a) Schedule P–9.1 shall be filed by each Group I air carrier and Schedule P–9.2 by each Group II and each Group III air carrier.

(b) Separate sets of this schedule shall be filed for each separate operating entity of the air carrier.

(c) This schedule shall reflect a distribution of expenses by the geographic locations at which the goods or services to which related are applied. This schedule shall embrace for all air carrier groups direct maintenance and depreciation expenses applicable to general ground properties recorded in subfunction 5200 Direct Maintenance, exclusive of account 78 Total Direct Maintenance—Flight Equipment, plus subaccount 75.9 Depreciation—General Ground Property and, in the case of Group I air carriers, expenses recorded in function 6900 General Services and Administration and, in the cases of Group II and Group III air carriers, expenses recorded in functions or subfunctions of 6400 Aircraft and Traffic Servicing and 6700 Promotion and Sales.

(d) Line 1 shall reflect the aggregate expenses incurred at all airports, or other geographic locations, served in nonscheduled services only and related traffic offices. Downtown traffic offices maintained at offline points for the purpose of selling or soliciting traffic for scheduled services shall be considered as on-line installations.

(e) Column 1, "Location" shall reflect in alphabetic sequence the name of each certificated point served by the air carrier under certificates of public convenience and necessity, subdivided to reflect in alphabetic order the name of each airport through which each certificated point is served and, in a separate group, the name of each city at which offline traffic offices, maintained for the purpose of selling or soliciting traffic for scheduled services, are located.

(f) Column 2, "Number of Employees" shall reflect the number of persons employed at each on-line airport and all city traffic offices maintained at each point during the payroll period nearest the 15th of the last month of the quarter.

(g) Expenses applicable to each airport shall be entered in the indicated classification directly opposite its name; other expenses applicable to each certificated point shall be entered in the indicated classifications opposite the name of each certificated point; and expenses applicable to each noncertificated point where installations are maintained or used for certificated services shall be entered in the indicated classifications opposite its name.

(h) Expenses classified as "Local" shall include all expenses which are directly chargeable to activities performed at each specific locality.

(i) Expenses classified as "Regional and System" shall include all expenses incurred at each specific locality which are directly chargeable to administering activities performed at a number of different localities. For this purpose expenses attaching to such as central space control installations and centralized inter-airport flight control installations shall be considered "Regional and System" expenses.

SCHEDULE P–10—PAYROLL

(a) This schedule shall be filed by all air carrier groups.

(b) Separate sets of this schedule shall be filed for personnel employed within the Continental limits of the United States and for personnel employed, by each separate operating entity of the air carrier, who are employed outside the Continental limits of the United States. Flight personnel and other personnel subject to travel shall be reported in accordance with the location at which normally based.

(c) Column 3, "Number of Employees" shall reflect, for each classification in column 1, the number of full- and part-time employees, both permanent and temporary, who worked or received pay for any part of the pay period(s) ending nearest the 15th day of the last month of the quarter whether paid weekly, monthly or otherwise.

(d) Column 4, "Total All Employees" shall reflect expansions to annual rates of the amounts of compensation paid each person included in column 3 for the payroll period ended nearest the 15th day of the last month of the quarter. Compensation shall include total pay, including overtime, paid sick leave, holidays and vacations but shall exclude bonuses (unless earned and paid regularly each pay period) and cash payments for vacations not taken.

(e) Column 5, "Avg. Per Employee" shall reflect the averages obtained by dividing the amount of compensation shown in column 4 by the number of employees reported in column 3.

(f) Data with respect to each employee shall be included in the classification to which most of his salary is charged, even though the compensation of such employee is normally prorated to two or more classifications.

(g) The term "payroll period" denotes the collective payroll periods of various groups of employees, irrespective of the difference in the length of the pay periods. The amounts reported in this schedule may, therefore, represent a composite of data relating to two or more separate payrolls covering different periods of time, although the data with respect to any one group of employees shall not reflect more than one payroll period.

SCHEDULE P–41—TAXES

(a) This schedule shall be filed by all air carrier groups.

(b) Separate sets of this schedule shall be filed for each separate operating entity of the air carrier.

(c) This schedule shall reflect in the detail indicated the taxes levied against the air carrier paid or accrued during the accounting year.

(d) The "Grand Total" of taxes reported on this schedule shall agree with the sum of the amounts reported in accounts 68, 69, 91, 92 and 95 for the twelve months ended December 31.

INTERIM INCOME STATEMENT

(a) Each air carrier shall file for the first two calendar months of each calendar quarter two copies of income statements in the form prepared for its management.

(b) The statements submitted should provide a separation of revenues and expenses between separate operating entities of the air carrier.

§ 241.25 *Traffic and capacity elements.*

SCHEDULE T–1—MONTHLY STATEMENT OF SUMMARIZED TRAFFIC AND CAPACITY STATISTICS

SCHEDULE T–2—MONTHLY STATEMENT OF SCHEDULED SERVICES; TRAFFIC AND CAPACITY STATISTICS

(a) These schedules shall be filed by all air carrier groups.

(b) Separate sets of these schedules shall be filed for each separate operating entity of the air carrier.

(c) Two sets of these schedules shall be filed each month for each operating entity. One set for each schedule shall reflect the indicated data applicable to the current month. The other set for each schedule shall reflect the indicated data applicable to the twelve months ended with the current month. An "x" shall be inserted in the box designated "Mo" at the head of each column of the report covering monthly data. An "x" shall be inserted in the box designated "Yr" at the head of each column of the report covering 12-month data.

(d) The indicated data shall be reported on these schedules for each class of service performed by the air carrier with both owned and rented aircraft including aircraft of others used on the air carrier's routes under aircraft interchange agreements.

(e) All mileage data shall be based upon direct airport-to-airport distances as distinguished from course flown distances. Miles performed and traffic carried on flights scheduled to begin in one month and terminate in the next shall be included in the month in which the flight is scheduled to depart, provided that such flights in foreign and overseas operations shall not be considered to extend beyond the first crew change point.

(f) All utilization and performance factors and average load data shall be computed one place beyond the decimal point.

(g) Item 016, "Number of Revenue Passenger Originations" shall reflect an unduplicated count of passengers originating journeys on the lines of each reporting entity.

(h) Item 017, "Number of Revenue Passenger Enplanements" shall reflect a count of the total number of passengers boarding aircraft. This count may be measured on the basis of a standard number of passenger enplanements per on-line originating passenger. (See § 241.03 for further definition.)

(i) Item 217, "Passenger" ton-miles shall be computed at the standard passenger weights of 190 pounds in domestic operations, 200 pounds in foreign and overseas operations for coach and tourist passengers and 215 pounds in foreign and overseas operations for first class passengers. The standard weights prescribed herein may be reviewed from time to time upon request of individual air carriers or upon the initiative of the Civil Aeronautics Board.

(j) Item 253, "Excess Baggage" ton-miles may be determined either by direct computation from flight records or, following approval by the Civil Aeronautics Board, by application of appropriate standards.

(k) Item 997, "Number of Employees Based in Continental United States" shall reflect the total number of full- and part-time employees, both permanent and temporary, who worked or received pay for any part of the pay period(s) ending nearest the 15th day of the month, whether paid daily, weekly, monthly or otherwise, and who were based in Continental United States. Persons based in the United States but employed on transoceanic flights should be included. Include salaried officers of the corporation and employees on paid sick leave, holidays and vacations but do not include pensioners, members of the armed forces, or persons on leave of absence without pay.

(l) Item 998, "Number of Employees Based Outside Continental United States" shall reflect the total number of employees who were assigned to locations outside Continental United States.

(m) Item 999, "Total Number of Employees" shall reflect the sum of items 997 and 998.

(n) The filing of Schedule T–2 is waived for those reporting entities operating a single class of scheduled service, provided the class of service operated is identified in the heading of the All Scheduled Service Column of Schedule T–1.

SCHEDULE T–3—QUARTERLY STATEMENT OF AIRCRAFT OPERATING STATISTICS

(a) This schedule shall be filed by all air carrier groups.

(b) Separate sets of this schedule shall be filed for each separate operating entity of the air crrrier.

(c) Two sets of this schedule shall be filed each quarter for each operating entity. One set shall reflect the indicated data applicable to the current quarter. The other set shall reflect the indicated data applicable to the twelve months ended with the current quarter. An "x" shall be inserted in the box designated "Qr" at the head of each column of each report covering quarterly data and an "x" shall be inserted in the box designated "Yr" at the head of each column of each report covering 12-month data.

(d) Data applicable to each aircraft type operated by the air carrier shall be reported in separate columns of this schedule and each aircraft type for which report is being made shall be identified at the head of each column in the space provided opposite "Aircraft Type": Provided, however, each air carrier may group, on a uniform basis, data applicable to small single-engine aircraft of approximately equivalent size. For this purpose two groups are established: (1) Single-engine aircraft with maximum continuous horsepower of 300 or under; and (2) single-engine aircraft with maximum continuous horsepower of 301 to 450, inclusive. All other aircraft types, including larger single-engine and small twin-engine types are to be separately reported. Aircraft not generally used in revenue service shall be reported in a group as a single type. For purposes of reporting on this schedule, versions of each aircraft type designed exclusively for cargo services, and only incidentally for passenger service, shall be considered as distinct aircraft types.

(e) All mileage data shall be based upon direct airport-to-airport distances as distinguished from course-flown distances in accordance with the instructions relating thereto on Schedules T–1 and T–2. Mileage related to flights which are not measureable in terms of airport-to-airport distances shall be determined by applying a typical airport-to-airport speed for each aircraft type to the aircraft hours flown by each aircraft type in such flights.

(f) All aircraft hours data shall be based upon the time each aircraft becomes airborne on take-off to the time of ground contact upon landing and shall be included in the month in which the aircraft miles to which related are reported. Aircraft hours flown, items 9668 through 9679, shall include hours flown for which related costs have been charged directly against income during the current accounting period and shall not include hours flown applicable to costs which have been deferred. Such hours shall be reported in item 9978, "Aircraft Hours in Capitalized Projects". Minutes or fractional hours shall not be shown in reporting aircraft hours.

(g) Each air carrier shall submit to the Civil Aeronautics Board a detailed statement of its method of computing available ton-miles and available seat-miles for each type of aircraft operated. Also, any future changes in methods of computation shall be submitted, subject to review and approval by the Civil Aeronautics Board.

(h) Item 9680, "Aircraft Days Assigned to Service-Carrier's Equipment" shall reflect owned and rented aircraft in the possession of the air carrier used or available for assignment to services performed by the air carrier or assigned to services on routes of other air carriers under aircraft interchange agreements. It shall not include aircraft which are otherwise rented, leased or loaned to others or aircraft of others used by the air carrier under interchange agreements. Aircraft days shall be allocated between separate operating entities as follows:

(1) Aircraft assigned exclusively to a particular operation shall be reported for the operation to which assigned.

(2) Aircraft used interchangeably in two or more separate operating entities shall be prorated between such operations in accordance with the time each aircraft was in an operating status in each operation.

(3) The time of aircraft in maintenance or overhaul or held in reserve shall be assigned between the operating entities affected on the basis of the relative time aircraft of the same type were in an operating status in each operation during the most recent month.

(i) Item 9681, "Aircraft Days Assigned to Service-Carrier's Routes" shall reflect owned and rented aircraft in the possession of the air carrier or available for assignment to services performed by the air carrier. It shall include the time aircraft of others are in the possession of the air carrier pursuant to aircraft interchange agreements and shall exclude the time aircraft of the air carrier are in the possession of others pursuant to aircraft interchange agreements. Otherwise, allocation of aircraft days under this item shall conform with the instructions above related to item 9680.

(j) Item 9682, "Revenue Hours per Aircraft per Day-Carrier's Equipment" shall be determined by dividing item 9680, "Aircraft Days Assigned to Service-Carrier's Equipment" into the total revenue aircraft hours flown by aircraft owned or rented and in the possession of the air carrier, determined by subtracting item 9867, "Revenue Hours on Other Carriers' Interchange Equipment," from and adding item 9968, "Total Hours by Others on Carrier's Interchange Equipment", to item 9668, "Revenue Aircraft Hours".

(k) Item 9683, "Revenue Hours Per Aircraft Per Day-Carrier's Routes" shall be determined by dividing item 9681, "Aircraft Days Assigned to Service-Carrier's Routes" into item 9668, "Revenue Aircraft Hours".

(l) Item 9767, "Revenue Aircraft Miles in Scheduled Services Excluding Extra Sections" shall reflect the total of revenue aircraft miles in scheduled services, item 5568, less the revenue aircraft miles flown in extra sections included therein.

(m) Item 9867, "Revenue Hours on Other Carrier's Interchange Equipment" shall reflect the hours flown in revenue service of the reporting air carrier under equipment interchange agreements with aircraft of others.

(n) Item 9879, "Total Hours on Other Carrier's Interchange Equipment" shall reflect the hours flown in both revenue and nonrevenue services of the reporting air carrier, under equipment interchange agreements, with aircraft of others.

(o) Item 9968, "Total Hours by Others on Carrier's Interchange Equipment" shall reflect the total hours flown in the operations of other air carriers under equipment interchange agreements with aircraft owned or rented by the reporting air carrier.

(p) Item 9978, "Aircraft Hours in Capitalized Projects" shall reflect the total aircraft hours flown during the current accounting period which are applicable to ferrying newly acquired aircraft from the factory, capitalized extension and development or preoperating costs and other costs incurred during the current accounting period which have been capitalized.

(q) Items 9991 and 9992, "Aircraft Fuels (Oils) Issued" shall reflect the gallons of fuels or engine oils issued or placed aboard aircraft during the current accounting period for both revenue and nonrevenue flights. Fractional gallons shall not be shown.

(r) Item 9993, "Percent of Block-to-Block to Airborne Hours" shall be determined by dividing the revenue aircraft hours flown computed on the block-to-block basis by revenue aircraft hours flown computed on the airborne basis. At the option of the air carrier a standard percentage relationship, fairly representative of the actual relationship, may be employed for reporting provided such standard is redetermined by physical measurement at least twice each calendar year.

SCHEDULE T–4—ON-LINE AIRPORT ACTIVITY DATA

(a) This schedule shall be filed by all air carrier groups.

(b) Separate sets of this schedule shall be filed for each separate operating entity of the air carrier.

(c) This schedule shall reflect the indicated measures of activity at each on-line airport maintained at points certificated by the Civil Aeronautics Board for scheduled services.

(d) Each point maintained for service under certificates of public convenience and necessity shall be listed in column one in alphabetical sequence and the indicated data reported in columns 2 through 17, inclusive. Each airport used in serving each certificated point and the data pertaining thereto shall be separately identified.

(e) Column 2, "Scheduled Departures" shall reflect the total number of departures scheduled during the current quarter at each airport as set forth in the air carrier's published schedules.

(f) Column 3, "Scheduled Departures Performed" shall reflect the total number of departures actually performed pursuant to published schedules during the current quarter at each airport. Departures performed shall not include departures of flights operated as extra sections to scheduled flights.

(g) Column 4, "Total Departures Performed in Revenue Services—Nonscheduled Services" shall reflect the total number of departures in nonscheduled services actually performed from each on-line airport.

(h) Columns 5 through 10, "Total Departures Performed in Revenue Services—Scheduled Services" shall reflect the total number of departures in scheduled services (including extra sections) actually performed from each on-line airport. The aggregate number of departures by all aircraft types shall be reported in column 5 and the number of departures by each aircraft type shall be reported in columns 6 through 10, inclusive, with the type of aircraft to which related indicated at the head of each column. Departures in nonpassenger services shall be reported as if for a distinct aircraft type.

(i) Column 11, "Number of Revenue Passenger Originations" (on-line) shall reflect for each airport the total number of passengers commencing an on-line journey.

(j) Columns 12 through 16, "On-Line Revenue Traffic Originations—Tons" shall reflect in appropriate columns the total tons of mail, express or freight, placed in transit in scheduled services only. Tons of traffic shall be reported only at airports from which originally dispatched in the carrier's operations. Fractional tons shall be carried two places beyond the decimal point.

§ 241.26 *General corporate elements.*

SCHEDULE G–41—PERSONS HOLDING MORE THAN 5 PER CENTUM OF RESPONDENT'S CAPITAL STOCK OR CAPITAL

(a) This schedule shall be filed by all air carrier groups.

(b) This schedule shall reflect the name, address and number of shares of each class of stock held by all persons holding five (5) per centum or more of the issued and outstanding capital stock or, in cases of unincorporated business enterprises, 5 per centum or more of the total invested capital, of the reporting air carrier as of the close of the year.

(c) Column 3, "Held for Own Account" shall reflect by either of the words "yes" or "no", whether or not the interest is held for the account of the persons named in column 1. In cases where the answer is "no" the name and address of the person for whose account the interest is held shall be indicated by footnotes.

SCHEDULE G–42—COMPENSATION AND EXPENSES OF ALL GENERAL OFFICERS AND DIRECTORS AND OF MANAGEMENT PERSONNEL RECEIVING $10,000 OR MORE PER ANNUM FOR PERSONAL SERVICES

(a) This schedule shall be filed by all air carrier groups.

(b) The indicated data relative to General Officers and Directors shall be reported for each elective corporate officer, executive and director, regardless of amounts received from the air carrier, and for management personnel receiving compensation for personal services of $10,000 or more per annum. Management personnel shall not be reported by name but shall be reported in aggregate for all management personnel receiving $10,000 or more per annum for personal services. The number of such personnel shall be inserted in column 1; the aggregate annual compensation and expenses, during the calendar year, of such personnel shall be entered in columns 5 and 6, or 7, respectively, and the lower and upper limits in the range of compensation and expenses of such personnel shall be separately stated in columns 5, 6 and 7, respectively.

(c) Management personnel shall include all general supervisory and administrative personnel not directly responsible for the inflight operation of aircraft or engaged directly in the performance of maintenance activities. Management personnel, as distinguished from elective officers and directors, for whom report is to be made shall include those who received $10,000 or more compensation for personal services during the previous calendar year and those initially employed during the current calendar year at an annual compensation rate of $10,000 or more.

(d) Indirect compensation in column 6 shall include payments made by persons holding management contracts providing for management of, or services to, the air carrier or its associated companies.

(e) Expenses borne by air carrier in column 7 shall include per diem or other expense allowances borne by the air carrier which attach to goods or services used personally by general officers, directors and management personnel which are reimbursed directly or reimbursed indirectly through vendors who bill the air carrier directly for services rendered such general officers, directors and management personnel. Expenses incurred directly by the air carrier in maintaining hotel accommodations on a continuing stand-by basis for the convenience of personnel while on company business shall not be included.

(f) Columns 8 through 11 shall reflect securities of the air carrier owned by officers, directors, or management personnel as at December 31. Column 8 shall reflect the class of capital stock, bonds or other securities of the air carrier owned; columns 9 and 10, respectively, shall reflect the number of shares of stock held in the name of, or for the account of, each general officer and director, and all management personnel receiving $10,000 or more per annum; and column 11 shall reflect the principal amount of bonds or other securities held in the name of, or for the account of, each general officer and director and all management personnel receiving $10,000 or more per annum for personal services.

SCHEDULE G–43—COMPENSATION AND EXPENSES OF PERSONS AND FIRMS (OTHER THAN DIRECTORS, OFFICERS AND EMPLOYEES) RECEIVING $5,000 OR MORE DURING THE CALENDAR YEAR

(a) This schedule shall be filed by all air carrier groups.

(b) The indicated data shall be reported for each person or firm, other than directors, officers and employees of the air carrier, receiving compensation or expense reimbursements of $5,000 or more during the calendar year.

(c) Compensation and expenses to be reported in this schedule shall include fees, retainers, gifts, commissions, contributions, allowance for expenses or any form of payments amounting in the aggregate to $5,000 or more during the year. In addition to expense reimbursements paid directly to the recipients reflected in column 1, this schedule shall include expenses incurred by the persons or firms named in column 1 which have been paid directly to vendors by the air carrier. Expenses to be reported in this schedule shall encompass payments such as for legal, medical, engineering, advertising, accounting, statistical, educational, or charitable purposes but shall exclude payments for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine physical operation or maintenance of an air carrier such as payments for rent of buildings or property, for heat, light, power, telegraph, and telephone or payments to other carriers for interchange of equipment or settlement of interline traffic balances.

(d) "Persons or firms" shall be construed to mean individuals, partnerships, corporations or other legal entities.

SCHEDULE G–44 CORPORATE AND SECURITIES DATA

(a) This schedule shall be filed by all air carrier groups.

(b) The information to be reported shall be prepared in accordance with the instructions on the schedule.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
*Secretary.*

Fond du Lac—§ 420.97–1.

[SEAL] C. A. FRETTS,
*Acting Manager,*
*Federal Crop Insurance Corporation.*

§ 420.61 *Illinois.*

[1] No multiple crop insurance offered in these counties for the 1956 and succeeding crops years.

[2] No multiple crop insurance offered in this county for the 1956 and succeeding crop years because of failure of county to meet the minimum participation requirement.

§ 420.61–4 *Bond, Clinton, Effingham, Madison, Pike and Scott Counties.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Bond, Clinton, Effingham, Madison, Pike and Scott Counties, Ill., Beginning With the 1956 Crop Year)

1. *Insurable crops.* Notwithstanding any other provisions of the contract, for the first crop year of the contract, the insurable crop(s) shall be those of the following designated by name on the application for insurance:

(a) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Soybeans planted for harvest as beans, in rows far enough apart to permit intertilling with a row cultivator. The contract will not provide insurance for soybeans planted for development of hybrid seed or planted in the same row or interplanted in rows with corn.

(c) Winter wheat planted for harvest as grain, excluding wheat planted with other small grains. (Insurance to attach the first crop year of the contract only if the application is filed on or before September 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

For any subsequent crop year the designation of insurable crop(s) may be changed by the insured notifying the county office in writing prior to the cancellation date for the crop year the change is to become effective.

2. *Existing crop insurance contract.* The acceptance of the application upon which this policy is issued shall not cancel any existing wheat crop insurance contract between the insured and the Corporation for the 1956 crop year and such wheat insurance policy shall remain in full force and effect for the 1956 crop year. However, the acceptance of such application shall cancel effective beginning with the 1957 crop year any wheat crop insurance contract between the insured and the Corporation.

3. *Coverage per acre.* (a) The coverage per acre for corn and wheat shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for corn and wheat shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

(c) The coverage per acre for soybeans shall be reduced 10 percent for any acreage not harvested.

4. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting and all other insured crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of wheat, and in the case of corn and soybeans December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

5. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any harvested production of soybeans which will not grade No. 4 or better (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated.

Any threshed production of wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price, the total value of such production, as determined by dividing it by such loan rate and multiplying the result by the fixed price.

6. *Insurance unit.* An insurance unit means (a) all the insurable acreage of any one insured crop in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of any one insured crop in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (c) all insurable acreage of any one insured crop in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

7. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation on a form prescribed by the Corporation not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of the insured crop on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of the insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 5 of this rider) of the total production to be counted for such acreage of the insured crop on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of wheat from acreage initially planted for purposes other than for harvest as grain), except harvested production of corn from acreage not qualifying as harvested under the definition in section 9, and in addition, any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 5 of the rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned, or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

8. *Date table.*

Discount date: November 30.

Cancellation date: July 31.

Date by which county minimum participation requirement must be met for the 1957 and succeeding crop years: September 30 following the cancellation date for the crop year.

9. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 5 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of soybeans or wheat means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

10. Notwithstanding the provisions of subsection (d) of section 6 of the policy, if in any crop year a premium is earned and totals less than $20.00 the amount shall be increased to $20.00.

Approved: beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.62 *Indiana.*

§ 420.62–2 *Dearborn County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Dearborn County, Ind., Beginning With the 1956 Crop Year)

1. *Insurable crops.* Notwithstanding any other provisions of the contract, for the first crop year of the contract the insurable crop(s) shall be those of the following designated by name on the application for insurance:

(a) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Tobacco, type 31.

(c) Winter wheat planted for harvest as grain, excluding wheat planted with other small grains. (Insurance to attach the first crop year of the contract only if the application is filed on or before Setpember 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

For any subsequent crop year the designation of insurable crop(s) may be changed by the insured notifying the county office in writing prior to the cancellation date for the crop year the change is to become effective.

2. *Existing crop insurance contract.* The acceptance of the application upon which this policy is issued shall not cancel any existing wheat crop insurance contract between the insured and the Corporation for the 1956 crop year and such wheat policy shall remain in full force and effect for the 1956 crop year. However, the acceptance of such application shall cancel effective beginning with the 1957 crop year any wheat crop insurance contract between the insured and the Corporation.

3. *Coverage per acre.* (a) The coverage per acre for corn and wheat shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for corn and wheat shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

(c) The coverage per acre for tobacco shall be reduced 35 percent for any acreage not harvested.

4. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to (a) any portion of the tobacco crop upon weighing-in at the tobacco warehouse, transfer of interest in the tobacco after harvest, or removal of the tobacco from the insurance unit (except for curing, packing or immediate delivery to the tobacco warehouse), whichever occurs first, and (b) any portion of the corn crop upon harvesting and the wheat crop upon threshing or with respect to any portion of any crop (except tobacco) upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect, unless the time is extended in writing by the Corporation, (a) with respect to tobacco later than February 28 following harvest, (b) with respect to any other crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of wheat, and in the case of corn December 10 of the calendar year in which the crop is normally harvested, and (c) with respect to any insurance unit later than the date of submission of a claim for indemnity.

5. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop, except tobacco, shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any threshed production of wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price the total value of such production, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

Notwithstanding any other provisions(s) of the contract, in determining any loss the value of tobacco production to be counted shall be the value of all tobacco, including (a) the gross returns (less warehouse charges) from the tobacco sold on the warehouse floor, (b) the fair market value, as determined by the Corporation, of the tobacco sold other than on the warehouse floor, (c) the fair market value, as determined by the Corporation, of the tobacco harvested and not sold, and (d) the fair market value (if harvested and cured), as determined by the Corporation, of any unharvested tobacco.

6. *Insurance unit.* An insurance unit means (a) all the insurable acreage of any one insured crop in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of any one insured crop in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (c) all insurable acreage of any one insured crop in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

7. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of the insured crop on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of the insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) substracting from the total thereof, the insured interest in the value (determined in accordance with section 5 of this rider) of the total production to be counted for such acreage of the insured crop on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of wheat from acreage initially planted for purposes other than for harvest as grain), except harvested production of corn or tobacco from acreage not qualifying as harvested under the definition in section 9, and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. To enable the Corporation to determine the fair market value of tobacco not sold through auction warehouses, the Corporation shall be given the opportunity to inspect such tobacco before it is sold, contracted to be sold or otherwise disposed of by the insured, and, if the best offer received by the insured for any such tobacco is considered by the Corporation to be inadequate, to obtain additional offers therefor on behalf of the insured. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 5 of the rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

8. *Date table.*

Discount date: November 30.

Cancellation date: July 31.

Date by which county minimum participation requirement must be met for the 1957 and succeeding crop years: September 30 following the cancellation date for the crop year.

9. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 5 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of tobacco means cutting or priming an amount of tobacco which equals or exceeds the pounds obtained by dividing 10 percent of the harvested coverage for such acreage by a price stated on the county actuarial table for the purpose of making this determination.

(c) "Harvest" with respect to any acreage of wheat means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

10. Notwithstanding the provisions of subsection (d) of section 6 of the policy, if in any crop year a premium is earned and totals less than $20.00 the amount shall be increased to $20.00.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.62–3 *Grant, Wabash and Wells Counties.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Grant, Wabash and Wells Counties, Ind., Beginning With the 1956 Crop Year)

1. *Insurable crops.* Notwithstanding any other provisions of the contract, for the first crop year of the contract the insurable crop(s) shall be those of the following designated by name on the application for insurance:

(a) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broomcorn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Soybeans planted for harvest as beans, in rows far enough apart to permit intertilling with a row cultivator. The contract will not provide insurance for soybeans planted for development of hybrid seed or planted in the same row or interplanted in rows with corn.

(c) Winter wheat planted for harvest as grain, excluding wheat planted with other small grains. (Insurance to attach the first crop year of the contract only if the application is filed on or before September 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

For any subsequent crop year the designation of insurable crop(s) may be changed by the insured notifying the county office in writing prior to the cancellation date for the crop year the change is to become effective.

2. *Coverage per acre.* (a) The coverage per acre for corn and wheat shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for corn and wheat shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

(c) The coverage per acre for soybeans shall be reduced 10 percent for any acreage not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting and all other insured crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier or (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of wheat, and in the case of corn and soybeans December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed priced established by the Corporation for that crop and shown on the county actuarial table. However, any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any harvested production of soybeans which will not grade No. 4 or better (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated. Any threshed production of wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price the total value of such production, as determined by the Corporation shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

5. *Insurance unit.* An insurance unit means (a) all the insurable acreage of any one insured crop in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of any one insured crop in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (c) all insurable acreage of any one insured crop in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

6. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of the insured crop on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of the insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of the insured crop on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of wheat from acreage initially planted for purposes other than for harvest as grain) except harvested production of corn from acreage not qualifying as harvested under the definition in section 8, and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of the rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: July 31.

Date by which county minimum participation requirement must be met for the 1957 and succeeding crop years: September 30 following the cancellation date for the crop year.

8. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of soybeans or wheat means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

9. Notwithstanding the provisions of subsection (d) of section 6 of the policy, if in any crop year a premium is earned and totals less than $20.00 the amount shall be increased to $20.00.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

### § 420.62–4 *Ripley County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Ripley County, Ind., Beginning With the 1956 Crop Year)

1. *Insurable crops.* Notwithstanding any other provisions of the contract, for the first crop year of the contract the insurable crop(s) shall be those of the following designated by name on the application for insurance:

(a) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broomcorn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Soybeans planted for harvest as beans, in rows far enough apart to permit intertilling with a row cultivator. The contract will not provide insurance for soybeans planted for development of hybrid seed or planted in the same row or interplanted in rows with corn.

(c) Tobacco type 31.

(d) Winter wheat planted for harvest as grain, excluding wheat planted with other small grains. (Insurance to attach the first crop year of the contract only if the application is filed on or before September 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

For any subsequent crop year the designation of insurable crop(s) may be changed by the insured notifying the county office in writing prior to the cancellation date for the crop year the change is to become effective.

2. *Existing crop insurance contract.* The acceptance of the application upon which this policy is issued shall not cancel any existing wheat crop insurance contract between the insured and the Corporation for the 1956 crop year and such wheat policy shall remain in full force and effect for the 1956 crop year. However, the acceptance of such application shall cancel effective beginning with the 1957 crop year any wheat crop insurance contract between the insured and the Corporation.

3. *Coverage per acre.* (a) The coverage per acre for corn and wheat shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for corn and wheat shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

(c) The coverage per acre for soybeans shall be reduced 10 percent for any acreage not harvested.

(d) The coverage per acre for tobacco shall be reduced 35 percent for any acreage not harvested.

4. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to (a) any portion of the tobacco crop upon weighing-in at the tobacco warehouse, transfer of interest in the tobacco after harvest, or removal of the tobacco from the insurance unit (except for curing, packing or immediate delivery to the tobacco warehouse), whichever occurs first, and (b) any portion of the corn crop upon harvesting and all other insured crops upon threshing or with respect to any portion of any crop (except tobacco) upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect, unless the time is extended in writing by the Corporation, (a) with respect to tobacco later than February 28 following harvest, (b) with respect to any other crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of wheat and in the case of corn and soybeans December 10 of the calendar year in which the crop is normally harvested, and (c) with respect to any insurance unit later than the date of submission of a claim for indemnity.

5. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop except tobacco, shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any harvested production of soybeans which will not grade No. 4 or better (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated. Any threshed production of wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price the total value of such production, as determined by the Corporation shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

Notwithstanding any other provision(s) of the contract in determining any loss the value of tobacco production to be counted shall be the value of all tobacco, including (a) the gross returns (less warehouse charges) from the tobacco sold on the warehouse floor, (b) the fair market value, as determined by the Corporation, of the tobacco sold other than on the warehouse floor, (c) the fair market value, as determined by the Corporation, of the tobacco harvested and not sold, and (d) the fair market value (if harvested and cured), as determined by the Corporation, of any unharvested tobacco.

6. *Insurance unit.* An insurance unit means (a) all the insurable acreage of any one insured crop in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of any one insured crop in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (c) all insurable acreage of any one insured crop in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

7. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of the insured crop on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of the insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 5 of this rider) of the total production to be counted for such acreage of the insured crop on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of wheat from acreage initially planted for purposes other than for harvest as grain), except harvested production of corn or tobacco from acreage not qualifying as harvested under the definition in section 9, and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. To enable the Corporation to determine the fair market value of tobacco not sold through auction warehouses, the Corporation shall be given the opportunity to inspect such tobacco before it is sold, contracted to be sold or otherwise disposed of by the insured, and if the best offer received by the insured for any such tobacco is considered by the Corporation to be inadequate, to obtain additional offers therefor on behalf of the insured. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 5 of the rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

8. *Date table.*

Discount date: November 30.

Cancellation date: July 31.

Date by which county minimum participation requirement must be met for the 1957 and succeeding crop years: September 30 following the cancellation date for the crop year.

9. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 5 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of soybeans or wheat means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

(c) "Harvest" with respect to any acreage of tobacco means cutting or priming an amount of tobacco which equals or exceeds the pounds obtained by dividing 10 percent of the harvested coverage for such acreage by a price stated on the county actuarial table for the purpose of making this determination.

10. Notwithstanding the provisions of subsection (d) of section 6 of the policy, if in any crop year a premium is earned and totals less than $20.00 the amount shall be increased to $20.00.

Approved: Beginning with the 1956 crop year.

FEDERAL CROP INSURANCE CORPORATION.

### § 420.62–5 *Shelby and Sullivan Counties.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Shelby and Sullivan Counties, Ind., Beginning With the 1956 Crop Year)

1. *Insurable crops.* Notwithstanding any other provisions of the contract, for the first crop year of the contract the insurable crop(s) shall be those of the following designated by name on the application for insurance:

(a) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Soybeans planted for harvest as beans, in rows far enough apart to permit intertilling with a row cultivator. The contract will not provide insurance for soybeans planted for development of hybrid seed or planted in the same row or interplanted in rows with corn.

(c) Winter wheat panted for harvest as grain. (Insurance to attach the first crop year of the contract only if the application is filed on or before September 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

For any subsequent crop year the designation of insurable crop(s) may be changed by the insured notifying the county office in writing prior to the cancellation date for the crop year the change is to become effective.

2. *Existing crop insurance contract.* The acceptance of the application upon which this policy is issued shall not cancel any existing wheat crop insurance contract between the insured and the Corporation for the 1956 crop year and such wheat policy shall remain in full force and effect for the 1956 crop year. However, the acceptance of such application shall cancel effective beginning with the 1957 crop year any wheat crop insurance contract between the insured and the Corporation.

3. *Coverage per acre.* (a) The coverage per acre for corn and wheat shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for corn and wheat shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

(c) The coverage per acre for soybeans shall be reduced 10 percent for any acreage not harvested.

4. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting and all other insured crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of wheat, and in the case of corn and soybeans December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

5. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any harvested production of soybeans which will not grade No. 4 or better (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated. Any threshed production of wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price the total value of such production, as determined by the Corporation shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

6. *Insurance unit.* An insurance unit means (a) all the insurable acreage of any one insured crop in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of any one insured crop in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (c) all insurable acreage of any one insured crop in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

7. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of the insured crop on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of the insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 5 of this rider of the total production to be counted for such acreage of the insured crop on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of wheat from acreage initially planted for purposes other than for harvest as grain), except harvested production of corn from acreage not qualifying as harvested under the definition in section 9 and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 5 of the rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

8. *Date table.*

Discount date: November 30.

Cancellation date: July 31.

Date by which county minimum participation requirement must be met for the 1957 and succeeding crop years: September 30 following the cancellation date for the crop year.

9. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 6 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of soybeans or wheat means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

10. Notwithstanding the provisions of subsection (d) of section 6 of the policy, if in any crop year a premium is earned and totals less than $20.00 the amount shall be increased to $20.00.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

## § 420.63 *Iowa.*

### § 420.63–1 *Boone, Buena Vista, Clay, Franklin, Mitchell and Story Counties.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Boone, Buena Vista, Clay, Franklin, Mitchell, and Story Counties, Iowa, Beginning With the 1956 Crop Year)

1. *Insurable crops.* Notwithstanding any other provisions of the contract, for the first crop year of the contract the insurable crop(s) shall be those of the following designated by name on the application for insurance.

(a) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Soybeans planted for harvest as beans, in rows far enough apart to permit intertilling with a row cultivator. The contract will not provide insurance for soybeans planted for development of hybrid seed or planted in the same row or interplanted in rows with corn.

For any subsequent crop year the designation of insurable crop(s) may be changed by the insured notifying the county office in writing prior to the cancellation date for the crop year the change is to become effective.

2. *Coverage per acre.* (a) The coverage per acre for corn shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for corn shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

(c) The coverage per acre for soybeans shall be reduced 10 percent for any acreage not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting, the soybean crop upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any harvested production of soybeans which will not grade No. 4 or better (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated.

5. *Insurance unit.* An insurance unit means (a) all the insurable acreage of any one insured crop in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of any one insured crop in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (c) all insurable acreage of any one insured crop in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

6. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation on a form prescribed by the Corporation not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of the insured crop on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of the insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of the insured crop on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production, except harvested production of corn from acreage not qualifying as harvested under the definition in section 8, and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of the rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

8. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of soybeans means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

9. Notwithstanding the provisions of subsection (d) of section 6 of the policy, if in any crop year a premium is earned and totals less than $20.00 the amount shall be increased to $20.00.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

### § 420.63–2 *Delaware County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Delaware County, Iowa, Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Oats planted for harvest as grain.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for each insured crop shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting and the oat crop upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of oats, and in the case of corn December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled shall be evaluated at a value per bushel determined by the Corporation.

5. *Election of type of insurance protection.* The insured may elect to have insurance protection provided on the basis of (a) separate crop protection under which insurance units are determined separately for each insured crop, or (b) combined crop protection under which insurance units include a combination of all insured crops. The insured coverage, the premium, and any indemnity will be determined separately for each insurance unit. For the first crop year of a contract the election must be made at the time the application for insurance is filed. For any subsequent crop year such election may be made or changed by the insured notifying the county office in writing prior to the cancellation date for the crop year the change is to become effective. If no election is made by the insured, insurance will be provided on the basis of combined crop protection.

6. *Insurance unit.* (a) If combined crop protection is provided under the contract an insurance unit means (1) all the insurable acreage of all insured crops in the country in which the insured has 100 percent interest at the time of planting, or (2) all the insurable acreage of all insured crops in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (3) all the insurable acreage of all insured crops in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee; except in any case where a tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is planted to insurable crops shall constitute an insurance unit.

(b) If separate crop protection is provided under the contract an insurance unit means the same as in (a) above except that insurance units will be determined separately for each insured crop.

7. *Claims for Loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of all insured crops on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of each insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of all insured crops on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production from acreage of oats initially planted for purposes other than for harvest as grain, except harvested production of corn from acreage not qualifying as harvested under the definition in section 9, and in addition any

appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop, produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of the rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any causes(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

8. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

9. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of oats, means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

§ 420.63–3 *Emmet, Hamilton, Howard, Humboldt, Ida, Tama, Winnebago and Worth Counties.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Emmet, Hamilton, Howard, Humboldt, Ida, Tama, Winnebago, and Worth Counties, Iowa, Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Oats planted for harvest as grain.

(c) Soybeans planted for harvest as beans, in rows far enough apart to permit intertilling with a row cultivator. The contract will not provide insurance for soybeans planted for development of hybrid seed or planted in the same row or interplanted in rows with corn.

2. *Coverage per acre.* (a) The coverage per acre for corn and oats shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for corn and oats shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

(c) The coverage per acre for soybeans shall be reduced 10 percent for any acreage not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting and the oat and soybean crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of oats, and in the case of corn and soybeans December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any threshed production of oats and any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled shall be evaluated at a value per bushel determined by the Corporation. Any harvested production of soybeans which will not grade No. 4 or better (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated.

5. *Election of type of insurance protection.* The insured may elect to have insurance protection provided on the basis of (a) separate crop protection under which insurance units are determined separately for each insured crop, or (b) combined crop protection under which insurance units include a combination of all insured crops. The insured coverage, the premium, and any indemnity will be determined separately for each insurance unit. For the first crop year of a contract the election must be made at the time the application for insurance is filed. For any subsequent crop year such election may be made or changed by the insured notifying the county office in writing prior to the cancellation date for the crop year the change is to become effective. If no election is made by the insured, insurance will be provided on the basis of combined crop protection.

6. *Insurance unit.* (a) If combined crop protection is provided under the contract an insurance unit means (1) all the insurable acreage of all insured crops in the county in which the insured has 100 percent interest at the time of planting, or (2) all the insurable acreage of all insured crops in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (3) all the insurable acreage of all insured crops in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee; except in any case where a tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is planted to insurable crops shall constitute an insurance unit.

(b) If separate crop protection is provided under the contract an insurance unit means the same as in (a) above except that insurance units will be determined separately for each insured crop.

7. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of all insured crops on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of each insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of all insured crops on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of oats from acreage initially planted for purposes other than for harvest as grain) except harvested production of corn from acreage not qualifying as harvested under the definition in section 9, and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop, produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of this rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreage involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

8. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

9. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of oats or soybeans means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.63–4 *Union and Warren Counties.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Union and Warren Counties, Iowa, Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Soybeans planted for harvest as beans, in rows far enough apart to permit intertilling with a row cultivator. The contract will not provide insurance for soybeans planted for development of hybrid seed or planted in the same row or interplanted in rows with corn.

2. *Coverage per acre.* (a) The coverage per acre for corn shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for corn shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

(c) The coverage per acre for soybeans shall be reduced 10 percent for any acreage not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting and the soybean crop upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any harvested production of soybeans which will not grade No. 4 or better (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated.

5. *Election of type of insurance protection.* The insured may elect to have insurance protection provided on the basis of (a) separate crop protection under which insurance units are determined separately for each insured crop, or (b) combined crop protection under which insurance units include a combination of all insured crops. The insured coverage, the premium, and any indemnity will be determined separately for each insurance unit. For the first crop year of a contract the election must be made at the time the application for insurance is filed. For any subsequent crop year such election may be made or changed by the insured notifying the county office in writing prior to the cancellation date for the crop year the change is to become effective. If no election is made by the insured, insurance will be provided on the basis of combined crop protection.

6. *Insurance unit.* (a) If combined crop protection is provided under the contract an insurance unit means (1) all the insurable acreage of all insured crops in the county in which the insured has 100 percent interest at the time of planting, or (2) all the insurable acreage of all insured crops in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (3) all the insurable acreage of all insured crops in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee; except in any case where a tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is planted to insurable crops shall constitute an insurance unit.

(b) If separate crop protection is provided under the contract an insurance unit means the same as in (a) above except that insurance units will be determined separately for each insured crop.

7. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of all insured crops on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of each insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of all insured crops on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production, except harvested production of corn from acreage not qualifying as harvested under the definition in section 9, and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of this rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

8. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

9. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of soybeans means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.71 *Minnesota.*

§ 420.71–1 *Big Stone County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Big Stone County, Minn., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Flax seeded for harvest as seed, excluding flax seeded with any other crop except perennial grasses or legumes other than vetch.

(b) Soybeans planted for harvest as beans, in rows far enough apart to permit intertilling with a row cultivator. The contractor will not provide insurance for soybeans planted for the development of hybrid seed or planted in the same row or interplanted in rows with corn.

(c) Spring wheat seeded for harvest as grain, excluding all durum wheat except red durum, and wheat seeded with flax or other small grains.

2. *Coverage per acre.* (a) The coverage per acre for flax and wheat shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for flax and wheat shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

(c) The coverage per acre for soybeans shall be reduced 10 percent for any acreage not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of any crop upon threshing or upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of flax and wheat, and in the case of soybeans December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with

respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any production of flax which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Soybeans which will not grade No. 4 or better (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated. Wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes occurring within the insurance period and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price the total value of such production, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

5. *Insurance unit.* An insurance unit means (a) all the insurable acreage of any one insured crop in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of any one insured crop in the county which is owned by one person and is operated by the insured as a share tenant at the time of planting, or (c) all insurable acreage of any one insured crop in the county which is owned by the insured and is rented to one share tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

6. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of the insured crop on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of the insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of the insured crop on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of (1) soybeans from acreage initially planted for purposes other than for harvest as beans or (2) spring wheat from acreage initially planted for purposes other than for harvest as grain) and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of the rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

8. *Definitions.* "Harvest" with respect to any acreage of flax, soybeans, or wheat means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

### § 420.71–2 *Chippewa County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Chippewa County, Minn., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Flax seeded for harvest as seed, excluding flax seeded with any other crop except perennial grasses or legumes other than vetch.

(c) Soybeans planted for harvest as beans, in rows far enough apart to permit intertilling with a row cultivator. The contract will not provide insurance for soybeans planted for the development of hybrid seed or planted in the same row or interplanted in rows with corn.

2. *Coverage per acre.* (a) The coverage per acre for corn and flax shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for corn and flax shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

(c) The coverage per acre for soybeans shall be reduced 10 percent for any acreage not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting and all other insured crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (1) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of flax, and in the case of corn and soybeans December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any production of corn or flax which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Soybeans which will not grade No. 4 or better (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated.

5. *Insurance unit.* An insurance unit means (a) all the insurable acreage of any one insured crop in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of any one insured crop in the county which is owned by one person and is operated by the insured as a share tenant at the time of planting, or (c) all insurable acreage of any one insured crop in the county which is owned by the insured and is rented to one share tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

6. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of the insured crop on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of the insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of the insured crop on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of soybeans from acreage initially planted for purposes other than for harvest as beans), except harvested production of corn from acreage not qualifying as harvested under the definition in item 8, and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of the rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

8. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of flax or soybeans means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

### § 420.71–3 *Dakota, Dodge, Faribault, Goodhue, Kandiyohi, McLeod and Nicollet Counties.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Dakota, Dodge, Faribault, Goodhue, Kandiyohi, McLeod and Nicollet Counties, Minn., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Oats planted for harvest as grain.

(c) Soybeans planted for harvest as beans, in rows far enough apart to permit intertilling with a row cultivator. The contract will not provide insurance for soybeans planted for development of hybrid seed or planted in the same row or interplanted in rows with corn.

2. *Coverage per acre.* (a) The coverage per acre for corn and oats shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for corn and oats shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

(c) The coverage per acre for soybeans shall be reduced 10 percent for any acreage not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting, all other insured crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (1) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of oats and in the case of corn and soybeans December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any threshed production of oats and any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any harvested production of soybeans which will not grade No. 4 or better (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated.

5. *Election of type of insurance protection.* The insured may elect to have insurance protection provided on the basis of (a) separate crop protection under which insurance units are determined separately for each insured crop, or (b) combines crop protection under which insurance units include a combination of all insured crops. The insured coverage, the premium, and any indemnity will be determined separately for each insurance unit. For the first crop year of a contract the election must be made at the time the application for insurance is filed. For any subsequent crop year such election may be made or changed by the insured notifying the county office in writing prior to the cancellation date for the crop year the change is to become effective. If no election is made by the insured, insurance will be provided on the basis of combined crop protection.

6. *Insurance unit.* (a) If combined crop protection is provided under the contract an insurance unit means (1) all the insurable acreage of all insured crops in the county in which the insured has 100 percent interest at the time of planting, or (2) all the insurable acreage of all insured crops in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (3) all the insurable acreage of all insured crops in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee; except in any case where a tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is insurable and planted to insured crops shall constitute an insurance unit.

(b) If separate crop protection is provided under the contract an insurance unit means the same as in (a) above except that insurance units will be determined separately for each insured crop.

7. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of all insured crops on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of each insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre and the result by the insured interest, and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of all insured crops on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of oats from acreage initially planted for purposes other than for harvest as grain), except harvested production of corn from acreage not qualifying as harvested under the definition in section 9 and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of this rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

8. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

9. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of oats, or soybeans means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

## § 420.71–4 *East Polk County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in East Polk County, Minn., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain, excluding barley planted with flax or other small grains.

(b) Flax planted for harvest as seed, excluding flax planted with any other crop except perennial grasses or legumes.

(c) Oats planted for harvest as grain.

(d) Spring wheat planted for harvest as grain, excluding all durum wheat except red durum, and excluding wheat planted with flax or other small grains.

2. *Coverage per acre.* (a) The coverage per acre for each crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for each crop shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of any crop upon threshing or upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any threshed production of barley, flax, or oats which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any threshed production of wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price the total value of such production, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

5. *Insurance unit.* An insurance unit means (a) all the insurable acreage of any one insured crop in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of any one insured crop in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (c) all insurable acreage of any one insured crop in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

6. *Claim for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) established the production of the insured crop on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of the insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of the insured crop on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of barley, oats, or wheat from acreage initially planted for purposes other than for harvest as grain) and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of this rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

8. *Definitions.* "Harvest" with respect to any acreage of barley, flax, oats or wheat means mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

## § 420.71–5 *Lac qui Parle County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Lac qui Parle County, Minn., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Flax seeded for harvest as seed, excluding flax seeded with any other crop except perennial grasses or legumes other than vetch.

(b) Soybeans planted for harvest as beans, in rows far enough apart to permit intertilling with a row cultivator. The contract will not provide insurance for soybeans planted for the development of hybrid seed or planted in the same row or interplanted in rows with corn.

2. *Coverage per acre.* (a) The coverage per acre for flax shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for flax shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

(c) The coverage per acre for soybeans shall be reduced 10 percent for any acreage not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of any crop upon threshing or upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (1) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of flax, and in the case of soybeans December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any production of flax which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Soybeans which will not grade No. 4 or better (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated.

5. *Insurance unit.* An insurance unit means (a) all the insurable acreage of any one insured crop in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of any one insured crop in the county which is owned by one person and is operated by the insured as a share tenant at the time of planting, or (c) all insurable acreage of any one insured crop in the county which is owned by the insured and is rented to one share tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

6. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of the insured crop on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of the insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of the insured crop on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of soybeans from acreage initially planted for purposes other than for harvest as beans) and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of the rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

## § 420.71–6 *Lincoln County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Lincoln County, Minn., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley seeded for harvest as grain, excluding barley seeded with flax, other small grains or vetch.

(b) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(c) Flax seeded for harvest as seed, excluding flax seeded with any other crop except perennial grasses or legumes other than vetch.

2. *Coverage per acre.* (a) The coverage per acre for barley, corn, and flax shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for barley, corn, and flax shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting and all other insured crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of barley and flax, and in the case of corn December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any production of barley, corn, or flax which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation.

5. *Insurance unit.* An insurance unit means (a) all the insurable acreage of any one insured crop in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of any one insured crop in the county which is owned by one person and is operated by the insured as a share tenant at the time of planting, or (c) all insurable acreage of any one insured crop in the county which is owned by the insured and is rented to one share tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

6. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of the insured crop on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of the insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of the insured crop on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of barley, corn, or flax which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of the rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

8. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of barley or flax means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

### § 420.71–7 *Pope County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Pope County, Minn., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley seeded for harvest as grain, excluding barley seeded with flax, other small grains or vetch.

(b) Flax seeded for harvest as seed, excluding flax seeded with any other crop except perennial grasses or legumes other than vetch.

(c) Soybeans planted for harvest as beans, in rows far enough apart to permit intertilling with a row cultivator. The contract will not provide insurance for soybeans planted for the development of hybrid seed or planted in the same row or interplanted in rows with corn.

2. *Coverage per acre.* (a) The coverage per acre for barley and flax shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for barley and flax shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

(c) The coverage per acre for soybeans shall be reduced 10 percent for any acreage not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of any crop upon threshing or upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of barley and flax, and in the case of soybeans December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any production of barley or flax which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Soybeans which will not grade No. 4 or better (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated.

5. *Insurance unit.* An insurance unit means (a) all the insurable acreage of any one insured crop in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of any one insured crop in the county which is owned by one person and is operated by the insured as a share tenant at the time of planting, or (c) all insurable acreage of any one insured crop in the county which is owned by the insured and is rented to one share tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

6. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of the insured crop on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of the insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of the insured crop on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of (1) soybeans from acreage initially planted for purposes other than for harvest as beans or (2) barley from acreage initially seeded for purposes other than for harvest as grain) and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of the rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without beleased by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

8. *Definitions.* "Harvest" with respect to any acreage of barley, flax or soybeans means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

### § 420.71–8 *Stearns County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Stearns County, Minn., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain, excluding barley planted with flax or other small grains.

(b) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(c) Oats planted for harvest as grain.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for each insured crop shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting, all other insured crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of barley and oats, and in the case of corn December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any threshed production of barley or oats and any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation.

5. *Election of type of insurance protection.* The insured may elect to have insurance protection provided on the basis of (a) separate crop protection under which insurance units are determined separately for each insured crop, or (b) combined crop protection under which insurance units include a combination of all insured crops. The insured coverage, the premium, and any indemnity will be determined separately for each insurance unit. For the first crop year of a contract the election must be made at the time the application for insurance is filed. For any subsequent crop year such election may be made or changed by the insured notifying the county office in writing prior to the cancellation date for the crop year the change is to become effective. If no election is made by the insured, insurance will be provided on the basis of combined crop protection.

6. *Insurance unit.* (a) If combined crop protection is provided under the contract an insurance unit means (1) all the insurable acreage of all insured crops in the county in which the insured has 100 percent interest at the time of planting, or (2) all the insurable acreage of all insured crops in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (3) all the insurable acreage of all insured crops in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee; except in any case where a tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is planted to insurable crops shall constitute an insurance unit.

(b) If separate crop protection is provided under the contract an insurance unit means the same as in (a) above except that insurance units will be determined separately for each insured crop.

7. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of all insured crops on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of each insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre and the result by the insured interest, and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of all insured crops on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of barley or oats from acreage initially planted for purposes other than for harvest as grain), except harvested production of corn from acreage not qualifying as harvested under the definition in section 9, and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of this rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

8. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

9. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage of such acreage.

(b) "Harvest" with respect to any acreage of barley or oats means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

### § 420.71–9 *Stevens County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Stevens County, Minn., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain, excluding barley planted with flax or other small grains.

(b) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broomcorn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(c) Flax planted for harvest as seed, excluding flax planted with any other crop except perennial grasses or legumes.

(d) Oats planted for harvest as grain.

(e) Soybeans planted for harvest as beans, in rows far enough apart to permit intertilling with a row cultivator. The contract will not provide insurance for soybeans planted for development of hybrid seed or planted in the same row or interplanted in rows with corn.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop except soybeans shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for each insured crop except soybeans shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

(c) The coverage per acre for soybeans shall be reduced 10 percent for any acreage not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting, all other insured crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of barley, flax, and oats and in the case of corn and soybeans December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any threshed production of barley, flax, or oats and any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any harvested production of soybeans which will not grade No. 4 or better (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated.

5. *Election of type of insurance protection.* The insured may elect to have insurance protection provided on the basis of (a) separate crop protection under which insurance units are determined separately for each insured crop, or (b) combined crop protection under which insurance units include a combination of all insured crops. The insured coverage, the premium, and any indemnity will be determined separately for each insurance unit. For the first crop year of a contract the election must be made at the time the application for insurance is filed. For any subsequent crop year such election may be made or changed by the insured notifying the county office in writing prior to the cancellation date for the crop year the change is to become effective. If no election is made by the insured, insurance will be provided on the basis of combined crop protection.

6. *Insurance unit.* (a) If combined crop protection is provided under the contract an insurance unit means (1) all the insurable acreage of all insured crops in the county in which the insured has 100 percent interest at the time of planting, or (2) all the insurable acreage of all insured crops in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (3) all the insurable acreage of all insured crops in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee; except in any case where a tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is planted to insurable crops shall constitute an insurance unit.

(b) If separate crop protection is provided under the contract an insurance unit means the same as in (a) above except that insurance units will be determined separately for each insured crop.

7. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of all insured crops on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be

determined by (1) multiplying the planted acreage of each insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre and the result by the insured interest, and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of all insured crops on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of barley or oats from acreage initially planted for purposes other than for harvest as grain), except harvested production of corn from acreage not qualifying as harvested under the definition in section 9 and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of this rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

## § 420.71–10 *Swift County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Swift County, Minn., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Flax planted for harvest as seed, excluding flax planted with any other crop except perennial grasses or legumes.

(c) Oats planted for harvest as grain.

(d) Soybeans planted for harvest as beans, in rows far enough apart to permit intertilling with a row cultivator. The contract will not provide insurance for soybeans planted for development of hybrid seed or planted in the same row or interplanted in rows with corn.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop except soybeans shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for each insured crop except soybeans shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

(c) The coverage per acre for soybeans shall be reduced 10 percent for any acreage not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting, all other insured crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of flax and oats and in the case of corn and soybeans December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any threshed production of flax, or oats and any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any harvested production of soybeans which will not grade No. 4 or better (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated.

5. *Election of type of insurance protection.* The insured may elect to have insurance protection provided on the basis of (a) separate crop protection under which insurance units are determined separately for each insured crop, or (b) combined crop protection under which insurance units include a combination of all insured crops. The insured coverage, the premium, and any indemnity will be determined separately for each insurance unit. For the first crop year of a contract the election must be made at the time the application for insurance is filed. For any subsequent crop year such election may be made or changed by the insured notifying the county office in writing prior to the cancellation date for the crop year the change is to become effective. If no election is made by the insured, insurance will be provided on the basis of combined crop protection.

6. *Insurance unit.* (a) If combined crop protection is provided under the contract an insurance unit means (1) all the insurable acreage of all insured crops in the county in which the insured has 100 percent interest at the time of planting, or (2) all the insurable acreage of all insured crops in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (3) all the insurable acreage of all insured crops in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee; except in any case where a tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is planted to insurable crops shall constitute an insurance unit.

(b) If separate crop protection is provided under the contract an insurance unit means the same as in (a) above except that insurance units will be determined separately for each insured crop.

7. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of all insured crops on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of each insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre and the result by the insured interest, and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of all insured crops on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of oats from acreage initially planted for purposes other than for harvest as grain), except harvested production of corn from acreage not qualifying as harvested under the definition in section 9 and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of this rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

8. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

9. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of flax, oats or soybeans means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

## § 420.71–11 *Yellow Medicine.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Yellow Medicine County, Minn., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Flax seeded for harvest as seed, excluding flax seeded with any other crop except perennial grasses or legumes other than vetch.

(c) Soybeans planted for harvest as beans, in rows far enough apart to permit intertilling with a row cultivator. The contract will not provide insurance for soybeans planted for the development of hybrid seed or planted in the same row or interplanted in rows with corn.

2. *Coverage per acre.* (a) The coverage per acre for corn and flax shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for corn and flax shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

(c) The coverage per acre for soybeans shall be reduced 10 percent for any acreage not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting and all other insured crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of flax, and in the case of corn and soybeans December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any production of corn or flax which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Soybeans which will not grade No. 4 or better (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated.

5. *Insurance unit.* An insurance unit means (a) all the insurable acreage of any one insured crop in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of any one insured crop in the county which is owned by one person and is operated by the insured as a share tenant at the time of planting, or (c) all insurable acreage of any one insured crop in the county which is owned by the insured and is rented to one share tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

6. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of the insured crop on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of the insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of the insured crop on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of soybeans from acreage initially planted for purposes other than for harvest as beans), except harvested production of corn from acreage not qualifying as harvested under the definition in item 8, and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured corp. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of the rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

8. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of flax or soybeans means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

## § 420.73 *Missouri.*

## § 420.73–3 *Cass and Cooper Counties.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Cass and Cooper Counties, Mo., Beginning With the 1956 Crop Year)

1. *Insurable crops.* Notwithstanding any other provisions of the contract, for the first crop year of the contract, the insurable crop(s) shall be those of the following designated by name on the application for insurance:

(a) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Winter wheat planted for harvest as grain, excluding wheat planted with other small grains. (Insurance to attach the first crop year of the contract only if the application is filed on or before September 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

For any subsequent crop year the designation of insurable crop(s) may be changed by the insured notifying the county office in writing prior to the cancellation date for the crop year the change is to become effective.

2. *Existing crop insurance contract.* The acceptance of the application upon which this policy is issued shall not cancel any existing wheat crop insurance contract between the insured and the Corporation for the 1956 crop year and such wheat insurance policy shall remain in full force and effect for the 1956 crop year. However, the acceptance of such application shall cancel effective beginning with the 1957 crop year any wheat

crop insurance contract between the insured and the Corporation.

3. *Coverage per acre.* (a) The coverage per acre for corn and wheat shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for corn and wheat shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

4. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting and the wheat crop upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of wheat, and in the case of corn December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

5. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation.

Any threshed production of wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price, the total value of such production, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

6. *Insurance unit.* An insurance unit means (a) all the insurable acreage of any one insured crop in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of any one insured crop in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (c) all insurable acreage of any one insured crop in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

7. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation on a form prescribed by the Corporation not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of the insured crop on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of the insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 5 of this rider) of the total production to be counted for such acreage of the insured crop on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of wheat from acreage initially planted for purposes other than for harvest as grain), except harvested production of corn from acreage not qualifying as harvested under the definition in section 9, and in addition, any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the vlaue (determined in accordance with section 5 of the rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

8. *Date table.*

Discount date: November 30.

Cancellation date: July 31.

Date by which county minimum participation requirement must be met for the 1957 and succeeding crop years: September 30 following the cancellation date for the crop year.

9. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 5 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of wheat means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

10. Notwithstanding the provisions of subsection (d) of section 6 of the policy, if in any crop year a premium is earned and totals less than $20.00 the amount shall be increased to $20.00.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.82 *North Dakota.*

§ 420.82–1 *Barnes County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Barnes County, N. Dak., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain, excluding barley planted with flax or other small grains.

(b) Flax planted for harvest as seed, excluding flax planted with any other crop except perennial grasses or legumes.

(c) Oats planted for harvest as grain.

(d) Winter rye planted for harvest as grain. (Insurance not to attach the first crop year of the contract.)

(e) Spring wheat planted for harvest as grain, excluding all durum wheat except red durum and excluding wheat planted with flax or other small grains.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for each insured crop shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of any crop upon threshing, or upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31, of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any threshed production of barley, flax, oats or rye which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any threshed production of wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price the total value of such production, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

5. *Insurance unit.* An insurance unit means (a) all the insurable acreage of all insured crops in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of all insured crops in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (c) all the insurable acreage of all insured crops in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee; except in any case where a tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is insurable and planted to insured crops shall constitute an insurance unit.

6. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of all insured crops on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of each insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre and the result by the insured interest, and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of all insured crops on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of barley, oats, rye or wheat from acreage initially planted for purposes other than for harvest as grain) and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of this rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

8. *Definitions.* "Harvest" with respect to any acreage of barley, flax, oats, rye or wheat means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.82 *North Dakota.*

§ 420.82-2 *Dickey, LaMoure, Ransom and Sargent Counties.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Dickey, LaMoure, Ransom and Sargent Counties, N. Dak., Beginning With 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain, excluding barley planted with flax or other small grains.

(b) Flax planted for harvest as seed, excluding flax planted with any other crop except perennial grasses or legumes.

(c) Oats planted for harvest as grain.

(d) Spring wheat planted for harvest as grain, excluding all durum wheat except red durum and excluding wheat planted with flax or other small grains.

2. *Coverage per acre.* (a) The coverage per acre for each crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for each crop shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of any crop upon threshing or upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any threshed production of barley, flax, or oats which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any threshed production of wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price the total value of such production, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

5. *Election of type of insurance protection.* The insured may elect to have insurance protection provided on the basis of (a) separate crop protection under which insurance units are determined separately for each insured crop, or (b) combined crop protection under which insurance units include a combination of all insured crops. The insured coverage, the premium, and any indemnity will be determined separately for each insurance unit. For the first crop year of a contract the election must be made at the time the application for insurance is filed. For any subsequent crop year such election may be made or changed by the insured notifying the county office in writing prior to the cancellation date for the crop year the change is to become effective. If no election is made by the insured, insurance will be provided on the basis of combined crop protection.

6. *Insurance unit.* (a) If combined crop protection is provided under the contract an insurance unit means (1) all the insurable acreage of all insured crops in the county in which the insured has 100 percent interest at the time of planting, or (2) all the insurable acreage of all insured crops in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (3) all the insurable acreage of all insured crops in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee; except in any case where a tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is planted to insurable crops shall constitute an insurance unit.

(b) If separate crop protection is provided under the contract an insurance unit means the same as in (a) above except that insurance units will be determined separately for each insured crop.

7. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) established the production of the insured crop on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of the insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of the insured crop on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be re-

duced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of barley, oats, or wheat from acreage initially planted for purposes other than for harvest as grain) and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of the rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

8. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

9. *Definition.* "Harvest" with respect to any acreage of barley, flax, oats or wheat means mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

## § 420.82–3 *Grand Forks, Pierce and Steele Counties.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Grand Forks, Pierce and Steele Counties, N. Dak., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain, excluding barley planted with flax or other small grains.

(b) Flax planted for harvest as seed, excluding flax planted with any other crop except perennial grasses or legumes.

(c) Oats planted for harvest as grain.

(d) Winter rye planted for harvest as grain. (Insurance not to attach the first crop year of the contract.)

(e) Spring wheat planted for harvest as grain, excluding wheat planted with flax or other small grains.

2. *Coverage per acre.* (a) The coverage per acre for each crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for each crop shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of any crop upon threshing or upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any threshed production of barley, flax, oats, or rye which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any threshed production of wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price the total value of such production, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

5. *Insurance unit.* An insurance unit means (a) all the insurable acreage of all insured crops in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of all insured crops in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (c) all the insurable acreage of all insured crops in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee; except in any case where a tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is insurable and planted to insured crops shall constitute an insurance unit.

6. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of the insured crop on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of the insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of the insured crop on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of barley, oats, rye or wheat from acreage initially planted for purposes other than for harvest as grain) and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes or loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of the rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for permium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

8. *Definitions.* "Harvest" with respect to any acreage of barley, flax, oats, rye or wheat means mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

## § 420.82–4 *Richland County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Richland County, N. Dak., Beginning With the 1955 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain.

(b) Corn normally regarded as field corn. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(c) Flax planted for harvest as seed.

(d) Oats planted for harvest as grain.

(e) Winter rye planted for harvest as grain. (Insurance not to attach the first crop year of the contract.)

(f) Soybeans planted for harvest as beans.

(g) Spring wheat planted for harvest as grain. (Excluding all durum wheat except red durum.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) October 31 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of barley, corn, flax, oats, rye, or soybeans which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Wheat which does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated.

5. *Released crop.* Notwithstanding any other provision of the policy, and crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of each insured crop (exclusive of any acreage to which insurance did not attach) by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, if the premium computed for the planted acreage is more than the premium computed for the acreage and interest shown on the acreage report for the insurance unit, the amount of loss so determined shall be reduced on the basis of the ratio of the premium computed for the acreage and interest shown on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall be the sum of all production determined in accordance with each of the applicable acreage classifications shown on the production schedule below. However, with respect to any acreage of corn which is not or will not be harvested as corn for grain, the production shall be the appraised production of corn for grain or the appraised or actual production of ensilage, whichever has the higher total value (on the basis of the price per bushel for corn as provided under section 4 above, or the value per ton for ensilage as determined by the Corporation): Provided, however, that if the appraised or actual production of corn which was or could have been used for ensilage is one ton or more per acre, the value of such production shall not be less than $3.00 per acre. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE FOR EACH INSURED CROP

| *Acreage classification* | *Total production* [1] |
|---|---|
| 1. Acreage released by the Corporation and planted to a substitute crop. | That portion of the appraised production for such acreage which is in excess of 50 percent of the harvested coverage divided by the predetermined price for the crop. |
| 2. Acreage not planted to a substitute crop. | The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder. |
| 3. Acreage put to another use without the consent of the Corporation. | Appraised production for such acreage but not less than the harvested coverage divided by the predetermined price for the crop. |
| 4. Acreage with reduced yield due solely to cause(s) not insured against. | Appraised number of bushels by which production for such acreage has been reduced but not less than the harvested coverage divided by the predetermined price for the crop, minus the number of bushels harvested. |
| 5. Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against. | Appraised number of bushels by which production for such acreage has been reduced because of cause(s) not insured against. |

[1] Production shall be in bushels for all crops.

(b) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year and declare the premium on such units forfeited by the insured, or (2) allocate the commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

## § 420.89 *South Dakota.*

## § 420.89–1 *Bon Homme County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Bon Homme County, S. Dak., Beginning With the 1956 Crop Year)

1. *Insurance crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain, excluding barley planted with flax or other small grains.

(b) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(c) Oats planted for harvest as grain.

(d) Winter rye planted for harvest as grain. (Insurance not to attach the first crop year of the contract.)

(e) Spring wheat planted for harvest as grain, excluding all durum wheat except red durum and excluding wheat planted with flax or other small grains.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for each insured crop shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting, all other insured crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of barley, oats, rye or wheat, and in the case of corn December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any threshed production of barley, oats or rye and any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any threshed production of wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess

of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price the total value of such production, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

5. *Insurance unit.* An insurance unit means (a) all the insurable acreage of all insured crops in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of all insured crops in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (c) all the insurable acreage of all insured crops in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee; except in any case where a tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is insurable and planted to insured crops shall constitute an insurance unit.

6. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of all insured crops on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of each insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre and the result by the insured interest, and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of all insured crops on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of barley, oats, rye and wheat from acreage initially planted for purposes other than for harvest as grain), except harvested production of corn from acreage not qualifying as harvested under the definition in section 8 and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of this rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

8. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of barley, oats, rye or wheat means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

### § 420.89–2 *Day County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Day County, S. D., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain, excluding barley planted with flax or other small grains.

(b) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(c) Flax planted for harvest as seed, excluding flax planted with any other crop except perennial grasses or legumes.

(d) Oats planted for harvest as grain.

(e) Winter rye planted for harvest as grain. (Insurance not to attach the first crop year of the contract.)

(f) Spring wheat planted for harvest as grain, excluding all durum wheat except red durum and, excluding wheat planted with flax or other small grains.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for each insured crop shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting, all other insured crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of barley, flax, oats, rye or wheat and in the case of corn December 10 of the calendar year in which the crop is normally harvested unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any threshed production of barley, flax, oats or rye and any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any threshed production of wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price the total value of such production, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

5. *Insurance unit.* An insurance unit means (a) all the insurable acreage of all insured crops in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of all insured crops in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (c) all the insurable acreage of all insured crops in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee; except in any case where a tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is insurable and planted to insured crops shall constitute an insurance unit.

6. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of all insured crops on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of each insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre and the result by the insured interest, and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of all insured crops on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of barley, oats, rye and wheat from acreage initially planted for purposes other than for harvest as grain), except harvested production of corn from acreage not qualifying as harvested under the definition in section 8 and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of this rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

8. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of barley, oats, rye or wheat means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

### § 420.89–3 *Deuel, Hamlin, Lake and McCook Counties.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Deuel, Hamlin, Lake, and McCook Counties, S. Dak., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain, excluding barley planted with flax or other small grains.

(b) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(c) Flax planted for harvest as seed, excluding flax planted with any other crop except perennial grasses or legumes.

(d) Oats planted for harvest as grain.

(e) Winter rye planted for harvest as grain. (Insurance not to attach the first crop year of the contract.)

(f) Soybeans planted for harvest as beans, in rows far enough apart to permit intertilling with a row cultivator. The contract will not provide insurance for soybeans planted for development of hybrid seed or planted in the same row or interplanted in rows with corn.

(g) Spring wheat planted for harvest as grain, excluding all durum wheat except red durum and excluding wheat planted with flax or other small grains.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop except soybeans shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for each insured crop except soybeans shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop,

(c) The coverage per acre for soybeans shall be reduced 10 percent for any acreage not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting, all other insured crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of barley, flax, oats, rye or wheat, and in the case of corn and soybeans December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any threshed production of barley, flax, oats or rye and any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any harvested production of soybeans which will not grade No. 4 or better (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated. Any threshed production of wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate of No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price the total value of such production, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

5. *Insurance unit.* An insurance unit means (a) all the insurable acreage of all insured crops in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of all insured crops in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (c) all the insurable acreage of all insured crops in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee; except in any case where a tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is insurable and planted to insured crops shall constitute an insurance unit.

6. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of all insured crops on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of each insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre and the result by the insured interest, and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of all insured crops on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of barley, oats, rye and wheat from acreage initially planted for purposes other than for harvest as grain), except harvested production of corn from acreage not qualifying as harvested under the definition in section 8 and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of this rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to

keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

8. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of barley, flax, oats, rye, soybeans or wheat means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

## § 420.89–4 *Grant County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Grant County, S. Dak., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley seeded for harvest as grain, excluding barley seeded with flax, other small grains or vetch.

(b) Flax seeded for harvest as seed, excluding flax seeded with any other crop except perennial grasses or legumes other than vetch.

(c) Oats seeded for harvest as grain.

(d) Spring wheat seeded for harvest as grain, excluding all durum wheat except red durum and wheat seeded with flax or other small grains.

2. *Coverage per acre.* (a) The coverage per acre for each crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for each crop shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of any crop upon threshing or upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any production of barley, flax, or oats which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes occurring within the insurance period and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price the total value of such production, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

5. *Insurance unit.* An insurance unit means (a) all the insurable acreage of any one insured crop in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of any one insured crop in the county which is owned by one person and is operated by the insured as a share tenant at the time of planting, or (c) all insurable acreage of any one insured crop in the county which is owned by the insured and is rented to one share tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

6. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of the insured crop on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of the insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, and the result by the insured interest and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of the insured crop on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of barley, oats, or wheat from acreage initially seeded for purposes other than for harvest as grain) and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of the rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

8. *Definitions.* "Harvest" with respect to any acreage of barley, flax, oats or wheat means mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

## § 420.89–5 *Hutchinson County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Hutchinson County, S. Dak., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain, excluding barley planted with flax or other small grains.

(b) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(c) Oats planted for harvest as grain.

(d) Winter rye planted for harvest as grain. (Insurance not to attach the first crop year of the contract.)

(e) Soybeans planted for harvest as beans, in rows far enough apart to permit intertilling with a row cultivator. The contract will not provide insurance for soybeans planted for development of hybrid seed or planted in the same row or interplanted in rows with corn.

(f) Spring wheat planted for harvest as grain, excluding all durum wheat except red durum and excluding wheat planted with flax or other small grains.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop except soybeans shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for each insured crop except soybeans shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

(c) The coverage per acre for soybeans shall be reduced 10 percent for any acreage not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting, all other insured crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of barley, oats, rye or wheat in the case of corn and soybeans December 10 of the calendar year in which the crop

is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any threshed production of barley, oats or rye and any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any harvested production of soybeans which will not grade No. 4 or better (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated. Any threshed production of wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price the total value of such production, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

5. *Insurance unit.* An insurance unit means (a) all the insurable acreage of all insured crops in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of all insured crops in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (c) all the insurable acreage of all insured crops in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee; except in any case where a tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is insurable and planted to insured crops shall constitute an insurance unit.

6. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured (1) establish the production of all insured crops on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be reuired by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of each insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre and the result by the insured interest, and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of all insured crops on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of barley, oats, rye and wheat from acreage initially planted for purposes other than for harvest as grain), except harvested production of corn from acreage not qualifying as harvested under the definition in section 8 and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of this rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

8. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of barley, oats, rye, soybeans or wheat means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

## § 420.89–6 *Kingsbury County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Kingsbury County, S. Dak., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain, excluding barley planted with flax or other small grains.

(b) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(c) Flax planted for harvest as seed, excluding flax planted with any other crop except perennial grasses or legumes.

(d) Oats planted for harvest as grain.

(e) Spring wheat planted for harvest as grain, excluding all durum wheat except red durum and excluding wheat planted with flax or other small grains.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for each insured crop shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting, all other insured crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect, (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of barley, flax, oats, or wheat and in the case of corn December 10 of the calendar year in which the crop is normally harvested unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any threshed production of barley, flax, or oats and any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any threshed production of wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price the total value of such production, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

5. *Election of type of insurance protection.* The insured may elect to have insurance protection provided on the basis of (a) separate crop protection under which insurance units are determined separately for each insured crop, or (b) combined crop protection under which insurance units include a combination of all insured crops. The insured coverage, the premium, and any indemnity will be determined separately for each insurance unit. For the first crop year of a contract the election must be made at the time the application for insurance is filed. For any subsequent crop year such election may be made or changed by the insured notifying the county office in writing prior to the cancellation date for the crop year the

change is to become effective. If no election is made by the insured, insurance will be provided on the basis of combined crop protection.

6. *Insurance unit.* (a) If combined crop protection is provided under the contract an insurance unit means (1) all the insurable acreage of all insured crops in the county in which the insured has 100 percent interest at the time of planting, or (2) all the insurable acreage of all insured crops in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (3) all the insurable acreage of all insured crops in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee; except in any case where a tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is planted to insurable crops shall constitute an insurance unit.

(b) If separate crop protection is provided under the contract an insurance unit means the same as in (a) above except that insurance units will be determined separately for each insured crop.

7. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of all insured crops on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of each insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre and the result by the insured interest, and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of all insured crops on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of barley, oats, and wheat from acreage initially planted for purposes other than for harvest as grain), except harvested production of corn from acreage not qualifying as harvested under the definition in section 9 and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of this rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

8. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

9. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of barley, flax, oats, or wheat means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

## § 420.98–7 *Miner County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Miner County, S. Dak., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain, excluding barley planted with flax or other small grains.

(b) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(c) Flax planted for harvest as seed, excluding flax planted with any other crop except perennial grasses or legumes.

(d) Oats planted for harvest as grain.

(e) Winter rye planted for harvest as grain. (Insurance not to attach the first crop year of the contract.)

(f) Spring wheat planted for harvest as grain, excluding all durum wheat except red durum and excluding wheat planted with flax or other small grains.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for each insured crop shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting, all other insured crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of barley, flax, oats, rye, or wheat and in the case of corn December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any threshed production of barley, flax, oats, or rye and any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any threshed production of wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price the total value of such production, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

5. *Insurance unit.* An insurance unit means (a) all the insurable acreage of all insured crops in the county in which the insured has 100 percent interest at the time of planting, or (b) all the insurable acreage of all insured crops in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (c) all the insurable acreage of all insured crops in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee; except in any case where a tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is insurable and planted to insured crops shall constitute an insurance unit.

6. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of all insured crops on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of each insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre and the result by the insured interest, and (2) subtracting from

the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of all insured crops on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including harvested production of barley, oats, rye, and wheat from acreage initially planted for purposes other than for harvest as grain), except harvested production of corn from acreage not qualifying as harvested under the definition in section 8 and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of this rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

8. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of barley, flax, oats, rye, and wheat means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

## § 420.90 *Tennessee.*

## § 420.90–2 *Obion County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Obion County, Tenn., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn planted for harvest as grain, including corn with which soybeans are interplanted. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Cotton, restricted to American upland cotton and not including cotton planted primarily for experimental purposes.

(c) Oats (Fall only) planted for harvest as grain.

(d) Soybeans planted for harvest as beans, in rows far enough apart to permit intertilling with a row cultivator. The contract will not provide insurance for soybeans planted for development of hybrid seed or planted in the same row or interplanted in rows with corn.

(e) Tobacco, types 23 and 35.

(f) Winter wheat planted for harvest as grain, excluding wheat planted with other small grains. (Insurance to attach the first crop year of the contract only if the application is filed on or before September 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* (a) The coverage per acre for corn, oats, and wheat shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for corn, oats, and wheat shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

(c) The coverage per acre for cotton shall be reduced as follows: (1) 75 percent for any acreage which is released by the Corporation or destroyed after it is too late to plant cotton but before the first cultivation, (2) 60 percent for any acreage which is released by the Corporation or destroyed after first cultivation but prior to laying by the crop and (3) 25 percent for any acreage on which the crop is laid by and not harvested.

(d) The coverage per acre for soybeans shall be reduced 10 percent for any acreage not harvested.

(e) The coverage per acre for tobacco shall be reduced 35 percent for any acreage not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to (a) any portion of the tobacco crop upon weighing-in at the tobacco warehouse, transfer of interest in the tobacco after harvest, removal of the tobacco from the insurance unit (except for curing, packing, or immediate delivery to the tobacco warehouse), or weighing of the tobacco for casing, (b) any portion of the corn crop upon harvesting, the cotton crop upon picking, all other insured crops upon threshing, or with respect to any portion of any crop (except tobacco) upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to tobacco later than March 31 following harvest unless such time is extended in writing by the Corporation, (b) with respect to any other crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year or (ii) October 31 in the case of oats and wheat and in the case of corn and soybeans December 10 and in the case of cotton December 31 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (c) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop except tobacco shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any threshed production of oats or any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. Any harvested production of soybeans which will not grade No. 4 or better (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be similarly evaluated. Any threshed production of wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price. Provided, when the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price the total value of such production, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price. Notwithstanding any other provision(s) of the contract in determining any loss the value of tobacco production to be counted shall be the value of all tobacco, including (a) the gross returns (less warehouse charges) from the tobacco sold on the warehouse floor, (b) the fair market value, as determined by the Corporation, of the tobacco sold other than on the warehouse floor, (c) the fair market value, as determined by the Corporation, of the tobacco harvested and not sold, and (d) the fair market value (if harvested and cured), as determined by the Corporation, of any unharvested tobacco.

5. *Insurance unit.* An insurance unit means (a) all the insurable acreage of all insured crops in the county in which the insured has 100 percent interest at the time of planting, plus any acreage owned by him and worked for him by a sharecropper(s), or (b) all the insurable acreage of all insured crops in the county which is owned by one person and is operated by the insured as a tenant at the time of planting or worked by the insured as a sharecropper, or (c) all the insurable acreage of all insured crops in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee; except in any case where a tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is insurable and planted to insured crops shall constitute an insurance unit.

6. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of all insured crops on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which

the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of each insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre and the result by the insured interest, and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of all insured crops on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of oats or wheat from acreage initially planted for purposes other than for harvest as grain), except harvested production of corn, cotton, or tobacco from acreage not qualifying as harvested under the definition in section 2, and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. Any production of soybeans interplanted in the same row with corn shall not be counted as production. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of this rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation. To enable the Corporation to determine the fair market value of tobacco not sold through auction warehouses, the Corporation shall be given the opportunity to inspect such tobacco before it is sold, contracted to be sold, or otherwise disposed of by the insured, and, if the best offer received by the insured for any such tobacco is considered by the Corporation to be inadequate, to obtain additional offers therefor on behalf of the insured. Notwithstanding the other provisions of this paragraph regarding the determination of the total production of cotton, in any case where the quality of any cotton production is reduced solely by insured causes to the extent that the value per pound, as determined by the Corporation, is less than 75 percent of the fixed price, the number of pounds of such poor quality cotton shall be adjusted downward to the number of pounds obtained by dividing the total value of such cotton, as determined by the Corporation, by 75 percent of the fixed price.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

8. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of cotton means the removal (by manual or mechanical means) of an amount of cotton from the stalk which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the coverage for such acreage.

(c) "Harvest" for any acreage means cutting or priming an amount of tobacco which equals or exceeds the pounds obtained by dividing 10 percent of the harvested coverage for such acreage by a price stated on the county actuarial table for the purpose of making this determination.

(d) "Harvest" with respect to any acreage of oats, soybeans, or wheat means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

## § 420.90–3 *Weakley County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Weakley County, Tenn., Beginning With the 1955 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn normally regarded as field corn, including corn with which soybeans are interplanted. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Cotton, restricted to American upland cotton and not including cotton planted primarily for experimental purposes.

(c) Soybeans planted for harvest as beans in rows 24 inches or more apart, excluding soybeans interplanted in the same row with corn.

(d) Sweet potatoes, excluding acreage of less than one acre on an insurance unit.

(e) Tobacco, Types 23 and 35.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop except cotton, shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage for any acreage of corn, except acreage released and planted to a substitute crop, shall be reduced 10 percent if the value (at the predetermined price) of the total of all production therefrom (determined in accordance with section 6 of this rider) does not equal or exceed 10 percent of the coverage for such acreage.

(c) The coverage per acre for cotton shall be reduced as follows: (1) 60 percent for any acreage which is released by the Corporation because of damage occurring prior to laying by the crop, and (2) 25 percent for any acreage on which the crop is laid by and not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to (a) any portion of the tobacco crop upon weighing-in at the tobacco warehouse, transfer of interest in the tobacco after harvest, removal of the tobacco from the insurance unit (except for curing, packing or immediate delivery to the tobacco warehouse) and (b) any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the cotton crop upon picking, the sweet potato crop upon digging, the soybean crop upon threshing, or with respect to any portion of any crop (except tobacco) upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to tobacco later than March 31 following harvest unless such time is extended in writing by the Corporation, (b) with respect to any other crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 31 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (c) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of corn, or soybeans which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy, any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of each insured crop (exclusive of any acreage to which insurance did not attach) by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, if the premium computed for the planted acreage is more than the premium computed for the acreage and interest shown on the acreage report for the insurance unit, the amount of loss so determined shall be reduced on the basis of the ratio of the premium computed for the acreage and interest shown on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall be the sum of all production determined in accordance with each of the applicable acreage classifications shown on the production schedule below. Any production of soybeans interplanted in the same row with corn shall not be counted as production.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

| Crop | Acreage classification | Total production [1] |
|---|---|---|
| 1. Each insured crop except cotton. | Acreage released by the Corporation and planted to a substitute crop. | That portion of the appraised production for such acreage which is in excess of 50 percent of the harvested coverage divided by the predetermined price for the crop. |
| 2. Each insured crop except cotton. | Acreage not planted to a substitute crop. | The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder. |
| 3. Cotton | Acreage released by the Corporation because of damage occurring prior to laying by the crop. | That portion of the appraised production for such acreage which is in excess of 60 percent of the harvested coverage divided by the predetermined price. |
| 4. Cotton | Acreage on which the crop is laid by and not harvested. | That portion of the appraised production for such acreage which is in excess of 25 percent of the harvested coverage divided by the predetermined price. |
| 5. Cotton | Acreage harvested | Production, including an appraisal of production left in the field after harvest. |
| 6. Each insured crop | Acreage put to another use without the consent of the Corporation. | Appraised production for such acreage but not less than the harvested coverage divided by the predetermined price for the crop. |
| 7. Each insured crop | Acreage with reduced yield due solely to cause(s) not insured against. | Appraised amount by which production for such acreage has been reduced but not less than the harvested coverage divided by the predetermined price for the crop, minus the amount of production harvested. |
| 8. Each insured crop | Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against. | Appraised amount by which production for such acreage has been reduced because of cause(s) not insured against. |

[1] Production shall be in bushels for corn, sweet potatoes, and soybeans and in pounds for cotton and tobacco. No production shall be counted for any corn acreage on which the coverage is reduced 10 percent under section 2 (b) of this rider.

Notwithstanding the other provisions of this paragraph (a) regarding the determination of the total production of cotton, in any case where the quality of any cotton production is reduced solely by insured causes to the extent that the value per pound, as determined by the Corporation, is less than 75 percent of the predetermined price, the number of pounds of such poor quality cotton shall be adjusted downward to the number of pounds obtained by dividing the total value of such cotton, as determined by the Corporation, by 75 percent of the predetermined price.

(b) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year and declare the premium on such units forfeited by the insured, or (2) allocate the commingled production in such manner as it determines appropriate.

7. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

8. *Definitions.* (a) "Harvest" with respect to any acreage of cotton means the removal (by manual or mechanical means) of an amount of cotton from the stalk which is equal in value (based on the predetermined price) to 10 percent or more of the coverage for such acreage.

Approved: Beginning with the 1955 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

## § 420.97 *Wisconsin.*

## § 420.97–1 *Fond du Lac County.*

RIDER NO. 1 TO MULTIPLE CROP INSURANCE POLICY

(Applicable in Fond du Lac County, Wis., Beginning With the 1956 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain, excluding barley planted with flax or other small grains.

(b) Corn planted for harvest as grain. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(c) Oats planted for harvest as grain.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for each insured crop shall be reduced 10 percent for any acreage not harvested and not planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting, all other insured crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) when harvest of such crop is generally complete for the crop year, or (ii) October 31 in the case of barley and oats, and in the case of corn December 10 of the calendar year in which the crop is normally harvested, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Fixed price used for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the fixed price established by the Corporation for that crop and shown on the county actuarial table. However, any threshed production of barley or oats and any corn which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation.

5. *Election of type of insurance protection.* The insured may elect to have insurance protection provided on the basis of (a) separate crop protection under which insurance units are determined separately for each insured crop, or (b) combined crop protection under which insurance units include a combination of all insured crops. The insured coverage, the premium, and any indemnity will be determined separately for each insurance unit. For the first crop year of a contract the election must be made at the time the application for insurance is filed. For any subsequent crop year such election may be made or changed by the insured notifying the county office in writing prior to the cancellation date for the crop year the change is to become effective. If no election is made by the insured, insurance will be provided on the basis of combined crop protection.

6. *Insurance unit.* (a) If combined crop protection is provided under the contract an insurance unit means (1) all the insurable acreage of all insured crops in the county in which the insured has 100 percent interest at the time of planting, or (2) all the insurable acreage of all insured crops in the county which is owned by one person and is operated by the insured as a tenant at the time of planting, or (3) all the insurable acreage of all insured crops in the county which is owned by the insured and is rented to one tenant at the time of planting. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee; except in any case where a tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is planted to insurable crops shall constitute an insurance unit.

(b) If separate crop protection is provided under the contract an insurance unit means the same as in (a) above except that insurance units will be determined separately for each insured crop.

7. *Claims for loss.* (a) Any claims for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured, (1) establish the production of all insured crops on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage of each insured crop on the insurance unit (exclusive of any acreage to which insurance did not attach) by the applicable coverage(a) per acre and the result by the insured interest, and (2) subtracting from the total thereof, the insured interest in the value (determined in accordance with section 4 of this rider) of the total production to be counted for such acreage of all insured crops on the insurance unit. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (including any harvested production of barley or oats from acreage initially planted for purposes other than for harvest as grain), except harvested production of corn from acreage not qualifying as harvested under the definition in section 9 and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without being released by the Corporation. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis.

In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with section 4 of this rider) of any insured crop harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation.

(d) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

8. *Date table.*

Discount date: November 30.

Cancellation date: February 28.

9. *Definitions.* (a) "Harvest" with respect to any acreage of corn means picking from the stalk either by hand or machine or cutting for fodder or silage an amount of corn which is equal in value (determined in accordance with section 4 of this rider) to 10 percent or more of the harvested coverage for such acreage.

(b) "Harvest" with respect to any acreage of barley or oats means the mechanical severance from the land of the matured crop for threshing where the crop has not been destroyed.

Approved: Beginning with the 1956 crop year.

## Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

[1026 (Burley, Flue, Fire, Air, and Sun—56)-1]

## PART 725—BURLEY, FLUE-CURED, FIRE-CURED, DARK AIR-CURED, AND VIRGINIA SUN-CURED TOBACCO

### MARKETING QUOTA REGULATIONS, 1956–57 MARKETING YEAR

GENERAL

Sec.

725.730 Basis and purpose.
725.731 Definitions.
725.732 Instructions and forms.
725.733 Extent of calculations and rule of fractions.

IDENTIFICATION AND LOCATION OF FARMS AND DETERMINATION OF ACREAGE

725.734 Identification and location of farms.
725.735 Determination of tobacco acreage.

FARM MARKETING QUOTAS AND MARKETING CARDS

725.736 Amount of farm marketing quota.
725.737 Transfer of farm marketing quota.
725.738 Issuance of marketing cards.
725.739 Persons authorized to issue marketing cards.
725.740 Rights of producers in marketing cards.
725.741 Successors in interest.
725.742 Invalid cards.
725.743 Report of misuse of marketing card.

MARKETING OR OTHER DISPOSITION OF TOBACCO AND PENALTIES

725.744 Extent to which marketings from a farm are subject to penalty.
725.745 Disposition of excess tobacco.
725.746 Identification of marketings.
725.747 Rate of penalty.
725.748 Persons to pay penalty.
725.749 Marketings deemed to be excess tobacco.
725.750 Payment of penalty.
725.751 Request for return of penalty.

RECORDS AND REPORTS

725.752 Producer's records and reports.
725.753 Warehouseman's records and reports.
725.754 Dealer's records and reports.
725.755 Dealers exempt from regular records and reports.
725.756 Records and reports of truckers and persons redrying, prizing or stemming tobacco.
725.757 Separate records and reports from persons engaged in more than one business.
725.758 Failure to keep records or make reports.
725.759 Additional records and reports to Director.
725.760 Examination of records and reports.
725.761 Length of time records and reports are to be kept.
725.762 Information confidential.

AUTHORITY: §§ 725.730 to 725.762 issued under sec. 375, 52 Stat. 66; 7 U. S. C. 1375. Interpret or apply 52 Stat. 38, 47, 48, 65, 66, as amended, 69 Stat. 24, 7 U. S. C. 1301, 1313, 1314, 1315, 1372, 1373, 1374, 1375.

### GENERAL

§ 725.730 *Basis and purpose.* Sections 725.730 to 725.762 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the issuance of marketing cards, the identification of tobacco, the collection and refund of penalties, and the records and reports incident thereto on the marketing of burley, flue-cured, fire-cured, dark air-cured, and Virginia sun-cured tobacco during the 1956–57 marketing year. Prior to preparing §§ 725.730 to 725.762, public notice (21 F. R. 3689) of their formulation was given in accordance with the Administrative Procedure Act (5 U. S. C. 1003). The data, views and recommendations pertaining to §§ 725.730 to 725.762, which were submitted have been duly considered within the limits permited by the Agricultural Adjustment Act of 1938, as amended. For the 1956–57 and subsequent marketing years the regulations relating to marketings of fire-cured, dark air-cured, and Virginia sun-cured tobacco are combined under Part 725 with the regulations relating to marketings of burley and flue-cured tobacco. Since county committees are now determining the acreage of tobacco on farms, and are preparing to issue marketing cards, and since farmers are engaged in harvesting tobacco and disposing of excess tobacco, and are marketing tobacco at nonwarehouse sale, it is hereby determined that compliance with the provisions of the Administrative Procedure Act with respect to the effective date is contrary to the public interest. Sections 725.730 to 725.762 shall therefore become effective upon filing with the Director, Division of the Federal Register.

§ 725.731 *Definitions.* As used in §§ 725.730 to 725.762, and in all instructions, forms, and documents in connection therewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) "Act" means the Agricultural Adjustment Act of 1938, as amended.

(b) "Carry-over" tobacco means, with respect to a farm, tobacco produced prior to the beginning of the calendar year 1956 which has not been marketed or which has not been disposed of under § 725.745.

(c) Committees:

(1) "Community committee" means the persons elected within a community as the community committee pursuant to regulations governing the selection and functions of Agricultural Stabilization and Conservation county and community committees.

(2) "County committee" means the persons elected within a county as the county committee pursuant to regulations governing the selection and functions of Agricultural Stabilization and Conservation county and community committees.

(3) "State committee" means the persons in a State designated by the Secretary as the Agricultural Stabilization and Conservation State committee.

(d) "County office manager" means the person employed by the county committee to execute the policies of the county committee and be responsible for the day-to-day operations of the ASC county office, or the person acting in such capacity.

(e) "Dealer" or "buyer" means a person who engages to any extent in the business of acquiring tobacco from producers without regard to whether such person is registered as a dealer with the Internal Revenue Service.

(f) "Deputy Administrator" means the Deputy Administrator or the Acting Deputy Administrator for Production Adjustment, Commodity Stabilization Service, United States Department of Agriculture.

(g) "Director" means Director or Acting Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture.

(h) "Farm" means all adjacent or nearby farm land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm land which the county committee determines is operated by the same person as part of the same unit with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that for any other land; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

(i) "Field assistant" means any duly authorized employee of the United States Department of Agriculture, and any duly authorized employee of an ASC county office whose duties involve the preparation and handling of records and reports pertaining to tobacco marketing quotas.

(j) "Floor sweepings" means scraps, leaves, or bundles of tobacco, generally of inferior quality, which accumulate on the warehouse floor and which not being subject to identification with any particular lot of tobacco are gathered up by the warehouseman for sale. Floor sweepings shall not include tobacco defined as "pick-ups".

(k) "Leaf account tobacco" means all tobacco purchased by or for a warehouseman and "leaf account" shall include the records required to be kept and copies of the reports required to be made under §§ 725.730 to 725.762 relating to tobacco purchased by or for a warehouseman and resales of such tobacco.

(l) "Market" means the disposition in raw or processed form of tobacco by voluntary or involuntary sale, barter, or exchange, or by gift inter vivos. "Marketing" and "marketed" shall have corresponding meanings to the term "market".

(m) "Nonwarehouse sale" means any first marketing of farm tobacco other than by sale at public auction through a warehouse in the regular course of business.

(n) "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(o) "Person" means an individual, partnership, association, corporation, estate or trust, or other business enterprise or other legal entity, and wherever applicable, a State, a political subdivision of a State or any agency thereof.

(p) "Pick-ups" means (1) "Pick-ups (a)," which is any tobacco sorted and reclaimed from leaves or bundles which have fallen to the warehouse floor in the usual course of business or (2) "Pick-ups (b)," which is any tobacco previously purchased at auction but not delivered to the buyer because of rejection by the buyer, lost ticket, or any other reason, and which is not turned back to a dealer other than the warehouseman and shall include tobacco delivered to the buyer but returned by the buyer to the warehouseman, and which is not turned back to a dealer other than the warehouseman.

(q) "Producer" means a person who, as owner, landlord, tenant, sharecropper, or laborer is entitled to share in the tobacco available for marketing from the farm or in the proceeds thereof.

(r) "Pound" means that amount of tobacco which, if weighed in its unstemmed form and in the condition in which it is usually marketed by producers, would equal one pound standard weight.

(s) "Resale" means the disposition by sale, barter, exchange, or gift inter vivos, of tobacco which has been marketed previously.

(t) "Sale day" means the period at the end of which the warehouseman bills to buyers the tobacco so purchased during such period.

(u) "Scrap tobacco" means the residue which accumulates in the course of preparing tobacco for market, consisting chiefly of portions of tobacco leaves and leaves of poor quality.

(v) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the Department to whom authority has been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(w) "State administrative officer" means the person employed by the State committee to execute the policies of the State committee and be responsible for the day-to-day operations of the ASC State office, or the person acting in such capacity.

(x) "Suspended sale" means any first marketing of farm tobacco at a warehouse sale for which a memorandum of sale is not issued by the end of the sale day on which such marketing occurred.

(y) "Tobacco" means each one or all, as indicated by the context, of the kinds of tobacco listed in this paragraph comprising the types specified, as classified in Service and Regulatory Announcement No. 118 (§§ 30.4 and 30.5 of this title) of the Bureau of Agricultural Economics of the United States Department of Agriculture.

Burley tobacco, comprising type 31;

Flue-cured tobacco, comprising types 11, 12, 13 and 14;

Fire-cured tobacco, comprising types 21, 22, 23, and 24;

Dark air-cured tobacco, comprising types 35 and 36;

Virginia sun-cured tobacco, comprising type 37.

(1) Any tobacco that has the same characteristics and corresponding qualities, colors, and lengths as either burley, flue-cured, fire-cured, dark air-cured, or Virginia sun-cured tobacco shall be considered respectively either burley, flue-cured, fire-cured, dark air-cured, or Virginia sun-cured tobacco regardless of any factors of historical or geographical nature which cannot be determined by examination of the tobacco.

(2) For the purpose of discovering and identifying all tobacco subject to marketing quotas the term "tobacco" with respect to any farm located in an area in which any kind of tobacco subject to marketing quotas is normally produced, shall include all acreage of tobacco on the farm. The acreage of each kind of tobacco (burley, flue-cured, fire-cured, dark air-cured, or Virginia sun-cured) shall be determined by the county committee on the basis of seeding, cultivating, curing, and marketing practices commonly known to the area. Such determination shall include all acreage of tobacco on the farm. The production of the acreage of each kind of tobacco so determined shall be considered to be tobacco of the kind available for marketing until such time as the operator of the farm furnishes to the county committee satisfactory proof that a part or all of the production of such acreage has been classified pursuant to Part 29, of this title when marketed, as a different kind of tobacco. Any amount of tobacco so classified as a different kind shall be converted to acres on the basis of the average yield per acre of the entire acreage of tobacco grown on the farm in 1956 for the purpose of determining the harvested acreage of such kind of tobacco produced on the farm.

(z) "Tobacco available for marketing" means all tobacco produced on the farm in the calendar year 1956 plus any carry-over tobacco, less any tobacco disposed of in accordance with § 725.745.

(aa) "Tobacco subject to marketing quotas" means:

(1) Any burley, fire-cured, dark air-cured or Virginia sun-cured tobacco marketed during the period October 1, 1956 to September 30, 1957, inclusive, and any burley, fire-cured, dark air-cured or Virginia sun-cured tobacco produced in the calendar year 1956 and marketed prior to October 1, 1956.

(2) Any flue-cured tobacco marketed during the period July 1, 1956, to June 30, 1957, inclusive, and any flue-cured tobacco produced in the calendar year 1956 and marketed prior to July 1, 1956.

(bb) "Trucker" means a person who engages to any extent in the business of trucking or hauling tobacco for producers to a point where it may be marketed or otherwise disposed of in the form and in the condition in which it is usually marketed by producers.

(cc) "Warehouseman" means a person who engages to any extent in the business of holding sales of tobacco at public auction at a warehouse.

(dd) "Warehouse sale" means a marketing of tobacco by a sale at public auction through a warehouse in the regular course of business, and shall include all lots or baskets of tobacco marketed in sequence at a given time.

§ 725.732 *Instructions and forms.* The Director shall cause to be prepared and issued such forms as are necessary, and shall cause to be prepared such instructions with respect to internal management as are necessary for carrying out the regulations in this part. The forms and instructions shall be approved by, and the instructions shall be issued by, the Deputy Administrator.

§ 725.733 *Extent of calculations and rule of fractions.* (a) The acreage of tobacco harvested on a farm in 1956 shall be expressed in hundredths and fractions of less than one hundredth of an acre shall be dropped. For example, 1.550, 1.555, or 1.559 acres would be 1.55 acres.

(b) The percentage of excess tobacco available for marketing from a farm, hereinafter referred to as the "percent excess" shall be expressed in tenths and fractions of less than one-tenth shall be dropped. For example, 12.59 percent would be 12.5 percent.

(c) The amount of penalty per pound upon marketings of tobacco subject to penalty, hereinafter referred to as the "converted rate of penalty," shall be expressed in tenths of a cent and fractions of less than a tenth shall be dropped, except that if the resulting converted rate of penalty is less than a tenth of a cent, it shall be expressed in hundredths and fractions of less than a hundredth shall be dropped. For example, 3.68 cents per pound would be 3.6 cents and 0.068 cent per pound would be 0.06 cent.

### IDENTIFICATION AND LOCATION OF FARMS AND DETERMINATON OF ACREAGE

§ 725.734 *Identification and location of farms.* (a) Each farm as operated for the 1956 crop of tobacco shall be

identified by a farm serial number assigned by the county office manager and all records pertaining to marketing quotas for the 1956 crop of tobacco shall be identified by such number.

(b) A farm shall be regarded as located in the county in which the principal dwelling is situated, or if there is no dwelling thereon it shall be regarded as located in the county in which the major portion of the farm is located.

§ 725.735 *Determination of tobacco acreage*—(a) *County committees.* For the purpose of ascertaining with respect to each farm whether there is excess tobacco of the 1956 crop available for marketing, the county committee shall determine the acreage of tobacco on each farm in the county for which a 1956 tobacco acreage allotment has been established and on any other farms in the county on which the county committee has reason to believe tobacco was planted. The county committee's determination shall be based upon a measurement of the acreage made by identification of fields or parts of fields by use of a map, aerial photography, or by means of a steel or metallic tape or chain, or rod and chain, or by use of a measurement wheel when authorized by the Deputy Administrator or by a combination of one or more of these methods. Such measurement shall be made by an employee of the county committee who has been designated as a reporter and determined by the county office manager to be qualified to carry out the duties of a reporter. The reporter shall visit each farm assigned to him for measurement and enter thereon if such entry will facilitate measurement. The county committee may at any time redetermine the tobacco acreage for any farm and shall, at the request of the State committee, make a redetermination of tobacco acreage for any farm. Such redetermination of tobacco acreage shall supersede any prior determination of tobacco acreage for the farm. A redetermination of tobacco acreage shall be based on measurements made in the manner provided for in this paragraph by either a reporter, county office manager, county performance supervisor, district performance supervisor, or any other employees of the ASC State office who are determined by the State administrative officer to be qualified to perform such measurements. In connection with any measurement of tobacco acreage for any farm made as provided in this paragraph, rechecks and spot checks of such measurements may be made by any of the county and State office employees authorized in this paragraph to perform measurements of farm tobacco acreage.

(b) *Farm operators.* The farm operator or his representative or any producer, at the reporter's request for such information or assistance, shall designate all fields on the farm being utilized for growing tobacco and may assist in measuring the farm, the acreage of cropland in the farm, or the acreage of tobacco being grown on the farm.

(c) *Notice to farm operators.* The county committee shall notify the farm operator of the measured acreage of tobacco on each farm as determined under the provisions of this section.

(d) *Harvested acreage of tobacco.* The acreage of tobacco determined or as redetermined for a farm by the county committee pursuant to this section shall be the harvested acreage of tobacco for the farm for the purpose of issuing the correct marketing card for the farm as provided in § 725.738 unless the farm operator furnishes to the county committee satisfactory proof that a portion of the acreage planted will not be harvested or that a representative portion of the production of the acreage physically harvested will be disposed of other than by marketing, in which case the harvested acreage shall be the acreage as adjusted by taking into account the portion of the acreage planted which will not be harvested or the portion of the production of the acreage physically harvested which will be disposed of other than by marketing.

(e) *Acreage not determined.* If the farm operator or his representative prevents the county committee from obtaining information necessary to determine the correct acreage of tobacco on a farm, in addition to any other liability which might be imposed upon the operator, and until the farm operator or his representative permits a determination of the correct acreage, all acreage of tobacco on the farm shall be deemed to be in excess of the farm acreage allotment for the purpose of issuing a marketing card for the farm.

(f) *Prior measurements.* Measurements made prior to the effective date of this section, and in accordance with procedures then in effect may be utilized where pertinent for the purpose of ascertaining with respect to any farm the 1956 tobacco acreage and the tobacco acreage in excess of the 1956 farm tobacco acreage allotment.

### FARM MARKETING QUOTAS AND MARKETING CARDS

§ 725.736 *Amount of farm marketing quota.* (a) The marketing quota for a farm shall be the actual production of tobacco on the farm acreage allotment, as established for the farm in accordance with §§ 725.711 to 725.729, 1023 (Burley and Flue—56)–1, Burley and Flue-cured Tobacco Marketing Quota Regulations, 1956–57 Marketing Year, as amended (20 F. R. 4571, 20 F. R. 6066, 21 F. R. 1577, 21 F. R. 1578) and §§ 726.711 to 726.729 of this chapter, 1023 (Fire, Air and Sun—56)–1, Fire-cured, Dark Air-cured, and Virginia Sun-cured Tobacco Marketing Quota Regulations, 1956–57 Marketing Year, as amended, (20 F. R. 6066, 21 F. R. 1578). The actual production of the farm acreage allotment shall be the average yield per acre of the entire acreage of tobacco harvested on the farm in 1956 times the farm acreage allotment.

(b) The excess tobacco on any farm shall be (1) that quantity of tobacco which is equal to the average yield per acre of the entire acreage of tobacco harvested on the farm in 1956 times the number of acres harvested in excess of the farm acreage allotment plus (2) any excess carry-over of tobacco.

§ 725.737 *Transfer of farm marketing quota.* There shall be no transfer of farm marketing quotas except as provided in §§ 725.720 and 725.726 of the burley and flue-cured tobacco marketing quota regulations and §§ 726.720 and 726.726 of the fire-cured, dark air-cured, and Virginia sun-cured tobacco marketing quota regulations of this chapter, for determining acreage allotments and normal yields, 1956–57 marketing year.

§ 725.738 *Issuance of marketing cards.* (a) A marketing card shall be issued for each farm having tobacco available for marketing. Subject to the approval of the county office manager or the State administrative officer as provided in § 725.739 two or more marketing cards may be issued for any farm. Upon the return to the ASC issuing office of the marketing card after all of the memoranda of sale have been issued therefrom and before the marketing of tobacco from the farm has been completed, a new marketing card of the same kind, bearing the same name, information and identification as the used card shall be issued for the farm. A new marketing card of the same kind shall be issued to replace a card which has been determined by the State Administrative Officer or county office manager, who issued the card, to have been lost, destroyed or stolen.

(b) *Within Quota Marketing Card (MQ–76—Tobacco).* A Within Quota Marketing Card authorizing price support loans and the marketing without penalty of any tobacco available for marketing shall be issued for a farm under the following conditions:

(1) If the harvested acreage of tobacco for the farm in 1956 is not in excess of the farm acreage allotment therefor and any excess carry-over tobacco can be marketed without penalty under the provisions of § 725.744 (b) except that if (i) more than one kind of tobacco is produced on a farm in 1956 a "zero percent" excess marketing card (ineligible for price support loans) shall be issued for each kind of tobacco for which the harvested acreage is not in excess of the farm acreage allotment if at the time of issuing marketing cards for the farm the harvested acreage of any kind is in excess of the farm acreage allotment; (ii) for any kind of tobacco the operator or any other producer on the farm fails to file with the county ASC office a written request (with deposit to cover the cost as estimated by the county committee) to dispose of excess tobacco or to have a remeasurement made of the tobacco acreage within ten (10) days from the date of notice to the farm operator on Form CSS–595—Tobacco, Notice of Excess Tobacco Acreage, a "zero percent" excess marketing card shall be issued for each such kind of tobacco unless the county committee with the approval of a representative of the State committee determines that the failure to file such written request was due to circumstances beyond the control of the farm operator or producer; or (iii) any tobacco is physically harvested from an acreage in excess of the allotment for the farm and is disposed of in accordance with § 725.745 (a), a "zero percent" excess marketing card shall be issued for each such kind of tobacco, unless the county committee

with the approval of a representative of the State committee determines that the acreage of tobacco was not measured in sufficient time to afford the farm operator an opportunity to dispose of the excess acreage prior to harvest.

(2) If the Director of a publicly-owned Agricultural Experiment Station furnishes to the ASC State office a list by counties showing with respect to each kind of tobacco and farm on which tobacco is grown for experimental purposes only the following:

(i) Name and address of the publicly-owned Experiment Station;

(ii) Name of the owner, and name of the operator if different from the owner, of each farm on which tobacco is grown for experimental purposes only;

(iii) The amount of acreage of tobacco grown on each farm for experimental purposes only;

(iv) A certification signed by the Director of the publicly-owned Agricultural Experiment Station to the effect that: (a) Such acreage of tobacco was grown on each farm for experimental purposes only; (b) the tobacco was grown under his direction; and (c) that the acreage in each plot was considered necessary for carrying out the experiment.

The list required in this subparagraph shall be posted and kept available for public inspection in the ASC office of the county in which the farms included in the list are located.

(c) *Excess Marketing Card (MQ–77—Tobacco).* An Excess Marketing Card (ineligible for price support loans) showing the extent to which marketings of tobacco from a farm are subject to penalty shall be issued unless a within quota marketing card is required to be issued for the farm under paragraph (b) of this section, except that if the farm operator or his representative prevents the county committee or its representative from obtaining information necessary to the issuance of the correct marketing card, an excess marketing card shall be issued showing that all tobacco from the farm is subject to the rate of penalty set forth in § 725.747.

§ 725.739 *Persons authorized to issue marketing cards.* (a) The State administrative officer shall be responsible for the issuance of marketing cards for the purpose of identifying tobacco grown for experimental purposes pursuant to the provisions of § 725.738 (b) (2).

(b) Except as provided in paragraph (a) of this section the county office manager shall be responsible for the issuance of marketing cards for farms in the county.

(c) Each marketing card shall be signed either by the State administrative officer or the county office manager or in his name and on his behalf by an employee under his supervision who shall place his initials immediately below the name of the State administrative officer or the name of the county office manager as the case may be.

§ 725.740 *Rights of producers in marketing cards.* Each producer having a share in the tobacco available for marketing from a farm shall be entitled to the use of the marketing card issued for the farm for marketing his proportionate share.

§ 725.741 *Successors in interest.* Any person who succeeds in whole or in part to the share of a producer in the tobacco available for marketing from a farm shall, to the extent of such succession, have the same rights as the producer to the use of the marketing card for the farm.

§ 725.742 *Invalid cards.* (a) A marketing card shall be invalid if:

(1) It is not issued or delivered in the form and manner prescribed;

(2) Entries are omitted or incorrect;

(3) It is lost, destroyed, stolen, or becomes illegible; or

(4) Any erasure or alternation has been made, and not properly initialed.

(b) In the event any marketing card becomes invalid (other than by loss, destruction, or theft, or by omission, alteration or incorrect entry which cannot be corrected by a field assistant), the farm operator, or the person having the card in his possession, shall return it to the ASC office at which it was issued.

(c) If any entry is not made on a marketing card as required, either through omission or incorrect entry, and the proper entry is made and initialed by a field assistant, then such card shall become valid.

§ 725.743 *Report of misuse of marketing card.* Any information which causes a field assistant, a member of a State, county, or community committee, or an employee of an ASC State or county office, to believe that any tobacco which actually was produced on one farm has been or is being marketed under the marketing card issued for another farm shall be reported immediately by such person to the ASC county or State office.

### MARKETING OR OTHER DISPOSITION OF TOBACCO AND PENALTIES

§ 725.744 *Extent to which marketings from a farm are subject to penalty.* (a) Marketings of tobacco from a farm having no carry-over tobacco available for marketing shall be subject to penalty by the percent excess determined as follows: Divide the acreage of tobacco harvested in excess of the farm acreage allotment and not disposed of under § 725.745 by the total acreage of tobacco harvested from the farm.

(b) Marketings of tobacco from a farm having carry-over tobacco available for marketing shall be subject to penalty by the percent excess determined as follows:

(1) Determine the number of "carry-over" acres by dividing the number of pounds of carry-over tobacco from the prior years by the normal yield for the farm for that year.

(2) Determine the number of "within quota carry-over acres" by multiplying the "carry-over acres" (subparagraph (1) of this paragraph) by the "percent within quota" (i. e., 100 percent minus the percent excess) for the year in which the carry-over tobacco was produced, except that if the excess portion of the carry-over tobacco is disposed of under § 725.745, the "percent within quota" shall be 100.

(3) Determine the "total acres" of tobacco by adding the "carry-over acres" (subparagraph (1) of this paragraph) and the acreage of tobacco harvested in the current year.

(4) Determine the "excess acres" by subtracting from the "total acres" (subparagraph (3) of this paragraph) the sum of the 1956 allotment and the "within quota carry-over acres" (subparagraph (2) of this paragraph).

(5) Determine the percent excess by dividing the "total acres" into the "excess acres" (subparagraph (4) of this paragraph).

(6) Those persons having an interest in the carry-over tobacco for a farm shall be liable for the payment of any penalty due thereon.

(c) For the purpose of determining the penalty due on each marketing by a producer of tobacco subject to penalty, the converted rate of penalty per pound shall be determined by multiplying the applicable rate of penalty by the percent excess obtained under paragraph (a) or (b) of this section. The memorandum of sale issued to identify each such marketing shall show the amount of penalty due.

§ 725.745 *Disposition of excess tobacco.* (a) The farm operator may elect to give satisfactory proof of disposition of excess tobacco prior to the marketing of any tobacco from the farm by furnishing to the county committee satisfactory proof that excess tobacco representative of the entire crop will not be marketed.

(b) If the 1956 harvested acreage is less than the 1956 allotment an amount of any tobacco from the farm which was placed under storage for a prior marketing year equal to the normal production of the acreage by which the 1956 harvested acreage plus any acreage added with respect to any excess carry-over tobacco for the farm pursuant to § 725.744 (b) is less than the 1956 allotment may be marketed penalty free.

§ 725.746 *Identification of marketings.* Each marketing of tobacco from a farm shall be identified by an executed memorandum of sale from the 1956 marketing card (MQ–76—Tobacco or MQ–77—Tobacco) issued for the farm on which the tobacco was produced. In addition, in the case of nonwarehouse sales each marketing shall also be identified by an executed bill of nonwarehouse sale (reverse side of memorandum of sale).

(a) *Separate display on warehouse floor.* Any warehouseman upon whose floor more than one kind of tobacco is offered for sale at public auction shall display each such kind of tobacco separately and shall make and keep records that will insure a separate accounting of each of such kinds of tobacco sold at auction over the warehouse floor.

(b) *Memorandum of sale.* (1) If a memorandum of sale is not executed to identify a warehouse sale of producer's tobacco by the end of the sale day on which the tobacco was marketed, the marketing shall be a suspended sale, and, unless a memorandum identifying the tobacco so marketed is executed on or before the last warehouse sale day of the marketing season, or within four weeks after the date of marketing, whichever

comes first, the marketing shall be identified by MQ–82—Tobacco, Sale Without Marketing Card, as a marketing of excess tobacco. The memorandum of sale on MQ–82—Tobacco shall be executed only by a field assistant or other representative of the State administrative officer with the following exceptions:

(i) A warehouseman, or his representative, who has been authorized on MQ–78—Tobacco, may issue a memorandum of sale to identify a warehouse sale if a field assistant is not available at the warehouse when the marketing card is presented. Each memorandum of sale issued by a warehouseman to cover a warehouse sale shall be presented promptly by him to the field assistant for verification with the warehouse records.

(ii) In the case of flue-cured tobacco only, a dealer, or his authorized representative, operating a receiving point for scrap tobacco at a redrying plant (and other regular receiving points operated by such dealer or his agent or employees) or at an auction warehouse, who keeps records showing the information specified in § 725.754, and who has been authorized on MQ–78—Tobacco, may issue a memorandum of sale covering a purchase of scrap tobacco only if the bill of nonwarehouse sale has been executed.

(iii) A dealer, or his authorized representative, operating a regular receiving point for tobacco who keeps records showing the information specified in § 725.754 and who has been authorized on MQ–78—Tobacco, may issue memoranda of sale covering tobacco delivered directly to such receiving point and marketed to such dealer.

(2) The authorization on MQ–78—Tobacco to issue memoranda of sale may be withdrawn by the State administrative officer from any or all persons so authorized if such action is determined to be necessary in order to properly enforce the provisions of §§ 725.730 to 725.762. The authorization shall terminate upon receipt of written notice setting forth the reason therefor.

(3) Each excess memorandum of sale issued by a field assistant shall be verified by a warehouseman or dealer (or his representative) to determine whether the amount of penalty shown to be due has been correctly computed and such warehouseman or dealer shall not be relieved of any liability with respect to the amount of penalty due because of any error which may occur in executing the memorandum of sale.

(c) *Bill of nonwarehouse sale.* (1) Each nonwarehouse sale shall be identified by a bill of nonwarehouse sale completely executed by the buyer and the farm operator.

(2) The word "scrap" shall be plainly written on any bill of nonwarehouse sale or memorandum of sale executed to cover scrap tobacco, and all such bills of nonwarehouse sale shall be delivered to a person at a scrap receiving point who is authorized to issue memoranda of sale.

(3) Each bill of nonwarehouse sale covering any marketing except scrap tobacco shall be presented to a field assistant for the issuance of a memorandum of sale and for recording in MQ–79—Tobacco.

§ 725.747 *Rate of penalty.* Marketings of each kind of excess tobacco from a farm shall be subject to a penalty per pound equal to seventy-five (75) percent of the average market price for the kind of tobacco for the 1955–56 marketing year as determined by the Crop Reporting Board, Agricultural Marketing Service, United States Department of Agriculture. The rate of penalty per pound shall be calculated to the nearest whole cent.

(a) *Average market price.* The average market price as determined by the Crop Reporting Board, Agricultural Marketing Service, United States Department of Agriculture, for the 1955–56 marketing year was 58.6 cents per pound in the case of burley tobacco, 52.7 cents per pound in the case of flue-cured tobacco, 37.3 cents per pound in the case of fire-cured tobacco, 31.8 cents per pound in the case of dark air-cured tobacco and 25.3 cents per pound in the case of Virginia sun-cured tobacco.

(b) *Rate of penalty per pound.* The penalty per pound upon marketings of excess tobacco subject to marketing quotas during the 1956–57 marketing year shall be forty-four (44) cents per pound in the case of burley tobacco, forty (40) cents per pound in the case of flue-cured tobacco, twenty-eight (28) cents per pound in the case of fire-cured tobacco, twenty-four (24) cents per pound in the case of dark air-cured tobacco, and nineteen (19) cents per pound in the case of Virginia sun-cured tobacco.

(c) *Proportional rate of penalty.* With respect to tobacco marketed from farms having excess tobacco available for marketing, the penalty shall be paid upon that percentage of each lot of tobacco marketed which the tobacco available for marketing in excess of the farm marketing quota is of the total amount of tobacco available for marketing from the farm, as determined under § 725.744.

§ 725.748 *Persons to pay penalty.* The persons to pay the penalty due on any marketing of tobacco subject to penalty shall be determined as follows:

(a) *Warehouse sale.* The penalty due on marketings by a producer through a warehouse shall be paid by the warehouseman who may deduct an amount equivalent to the penalty from the price paid to the producer.

(b) *Nonwarehouse sale.* The penalty due on tobacco purchased directly from a producer other than at public auction through a warehouse shall be paid by the purchaser of the tobacco who may deduct an amount equivalent to the penalty from the price paid to the producer.

(c) *Marketings through an agent.* The penalty due on marketings by a producer through an agent who is not a warehouseman shall be paid by the agent who may deduct an amount equivalent to the penalty from the price paid to the producer.

(d) *Marketing outside the United States.* The penalty due on marketings by a producer directly to any person outside the United States shall be paid by the producer.

§ 725.749 *Marketings deemed to be excess tobacco.* Any marketing of tobacco under any one of the following conditions shall be deemed to be a marketing of excess tobacco:

(a) *Warehouse sale.* Any warehouse sale of tobacco by a producer which is not identified by a valid memorandum of sale on or before the last warehouse sale day of the marketing season or within four weeks following the date of marketing whichever comes first, shall be identified by a MQ–82—Tobacco, and shall be deemed to be a marketing of excess tobacco. The penalty thereon shall be paid by the warehouseman.

(b) *Nonwarehouse sale.* Any nonwarehouse sale which (1) is not identified by a valid bill of nonwarehouse sale (reverse side of memorandum of sale) and (2) is not also identified by a valid memorandum of sale and recorded in MQ–79—Tobacco within one week following the date of purchase, or if purchased prior to the opening of the local auction markets, is not identified by a valid memorandum of sale and recorded in MQ–79—Tobacco within one week following the first sale day of the local auction markets, shall be deemed to be a marketing of excess tobacco. The penalty thereon shall be paid by the purchaser of such tobacco.

(c) *Leaf account tobacco.* The part or all of any marketing by a warehouseman which such warehouseman represents to be a leaf account resale but which when added to prior leaf account resales, as reported under §§ 725.730 to 725.762, is in excess of prior leaf account purchases shall be deemed to be a marketing of excess tobacco unless and until such warehouseman furnishes proof acceptable to the State committee showing that such marketing is not a marketing of excess tobacco. The penalty thereon shall be paid by the warehouseman.

(d) *Dealer's tobacco.* The part or all of any marketing of tobacco by a dealer which such dealer represents to be a resale but which when added to prior resales by such dealer is in excess of the total of his prior purchases as reported on MQ–79—Tobacco shall be deemed to be a marketing of excess tobacco unless and until such dealer furnishes proof acceptable to the State committee showing that such marketing is not a marketing of excess tobacco. The penalty thereon shall be paid by the dealer.

(e) *Marketings not reported.* Any resales of tobacco which under §§ 725.730 to 725.762 is required to be reported by a warehouseman or dealer but which is not so reported within the time and in the manner required by §§ 725.730 to 725.762 shall be deemed to be a marketing of excess tobacco unless and until such warehouseman or dealer furnishes a report of such resale which is acceptable to the State administrative officer. The penalty thereon shall be paid by the warehouseman or dealer who fails to make the report as required.

(f) *Marketings falsely identified.* If any marketing of tobacco by a person other than the producer thereof is identified by a marketing card other than the marketing card issued for the farm on which such tobacco was produced, such marketing shall be deemed to be a marketing of excess tobacco and the penalty thereon shall be paid by such person.

(g) *Producer marketings.* (1) If any producer falsely identifies or fails to account for the disposition of any tobacco produced on a farm, an amount of tobacco equal to the normal yield of the number of acres harvested in 1956 in excess of the farm acreage allotment shall be deemed to have been a marketing of excess tobacco from such farm. The penalty thereon for false identification or failure to account shall be paid by the producer and shall be due on the date of the false identification or failure to account. The filing of a report by a producer under § 725.752 (c) which the State committee finds to be incomplete or incorrect shall constitute a failure to account for the disposition of tobacco produced on the farm.

(2) If, after part or all of the tobacco produced on a farm has been marketed, the State or county committee concludes that the harvested acreage for the farm was more than that shown by the prior determination any penalty due on the basis of the harvested acreage as redetermined pursuant to § 725.735 shall be paid by the producer.

§ 725.750 *Payment of penalty.* (a) Penalties shall become due at the time the tobacco is marketed, except in the case of tobacco removed from storage as provided in § 725.745 (b) or in the case of false identification or failure to account for disposition. Penalty shall be paid by remitting the amount thereof to the ASC State office not later than the end of the calendar week following the week in which the tobacco became subject to penalty. A draft, money order, or check drawn payable to the Treasurer of the United States may be used to pay any penalty, but any such draft or check shall be received subject to payment at par.

(b) If the penalty due on any warehouse sale of tobacco by a producer as determined under §§ 725.730 to 725.762 is in excess of the net proceeds of such sale (gross amount for all lots included in the sale less usual warehouse charges), the amount of the net proceeds accompanied by a copy of the warehouse bill covering such sale may be remitted as the full penalty due. Usual warehouse charges shall not include (1) advances to producers, (2) charges for hauling, or (3) any other charges not usually incurred by producers in marketing tobacco through an auction warehouse.

(c) Nonwarehouse sales, including sales of scrap tobacco, shall be subject to the converted rate of penalty for the farm on which the tobacco was produced without regard to the net proceeds of the sale.

§ 725.751 *Request for return of penalty.* Any producer of tobacco after the marketing of all tobacco available for marketing from the farm and any other person who bore the burden of the payment of any penalty may request the return of the amount of such penalty which is in excess of the amount required under §§ 725.730 to 725.762 to be paid. Such request shall be filed on MQ–85—Tobacco with the ASC county office within two (2) years after the payment of the penalty.

RECORDS AND REPORTS

§ 725.752 *Producer's records and reports.*—(a) *Report of tobacco acreage.* The farm operator or his representative shall execute and file a report with the ASC county office or a representative of the county committee on Form CSS–578, Report of 1956 Acreage, showing all fields of tobacco on the farm in 1956. If any producer on a farm files or aids or acquiesces in the filing of any false report with respect to the acreage of tobacco grown on the farm, even though the farm operator or his representative refuses to sign such report, the allotment next established for such farm and kind of tobacco shall be reduced as provided in the applicable Tobacco Marketing Quota Regulations for Determining Acreage Allotments and Normal Yields, 1957–58 Marketing Year.

(b) *Report on marketing card.* The operator of each farm on which tobacco is produced in 1956 shall return to the ASC county office each marketing card issued for the farm whenever marketings from the farm are completed and in no event later than thirty (30) days after the close of the tobacco auction markets for the locality in which the farm is located. Failure to return the marketing card within fifteen (15) days after written request by certified mail from the county office manager shall constitute failure to account for disposition of tobacco marketed from the farm and in the event that a satisfactory account of such disposition is not furnished otherwise to the county committee, the allotment next established for such farm and kind of tobacco shall be reduced as provided in the applicable tobacco marketing quota regulations for determining acreage allotments and normal yields, 1957–58 marketing year.

(c) *Report of production and disposition.* In addition to any other reports which may be required under §§ 725.730 to 725.762, the operator of each farm or any other person having an interest in the tobacco grown on the farm (even though the harvested acreage does not exceed the acreage allotment or even though no allotment was established for the farm) shall upon written request by registered or certified mail from the State administrative officer within fifteen (15) days after the deposit of such request in the United States mails, addressed to such person at his last known address, furnish the Secretary on form MQ–108—Tobacco a written report of the acreage, production, and disposition of all tobacco produced on the farm by sending the same to the ASC State office showing, as to the farm at the time of filing said report, (1) the number of fields (patches or areas) from which tobacco was harvested, the acres of tobacco harvested from each such field, and the total acreage of tobacco harvested from the farm, (2) the total pounds of tobacco produced, (3) the amount of tobacco on hand and its location, and (4) as to each lot of tobacco marketed, the name and address of the warehouseman, dealer, or other person to or through whom such tobacco was marketed and the number of pounds marketed, the gross price, and the date of the marketing. Failure to file the report as requested or the filing of a report which is found by the State committee to be incomplete or incorrect shall constitute failure of the producer to account for disposition of tobacco produced on the farm and the allotment next established for such farm and kind of tobacco shall be reduced as provided in the applicable tobacco marketing quota regulations for determining acreage allotments and normal yiels, 1957–58 marketing year.

§ 725.753 *Warehouseman's records and reports.*—(a) *Record of marketing.* (1) Each warehouseman shall keep such records as will enable him to furnish the ASC State office with respect to each warehouse sale of tobacco made at his warehouse the following information.

(i) The name of the operator of the farm on which the tobacco was produced and the name of the seller in the case of a sale by a producer, and in the case of a resale the name of the seller.

(ii) Date of sale.

(iii) Number of pounds sold.

(iv) Gross sale price.

(v) Amount of any penalty and the amount of any deduction on account of penalty from the price paid the producer(s); and in addition with respect to each individual basket or lot of tobacco constituting the warehouse sale the following information:

(vi) Name of purchaser.

(vii) Number of pounds sold.

(viii) Gross sale price.

(2) Records of all purchases and resales of tobacco by the warehouseman shall be maintained to show a separate account for:

(i) Nonwarehouse sales by farmers of tobacco purchased by or on behalf of the warehouseman.

(ii) Purchases and resales for the warehouse leaf account.

(iii) Resales of floor sweepings.

(iv) Resales of pick-ups, with respect to both subparagraphs (1) and (2) as defined in § 725.731 (p).

(3) Any warehouseman or any other person who grades tobacco for farmers shall maintain records which will enable him to furnish the ASC State office the name of the farm operator and the approximate amount of scrap tobacco obtained from the grading of tobacco from each farm.

(4) In the case of resales for dealers the name of the dealer making each resale shall be shown on the warehouse records to that the individual lots of tobacco sold by the dealer can be identified.

(b) *Identification of sale on check register.* The serial number of the memorandum of sale issued to identify each warehouse sale by a producer or the number of the warehouse bill(s) covering each such sale shall be recorded on the check register or check stub for the check written with respect to such sale of tobacco.

(c) *Memorandum of sale and bill of nonwarehouse sale.* A record in the form of a valid memorandum of sale or a

MQ–82—Tobacco, Sale Without Marketing Card, shall be obtained by a warehouseman to cover each marketing of tobacco from a farm through the warehouse and each nonwarehouse sale of tobacco purchased by or for the warehouseman. For a nonwarehouse sale of tobacco purchased by or for a warehouseman, no memorandum of sale shall be issued unless the bill of nonwarehouse sale on the reverse side of the memorandum is executed. Any warehouseman who obtains possession of any scrap tobacco in the course of grading tobacco from any farm shall obtain a memorandum of sale to cover the amount of such scrap tobacco.

(d) *Suspended sale record.* Any warehouse bills covering farm tobacco for which memoranda of sale have not been issued at the end of the sale day shall be presented to a field assistant who shall stamp such bills "Suspended," write thereon the serial number of the suspended sale, and record the bills on MQ–83—Tobacco, Field Assistant's Report: *Provided*, That if a field assistant is not available, the warehouseman may stamp such bills "Suspended," and deliver them to a field assistant when one is available.

(e) *Warehouse entries on dealer's record.* Each warehouseman shall record on MQ–79—Tobacco the total purchases and resales made by each dealer or other warehouseman during each sale day at the warehouse and enter his initials in the space provided. If any tobacco resold by the dealer is tobacco bought by him from a crop produced prior to 1956 the entry on MQ–79—Tobacco shall clearly show such fact.

(f) *Record and report of purchases and resales.* Each warehouseman shall keep a record and make reports on MQ–79—Tobacco, Dealer's Record, showing:

(1) All purchases of tobacco directly from producers other than at public auction through a warehouse (nonwarehouse sales).

(2) All purchases and resales of tobacco at public auction through warehouses other than his own.

(3) All purchases of tobacco from dealers other than warehouseman and resales of tobacco to dealers other than warehousemen.

(g) *Season report of warehouse business.* Each warehouseman shall furnish the ASC State office not later than thirty (30) days following the last sale day of the marketing season a report on MQ–80—Tobacco, Auction Warehouse Report showing:

(1) For each dealer or buyer, as originally billed, the total pounds and gross amount of tobacco purchased and resold on the warehouse floor.

(2) The total pounds and gross amount of "loan tobacco" billed to any association.

(3) The total pounds and gross amount of all leaf account tobacco purchased and resold and of all pick-ups (§ 725.731 (p) (1) or (2)), or floor sweepings sold by the warehouseman at public auction over his own warehouse floor.

(4) The pounds and estimated value of all tobacco on hand at the time of filing the report and whether such tobacco represents leaf account tobacco, pick-ups (§ 725.731 (p) (1) or (2)), or floor sweepings.

(5) The total pounds and gross amount of all tobacco purchased directly from farmers other than at public auction through a warehouse.

(6) The total pounds and gross amount of all purchases over other warehouse floors or from dealers other than warehousemen and all resales over other warehouse floors or to dealers other than warehousemen.

(h) *Report of penalties.* Each warehouseman shall make reports on MQ–81—Tobacco, Report of Penalties, showing for each sale of tobacco subject to penalty:

(1) The name of the farm operator,
(2) The memorandum number,
(3) The name of the county in which the farm is located,
(4) The farm serial number,
(5) The number of pounds sold,
(6) The amount of penalty due on each such sale, and
(7) The applicable converted rate of penalty.

MQ–81—Tobacco shall be prepared for each week and forwarded together with remittance of the penalty due as shown thereon to the ASC State office not later than the end of the calendar week following the week in which the tobacco became subject to penalty.

(i) *Report of resales.* Each warehouseman shall make reports on MQ–86—Tobacco, Report of Resales, showing for each resale of tobacco at auction on the warehouse floor:

(1) The warehouse bill number,
(2) The name on the warehouse bill,
(3) The name of the seller, or in the case of a resale for the warehouse, whether such resale represents leaf account tobacco, pickups, or floor sweepings;
(4) The registration number and State of the person making the resale,
(5) The number of pounds sold, and
(6) The gross amount for the sale.

MQ–86—Tobacco shall be prepared for each sale day and forwarded to the ASC State office not later than the end of the calendar week following the week in which the tobacco was resold.

(j) *Additional records and reports by warehousemen.* Each warehouseman shall keep such records and furnish such reports to the ASC State office, in addition to the foregoing, as the State Administrative Officer may find necessary to insure the proper identification of the marketings of tobacco and the collection of penalties due thereon as provided in §§ 725.730 to 725.762.

§ 725.754 *Dealer's records and reports.* Each dealer, except as provided in § 725.755, shall keep the records and make the reports as provided by this section.

(a) *Report of dealer's name, address and registration number.* Each dealer shall properly execute and the field assistant shall detach and forward to the ASC State office "Receipt for Dealer's Record" contained in MQ–79—Tobacco which is issued to the dealer.

(b) *Record and report of purchases and resales.* Each dealer shall keep a record and make reports on MQ–79—Tobacco, Dealer's Record, showing all purchases and resales of tobacco made by or for the dealer and, in the event of resale of tobacco bought from a crop produced prior to 1956, the fact that such tobacco was bought by him and carried over from a crop produced prior to 1956.

(c) *Report of penalties.* Each dealer shall make a report on MQ–81—Tobacco, Report of Penalties, showing for each purchase, other than by warehouse sale, of tobacco subject to penalty:

(1) The name of the farm operator,
(2) The memorandum number,
(3) The name of the county in which the farm is located,
(4) The farm serial number,
(5) The number of pounds purchased;
(6) The applicable converted rate of penalty, and
(7) The amount of penalty due on each such purchase.

MQ–81—Tobacco shall be prepared for each week and forwarded together with remittance of the penalty due as shown thereon to the ASC State office not later than the end of the calendar week following the week in which the tobacco became subject to penalty.

(d) *Memorandum of sale and bill of nonwarehouse sale.* A bill of nonwarehouse sale and a memorandum of sale from the 1956 marketing card issued for the farm on which the tobacco was produced shall be obtained by a dealer to cover each purchase of tobacco directly from a producer other than at auction through a warehouse. No memorandum of sale shall be issued identifying such purchase unless the bill of nonwarehouse sale on the reverse side of the memorandum of sale has been executed.

(e) *Record and report of scrap tobacco.* Each dealer operating a receiving point for scrap tobacco who has been authorized on MQ–78—Tobacco to issue memoranda of sale shall keep a record and make reports on MQ–79—Tobacco showing all tobacco received. Such reports shall be accompanied by memoranda of sale and bills of nonwarehouse sale with respect to all tobacco covered by the reports.

(f) *Additional records.* (1) Each dealer shall keep such records in addition to the foregoing as will enable him to furnish the ASC State office with respect to each lot of tobacco purchased by him the following information:

(i) The name of the warehouse through which the tobacco was purchased in the case of a warehouse sale; the name of the operator of the farm on which the tobacco was produced and the name of the seller in the case of a nonwarehouse sale; and the name of the seller in the case of purchases directly from werehousemen or other dealers.
(ii) Date of purchase.
(iii) Number of pounds purchased.
(iv) Gross purchase price.
(v) Amount of any penalty and the amount of any deduction on account of penalty from the price paid the producer(s); and with respect to each lot of tobacco sold by him the following information:

(vi) Name of the warehouse through which the tobacco was sold in the case of a warehouse sale, and the name of the purchaser if other than a warehouse sale.
(vii) Date of sale.
(viii) Number of pounds sold.
(ix) Gross sale price.
(x) In the event of a resale of tobacco bought by him and carried over from a crop produced prior to 1956 the fact that such tobacco was so bought and carried over.

(2) All reports shall be forwarded to the ASC State office not later than the end of the week following the calendar week covered by the reports.

§ 725.755 *Dealers exempt from regular records and reports.* Any dealer or buyer who does not purchase or otherwise acquire tobacco except at warehouse sales, or directly from dealers other than warehousemen, and who does not resell in the form in which tobacco ordinarily is sold by farmers more than 10 percent of such tobacco so purchased by him shall not be subject to the provisions of § 725.754: *Provided, however*, That any such dealer or buyer who purchases tobacco at nonwarehouse sale, or from a warehouseman other than at warehouse sale shall be subject to the provisions of § 725.754 with respect to such purchases. Each such dealer or buyer shall make such reports to the State Administrative Officer, in addition to the foregoing, as he may find necessary to enforce §§ 725.730 to 725.762.

§ 725.756 *Records and reports of truckers and persons redrying, prizing or stemming tobacco.* (a) Each person engaged to any extent in the business of trucking or hauling tobacco for producers to a point where it may be marketed or otherwise disposed of in the form and in the condition in which it is usually marketed by producers shall keep such records as will enable him to furnish the ASC State office a report with respect to each lot of tobacco received by him showing:

(1) The name and address of the producer,
(2) The date of receipt of the tobacco,
(3) The number of pounds received, and
(4) The name and address of the person to whom it was delivered.

(b) Each person engaged to any extent in the business of redrying, prizing or stemming tobacco for producers shall keep such records as will enable him to furnish the Director a report showing:

(1) The information required above for truckers, and in addition,
(2) The purpose for which the tobacco was received,
(3) The amount of advance made by him on the tobacco, and
(4) The disposition of the tobacco.

§ 725.757 *Separate records and reports from persons engaged in more than one business.* Any person who is required to keep any record or make any report as a warehouseman, dealer, trucker, or as a person engaged in the business of redrying, prizing or stemming tobacco for producers, and who is engaged in more than one such business, shall keep such records as will enable him to make separate reports for each such business in which he is engaged to the same extent for each such business as if he were engaged in no other business.

§ 725.758 *Failure to keep records or make reports.* Any warehouseman, dealer, trucker, or person engaged in the business of redrying, prizing, or stemming tobacco for producers, who fails to make any report or keep any record as required under §§ 725.730 to 725.762, or who makes any false report or record, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than $500; and any tobacco warehouseman or dealer who fails to remedy such violation by making a complete and accurate report or keeping a complete and accurate record as required under §§ 725.730 to 725.762 within fifteen days after notice to him of such violation shall be subject to an additional fine of $100 for each ten thousand pounds of tobacco, or fraction thereof, bought or sold by him after the date of such violation: *Provided*, That such fine shall not exceed $5,000; and notice of such violation shall be served upon the tobacco warehouseman or dealer by mailing the same to him by registered mail or by posting the same at an established place of business operated by him or both. Notice of any violation by a warehouseman, dealer or trucker shall be given by the State Administrative Officer and notice of violation by a person engaged in the business of redrying, prizing or stemming tobacco for producers shall be given by the Director.

§ 725.759 *Additional records and reports to Director.* Any warehouseman, dealer, trucker, or person engaged in the business of redrying, prizing or stemming tobacco for producers shall, in addition to any records required to be kept or any reports required to be made, under §§ 725.730 to 725.762, keep such records and make such reports to the Director as he may find necessary to enforce §§ 725.730 to 725.762.

§ 725.760 *Examination of records and reports.* For the purpose of ascertaining the correctness of any report made or record kept, or of obtaining information required to be furnished in any report but not so furnished, any warehouseman, dealer, trucker, or person engaged in the business of redrying, prizing or stemming tobacco for producers shall make available for examination by employees of the ASC State office, and by employees of the Compliance and Investigation Division and of the Tobacco Division of the Commodity Stabilization Service, United States Department of Agriculture, upon written request by the State administrative officer or Director, such books, papers, records, accounts, cancelled checks, correspondence, contracts, documents, and memoranda as the State administrative officer or Director has reason to believe are relevant and are within the control of such person.

§ 725.761 *Length of time records and reports are to be kept.* Records required to be kept and copies of the reports required to be made by any person under §§ 725.730 to 725.762 for the 1956–57 marketing year shall be kept by him until June 30, 1959, in the case of flue-cured tobacco and September 30, 1959, in the case of burley, fire-cured, dark air-cured and Virginia sun-cured tobacco. Records shall be kept for such longer period of time as may be requested in writing by the State administrative officer or the Director.

§ 725.762 *Information confidential.* All data reported to or acquired by the Secretary pursuant to the provisions of §§ 725.730 to 725.762 shall be kept confidential by all officers and employees of the United States Department of Agriculture and by all members of county and community committees and all ASC county office employees and only such data so reported or acquired as the Deputy Administrator deems relevant shall be disclosed by them and then only in a suit or administrative hearing under Title III of the Act.

NOTE: The record keeping and reporting requirements of these regulations have been approved by and subsequent reporting requirements will be subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Done at Washington, D. C., this 19th day of June 1956. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
*Acting Secretary of Agriculture.*

## Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 74]

### PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

#### LIMITATION OF HANDLING

§ 922.374 *Valencia Orange Regulation 74*—(a) *Findings.* (1) Pursuant to Order No. 22 (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time

when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Valencia Orange Administrative Committee held an open meeting on June 21, 1956, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., June 24, 1956, and ending at 12:01 a. m., P. s. t., July 1, 1956, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 785,400 cartons;

(iii) District 3: Unlimited movement.

(2) Valencia oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "handler," "District 1," "District 2," and "District 3," have the same meaning as when used in said order; and "carton" means the standard one-half orange, grapefruit or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 22, 1956.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[Plum Order 6]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.530 *Plum Order 6*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 24, 1956. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 19, 1956; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 19, 1956; after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are now being made and this section should be applicable, insofar as possible, to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 24, 1956, and ending at 12:01 a. m., P. s. t., November 1, 1956, no shipper shall ship any package or container of Tragedy plums unless such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade, and

(i) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 5 x 6 standard pack;

(ii) If the plums are packed in a special plum box, they are of a size not smaller than a size that will pack an 8½-row standard pack;

(iii) If the plums are packed in any container other than a standard basket or special plum box, ninety (90) percent, by count, of the plums measure 1 9/16 inches in diameter and of the remainder of the plums none measures less than 1 9/16 inches in diameter: *Provided,* That, no lot of plums shall be considered as failing to meet this requirement if one package of such plums contains not more than one (1) percent, by count, of plums that are smaller than 1 9/16 inches in diameter; and

(iv) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided,* That, a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(2) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(3) As used in this section, "U. S. No. 1," "serious damage," "fairly uniform in size," and "standard pack" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh) (§§ 51.1520 to 51.1530 of this title); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "special plum box" shall mean the special plum box set forth in section 828.15 of the Agricultural Code of California; "8½-row standard pack" shall mean that the top layer of the pack contains 72 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "diameter" means the shortest distance measured through the center of a plum at a right angle to a line running from the stem to the blossom end; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 21, 1956.

[Plum Order 7]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.531 *Plum Order 7*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 24, 1956. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 19, 1956; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 19, 1956, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information were submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 24, 1956; and this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 24, 1956, and ending at 12:01 a. m., P. s. t., November 1, 1956, no shipper shall ship any package or container of Wickson plums unless such plums grade at least U. S. No. 1 with a total tolerance of five (5) percent for defects not considered serious damage in addition to the tolerances permitted for such grade, and

(i) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 4 x 4 standard pack;

(ii) If the plums are packed in a special plum box, they are of a size not smaller than a size that will pack a 6-row standard pack;

(iii) If the plums are packed in any container other than a standard basket or special plum box, ninety (90) percent, by count, of the plums measure 1 9/16 inches in diameter and of the remainder of the plums none measures less than 1 9/16 inches in diameter: *Provided,* That, no lot of plums shall be considered as failing to meet this requirement if one package of such plums contains not more than one (1) percent, by count, of plums that are smaller than 1 9/16 inches in diameter; and

(iv) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided,* That a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(2) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this regulation. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(3) As used in this section, "U. S. No. 1," "serious damage," "fairly uniform in size," and "standard pack" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh) (§§ 51.1520 to 51.1530 of this title); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "special plum box" shall mean the special plum box set forth in section 828.15 of the Agricultural Code of California; "6-row standard pack" shall mean that the top layer of the pack contains 39 plums which are fairly uniform in size, and the plums in the top layer are not superior in size to those in the remainder of the pack; "diameter" means the shortest distance measured through the center of a plum at a right angle to a line running from the stem to the blossom end; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

[Plum Order 8]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.532 *Plum Order 8*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 24, 1956. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 19, 1956; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on June 19, 1956, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information were submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 21, 1956, and this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 24, 1956, and ending at 12:01 a. m., P. s. t., November 1, 1956, no shipper shall ship from any shipping point during any day any package or container of Eldorado plums unless such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade and, except to the extent otherwise permitted under this paragraph.

(i) If the plums are packed in a standard basket they are of a size not smaller than a size that will pack a 4 x 4 standard pack;

(ii) If the plums are packed in a special plum box, they are of a size not smaller than a size that will pack a 6-row standard pack;

(iii) If the plums are packed in any container other than a standard basket or special plum box, ninety (90) percent,

by count, of the plums measure 1 11/16 inches in diameter and of the remainder of the plums none measures less than 1 9/16 inches in diameter: *Provided*, That, no lot of plums shall be considered as failing to meet this requirement if one package of such plums contains not more than one (1) percent, by count, of plums that are smaller than 1 9/16 inches in diameter; and

(iv) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided*, That a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(2) During each day of the aforesaid period, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than the size prescribed in subparagraph (1) of this paragraph if said quantity does not exceed one hundred (100) percent of the number of the same type of packages or containers of plums shipped by such shipper which meet the size requirement of said subparagraph (1) of this paragraph and all such smaller plums meet the applicable one of following requirements:

(i) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 4 x 5 standard pack;

(ii) If the plums are packed in a special plum box, they are of a size not smaller than a size that will pack a 7-row standard pack;

(iii) If the plums are packed in any container other than a standard basket or special plum box, ninety (90) percent, by count, of the plums measure 1 10/16 inches in diameter and of the remainder of the plums none measures less than 1 7/16 inches in diameter: *Provided*, That, no lot of plums shall be considered as failing to meet this requirement if one package of such plums contains not more than one (1) percent, by count, of plums that are smaller than 1 7/16 inches in diameter; and

(iv) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided*, That, a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(3) If any shipper, during any day of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than the size prescribed in subparagraph (1) of this paragraph, the quantity of such undershipment may be shipped by such shipper only from such shipping point during the next 2 succeeding calendar days but only after shipment has been made of any other quantities of such smaller-sized plums such shipper is authorized to ship on those 2 succeeding calendar days.

(4) As used in this section, "U. S. No. 1," "fairly uniform in size," "diameter," and "standard pack" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh) (§§ 51.1520 to 51.1530 of this title); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "special plum box" shall mean the special plum box set forth in section 828.15 of the Agricultural Code of California; "6-row standard pack" shall mean that the top layer of the pack contains 39 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "7-row standard pack" shall mean that the top layer of the pack contains 52 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(5) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this regulation. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

## PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

### REGULATION BY GRADES AND SIZES

§ 936.533 *Plum Order 9*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 24, 1956. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until June 19, 1956; recommendation as to the need for, and the extent of regulation of shipments of such plums was made at the meeting of said committee on June 19, 1956, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information were submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 25, 1956; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 24, 1956, and ending at 12:01 a. m., P. s. t., November 1, 1956, no shipper shall ship from any shipping point during any day any package or container of Burbank plums unless such plums grade at least U. S. No. 1 and, except to the extent otherwise permitted under this paragraph,

(i) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 4 x 4 standard pack;

(ii) If the plums are packed in a special plum box, they are of a size not smaller than a size that will pack a 6-row standard pack;

(iii) If the plums are packed in any container other than a standard basket or special plum box, ninety (90) percent, by count, of the plums measure 1 11/16 inches in diameter and of the remainder of the plums none measures less than 1 9/16 inches in diameter: *Provided*, That, no lot of plums shall be considered as failing to meet this requirement if one package of such plums contains not more than one (1) percent, by count, of plums that are smaller than 1 9/16 inches in diameter; and

(iv) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided*, That, a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(2) During each day of the aforesaid period, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than the size prescribed in subparagraph (1) of this paragraph if said quantity does not exceed one hundred (100) percent of the number of the same type of packages or containers of plums shipped by such shipper which meet the size requirement of said subparagraph (1) of this paragraph and all such smaller plums meet the applicable one of following requirements:

(i) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 4 x 5 standard pack;

(ii) If the plums are packed in a special plum box, they are of a size not smaller than a size that will pack a 7-row standard pack;

(iii) If the plums are packed in any container other than a standard basket or special plum box, ninety (90) percent, by count, of the plums measure 1 10/16 inches in diameter and of the remainder of the plums none measures less than 1 7/16 inches in diameter: *Provided*, That, no lot of plums shall be considered as failing to meet this requirement if one package of such plums contains not more than one (1) percent, by count, of plums that are smaller than 1 7/16 inches in diameter; and

(iv) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided*, That, a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(3) If any shipper, during any day of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than the size prescribed in subparagraph (1) of this paragraph, the quantity of such undershipment may be shipped by such shipper only from such shipping point during the next 2 succeeding calendar days but only after shipment has been made of any other quantities of such smaller-sized plums such shipper is authorized to ship on those 2 succeeding calendar days.

(4) As used in this section, "U. S. No. 1," "fairly uniform in size," "diameter," and "standard pack" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh) (§§ 51.1520 to 51.1530 of this title); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "special plum box" shall mean the special plum box set forth in section 828.15 of the Agricultural Code of California; "6-row standard pack" shall mean that the top layer of the pack contains 39 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "7-row standard pack" shall mean that the top layer of the pack contains 52 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.
